VOL. 2 WASHINGTON, MONDAY, JULY 1, 1918. No. 349

EXPORT LICENSE REVOCATION DATE POSTPONED TWO WEEKS BY THE WAR TRADE BOARD

TERMS OF THE NEW REGULATION

Licenses for Great Britain, France, Italy and Belgium Will Not Be Valid After July 14—Notices Given to Certain Shippers.

The War Trade Board issues the following:

The War Trade Board announces (in a new ruling, W. T. B. R. 156) that all outstanding export licenses granted on or before May 14, 1918, for shipments to the United Kingdom, France, Italy, and Belgium (excluding their colonies, possessions, and protectorates) will not be revoked on July 1, 1918, as announced on May 13, 1918 (W. T. B. R. 104), but, instead, will be revoked on July 14, 1918. Therefore, licenses to export to the above-mentioned territories, which were granted on or before May 14, 1918, must be used on or before July 14, 1918, after which they will not be valid. Such licenses shall be deemed to have been used within the period of their validity if the shipping documents conform to the provisions of the regulations governing the expiration date of export licenses as announced June 29, 1918 (W. T. B. R. 152).

Use of Licenses Limited.

On and after July 15, 1918, licenses to export to the above-mentioned territories may be used only provided they have been issued on or after May 15, 1918. Steamship companies and other carriers should protect themselves by demanding from exporters satisfactory evidence that all licenses for shipments to the above-mentioned territories which are to be used on or after July 15, 1918, were granted on or after May 15, 1918. To obviate delays it is suggested that shippers show on all four copies of their Shipper's Export Declaration the date of the issuance of the license as well as the expiration date thereof. If licenses issued prior to May 14 are not to be used before July 14, 1918, exporters may make application for new licenses. In such cases appropriate supplemental information sheets must be attached, and the application filed through the mission in the United States of the country to which the exportation is to be made, in the manner prescribed by the War Trade Board in the announcement of May 13, 1918 (W. T. B. R. 104).

Values Less Than $100.

Attention is called to the announcement made May 15, 1918 (W. T. B. R. 113),

(Continued on page 16.)

20 Survivors of Dwinsk, Including U. S. Officer, Landed at Hampton

The Committee on Public Information issues the following:

The Navy Department is informed that 20 survivors of the steamship *Dwinsk*, which was sunk by submarines, arrived at Hampton Roads Saturday night. They were picked up at sea by a naval vessel on June 28. The party included Lieut. (Junior Grade) Ross P. Whitemarsh, United States Navy, who was on the *Dwinsk* at the time she was torpedoed.

"GARABED" PRINCIPLE NOT SOUND, SPECIAL COMMISSION REPORTS

Free Energy Model not in Shape To Run or Develop Power, Investigators Say.

The Department of the Interior authorizes publication of the following:

We, the undersigned, who are members of the commission duly appointed in accordance with the provisions of public resolution No. 21, Sixty-fifth Congress, hereby certify that Mr. Garabed T. K. Giragossian showed us on Saturday, June 29, 1918, a model embodying the principles of his invention known as the "Garabed." We found that the model was not in shape to run or to develop power. The inventor admitted that he had no working machine and that he was merely explaining principles. We do not believe that his principles are sound, that his device is operative, or that it can result in the practical development or utilization of free energy.

Witness our signatures at Boston, Mass., this 29th day of June, 1918.

James A. Moyer, director, Massachusetts State Board of Education.

DOCKS AND PIERS AT NEW YORK OWNED BY GERMAN COMPANIES TAKEN OVER BY UNITED STATES

PROCLAMATION BY THE PRESIDENT

Title Acquired to All Terminal Equipment of North German Lloyd and Hamburg-American Lines Located on the Hudson River.

By the President of the United States of America.

A Proclamation.

Whereas the act of Congress making appropriations to supply urgent deficiencies in appropriations for the fiscal year ending June 30, 1918, and prior fiscal years, on account of war expenses and for other purposes, approved March 28, 1918 (Public No. 109, Sixty-fifth Congress), contains the following provisions:

"The President is authorized to acquire the title to the docks, piers, warehouses, wharves, and terminal equipment and facilities on the Hudson River now owned by the North German Lloyd Dock Company and the Hamburg-American Line Terminal and Navigation Company, two corporations of the State of New Jersey, if he shall deem it necessary for the national security and defense: *Provided*, That if such property can not be procured by purchase, then the President is authorized and empowered to take over for the United States the immediate possession and title thereof. If any such property shall be taken over as aforesaid, the United States shall make just compensation therefor, to be determined by the President. Upon the taking over of said property by the President, as aforesaid, the title to all such property so taken over shall immediately vest in the United States: *Provided further*, That section 355 of the Revised Statutes of the United States shall not apply to any expenditures herein or hereafter authorized in connection with the property acquired."

Now, therefore, I, Woodrow Wilson, President of the United States of America, pursuant to the authority vested in me by the said act of Congress approved March 28, 1918, do hereby determine and declare that the acquisition of title to the foregoing docks, piers, warehouses, wharves, and terminal equipment and facilities is necessary for the national security and defense, and I do hereby take over for the United States of America the immediate possession and title thereof, including all leaseholds, easements, rights of way, riparian rights, and other rights, estates, and interests therein or appurtenant thereto.

Just compensation for the property hereby taken over will be hereafter determined and paid.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 28th day of June, One thousand nine hundred and eighteen, and of the Independence of the United States one hundred and forty-two.

[SEAL.] WOODROW WILSON.

By the President:
ROBERT LANSING,
Secretary of State.

WAR TRADE BOARD RESTRICTS TANNING MATERIAL IMPORTS

The War Trade Board issues the following:

Tanning materials have been placed on the List of Restricted Imports by a new ruling of the War Trade Board (W. T. B. R. 154).

Hereafter no licenses for the importation of tanning materials will be issued for the remainder of the calendar year of 1918 except as to—

1. Shipments from any source of any tanning materials not otherwise restricted, where ocean shipment is made on or before July 10, 1918.

2. (a) Shipments of tanning material of Canadian or Mexican origin not specifically restricted, when coming forward from those countries by other than ocean transportation. (b) Shipments of any tanning material not otherwise specifically restricted when coming from Europe when shipped from a convenient port where loading can be done without delay.

3. Shipments of a limited quantity of solid quebracho extract, of mangrove bark from Central and South America, of divi-divi, and of wattle bark.

The allocation of tanning materials covered by the last paragraph will be made in accordance with the recommendations of the tanning materials section of the chemical division of the War Industries Board.

This restriction does not in any way affect the regulations now in force regarding the importation of quebracho logs or wood.

Liberty Motor Excels European Engine in Test Says Vice Admiral Sims

Secretary Daniels to-day received a dispatch from Vice Admiral Sims stating that the recent test of a seaplane equipped with the Liberty motor resulted in "better performance as regards climbing and load carrying" than similar airplanes equipped with one of the best types of European engines. Admiral Sims says: "The British express great confidence in the Liberty motor."

NEW U. S. CREDIT TO BELGIUM.

The Treasury Department has extended to Belgium an additional credit of $9,000,000, making a total of $131,800,000 to that country and a total of $5,981,590,000 to the cobelligerents of the United States.

EXPORTS TO CERTAIN "ENEMIES" IN SWITZERLAND AUTHORIZED BY THE WAR TRADE BOARD

LIMIT PLACED ON COMMODITIES

General License Granted for Shipments of Specified Goods to the Society Suisse de Surveillance—Conditions and Limitations Noted.

The War Trade Board issues the following:

Owing to the fact that the rationing agreement of December 5, 1917, relating to exports from the United States to Switzerland provides that the distribution in Switzerland of the articles exported under the agreement shall be governed by the rules and statutes of the Society Suisse de Surveillance (usually referred to as the S. S. S.) and owing to the further fact that certain Swiss firms who, under the rules of the Society Suisse de Surveillance, are entitled to receive shipments of American goods fall within the definition of "enemies" with whom trading is prohibited by the trading-with-the-enemy act except under license from the War Trade Board, the War Trade Board has issued a general license permitting American exporters to make shipments to such firms of rationed commodities without obtaining an individual enemy trade license covering the transaction, provided certain conditions are complied with.

Terms of Ruling.

This authorization is set forth in the War Trade Board ruling (W. T. B. R. 153), which follows:

A general license is granted to all persons, firms, or corporations in the United States to trade (by exporting merchandise to such "enemy" persons, firms, or corporations and by receiving payment therefor) with, for, or on account of such "enemy" person, firm, or corporations as by the terms of article 3 of the statutes of the Society Suisse de Surveillance may not be excluded from the benefit of receiving commodities from the Society Suisse de Surveillance.

This license shall be subject to each of the following conditions:

A. The exportation or shipment of any such merchandise out of the United States shall be authorized by a duly issued export license.

B. Such payments shall be made to the person, firm, or corporation in the United States entitled thereto only through a dealer duly licensed by the Federal Reserve Board pursuant to the Executive order of January 26, 1918.

C. Such trading shall be limited to the delivery to such "enemy" of commodities or articles enumerated in the several schedules annexed to said memorandum of December 5, 1917, subject to the conditions of said memorandum, and the receipt of payment therefor.

D. Prior to receipt of payment by the person, firm, or corporation in the United States a certificate shall be issued in duplicate either by the S. S. S. or by a dealer only licensed by the Federal Reserve Board pursuant to the Executive order of January 26, 1918, or by a foreign correspondent of such dealer, who has signed the declaration required to be signed by said order, certifying that such "enemy" person, firm, or corporation is entitled to receive and has received, or will receive, delivery of said commodity pursuant to the provisions of said article 3, and specifying the description, character, and value thereof and stating that no other certificate has been issued covering the same transaction.

E. The person, firm, or corporation in the United States receiving payment or engaging in said transaction shall retain one of said duplicate copies and forward the other copy to the Federal Reserve Board for filing.

ORDERED BY WAR LABOR BOARD TO END INDIVIDUAL CONTRACTS

The National War Labor Board authorizes the following:

The National War Labor Board has ordered the General Electric Co. to eliminate individual employment contracts at its plant at Pittsfield, Mass. At the same time the board turned the entire controversy at Pittsfield over to former President William H. Taft and Frank P. Walsh, the joint chairmen, as a section of the board with instructions to establish a just system of collective bargaining between the company and the men. The wage dispute, which forms a part of the controversy, will be adjusted by the two chairmen in connection with the settlement of the wage controversy between the same company and its workers in the plant at Schenectady, N. Y., in which hearings have already been conducted.

First Decision of Kind.

The decision banishing the individual contracts is the first of its kind made by the National War Labor Board. Individual contracts have been submitted to men upon taking up employment at the plant and are characterized by the board as a source of irritation. One of the principal demands of the men was that the contract be abolished and that a system be established by which the workers could deal collectively with the company. The order of the board is that such of the contracts as are now in existence be eliminated and that the company be directed to make none in the future. Individual contracts prevail in a large number of industrial establishments in the country.

A committee of the Pittsfield workers appeared before the board yesterday (Saturday) and the decision was communicated to them verbally by Chairman Taft.

Statement by Mr. Taft.

Mr. Taft, speaking to the workers concerning collective bargaining, said:

"The gentleman constituting the section, Mr. Walsh and myself, shall also take up the question of representation and do with it as we, in justice, think should be done in order to secure proper representation for the men."

The staff of the War Labor Board will devise a system of elections by which workers may choose committees to represent them in dealing with the employing firm. Up to this time the company has not recognized either committees or individuals representing groups of the workers. At Schenectady, however, where there is a high percentage of organization, committee representation has for some time been recognized and accepted.

The committee representing the Pittsfield workers in Washington yesterday assured the board that its action would have the effect of preventing a strike. They said the workers had already voted to go out, but that they were induced to remain at work pending the board's decision.

Approximately 7,000 workers are employed by the General Electric Co. at Pittsfield.

Contribute to the Red Cross fund.

SERVICE BUREAU TAKES OVER WASHINGTON TERMINAL OFFICES

The Committee on Public Information issues the following:

The Service Bureau, of the Committee on Public Information, will take over one week from to-day, July 8, the independent and separate bureaus of information maintained at Union Station, Washington, by the Navy Department, the Ordnance and the Quartermasters' Divisions of the War Department.

These independent information bureaus, together with that of the Signal Corps of the Army, will be merged by the Service Bureau under its general organization. A branch of the Service Bureau will be established at Union Station under the direction of the Service Bureau personnel, and the departmental details to these separate bureaus of information will return to their respective departmental duties.

Central Office Continued.

The central office of the Service Bureau will be continued in the present quarters at Fifteenth and G Streets NW., across the street from the Treasury and formerly the central passenger ticket offices of the Pennsylvania Railroad. Accommodations there are sufficient to meet the expansion necessary for the absorption of the independent information bureaus and for the rapidly growing uses of the Service Bureau.

Under an order of President Wilson the Service Bureau opened offices May 1. Its function is to give accurate information and personal direction regarding Government officials to visitors coming to Washington on the multiplied phases of war work. It is a clearing house, also, for the Government departments through which the various executives in different activities may keep in touch with constantly changing office locations and personnel. In a recent reorganization in departmental duties and assignments there were 500 changes in executives in one day.

System of Card Indices.

A system of card indices, numbering 50,000, has been built up since the organization of the Service Bureau. These cards list the functions, location, and telephone number of officials of all departments who may be seen on Government business. The index is subject to daily revision through reports from the departments noting changes in personnel, new assignments, reorganizations, and relocations.

During the week of June 16 the Service Bureau handled 1,630 visitors seeking special information, and an average of 150 query letters a day. Last week the daily average of information seekers was heavier. The specially trained office force is assisted by experts from the various departments detailed to answer technical inquiries.

Prof. Frederick W. McReynolds, formerly of Dartmouth College, is in charge of the Service Bureau.

PASSENGER OFFICE MOVED.

On and after July 1, 1918, the office of the district passenger agent, United States Railroad Administration, will be located on the first floor of the Homer Building, 603 Thirteenth Street NW., Washington, D. C.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

Gains of about 24.6 millions in gold reserves accompanied by increases of 84.4 millions in net deposits and of 44.3 millions in Federal reserve note circulation are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business June 28, 1918.

Investments.—Net liquidation of discounted bills, amounting to 124 millions, is reported by the New York bank. For the system as a whole a decrease of but 62.1 millions in discounts is shown, Chicago, St. Louis, and Minneapolis reporting considerable increases in their holdings of this class of paper. Of the total discounts on hand about 50 per cent, as against 58.4 per cent the week before, is represented by war paper, i. e., members' collateral notes and customers' paper secured by United States war obligations. Acceptances on hand fell off 15.6 millions, New York, Richmond, Chicago, and San Francisco reporting the largest decreases. United States short-term obligations show an increase of 183 millions, the New York bank holding 195 millions of Treasury certificates pending the collection of checks and other items received in payment of war taxes. No material changes are shown in other earning assets.

Government Deposits Decline.

Deposits.—Government deposits declined about 74.9 millions, New York and Chicago reporting the largest withdrawals of Government funds. Members' reserve deposits increased 92.6 millions, while net deposits show an increase of 84.4 millions.

Reserves.—Total reserves show a gain of 25.1 millions, the week witnessing considerable concentration of funds at the New York bank. The ratio of cash reserves to combined net deposit and Federal reserve note liabilities shows a decline from 63.4 to 61.7 per cent.

Federal Reserve Circulation.—Additional net issues of Federal reserve notes during the week aggregated 43.3 millions. Federal reserve notes in actual circulation increased 44.3 millions. Four banks report an aggregate liability on Federal reserve bank notes in circulation of 10.4 millions as against 9.9 millions the week before.

Capital.—An increase of $88,000 in paid-in capital is due largely to payment for Federal reserve bank stock by newly admitted members, the New York bank alone reporting an increase under this head of $60,000.

Condition of Member Banks, June 21.

Further reduction in the holdings of certificates of indebtedness, accompanied by considerable withdrawals of demand deposits, is indicated in the board's weekly statement showing condition on June 21 of 695 member banks in about 100 leading cities.

United States bonds with the circulation privilege show an increase for the week of about 2 millions, while other United States bonds, including Liberty bonds, went up about 6 millions. Redemption on June 18 of 4½ per cent Treasury certificates accounts apparently for most of the reduction of 224.4 millions in certificates held. Over 75 per cent of the total decrease is reported by the central reserve city banks and about 20 per cent by the banks in the other reserve cities. Loans secured by war bonds and Treasury certificates show a decline of about 6.6 millions, notwithstanding a slight increase in such loans shown for the central reserve city banks. Other loans and investments of all reporting banks increased 139.4 millions largely at banks outside the central reserve cities. As a result of the large decrease in the holdings of certificates the ratio of United States war securities to total loans and investments of reporting banks shows the very substantial decline from 16.4 to 13.9 per cent. For the banks in the three central reserve cities this ratio declined from 20.6 to 18.4 per cent.

Net Demand Deposits.

Aggregate net demand deposits fell off nearly 300 millions, apparently in connection with the heavy tax payments due about the middle of the month. Time deposits of banks outside the central reserve cities increased about 46.4 millions. Government deposits went up 18.3 millions, though the banks in the central reserve cities show a decrease under this head of 12.4 millions. Alongside with the reduction in deposits there is shown a decrease of 78.9 millions in reserves, largely for the banks in the central reserve cities. Cash in vault shows a gain of 21.5 millions.

For all reporting banks the ratio of investments to total net deposits shows an increase from 119 to 121.3 per cent. For the central reserve city banks this ratio, owing to the relatively larger decrease in investments, shows a smaller increase from 112.4 to 113.5 per cent. The ratio of combined reserve and cash to total net deposits shows a decline from 15 to 14.9 per cent for all reporting banks, and from 16 to 15.6 per cent for the central reserve city banks. Excess reserves declined from 129.2 to 82.9 millions for all reporting banks, and from 75.8 to 46.7 millions for the banks in the central reserve cities.

BACK HAUL PRIVILEGE EXTENDED BY WAR TRADE BOARD RULING

The War Trade Board authorizes the following:

The War Trade Board has, by a new ruling (W. T. B. R. 155), extended the back haul privilege under the general policy of restricted imports, hitherto applying only to convenient ports in Europe, to apply under the same conditions to convenient Mediterranean ports in Africa. The Shipping Control Committee will determine what ports are to be considered as convenient within the meaning of this regulation.

Furthermore, in interpreting the list of convenient ports for shipments from Europe any Spanish or Portuguese port may be construed to include adjacent islands in the Mediterranean Sea or in the Atlantic Ocean north of the Grand Canaries, belonging to those countries. West Italian or Sicilian ports may be construed as including ports in Sardinia and other Italian islands lying to the westward of the west coast of Italy.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

PHOTOGRAPHS OF NAVY'S DEAD IN MEMORIAL HONOR GALLERY

The Navy Department authorizes the following:

Secretary Daniels requests that photographs of men of the Navy who have lost their lives in service against the enemy be sent to recruiting division, Bureau of Navigation, Navy Department, to be preserved in the Navy's records.

To perpetuate the memory of enlisted men of the Navy lost during the war photographs are now being carefully collected. As rapidly as these pictures are received copies are made and the originals returned to the owners.

For a Gallery of Honor.

A photograph of each man is then forwarded to the training station where he began his career in the service. There a memorial gallery of honor or a hero's corner is formed, so that for all time the faces of the men of the Navy who have made the supreme sacrifice may be honored by the youths of the future sent to the station for training.

Relatives of men who have been lost in the present war who have not received requests for pictures are asked to mail them to the department for this memorial.

All pictures should be securely wrapped after they have been marked with the name, branch of service, and training station the young man entered after enlistment. These should be addressed to the recruiting division, Bureau of Navigation, Navy Department, Washington, D. C. When copied the photograph will be returned to the sender with one of the copies.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the War Department:

American Official Communique, No. 45.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
June 28, 1918.

Section A.—In the Chateau Thierry region we again improved our positions south of Torcy. The number of prisoners taken by us at this point in the operation of June 25 has increased to 309, of whom 7 are officers. There have been no new developments at other points held by our troops. It is established that our aviators have shot down three hostile machines in the Toul region since the beginning of the week.

Section B.—Of the three planes mentioned in the American official communique of June 28, one was brought down at 9.30 o'clock on the morning of June 24 between Pont-a-Mausson and Thiaucourt by Lieut. Raymond. Lieut. Raymond encountered a hostile biplane which dived under his own. Lieut. Raymond then executed a dive on the hostile plane, firing as he did so. He saw tracer bullets entering the fusilage of the enemy plane. The destruction of the hostile machine has now been confirmed. The two other planes were shot down on June 25 by Maj. Hartney and Lieut. McArthur. Maj. Hartney reports that his patrol of four planes answering a call at 8.30 o'clock in the evening encountered two German planes, of which one was a biplane rumpler and the other a monoplane. They were flying at an altitude of 4,500 meters. The German monoplane obtained a position over the tail of Lieut. Hill's machine. Maj. Hartney fired a long burst at the monoplane, which turned over and landed upside down. The German rumpler biplane was pursued by Lieut. McArthur below the cloud level. The two machines exchanged fire. On emerging from the cloud level the hostile machine went over backwards. Lieut. McArthur was at one time within 30 yards of the German plane, was able to observe that his tracer bullets entered the fusilage, and is certain that the observer was wounded before the plane fell. He fired a total of 226 rounds. The destruction of these two planes has also been confirmed.

The following is authorized by the War Department:

American Official Communique, No. 46.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
June 29, 1918.

Section A.—Raiding and patrolling have been marked at several points. In Picardy this morning a small detachment of our troops captaured 36 prisoners, of whom one was an officer, and inflicted severe losses on the enemy. Our casualties were very small. In the Chateau Thierry region a strong, hostile patrol was driven back and suffered severely in a patrol encounter. A raiding party, which attempted to reach our lines in the Vosges, was repulsed by rifle fire.

Section B.—In the Chateau Thierry region the day of June 26 to June 27, noon to noon, was marked by the operations of our troops south of Torcy, where our line was advanced for one-third of a mile and our positions improved, with little opposition. Besides this, our infantry was active in continuous patrolling and our artillery in delivering harassing and destructive fire. The German artillery shelled our positions in front and rear with considerable vigor. The Belleau, Clerembauts, and Marette woods along our front lines, as well as positions in the rear extending back several kilometers and covering most of the sector, received harassing and destructive fire during most of the time covered by this report. Two hostile batteries were observed to be especially active from the vicinity of Torcy, Givry, and Petret, at all of which points they are able to find cover in patches of woods. The German machine-gun fire was directed as formerly on the Belleau Wood and Hill 204. It originated mainly in the vicinity of the La Roche Wood and the outskirts of Torcy. The German air forces were extremely active, but performed only reconnaissance work. In the enemy's rear areas movements were mainly confined to small groups, although detachments numbering up to about 100 men were more than once observed. There was also considerable traffic of wagons and trucks.

The enemy continues to construct works in and near the woods around Bourches. In the early morning a large German patrol was seen near Vaux moving northeast. On being challenged by our listening posts it disappeared. From the firing and cries which were heard shortly after it is believed that the patrol was fired upon by its own machine guns.

Along the Marne from the early evening of June 26 to the early evening of June 27, there were no notable developments, except further increase in the activity of the German artillery. The fire, which was almost entirely harassing and destructive over the front, and in some areas destructive only, included a considerable amount of shrapnel. The shrapnel fell mainly on the left of our sector. The German airplanes showed an even greater increase in activity, flying up and down the Marne in numerous groups of from 2 to 7 machines. In the enemy's rear areas a number of men were seen circulating in small groups, and seemed to be continuing the pillage of French prop-

(Continued on page 8.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

The Senate made good headway Saturday in the passage of appropriation bills before the end of the fiscal year. The $12,000,000,000 Army bill was passed late in the afternoon without a roll call. Without a dissenting vote and without a roll call the $5,408,000,000 fortifications bill was passed after only 20 minutes of discussion. Both these measures were at once sent to conference. The Senate gave its approval to the House provision clothing the President with authority to increase the size of the Army by further draft calls up to the total number in his judgment that can be trained and equipped. Important amendments written into the bill were as follows: Authorizing the President to organize a volunteer Slavic and Russian legion; proposing the rank of lieutenant general during the war for Provost Marshal General Crowder; providing for training and equipping foreign troops, especially those from Latin-American countries; amending the draft law to base the quotas on the number of men in class 1 instead of on State population; authorizing the formation of a $100,000,000 aircraft production corporation under the Aircraft Board; providing a distinctive badge or button for honorably discharged men or those rejected for military service; authorizing the President to commandeer timber and lumber and conduct timbering operations for the aircraft and shipbuilding programs; providing Medals of Honor and Distinguished Service Crosses and other decorations for those who distinguish themselves in the service of their country; authorizing officers to obtain their uniforms and equipment at cost from the Government; providing more general officers and promotions for the Medical Corps.

Bond Bill Favorably Reported.

The Finance Committee considered and ordered favorably reported the $8,000,000,000 bond authorization bill as it was adopted in the House. The conferees on the $1,610,000,000 naval appropriation bill agreed and the report was adopted. Senate amendment to give the rank of lieutenant general to the commandant of the Marine Corps, authorizing payment of bonuses to navy-yard workmen, and providing for promotion from the Navy staff to the line were stricken from the bill.

The motion of Majority Leader Martin that the Senate recede from its amendment increasing the guaranteed price of wheat to $2.50 a bushel was under consideration Saturday without action. Basing his arguments on the report of the Federal Trade Commission, that evidence before it justified the conclusions there had been profiteering in American industries, mentioning specifically the flour and packing industries, the Food Administration was criticized by Senator Reed, of Missouri.

Vote on Suffrage Postponed.

Chairman Jones, of the Suffrage Committee, made a formal announcement that the resolution for a constitutional amendment would not be brought up again until after the forthcoming congressional recess. Senator Lewis introduced a bill extending the benefits of war-risk insurance to men engaged in war work for the Government that imperils health or life.

The Senate, and also the House, late Saturday afternoon adopted a resolution to extend from July 1, to January 1, next, the time within which the Government may relinquish control over certain short-line railroads. House amendments to a resolution were accepted authorizing the Secretary of War until July 1, 1919, to continue to issue water-power permits to manufacturing plants along the Niagara River. A resolution was adopted unanimously declaring Senator Sutherland, of West Virginia, Republican, entitled to his seat. A contest was filed about a year ago by former Senator Chilton.

HOUSE.

After eliminating from the Post Office appropriation bill the item for continuing the operation of the pneumatic mail tube system in certain large cities, to which the President objected in his veto message, the House repassed the bill, an effort to pass it over the veto having failed by a vote of 187 to 113. The conference report on the sundry civil appropriation bill was agreed to, it having already been adopted in the Senate.

A minority report was filed on the water-power bill by Representative Ferris, of Oklahoma. One of his chief objections was to the provision under which the Federal Government or State or municipalities would be required to pay the "net investment" in power projects at the expiration of license periods if it were desired to take them over. He proposed the payment of a "fair value."

Through Housing Commissioner Eidlitz, Congress was asked for $100,000,000 additional for housing war workers in industrial centers.

Under the terms of a resolution introduced by Mr. Lunn, of New York, the President would be authorized to pay a reward of $50,000 to the first person making a successful aeroplane flight across the Atlantic.

Mr. Taymor, of Colorado, introduced a bill requiring the statue of Frederick the Great, recently removed from its place at the War College, be melted and molded into a new "liberty bell."

Bills Approved by President

THE WHITE HOUSE, *June 27, 1918.*

June 25, 1918, the President approved Senate bill of the following number and title:

S. 4482. An act to amend an act entitled "An act to authorize the establishment of a Bureau of War-Risk Insurance in the Treasury Department," approved September 2, 1914, as amended.

June 26, 1918, the President approved bill of the following number and title:

H. R. 10297. An act to amend an act entitled "An act to promote the safety of employees and travelers upon railroads by compelling common carriers engaged in interstate commerce to equip their locomotives with safe and suitable boilers and appurtenances thereto," approved Feb. 17, 1911.

June 27, 1918, the President approved joint resolution and bills of the following numbers and titles:

H. J. Res. 70. Joint resolution authorizing the erection on the public grounds in the city of Washington, District of Columbia, of a statue of James Buchanan, a former President of the United States.

H. R. 11185. An act making appropriations for the support of the Military Academy for the fiscal year ending June 30, 1919, and for other purposes.

S. 4557. An act to provide for vocational rehabilitation and return to civil employment of disabled persons discharged from the military or naval forces of the United States, and for other purposes.

The President on the same date also approved a bill of the following number and title:

S. 3391. An act to authorize the Secretary of the Interior to issue a deed to C. H. Beckwith for certain land within the Flathead Indian Reservation, Mont.

RISK IN MAILING PERISHABLE GOODS TO SOLDIERS AT CAMP

The Post Office Department issues the following:

To all postmasters:

It has been brought to the attention of the department by postmasters at post offices to which are attached military branches that large numbers of packages, many of them insured, containing fruit and other edibles, are received daily in such condition as to render the contents unfit for use. It is also reported that many packages containing fruit in decayed condition have been insured, and because of the condition of the contents are not delivered to the addressee by the military authorities, but for sanitary reasons are destroyed.

Contrary to Wishes.

The mailing of such edibles is understood to be contrary to the wishes of the military authorities, who have found it necessary in many cases to withhold delivery in order to safeguard the health of the soldiers.

Postmasters are directed to advise their patrons of these facts and to refuse to accept for mailing parcels containing perishable articles, especially fruit, addressed to military camps or cantonments, if there is reason to doubt that contents will not be in perfect condition upon delivery to the addressee.

Often Necessarily Delayed.

It should be borne in mind that mail matter for the soldiers in these camps can not always be delivered to the addressee immediately upon arrival there as it comes in large quantities and must be separated into many units, and the time of the soldiers is largely taken up with their military duties. Furthermore, a large percentage of the mail is delayed by insufficient addresses and frequently it must be forwarded because of changes for military reasons in the location of the troops.

OTTO PRAEGER,
Second Assistant Postmaster General.

Total Casualties in U. S. Army and Marine Corps 10,383 From Beginning of the War and Including June 30 Report

The following weekly statement is authorized by the War Department:
The total number of casualties to date, including those reported yesterday (June 30), is as follows:

Killed in action (including 291 at sea)	1491
Died of wounds	479
Died of disease	1287
Died of accident and other causes	465
Wounded in action	5024
Missing in action (including prisoners)	385
Total	9131

The Marine Corps authorizes the following summary of its casualties to date:

Officers:	
Deaths	14
Wounded	29
Missing	1
Enlisted Men:	
Deaths	393
Wounded	813
In hands of enemy	1
Missing	1
Total casualties	1252

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties have been reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

JUNE 30, 1918.

Killed in action	11
Died from wounds	7
Died of disease	3
Died of accident and other causes	3
Wounded severely	46
Prisoner	1
Total	71

Killed in Action.

M. [illegible] Dugal. George Dugal, 72 River Street, Pawtucket, R. I.

Sergt. Alfred W. Vinal. John W. Vinal, 42 North Chelmsford, Mass.

[illegible] Alvin E. Eichelberger. Jacob Eichelberger, Clear Spring, Md.

Corpl. Henry A. Lord. Harry Lord, Milo, Me.

PRIVATES.

Arthur F. Bond. Mrs. Clara E. Bond, 1082 Euclid Avenue, Los Angeles, Cal.

[illegible] Mike Swiderski, 65 Lakeview Avenue, Lowell, Mass.

Enrico Ferrera. Carmino Ferrera, 131 South Canal Street, Newark, N. J.

Otto F. Folgmann. Mrs. Louise Folgmann, 42 West Street, Willimantic, Conn.

Charles A. McKenney. Galen M. Kenney, 62 Kendus Kong Avenue, Bangor, Me.

[illegible] T. Shepard. Walter Shepard, care of Lincoln Life Insurance Co., Fort Wayne, Ind.

Edward F. Stanton. Mrs. Frank Stanton, 887 Strafford Avenue, Bridgeport, Conn.

Died of Wounds.

Corpl. Jeremiah F. Leahy. Mrs. Mary A. Leahy, Norfolk, Conn.

Corpl. Gordon A. Sutherland. Miss Rubina Sutherland, 3 Gunn Square, Springfield, Mass.

PRIVATES.

John Adams. John A. Adams, sr., general delivery, Norfolk, N. Y.

Chester F. Floyd. E. C. Floyd, Dancy, Miss.

Richard J. Hartigan. Mrs. Margaret Hartigan, 81 Congress Street, Brooklyn, N. Y.

Angelo Piccolo. Tony Piccolo, 1728 South Ninth Street, Omaha, Nebr.

Robert Vavrosky. Matthew Vavrosky, 3025 South Springfield Avenue, Chicago, Ill.

Died of Disease.

Dr. Henry B. Herrick. Miss Frances Herrick, 10510 Euclid Avenue, Cleveland, Ohio.

Musician Norman F. Hunt. W. F. Hunt, 149 Pond Street, Stoneham, Mass.

Pvt. Acy A. Thompson. John R. Thompson, R. F. D. No. 1, Efland, N. C.

Died from Accident and Other Causes.

Sergt. John Budeslav Radovich. Charles Justen, 100 Hamilton Place, Fond du Lac, Wis.

PRIVATES.

Herman E. Obenauf. W. F. Obenauf, R. F. D. No. 1, Twin Lake, Muskegon County, Mich.

Edwin Stickney. N. E. Stickney, Bowdon, N. Dak.

Severely Wounded.

Lieut. Edison M. Boerke. C. C. Boerke, 1206 Fifth Street, Wausau, Wis.

Sergt. Russell F. Aldrich. Mrs. Nellie D. Aldrich, 21 Farmer Avenue, Fitchburg, Mass.

Sergt. Frank Grabowski. Mrs. Mertha Bragowski, 2214 Clayburn Avenue, Chicago, Ill.

Sergt. Floyd W. Harper. Mrs. Alice Harper, Hixson, Tenn.

Sergt. Harold O. Koenig. Mrs. Lillian Koenig, 89 Van Dyke Avenue, Detroit, Mich.

Sergt. William E. Turpin. Mrs. Lon Davis, Monroe, Ga.

Corpl. Henry H. Gutzmann. Mrs. Ida Gutzmann, 3136 West Forty-third Street, Cleveland, Ohio.

Corpl. George Johnson. Mrs. Nettie Johnson, R. F. D. No. 30, Beloit, Wis.

Corpl. Edward J. Lynch. Miss Julia Lynch, 459 Baldwin Street, Waterbury, Conn.

Corpl. Mortimer Susskind. Mrs. R. Susskind, 1469 Lexington Avenue, New York, N. Y.

Corpl. Sidney F. Watts. Edwin Crockett Watts, Ashland City, Tenn.

Bugler Morris Greenberg. Louis Schwartz, 416 East Tenth Street, New York, N. Y.

Cook Joe B. Marks. Mrs. Ermine Marks, 718 West Second Street, Bicknell, Ind.

PRIVATES.

Joseph Beck. Howard J. Reckefus, 2533 Christian Street, Philadelphia, Pa.

John P. Bordenave. Mrs. Anna Bordenave, 1553 Galves Avenue, San Francisco, Cal.

Edmund G. Brown. Miss Margaret Wilkinson, 13 Short Street, South Manchester, Conn.

Frank Butterworth. Edgerton Butterworth, 448 Rivet Street, New Bedford, Mass.

William J. Dawson. E. B. Gallagher, 1542 East Twelfth Street, Flatbush, N. Y.

Carl C. Foster. Mrs. Grace Foster, 98 Central Street, Leominster, Mass.

John W. Gresh. Mrs. Anna Gresh, P. O. Box 74, Unionville, Conn.

Michael J. Guilfoyle. John P. Guilfoyle, 8 Rockford Street, Roxbury, Mass.

Harry H. Hartley. M. A. Hartley, Bay Minette, Ala.

Charles Holk. Niles C. Holk, 663 North Dearborn Street, Chicago, Ill.

Chapin G. Hurd. Mrs. Lilian Hurd, Hudson, Wis.

John F. Kendall. Henry J. Kendall, 151 Asylum Street, Hartford, Conn.

Oscar Lawyerson. Robert Lawyerson, Caratunk, Me.

Stanley J. Lesniowski. Joseph Lesniowski, 251 Person Street, Buffalo, N. Y.

Harold A. McAleer. Mrs. Clara McAleer, 51 Higholborn Street, Gardiner, Me.

Roy B. Martin. Fred Martin, 2 Church Street, Stoneham, Mass.

Charles D. Mills. Mrs. Charles D. Mills, 417 Golden Hill Street, Bridgeport, Conn.

Frank Morawek. Eddie Watt, 488 East Seventy-fourth Street, New York, N. Y.

CASUALTIES REPORTED BY GEN. PERSHING

Jack Okon. Mrs. Bertha Okon, 65 East One hundred and third Street, New York, N. Y.

John Pezzuto. Mrs. Giovannonzeta Pessuto, Colle Sannita, Province of Benevento, Italy.

Norman B. Phillips. Charles Phillips, Stafford Springs, Conn.

Thomas F. Pliske. John Pliske, R. F. D. 3, Stevens Point, Wis.

James S. Powrie. Mrs. Annie Powrie, 53 Larchmont Avenue, Detroit, Mich.

Dennis Ryan. William Ryan, Pleasant Street, Ansonia, Conn.

Louis Schmertz. Mrs. Rosie Schmertz, 2937 West Twenty-third Street, Coney Island, N. Y.

Walter E. Simonds. William H. Simonds, 45 Court Street, Middlebury, Vt.

Frank K. Snyder. Mrs. Julia Snyder, R. F. D. 2, Black Rock Turnpike, Fairfield, Conn.

Nick R. Theodoro. Rizo Theodoro, Carista, Greece.

Joseph Titulaer. Mrs. Gertrude Titulaer, West De Pere, Wis.

Edward J. Trudeau. Mrs. Trudeau, 94 Chestnut Street, Waltham, Mass.

Ange White. Mrs. Adelaide White, 6 Grand Street, Hartford, Conn.

Fred G. Wilmore. John E. Wilmore, R. F. D. 11, Charlotte, Mich.

Adrian L. Yelle. Mrs. Odile Boucher, 40 Edward Street, Fitchburg, Mass.

Prisoner.

Pvt. Charles J. Szilanskis. John Szilanskis, 10 Gross Street, South Norwalk, Conn.

Missing in Action.

Second Lieut. Thomas R. Brailsford. Mrs. T. R. Brailsford, wife, 811 Franklin Avenue, Houston, Tex.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

AMERICAN OFFICIAL COMMUNIQUES

(Continued from page 3.)

ever, which has been noticed on numerous occasions on the north bank of the river. Fresh trenches are being constructed and new wire has been seen. In the enemy's line the infantry seemed to be more than usually upon the alert.

The United States Army Ambulance Section No. 575 has been cited in the orders of the French Army Corps, with which it is acting, as follows:

"American Automobile Sanitary Section 575: Under the conduct of Lieut. Moore, from April 16 to 28, insured day and night the rapid evacuation of all the wounded in a very active sector, under a ceaseless bombardment which destroyed or damaged a part of its material. The section carried out its mission without a break or failure with a devotion, courage, and sacrifice which were admired by all the units engaged."

American Official Communique, No. 47.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
June 30, 1918.

Section A.—Except for the increase of artillery activity on both sides in the Chateau Thierry region, there is nothing to report.

Section B.—In the Chateau Thierry region June 27 to 28 there was no special activity other than that of the hostile air forces and of the artillery on both sides. The German artillery fire was in fact lighter than on the preceding day, especially on the left half of our sector. Shrapnel and gas were used in moderate quantities. A large part of the hostile fire was concentrated on our lines in the general direction of Bouresches and Triangle farm. The activity of the German air forces was marked only by the frequency of the reconnaissance flights made. German machine guns were intermittently active at the points mentioned in yesterday's report. Behind the enemy's line activity was normal. In patrolling activities carried on in the usual fashion by both sides there occurred an encounter between a hostile patrol of about 20 men and one of our ambush patrols. After a hot skirmish near the La Roche woods the hostile party, having suffered losses, withdrew to his own lines.

South of the Marne, between the evening of June 27 and the evening of June 28, it was noticeable that the activity of the enemy had increased, while a certain nervousness on his part was also observed. His artillery was constantly active throughout the breadth of our sector, and as on the preceding day paid special attention to our positions on the left. In the last-named region the use of shrapnel was again marked. German airplanes were again busy along our front, although somewhat less so than during the days preceding. Very energetic efforts are being made by the Germans to prevent further crossings of the river on the part of our troops.

In contrast to the activity which has recently prevailed in the sector occupied by our troops in Picardy, the day extending from noon June 26 to noon June 27, was uneventful. The hostile artillery, instead of scattering its fire over the whole of our sector, fired a greatly reduced number of shells on a few localities, notably the Coullemelle Wood, the Herelle Wood, the country surrounding Broyes, and our positions near Cantigny. Gas, high explosives, and shrapnel were all used. In some cases the enemy was apparently attempting to adjust his fire. The enemy's trench mortars were in action for a short time during the early afternoon. A few German airplanes appeared during the day. A German patrol attacked one of our outposts during the early morning, but was driven off by rifle fire.

In the Mulhouse sector our troops experienced on June 27 a very quiet day. The only unusual event was the falling within our lines of a number of small propaganda balloons dispatched by the enemy. The German artillery delivered a scattering fire of normal intensity. During the early morning, the late afternoon, and the evening, his machine guns delivered occasional bursts against our lines.

For our troops operating in the vicinity of Colmar the days of June 26 and 27 were marked chiefly by the attempts of the enemy to raid our lines. On the night of June 25 to 26 a large German patrol made a determined attack which was repulsed after 2 hours of brisk fighting. The condition of the ground, as it appeared on the morning of June 26, gave clear evidence that the Germans had sustained casualties, a fact which was further borne out by the amount of material left behind. This material included 18 bags of grenades, each bag containing 10 grenades, rifles, wire cutters, knives, gas masks, caps, and two lengths of steel pipe charged with explosive, which were obviously intended for blowing up our wire. Another feature of the attack was the use by the Germans of liquid fire. This was a complete failure, none of the fire reaching our troops. During the night of June 26 to June 27 a hostile raid took place between 11 o'clock evening and 1 o'clock morning. Details will be furnished later. It is reported that the Germans at one point have been attempting to make friends with our men. On the morning of June 25 they made signs signifying "Good Morning." They had deposited some kittens on the parapets of the small posts and threw a package of cigarettes into one of our barbed wire entanglements. Our soldiers do not reciprocate these attentions. Raiding activity has not been above normal on either side. The fire of the German artillery has been light and has not included any marked concentration. His machine-gun fire has consisted of intermittent bursts and scattered spots distributed on various points along the front of our sector. The same is true of his rifle and grenade fire. A few hand grenades have fallen in front of our trenches. The German airplanes confined their activity to reconnaissance duty. Most of them remained over our lines only for short periods and some remained at very high altitudes. In some cases our antiaircraft batteries succeeded in driving them off. The German balloons showed normal activity. Behind the German lines the most interesting feature was again the appearance of considerable groups of men and women engaged in agricultural work in the fields. These groups are at present largely engaged in making hay. The proportion of women is apparently large. The usual individuals and small groups passing from post to post, signalling, observing our lines and performing other routine duties were noted. There was also the usual movement of wagons, trucks, and trains. In the matter of works the enemy is showing considerable activity in repairing those already constructed and in making additions at several points. The works are of the customary sort. One of his working parties was broken up by our grenade fire on June 27.

KEEP BULLETIN POSTED IN ALL PUBLIC INSTITUTIONS

PUBLIC LIBRARIES, BOARDS OF TRADE, CHAMBERS OF COMMERCE, AND OTHER SIMILAR INSTITUTIONS THROUGHOUT THE COUNTRY ARE REQUESTED TO SEE THAT THE OFFICIAL BULLETIN IS DAILY POSTED IN A CONSPICUOUS PLACE IN THEIR BUILDINGS SO THAT THE GENERAL PUBLIC MAY HAVE EASY AND REGULAR ACCESS TO ITS COLUMNS.

POSTMASTER GENERAL BURLESON'S ORDER REQUIRING THE BULLETIN TO BE POSTED IN 56,000 POST OFFICES HAS PROVED OF INESTIMABLE VALUE AS A REFERENCE GUIDE TO THE BUSINESS AND OTHER INTERESTS OF THE NATION, AND IT IS REALIZED THAT THIS BENEFIT MAY BE VASTLY EXTENDED THROUGH THE COOPERATION OF PERSONS IN CHARGE OF ALL PUBLIC INSTITUTIONS NOW RECEIVING COPIES.

DO NOT MISS FILING A SINGLE COPY; THE ONE MISSING IS OFTEN THE MOST VALUABLE. WRITE FOR EXTRA COPIES BY NUMBER, NOT BY DATE.

THE OFFICIAL BULLETIN.

Service Cross Awarded Private Joseph Leitzán

Emergency address of Pvt. Joseph Leitzan, Field Artillery, deceased, who, according to American Official Communique No. 44, was awarded the Distinguished Service Cross by the Commander in Chief of the American Expeditionary Forces for gallantry:

Mrs. Anna Leitzan, mother, 419 Wentworth Avenue, Hammond, Ind.

WAR INDUSTRIES BOARD PLAN FOR THE STANDARDIZATION OF AUTOMOBILE RIMS AND TIRES

PURPOSE IS TO CONSERVE RUBBER

Program Submitted to Manufacturers Will, It Is Expected, Lessen Amount of Material Used and Capital Tied up in Stocks.

The War Industries Board authorizes the following:

To the manufacturers of automobile tires and automobiles:

It is of primary importance in the present emergency that the country's resources be used to full advantage and that we husband our supply of materials, equipment, and capital to aid in carrying on the war. This is especially necessary in the case of materials that are brought into this country in ships.

Economy in Rubber.

The conservation division of the War Industries Board has already put into effect in various industries plans for saving essential materials and equipment and for reducing the amount of capital tied up in manufacturers' and dealers' stocks. We are advised that the conservation of rubber is necessary, and we have taken up with the industry the problem of determining the most practical means of meeting this situation. In the automobile tire industry it appears that the greatest economy can be effected by a substantial reduction in the variety of types and sizes of pneumatic tires.

Standard Pneumatic Tires.

At the request of this division, the war service committee of the rubber industry has submitted a program for the standardization of pneumatic tires. This, we are informed, has been indorsed by the directors of the National Automobile Chamber of Commerce, the Tire and Rim Association, and the tire and rim division of the standards committee of the Society of Automotive Engineers. A statement of this program is inclosed for your information, and unless there is valid objection it will be put into effect by this division. We believe that this program will aid substantially in the conservation of rubber and in lessening the amount of material and capital carried in manufacturers' and dealers' stocks.

Program for Standardization.

CONSERVATION DIVISION,
WAR INDUSTRIES BOARD,
June 25, 1918.

PROGRAM FOR THE STANDARDIZATION OF PNEUMATIC TIRES.

CLASS A.

30" x 3½" clincher, plain, and nonskid.
32" x 3½" straight side, plain, and nonskid.
31" x 4" clincher, plain and nonskid.
33" x 4" straight side, plain, and nonskid.
34" x 4½" straight side, plain, and nonskid.
35" x 5" straight side, plain, and nonskid.
36" x 6" straight side, plain, and nonskid.
38" x 7" straight side, plain, and nonskid.
40" x 8" straight side, plain, and nonskid.

The manufacture of the types and sizes of tires included in Class A is to be continued.

CLASS B.

30" x 3" clincher, plain, and nonskid.
32" x 4" straight side, plain, and nonskid.
34" x 4" straight side, plain, and nonskid.
32" x 4½" straight side, plain, and nonskid.
33" x 4½" straight side, plain, and nonskid.
35" x 4½" straight side, plain, and nonskid.
33" x 5" straight side, plain, and nonskid.
35" x 5" quick detachable and nonskid.
37" x 5" straight side A nonskid.

The manufacture of the types and sizes of tires included in Class B is to be discontinued not later than November 1, 1920.

CLASS C.

33" x 4½" straight side, plain tread.
36" x 4½" straight side, plain tread.
36" x 4½" straight side, nonskid tread.
35" x 4½" quick detachable, nonskid tread.
37" x 5" quick detachable, nonskid tread.

The manufacture of the types and sizes of tires included in Class C is to be discontinued not later than November 1, 1919.

CLASS D.

30" x 3½" straight side, nonskid.
32" x 3½" quick detachable, nonskid, clincher nonskid.
33" x 4" quick detachable, nonskid, clincher nonskid.
35" x 4" straight side, nonskid.
29" x 4½" straight side, nonskid.
32" x 4½ quick detachable, nonskid.
33" x 4½" quick detachable, nonskid.
36" x 4½" quick detachable, nonskid, straight side plain.
34" x 4½" quick detachable, nonskid.
37" x 4½" straight side, nonskid.
33" x 5" straight side, plain.

The manufacture of the types and sizes of tires included in Class D is to be discontinued not later than November 1, 1918.

CLASS E.

All other types and sizes.

The manufacture of the types and sizes of tires included in Class E is to be discontinued at once.

CONSERVATION DIVISION, WAR INDUSTRIES BOARD.

MAXIMUM PRICES FIXED FOR LUMP CANNEL COAL

The Fuel Administration issues the following:

A regulation of the United States Fuel Administration provides that mines producing cannel coal, by receiving a permit therefor, may sell lump cannel coal at a sum not to exceed $1 per ton in advance of the mine price for run-of-mine bituminous coal at mines within their district.

Any producer desiring to obtain a permit to make the additional charge should make application to the Bureau of Prices of the United States Fuel Administration. All invoices for cannel coal for which additional charge is made must bear the number of the permit of the producer of such coal.

Cannel coal loaded in box cars may bear an additional charge of 50 cents a ton to cover the cost of loading.

MR. BENTLEY RETIRES.

Resigns as Assistant to Railroad Director of Operations.

The United States Railroad Administration issues the following:

H. T. Bentley, who has been serving as assistant to the director of operations, Mr. Carl R. Gray, has resigned and returned to his previous position as superintendent of motive power of the Chicago & North Western Railway. Mr. Bentley's services have been very satisfactory, but ill health led him to ask for his return. His duties will be taken over by Mr. Frank McManamy, manager of the locomotive section, in addition to his other work. Mr. Bentley, as chairman of the committee on engine and freight car standards, has had active charge of preparing standards for Government engines and freight cars.

RAILROAD RATES CLASSIFIED IN ONE COMPLETE VOLUME

The United States Railroad Administration issues the following:

The work of combining the official, western, and southern classifications into one volume, uniform as to rules, descriptions, carload minima, etc., and with three columns of ratings—one for each of the three classification territories—has been completed and the proposed consolidated classification No. 1 has been compiled and submitted to the Interstate Commerce Commission for their consideration and for public hearing.

Subjected to Different Rules.

Under the three separate classifications it was often the case that a shipment moving through two territories was subjected to different rules on the different parts of its journey and a shipper, say, from an eastern point to a point west of the Mississippi River, was required not only to be familiar with the rules and descriptions applying east of the river, but the possible different ones west of the river and was compelled, moreover, to refer to two distinct classifications in order to ascertain his through rating.

These difficulties will disappear when the new consolidated classification becomes effective and it will only be necessary for a shipper to consult one volume, while the only territorial variation will be in the rate which can be easily located.

Work of Several Years.

The work of accomplishing this very important reform of tariff publication has been going on for some years, but its completion was undertaken early by the Railroad Administration and the book is now ready for publication, subject to any changes that may be determined necessary or advisable after public hearing.

SHOT HIT ENEMY SUBMARINE.

Armed Guard Commander Commended for Conduct in Attack.

The Navy Department authorizes the following:

Secretary Daniels has commended Harry R. Chambers, chief gunner's mate, United States Navy, for his efficient conduct when the vessel on which he was commander of the armed guard was attacked by a German submarine on May 12, 1918, and the conning tower of the U-boat was hit, compelling her to submerge.

The submarine attacked at 8.50 a. m., Chambers's report shows. It came to the surface at a distance of 1,000 yards from the steamer about two points abaft the port beam.

As the ship was swinging from port to starboard the submarine launched two torpedoes which missed the bow by about 12 feet, and two more torpedoes which barely missed the stern.

The port gun of the steamer went promptly into action. The fourth shot hit the conning tower of the submarine as it submerged, Chambers reported. A heavy black smoke rose over the U-boat from the explosion of the shell. Chambers enlisted at Philadelphia, June 15, 1915. His mother, Mrs. Mollie Chambers, resides in Atlanta, Ga.

Authorized List of U. S. Government Purchasing Agents, Including the Departments and War Administrations, Compiled for Guidance of Manufacturers and Merchants

In accordance with the suggestion of the Attorney General to the various departments that all purchases for the Government be made directly from manufacturers and dealers with stocks actually in hand, thus eliminating any contingent fee practise if there be any, the OFFICIAL BULLETIN herewith presents for the benefit of manufacturers and merchants the names and addresses of the several Government purchasing agents and agencies.

WAR DEPARTMENT.

There are listed below the names of the purchasing units with their addresses and the classes of materials handled by each:

Ordnance Department, Procurement Division, Sixth and B Streets, Washington, D. C.: Cannon and artillery; apparatus and machinery for service and maneuver of artillery; artillery ammunition; small arms; small-arms ammunition and accouterments; tools, machinery, and materials for ordnance service; tanks; bombs and trench-warfare materials; testing appliances, instruments, etc.; optical instruments; steel mill products; office supplies.

Corps of Engineers, General Engineering Depot, 1438 U Street, Washington, D. C.: Paints; railway construction materials, machinery, and tools; locomotives and rolling stock; electrical equipment and supplies for overseas; sawmill and woodworking equipment; demolition explosives; mechanical rubber goods; office supplies; chain.

Quartermaster's Corps, Eighteenth Street and Virginia Avenue, Washington, D. C.: Textiles, yarns, and threads; cotton and wool; clothing and personal equipment; rubber and rubber goods (other than mechanical); laundry equipment and supplies; reclamation, reduction, and repair plants and equipment; food; forage; horses and mules; harness and horse equipment; vehicles; motor vehicles; hardware; kitchen equipment; tobacco; office supplies.

Surgeon General's office, Medical Department, General Purchasing Office, Seventh and B Streets, Washington, D. C.: Medicines, surgical instruments, surgical dressings, dental supplies, veterinary supplies, hospital equipment, sanitary appliances, office supplies.

Construction Division, Procurement Branch, Seventh and B Streets, Washington, D. C.: All materials and articles entering into construction projects, such as buildings, wharves, roads, sewers, power stations, etc., in the United States, including lumber, roofing, hardware, heating, plumbing, refrigerating, ventilating, water supply, sewage disposal, kitchen equipment, fire apparatus, light and power, office supplies.

Aircraft Production, Director of Purchases, 119 D Street NE., Washington, D. C.: Airplanes and parts; airplane engines and parts; balloon equipment; special aircraft chemicals, paints, and varnishes; aircraft lumber, veneers, and plywood; airplane fabrics; aviation clothing; castor oil and castor beans; office supplies.

Signal Corps, 119 D Street NE., Washington, D. C.: Batteries, technical instruments, telephone and telegraph line materials, telephone and telegraph wire and cable, field glasses, radio apparatus, telegraph apparatus, telephone apparatus, wood distillates, office supplies.

Edgewood Arsenal, Purchase Section, 311 West Monument Street, Baltimore, Md.: Acids and chemicals.

Supply Division, Mills Building, Washington, D. C.: Office equipment and supplies.

Gas Defense, Procurement Department, F Group, Seventh and B Streets, Washington, D. C.: Gas masks, special gas defense appliances.

DEPARTMENT OF STATE.

All supplies for the State Department proper are ordered by the chief clerk of the department, supplies for the Consular Service by the chief of the Consular Bureau, and those for the Diplomatic Service by the chief of the Diplomatic Bureau, and all supplies are purchased, as far as possible, under the contracts awarded by the general supply committee.

Where is it necessary to purchase goods not on the general supply schedule, separate contracts are called for and bids sent to not less than three bidders in this city if possible, and if not, wherever they may be found.

WAR TRADE BOARD.

All contracts are awarded through the purchasing agent, Mr. A. E. Klinger, whose office is in the building at Twentieth and C Streets NW.

Purchases for branch offices must all be placed through this purchasing agent in Washington when they are in excess of $5.

NTERSTATE COMMERCE COMMISSION.

All purchases for the Interstate Commerce Commission and the awarding of contracts by the commission are under the direction of Chief Clerk and Purchasing Agent W. M. Lockwood, whose office is in the Interstate Commerce Commission at Eighteenth Street and Pennsylvania Avenue NW., Washington, D. C.

U. S. FOOD ADMINISTRATION.

All purchasing for the Food Administration is done through open competitive bids to the supply division, of which B. F. Durr is chief.

In each State and in Porto Rico, Alaska, and Hawaii there are Federal food administrators who are authorized to purchase office supplies without reference to Washington. All the vouchers, however, for expenditures in the States pass through the Washington office for approval.

FEDERAL RESERVE BOARD.

All purchases for the Federal Reserve Board are made through the office of the secretary of the Federal Reserve Board, Treasury Building, Washington, D. C.

DEPARTMENT OF COMMERCE.

List of bureaus or offices, with purchasing officers and their addresses:

Office of the Secretary (general department and bureau supplies), E. W. Libbey, chief clerk, room 719, Commerce Building, Nineteenth Street and Pennsylvania Avenue NW.

Bureau of the Census, Thomas J. Fitzgerald, chief clerk, room 518, Commerce Building.

Bureau of Foreign and Domestic Commerce, Nicholas Eckhardt, jr., chief clerk, room 1120, Commerce Building.

Bureau of Standards, S. W. Caywood, purchasing officer, room 300, South Building, Connecticut Avenue and Pierce Mill Road.

Bureau of Fisheries, I. H. Dunlap, assistant in charge of office, room 5, Fisheries Building, Seventh and B Streets SW.

Bureau of Lighthouses, district lighthouse inspectors, as follows:

District.	Address.
First	Portland, Me., Y. M. C. A. Bldg.
Second	Boston, Mass., Customhouse.
Third	Tompkinsville, N. Y.
Fourth	Philadelphia, Pa., P. O. Bldg.
Fifth	Baltimore, Md., New C. H.
Sixth	Charleston, S. C., Old P. O. Bldg.
Seventh	Key West, Fla.
Eighth	New Orleans, La., Customhouse.
Ninth	San Juan, P. R.
Tenth	Buffalo, N. Y., Federal Bldg.
Eleventh	Detroit, Mich., P. O. Bldg.
Twelfth	Milwaukee, Wis., Federal Bldg.
Thirteenth	Rock Island, Ill., Federal Bldg.
Fourteenth	Cincinnati, Ohio, Customhouse.
Fifteenth	St. Louis, Mo., Customhouse.
Sixteenth	Ketchikan, Alaska.
Seventeenth	Portland, Oreg., Customhouse.
Eighteenth	San Francisco, Cal., C. H.
Nineteenth	Honolulu, Hawaii, McCandless Bldg.

Coast and Geodetic Survey, P. A. Welker, hydrographic and geodetic engineer in charge of office, room 3, 205 New Jersey Avenue SE.

Bureau of Navigation, Arthur J. Tyrer, deputy commissioner of navigation, room 917, Commerce Building.

Steamboat-Inspection Service, Dickerson N. Hoover, jr., chief clerk, room 1022, Commerce Building.

U. S. FUEL ADMINISTRATION.

Mr. M. A. Downes is the purchasing officer for the Fuel Administration, and all bids on materials may be sent to him.

DEPARTMENT OF LABOR.

The chief clerk of the Department of Labor is its purchasing agent, the detailed work connected therewith being performed by the Chief of the Division of Publications and Supplies.

The location of the department building is 1712–1722 G Street NW.

The bureaus are as follows: Bureau of Immigration, Bureau of Labor Statistics, Children's Bureau, Bureau of Naturalization, Department Building; Bureau

(Continued on page 11.)

U. S. Government Purchasing Agents

LIST OF U. S. GOVERNMENT PURCHASING AGENTS.

(Continued from page 10.)

of Industrial Housing and Transportation, 613 G Street NW.; United States Employment Service, Gordon Hotel, 916 Sixteenth Street NW.

All of the bureaus make their purchases through the central purchasing agency, the Division of Publications and Supplies.

GOVERNMENT PRINTING OFFICE.

This office has only one purchasing agent or bureau, in charge of Edward S. Moores. The purchasing office is located in the Government Printing Office Building, at the corner of North Capitol and G Streets NW.

POST OFFICE DEPARTMENT.

The Post Office Department has but one purchasing agent, Mr. J. A. Edgerton, whose offices are located in the Post Office Department Building, Washington, D. C.

DEPARTMENT OF THE INTERIOR.

Purchasing agents or bureaus and their locations under this department are as follows:

E. J. Ayers, chief clerk, Washington, D. C.

General Land Office: Frank M. Johnson, supervisor of surveys, Denver, Colo.; John D. Yelverton, Chief of Field Service, Washington, D. C.

Office of Indian Affairs: Frank Sorenson, superintendent United States Indian warehouse, 308 South Green Street, Chicago, Ill.; Burton B. Custer, superintendent United States Indian warehouse, 310 Elm Street, St. Louis, Mo.; Richard C. Jordan, superintendent United States Indian warehouse, 608 Howard Street, San Francisco, Cal.

Reclamation Service: Emmett Carr, Washington, D. C.; A. McD. Brooks, purchasing agent, Reclamation Service, Denver, Colo.

Bureau of Education: Dr. John H. Francis, director of School and Home Gardening, Washington, D. C.; Harry C. Sinclair, supply agent for Alaska Division, L. C. Smith Building, Seattle, Wash.

National Park service: Dr. William P. Parks, superintendent, Hot Springs Reservation, Hot Springs, Ark.; Chester A. Lindsley, acting superintendent, Yellowstone Park, Wyo.; Walter Fry, superintendent, Sequoia and Gen. Grant Parks, Three Rivers, Cal.; W. B. Lewis, superintendent, Yosemite Park, Yosemite, Cal.; D. L. Reaburn, superintendent, Mount Rainier Park, Ashford, Wash.; Alex Sparrow, superintendent, Crater Lake Park, Crater Lake, Oreg.; T. W. Brazell, superintendent, Wind Cave Park, Hot Springs, S. Dak.; R. A. Sneed, superintendent, Platt Park, Sulphur, Okla.; Thomas Rickner, superintendent, Mesa Verde Park, Mancos, Colo.; Walter W. Payne, superintendent, Glacier Park, Belton, Mont.; L. Claude Way, superintendent, Rocky Mountain Park, Estes Park, Colo.

St. Elizabeths Hospital: A. E. Offutt, St. Elizabeths Hospital, Washington, D. C.

Freedmen's Hospital: Dr. William A. Warfield, Freedmen's Hospital, Washington, D. C.

Howard University: George W. Cook, Howard University, Washington, D. C.

Alaskan Engineering Commission: C. E. Dole, general purchasing agent, Alaskan Engineering Commission, 422 Bell Street Terminal, Seattle, Wash.

All advertisements for general supplies for construction of buildings and other works of any magnitude are passed through the department, and copies of these advertisements will appear from time to time in THE OFFICIAL BULLETIN.

UNITED STATES SHIPPING BOARD.

Purchasing and assistant purchasing officers of the Emergency Fleet Corporation, with their respective addresses:

F. A. Browne, general purchasing officer, 140 North Broad Street, Philadelphia, Pa.; A. L. Bell, assistant general purchasing officer, 140 North Broad Street, Philadelphia, Pa.; H. L. Lewis, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; G. R. Jasper, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; T. D. Adams, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; E. F. Tomlinson, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; J. K. Fawcett, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; F. K. Paxton, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; W. R. McCann, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; R. J. Lyons, assistant purchasing officer, 140 North Broad Street, Philadelphia, Pa.; J. A. Manion, district purchasing officer, Securities Building, Seattle, Wash.; T. G. Plant, district purchasing officer, 343 Sansome Street, San Francisco, Cal.; W. J. Haynen, district purchasing officer, 430 Audubon Building, New Orleans, La.; R. E. Heizer, district purchasing officer, Heard Building, Jacksonville, Fla.; E. L. Marshall, district purchasing officer, customhouse, Boston, Mass.; F. C. Selby, district purchasing officer, 615 Lexington Building, Baltimore, Md.; S. E. Lewis, district purchasing officer, Perry-Payne Building, Cleveland, Ohio; C. P. Morrell, district purchasing officer, 115 Broadway, New York City.

RESIGNS AS ASSISTANT.

The United States Railroad Administration issues the following:

H. T. Bentley, who has been serving as assistant to the director of operations, Mr. Carl R. Gray, has resigned and returned to his previous position as superintendent of motive power of the Chicago & North Western Railroad. Mr. Bentley's services have been very satisfactory, but ill health led him to ask for his return. His duties will be taken over by Mr. Frank McManamy, manager of the locomotive section, in addition to his other work. Mr. Bentley, as chairman of the committee on engine and freight-car standards, has had active charge of preparing standards for Government engines and freight cars.

WAR LABOR POLICIES BOARD CONSIDERS WAGE REGULATION

The War Labor Policies Board authorizes the following:

The War Labor Policies Board in session Thursday considered the question of a uniform regulation of administration of the statutes and proclamation dealing with the basic eight-hour day in Government work.

Some of the Recommendations.

The board recommended in part:

1. That as heretofore all mechanics and laborers employed by the Government directly should be paid upon a basic day rate of eight hours, with overtime paid for at the rate of time and one-half.

2. That mechanics and laborers employed upon work of construction shall be paid in the same way.

3. (a) While a uniform application of wage provisions of the Executive order of March 24, 1917, to all work done by the Government would tend to eliminate one of the most serious causes for labor trouble, such action, if taken at the present time, would seriously interfere with and hamper the Government departments in securing the supplies needed in the prosecution of this war.

Conference is Recommended.

(b) That conference be had to consider to what extent during the pendency of the war the adoption of the basic eight-hour-day principle of determining wages is feasible.

MR. DELANO RESIGNS FROM CAPITAL ISSUES COMMITTEE

The Capital Issues Committee announces the appointment of Dudley Cates, of San Francisco, as secretary and chief examiner, and the creation under him of a new bureau of examiners to digest applications for approval of proposed securities issues. This bureau will assist in gathering information on these issues from local capital issues committees in each Federal reserve district and from the Fuel, Food, and Railroad Administrations, War Industries Board, and other Government departments which can throw light on the war necessity of the project covered by proposed securities issues.

Frederick A. Delano, who has resigned as a member of the Federal Reserve Board to enter the Army, also has given up his membership on the Capital Issues Committee, and a successor will be appointed by President Wilson.

RULING ON CANNED SARDINES.

Trade Unit Reduced from 60,000 Pounds to 45,000 Pounds.

The United States Railroad Administration issues the following notice with further reference to letters of recent dates regarding rule 9 of the United States Food Administration:

The trade unit on canned sardines has been reduced from 60,000 pounds to 45,000 pounds.

CAR SERVICE SECTION,
W. C. KENDALL,
Manager.

WAR INDUSTRIES COMMITTEE ON FIRE PREVENTION REORGANIZED

The War Industries Board authorizes the following:

The advisory committee of the fire-prevention section of the War Industries Board has been reorganized with Henry Evans, of New York City, as chairman; W. E. Mallalieu, of the section's executive committee, as secretary; and the following members:

R. M. Bissell, Hartford, Conn.; F. C. Buswell, New York, N. Y.; John R. Freeman, Providence, R. I.; John Marshall, jr., Chicago; C. A. McCotter, Indianapolis; C. G. Smith, New York, N. Y.; S. Y. Tupper, Atlanta, Ga.; L. R. Welch, Fitchburg, Mass.

Thomas B. Love, Assistant Secretary of the Treasury, has been made a member of the cooperating committee to represent the Treasury.

MAJ. DAVIS TRANSFERRED.

Special orders, No. 134.

35. Maj. Donald D. Davis, Aviation Section, Signal Reserve Corps, now detailed as liaison officer between the purchase and supply branch, purchase, storage, and traffic division, and the Signal Corps, is relieved from such duty and will report to the director of aircraft production for duty in the production department.

Contribute to the Red Cross fund.

Crew of the Californian Landed at French Port

The Committee on Public Information issues the following:

The Navy Department is informed that the crew of the American steamship *Californian*, which struck a mine off the coast of France, has been landed at a French port. Several days ago a dispatch from Vice Admiral Sims stated that the *Californian* had struck a mine and was sinking, but no further particulars as to the fate of the vessel were received here until the news of the arrival at port of the crew, all the members of which were saved.

The *Californian* was an American steamship of 9,125 tons, which was being used as an Army supply ship.

COAL OPERATORS ARE AGAINST BONUS SYSTEM TO MINERS

The Fuel Administration issues the following:

Coal operators of Central Pennsylvania, in a conference held in Washington, took cognizance of the warning of the United States Fuel Administration that the practice of paying "bonuses" to miners [illegible] to disturb the entire labor situation throughout the soft coal fields of the country. The conference adopted a resolution requesting the Fuel Administration to close down any mine that persists in the payment of bonuses or other violations of the Washington wage agreement and the rules and regulations of the Fuel Administration.

More Than 150 Operators Attend.

The conference was attended by more than 150 operators. All of the speakers who addressed the conference emphasized the fact that competition for labor by the payment of bonuses, premiums, prizes, etc., had a disorganizing effect, some mines getting more than their supply of labor, while others were rendered idle or nearly so on that account. The net result, they contended, was dissatisfaction among the miners as a whole and loss of production through the shifting of the men from one mine to another in competition for the higher wages.

Address by Mr. Garfield.

H. A. Garfield, United States Fuel Administrator, told the operators that the Fuel Administration was opposed to any practice which resulted in disturbing labor conditions and curtailed production at a time when the coal output was vital to the success of America and her allies.

The resolution adopted by the conference recommending that the Fuel Administration take vigorous steps to suppress the so-called "bonus system" was transmitted at once to all of the operators in the central Pennsylvania field.

Text of Resolution.

The resolution read:

Whereas, it has been brought to our attention by the Fuel Administration that many coal operators are granting bonuses and other [illegible] for labor, thereby causing unrest, abnormal labor turnover, and interfering with [illegible] production of coal:

Resolved, That we recommend the Fuel Administration close down coal mines in central Pennsylvania operating wasteful and uneconomic [illegible] in the present war emergency, where the wage rates or conditions offered at the mines exceed the rates and conditions in effect under the Washington agreement, as applied to the central Pennsylvania field, or decreed by the United States Fuel Administration thereunder.

Board of Five Recommended.

That a committee of five members be constituted by the Association of Bituminous Coal Operators of Central Pennsylvania, subject to appeal to the United States Fuel Administration, to determine in each case upon hearing to the operator the question of whether any [illegible] in the case of such wasteful and uneconomic rates for working at this time, the findings and recommendations of such committee to be subject to appeal to the Fuel Administration by any aggrieved party.

ASSIGNED TO DEPOT BRIGADE.

Special Orders, No. 134:

150. Chaplain James A. Smith, National Army, is relieved from duty with the 88th Division and is assigned to the 163d Depot Brigade. He will report without delay to the commanding officer of the brigade for duty.

NATIONAL BANK CHARTERS APPLIED FOR AND GRANTED

JULY 1.

The Comptroller of the Currency issues the following:

Applications to the Comptroller of the Currency during the period from June 22 to June 30, 1918, for authority to organize National Banks and to convert State banks into National banks; charters issued; charters extended and reextended; increases and reductions of capital approved; changes of title approved and National banks placed in voluntary liquidation.

APPLICATIONS FOR CHARTER.

	Capital.
For organization of national banks—The First National Bank of Dutton, Mont	$25,000

CHARTERS ISSUED.

Original organization—The First National Bank of St. Helens, Oreg	25,000

INCREASES OF CAPITAL APPROVED.

	Increase.
The First National Bank of Hemet, Cal., from $25,000 to $50,000	25,000

Total	75,000

CHARTERS EXTENDED.

The First National Bank of Ford City, Pa., until close of business June 23, 1938.

CHARTERS REEXTENDED.

The First National Bank of Deadwood, S. Dak., until close of business June 26, 1938.

SUMMARY.

	No. of banks.	Capital.
Applications for charter	1	$25,000
Applications rejected	None.	
Charters issued	1	25,000
Increases of capital approved	2	75,000
Reductions of capital approved	None.	
Charters extended	1	
Charters reextended	1	
Changes of title approved	None.	

Mails Lost by Sinking of S. S. Kong Magnus

OFFICE OF SECOND ASSISTANT POSTMASTER GENERAL,
Washington, June 22, 1918.

Through information received from Norway, it is now learned that by the sinking in the North Sea of the steamship *Kong Magnus* by a German submarine about the 7th of December last, mails for Bergen and Christiania were lost, these mails having left New York by the steamship *St. Louis* on November 13, 1917.

The mails lost consisted of 26 sacks of letters, 141 sacks of newspapers and prints, and 4 sacks of equipment, including 1,044 registered articles and about 49,000 ordinary letters and post cards, being the accumulation at New York after the sailing of the steamship *St. Paul* on November 3, 1917.

In connection with inquiries for missing mail matter, postmasters will consider the information herein given and when it furnishes a reason for the nonreceipt of mail matter at destination they will so inform the senders.

OTTO PRAEGER,
Second Assistant Postmaster General.

EXPORT LICENSE REVOCATION DATE IS POSTPONED

(Continued from page 1.)

with respect to small shipments of less than $100 in value to the United Kingdom, France, Italy, and Belgium (excluding their colonies, possessions, and protectorates). The date of the withdrawal of the authority of collectors of customs to license such shipments has likewise been postponed for a period of two weeks. Licenses of this character issued by collectors on or before July 14, 1918, shall be deemed to have been used within the period of their validity if the shipping documents conform to the provisions of the regulations governing the expiration date of export licenses, as announced June 29, 1918 (W. T. B. R. 152).

The attention of exporters of cotton is called to the fact that the War Trade Board have likewise postponed for a period of two weeks the expiration date of the special license issued through the Customs Service, under which shipments of raw cotton, excepting sea-island and Egyptian cotton, have been proceeding to the United Kingdom, France, and Japan. This special license now expires on July 14, 1918. Raw cotton shall be deemed to have been shipped within the period of the validity of this special license if the shipping documents conform to the provisions of the regulations governing the expiration date of export licenses, as announced June 29, 1918 (W. T. B. R. 152).

Shipments of Raw Cotton.

Shipments of raw cotton which can not be shipped against this special license under the above provisions will require individual licenses. Applications for such licenses to ship to the United Kingdom or to France must be accompanied by appropriate supplemental information sheets, and must be filed through the mission in the United States of the country to which the exportation is to be made, in the manner prescribed by the War Trade Board in the announcement of May 13, 1918 (W. T. B. R. 104).

Particular attention is directed to the fact that the announcement of May 13, 1918 (W. T. B. R. 104), refers only to shipments to the United Kingdom, France, Italy, and Belgium (excluding their colonies, possessions, and protectorates).

Summarizing the foregoing, the revocation of licenses which will take place on July 14, 1918, under this ruling affects only—

(1) All licenses granted on or before May 14, 1918, to export to the United Kingdom, France, Italy, or Belgium (excluding their colonies, possessions, and protectorates).

Special Customs Licenses.

(2) The special license issued through the Customs Service, under which shipments of raw cotton have been proceeding to the United Kingdom, France, and Japan, and their colonies, possessions, and protectorates. There has been no modification of the ruling issued on May 31, 1918 (W. T. B. R. 122), which revoked this special license so far as concerned exports of raw cotton to Italy.

(3) The licenses issued through the customs service to export shipments of less than $100 in value to the United Kingdom, France, Italy, and Belgium (excluding their colonies, possessions, and protectorates).

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, JULY 2, 1918. No. 350

EXECUTIVE ORDER ESTABLISHING A NEW DEFENSIVE SEA AREA

Two Areas at Chesapeake Bay Entrance are Abolished and New Lines Designated.

EXECUTIVE ORDER ESTABLISHING DEFENSIVE SEA AREA.

In accordance with the authority vested in me by section forty-four of the act entitled "An act to codify, revise, and amend the penal laws of the United States," approved March fourth, nineteen hundred and nine, as amended by the act "Making appropriations for the naval service for the fiscal year ending June thirtieth, nineteen hundred and eighteen, and for other purposes," approved March fourth, nineteen hundred and seventeen, I, Woodrow Wilson, President of the United States, do order that the defensive sea area at Chesapeake entrance and the defensive sea area at Hampton Roads, established by Executive order under date of April fifth, nineteen hundred and seventeen, be hereby abolished.

And further, I do order established, subject to the same disclaimer of responsibility for damage inflicted as proclaimed in said order of April fifth, nineteen hundred and seventeen, a defensive sea area, to be maintained until further notification, at the place and within the limits described as follows—that is to say:

Lower Chesapeake:

Outer limit.—Line parallel to that joining Cape Henry Light and Cape Charles Light and 4 nautical miles to eastward thereof, and the lines from Cape Charles Light and from Cape Henry Light perpendicular to this line.

Inner limits.—Line tangent to end of wharf on west side of Old Point Comfort and Fort Wool, and a line running from Back River Light through the Light Vessel marking the southern end of the 35-foot cut known as the Baltimore Channel, thence to the eastern shore of Virginia.

And I do further order that the "Regulations for Carrying into Effect the Executive Order of the President Establishing Defensive Sea Areas," approved by me April 5, 1917, duly promulgated and published, are and shall be considered as of full effect and binding on all persons and vessels within the limits of the defensive sea area hereby established.

The designated points for ships entering and leaving the defensive sea area herein established shall be as follows:

Eastern limit.—Chesapeake Bay main ship channel entrance buoy.

Western limit.—In channel to northwestward of entrance buoy of dredged channel, Elizabeth River.

Northern limit.—Light vessel marking the southern end of the 35-foot cut known as the Baltimore Channel, thence to the eastern shore of Virginia.

WOODROW WILSON.

THE WHITE HOUSE, *June 29, 1918.*

Cabinet Members, with the President's Approval, Urge Government Supervision of all Telegraph and Telephone Lines

Fourteen Destroyers to Be Launched July 4

Secretary Daniels authorizes the following:

Latest reports received from shipyards that are building vessels for the Navy indicate that fourteen destroyers will be launched on July 4, as follows:

Bethlehem Union Plant, San Francisco	8
Newport News Shipbuilding and Drydocks Co.	3
William Cramp & Sons Co., Philadelphia	2
Fore River Shipbuilding Co., Boston	1
	14

NEW "LIGHTLESS NIGHT" PLAN TO SAVE ELECTRIC-GAS FUEL

The United States Fuel Administration authorizes the following:

The United States Fuel Administration is confronted with the immediate necessity for further conserving coal used in the manufacture of electrical current and illuminating gas.

An order is in preparation which is to take the place of the so-called "lightless-night" order of November 13, which was suspended by the Fuel Administrator on May 1 by reason of the daylight-saving law and the fact that the general conservation program of the administration was deemed sufficient notice to the country that coal and the power derived from coal must be conserved in every possible way.

Electricity Being Wasted.

It now appears that in every city and village of the country, from which statistical and other reports have been gathered, electricity is being wasted in large quantities in the production of light for advertising, street and store illumination, and other similar purposes. The country needs now—and for the whole period of

(Continued on page 8.)

LETTERS TO MR. ASWELL

Postmaster General Burleson and Secretaries Baker and Daniels Point out Reasons for Proposed Government Authority over all Means of Communication By Electricity—Text of the Empowering Resolution.

Following is the text of the resolution by Mr. Aswell, of Louisiana, granting to the President authority to take over the telegraph and telephone lines of the country:

Joint resolution to insure the continuous operation of electrical communicating systems, to guard the secrecy of war dispatches, and prevent communications between public enemies.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President, if in his discretion it is deemed desirable, in order to insure their continuous operation, or to guard the secrecy of military and governmental communications, or to prevent communications by spies and other public enemies thereon, or for other military or public reasons, shall have power to take possession and control of any telegraph, telephone, marine cable, or radio systems, and operate the same subject to those conditions of law, so far as applicable, which are in force as to steam railroads while under Federal control.

Letter to Chairman Sims.

Upon its introduction Postmaster General Burleson sent the following letter to Chairman Sims of the House Committee on Interstate Commerce, to which committee it was referred:

"MY DEAR MR. CHAIRMAN: Answering your inquiry requesting my 'opinion as to the desirability and advisability of the immediate passage' of the Aswell joint resolution, H. R. 309, giving the President power 'if in his discretion it is deemed desirable' to assume control of the communicating systems by electricity 'in order to insure their continuous operation' during the occasion of the war and 'to guard the secrecy of military and govern-

and discretion to act seems imperative to

"At this moment paralysis of a large part of the system of electrical communication is threatened, with possible consequences prejudicial to our military prep- and other [illegible] activities that might prove serious or disastrous. We are reminded that there is not a nation engaged in the war [illegible] its military or other communications to unofficial

"I deem it therefore my duty not merely to approve but to urge the passage of the resolution, in order that the President may act, if necessary, to safeguard the interests of the country during the prosecution of the war.

"Respectfully,

"A. S. BURLESON,
"*Postmaster General.*"

President Wilson's Letter.

This letter from the Postmaster General was referred by Chairman Sims to President Wilson, who replied to it as follows:

"WHITE HOUSE, *June 29, 1918.*

"MY DEAR MR. SIMS: Thank you for consulting me about the inclosed. I indorse heartily the inclosed letter from the Postmaster General, which I herewith return, and think that the reasons are stated by him truly and comprehensively.

"Cordially and sincerely, yours,

"WOODROW WILSON."

Secretaries Baker and Daniels.

The letter of Secretary Baker, which was read to the committee yesterday, was as follows:

"DEAR MR. SIMS: I thought it both expedient and wise that the President should have conferred upon him the powers which he is given under the provisions of House Joint Resolution No. 309.

"Cordially, yours,

"NEWTON D. BAKER."

Secretary Daniels's letter was as follows:

"MY DEAR MR. CHAIRMAN:

"I have received your letter of June 28, asking my opinion as to the desirability and advisability of the immediate passage of House Joint Resolution No. 309, 'to insure the continuous operation of electrical communicating systems, to guard the secrecy of war dispatches, and prevent communications between public enemies.'

"I believe that such resolution is of high military importance and that during this period of war the Commander in Chief of the Army and Navy ought to have the power to take possession and control of any telegraph, telephone, marine cable or radio systems, and operate them under conditions of law, so far as applicable, which are in force as to railroads while under Federal control.

"It was found absolutely necessary to carry this into effect as to railroad systems, and I think it is almost as important that the President should have the power to control all other methods of communication.

"Sincerely, yours,

"JOSEPHUS DANIELS."

War Department to Assume the Custody of 2,500 German "Commercial Prisoners"

The following statement is authorized by the War Department:

Arrangements have been completed for the transfer of about 2,500 enemy aliens held at Hot Springs, N. C., from the jurisdiction of the Labor Department to the War Department. The transfer will take place on July 1, but the aliens will not be removed to Fort Oglethorpe, Ga., where internment barracks of the War Department are located, until about July 15. The camp at Hot Springs, N. C., will be taken over by the Surgeon General for use as a reconstruction hospital. Those now at Hot Springs are known as commercial prisoners, having been taken from enemy merchantmen.

POSTMASTER GENERAL URGES ALL POSTAL EMPLOYEES TO PUSH WAR-SAVINGS CAMPAIGN

OFFICE OF POSTMASTER GENERAL,

To all postmasters and postal employees:

The President having designated the period ending June 28 as a special time during which the people should invest their surplus funds in war-savings securities and pledge themselves to continue such investment regularly, I earnestly request you to cooperate with the Secretary of the Treasury in this concerted thrift movement to the limit of your ability. The people of the United States have heretofore generously responded to the appeals of the Chief Magistrate in behalf of the Liberty loans, Y. M. C. A., and Red Cross, thus indicating that they will make the war-savings movement equally successful with these other patriotic activities.

I am sure that every employee of the postal establishment has read the inspiring statement of the President, but nevertheless I desire to emphasize one of his very impressive thoughts—

"To practice thrift in peace times is a virtue and brings great benefit to the individual at all times; with the desperate need of the civilized world to-day for materials and labor with which to end the war, the practice of individual thrift is a patriotic duty and a necessity."

While the President makes his appeal to "every man, woman, and child," it is especially significant to postal employees, because upon them the law devolves the duty of aiding in the sale of war-savings stamps. It is extremely gratifying to be able to say that during the six months these stamps have been offered to the public the Postal Service has displayed great diligence in promoting their sale; but, while practically the entire personnel of the service has been capable and alert, it must be realized that past services will not suffice for present duties and future requirements. A vast volume of war-savings stamps must yet be sold if we are to aid effectively in meeting the needs of the National Treasury.

All reports in relation to war-savings stamps by postal officials should continue to be addressed to the Third Assistant Postmaster General, who is chairman of the committee having immediate supervision of the sale of the war-savings loan by the Postal Service.

In the name of duty and the devotion we feel for the heroic Americans who are fighting the battles of freedom, I call upon every postal employee for unceasing efforts in the sale of these stamps.

A. S. BURLESON,
Postmaster General.

Belgian Steamer Sunk By Submarine About 1,400 Miles From U. S. Coast

The Navy Department is informed that the Belgian steamship *Chilier* was sunk by shell fire from a German submarine about 1,400 miles at sea from the Atlantic coast on June 21. Twenty-five survivors were rescued on June 27 by a sailing vessel. First information was received last night. The *Chilier* was a ship of 2,966 gross tons.

GIVEN HONORABLE DISCHARGE.

Special orders, No. 146:

92. By direction of the President, Col. Franklin S. Hutton, Infantry, National Army (major, Infantry, Regular Army), is honorably discharged as colonel, Infantry, National Army, only.

Lieut. George B. Redwood Killed In Action May 28

The following statement is authorized by the War Department from The Adjutant General's Office:

The Statistical Division of The Adjutant General's Office is in receipt of a cablegram from Headquarters, American Expeditionary Forces, that First Lieut. George B. Redwood was killed in action May 28, 1918. His emergency address is Mrs. Frances T. Redwood, No. 11 Stock Exchange Building, Baltimore, Md.

Through a cable error this casualty was reported on June 16 as "George Lekes Redwood, first lieutenant."

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

RULES EXTENDED PROHIBITING SALE OR THE GIFT OF LIQUOR TO SOLDIERS AT CAMPS OR ELSEWHERE IN THE U. S.

BAN IN PRIVATE HOMES

May Not Be Served to Members of Families or Bona Fide Guests in Uniform, as Heretofore—Dry Zones Wherever 250 or More Men Are Stationed for More Than Thirty Days.

The commission on training camp activities issues the following:

Upon recommendation by representatives of the Attorney General, the Judge Advocate General of the Army, and the War Department commission on training camp activities, President Wilson and Secretary Baker have made new regulations, which prohibit the furnishing of liquor to officers and men of the Army anywhere in the United States, even within private homes, it was announced officially by the War Department commission on training camp activities. Serving of liquor to soldiers who are members of the family or bona fide guests in private homes outside the extra-cantonment zones has heretofore been permitted.

New "Dry Zone" Regulations.

The revised regulations also establish dry zones around every camp where as many as 250 men have been or shall be stationed for more than 30 days. The old regulations provided such zones only around divisional camps, embarkation camps, officers' training camps, and a number of specified training camps for various staff corps.

The new regulations, which supersede all former regulations except the regulation of March 2, 1918, relating to the Island of Oahu, Territory of Hawaii, are as follows:

Text of Regulations.

1. Around every military camp at which officers and enlisted men, not less than 250 in number, have been or shall be stationed for more than 30 consecutive days, there shall be for the purpose set forth in this regulation a zone 5 miles wide, except that within the existing limits of an incorporated city or town within which the sale of alcoholic liquor shall not be prohibited by the State or local law, the zone shall not include any territory more than one-half mile from the nearest boundary of such camp. Alcoholic liquor, including beer, ale, and wine, either alone or with any other article, shall not, directly or indirectly, be sold, bartered, given, served, or knowingly delivered by one person to another within any such zone, or sent, shipped, transmitted, carried, or transported to any place within any such zone: *Provided*, That this regulation shall not apply to the giving or serving of such liquor in a private home to members of the family or bona fide guests, other than members of the military forces, or to the sending, shipping, transmitting, carrying, or transporting of such liquor to a private home for use as aforesaid: *Provided also*, That this regulation shall not apply to the sale or gift of such liquor by registered pharmacists to licensed physicians or medical officers of the United States for medicinal purposes, or to the sending, shipping, transmitting, carrying, or transporting of such liquor to registered pharmacists, licensed physicians, or medical officers of the United States for use as aforesaid.

2. Alcoholic liquor, including beer, ale, and wine, either alone or with any other article, shall not, directly or indirectly, be sold, bartered, given, served, or knowingly delivered to any officer or member of the military forces within the United States, their territories or possessions, or any place under their control, except to medical officers for medicinal purposes, or when administered by or under the direction of a licensed physician or medical officer.

Medicinal Use at Camps.

3. The sale or supply of intoxicating liquors to licensed physicians and medical officers for medicinal purposes, and the possession, use, and administration thereof by such physicians and officers for medicinal purposes, at any military station, cantonment, camp, fort, or post is permitted.

4. All prior violations of former regulations and all penalties incurred thereunder shall be prosecuted and enforced in the same manner and with the same effect as if these superseding regulations had not been established.

WOODROW WILSON,
President of the United States.

THE WHITE HOUSE,
June 27, 1918.

NEWTON D. BAKER,
Secretary of War.

WAR DEPARTMENT,
June 27, 1918.

Mail Not Accepted for Certain Parts of Italy

OFFICE OF THE SECOND ASSISTANT POSTMASTER GENERAL,
Washington, June 20.

In order to avoid the transportation of mail which can not at present be delivered postmasters are informed that mail and parcel-post packages shall not be accepted for the Provinces of Udine and Belluno, nor for places in the Provinces of Treviso and Venezia (Venice) which are located east of the Piave River, as the territory named is invaded by enemy forces.

Such articles for places herein named as have been mailed shall be returned to the senders and the postage prepaid thereon refunded to the senders if application is made in accordance with section 461, Postal Laws and Regulations.

Postmasters shall give publicity to this notice as far as may be practicable in order to acquaint the public concerned with the facts as herein stated.

Until further notice, the registration of parcel-post packages for Italy has been suspended, effective July 1, 1918.

OTTO PRAEGER,
Second Asst. Postmaster General.

FUEL ADMINISTRATOR URGES MINERS TO WORK JULY FOURTH

The United States Fuel Administration issues the following:

The United States Fuel Administration deems it so important that every pound of coal that constant effort can mine should be produced that it is making a strong appeal to the mine workers everywhere to cut down their holiday making just so far as is consistent with the spirit of the times. United States Fuel Administrator Garfield, while realizing that during wartime the celebration of Independence Day, July 4, has a deeper significance than ever, is anxious that the holiday making of that period shall not extend beyond the single day. It is only by the speeding up of production that the Nation may hope to keep pace with the excessive demand for coal brought about by the war.

Proclamation to Miners.

The United States Fuel Administrator has addressed the following proclamation to the miners:

"*To the coal miners of the United States:*

"Every coal miner is asked to be at his place ready for work on the morning of the 5th of July. You will remember President Wilson's words to the men who mine coal: 'The work of the world waits on you.'

"We are falling short in our coal needs every week. We face now a shortage of 1,000,000 tons a week and, unless the output is increased by 10 per cent, necessary war work will be hampered. Car service is improving and, where there are enough cars, every miner should exert himself to the utmost so that no empty cars are above the tipple when the day's work is done.

"Never before in the history of our country has Independence Day, July 4, had a deeper significance than this year, which finds us forced to take our part in a world war.

War for Freedom.

"On our part, as President Wilson has so ably pointed out, it is a war for freedom—freedom of thought, of ideals, of opportunity. As in the days of old we fought to make the Nation free, so to-day we fight to make the world free. We fight for no selfish purpose. We fight only to insure to all people, great and small, the right to enjoy that civilized freedom of thought and action which our forefathers brought into being.

"I appeal, then, with the utmost confidence to the coal miners of the country to see that the celebration of July 4 is not carried over into unnecessary holidays. We have pledged our Nation to a righteous cause and none of us must turn back.

"H. A. GARFIELD,
"*United States Fuel Administrator.*"

ASSIGNED TO FORT SAM HOUSTON.

Special Orders, No. 140:

73. Maj. James G. Flynn, Medical Reserve Corps, is relieved from duty at Camp Bowie, Fort Worth, Tex., and will proceed to Fort Sam Houston, Tex., and report in person to the commanding officer, Base Hospital No. 1, Southern Department, for temporary duty and by letter to the commanding general, Southern Department.

Use of 200-Pound Sacks Urged for Fertilizers

The United States Department of Agriculture issues the following:

... bring about a more economical distribution of fertilizer, and to effect a saving in the cost of fertilizer to the farmer, the United States Department of Agriculture in a statement just issued requests that no new burlap bags of less than 200 pounds capacity be used after July 1 in the distribution of fertilizer or fertilizer ingredients by any licensee under the President's ... relating to the fertilizer industry.

The practice appears to be common, the ... of less than 200 pounds capacity, such as the 167, 125, and 100 pound bags, in the ... fertilizer and fertilizer ingredients. This seems to be a wasteful practice under existing conditions, ... the scarcity of burlap in this country. The department's ... does not apply to ... burlap bags, the use of which in the distribution of fertilizer and its ingredients is advocated in any size obtainable to save the new bags.

Red Cross War Fund Total More Than $170,000,000

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War.

American Official Communique,
No. 43.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 1, 1918.

Section A.—The day has passed quietly at points occupied by our troops.

Yesterday one of our aviators shot down a hostile machine in the Toul region.

Section B.—In Picardy between noon June 27 and noon June 28, the enemy showed little aggressiveness. His artillery fire was much lighter even than that of the day before. It was directed largely against the region of Grivenes. The activity of his airplanes showed the same decrease as regards reconnaisance work, coupled with a marked increase in bombing operations. During the night, bombs were scattered in small numbers over a considerable part of our sector. The enemy continued to strengthen his position. Hostile patrols attempted more than once to reach our lines, but either retired without establishing contact, or were driven off by rifle fire. Our own artillery operated very effectively on the German front lines and also on his rear areas where one of his ammunition dumps exploded at 9 o'clock in the evening. One of his balloons was brought down in flames by an allied airplane.

In the Picardy sector the day of June 28 to June 29 was notable in the success of our raiding, as reported in the cable of June 29. Our party penetrated the German lines in the region of Chateau Jenlis at 3 o'clock in the morning, taking the enemy completely by surprise. Within the space of 20 minutes they had captured 33 prisoners, including an officer, a number nearly equal to our party. In the course of the operation we destroyed several dugouts and machine guns. Our casualties were remarkably small. As on the preceding day, the German artillery was fairly quiet. Registration fire was delivered at several points and our positions around Villers Tournelle and Cantigny were bombarded during the early afternoon with shells of medium and heavy caliber. In connection with our attack, counter-preparation fire, changing into a barrage, was laid down by the hostile batteries and lasted until 3.45 o'clock. The barrage extended from the Fontaine wood as far north as Grivenes. There was little trench-mortar or machine-gun fire during the day. The German airplanes did comparatively little reconnaissance work but during the night dropped a number of small bombs on our positions, and in the course of the afternoon made several attempts to destroy our balloons.

In the case of one balloon they were successful, but at the cost of one of their machines, which was shot down in flames by a French plane. Our antiaircraft batteries forced other German airplanes to retire without accomplishing this mission. A number of wagons were observed during the day in the German rear areas, but the circulation there was not notable in any respect. Of the German working parties which continued their activities of the preceding days, one was bombed by an American patrol and another dispersed by our artillery. Our artillery fire was again very effective along the enemy's front line.

Particulars of the raids attempted by German troops on our forces in the Colmar sector on June 27 are now available. They were preceded by machine-gun barrage lasting for half an hour. One party of the enemy entered our line, attacking one of our posts at the same time from the north and from the south with rifle fire and hand grenades. It was repulsed and driven off without attaining any results. Another party, estimated to be have been 25 strong, attacked another point, was repelled, and took to flight. At still another of our posts some of the enemy were heard cutting our wire, but were driven off before they had been able to penetrate it. They left behind rifles, caps, and wire cutters. In this sector the day of June 28 furnishes no new developments. There was the usual scattered artillery fire, some trench-mortar activity, and the customary bursts of machine-gun fire. The Germans also used a few rifle grenades. The aerial activity, movements in the German rear areas, and the operations of the German working parties were all as previously reported.

In the Mulhouse sector, from June 28, the only occurrence of any note was the fire directed by the German artillery on our front lines. On preceding days the German shells had been directed exclusively on our rear positions and our lines of communication. This artillery fire was comparatively light, both as regards the caliber of guns employed and number of shells fired. The enemy's machine-gun fire, which consisted of the ordinary short bursts, came as usual from the vicinity of Aspach le Bas and Burnhaupt le Maut. The hostile planes that came over our lines were attacked even more vigorously than usual by our antiaircraft batteries. A German patrol which approached our lines at daylight came under our rifle and machine-gun fire and was quickly dispersed.

The German plane reported destroyed in American official communique July 1 was brought down at 6.30 o'clock on the evening of June 30 by Lieut. Pittman. Its destruction has been confirmed.

PROCEEDINGS OF THE CONGRESS OF THE UNITED STATES BRIEFLY TOLD

SENATE.

The resolution extending until January 1 next the time within which the Railroad Administration can relinquish control of railroads was signed by Speaker Clark and Vice President Marshall yesterday and sent to the President. The motion of Majority Leader Martin directing the conferees on the Agricultural appropriation bill to recede from the Senate amendment increasing the guaranteed price of wheat to $2.50 a bushel was rejected by a vote of 46 to 19 after a discussion that continued through much of the afternoon. The measure was sent back to conference.

Among the bills passed yesterday afternoon were the following: For the Federal incorporation of the "Mothers of Democracy," a patriotic organization to which women who have relatives in the military service would be eligible for membership; a bill to protect the uniforms of the allies by penalizing their use by those not authorized to wear them.

To Amend Trade-Mark Law.

Senator Fletcher introduced a bill amending the trade-mark law and designed to facilitate trade with South American countries. It carries out the provisions adopted at Buenos Aires in 1910, when trade-mark regulations were signed by representatives of American Republics. Senator Robinson introduced a bill to encourage instruction in hygiene of maternity and infancy. It provides that $480,000 shall be apportioned equally among the 48 States to aid in the work, and that further appropriations to be equaled by the different States shall be allowed. Senator Sheppard introduced a resolution identical with that introduced in the House giving the President authority to take over the telegraph lines of the country.

The Senate yesterday afternoon confirmed the nominations of John Joy Edson and Dr. George Kober to be members of the Board of Charities of the District.

Action on Oil Land Bill Deferred.

With the understanding that enactment of the oil-land leasing bill, involving development of western naval reserves will go over until after the recess of Congress action on the bill was again deferred by the Senate and House conferees.

Senator Owen, chairman of the Banking and Currency Committee, announced that as there was no possibility of the hearings on the bill to establish a Federal reserve foreign exchange bank before the summer recess the hearings have been indefinitely postponed.

HOUSE.

The President yesterday afternoon sent to Congress a message vetoing the legislative, executive, and judicial appropriation bill. His message was as follows:

"*To the House of Representatives:*

"Though I realize very keenly the inconvenience to the Government of returning without my signature H. R. 10358, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ended June 30, 1919, and for other purposes, I feel constrained to do so because of the provision contained in the last paragraph of the bill which increases the hours of work for the employees of the Government within the District of Columbia from 7 to 8 hours per day. At the outset of the war I felt it my duty to urge all employers in the United States to make a special effort to see to it that the conditions of labor were in no respect altered unfavorably to the laborer. It has been evident from the first how directly the strain of this war bears upon those who do the labor which underlies the whole process of mobilizing the Nation, and it seemed to me at the outset, as it seems to me now, that it is of the highest importance that the advantages that have been accorded labor before the war should not be subtracted from or evaded.

"Having taken this position in as earnest appeals to other employers I do not feel justified in assenting to a measure in which the United States as an employer changes the condition of the labor of its own employees unfavorably to them, and I feel freer to take this position because I have not learned from any quarter that the employees of the Government in the District have been slack in their labor or have demurred from doing the necessary additional tasks which the time and the exigency required. On the contrary, I have learned that they have cheerfully done additional labor and have not needed the compulsion of law.

"WOODROW WILSON."

The House declined to pass the bill over the veto by a vote of 246 to 50. The Appropriations Committee reported the bill back with the objectionable feature removed, when it was promptly passed and sent to the Senate, where similar action was taken.

Control of Wire Systems.

In a letter to Chairman Sims, of the Interstate Commerce Committee, the President recommended Government control and operation of the telegraph and telephone systems of the country. The Interstate Commerce Committee began at once the consideration of a resolution to that effect which was pending before it, with the purpose of reporting it promptly to the House. Postmaster General Burleson and Secretaries Daniels and Baker were asked to appear before the committee in connection with this proposed legislation.

A general deficiency bill, the last for this session, was passed yesterday afternoon. It carries a total of $926,504,000 for the Military Establishment and $50,000,000 additional for war housing. Of the Army appropriation $712,223,600 is for clothing. The $12,000,000,000 Army appropriation bill was sent to conference, with instructions to the conferees to give full and careful consideration to all the Senate amendments, which are numerous. Conferees on the rivers and harbors bill again found themselves deadlocked over the Senate increase in the item for the improvement of Mobile Harbor, the House conferees refusing to accept the Senate's increase in that item from $360,000 to $500,000.

Retirement Pay Bill.

By a tie vote the Military Committee refused a favorable report on the Senate bill to give retirement pay to volunteer officers of the Civil War. Before the Rules Committee Cato Sells, Commissioner of Indian Affairs, opposed a pending resolution for an investigation of expenditures of the Indian Bureau and submitted his reasons therefor. Before the Ways and Means Committee A. C. Dustin, of Cleveland, Ohio, submitted an argument, contending that the present definition of invested capital in the war-revenue law is unjust. He contended the law should recognize the value of property as of the date the taxing law is effective and that money borrowed by the taxed concern should be deducted.

Nominations Sent to Senate

Nominations sent to the Senate July 1, 1918:

To be chief inspector of locomotive boilers.—Alonzo G. Pack, of Colorado, now assistant chief.

Justice.

To be United States district judge.—Louis Fitz Henry, of Bloomington, Ill., for southern district of Illinois.

To be judge of the Municipal Court, District of Columbia.—George C. Aukam, of the District of Columbia.

To be judge of the Police Court, District of Columbia.—John P. McMahon, of the District of Columbia.

To be judge of the Juvenile Court, District of Columbia.—Miss Kathryn Sellers, of the District of Columbia.

To be United States attorneys.—Harry B. Tedrow, of Denver, Colo., for district of Colorado, reappointment; Fred H. Brown, of Concord, N. H., for district of New Hampshire, reappointment. Clarence Merritt, of Paris, Tex., eastern district Texas, reappointment. James G. Burnside, of Vandalia, Ill., eastern district Illinois, vice Karch, term expired.

To be United States marshals.—McDuffie Cain, of Montgomery, Ala., for middle district, Alabama, reappointment; James B. Holohan, of San Francisco, Cal., northern district, California, reappointment; Vincent Y. Dallam, of Springfield, Ill., southern district, Illinois, reappointment; E. R. Moore, of Dubuque, Iowa, northern district, Iowa, reappointment; Otho T. Wood, of Topeka, Kans., for district of Kansas, reappointment; Charles J. O'Neill, of Concord, N. H., district of New Hampshire, reappointment;

Marine Corps.

First lieutenants to be captains in the Marine Corps.—Augustus Aiken, Austin G. Rome, Arthur J. Trask.

Second lieutenants to be first lieutenants in the Marine Corps.—Donald B. Creecy, Robert E. Mills, George R. Jackson, Stewart W. Chaffee, Clinton I. Smallman, William F. Brown, jr.

Temporary second lieutenants to be second lieutenants for a probationary period of two years.—Judson H. Fitzgerald, Samuel A. Milliken.

FOOD ADMINISTRATION ISSUES LIST OF WHEAT PRICE CHANGES TO MEET NEW RAILROAD RATES

BASIS AT THE VARIOUS MARKETS

Schedule Given Upon Which The Grain Corporation is Prepared to Make Purchases—President's Proclamation Superseded by List.

The Food Administration issues the following:

The establishment of new freight rates by the Railroad Administration has necessitated a change in the Government price basis for wheat. After consideration of all factors the Food Administration announces the price basis at various markets for the grades of No. 1 northern spring, No. 1 hard winter, No. 1 red winter, No. 1 durum, No. 1 hard white in store public elevators approved for storage by the grain corporation (seaboard or in store on export terms), as follows, effective July 1:

Terminals and Prices.

Terminal:	Prices.
New York	2.39½
Philadelphia	2.39
Baltimore	2.38¾
Newport News	2.38¾
Chicago	2.26
New Orleans	2.28
Galveston	2.28
St. Louis	2.24
Duluth	2.22½
Minneapolis	2.21⅓
Kansas City	2.18
Omaha	2.18
San Francisco	2.20
Los Angeles	2.20
Portland	2.20
Tacoma	2.20
Seattle	2.20
Astoria	2.20

Basis for Grades.

The basis for No. 2 wheat will be 3 cents below No. 1 and the basis for No. 3 7 cents below No. 1. Grades below No. 3 will be dealt in on sample.

It is expected that the changes in Federal grading standards will throw more wheat into higher grades than last year. The changes in price are worked out as nearly as possible to compensate for increases in railway and sea freights.

The other classes of wheat than those mentioned above as equivalents will be dealt with on the following basis.

The class of dark hard winter will be bought at 2 cents above hard winter; dark northern spring at 2 cents above northern spring; amber durum at 2 cents above durum; while yellow hard winter will be bought at 2 cents under hard winter; red spring at 5 cents under northern spring; red walla at 7 cents under red winter; red durum at 7 cents under durum; soft white at 2 cents under hard white; and white club at 4 cents under hard white.

Intermountain Territory.

Certain parts of the intermountain territory do not receive full compensation for freight increases under the above arrangements and, therefore, special arrangements by which the grain corporation assumes the compensation directly in this territory will be announced in a few days.

We wish to emphasize that the above is the basis upon which the grain corporation is prepared to buy wheat at the above markets.

Prices established by presidential proclamation of February 21, which are superseded by the new schedule, follow:

Chicago	$2.20
Omaha	2.15
Kansas City	2.15
Minneapolis	2.17
Duluth	2.17
New York	2.28
Philadelphia	2.27
Baltimore	2.27
Newport News	2.27
Charleston	2.27
Savannah	2.27
Portland	2.05
Seattle	2.05
San Francisco	2.10
Galveston	2.20
New Orleans	2.20
Salt Lake City	2.00
Great Falls	2.00
Spokane	2.00
Pocatello	2.00
Fort Worth	2.09
Oklahoma City	2.05
Wichita	2.08
St. Louis	2.18

"Fair" Flour and Feed Price Schedule Issued by the Food Administration

The Food Administration issues the following:

There is no limitations upon the freedom of flour mills or traders to buy or sell in any market, the mills being under restriction to reflect the Government price within the profit limitations upon flour.

A full plan of mill regulation will be announced by the Food Administration in a few days. In the meantime, in order that there be no interruption in milling, the mills are advised that prices in excess of the following will be considered as including unreasonable profits:

"Fair" Flour and Feed Prices.

Food Administration schedule of "fair" flour and feed prices (bulk basis), not including bags where sales are made by wheat-flour mills in carload lots on basis of cash or draft with bill of lading attached:

	Flour.	Feed.
Portland	$10.83	$26.88
Boston	10.83	26.88
New York	10.77	26.71
Philadelphia	10.73	26.59
Baltimore	10.71	26.53
Norfolk	10.71	26.53
Newport News	10.71	26.53
Wilmington, N. C.	10.84	26.84
Charleston	10.85	26.96
Savannah	10.85	26.96
Jacksonville	10.85	26.96
Tampa	10.83	27.03
Pensacola	10.53	26.05
Mobile	10.47	25.89
New Orleans	10.27	25.33
Galveston	10.35	25.59
San Antonio	10.35	25.59
El Paso	10.35	25.59
Brownsville	10.35	25.59
San Diego	9.95	24.44
Los Angeles	9.95	24.44
San Francisco	9.95	24.44
Portland	9.95	24.44
Seattle	9.95	24.44

Relative Reasonable Prices.

In making sales at points other than those named above the mill can figure the proper relative reasonable price, by deducting the regularly used local freight rate between its milling point and any of the above-named terminal points on which its freight rates in milling are naturally based. This deduction of freight will give a price, bulk milk, for carload cash or draft sales.

Then the addition to this bulk mill price of the regularly used local freight rate from the mill to destination will give the relative maximum reasonable bulk selling price at destination.

Rules Apply to Feed.

Feed prices: The same rule will apply as regards feed prices as named in the above schedule.

All differentials on less than carload or jobbing business and all package differentials should be maintained as at present prescribed.

The whole plan has been approved by the agricultural advisory board and by a considerable part of the representatives of the milling and grain trades.

62,966 SHIP TONNAGE ADDED IN THE WEEK ENDING JUNE 20

The Shipping Board issues the following:

Four requisitioned steel ships, aggregating 29,200 dead-weight tons, and five contract steel ships, aggregating 33,766 tons, were added to the fast-growing merchant marine by deliveries to the Shipping Board during the week ending June 20. One of the completed contract vessels was the 9,066-ton steamer *Eastern Sun*, built by the Japanese Kawasaki dockyard. This is the first of a number of ships being built by Japan for the United States Government to be delivered to the Shipping Board. It was completed in Japan and turned over to the board at Seattle, Wash.

Other Vessels Delivered.

Of the other contract vessels delivered, two were 8,800-ton cargo ships. One of these, the *West Apaum*, was delivered by the Skinner & Eddy Corporation at Seattle. This is another feather in the cap of this fast-working concern, which has led all competitors in actual ship delivery. The other 8,800-ton contract ship delivered was built by the Los Angeles Shipbuilding Co. She is named the *Accomac*. The American Shipbuilding Co. delivered two cargo carriers of 3,550 tons each, both having been built in the Cleveland yard.

Vessels Requisitioned.

In requisitioned vessels, the Sun Shipbuilding Co., at Chester, Pa., leads the list with the delivery of a 10,000-ton cargo carrier, the *Lancaster*. The Standard yard delivered a 7,300-ton refrigerator ship, *Passaic*, and the Willamette plant on the Pacific coast turned over an 8,800-ton cargo ship, the *Western Ocean*. The American Shipbuilding Co. completed also one requisitioned vessel, the *Lake Benton*, a 3,100-ton cargo carrier.

There have been delivered to date 172 requisitioned steel vessels of 1,107,906 dead-weight tonnage and 17 contract steel ships of 123,616 dead-weight tons.

Save for the country's sake.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	8
Died of wounds	10
Died of disease	1
Wounded severely	48
Wounded slightly	2
Wounded (degree undetermined)	2
Missing in action	10
Total	81

Killed in Action.

Lieut. James C. Brewer. James K. Brewer, 10 Fifth Street, Bristol, Tenn.

Lieut. George B. Redwood. Mrs. Francis T. Redwood, 11 Stock Exchange Building, Baltimore, Md.

Wagoner Frank J. Kutcher. Mrs. Anna Kutcher, 309 Coltan Street, Millvale, Pa.

PRIVATES.

Curd W. Earls. George Earls, Corbin, Ky.

James A. Jordan. Joseph S. Jordan, Eby, Ky.

Frank C. McDermott. Mrs. Maggie McDermott, Portales, N. Mex.

Richard C. Naegle. Charles Naegle, 5205 North Masher Street, Philadelphia, Pa.

David G. O'Neil, jr. David G. O'Neil, care of Utah Construction Co., Camp 6, Reno, Nev.

Died from Wounds.

Lieut. George P. Gustafson. William Gustafson, 915 West State Street, Sycamore, Ill.

Lieut. George D. Jackson. Mrs. D. Jackson, Kingwood, W. Va.

Sergt. Stanley C. Ostrowski. Mrs. Eva Ostrowski, 2236 Sacramento Avenue, South Chicago, Ill.

PRIVATES.

Konstanty Adach. Thomas Adach, 841 Eastern Avenue, Schenectady, N. Y.

Emory Ellsworth Baird. William Allen Baird, R. F. D. No. 6, North Topeka, Kans.

Jeff D. Clarke. W. M. Clarke, Rockland, Tex.

Ruben B. Harelson. William H. Harelson, R. F. D. No. 1, McRae, Ga.

Albert H. Waller. Mrs. Edith Waller, 30 Monroe Street, South Norwalk, Conn.

Charles Wheatley. Thomas Wheatley, Bunker Hill, Kans.

William Yawn. S. J. Yawn, Three Rivers, Miss.

Died of Disease.

Pvt. Lemuel T. Shortbridge. Mrs. Jess Shortbridge, Kenmare, N. Dak.

Wounded Severely.

Lieut. William A. Cross. Mrs. Dora B. Cross, Franklinville, N. C.

Lieut. George Linwood Jeffers. George Jeffers, 404 West Twenty-fourth Street, South Richmond, Va.

Lieut. John W. Leach. Mrs. S. J. Leach, 1102 Eighth Street, Tuscaloosa, Ala.

Lieut. Robert L. Moore. Moore, 6 Buckingham Place, Cambridge, Mass.

Lieut. Philip L. Rose. Mrs. L. S. Miller, 105 East Fifty-third Street, New York, N. Y.

Lieut Earle Mohler Sefton. Mrs. G. B. Sefton, 1907 South Main Street, Anderson, Ind.

Lieut. Robert Wade. Mrs. S. C. Mincey, Unionville, Tenn.

Sergt. Norman F. Berg, Mrs. Annie Berg, 2829 Armitage Avenue, Chicago, Ill.

Sergt. Benjamin H. Lewis. J. H. Lewis, 628 Broadway West, Centralia, Ill.

Corpl. Freeman Blackwell. William E. Blackwell, R. F. D. No. 4, Auburn, Ga.

Corpl. Thomas C. Gardner. Mrs. Allie Gardner, 3703 West Main Street, Richmond, Va.

Corpl. Charles E. Huffman, jr. Charles E. Huffman, sr., 518 Cherry Street, Gadsden, Ala.

Corpl. Ralph C. Robinson. Mrs. Justin E. Peterson, 416 Lincoln Highway, Rawlins, Wyo.

PRIVATES.

Samuel W. Atzer. Mrs. Rebecca Atzer, 1315 South Sixth Street, Philadelphia, Pa.

Keith B. Copenhaver. Thomas D. Copenhaver, Lytle, Mont.

John H. Critchlow. Mrs. John Critchlow, 312 Eighth Avenue, Homestead, Pa.

Melroy Cummings. Mrs. Lena Cummings, 622 Crescent Avenue, Rumford, Me.

James S. Daugherty. George F. Daugherty, General Delivery, Bluefield, W. Va.

Ralph L. Diedrich. Nicholas Diedrich, 108 Glenwood Avenue, Joliet, Ill.

Edgar E. Dragoo. Mrs. Mary Dragoo, Basin, Wyo.

William Dube. Harry Bernard, 7 Deerfield Street, Lowell, Mass.

Hugh S. Funk. Mrs. Belle Funk, Liberal, Kans.

Andy Gomole. Steve Gomole, R. F. D. No. 3, Punxsutawney, Pa.

Oscar Goossens. Miss Carrie Goossens, 611 West Sixth Street, Mishawaka, Ind.

Wounded Severely.

PRIVATES.

Anthony Grill. Joseph Grill, 339 River Street, Reading, Pa.

Peter Hanke. Mrs. Josie Hanke, 1541 Augusta Street, Chicago, Ill.

Amos Hardin. Mrs. Mary E. Hardin, R. F. D. No. 2, Dalton, Ga.

Earl Horton. E. Honeycutt, Bracken Road and Gate Street, Cincinnati, Ohio.

John W. Ivens. E. C. Kohl, Grand Canyon, Ariz.

Horace C. Johnston. George Johnston, Box 384, Libby, Mont.

John P. Kaulen. Herbert Kaulen, 510 South Leavitt Street, Chicago, Ill.

James J. Kennedy. Mrs. Mary Reed, West Philadelphia, Pa.

Howell N. McKay. Malcom McKay, 312 Cedar Street, Anaconda, Mont.

Edward A. McLaughlin. Mrs. M. McLaughlin, Park City, Utah.

William E. McLaughlin. Mrs. Naoma Rodenberg, Foraker, Ohio.

John E. M. Nelson. Mrs. Svea Nelson, 12 Myrtle Court, Bridgeport, Conn.

Charles S. Raffington. A. D. Raffington, 125 West Tenth Street, Hutchinson, Kans.

John C. Ryan. Mrs. John J. Ryan, Box 175, Rawlins, Wyo.

Otis Sampson. Andrew Sampson, 203 East North Street, Stoughton, Wis.

Joseph Schlachter. Mrs. Iola Schlachter, Rock Springs, Wyo.

Fred Olie Seaver. Mrs. Jennie Seaver, Sharon, Wis.

Louis Selleseth. Mrs. Math Evenrud, St. Peter, Minn.

Andrew G. Storrar. Mrs. Andrew G. Storrar, 59 West Broadway Street, Butte, Mont.

Paul A. Sullivan, jr. Paul A. Sullivan, sr., R. F. D. No. 8, Paris, Tenn.

Morris H. Thomas. H. W. Thomas, Edgar Springs, Mo.

Lawrence J. Wells. Mrs. Margaret Wells, 2558 West Walton Street, Chicago, Ill.

La Vern Whipple. John L. Whipple, Sunnyside, Nev.

John Wilson. John Wilson, jr., 85 Pomeroy Avenue, Kearney, N. J.

Wounded Slightly.

Lieut. Paul Daly. Daniel Daly, 31 East Forty-ninth Street, New York, N. Y.

Pvt. John Summe. Frank Summe, Mentone, Ind.

Wounded (Degree Undetermined).

Lieut. Charles L. Miller. William L. Miller, 503 East Walton Avenue, Altoona, Pa.

Pvt. Paul A. Beach. James H. Beach, Green Ridge, Mo.

Missing in Action.

Lieut. Charles C. Croal. J. P. Croal, Sisseton, S. Dak.

Sergt. Daniel A. Foley. Mrs. Marion Rose, 730 South Avenue, Youngstown, Ohio.

Corpl. Harry A. Jones. Henry Jones, Westminster, Colo.

PRIVATES.

Benjamin Birmingham. Mrs. Louisa Danhouser, 1312 Caldwell Avenue, Corpus Christi, Tex.

Joseph M. Bogacz. Miss Mary Bogacz, 81 Court Street, Chicopee Falls, Mass.

Robert A. Collins. Tom Collins, Montrose, Ark.

Joseph V. McGinn. Miss Gertrude McGinn, 119 Mifflin Street, Philadelphia, Pa.

Arthur A. Randall. Frank Randall, Columbia, Miss.

Carl T. Wetz. Carl Wetz, 3265 Third Avenue, New York, N. Y.

Harry L. Wright. Martin Wright, R. F. D. No. 4, Binghamton, N. Y.

Previously Reported Killed in Action, Now Reported Alive and on Duty.

Corpl. Robert H. Jackson. Mrs. Mary Henderson, 274 Metropolitan Avenue, Roslindale, Mass.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces:

Died of wounds received in action	2
Wounded in action (severely)	1
Missing	29
Total	32

Died of Wounds.

Pvt. William J. Attaway. Joseph Attaway, father, 1006 North Second Avenue, Rome, Ga.

Pvt. Anthony M. Sherman. Elizabeth Sherman, mother, 400 South Miami Street, Sidney, Ohio.

Wounded Severely.

Pvt. Edward W. Parkins. Ida Parkins, mother, 303 Linden Street, Detroit, Mich.

Missing in Action.

Second Lieut. Thomas W. Ashley. Charles H. Ashley, father, Deerfield, Mass.

Sergt. Franklyn L. Dost.

Corpl. Earl B. Blackden. Perry D. Blackden, father, General Delivery, Medford, Oreg.

Corpl. Frank J. White. Mrs. Helen White, mother, 38 East Walton Place, Chicago, Ill.

Trumpeter Leslie J. Harris. Margaret Dunning, aunt, 623 Hillgar Avenue, Detroit, Mich.

PRIVATES.

Carl R. Bell. Maud Bell, mother, general delivery, Clinton, Ill.

Boykin W. Craft. Clarence Craft, father, R. F. D. No. 3, Elberton, Ga.

Cedric E. Lyon. Mrs. E. J. Stollar, mother, 622 South Second Street, Hopewell, Va.

Sebren L. Arnold. Estella Green, mother, 1339½ Louis Street, Charleston, W. Va.

Wayne G. Austin. Mary H. Austin, mother, Burrton, Kans.

William E. Ballinger. Elma Ballinger, mother, 815 Richard Street, Dayton, Ohio.

Mont Bennett. John Bennett, father, Poteau, Okla.

George R. Crist. Jacob Crist, father, P. O. Box 101, Broadway, Va.

Clinton W. Fulmer. Dela Fulmer, mother, Concrete, Colo.

Frank Gorney. Stella Gorney, mother, 2701 Cologne Street, Chicago, Ill.

Raymond C. Johnson. Hannah E. Johnson, mother, 1044 Clayton Street, Denver, Colo.

Frederick J. Kingston. Elizabeth Kingston, mother, 81 North Empire Street, Wilkes-Barre, Pa.

Robert Law. Agnes Law, mother, 314 East Eighth Avenue, Homestead, Pa.

Garry Nagle. Garry J. Nagle, father, 44 Tappan Street, Newark, N. J.

John Ramold. Andrew F. Ramold, father, R. F. D. No. 3, Nebraska, Nebr.

Fuel Administration's Order Regulating Added Charges to Coal and Coke Prices

The Fuel Administration authorizes the following:

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917,

Hereby makes and establishes the following regulation, effective June 22, 1918, at 7 a. m., until further or other order, and subject to modification hereafter from time to time and at any time:

REGULATIONS AS TO TRANSPORTATION CHARGES TO BE ADDED TO OR INCLUDED IN SELLING PRICE OF COAL AND COKE.

No producer, distributor, or retail dealer shall include in or add to the price asked, demanded, or received for coal or coke any sum for transportation charges in excess of the amount actually paid by or charged to such producer, distributor, or retail dealer for the specific coal or coke sold, and no increased freight rate shall be included in or added to the selling price of coal or coke stored by or standing to the credit of such producer, distributor, or retail dealer in or on any pool, dock, yard, trestle, vehicle, barge, vessel, or bin unless such increased freight rate has been actually paid by or charged to such producer, distributor, or retail dealer on the specific coal stored or on the specific shipment of coal which gives such credit. The provisions of this regulation apply to all orders of the undersigned fixing prices of coal or coke heretofore or hereafter made which provide that the prices therein contained shall be increased if freight rates are increased and no increased price shall be asked, demanded, or received under such orders except by producers, distributors, or retail dealers who actually pay or become obligated to pay such increased freight rates.

The above regulation was promulgated this 22d day of June, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Order Establishing Maximum Coke Prices at Tennessee and West Virginia Ovens

The Fuel Administration issues the following:

U. S. FUEL ADMINISTRATION,
Washington, D. C., June 24, 1918.

It appearing to the United States Fuel Administrator that various additional regulations should be put in force for the better control of the distribution of coke, and of the price at which the same may be sold,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917,

Additions to Regulations.

Hereby orders and directs that until further or other orders of the Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulations additional to those already set forth shall be in effect beginning at 7 a. m. June 25, 1918:

(1) The maximum price f. o. b. cars at ovens per ton of 2,000 pounds for coke made in bee hive ovens at Ansted, W. Va., County, in the State of Tennessee, shall be for blast-furnace coke $7.25, and for 72-hour selected foundry coke $8.25.

Maximum Price at Ovens.

(2) The maximum price f. o. b. cars at ovens per ton of 2,000 pounds for coke made in beehive ovens at Ansted, W. Va., shall be for blast-furnace coke $7, and for 72-hour selected foundry coke $8.

The expression "72-hour selected foundry coke" shall include only coke selected in accordance with the usual trade practice for foundry use, and the price named for 72-hour selected foundry coke shall in no case be charged for any shipments to blast furnaces for smelting iron or other metal.

H. A. GARFIELD,
United States Fuel Administrator.

MARINE CORPS CASUALTIES.

(Continued from page 7.)

Frank A. Rea. Daniel Rea, father, 175 Linden Street, Yonkers, N. Y.

Robert J. Rhodes. Thomas J. Rhodes, father, 123 Magnolia Street, Jersey City, N. J.

Irving H. Robinson. Abraham Robinson, father, 5 Nineteenth Street, Lapeer, Mich.

John E. Sawyer. Alice Sawyer, mother, R. F. D. No. 2, Wapato, Wash.

Wenefred S. Simmons. Tena Simmons, mother, 1156 McKinley Street, Akron, Ohio.

Benjamin J. Spang. Clara V. Spang, mother, 714 Shirley Street, Philadelphia, Pa.

Carl Stielke. Mary Weber, sister, Cadilla, Mich.

James P. Walton. Maggie Walton, mother, 174 Lindsey Street, Atlanta, Ga.

Robert D. A. Wilson. Carry Halbert, mother, 901 13th Street, Bakersfield, Cal.

ANIMAL IMPORT REGULATIONS.

Revised Rulings Issued by Bureau of Animal Industry.

The Department of Agriculture authorizes the following:

The Bureau of Animal Industry of the United States Department of Agriculture has issued revised regulations for the inspection and quarantine of horses, cattle, sheep, swine, and other animals imported into the United States.

The regulations are contained in a booklet which is a compilation and summary of orders previously issued. The changes in the regulations are mainly of a technical character.

ORDER PLACING PUBLIC HEALTH ACTIVITIES UNDER ONE CONTROL

EXECUTIVE ORDER.

Whereas, In order to avoid confusion in policies, duplication of effort, and to bring about more effective results, unity of control in the administration of the public health activities of the Federal Government is obviously essential, and has been so recognized by acts of Congress creating in the Treasury Department a Public Health Service, and specially authorizing such service "to study the diseases of man and the conditions influencing the propagation and spread thereof" and "to cooperate with and aid State and municipal boards of health":

Now, therefore, I, Woodrow Wilson, President of the United States, by virtue of the authority vested in me as Chief Executive, and by the act "authorizing the President to coordinate or consolidate executive bureaus, agencies, and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government," approved May 20, 1918, do hereby order that all sanitary or public health activities carried on by any executive bureau, agency, or office, especially created for or concerned in the prosecution of the existing war, shall be exercised under the supervision and control of the Secretary of the Treasury.

This order shall not be construed as affecting the jurisdiction exercised under authority of existing law by the Surgeon General of the Army, the Surgeon General of the Navy, and the Provost Marshal General in the performance of health functions which are military in character as distinguished from civil public health duties, or as prohibiting investigations by the Bureau of Labor Statistics of vocational diseases, shop sanitation, and hygiene.

WOODROW WILSON.

The WHITE HOUSE, *July 1, 1918.*

NEW "LIGHTLESS NIGHTS" PLAN

(Continued from page 1.)

the war will need—more coal than it can possibly produce and transport.

Confronted by this condition, the Fuel Administrator will order radical reductions in the quantity of coal consumed in the manufacture of electricity and illuminating gas used for the purposes specified. While the official order has not yet been signed, it is expected that it will provide for closer restrictions in the New England States, New York, Pennsylvania, New Jersey, Delaware, District of Columbia, and Maryland, than in other States where the transportation of coal is not such a tremendous problem.

In any case, it is expected the order will provide that no theater or other outdoor lights shall be turned on until the street lights shall have been lighted. Unnecessary daylight use of electric lights and electric-advertising displays will probably be shut off altogether. The order will deal also with store-window lights, and will extend to all kinds of fuel, including gas and oil.

The amount of public lighting in any city, village, or town shall be only so much as may be necessary for safety, and the use of lights commonly known as cluster lights for purposes of display or decoration shall be discontinued.

Pacific Coast Shipyards Win Honors for Construction During Month of May

Championship Blue Pennants Awarded to the Bethlehem Corporation, San Francisco, and to the Grant Smith-Porter Yards, St. Johns, Oregon. Second-Place Pennants Also Carried off by West Coast Companies. List of all Concerns and Points Awarded.

The Shipping Board issues the following:

Shipyards of the west coast have made a clean sweep of the honors awarded by the Emergency Fleet Corporation to shipbuilding plants which excelled in construction of vessels during the month of May. The standing of the various yards, decided upon by a committee on awards appointed by Director General Schwab and headed by Rear Admiral F. F. Fletcher, shows the championship blue pennants belong to the Bethlehem Shipbuilding Corporation (Union plant), of San Francisco, in the steel-yard competition, and to the Grant Smith-Porter yard, at St. Johns, Oreg., in the wood-yard competition.

Second-Place Pennants.

Second-place pennants were awarded to the Skinner & Eddy Corporation, Seattle, Wash., and the Aberdeen, Wash., yard of the Grant Smith-Porter Co., steel and wood yards, respectively. The Moore Shipbuilding Co., of Oakland, Cal., took third honors in the steel-yard competition, and the Allen Shipbuilding Co., of Seattle, in the wood yard.

To the winners of first place a blue pennant has been awarded. This pennant is 5 by 10 feet in dimensions, on a background of blue, with a circular insignia on a white field, bearing the official flag of the United States Shipping Board. The second-place pennant is similar in design, except that it is a red background, with the Shipping Board flag on a field of white. The third-place penant is white, with a similar design.

Flags Hurried to Winners.

The flags will be sent to the winning yards as soon as possible, in the hope that they may be flying from the yard flagstaffs on the Fourth of July.

Acting with Admiral Fletcher on the committee on awards are F. W. Wood, vice president of the American International Shipbuilding Corporation, and Hugh Frayne, a member of the War Industries Board. Mr. Schwab, who originated the competition, is taking keen interest in the scheme and expects to see the race for flags develop into a national contest, with rivalry keen enough to draw the interest of thousands of persons throughout the country.

Members of the committee stated that picking the winners of the May contest was an extremely difficult task owing to the small margins which separated the contestants.

Contestants Close Together.

"There are only three pennants to be awarded in each division," said Admiral Fletcher, "and the first 10 contestants are so close together that we had to reduce the whole matter to an algebraic formula in order to determine which ones were entitled to first, second, and third places.

"As shipyard organization is improved, I fear the committee will be confronted with a very delicate task, as all the shipbuilders are extremely interested and will strain every nerve to fly the blue pennant, which denotes first place."

The judges, in fixing the winners, considered not only the difference in the size of the yards and the difference in the number of ways in various yards, but took into consideration the general efficiency of the contesting organizations, the labor turnover, the daily attendance of workers, the percentage of accidents, and the natural and other handicaps, such as weather, on the one hand, and rail congestion, shortage of steel, etc., on the other. Everything, in fact, was considered on which the committee had data, and, as Admiral Fletcher remarked, "we have data on everything."

Awards Based on Merits.

It is emphasized that the officials of the Emergency Fleet Corporation, from Director General Schwab down, exerted absolutely no influence upon the deliberations of the committee on awards; that the board devised its own scheme for arriving at an accurate and fair basis of measuring the output of the yards. The board has not made public the details of how this basis was arrived at. It is somewhat involved, there being so many considerations entering into the awards that the committee chooses not to go into a detailed explanation. The yards, however, it is announced officially, may rest assured that the basis of measurement is absolutely fair to the small yard as against the large; that the shipyard building one type of vessel for the Fleet Corporation has an equal chance with the yard building another type; and that everything which, in the opinion of the most expert ship brains in the country, goes into the building of a vessel is taken into consideration.

Yards and Standing for May.

The shipyards and their standing for May performances, as fixed by the committee's award, follow:

Standing in the flag contest for May, 1918.

STEEL YARDS.

No.	Shipyard.	District.	Points.
1	Bethlehem-Union	7	1,000
2	Skinner & Eddy	8	885

Digest of Recent Supreme Court Decisions On Corporation Excise and Income Taxes, Issued by Internal Revenue Commissioner

The Commissioner of Internal Revenue has authorized publication of the following:

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF
INTERNAL REVENUE.
Washington, D. C.

To collectors of Internal Revenue and others concerned:

The following propositions of law, stated for the information and guidance of internal-revenue officers and others concerned, are expressed or implied in the recent decisions of the Supreme Court of the United States in United States v. Biwabik Mining Company (T. D. 2721), Goldfield Consolidated Mines Company v. Scott (T. D. 2722), Doyle v. Mitchell Bros. Co. (T. D. 2723), Hays v. Gauley Mountain Coal Company (T. D. 2724), United States v. Cleveland, Cincinnati, Chicago & St. Louis Railway Company (T. D. 2725), William E. Peck & Co. (Inc.) v. Lowe (T. D. 2726), Lynch v. Turrish (T. D. 2729), Southern Pacific Company v. Lowe (T. D. 2730), Lynch v. Hornby (T. D. 2731), and Peabody v. Eisner (T. D. 2732).

Determination of Net Income.

1. In the determination of net income the excise tax act of August 5, 1909, permitted the deduction from gross income of "a reasonable allowance for depreciation of property, if any;" the income tax act of October 3, 1913, permitted "a reasonable allowance for the exhaustion, wear and tear of property arising out of its use or employment in the business, not to exceed, in the case of mines, 5 per centum of the gross value at the mine of the output for the year for which the computation is made;" and the income tax act of September 8, 1916, as amended permits "in the case of mines a reasonable allowance for depletion thereof not to exceed the market value in the mine of the product thereof which has been mined and sold during the year for which the returns and computations are made."

(a) As mining leases are not conveyances of the ore in place, but are grants of the privilege of entering upon the premises and mining and removing the ore, under none of the acts of 1909, 1913, or 1916 may a lessee of mining property deduct as an outlay deduction of capital assets the proportionate value in place on January 1, 1909, or any other date, of ore mined during the taxable year. See T. D. 1606 (75); article 145, of regulations No. 33; and articles 8, 171, and 172 of regulations No. 33 (revised), United States v. Biwabik Mining Co. (See Von Baumbach v. Sargent Land Co., 242 U. S., 503.)

Corporation Owning Mines.

(b) Under the act of 1909 a mining corporation owning its mine is not entitled to a deduction from its gross income of any amount whatever on account of depletion or exhaustion of the ore bodies caused by its operations for the year for which the tax is assessed nor to a deduction against the gross proceeds from the mining and treatment of ores to the extent of the cost value of the ore in the ground before it was mined. T. D. 1675 (80–89) and T. D. 1742 (96–106) are modified accordingly. In view of their different provisions this rule is inapplicable to situations arising under the acts of 1913 and 1916. See articles 141 and 142 of regulations No. 33; and articles 8, 171, and 172 of regulations No. 33 (revised). Goldfield Consolidated Mines Co. v. Scott. (See Stratton's Independence v. Howbert, 231 U. S., 399; Stanton v. Baltic Mining Co., 240 U. S. 103.)

2. The excise-tax act of August 5, 1909, measured the tax by the net income of a corporation "received" by it from all sources during the taxable year; the income-tax act of October 3, 1913, imposed the tax upon the net income "arising or accruing" from all sources during the taxable year; and the income-tax act of September 8, 1916, as amended, upon the net income "received" from all sources during the taxable year.

Sale of Property.

(a) Where property is acquired by a corporation and subsequently sold for a higher price, under all three acts the gain on the sale is income to the corporation. If, however, the property was acquired before January 1, 1909, only such portion of the gain as accrued subsequent to December 31, 1908, was taxable under the act of 1909, and if it was acquired before March 1, 1913, only such portion of the gain as accrued subsequent to February 28, 1913, was taxable under the act of 1913 or is taxable under the act of 1916. See Regulations No. 31, T. D. 1906 (40, 50, 76), T. D. 1675 (37, 48, 75), T. D. 1742 (43, 55, 91), and articles 88, 101, and 116 of Regulations No. 33 (revised). (Doyle v. Mitchell Bros. Co.; Hays v. Gauley Mountain Coal Co.; United States v. Cleveland, Cincinnati, Chicago & St. Louis Railway Company.)

(b) In order to determine whether there has been gain or loss on a sale, and the amount of the gain, if any, in general under all three acts an amount must be withdrawn from the gross proceeds sufficient to restore the cost of the property or the capital value that existed at the commencement of the period under consideration (either Jan. 1, 1909, or Mar. 1, 1913.) Interest should not be added to the purchase price in order to ascertain the cost of the property. In apportioning the profits derived from a disposition of property acquired before and sold after January 1, 1909, for the purpose of the act of 1909, or acquired before and sold after March 1, 1913, for the purpose of the act of 1913, the division may be pro rata according to the time elapsed or may be based on an appraisal or inventory taken as of December 31, 1908, or February 28, 1913. This is a matter of detail, to be settled according to the best evidence obtainable and in accordance with valid departmental regulations. For the purpose of the act of 1916, however, the fair market price or value as of March 1, 1913, to be ascertained in any practicable manner, is the statutory basis for determining the amount of gain on a sale of property acquired before that date. See Regulations No. 31, T. D. 1578, T. D. 1588, T. D. 1606 (37, 71), T. D. 1675 (36 55, 69), T. D. 1742 (42, 62, 86); Articles 4, 90, 91, 92, 93, 101, 109, 111, 112, and 116 of Regulations No. 33 (revised), and T. D. 2649 (Doyle v. Mitchell Bros. Co.; Hays v. Gauley Mountain Coal Company; United States v. Cleveland, Cincinnati Chicago & St. Louis Railway Co.)

Income from Foreign Sales.

(c) The act of 1913 is valid and constitutional in taxing net income derived from sales in foreign commerce. The same principle applies to the acts of 1909 and 1916. (William E. Peck & Co. (Inc.) v. Lowe.)

(d) Where a stockholder in a corporation receives as a liquidation dividend, representing his share in the distribution of the proceeds of the sale of the property of the corporation upon dissolution, a sum greater than the cost of his stock, under the acts of both 1913 and 1916 the gain is income to the stockholder. If, however, he acquired the stock before March 1, 1913, only such portion of the gain as accrued subsequent to February 28, 1913, was taxable under the act of 1913 or is taxable under the act of 1916. Compare the case of a dividend in ordinary course in paragraph (f) below. See the citations in paragraphs (a) and (b) above. (Lynch v. Turrish.)

(e) Where a corporation owns all the stock and operates under a lease all the property and business of another corporation, acting as banker for it and the two corporations being in substance identical and merged for all practical purposes, under the acts of both 1913 and 1916 surplus of the lessor corporation accrues as income to the lessee corporation as and when accumulated by the lessor corporation, notwithstanding the formal distribution of such surplus in dividends to the lessee corporation may not occur during the taxable year. This special situation forms an exception to the general rule stated in paragraph (f) below. See articles 125, 207, and 208 of Regulations No. 33 (revised). (Southern Pacific Co. v. Lowe.)

Dividends as Income.

(f) Where a stockholder of a corporation receives dividends paid in the ordinary course of business, even though extraordinary in amount, under the acts of both 1913 and 1916, such dividends are income in the year in which they are received by the stockholder. If paid out of surplus accrued to the corporation prior to March 1, 1913, they were subject to tax under the act of 1913, although expressly exempt from tax under the act of 1916. A dividend paid by a going corporation out of current earnings or accumulated surplus when declared by the directors in their discretion, being in the nature of a recurrent return upon the stock, is distinguishable from a so-called dividend in liquidation of the entire assets and business of the corporation, which is a return to the stockholder of the value of his stock upon the surrender of his entire interest in the corporation. Compare the case of a liquidation dividend in paragraph (d) above. See articles 105, 106, and 107 of Regulations

(Continued on page 14.)

Fuel Administration Order Relating to Production and Distribution of Coal In the High Volatile Kentucky Region

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *June 8, 1918.*

Order relative to bituminous coal "Zone M, 4" regulating the production, sale, shipment, distribution, and apportionment of bituminous coal and the method of such production, sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the high volatile coal-producing districts of Kentucky in the eastern Kentucky fields along the Chesapeake & Ohio, Sandy Valley, and Elkhorn Railways and their short-line connections.

It appearing to the United States Fuel Administrator that it is essential to the national security and defense, the successful prosecution of the war, and the support and maintenance of the Army and Navy, that the greatest possible supply of bituminous coal should be produced in the United States; that such production, even though all other conditions necessary therefor are present and capable of employment, is, because of the locations of the mines and the nature of the commodity, limited in part by the capacity of existing transportation facilities for the movement of the coal from points of production to points of delivery and consumption; that the amount of production, notwithstanding a continuance of the other present favorable conditions therefor, can be immediately increased by means of the greater utilization of coal cars, locomotives, and other railroad facilities; and that among such means are the elimination of unnecessarily long hauls and of avoidable cross hauls of loaded and empty coal cars, and the provision of the necessary supply of such coal for each consuming section of the country from the one or more coal fields nearest thereto, or most readily accessible thereto, either in actual distance or in the freedom from congestion and delays in rail movements between such coal fields and such section; and that apportionment of the bituminous coal, produced in the various coal fields of the United States, for delivery and consumption thereof in different designated consuming sections of the United States, sometimes called a "zoning system," will facilitate the movement of bituminous coal, tend to prevent either locally or generally scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war;

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term includes every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Kentucky in the eastern Kentucky district along the Chesapeake & Ohio, Sandy Valley, and Elkhorn Railways and their short-line connections, shall, except as hereinafter provided, sell, ship, and distribute such coal only to dealers and consumers and for use and consumption within the following-described section of the United States hereinafter called "consuming zone," viz:

(1) All of the lower peninsula of Michigan.

(2) That portion of the State of Ohio on and within the following boundary lines: On the east from Kenova, W. Va., coincident with the Norfolk & Western Railway to Sciotoville, Ohio; thence coincident with the Chesapeake & Ohio Northern Railway to Waverly; thence coincident with the Norfolk & Western Railway to Marion; thence coincident with the Pennsylvania lines west of Sandusky, Ohio, on and west from Cincinnati, Ohio, on a line coincident with the Cleveland, Cincinnati, Chicago & St. Louis Railway to the Ohio-Indiana State line.

(3) Points in the States of Kentucky and West Virginia located on the main line of the Chesapeake & Ohio Railway westbound to and including Cincinnati, and on the line of the Chesapeake & Ohio Railway from Ashland to Louisville, inclusive.

(4) Westbound to all points reached via the car ferries of the (a) Grand Trunk Railway operating between Grand Haven, Mich., and Milwaukee, Wis.; (b) Pere Marquette Railway operating between Ludington, Mich., and Manitowoc, Wis., and between Ludington, Mich., and Milwaukee, Wis.; (c) Ann Arbor Steamship Co., operating between Frankfort, Mich., and Manistique, Mich., between Frankfort, Mich., and Menominee, Mich., between Frankfort, Mich., and Kewaunee, Wis., and between Frankfort, Mich., and Manitowoc, Wis., only when coal is loaded in returning box cars or returning stock cars.

Provided, however, That any such producer may ship such a quantity of coal of such quality and for such special use or purpose and to such retail dealer or consumer outside the above designated zone as may be described and designated in a permit issued by the United States Fuel Administration upon an application from such consumer and in accordance with such rules and regulations as may be from time to time prescribed by the United States Fuel Administration;

And provided further, That this order shall not apply to bituminous coal

(a) Shipped for use as railroad fuel.

(b) Shipped in whole or part by inland waterways (other than the Great Lakes) excepting cases where any rail movement from the mine to the waterways would not terminate within the above designated consuming zones.

(c) Shipped to any points in Canada or Mexico.

Wherever any boundary of the consuming zone described in this order follows a line of railway the consuming zone shall include all places usually taking deliveries of bituminous coal from points on switching limits of other railway lines connecting therewith.

This order hereby cancels the order dated March 27, 1918, effective April 1, 1918, entitled "Order relative to bituminous coal 'zone M' regulating the production, sale, shipment, distribution, and apportionment of bituminous coal and the method of such production, sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the high volatile coal-producing district of West Virginia and Kentucky in the Kenova and Thacker, Kanawha, and Logan districts along the Norfolk & Western and Chesapeake & Ohio Railways and in the high volatile coal-producing districts in Kentucky in the eastern Kentucky fields along the Chesapeake & Ohio, Sandy Valley & Elkhorn and Norfolk & Western Railways and short-line connections," and all modifications thereto, from and after June 20, 1918.

This order shall be effective on and after June 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

50 WOUNDED U. S. SOLDIERS IN SCOTTISH WOMAN'S HOSPITAL

The Committee on Public Information, Division on Woman's War-Work, issues the following:

Fifty wounded American soldiers are being cared for in the Scottish Women's Hospital, Abbaye de Royaumont, according to a cablegram received by Kathleen Burke, a special delegate to America:

"America contributed approximately $750,000 to the Scottish Women's Hospital," said Miss Burke, "and naturally we are glad to have the practical opportunity for showing our gratitude.

Opened in December, 1914.

"The hospital at the Abbaye de Royaumont was opened in December, 1914, French authorities providing the building. Women of the Scottish Women's Hospital brought in their own water supply, put in their own electric lighting installation, and prepared the building for reception of the wounded. The hospital started with 200 beds. This number has been increased to about 500 beds. The walls are 4 feet thick, and the building where the sick lie is cool in summer and warm in winter. The nurses and doctors are exceptionally splendid women."

The "Baby of Royaumont."

Miss Burke tells a story of the "baby of Royaumont," a little French child found by one of the soldiers who was passing through a bombarded village. The women doctors operated upon the baby and took a piece of shrapnel from its back. Now it has constituted itself lord and master of the hospital. "When it calls 'Papa' in the morning," says Miss Burke, "as many as 25 fathers answer."

Answers to Questions Regarding Soldiers and Sailors Insurance

The Treasury Department has issued the following in form of a pamphlet:

Under an act of Congress approved October 6, 1917, persons in the active military and naval service of the United States, in addition to other privileges, are given the right to take out insurance with the Government. This act is being administered by the Secretary of the Treasury, through the Bureau of War-Risk Insurance of the Treasury Department.

It is to the advantage of everyone entitled to do so to take out this insurance, and since the time within wich it may be secured is limited I desire to bring the facts promptly to the attention of the soldiers and sailors of the Nation, so that they may be informed of their rights.

This pamphlet is designed to explain as clearly and briefly as possible some of the essential facts that should be known by the men and women who are applying for War insurance. The questions and answers are based on inquiries that have come to the Treasury from soldiers and sailors. It is hoped that the material may prove helpful, both to officers and enlisted men. If additional information is desired, enlisted men should ask their officers.

The Bureau of War-Risk Insurance, Treasury Department, Washington, D. C., will at all times be glad to answer any further question relating to this subject.

The necessity of prompt action with regard to this insurance can not be emphasized too strongly. Because of the cessation of automatic insurance on February 12, 1918, no persons are insured until they have made application therefor.

It is dangerous to delay. The Government is making a liberal, an unprecedented offer to its fighting forces; but the offer is open for only a limited period. Now is the time to act.

W. G. McADOO,
Secretary of the Treasury.

WASHINGTON, D. C.

PREFACE TO REVISED EDITION, MAY 1.

America's fighting forces have responded with spirited enthusiasm to the Government's insurance offer and are continuing to do so. "Insurance means preparedness; preparedness means victory."

Up to April 12, 1918, more than 1,700,000 persons in the military and naval service had applied for Government insurance, representing more than $14,500,000,000. The average amount applied for is upward of $8,200.

The only way you can obtain the full Government protection for yourself and your family is to apply for Government insurance—to apply for the full $10,000—and to apply now.

IMPORTANT.—The time within which persons in the military and naval service may apply for Government insurance is limited by law. If you wish to avail yourself of the Government protection, you must apply within 120 days after you have entered the service.

WHAT GOVERNMENT INSURANCE IS.

1. Q. By whom is this insurance offered?—A. By the United States Government, as authorized in an act of Congress for that purpose approved October 6, 1917.

2. Q. What security is back of this contract of insurance?—A. The United States Government.

3. Q. Is it the only protection furnished by the Government to its soldiers and sailors?—A. No. The Government has provided, in addition, compensation for death or injuries or disease suffered in line of duty.

4. Q. The insurance, then, is in addition to compensation?—A. Yes; and they are entirely independent of each other.

5. Q. Does insurance interfere with service or retirement pay?—A. No; the right to insurance is independent of the right to service or retirement pay.

6. Q. Am I compelled to take insurance?—A. No; you may take it or not, as you see fit. The Government recomends it, but does not compel you to take it.

INSURED—BENEFICIARIES.

7. Q. Who can be insured?—A. When engaged in active service under the War Department or Navy Department, any of the following can be insured: (1) Commissioned officers; (2) enlisted men (meaning a person, male or female, enlisted, enrolled, or drafted into active service in the military or naval forces of the United States, including noncommissioned and petty officers and members of training camps authorized by law); (3) members of the Army Nurse Corps (female) and members of the Navy Nurse Corps (female).

8. Q. Who can be named as beneficiary?—A. Any one or more of the following may be named: Wife, husband, child, grandchild, brother, sister, adopted brother, adopted sister, stepbrother, stepsister, parent, grandparent, or step-parent of the insured, and parent, grandparent, or step-parent of the insured's wife or husband. [A bill pending before Congress proposes to include, in the permitted class, a father through adoption, mother through adoption, and any person who, at any time preceding Oct. 6, 1917, or the insured's enlistment or entrance into or employment in active service in the military or naval forces, has stood in loco parentis to the insured for a period of not less than five years.]

9. Q. Can I name as a beneficiary anyone other than those named in No. 8; for instance, a trustee or guardian or the legal representative of some one in the permitted class or my estate?—A. No; only those in the permitted class may be named.

10. Q. Can I name as beneficiary a person who is not a citizen of the United States or one who resides in another country?—A. Yes. If such beneficiary is in the permitted class. If he be resident in enemy territory or territory occupied by the enemy, payment will be subject to the provisions of the trading-with-the-enemy act.

11. Q. Can the beneficiary be changed?—A. Yes; within the permitted class at any time in writing and subject to the regulations of the Bureau of War-Risk Insurance.

BENEFITS AND PAYMENTS.

12. Q. What benefits does this insurance give to the insured?—A. $5.75 per month for each $1,000 of insurance payable in the event of total and permanent disability as long as the insured lives and is so disabled.

13. Q. What benefits does it give to my beneficiary?—A. In case of your death each $1,000 of insurance will pay to the beneficiary $5.75 per month for 240 months, less any payments made to the insured for total and permanent disability.

14. Q. Can I have the benefits paid in a lump sum?—A. No; benefits can only be paid in 240 monthly installments.

15. Q. Does it pay for death or total and permanent disability from illness as well as injury?—A. Yes.

16. Q. Must the injury or illness be suffered while in the line of duty?—A. No; insurance protection is not limited by any provision as to line of duty. This is in direct contrast to the rights as to compensation. (See questions 3 and 4.)

17. Q. Must the injury or illness be suffered while in the service?—A. No; if you continue to pay premiums you are protected, even though you may leave the service.

18. Q. If I am totally permanently disabled, may I still apply for insurance?—A. Yes; if you apply within 120 days from date of enlistment; but the benefit will be only to your beneficiaries in case you die—not to you personally for disability.

19. Q. If payment of premium is not made on the exact day when it falls due will insurance lapse?—A. No; it is subject to 31 days' grace, during which time it will remain in full force and effect.

20. Q. If insurance lapses, can I have it revived or reinstated?—A. Yes; at any time within six months after lapse, on compliance with the terms and conditions as may be specified in the regulations of the Bureau.

21. Q. If I leave the service, do I lose my insurance?—A. No; you may carry insurance with the Government even though you leave the service, but in order to do so you must change to another form within five years after the close of the war.

HOW AND WHEN TO APPLY.

22. Q. What must I do to become insured?—A. Make written application, stating your name, service number, military organization, date of last entry into active service, age, the amount of insurance desired, and if you wish to name persons to whom you wish it paid in the event of death, give the name of such beneficiaries, using their given name. Example: Jane Elizabeth Smith; do not write it Mrs. John Smith or Mrs. J. E. Smith.

23. Q. Will application blanks be furnished?—A. Yes. They may be procured from the Bureau of War-Risk Insurance, Washington, D. C.; from your commanding officer; or the insurance officer of your organization. The application should be made under the direction of your insurance officer, witnessed and delivered to him promptly, to be forwarded to the Bureau of War-Risk Insurance, Treasury Department, through military channels.

(Continued on page 13.)

MACHINISTS BEING MOBILIZED BY U. S. EMPLOYMENT SERVICE

Census of Skilled Labor in Progress to Systematically Supply War Munitions Plants.

The Department of Labor authorizes the following statement:

In conjunction with its preparation for taking over the recruiting and supplying of common labor for war industries on August 1, the United States Employment Service is taking comprehensive measures to relieve the shortage of skilled workers, particularly machinists, which is handicapping the output of war materials and is little less serious than the common labor shortage.

Soon to Include Skilled Labor.

While the ban against private labor recruiting for war work for the present applies only to unskilled labor, it will eventually include skilled workers, such centralized skilled labor mobilization to be carried out through the common labor recruiting and placing machinery now being completed in each State by the Federal Employment Service.

Mobilization by the International Association of Machinists, affiliated with the American Federation of Labor, of its entire membership for war work; deferred classification of all skilled machinists registered in the draft, and furloughs of skilled machinists already inducted into military service and now in the cantonments are sought by the Federal Employment Service as the chief remedial measures immediately possible.

Machinists' Association Cooperating.

While the question of deferred classification and furloughs for machinists is under consideration by the War Department, the International Association of Machinists is already cooperating with the Employment Service in its machinists' mobilization by registering men in that trade for war work. The association is putting its whole weight behind the war-labor supplying program, and William J. Murphy, a former officer of the International Association of Machinists and recently enrolling agent of the public service reserve at Springfield, Mass., has been assigned by the Employment Service to the association's headquarters at Washington in the interest of this cooperative plan.

E. C. Davidson, general secretary-treasurer of the international machinists' organization, has sent a circular to each of its locals, in which the following information is sought:

The number of skilled machinists, members of the local, now serving in the Army and Navy.

The number of machinists in each local engaged in nonessential industries and an estimate of the number of nonunion men in the locality engaged in nonessential work.

A list of the nonessential industries in the locality, both union and nonunion, including registrations which will be made of all machinists and toolmakers in such plants.

Blanks are also being furnished each local for the registration of all toolmakers and machinists of draft age, with a view to possible deferred classification. Duplicate copies of all this information will be sent to the Public Service Reserve of the Federal Employment Service and will be utilized in the redistribution of machinists to fill the needs of war industries.

The Department of Labor is asking both essential and nonessential manufacturers to assist in its work of transferring machinists, and in Baltimore, Md., Waterbury, Conn., and other cities, committees of manufacturers have been formed to help the local officers of the Employment Service. Both essential and nonessential industries are represented on such committees.

Skilled Labor Recruiting.

The skilled labor recruiting activities of the Federal Employment Service are in the hands of its clearance section, of which I. W. Litchfield, of Boston, is chief. This section is daily besieged with calls for machinists by concerns with war orders. The Government arsenals are now short between 3,000 and 4,000 machinists and toolmakers, while private plants with war contracts are in need of many times that number.

QUESTIONS REGARDING SOLDIERS AND SAILORS INSURANCE

(Continued from page 12.)

24. Q. Must I name a beneficiary?—A. You need not name a beneficiary. The law provides that where no beneficiary is named the insurance, in case of death, will be paid to those in the permitted class who would be entitled to your personal property should you die without making a will.

25. Q. If I do not name a beneficiary now, may I do so later?—A. Yes; at any time by written designation, which should be attested by at least one witness, and sent to the Bureau of War-Risk Insurance, Washington, D. C.

26. Q. If I wish Government insurance, when must I apply for it?—A. Within 120 days after your enlistment or entry into active service.

27. Q. If I take less than $10,000, can I increase it after my 120 days have expired?—A. No; but during the time within which you may apply for insurance you may increase it to not more than $10,000.

28. Q. May another party make application for insurance upon my life, under the law?—A. No, unless you have given him authority to do so, or unless you ratify the application made by him before the time within which you make application for insurance expires.

HOW MUCH WILL IT COST?

29. Q. What will the Government insurance cost?—A. See table of rates on last page.

30. Q. How much can I take?—A. Any amount from $1,000 to $10,000 (in multiples of $500).

31. Q. If I take $10,000 or any other amount, can I drop part of it at any time?—A. Yes.

32. Q. How can my premiums be paid?—A. By deduction from your pay, by deduction from any deposit with the Government, or by direct payment to the bureau by yourself or by some one for you. To avoid lapse it is recommended that deduction from pay be authorized. This will give the best protection to you and yours.

33. Q. For how long must my premium be paid in advance?—A. You may pay monthly or for any longer period.

34. Q. Will my premium always be the same?—A. No; it increases annually in accordance with premium table (question 29) until you change to another form after the war, when the premium will depend upon the plan then chosen.

PLAN OF GOVERNMENT INSURANCE.

35. Q. What form of insurance is it?—A. Annual renewable term insurance. Change to the usual forms of insurance on some other plan will be made within five years after the close of the war.

36. Q. Can I carry my insurance after the war?—A. Yes; in its present form for a period of five years, but within such five years you must change it to another form which can be done without regard to your then physical condition. No medical examination will be required for the change.

37. Q. Will the permanent insurance after the war continue to be Government insurance?—A. Yes.

38. Q. How are the expenses of handling the insurance paid?—A. By the Government.

39. Q. Will the cost to me be increased by the losses due to war?—A. No. Any losses in excess of premiums received will be borne by the Government.

40. Q. What form of insurance can I change to after the war?—A. Usual forms, including ordinary life, 20-payment life, and endowment.

41. Q. Has this insurance during the war a cash value or loan value?—A. No.

42. Q. Will permanent forms of insurance after the war have cash and loan values?—A. Yes.

43. Q. Can people to whom I owe money collect such debts out of my insurance?—A. No. This insurance can not be attached, assigned, or otherwise taken by creditors.

44. Q. Did the Government provide automatic insurance?—A. Yes; for those who become totally and permanently disabled or died before February 12, 1918, without having applied for insurance, the Government provided insurance in the amount of $25 per month, payable to a wife, during her widowhood; and to a child or widowed mother during life. This insurance ceased on February 12, 1918. Those now in the service are not insured until they have applied for insurance.

ON LEAVING THE SERVICE.

45. Q. If while in the service I become insured, do I lose my insurance when I leave the service?—A. No; you may carry the insurance even though you leave the service, but you must change it to another form within five years after the close of the war in order to continue it beyond that time.

46. Q. I am single and have no dependents; why should I take insurance?—A. (1) Because the insurance is payable to you in monthly installments of $5.75 for each $1,000 of insurance should you become totally and permanently disabled; (2) You may at some later date acquire by marriage a dependent whom you will be glad to make your beneficiary; (3) Then, too, you may not be able to pass an examination for life insurance in a regular company after the war (see answer to No. 36).

AWARDS BY PURCHASING DEPARTMENT OF THE GENERAL ENGINEERING DEPOT

Contracts have been awarded by the [illegible] Depot, War Department [illegible]:

June 25, 1918.

The Acme Rubber Co., Trenton, N. J., fire [illegible].

American Ax & Tool Co., Glassport, Pa., [illegible].

Arcadia Trailer Corporation, Newark, N. J., [illegible].

E. C. Atkins & Co., Indianapolis, Ind., saws, [illegible].

DIGEST OF TAX DECISIONS.

(Continued from page 10.)

No. 33 (revised), T. D. 2659 and T. D. 2678. (Lynch v. Hornby; Peabody v. Eisner.)

(g) A dividend in ordinary course paid on stock of a corporation in property or stock other than its own is income to the stockholders to the amount of its cash value when received under the acts of both 1913 and 1916. A dividend paid in stock of another corporation is not a stock dividend. See articles 4 and 106 of Regulations No. 33 (revised). (Peabody v. Eisner. Compare Towne v. Eisner, 245 U. S., 418.)

DANIEL C. ROPER,
Commissioner.

Approved June 24, 1918.

L. S. ROWE,
Acting Secretary of the Treasury.

CONTRACTS AWARDED BY THE BUREAU OF SUPPLIES AND ACCOUNTS OF NAVY

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

June 20, 1918.

No.	Contractor.	Material.
39182	L. Barth & Son, New York City.	Bake ovens.
39183	Canfield Stove & Ref. Co., New York City.	Heating stoves.
39184	Wm. Cramp & Sons Co....	Propellers.
39185	H. M. Sawyer & Son, East Cambridge, Mass.	Oiled clothing.
39191	G. S. Blakeslee & Co., Chicago, Ill.	Dishwashing machines.
39192	American Slicing Machine Co., Chicago, Ill.	Meat slicer machines.
39193	Union Stove Works, New York City.	Heating stoves.
39195	Davis Bournonville Co., Jersey City, N. J.	Oxygen cylinders.
39196	Syracuse Sander Manufacturing Co., Syracuse, N. Y.	Disk sanders.
39197	Safety Car H. & L. Co., Jersey City, N. J.	Solenoids.
39198	Arnold, Constable & Co., New York City.	Carpets.
39199	Cleveland Metal Products Co., Cleveland, Ohio.	Oil heaters.
39200	Ward & Co., Washington, D. C.	Linseed oil.
39201	General Chemical Co., San Francisco, Cal.	Acid.
39203	Universal P. C. Co., Chicago, Ill.	Cement.
39204	Yaryman Rosin & Turpentine Co., Brunswick, Ga.	Turpentine.
39205	E. E. Court, Washington, D. C.	Protractors.
39206	Keuffel & Esser Co., Hoboken, N. J.	Rulers and spy glasses.
39207	Eugene Dietzgen Co., New York City.	Dividers, navigation.
39208	Publicker-Ward Distillery, Philadelphia, Pa.	Alcohol.
39209	Pratt & Whiting Co., Hartford, Conn.	Die-sinking machines.

June 21, 1918.

39217	Brooklyn Varnish Mfg. Co., Brooklyn, N. Y.	Mixing varnish.
39219	East Coast Lumber Co., Watertown, Fla.	Yellow pine.
39220	Cummer Lumber Co., Jacksonville, Fla.	Do.
39221	Morgan Spring Co., Worcester, Mass.	Steel bar.
39222	Crucible Steel Co., Pittsburgh, Pa.	Do.
39223	American Chain Co., New York City.	Chain cable.
39224	Emery Christopher Co., New York City.	Chairs.
39225	The W. D. Campbell Co., Washington, D. C.	Do.
39226	A. Kochs Co., Chicago, Ill.	Do.
39227	Heywood Bros. & Wakefield Co., New York City.	Do.
39228	S. Karpen & Bros., New York City.	Do.
39230	Enterprise Mfg. Co. of Pennsylvania, Philadelphia, Pa.	Meat grinders.
39231	Shepard & Morse, Boston, Mass.	Airplane spruce.
39232	Foxburgh Lumber Co., Norfolk, Va.	North Carolina pine.
39233	Trexler Lumber Co., Newark, N. J.	Do.
39234	M. T. Davidson Co., Brooklyn, N. Y.	Steam pumps.
39235	D. Nast Machinery Co., Philadelphia, Pa.	Drills.
39236	Worthington Pump & Machinery Corporation, New York City.	Steam pumps.
39237	Dow Pump & Diesel Engine Co., Washington, D. C.	Do.
39238	National Brass & Copper Tube Co., New York City.	Cable.
39239	Joseph E. Greene Co., Boston, Mass.	Wire.
39240	York Safe & Lock Co., York, Pa.	Safe lockers.

June 21, 1918—Continued.

No.	Contractor.	Material.
39241	Wayne Oil Tank & Pump Co. Fort Wayne, Ind.	Tanks.
39242	Long Bell Lumber Co., Beaumont, Tex.	Yellow pine decking.
39243	H. H. Babcock Co., Watertown, N. Y.	Spare parts.
39244	Kroeschell Bros., Chicago, Ill.	Refrigerating equipment.
39245	Acme Boiler Works, Detroit, Mich.	Oil tanks.

June 22, 1918.

39248	Bradley Knitting Co., Delevan, Wis.	Gloves.
39249	Gehrke Knitting Mills, Reading, Pa.	Cotton socks.
39250	Ballard Vale Mills Co., Ballard Vale, Mass.	White blankets.
39251	Southern Stove Works, Evansville, Ind.	Heating stoves.
39252	B. F. B. Lawson, New York City.	Wool bunting.
39253	York Manufacturing Co., York, Pa.	Refrigerating equipment.
39254	Packard Motor Co., Detroit, Mich.	Trucks.
39261	Keuffel & Esser, Hoboken, N. J.	Measuring tape.
39262	Detroit Forgings Co., Detroit, Mich.	Forgings.
39266	Atlas Portland Cement Co., New York City.	Cement.
39277	Aluminum Cooking Utensil Co., New Kensington, Pa.	Kettles.
39278	Rome Brass & Copper Co., Rome, N. Y.	Rods, sheet, tubes.
39279	Mohawk Machinery Co., Philadelphia, Pa.	Boring bars.
39280	Manning, Maxwell & Moore, New York City.	Portable cranes.
39281	The American Metals Co., New York City.	Slab zinc.
39282	Van Norman Machine Tool Co., Springdale, Mass.	Milling machinery.
39283	Charleston Gas & Electric Co., Charlestown, Mass.	Coke.
39284	N. E. Coal & Coke Co., Boston, Mass.	Do.
39285	Wayne Oil Tank & Pump Co., Fort Wayne, Ind.	Measuring pumps.
39286	Ford Motor Co., Detroit, Mich.	12 Ford cars.
39287	Becker Milling Machine Co., Hyde Park, Mass.	Milling machinery.

CREW OF TENDER COMMENDED.

DEPARTMENT OF COMMERCE,
Washington, June 13, 1918.

SIR: Referring to the report of the assistance rendered by the tender *Maple*, on May 22, 1918, to the occupant of a hydroplane in the vicinity of Windmill Point Light Station, the department takes pleasure in commending you and the other officers and the crew of the tender *Maple* concerned for the service thus rendered. This commendation will be noted on the records as part of the official history of those who participated in this matter.

It is requested that the inclosed copy of this letter be brought to the attention of those on board the tender *Maple* who engaged in this service.

Respectfully,
WILLIAM C. REDFIELD,
Secretary.

THOMAS J. MILES,
Commanding Tender "Maple."
(Through Commissioner of Lighthouses).

U. S. RAILROAD ADMINISTRATION CLASSIFICATION NO. 1 COMPILED

The United States Railroad Administration authorizes the following:

The work of combining the official, western, and southern classifications into one volume, uniform as to rules, descriptions, carload minima, etc., and with three columns of ratings—one for each of the three classification territories—has been completed and the proposed consolidated classification No. 1 has been compiled and submitted to the Interstate Commerce Comission for their consideration and for public hearing.

Under the three separate classifications it was often the case that a shipment moving through two territories was subjected to different rules on the different parts of its journey, and a shipper, say, from an eastern point to a point west of the Mississippi River, was required not only to be familiar with the rules and descriptions applying east of the river, but the possible different ones west of the river, and was compelled, moreover, to refer to two distinct classifications in order to ascertain his through rating.

These difficulties will disappear when the new consolidated classification becomes effective, and it will only be necessary for a shipper to consult one volume while the only territorial variation will be in the rate which can be easily located.

The work of accomplishing this very important reform of tariff publication has been going on for some years, but its completion was undertaken early by the Railroad Administration, and the book is now ready for publication, subject to any changes that may be determined necessary or advisable after public hearing.

AMENDMENTS MADE TO RULES FOR STEAMBOAT INSPECTION

The Steamboat-Inspection Service has issued a circular letter dated May 27, 1918, addressed to inspectors of the service, steamboat companies, and others concerned, containing amendments of the General Rules and Regulations of the Board of Supervising Inspectors and approval of vessel equipment adopted by the executive committee of the board, at a meeting held from May 11 to 22, inclusive, 1918, as follows:

Carrying Oils on Steam Vessels.

The following resolution prescribing the method of carrying kerosene or other illuminating oils and lubricating oils on steam vessels, in pursuance of a recent act of Congress, was adopted:

Resolved, That in order to carry into effect the amendment to section 4472, Revised Statutes, as provided in bill S. 1546, Sixty-fifth Congress, "An act to permit the use of certain refined products of petroleum as stores on steam vessels carrying passengers," approved March 29, 1918, the following regulations are hereby prescribed for the storage of kerosene and lubricating oils, viz:

Lubricating oils may be stored as heretofore in secure tanks, casks, or cans in the engine-room compartments or storeroom, or in metal-lined lamp lockers or oil rooms. Kerosene or other illuminating oils meeting the requirements of the law must be stored in metallic tanks or cans, and carried in the oil rooms or lamp lockers constructed in accordance with the general rules and regulations.

Heads and Butt Straps of Boilers.

The following resolution relating to method of stamping of heads and butt straps of boilers by inspectors was adopted:

Resolved, That the paragraph under the heading, "Test of plates for butt straps or boiler heads," as contained in the Eighth Supplement to General Rules and Regulations issued November 15, 1917 be amended by inserting after the word "stamp" in the last line of the said paragraph the words, "in one place where it is most likely to be left legible after working into the boiler," so that the paragraph as amended shall read:

TEST OF PLATES FOR BUTT STRAPS OR BOILER HEADS.

Resolved, That, until further ordered, inspectors testing iron or steel plate at the mill where same is manufactured shall allow the mills to shear any plate into butt straps or heads before the coupon from the plate is tested, and they shall accept the statement of the mill manager that the coupon presented to the inspector for testing was taken from the plate from which the butt straps or heads were cut, and if the coupon meets all the requirements of Rule I, Rules and Regulations of the Steamboat-Inspection Service, the inspector shall stamp in one place where it is most likely to be left legible after working into the boiler all heads and butt straps cut from the plate.

Vessel Equipments Approved.

The following-described vessel equipments were approved:

Kapok life-preserver jacket, presented by the G. H. Masten Co., New York, N. Y.

Sanitary Java kapok life-preserver vest, presented by the Everfloat Life Preserver Co., New York, N. Y.

Coston improved life belt (combination cork and kapok), presented by the Coston Supply Co., New York, N. Y.

Cambridge life float, presented by The T. J. Flynn Metal Works (Inc.), Cambridge, Mass.

Sweeney life float, presented by the Herreshoff Manufacturing Co., Bristol, R. I.

Fire gun-fire extinguisher No. 1, 1 quart size, carbon tetrachloride, manufactured by the Fire Gun Manufacturing Co. (Inc.), New York, N. Y.

The above action of the executive committee received the approval of the Secretary of Commerce on May 25, 1918, under the provisions of sections 4405 and 4491, Revised Statutes.—Commerce Reports.

Analysis of U. S. Foreign Commerce for May and 11 Months Preceding

The Department of Commerce issues the following:

The usual monthly statement of the foreign trade of the United States has been completed by the Bureau of Foreign and Domestic Commerce, Department of Commerce. The imports and exports by great groups during the month of May, 1918, and the 11 months ended May, 1918, are presented in the following statement:

Groups.	Month of May—		11 months ended May—	
	1918	1917	1918	1917
IMPORTS.				
Crude materials for use in manufacturing	$139,596,366	$122,914,038	$1,123,904,432	$979,108,011
Foodstuffs in crude condition, and food animals	32,545,565	39,272,354	340,855,089	296,439,216
Foodstuffs partly or wholly manufactured	52,077,112	39,827,225	346,706,684	306,000,674
Manufactures for further use in manufacturing	58,002,070	47,765,361	498,739,455	416,856,695
Manufactures ready for consumption	40,624,777	30,274,114	363,759,950	339,470,206
Miscellaneous	983,589	674,072	18,316,303	14,858,444
Total imports	323,829,479	280,727,164	2,686,281,913	2,352,732,246
EXPORTS.				
Crude materials for use in manufacturing	72,301,734	52,127,788	824,573,299	684,578,534
Foodstuffs in crude condition and food animals	30,179,870	55,908,037	355,928,501	464,987,709
Foodstuffs partly or wholly manufactured	160,050,066	75,178,698	1,028,087,173	658,919,494
Manufactures for further use in manufacturing	98,420,997	118,427,452	1,116,752,332	1,070,102,513
Manufactures ready for consumption	181,432,387	237,094,814	2,027,846,266	2,691,424,152
Miscellaneous	986,993	4,257,438	24,390,443	87,028,269
Total domestic exports	543,372,047	543,894,522	5,372,578,014	5,660,100,671
Foreign merchandise exported	8,663,226	5,779,023	72,891,157	56,479,934
Total exports	552,035,273	549,673,545	5,445,379,171	5,716,580,605

Exports of principal items under the heading "miscellaneous" for May, 1918, were: Horses, $401,595; mules, $73,200; and seeds, $447,660; and for 11 months ended May, 1918: Horses, $13,941,054; mules, $4,585,529; and seeds, $5,409,378.

Fuel Administration Modifies Coal Order Relating to West Virginia High Volatile

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *June 8, 1918.*

Modification No. 4 of order March 28, relative to bituminous coal "Zone N," modifying the provisions of said coal "Zone N," with respect to the sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the Tug River low volatile coal-producing districts of West Virginia along the Norfolk & Western Railway and short-line connections.

It appearing to the United States Fuel Administration that it is essential that the producers of bituminous coal located in the Tug River low volatile coal-producing districts of West Virginia along the Norfolk & Western Railway and short-line connections be restricted in their shipments of coal from certain points in "Zone N," as described in the order of March 28, and that restriction of the movement of bituminous coal in that portion of the so-called "zoning system" covered by his order relative to bituminous coal "Zone N," of March 28, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantiy of bituminous coal to aid in the successful prosecution of the war;

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said order and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the Tug River low volatile coal-producing district of West Virginia along the Norfolk & Western Railway and short-line connections shall not, except as provided in the order of March 28, 1918, sell, ship, and distribute such coal to dealers and consumers and for use and consumption within the following described section of the United States, viz:

All points west of Iaeger, W. Va.

This order shall be effective on and after June 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

CHANGES METHOD OF HANDLING WAR INSURANCE ALLOWANCES

New Treasury Plan to Speed Up Delivery of Checks to Soldiers' and Sailors' Dependents.

The Treasury Department authorizes the following:

A radical change in the method of handling allotments and family allowances which will speed up the delivery of Government checks to the dependents of soldiers and sailors went into effect July 1, Secretary McAdoo announces.

Several important amendments of the war-risk insurance act, just approved by the President, make possible the change in procedure.

Government to Add Bonus.

After July 1 every enlisted man in the military or naval service, regardless of rank or pay, must make the same compulsory allotment to his wife and children—$15 a month. To this allotment the Government will add a monthly allowance ranging from $5 a month for a motherless child and $15 for a wife without children up to a maximum of $50.

In addition, the enlisted man, if he desires Government allowances for his dependent parents, grandparents, grandchildren, brothers, and sisters, may make voluntary allotments to them—fixed by the new amendments at $5 a month, where allotment is made to a wife and children and $15 where no such allotment is made.

Heretofore allotments were on a sliding scale and varied accordingly to the soldier's pay or the numbers and personnel of his family.

Simplifies Allotment System.

The new system, which was put into effect with the approval of the War and Navy Departments, will simplify the administration of allotments and allowances both by the Bureau of War-Risk Insurance and in the field. Henceforth the Bureau of War-Risk Insurance will handle allotments of only two amounts—$15 or $20.

The amounts of family allowances paid by the Government to supplement these allotments are not changed by the amended law.

Beginning with July pay, the Bureau of War-Risk Insurance will handle allotments only to support family allowances—and then only in the amounts required by law to support such allowances. The excess allotments and allotments to persons not entitled to allowances will be handled by the War Department, Navy Department, Marine Corps, or Coast Guard.

This change in administrative procedure will considerably increase the bureau's efficiency in handling its allotment and allowance problem.

OVER A MILLION MEN BACKING THE U. S. FLAG ON FRENCH SOIL, PRESIDENT'S FOURTH OF JULY MESSAGE TO AMERICAN NATION

744,865 YOUNG MEN REGISTERED JUNE 5

The office of the Provost Marshal General authorizes the following table showing the registration on June 5, 1918, of young men who have reached the age of 21 since June 5, 1917:

Alabama	15,358
Arizona	1,695
Arkansas	13,208
California	18,834
Colorado	6,923
Connecticut	10,380
Delaware	1,430
District of Columbia	2,622
Florida	7,380
Georgia	16,715
Idaho	2,788
Illinois	44,842
Indiana	20,093
Iowa	18,032
Kansas	13,122
Kentucky	18,626
Louisiana	13,819
Maine	5,207
Maryland	10,428
Massachusetts	24,909
Michigan	25,799
Minnesota	21,029
Mississippi	12,071
Missouri	25,608
Montana	4,255
Nebraska	9,875
Nevada	561
New Hampshire	2,776
New Jersey	20,574
New Mexico	1,674
New York	69,529
North Carolina	16,743
North Dakota	5,086
Ohio	43,540
Oklahoma	16,315
Oregon	4,701
Pennsylvania	63,237
Rhode Island	3,849
South Carolina	10,776
South Dakota	5,197
Tennessee	18,153
Texas	34,256
Utah	3,051
Vermont	2,354

Total	744,865

COAL INSPECTION MANAGER.

The Fuel Administration issues the following:

To see that coal is properly prepared in conformity with the regulations of the United States Fuel Administration, J. M. Roan, with headquarters at Columbus, Ohio, has been named as field manager of the inspection section, his appointment becoming effective July 1.

MR. BAKER GIVES DATA

Half Million Crossed Over in May and June, Says Secretary of War in Letter Detailing Monthly Figures Since War Began — "A Record to Cause Universal Satisfaction," Mr. Wilson's Comment.

Statement by the President:

I have to-day received the following letter from the Secretary of War which seems to me to contain information which will be so satisfactory to the country that its publication will be welcomed and will give additional zest to our national celebration of the Fourth of July:

"WAR DEPARTMENT,

"*Washington, July 1, 1918.*

"MY DEAR MR. PRESIDENT: More than 1,000,000 American soldiers have sailed from the ports in this country to participate in the war in France. In reporting this fact to you I feel that you will be interested in a few data showing the progress of our over-seas military effort.

"The first ship carrying military personnel sailed May 8, 1917, having on board Base Hospital No. 4 and members of the Reserve Nurses Corps.

Embarkation By Months.

"Gen. Pershing and his staff sailed on May 20, 1917. The embarkations in the months from May, 1917, to and including June, 1918, are as follows:

1917:	
May	1,718
June	12,261
July	12,988
August	18,323
September	32,523
October	38,259
November	23,016
December	48,840
1918:	
January	46,776
February	48,027
March	83,811
April	117,212
May	244,345
June	276,372
Marines	14,644
Aggregating	1,019,115

"The total number of troops returned from abroad, lost at sea, and casualties is 8,165, and of these by reason of the superbly efficient protection which the

Navy has given our transport system, only 291 have been sent abroad.

"The unsurpassed equipment in France for all troops and the fact that our losses remain negligible, and the output of our war industries in this country is showing marked improvement in practically all lines of necessary equipment and supply.

"Respectfully, yours,

"NEWTON D. BAKER."

To which I replied:

"THE WHITE HOUSE,
"*Washington, July 2, 1918.*

"MY DEAR MR. SECRETARY:

"Your letter of July 1 contains a very significant piece of news and an equally significant report of the forwarding of troops during the past year to the other side of the water. It is a record which I think must cause universal satisfaction, because the heart of the country is unquestionably in this war and the people of the United States rejoice to see their force put faster and faster into the great struggle which is destined to redeem the world.

"Cordially and sincerely, yours,

"WOODROW WILSON."

"HON. NEWTON D. BAKER,
"*Secretary of War.*"

PAINT AND VARNISH MAKERS ASKED FOR STOCK STATEMENTS

The War Industries Board authorizes the following:

R. S. Hubbard, chief of the paint and pigment section, has sent the following letter to the paint and varnish manufacturers:

"In order to aid in putting into effect the program announced January 21 and March 11 by the Commercial Economy Board, now the Conservation Division of the War Industries Board, all manufacturers are hereby requested to send us an accurate statement as to any stocks on hand July 1 of those items which have been dropped in accordance with its recommendations.

"This statement should be prepared as promptly as possible and include the following:

"1. Complete account of stock of shades or colors, grades, and sizes of packages, which, according to the board's recommendations, will be dropped, and the dates on which these were put up.

"2. Complete account of stock of the unfilled half-gallon cans and smaller sizes which are to be eliminated in accordance with the board's recommendations and the dates when these were manufactured or received.

"May we have your reply on or before July 10."

FUEL ADMINISTRATOR FOR OHIO.

The United States Fuel Administration authorizes the following:

The United States Fuel Administration announces the appointment of Joseph H. Frantz, of Columbus, as State fuel administrator for Ohio. Mr. Frantz is vice president of the Columbus Iron & Steel Co. and the secretary of the Ohio Manufacturers Association. He is president of the North American Steamship Co.

He has served on the advisory committee of the Ohio fuel administration, and is recommended by the retiring administrator, Henry H. Johnson.

SERBIA'S REPLY TO AMERICA'S DECLARATION OF SYMPATHY

The special agent and charge d'affaires of the United States to Serbia has transmitted to the Department of State the following note from the minister for foreign affairs of Serbia in response to a communication from him conveying the announcement of the Secretary of State of May 29:

CORFU, May 31, 1918.

MINISTRY FOR FOREIGN AFFAIRS OF THE KINGDOM OF SERBIA.

MR. MINISTER: It is with the greatest pleasure that I hasten to acknowledge the receipt of your letter of May 30, in which, by order of your Government, you have been good enough to communicate to me the declaration of the Secretary of State relative to the interest with which the Government of the United States has followed the proceedings of the congress of the oppressed nationalities of Austria-Hungary and the sympathy which that Government has for the nationalistic aspirations of the Czecho-Slavacs and the Jugo-Slavs.

While requesting you to interpret to your Government the feelings of the greatest gratitude which the Royal Government entertains for the great friendly and allied nation beyond the seas for all that it has done already for the Serbian people, I desire to tell you, Mr. Minister, how much this new mark of friendship of your Government for our people, which bears three names but yet forms but one nation, has touched us and encouraged us in our national aspirations. Our people does not doubt but that with the help and sympathy of the Government of the United States the hour of its complete liberation and the realization of its national aspirations will not be delayed and thereby all its sufferings and sacrifices endured during this war, which was imposed upon it, will be largely requited.

I beg you to accept, Mr. Minister, the assurances of my high consideration.

NIK. P. PACHITCH.

HON. H. PERCIVAL DODGE,
American Charge d'Affaires,
Corfu.

LIMIT ON U. S. POSTAL SAVINGS DEPOSITS INCREASED TO $2,500

OFFICE OF THIRD ASSISTANT
POSTMASTER GENERAL,
Washington, D. C., July 2, 1918.

To Postmasters at Postal Savings Depository Offices:

The limit on the amount that a postal savings depositor may have to his credit at interest has been increased from $1,000 to $2,500. Noninterest-bearing deposits can not be accepted. It is requested that postmasters notify depositors who have $1,000 to their credit that $2,500 may now be accepted. The authority for accepting larger deposits is contained in the postal service appropriation act for 1919, approved July 2, 1918.

A. M. DOCKERY,
Third Assistant Postmaster General.

Show your patriotism by contributing to the American Red Cross Fund.

NEW YORK RETAIL STORES ADOPT DELIVERY SERVICE ECONOMIES

The War Industries Board authorizes the following:

It has just been reported to the conservation division of the War Industries Board that practically all of the retail stores of New York City have decided to comply with the request of the Government for economies in delivery service. The request is that each store shall make only one delivery a day over each route, eliminate special deliveries, and refuse to accept the return of merchandise that has remained in the customers' possession more than three days.

Adopted in Other Cities.

Other cities in which the merchants have recently adopted the conservation program are St. Paul, Minneapolis, Detroit, Denver, Boston, Memphis, New Orleans, Montgomery, Baltimore, Newark, Los Angeles, Portland, and Oakland. These are in addition to those who have previously complied with the request made by the Government in time of war for the general welfare of the country.

The adoption of this program has made it possible to avoid replacing employees who have been drafted or who have entered essential war work. The large stores of 30 cities have been able to operate with 35 per cent less of a force, and the saving in automobile trucks has been 40 per cent. This is according to the reports made by these stores to the War Industries Board. Limiting the return of merchandise to not more than three days has made an average reduction of 36 per cent in the amount returned, because of greater forethought in the selection and ordering of goods.

Saving In Small Stores.

In smaller stores one delivery a day has enabled one delivery man to do the work that formerly required two. In 30 small stores in several towns in one Eastern State the number of delivery men employed has been reduced from 116 to 55, as their men have been called away for other service.

The experience in these cities shows that there is no hardship to the public through these restrictions.

RUPEE EXCHANGE ARRANGED.

Treasury Plan to Finance War Imports from British India.

The Treasury Department authorizes the following:

The Secretary of the Treasury has made arrangements with the British Government for a supply of rupee exchange sufficient for an indefinite period to finance imports from India reasonably required for civil or military purposes of importance in connection with the prosecution of the war. The sale of rupee exchange for the purposes aforesaid will, as heretofore, be administered through the Federal Reserve Board. The price will be 35.73 cents per rupee for telegraphic transfers.

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

Provisions of Naval Appropriation Bill "Entirely Satisfactory and Sufficient," Says Secretary Daniels in Analysis of Measure Carrying Over Billion and Half

The Committee on Public Information issues the following:

"The Navy's smile is broader than usual to-day," said Secretary Daniels, in prefacing a statement to the press regarding the annual naval appropriation bill for the fiscal year beginning the 1st of July, to which the President has affixed his signature.

"The country, Congress, and the Navy are all due congratulations," the Secretary continued. "The country and the Navy because of this manifest indorsement of the Navy and its achievements, and Congress because of its wisdom in previously voting money and enacting necessary laws to enable the Navy to attain that degree of efficiency which warranted such a degree of confidence that every dollar for which a need was apparent has been included in this bill, and its generous provision in this act.

Provisions of Bill Satisfactory.

"Moreover, the many legislative provisions in this bill are entirely satisfactory and sufficient. Of these latter, I am personally greatly interested in the provision applying promotion by selection to the staff. The law of 1916 dealt with the line alone, but the seniority rule is as objectionable in one case as in another, and I am glad that Congress has seen fit to dispense generally with a practice which put a premium on mediocrity, and I am glad to say that this new procedure is as welcome to the staff as to myself.

"The bill abolishes the National Naval Volunteers, or, in other words, the federalized Naval Militia, and empowers the President to transfer the members thereof to the Naval Reserve. This legislation was needed for administrative reasons and a better and more efficient organization is bound to result.

Permanent Enlisted Strength.

"Perhaps the outstanding feature of the bill is the permanent increase in the enlisted strength of the Navy from 87,000 to 131,485 men. Many new ships have been permanently added to the fleet and many more will be commissioned in 1919, and this increase in personnel is to provide the officers and crews for these permanent additions as they are completed and placed in commission. The officers come automatically with the increase of ships and the men to man them. That is to say, the existing law fixes the permanent commissioned personnel at 4 per cent of the enlisted strength, but, of course, our officers come from Annapolis, and the authorized number will be made up of graduates from the academy, so it will be several years before the full authorized number of permanent officers needed for the 131,485 increased permanent strength will be commissioned. In the end the new law will give 18 additional rear admirals, 72 captains, 125 commanders, and over 1,600 in lower grades for service.

"The bill authorizes an increase to 75,500 in the Marine Corps from 30,000 and carries also one new permanent major general and one temporary major general, who, with the Major General Commandant, gives three officers of this rank to the Marine Corps. It also authorized for the duration of the war 6 brigadier generals, 22 colonels, and 22 lieutenant colonels. There are no better fighting men in the world than the marines, as recent events in France have emphasized, and Congress wisely provided for an increase in numbers and for increased training stations where men can be prepared.

The Site at Quantico.

"The admirable site at Quantico, on the Potomac River, now under lease, with additional land adjoining, will be purchased. The bill appropriates the money for the purchase of this land and toward the erection of suitable buildings to make this a complete and well-equipped barracks and advance base training station. Provision is made also for the purchase of Paris Island, S. C., already a fine station. With the ownership of the whole of this island, this will make an ideal place, with wholesome environment, for the training of young men for the Marine Corps. The bill also provides a large appropriation for carrying on the large station heretofore authorized for the new marine post at San Diego, which is rapidly becoming an important naval base.

"There is one new provision that will give recognition to civilians who deserve it in that civilian naval employees who render conspicuous services by putting their lives in jeopardy to save life or property are to be awarded medals in the same way as medals are awarded to men at sea for conspicuous service.

Biggest Single Credit.

"The bill votes $1,573,468,415.84, the biggest credit ever appropriated for the Navy in a single measure. For the past fiscal year five separate measures, carrying $1,676,409,668.70 for the Navy, were enacted, and this one bill falls short of the total of those acts by $102,941,252.86.

SERVICE BUREAU
... OF THE ...
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Function, and Location of all Government Departments

"These figures show that during the last 12 months Congress has appropriated, in round numbers, $3,250,000,000 for the support and increase of the Navy. These figures recall a statement made something like a dozen years ago by the late Senator Eugene E. Hale, then chairman of the Naval Affairs Committee. In that year the appropriations for the Navy had been increased to nearly $100,000,000, and there was some comment upon the large increase. Turning to Mr. Padgett, now chairman of the House Committee and then a new member, Senator Hale said: 'Mr. Padgett, you may not now believe it, but you will live to see the day when Congress will, in one year, appropriate as much as $150,000,000 for the Navy.' This year Mr. Padgett reported one bill for more than a billion and a half dollars, and in one year Congress has appropriated more than $3,000,000,000 for the Navy. Senator Hale had what was called a large vision for his day, but his prediction fell short over $3,000,000,000.

"Over $220,000,000 is provided for aviation—every penny asked. Further large appropriations for ordnance are made, including provision for a naval nitrate plant, and a large isolated plant for the storage of high explosives. The bill also provides for railroad communication with the powder factory at Indian Head, which is being enlarged, and for the new proving ground, which will be made ready as rapidly as possible.

"Many needed specific appropriations are provided for the development of the navy yards, and a further lump-sum appropriation of $10,000,000 is made for continuing yard expansion and improvement as necessity arises. Among the specific appropriations for public works is one for development of a submarine base at Key West and another for a building for seamanship, navigation, and other instructive purposes at Annapolis, to cost $2,500,000.

Dry Dock at Charleston.

"At present there is no dry dock south of Norfolk on the Atlantic coast for ships of the largest dreadnaught type. The bill directs the construction of such a modern dry dock at Charleston, S. C., the river and harbor bill having authorized a 40-foot channel to the Charleston Navy Yard.

"Money is not only provided for completing the big three-year program, but an additional $100,000,000 is made available for additional torpedo-boat destroyers, submarine chasers, and other naval craft as the exigencies of the war may make necessary.

"The bill makes it obligatory," concluded the Secretary, "to begin the construction of all of the 48 vessels of the 156 vessels comprising the three-year program, authorized in the act of August 29, 1916, the construction of which has not previously specifically been directed to be begun. I am keenly interested in the early execution of this program and have regretted that lack of facilities due to the big demand for destroyers, transports, and cargo ships rendered it necessary to somewhat abate the fine progress that was being made. However, I requested that the act be worded in this mandatory way, for it is my earnest desire and expectation to carry it out, and I have already taken steps to expedite construction as much as possible."

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers [illegible]; 10 cents per copy in the United States (to be issued daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions engaged in the dissemination of official information. EDWARD S. RUTHERFORD, *Editor.*

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Peru Makes July Fourth a National Holiday Out of Respect for the U. S.

A telegram to the Department of State from the American charge d'affaires at Lima states that as a mark of friendship for the United States the Government of Peru has declared the Fourth of July a national holiday throughout Peru.

A telegram from the American minister at Managua states that President Chamorro has issued a statement that July 4 is to be celebrated as a national holiday in Nicaragua. The President will make an address on July 4 at the camp of the United States marines.

Fourth of July Declared National Holiday in Cuba

A telegram to the Department of State from the American minister at Habana states that the Cuban Congress has declared July 4 and July 14 public holidays.

FOUR APPOINTED MAJORS.

Special Orders, No. 145:

[illegible] The appointment of the following-named officers in the National Army, with date of rank as indicated after their names, is announced:

To be majors: Capt. Allen R. Edwards, Coast Artillery Corps, June 6, 1918; Capt. John T. H. [illegible], Coast Artillery Corps, June 6, 1918; Capt. Ralph E. Haines, Coast Artillery Corps, June 6, 1918; Capt. Thomas H. Jones, Coast Artillery Corps, June 7, 1918.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 49.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES, *July 2, 1918.*

Section A.—Yesterday afternoon in the Chateau Thierry region our infantry, with effective cooperation from our batteries, stormed the village of Vaux, the Bois de la Roche and the neighboring woods. The attack was made in cooperation with the French on our right who advanced their line on hill 204. Our own positions were advanced on a front of a mile and a half and to a depth of 1,000 yards. The enemy's losses in killed and wounded were heavy. His regiment holding the sector attacked offered obstinate resistance and was practically annihilated. Our losses were relatively light. A German counterattack made early this morning was entirely repulsed. The enemy again suffered severely and left additional prisoners in our hands. The prisoners captured in the attack and counterattack number over 500 and include six officers. This increases the total of prisoners taken by our troops in this vicinity during the last month to nearly 1,200. The material captured by our troops during yesterday afternoon's operation includes trench mortars and over 60 machine guns. The day passed quietly at other points.

American aviation squadrons cooperated with our troops in the action northwest of Chateau Thierry. Three of our aviators did not return.

RESTRICTION ON THE IMPORT OF PLUMBAGO IS EXTENDED

The War Trade Board issues the following:

The restriction upon the import of plumbago or graphite has been extended by the War Trade Board, in a new ruling (W. T. B. R. 157), to be effective for the entire calendar year of 1918. Under the list of restricted imports No. 1, this restriction was made absolute until July 1 of this year, the possibility of importing not to exceed 5,000 long tons for the remainder of the year being left open, should investigation prove that stocks in this country were inadequate to meet the home requirements for the entire year.

As a result of the investigation, it has been found that present stocks, together with the home production, suffice to meet the home requirements until well into 1919. The restriction has therefore been continued in effect, and the Bureau of Imports has been instructed to issue no licenses for the importation of plumbago or graphite for the rest of the calendar year.

TREASURY STATEMENT.

TREASURY DEPARTMENT, *Washington, D. C., July 2, 1918.*

RECEIPTS.

Customs receipts	$198,515.16

Total	1,917,449,860.13

MILLION TON MARK PASSED IN THE PRODUCTION OF SHIPS

The Shipping Board authorizes the following:

There were completed and delivered to the Shipping Board in June steel and wood ships totaling 280,400 deadweight tons. Of this output, the steel ships total 262,900 tons, the wood ships 17,500 tons. This is a new record of production for the United States, and comes within approximately 15,000 deadweight tons of the world's record for any month made by the British yards in May.

(The British totals comprise all production, whereas the figures given above for the United States apply only to ocean-going tonnage built for the Shipping Board, and do not include small craft or vessels built for private parties.)

Exceeds June Production.

The June production for the Shipping Board exceeds that of May, the previous high-water mark in American shipbuilding, by 21,159 deadweight tons. The following table of progress discloses that the first million tons of ships on the 1918 program have been delivered:

DELIVERIES OF COMPLETED SHIPS IN 1918, BY MONTHS.

	Deadweight tons.
January	88,507
February	123,625
March	172,611
April	160,286
May	259,241
June	280,400
Total 1918 production to date	1,084,670

A war saver is a life-saver.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

A large number of minor measures on the calendar were passed by the Senate yesterday, among them being the following: Appropriating $13,500 to reimburse Mme. Crignier, a French woman, whose property was damaged in the search for the body of John Paul Jones. A bill granting a monthly allowance of $100 for 20 years to Lieut. Frank Barber, of the British Army, blinded last February by an accident at Camp Wheeler, Ga.; the bill was urged by Secretary Baker as an act of "international courtesy and grace." A bill placing clerks of the Federal district courts on a salary basis at between $2,500 and $5,000 a year, according to the business transacted. A resolution revoking the Federal charter of the National German-American Alliance. House bill extending the penal statutes so as to provide punishment for the embezzlement of funds from Federal reserve banks and authorizing those banks to issue $5,000 and $10,000 notes.

Bills Introduced.

Senator Weeks introduced a bill authorizing the President to appoint Capt. William R. Rush, United States Navy, retired, a rear admiral on the active list. Senator Gore introduced as an amendment to the pending suffrage constitutional amendment a proposition that would make it unlawful for unnaturalized aliens to vote for a Member of Congress, United States Senator, or for presidential and vice presidential electors. Senator King introduced a bill providing for the transfer to points west of the Mississippi River, to be designated by the President, of the offices of those bureaus having to do with matters pertaining to lands and other Government interests located in that region. Senator Frelinghuysen introduced a resolution directing the Committee on Interstate Commerce to conduct an inquiry into the reason for the Railroad Administration taking over the electric lines operated through the Hudson tubes connecting New York and New Jersey.

Recognition of the "Angelus."

Official recognition of the "Angelus," the noon prayer for victory, that is now being uttered daily by millions of Americans, is sought in a resolution introduced by Senator Myers, of Montana. It asks that the President announce by proclamation the setting aside of one minute at noon for prayer for the success of the American forces and their allies. Immediate consideration of the resolution was blocked by objection, on the ground that it might lead to debate.

The conference report on the fortifications appropriation bill carrying appropriations and authorizations aggregating approximately $5,500,000,000 was agreed to.

The Secretary of the Treasury submitted to the Senate Appropriations Committee an estimate of $100,000,000 for the housing program of the Department of Labor for war workers.

HOUSE.

Secretaries Daniels and Baker and Postmaster General Burleson appeared before the Committee on Interstate Commerce and strongly indorsed the Aswell resolution for Government control of all telegraph and telephone lines and recommended its immediate enactment into law. While the hearing was going on the House voted to give the Military Committee consideration of the bill, but later reversed that action and left the resolution with the Interstate Commerce Committee. Secretary Baker argued that at least temporary control was necessary to prevent interruption of communication by strikes, or other causes, which would seriously hamper efficient conduct of the war. Secretary Daniels said control was was essential to preserve secrecy, to prevent communication by spies, and to give the Government power to deal adequately with disloyalists found in the service of the wire, cable, and radio companies. Postmaster General Burleson submitted a complete argument for governmental operation of electric communications systems on the same terms as domestic and foreign mail.

Chairman Padgett, of the Naval Committee, introduced a bill which would make it unlawful to possess any radio apparatus without a license from the Secretary of the Navy.

For the purpose of permitting the Department of Commerce to increase the annual salaries of lighthouse keepers in 1919 from $600 to $840, a supplemental estimate of $504,200 was submitted by the Secretary of the Treasury.

Revenue Bill Hearings.

Formal hearings on the war-revenue bill ended yesterday afternoon. The Ways and Means Committee adjourned subject to the call of Chairman Kitchin. Hearings in executive session will be held with Treasury officials, and it will then be decided just what form the various taxation provisions will take. The closing testimony yesterday afternoon dealt largely upon the excess profits and income tax, with further suggestions as to the definition of invested capital.

Bills Approved by President

THE WHITE HOUSE,
June 28, 1918.

June 28, 1918, the President approved bill of the following number and title:

H. R. 8563. An act to amend the homestead law in its application to Alaska, and for other purposes.

PRICE OF COPPER IS ADVANCED BY WAR INDUSTRIES COMMITTEE

The War Industries Board authorizes the following:

Subject to the approval of the President, the price-fixing committee of the War Industries Board, in conference with representatives of the industry, to-day (July 2) fixed the price of copper at 26 cents per pound, an advance from 23½ cents, the price formerly fixed.

The new price goes into effect to-day (July 2) and will continue until August 15.

MARINE CORPS CASUALTIES

The following casualties are reported in the Marine Corps by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in Action.

Second Lieut. Vernon L. Somers. Maggie A. Somers, mother, Bloxom, Va.

First Sergt. Joseph A. Sissler. Joseph Sissler, father, 312 West Thirty-seventh Street, New York, N. Y.

SERGEANTS.

Clifford L. Brockway. Albert Brockway, brother, 1632 Steuben Street, Utica, N. Y.

Harold Carman. Celia Carman, mother, 53 North First Street, Jamaica, Long Island, N. Y.

Peter Conway. Mrs. P. J. Conway, mother, 2637 Rice Street, Chicago, Ill.

Arthur F. Ware. Libby Riley, aunt, 601 Blair Avenue, Fort Scott, Kans.

CORPORALS.

Harry W. Elliott. Betty Elliott, mother, 312 Hennipen Avenue, Minneapolis, Minn.

Ambrose Hughes. Mrs. Margarete Hughes, mother, Madrid, N. Y.

Rollin W. Laidlaw. William Laidlaw, father, Fezuela B. Cerro, Habana, Cuba.

Napoleon J. LeBlanc. Eva LeBlanc, mother, 3252 Franklin Boulevard, Chicago, Ill.

Harry T. Lyon. Annie Lyon, mother, Hattieville, Ark.

Harley H. Slone. Bell Dye, mother, Detroit, Mich.

PRIVATES.

Palmer A. Adwell. William Adwell, father, Renville, Minn.

Ian Brandon. Mary R. Brandon, mother, Clearwater, Fla.

George I. Chandler. Mrs. Sidney Chandler, mother, general delivery, Waverly Hall, Ga.

Milford R. Colley. Charles H. Colley, father, Waynesville, Mo.

Earl M. Collier. Inez Collier, mother, Olathe, Kans.

Herbert D. Dunlavy. Hettie Hall, mother, Box 21, Goose Creek, Tex.

John P. Eaton. Jamima Eaton, mother, 152 East Second Street, Corning, N. Y.

Buster A. Ellsworth. Leonard E. Ellsworth, father, 407 West Eaton Street, Cripple Creek, Colo.

Harry J. W. Field. Charles W. Field, father, Hatfield, Pa.

Theodore C. Grant. Charles G. Grant, father, 2104 Obear Avenue, St. Louis, Mo.

John A. Hanmer. Mamie Hanmer, sister, Bogalusa, La.

George W. Lockhart. Nettie Lockhart, mother, Wallsburg, Utah.

George W. Luce. Dora J. French, mother, Oxford, Mass.

Arthur McBride. Mrs. S. H. McBride, mother, P. O. Box 593, Clarendon, Ark.

Walter A. May. Bertha May, mother, 1711 A Carroll Street, St. Louis, Mo.

Raymond H. Niesen. Frank A. Niesen, father, 817 Twenty-sixth Street, Milwaukee, Wis.

Henry Pankow. Julius Pankow, father, 2718 Keeler Avenue, Chicago, Ill.

Fred W. Schulte. Anthony Schulte, father, 935 Ohio Street, Quincy, Ill.

Morris T. Suttles. Thomas E. Suttles, father, San Marcos, Tex.

David Tartikoff. Samuel Tartikoff, father, 60 Linwood Street, Malden, Mass.

Alfred E. Weisbaker. Louise Weisbaker, mother, 133 Seymour Avenue, Newark, N. J.

Died of Wounds.

Sergt. William Hoffman. Margaret H. O'Brien, mother, 627 State Street, Milwaukee, Wis.

Corpl. Robert B. Hess. Mrs. Sarah Hess, mother, 415 Jenks Street, St. Paul, Minn.

Pvt. Raymond R. Benson. Anna R. Hicks, mother, North Woodstock, Conn.

Pvt. Edward R. Murray. May Manley, sister, 503 West One hundred and seventy-third Street, New York, N. Y.

Wounded Severely.

Corpl. Harold E. McCurdy. Mrs. E. McCurdy, mother, 6435 Maryland Avenue, Chicago, Ill.

Pvt. Thor A. Rylander. Albert S. Rylander, father, 39 Newburg Street, Roslindale, Mass.

Pvt. Harry E. Clausen. Peter Clausen, father, 1851 North Kimball Avenue, Chicago, Ill.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties have been reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	18
Died from wounds	9
Died of disease	4
Died from accident and other causes	6
Severely wounded	12
Missing in action	36
Total	85

Killed in Action.

Lieut. Boyd S. Crawford. Mrs. Boyd S. Crawford, 326 Fourth Avenue, Tarentum, Pa.

Lieut. John V. Curry. Mrs. Sarah Curry, 102 Henry Street, Plains, Pa.

Sergt. Adolph Cornell. Peter J. O. Cornell, 61 Church Street, South Manchester, Conn.

Sergt. Edward H. Foley. Mrs. Margaret Foley, 415 North Sixty-second Street, Philadelphia, Pa.

Corp. William M. Batjer. William F. Batjer, Rogers, Ark.

Corp. Arthur Lehner. Carl Lehner, 228 Lance Avenue, Detroit, Mich.

Wagoner Delbert F. Callender. Mrs. Emma B. Ruffner, 429 Melcher Avenue, Elkhart, Ind.

PRIVATES.

Claude J. Brewster. Mrs. Effie Beloir, Newport, N. H.

Elsie B. Coxwell. Jim Coxwell, Gadsden, Ala.

Warren Le Roy Day. Mrs. Josie Day, Blue Springs, Neb.

Paul K. Eskew. Mrs. Belle Eskew, Frankfort, Ky.

Delfide Gonzales. Jose Gonzales, Tucumcari, N. Mex.

James A. King. Mrs. Mary King, 1216 Bolton Street, Chestnut Hill, Mass.

Joseph Massorra. Angelo Massorra, 164 Atkinson Street, Rochester, N. Y.

Frank W. Palsgrove. Alfred Palsgrove, 15 Randall Street, Philippsburg, N. J.

Nick Reichling. John Reichling, 5316 South Throop Avenue, Chicago, Ill.

James K. Shoemaker. Gertrude Upton, 42 Windsor Street, Waterbury, Conn.

Henry V. Traynham. Mrs. Evalyn Spurr, Arbuckle, Cal.

Died from Wounds.

Lieut. Howard Lowell Smith. Mrs. Martha W. Smith, 113 Otter Street, Oshkosh, Wis.

Sergt. Carl W. Hackman. Ervin Ormsby, 833 Kearny Street, San Francisco, Cal.

Bugler Antonio Bailey. Mrs. Mildred Bailey, 20 West Jefferson Street, Springfield, Ohio.

PRIVATES.

Jack Lowell. Mrs. Mary Reily, 2551 Eighth Avenue, New York, N. Y.

Harold S. Keefe. John J. Keefe, 48 Maple Street, Dunmore, Pa.

James J. Kirkpatrick, jr. Jas. Kirkpatrick, sr., Wylie Street, Hamilton, Mass.

John C. McKee. Mrs. Ida Staley, R. F. D. No. 1, Nelsonville, Ohio.

Manuel Niotis. Nick Niotis, Burgettstown, Pa.

Sidney Owens. Mrs. Orby Lovejoy, Owanka, S. Dak.

Died of Disease.

Corpl. Ernest F. Curth. Mrs. Margaret Curth, 63 Jackson Street, Yonkers, N. Y.

PRIVATES.

Joseph Francois. Lee Francois, Scott, La.

Henry Hutchinson. George Hutchinson, Seattle, Mass.

Russell D. Wentzel. Mrs. F. P. Wentzel, Troy, N. Y.

Died from Accident and Other Causes.

Lieut. Alvah Crocker, jr. Alva Crocker, care of Crocker Burbank Co., Fitchburg, Mass.

Corpl. Ross T. Hadley. Mrs. Maggie A. Hadley, 2223 County Avenue, Texarkana, Ark.

Corpl. Denver Smith. Guy Smith, Sugar Tree Ridge, Ohio.

PRIVATES.

Joe Bloodough. Mrs. Theron Bloodough, Salisbury, N. Y.

Walter H. T. Breisch. Howard W. Breisch, 236 North Third Street, Allentown, Pa.

Lloyd B. Person. Mrs. Tibither A. Person, 206 Eldert Street, Brooklyn, N. Y.

Severely Wounded.

Capt. Henry D. Cormerais. Mrs. Grace A. Cormerais, 72 Gardner Street, Allston, Mass.

Lieut. Godfrey Child. Alfred Child, Pocomoke City, Md.

Lieut. Elwyn B. Gay. James S. Gay, Briggsville, Wis.

Sergt. Joseph H. Smith. Mrs. Margaret Smith, 127 Greggs Avenue, Brooklyn, N. Y.

PRIVATES.

Ralph N. Blue. Mrs. Emma Blue, Stewardson, Ill.

Charles L. Carson. W. H. Carson, 111 East Sterling Street, Coffeyville, Kans.

George Clement. Mrs. Catherine Clement, 234 Sussex Street, Harrison, N. J.

Glen M. Libhart. Mrs. Byrde Libhart, French Camp, Cal.

Rudolph A. Magruder. Joseph Magruder, 187 Baldwin Street, Waterbury, Conn.

Joseph Norton. J. W. Norton, Canisteo, N. Y.

Thomas Sovia. Mrs. Salina Sovia, R. F. D. 16, Sanborn, N. Y.

Donald C. Waite. Glen C. Waite, 611 Brady Street, Davenport, Iowa.

Missing in Action.

Lieut. Albert D. Holbrook. Frederick Holbrook, 22 Camden Street, Rockland, Me.

Corpl. Mitchell Barton. Miss Victoria Barton, P. O. Box 82, Victory Mills, N. Y.

Corpl. Jack Breskin. Louis Breskin, 1456 Wilkins Avenue, New York, N. Y.

Corpl. Geo. D. Hughey. Clarence V. Hughey, Lehigh, Okla.

Corpl. Edward J. McGrath. Mrs. Bridget McGrath, 242 State Street, New Bedford, Mass.

Corpl. Joe E. Pitts. William D. Pitts, Blanton, Ala.

PRIVATES.

Osburn Bell. Seveause Bell, Picton, Nova Scotia.

Thomas J. Brady. Mrs. Anna Brady, 351 Eighth Street, Troy, N. Y.

Charles L. Burkett. Mrs. Mary F. Burkett, Thayer, Mo.

Joseph A. Downey. Mrs. Ellen Downey, 1150 Oneida Street, Shamokin, Pa.

Ralph E. Ellinwood. E. E. Ellinwood, Bisbee, Ariz.

Roy Fisk. Grant Fisk, Russell, St. Lawrence County, N. Y.

George Franklin. Ike Dreir, Pekin, Ill.

Harry C. Harter. Miss Neva Harter, 105 South Fifth Street, Marshalltown, Iowa.

George Jorgensen. Henry Jorgensen, 215 Collins Street, Waukesha, Wis.

Michael Kazemersky. John Kazemersky, 68 Essex Street, New York, N. Y.

Dennis Kelleher. Mrs. Mary Kelleher, 15 Fifth Street, New Rochelle, N. Y.

Thomas Kennedy. Miss Bessie Kennedy, 226 South Orange Avenue, Newark, N. J.

Frank Kotava. John Kotava, Christopher, Ill.

Joseph Kowalski. Mrs. Annie Montcille, 134 Crown Street, Meriden, Conn.

Alton Lager. Duplicie Lager, Sulphur, La.

Eugene A. La Jeunesse. Joseph La Jeunesse, 37 Trotting Park Road, Lowell, Mass.

Kenneth Ritchie Moore. Mrs. Clara R. Moore, Third and Hill Streets, Los Angeles, Cal.

Thomas Morgan. Joseph Morgan, Lansing, Ohio.

Harry Burns O'Conner. Daniel O'Conner, care of B. & O. Depot, Newark, Ohio.

Frank V. Reitzell. William B. Reitzell, Riverton, La.

William A. Roberts. Mrs. Susan E. Roberts, P. O. Box 259, Merryville, La.

Jack Rochin. John Rochin, Paratschi, Russia.

William Romanov. Miss Helen Romanov, 75 Van Buren Street, Newark, N. J.

Philip Rosen. Zabel Rosen, 128 Livingston Street, New York, N. Y.

Lyle O. Talbot. William Talbot, State Street, Lowville, N. Y.

Claude Tedrick. Douglass Tedrick, McAlester, Okla.

Edward Thune. Fred Thune, 938 Grape Street, Syracuse, N. Y.

Frank Tinelo. John Romio, 2524 Sixth Street, Watervliet, N. Y.

Tony Victory. Guiseppe Victory, 10 Bartoloman Street, Tufino, Italy.

Joe Zbrowski. John Zbrowski, 1531 Forsyth Avenue, East Chicago, Ind.

Previously Reported Missing, Now Reported Slightly Wounded.

Bugler Herbert R. Newton. Mrs. W. L. Newton, 65 Capitol Avenue, Hartford, Conn.

Previously Reported Killed in Action, Now Reported to Have Died of Aeroplane Accident.

Lieut. Richard Mortimer. Richard Mortimer, Tuxedo Park, N. Y.

Coal Production Decrease in Week Ending June 22

The Department of the Interior, Geological Survey, issues the following weekly report on the production of bituminous coal and the causes of loss of working time:

A sharp decline in production of bituminous coal occurred during the week ending June 22. The output of soft coal (including lignite and coal made into coke) is estimated at 12,016,000 net tons, a decrease compared with the week of June 15 of 610,000 net tons or 5 per cent, and an increase over the same week of 1917 of 701,000 net tons or slightly over 6 per cent.

The average production per working day during the current week is estimated at 2,003,000 net tons as against 2,104,000 net tons during the preceding week and 1,888,000 net tons during the week of June 22, 1917.

Shipments from all districts decreased during the week of June 22. Shipments from Ohio and Alabama decreased the most; from the former fields the decrease amounted to 7 per cent and from the latter fields 12 per cent. Central and western Pennsylvania shipments decreased 4 per cent. Anthracite shipments during the week of June 22 decreased 790 cars or 1.9 per cent.

TWO COLONELS APPOINTED.

Special Orders, No. 145.

354. The appointment of the following-named officers in the Medical Corps, National Army, with rank from June 15, 1918, is announced:

To be colonels: Maj. William J. Mayo, Medical Reserve Corps; Maj. Charles H. Mayo, Medical Reserve Corps.

NAVAL CASUALTIES

The Navy Department announces the following casualties:

George John Zeller, machinist's mate, first class, aviation, United States Navy, drowned at Pensacola, Fla., June 28, while pinned under a seaplane which had fallen and submerged. Zeller enlisted at Richmond, Va., next of kin, wife, Mrs. Evelyn Mary Zeller, 431 Fourth Avenue northeast, Roanoke, Va.

Elbreth Pope Johnson, radio electrician, third class, United States Navy, drowned in foreign waters June 25. The body was not recovered. Johnson enlisted at Richmond; next of kin, father, Kelly Johnson, R. F. D. No. 1, Barnesville, N. C.

INCREASED FOOD PRODUCTION IS SHOWN IN GREAT BRITAIN

May Be Independent in Matter of Breadstuffs Next Year. American Tractors Help.

Consul General Skinner, at London, reports:

In connection with the increased food production in the United Kingdom shown by official reports it is interesting to know that a very great part of this increase has been made possible by the importation of American motor tractors since the beginning of the food campaign in November, 1915. According to unofficial figures 8,100 motor tractors have been imported up to the present. There are, furthermore, outstanding orders for tractors to the number of 5,500, which are coming forward from time to time. The use of these tractors in plowing has completely revolutionized farming methods, and it is quite unlikely that the old-fashioned horse plow will ever come into use again in Great Britain as heretofore.

Grain and Potato Area.

According to this same unofficial information, and assuming that crops reach a fair average by next year, this country should then be independent in the matter of breadstuffs, whereas at the beginning of the war probably not more than one-third of the domestic requirements were covered by domestic crops.

The following is the report by the Director General of Food Production for England and Wales on this very important subject:

It is now possible to give some results to date of the Government's efforts to increase home-grown supplies of grain and potatoes. An official census, obtained on April 27, 1918, from occupiers of land in England and Wales, shows the following total acreages up to that date:

Crop.	Acres, 1918.	Increase over 1916.	
		Acres.	Per cent.
Wheat	2,665,000	752,000	39
Barley	1,490,000	58,000	11
Oats	2,820,000	735,000	35
Rye, dredge, corn, and pulse	682,000	280,000	69
Potatoes	[1]645,000	217,000	50
Total	8,302,000	2,042,000	33

[1] Ministry of food census.

Grass Lands Plowed Over.

Complete returns of the acreage of grass land plowed are not yet available, but a census taken on March 11, 1918, showed that over 1,800,000 acres of permanent grass in England and Wales had been broken up by that date, and it is estimated that a total addition of not less than 2,500,000 acres to the tillage area of England and Wales (as compared with 1916) has now been made. [The area under permanent grass and under various cereal and vegetable crops in England and Wales in 1916 and 1917 is given in Commerce Reports for Sept. 21, 1917.] If, as may be anticipated from the recent forecasts of the boards of agriculture for Scotland (300,000) and Ireland (1,500,000), the corresponding addition to the tillage area in those two countries will approximate 1,800,000 acres, the total for the United Kingdom will be well over 4,000,000 acres.

The foregoing figures indicate that the total acreage in the United Kingdom under wheat, barley, and oats in 1918 will be the highest ever recorded in the history of British agriculture. The acreage under potatoes will be the greatest since 1872. Particulars of other crops are not yet available.—Commerce Reports.

ITALY REQUISITIONS CROPS OF OATS, BEANS AND CAROBS

Consul General Wilber, at Genoa, reports:

The Gazzetta Ufficiale of May 18 contained a decree in regard to the requisitioning of this year's Italian crops of oats, beans, and carobs. The producers have been notified to hold at the disposal of the authorities the amounts of oats, beans (broad beans, horse beans, cooking beans, etc.), and of carobs harvested in 1918, with the exception of the amounts strictly necessary for the producers.

List of Exemptions.

The exemptions are as follows:

(a) The amounts of cooking beans necessary for food for the owner, for his family, for his paid employees, regular and casual, to whom are due food or payment in kind;

(b) The amounts of oats and of beans destined for sowing the lands of the owner;

(c) The amounts of oats, of beans for forage, and of carobs indispensable for food for the beasts of burden possessed by the owner of the goods liable to requisition.

Owners Forbidden to Sell.

Owners are forbidden to effect any sale or cession for any reason whatever, of oats, of beans, or of carobs coming from the harvest of 1918.

All contracts referring to oats, beans, and carobs are canceled without right to indemnity.—Commerce Reports.

KEEP BULLETIN POSTED IN ALL PUBLIC INSTITUTIONS

PUBLIC LIBRARIES, BOARDS OF TRADE, CHAMBERS OF COMMERCE, AND OTHER SIMILAR INSTITUTIONS THROUGHOUT THE COUNTRY ARE REQUESTED TO SEE THAT THE OFFICIAL BULLETIN IS DAILY POSTED IN A CONSPICUOUS PLACE IN THEIR BUILDINGS SO THAT THE GENERAL PUBLIC MAY HAVE EASY AND REGULAR ACCESS TO ITS COLUMNS.

POSTMASTER GENERAL BURLESON'S ORDER REQUIRING THE BULLETIN TO BE POSTED IN 56,000 POST OFFICES HAS PROVED OF INESTIMABLE VALUE AS A REFERENCE GUIDE TO THE BUSINESS AND OTHER INTERESTS OF THE NATION, AND IT IS REALIZED THAT THIS BENEFIT MAY BE VASTLY EXTENDED THROUGH THE COOPERATION OF PERSONS IN CHARGE OF ALL PUBLIC INSTITUTIONS NOW RECEIVING COPIES.

DO NOT MISS FILING A SINGLE COPY; THE ONE MISSING IS OFTEN THE MOST VALUABLE. WRITE FOR EXTRA COPIES BY NUMBER, NOT BY DATE.

THE OFFICIAL BULLETIN.

Leave For Grand Army Men To Attend Reunion

EXECUTIVE ORDER.

It is hereby ordered that all veterans of the Civil War in the service of the Government of the United States who desire to attend the Fifty-second National Encampment of the Grand Army of the Republic to be held at Portland, Oreg., August 18 to 24, 1918, shall be granted leave of absence with pay, in addition to the annual leave provided for by statute, from August 18 to 24, inclusive, that they may have the opportunity to attend the encampment, and that they be granted as many more days additional leave with pay in each case as are necessary for the journey to Portland and return to their posts of duty.

WOODROW WILSON.

THE WHITE HOUSE,
June 21, 1918.

Leave for the Spanish War Veterans to Attend Reunion

EXECUTIVE ORDER.

It is hereby ordered that all veterans of the Spanish-American War in the service of the Government of the United States who desire to attend the Twentieth Annual Encampment of the United Spanish War Veterans to be held in Baltimore, Md., September 3, 4, and 5, 1918, shall be granted leave of absence with pay, in addition to annual leave provided for by statute, from September 3 to 5, inclusive, that they may have the opportunity to attend the encampment, and that they be granted as many more days' additional leave with pay in each case as are necessary for the journey to Baltimore, Md., and return to their posts of duty.

WOODROW WILSON.

THE WHITE HOUSE,
June 13, 1918.

TWO NAVY MEN COMMENDED.

The Committee on Public Information issues the following:

Secretary Daniels has commended Raymond Pyne, boatswain's mate, first class, United States Naval Reserve Force, attached to U. S. S. *Vulcan*, for his gallantry and good judgment on March 7, 1918, when his efforts, in the opinion of his commanding officer, averted a double drowning.

While making a line fast Seaman Gresenz fell into the water. In jumping overboard to rescue him Lieut. Nelson was seriously injured. Seeing that both were in danger of drowning Boatswain's Mate Pyne jumped overboard, succeeded in passing a line about Lieut. Nelson, and both the lieutenant and seaman were rescued.

Pyne enlisted at Portsmouth, N. H., February 9, 1917. Next of kin, sister, Miss Ella Pyne, Milford, Mass.

George W. Yearion, jr., fireman, first class, serving on the U. S. S. *Quincy*, is commended for heroism in rescuing a boy who had accidentally fallen into the water on May 9. Yearion enlisted at Cincinnati, September 13, 1915. Father, George Washington Yearion, sr., Cincinnati, Ohio.

U. S. MOBILE HOSPITAL UNITS READY AT GEN. PERSHING'S CALL

The following statement is authorized by the War Department from the Office of the Surgeon General:

Mobile hospital units are ready and waiting in this country to sail whenever Gen. Pershing asks for them.

The units ready to sail now, or able to embark on from two weeks' to a month's notice, include base hospitals, evacuation hospitals, evacuation ambulance companies, railroad hospital trains, convalescent camps, and medical supply depots. All these are in addition to the regular medical department units, with each division or other separate military organization.

Railroad Hospital Trains.

Fifty railroad hospital trains of 16 cars each are on order in Europe or already delivered to the American Expeditionary Forces. These railroad trains are used to evacuate large hospitals quickly. Each has a capacity of 400 patients with operating rooms, kitchens, personnel car, etc.

A base hospital is a large general hospital usually located from 50 to several hundred miles behind the firing line.

Of the number organized and not yet sent to France half are to-day ready to go and the others could be sent at from two weeks' to a month's notice. Each comprises the personnel and equipment for a hospital with a normal capacity of 1,000 beds but adapted for expansion. The personnel is 35 medical and sanitary officers, 100 Army nurses (women), and 200 enlisted men.

The evacuation hospitals have a normal capacity of 1,000 beds and include about the same equipment as the base hospitals. The personnel of each includes 34 officers and 237 enlisted men—no women nurses. Except for the dressing stations on the firing lines, or immediately in the rear, and the field hospitals, the evacuation hospital is the nearest place to the actual fighting for the handling of sick and wounded soldiers. As soon as possible after patients are received in an evacuation hospital they are sent back to a base hospital if they are likely to be confined more than a few days.

Twenty Ambulances Per Company.

An evacuation ambulance company is attached to an evacuation hospital. The ambulances for these companies are supplied to them when the personnel reaches the other side. Each company will operate 20 ambulances. The strength of the company can be increased temporarily or permanently after its arrival in Europe if desired. As organized, each company includes 1 officer and 37 men. All of the companies formed can sail at request.

A convalescent camp is designed to care for about 10,000 patients. It includes a 1,000-bed hospital, although it does not require specialists and equipment for handling all of the general run of serious cases, since only convalescents are ordered into it. Its personnel as formed on this side is 10 officers and 90 enlisted men. This is merely the medical personnel, and will be augmented and later largely replaced by medical officers and enlisted men from among those convalescing.

At these camps, and at the convalescent depot being organized for over-seas service when it shall be asked for, considerable physical reconstruction work will be carried on to restore more completely and quickly physical functions of patients whose sickness or injuries interfere with normal processes. The depot will have a 5,000-bed capacity for those in confined stages of convalescence and as many more as Gen. Pershing and the chief of the Medical Service in France may decide to provide for. Those ordered to the convalescent depot will be men in whose recovery time is the principal element.

Each medical supply depot has a personnel of 3 officers and 34 enlisted men.

TRANSFERS CANAL ZONE LAND TO THE SECRETARY OF WAR

EXECUTIVE ORDER.

The following-described portion of that certain tract of land situated at Balboa, Canal Zone, and placed under the control of the Secretary of the Navy by the Executive order of May 26, 1914, No. 1948, is hereby transferred from the control of the Secretary of the Navy and placed under the control of the Secretary of War for military purposes:

Beginning at monument V in the present boundary line of the naval reservation, Balboa; thence on a line connecting the said monument V with the center of the most southerly foot of the south radio tower to its intersection with the top of the slope a disance of 63 feet more or less; thence a distance of 554 feet more or less on a line having an azimuth of 260° 44′ to a point immediately west of the main road to Fort Amador; thence a distance of 408.6 feet more or less on a line having an azimuth of 250° 0′ to the intersection with the present southerly boundary line of the naval station, marked W. Z.; thence in a southeasterly direction along said line W. Z., that has an azimuth of 307° 40′, a distance of 630 feet more or less to the monument Z; thence in a northeasterly direction along the line marked V, that has an azimuth of 217° 40′ a distance of 765 feet more or less to the point of beginning; all as shown on blue print marked "United States Navy Radio Station, Balboa, C. Z., March 17, 1915, F. H. Cook, Civil Engineer, U. S. N.," which plan is on file in the Navy Department.

The transfer of the above-described tract of land is made subject to the continued right of the Navy Department to lay and maintain therein underground antennae receiving wires needed in connection with the maintenance and operation of the naval radio station at Balboa, C. Z.

WOODROW WILSON.

THE WHITE HOUSE,
May 28, 1918.

RED CROSS BLANKETS FOR ITALY.

Appropriation of $229,500 Made for Purchase of 75,000.

The Red Cross issues the following:

Seventy-five thousand blankets will be needed in connection with the Red Cross relief work in Italy next winter, according to the estimate of the commission to that country. An appropriation of $229,500 has been made to cover purchases as indicated, owing to the desirability of placing contracts at the present time for fall delivery.

DESTROYER CASSIN AGAIN IN SERVICE AFTER REPAIRS

Heroism of Gunner's Mate Ingram Saving Ship at Cost of His Own Life Recalled.

The Committee on Public Information issues the following:

The Navy Department is informed that the U. S. destroyer *Cassin*, which was struck by a torpedo in an encounter with a German submarine in European waters on October 16 last, has been completely repaired and is again on duty with the destroyer forces.

While on patrol duty the *Cassin* sighted a submarine 5 miles away, put on all steam and speeded toward the enemy vessel. Before it reached the spot the submarine had submerged. After a search of half an hour for the U-boat, of which no sign was visible, Commander Walter Vernou suddenly sighted a torpedo, about 400 yards distant, making for the destroyer at high speed. Realizing that his vessel was in imminent danger of being hit amidships, the commander ordered full speed ahead, and the wheel hard over. The destroyer was just clear of its path when the torpedo broached on the surface, turning sharply toward the stern of the ship.

Gunner's Mate Died a Hero.

It was realized in an instant that if it struck in that part of the vessel among the high explosives placed there, the *Cassin* would almost certainly be blown up and sunk. It was almost certain death to any man who might be at the point where the torpedo hit. But Gunner's Mate Osmun K. Ingram dashed down the deck and threw the explosives overboard just before the torpedo struck. Ingram was instantly killed, but the ship was saved. Though badly damaged by the explosion of the torpedo, the *Cassin* continued the search for the submarine until darkness came on and there was no more chance of finding the enemy. Later, convoyed by other patrol vessels, the *Cassin* made port.

Praised by Officers.

The courage of the crew who remained at their stations, and the efficient navigation which enabled the vessel to reach port, were highly praised by both British and American officers, and the officers and crew of the *Cassin* were officially commended. Ingram's notable display of personal bravery in sacrificing his life to save his ship and shipmates was later signalized by the Secretary of the Navy in naming one of the new destroyers the *Ingram*, in his memory.

LIEUT. ISAACS A PRISONER.

The Navy Department has received information that Lieut. Edouard V. M. Isaacs, United States Navy, who was taken prisoner by the submarine which sank the transport *President Lincoln*, is now in a prison camp in Germany.

Advices from Red Cross headquarters in Berne, Switzerland, state that a letter was received from Lieut. Isaacs dated June 18 stating that he was then a prisoner at Karlsruhe, but expected to be transferred.

CAMPAIGN TO CONSERVE COAL IN POWER PLANTS IS LAUNCHED

Engineers Appointed to Supervise Systematic Saving as Planned by Fuel Administration.

The United States Fuel Administration announces the appointment of administrative engineers as follows:

Thomas R. Brown, Pittsburgh, for the western half of Pennsylvania. He was formerly special engineer with the Westinghouse Air Brake Co.

George K. Henderson, Philadelphia, for the eastern half of Pennsylvania. He was formerly consulting engineer with the Baldwin Locomotive Works.

Edward N. Trump, New York, for the State of New York. He has been the vice president of the Solvay Process Co.

W. R. C. Corson, Hartford, for New England. He has been actively engaged in practice as a consulting engineer.

Here for Consultation.

These engineers, with others who are awaiting formal appointment, are in Washington in consultation with officials of the Fuel Administration in charge of conservation. Others attending the conference, which will go on for several days, are M. S. Hopkins, Columbus, Ohio; O. P. Hood, chief mechanical engineer of the Bureau of Mines, Pittsburgh; Prof. H. P. Breckenridge, Yale University; and H. H. Stoek, professor of mine engineering, University of Illinois.

Although the efforts of the Fuel Administration to increase production have resulted in a record output of bituminous coal for the past several weeks, the Fuel Administration is determined to supplement its efforts toward speeding up production by a carefully planned conservation program.

Coal Waste Question.

The principal question under consideration at this conference is the waste of coal in the 250,000 industrial power plants of the country and the means of cutting this waste short off in order that approximately 20,000,000 tons of coal will be available for war and nonwar industry in domestic consumption.

The system extends into all States east of Mississippi River and all of Louisiana, Missouri, and Minnesota. In laying the foundation for the organization—work which has been in progress for many months—it has been anticipated that this work will be a permanent service of the Government. From 10 to 20 per cent of the coal now used can be saved by correct operation of the steam power plants, using their present equipment, and without the delay or expense involved in the installation of new or improved apparatus.

The administrative engineers will work under the general supervision of State fuel administrators.

Scope of the System.

The system comprises certain fundamentals as follows: (1) Personal inspection of every power plant in the country; (2) classification and rating of every power plant, based upon the thoroughness of which the owner of the plant conforms to recommendations; (3) responsibility of rating to be based upon reports of inspectors, who will not express opinions, but will collect definite information.

State fuel administrators, in their judgment, may entirely or partially shut off the consumption of coal by any needlessly wasteful plant in his territory.

Inspectors are furnished from one or more of the following sources: (A) Inspectors of steam boiler insurance companies; (B) State factory inspectors; (C) engineering students from technical colleges; (D) qualified volunteers.

In this campaign of practical accomplishment the slogan of the Fuel Administration is "Maximum Production With Minimum of Waste," the object being to operate all industries at full capacity, but at the same time to make every pound of fuel perform its maximum service in power, light, and heat.

TELLS HOW WAR RISK INSURANCE HEARTENS OUR MEN OVERSEAS

The following cablegram from Gen. Pershing to Secretary McAdoo was made public by the Secretary:

"All ranks of the American Expeditionary Forces appreciate deeply the generous measure the Government has taken to provide insurance for their families, in proof of which more than 90 per cent of men have taken out insurance. To wisely provision for their loved ones heartens our men and strengthens the bonds that unite the Army and people in our strong determination to triumph in our most righteous cause.

"PERSHING."

Rush of Applications.

A record-breaking rush of applications in the last seven days, which brought in more than $1,000,000,000 of insurance, will probably increase the percentage of American soldiers insured to 95.

The total amount of insurance on the books of the Bureau of War-Risk Insurance up to the close of business June 28 was $21,565,699,000. This represents 2,570,455 applications. The average amount applied for, which is steadily increasing, is now $8,387.

Many American battalions and regiments, both overseas and in the United States, have "100 per cent insurance records." In some units every officer and man is insured for the full $10,000.

Commanding officers are particularly proud of these records, for they feel that the morale of their men is thus raised to the highest possible level.

"An Element of Victory."

"Government insurance is an element of victory," said one major general as his division started overseas.

"The Army and Navy have rolled up their sleeves," writes a captain in the American Army, who has just arrived in France, "insured their lives, and said, 'Now we're ready.' This seems to mean that these men are grimly determined to fight to the finish—and no one has a doubt as to whose finish. If this is the feeling among the rank and file of the Army and Navy, the sneer of the Imperial German Empire when the American forces are mentioned will disappear as quickly as it did a few years ago in connection with the British Army."

Y. M. C. A. WORKERS IN FRANCE WOUNDED ON DUTY AT FRONT

The National War Work Council Y. M. C. A. issues the following:

Ira Henderson Van Emden, of Mount Vernon, N. Y., has been slightly wounded and Robert Grenville Armstrong, until December last pastor of the First Congregational Church, Spencer, Mass., is recovering from shell shock, according to cable dispatches received by the National War Work Council of the Y. M. C. A. Both these "Y" secretaries have been working in the active Toul sector.

Van Emden, who was struck in the face by a shell splinter, insisted upon returning to his work after being attended at a front-line dressing station. Armstrong has recovered sufficiently to return to his duties.

Women Under Shell Fire.

Miss Edith Prescott, of Boston, is still in charge of her hut in the Toul sector despite orders from Army headquarters. She was informed that shell fire made it too dangerous for her to remain, but she prevailed upon the military authorities to hold up the order, and she is still on the job.

Miss May O. Clark, of Boston, was not so fortunate in her appeal to headquarters. After her hut in the same sector had been under shell fire for seven hours she was forced to go back to a safer location. She is awaiting permission to return and resume her work in the hut.

Rescued Wounded German.

Henry Wharton, a Y. M. C. A. worker from Philadelphia, and four soldiers, have brought in a wounded German boy lieutenant at the risk of their lives. The German officer was amazed when he discovered that he was in the hands of Americans and asked Wharton why he had risked his life.

Just about the time he returned with the German Wharton's hut was it by several large shells and 30 American soldiers were buried in the wreckage. Y. M. C. A. men dug them out and found that none of the men had been seriously injured.

G. W. COLEMAN IN CHARGE.

Appointed Director of Information for Department of Labor.

The Department of Labor authorizes the following statement:

The appointment of George W. Coleman, of Boston, as Director of Information for the Department of Labor, was announced by Secretary of Labor Wilson to-day (Saturday). Mr. Coleman will be associated with Roger W. Babson, Chief of the Division of Information and Education of the Labor Department.

Mr. Coleman has just returned from France and England where he studied industrial problems; the development of the labor movement in Europe and the methods of handling it pursued by the various Governments during the war.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Shipping Board Findings Regarding Rules Between Engineers and Vessel Association

Decisions Announced on Various Matters Remaining for Adjudication Following the National Marine Conference—Wages, Hours of Labor, Holidays, Subsistence, and Other Questions Decided—List of Rules Agreed Upon at Conference.

The Shipping Board authorizes publication of the following:

At the National marine conference held in May, 1918, the following rules, numbers 3, 4, 7, 10, 12, 13, 14, and 15 had not been agreed upon between the Marine Engineers' Beneficial Association and the American Steamship Association, and accordingly were submitted to the Shipping Board for adjudication. The Shipping Board has made the following findings with respect to these rules:

Rule 3.—If, while the vessel is in port, an engineer is required to stay aboard at night after having worked all day and not required to do work not necessary for the safety of the vessel, he shall be paid at the rate of time and a half for the full period of night duty or be given a day off with half pay and six hours' pay at the rate of time and a half. If the engineer is required during such night duty to do any work that is not necessary for the safety of the vessel, he shall be paid at the rate of double time for all such hours' work. If an engineer is required to stay aboard on a Sunday or legal holiday he shall be paid time and a half. For the purpose of these rules the time and a half rate shall be 70 cents, and the double time rate shall be $1. Overtime when generally referred to shall be figured at the time and a half rate.

Rule 4.—All work done off watch at sea, except that which is necessary for the immediate safety of the vessel, shall be paid for as overtime.

Rule 7.—Holidays shall be Sundays, New Year's Day, Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day, and shall be observed at all ports.

Rule 10.—(It is the opinion of the Shipping Board that during the period of the war the demands of the M. E. B. A. as expressed in rule 10 should be waived and that no such rule should be adopted at this time.

Rule 12.—Chief engineers shall receive for subsistence allowance $2 per day; assistant engineers, $1.50 per day.

Rule 13.—Ship's articles shall contain a provision providing for the payment of wages and suitable transportation back to the point where articles were originally signed in the event that the vessel is sold, unless the officer is given a reasonable opportunity immediately to reship for the home port at an equal [illegible].

Rule 14.—In the interest of uninterrupted and rapid operation of vessels during the war all grievances or cases arising from the nonobservance of these rules should at once be reported to the Shipping Board for adjustment, this provision to hold only during the period of the war. A violation of these rules on the part of a member of this association shall be considered conduct unbecoming a member, and such a member shall be subject to the penalty prescribed by the by-laws.

Rule 15.—(It is the opinion of the Shipping Board that the claims advanced in rule 15 should be waived during the period of the war.)

UNITED STATES SHIPPING BOARD,
LESTER SISLER, *Secretary.*

JUNE 27, 1918.

Not Acted Upon by Shipping Board.

The following rules of the Marine Engineers' Beneficial Association, Nos. 1, 2, 5, 6, 8, 9, and 11, had been agreed upon between this association and the American Steamship Association and were not submitted to the Shipping Board for adjudication. Accordingly the Shipping Board has taken no action with regard to these rules:

Rule 1.—Watch and watch to be maintained on sailing day and at all outside ports at all times. No engineer shall be required or permitted to take charge of a watch upon leaving or immediately after leaving port unless he shall have had at least 6 hours' off duty within the 12 hours immediately preceding the time of sailing.

Rule 2.—A working day at outside ports, or any port where watches are broken, shall be from 8 a. m. to 5 p. m., during which time one hour shall be allowed for dinner. All work performed in excess of this time after 5 p. m. and up to 8 a. m. shall be considered as overtime. If an engineer is required to perform night service, eight hours of such service shall constitute a day's work. (Provided, however, where there shall be a mutual agreement between the engineers on board relative to their watch this rule shall not apply.)

Rule 5.—If it is necessary to move a vessel in inside ports between 5 p. m. and 8 a. m., or on Sunday or legal holiday when a vessel arrives from a voyage and anchors, or makes fast to a wharf, to wait for a suitable tide or berth or discharge passengers, or baggage, or receive fuel, the engineers shall continue their regular watches at the option of the chief engineer.

Rule 6.—In any case where an assistant engineer is required to perform service in excess of eight hours per day, all such work shall be paid for as overtime at the rate of 70 cents per hour. Chief engineers shall not be entitled to pay for overtime. Overtime shall not be payable unless such service shall have been performed upon the written order of the chief engineer, master, owner, or agent of the vessel.

Rule 8.—No engineer shall be laid off over a Sunday or holiday, and a full complement of engineers shall be employed at all times while the vessel is working cargo or in commission.

Rule 9.—The chief engineer shall be notified at the time of the arrival or as soon as possible thereafter of any anticipated detention of the vessel.

Rule 11.—Chief engineers shall be employed by the owners, superintending engineers, or agent; assistant engineers to be selected by the superintending engineer, owner, or agent, after consultation with the chief engineer.

PRICES FOR BITUMINOUS AND LIGNITE COAL IN TEXAS

The United States Fuel Administration authorizes the following:

Applications having been made to the United States Fuel Administrator for revision of the prices as to lignite coal mined in the State of Texas, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said fuel administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that lignite coal mined in the State of Texas may be sold at prices not to exceed, f. o. b. cars at the mine, $1.55 per net ton for run of mine, $1.75 per net ton for prepared sizes, $1 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order became effective at 7 a. m., June 22, 1918.

Bituminous Coal Prices.

Other orders are:

Bituminous coal mined in the counties of Erath, Palo Pinto, and Young, in the State of Texas, may be sold at prices not to exceed, f. o. b. cars at the mine, $3.40 per net ton for run of mine, $4.20 per net ton for prepared sizes, $2.25 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917, subject to the following monthly summer reductions: 75 cents for the month of April, 60 cents for the month of May, 45 cents for the month of June, 30 cents for the month of July, 15 cents for the month of August.

This order became effective at 7 a. m., June 22, 1918.

Prices Elsewhere in Texas.

Bituminous coal mined in the State of Texas, excepting that produced in the counties of Erath, Palo Pinto, and Young, may be sold at prices not to exceed, f. o. b. cars at the mine, $4.25 per net ton for run of mine, $5.05 per net ton for prepared sizes, $2.25 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917, subject to the following monthly summer reductions: 75 cents for the month of April, 60 cents for the month of May, 45 cents for the month of June, 30 cents for the month of July, 15 cents for the month of August.

This order became effective at 7 a. m., June 22, 1918.

No trouble to buy, cheap, convenient, a real investment—W A R - S A V I N G S STAMPS.

Fuel Administration Order Relating to Production and Distribution of Coal In West Virginia and Kentucky District

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *June 8, 1918.*

Order relative to bituminous coal "zone M-3" regulating the production, sale, shipment, distribution, and apportionment of bituminous coal and the method of such production, sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the high volatile coal producing districts of West Virginia and Kentucky in the Kenova and Thacker districts along the Norfolk & Western Railway and short-line connections.

It appearing to the United States Fuel Administration that it is essential to the national security and defense, the successful prosecution of the war, and the support and maintenance of the Army and Navy that the greatest possible supply of bituminous coal should be produced in the United States; that such production, even though all other conditions necessary therefor are present and capable of employment, is, because of the location of the mines and the nature of the commodity, limited in part by the capacity of existing transportation facilities for the movement of the coal from points of production to points of delivery and consumption; that the amount of production, notwithstanding a continuance of the other present favorable conditions therefor, can be immediately increased by means of the greater utilization of coal cars, locomotives, and other railroad facilities; and that among such means are the elimination of unnecessarily long hauls and of avoidable cross hauls of loaded and empty coal cars and the provisions of the necessary supply of such coal for each consuming section of the country from the one or more coal fields nearest thereto or most readily accessible thereto, either in actual distance or in the freedom from congestion and delays in rail movements between such coal fields and such section; and that apportionment of the bituminous coal, produced in the various coal fields of the United States for delivery and consumption thereof in different designated consuming sections of the United States, sometimes called a "zoning system," will facilitate the movement of bituminous coal, tend to prevent either locally or generally scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war;

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917;

Hereby orders and directs that until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term includes every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the States of West Virginia and Kentucky in the Kenova and Thacker districts along the Norfolk & Western Railway and short-line connections shall, except as hereinafter provided, sell, ship, and distribute such coal only to dealers and consumers and for use and consumption within the following described section of the United States hereinafter called consuming zone, viz:

(1) All of the Lower Peninsula of Michigan.

(2) That portion of the State of Ohio on and within the following boundary lines: On the east from Kenova, W. Va., coincident with the Norfolk & Western Railway to Sciotoville, Ohio; thence coincident with the Chesapeake & Ohio Northern Railway to Waverly; thence coincident with the Norfolk & Western Railway to Columbus; thence coincident with the Hocking Valley Railway to Marion; thence coincident with the Pennsylvania Lines west to Sandusky, Ohio; and on the west from Cincinnati, Ohio, on a line coincident with the Cleveland, Cincinnati, Chicago & St. Louis Railway to the Ohio-Indiana State line.

(3) Points in the State of West Virginia located on the main line of the Norfolk & Western Railway westbound to and including Kenova, W. Va.

(4) Westbound to all points reached via the car ferries of the (a) Grand Trunk Railway operating between Grand Haven, Mich., and Milwaukee, Wis.; (b) Pere Marquette Railway operating between Ludington, Mich., and Manitowoc, Wis., and between Ludington, Mich., and Milwaukee, Wis.; (c) Ann Arbor Steamship Co., operating between Frankfort, Mich., and Manistique, Mich.; between Frankfort, Mich., and Menominee, Mich.; between Frankfort, Mich., and Kewaunee, Wis.; and between Frankfort, Mich., and Manitowoc, Wis., only when coal is loaded in returning box cars or returning stock cars.

Provided, however, That any such producer may ship such a quantity of coal of such a quality, and for such special use or purpose and to such retail dealer or consumer outside of the above designated zone as may be described and designated in a permit issued by the United States Fuel Administration upon an application from such consumer, and in accordance with such rules and regulations as may be from time to time prescribed by the United States Fuel Administration;

And provided further, That this order shall not apply to bituminous coal—

(1) Shipped for use as railroad fuel.

(2) Shipped in whole or in part by inland waterways (other than the Great Lakes) excepting cases where any rail movement from the mines to the waterways would not terminate within the above designated consuming zones.

(3) Shipped to any points in Canada or Mexico.

Wherever any boundary of the consuming zones described in this order follows a line of railway, the consuming zone shall include all places usually taking deliveries of bituminous coal from points on the portion of the line of railway included in such boundary or within switching limits of other railway lines connecting therewith.

This order hereby cancels the order of March 27, 1918, effective April 1, 1918, entitled "Order relative to bituminous coal zone M regulating the production, sale, shipment, distribution, and apportionment of bituminous coal and the method of such production, sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the high volatile coal producing districts of West Virginia and Kentucky in the Kenova and Thacker, Kanawha and Logan districts along the Norfolk & Western and Chesapeake & Ohio Railways and in the high volatile coal producing districts in Kentucky in the Eastern Kentucky fields along the Chesapeake & Ohio, Sandy Valley & Elkhorn, and Norfolk & Western Railways and short-line connections," and all modifications thereto, from and after June 20, 1918.

This order shall be effective on and after June 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

WOMEN HEALTH OFFICERS FOR DUTY IN MUNITIONS PLANTS

The War Department authorizes the following statement from the Ordnance Department:

Women health officers, whose duty will be to see that the thousands of women workers in munitions plants are kept healthy and their output of war materials thus maintained at the peak of production, are to be trained under the direction of the women's division of the industrial service section of the Army Ordnance Department.

Eight Weeks' Study Course.

An eight weeks' course of study for a limited number of carefully selected women health officers started Wednesday, June 26, at Mount Holyoke College, South Hadley, Mass. The course is being given under the general direction of Dr. Kristine Mann, health supervisor of the women's branch of the Ordnance Department. The staff of lecturers and instructors includes many well-known specialists in physiology and hygiene, physical education, factory organization, and labor.

The women who are taking the course are college graduates, or women of equivalent technical education. Almost all have had experience in dealing with working women. The first requirement for admission to the course has been perfect health, and only those have been selected who will inspire wholesome living among the munitions workers.

The work to be done is along entirely new lines. Many of the plants already have physicians and nurses to care for employees when they are ill, but they do not have health experts with a knowledge of the psychology of women workers to do constructive, preventive health work among the women.

$3,672,000,000 COLLECTED LAST YEAR BY THE INTERNAL REVENUE BUREAU, MR. ROPER ANNOUNCES

EXCEEDS ESTIMATE OF CONGRESS

Amount Raised Compares with $800,000,000 for Previous Year. Tribute Paid to Office and Field Employees for Their Services.

The Treasury Department authorizes the following:

We have gone over the top with the Liberty tax for the fiscal year 1918, said Commissioner of Internal Revenue Daniel C. Roper yesterday.

Congress estimated when the war revenue act was under consideration that it would yield in connection with existing laws $3,400,000,000 in the fiscal year 1918, as compared with $800,000,000 collected in the fiscal year 1917. The amount of taxes collected and turned into the banks from all internal revenue laws to the close of the fiscal year 1918 is $3,672,000,000 or $272,000,000 more than estimated by Congress. The accuracy of the estimate made a year ago as to the yield for 1918 is most remarkable. This estimate was made by Mr. J. S. McCoy, actuary of the Treasury Department, and is further evidence of the fact, frequently expressed, that he is the greatest fiscal statistician in this country and probably in the world.

Campaign of Education.

On October 3, 1917, Congress enacted a very comprehensive and complicated war-revenue law, which demanded the most careful and painstaking interpretation. It involved the construction of hundreds of rulings and numerous comprehensive forms and schedules for the use of taxpayers. This made necessary a campaign of education among taxpayers and required a largely increased force of revenue officers and employees in order to administer the law equitably and with the least amount of friction.

The force of office and field employees has been increased from about 4,000 to approximately 8,000. The cost of collecting the $3,672,000,000 received in 1918 was about $12,000,000.

Among the factors that have been most helpful in administering the law may be mentioned the unusually able group of legal and tax advisers assembled with the greatest care from all parts of the country. These men were selected wholly because of their ability and their knowledge of taxation and industrial methods and procedure. They have labored day and night, sacrificing themselves physically and financially to serve their country in this war crisis. Their work has been that of interpretation, construction of regulations, and the application of the law in the light of industrial knowledge to specific problems brought to the Department by taxpayers.

Cooperation by Taxpayers.

National patriotism and solidarity engendered by the war has contributed largely to our success. The way in which the taxpayers have generally assisted and cooperated has been a constant source of inspiration. I believe that the majority of honest taxpayers in this country now understand and appreciate more than ever before the methods and objectives of the Internal Revenue Bureau and will be most effective in assisting us in our campaign for delinquent taxpayers as well as those who have filed defective returns. It is our purpose to equalize the tax burden by collecting from every person and every industry the full amount of tax that is due to the Government and not 1 cent more, and on the other hand to return any excessive taxes which may have been collected.

Our efforts could not have been successful without the cooperation of a very efficient group of assistants within our organization and of a most loyal personnel throughout the service. Our men have not observed an eight-hour day, but have worked both day and night to bring about the result we have accomplished. They have rendered a real war service to their country.

Names of Three American Soldiers Added to List of Prisoners Held in Germany

The Committee on Public Information issues the following:

The following is a list of soldiers of the American Expeditionary Forces whom it has been ascertained are now prisoners of war in Germany:

Name.	Rank.	Camp.	Emergency address.
Casgrain, Wilfred...	First lieutenant.....	Landshut...	Charles W. Casgrain (father), 1226 Dime Bank Building, Detroit, Mich.
Meile, Harold.....	Lieutenant.....	Rastadt.....	Unknown.
Leyson, Burr W....	First lieutenant.....	Unknown...	Burr W. Leyson (father), 114 State St., Boston, Mass.

Miners Aroused to Need for Bigger Coal Output

The Fuel Administration issues tho following:

The intensive campaign inaugurated by the United States Fuel Administration to obtain the maximum of coal production is to be pushed vigorously in the Southwest with the arrival there of John P. White, labor representative in the Fuel Administration.

En Route to Oklahoma.

Mr. White, who recently completed a speaking tour through the mining districts of central Pennsylvania, has left for Oklahoma where he will deliver several addresses appealing to the miners and operators to leave nothing undone that would increase production, and emphasizing the vital need of more coal in connection with the war.

In the two weeks' campaign in Pennsylvania Mr. White addressed miners estimated to number fully 50,000. Great enthusiasm was manifested in response to the appeal to the patriotism of the miners.

During his campaign in the Southwest Mr. White will address the miners at Henrietta, Okla., on July 4 and at Thurber, Tex., on July 5. He probably will speak at Muscogee, Okla., and at other points in the mining fields in that territory before returning to Washington.

CELEBRATION OF THE FOURTH BY OUR SOLDIERS IN FRANCE

The national war work council, Y. M. C. A., issues the following under date of Paris, Saturday, June 29:

July 4th will be celebrated within range of German guns next Thursday. The American eagle will scream defiance at the two-headed vulture of Berlin, and all France will flame out with the spirit of '76. The American expeditionary troops have been assured a regular American Fourth of July by the Y. M. C. A. Its program will touch the entire army, including those in the front-line trenches. There will be athletics, dramatic and musical entertainments, oratory of the kind which made the glorious Fouth famous back home, and special patriotic pamphlets will be distributed to every soldier.

Extracts from President's Speeches.

This pamphlet contains extracts from President Wilson's speeches, appropriate poems, and other inspiring material, all handsomely printed and illustrated. The entertainment includes everything from jazz band to grand opera, with all the standard vaudeville stunts. Patriotic orators will be sent to 15 camps to deliver Independence Day orations. The orators and the dramatic and concert troupes will appear two or three times during the day in order to reach as many men as possible.

Field days will be held everywhere one of the 150 "Y" athletic directors is located. Baseball games will be played wherever a field big enough can be had.

Field Day in Paris Area.

In the Paris area a big field day and baseball game will attract thousands of spectators. It is estimated that 200,000 American soldiers will compete in July Fourth sports in France under the auspices of the Y. M. C. A. In several sectors the athletic meets will be held within range of the boche artillery. The educational department of the Y. M. C. A. is distributing hundreds of fine engravings of Lincoln's Gettysburg Address in English and French. On the coming birthday of the Nation the French people will get their first real idea of how America celebrates Independence Day.

They also serve who buy war-savings stamps—if they save and buy to the utmost of their ability, and buy in time.

$36,195,000 Advanced to Railroads in June, Making Grand Total of Loans $160,509,000

The United States Railroad Administration issues the following:

Director General McAdoo authorizes the following statement:

During the month of June the Railroad Administration advanced to 19 different railroads in the aggregate $36,195,000; the amount advanced to all railroads prior to June 1, 1918, was $124,314,000; so that the total sum advanced to the railroads throughout the country by the Director General of Railroads up to July 1 is $160,509,000.

These funds were obtained as follows: From surplus balances of certain railroads, $18,745,000; from the United States Treasury (revolving fund), $141,764,000; total $160,509,000.

List of Advances in June.

The railroads to which advances were made during the month of June were:

New York Central lines	$6,500,000
Erie R. R	4,500,000
Chicago, Milwaukee & St. Paul R. R	4,000,000
Pennsylvania R. R	3,000,000
New York, New Haven & Hartford R. R	3,000,000
Illinois Central R. R	2,750,000
Southern Pacific R. R	2,000,000
Delaware & Hudson R. R	2,000,000
Chesapeake & Ohio R. R	2,000,000
Chicago, Burlington & Quincy R. R	1,500,000
Denver & Rio Grande R. R	1,200,000
Seaboard Air Line Ry	1,000,000
St. Louis-San Francisco Ry	750,000
Hocking Valley R. R	500,000
Chicago, Indianapolis & Louisville R. R	500,000
Norfolk Southern R. R	350,000
Central Vermont Ry	285,000
Buffalo, Rochester & Pittsburgh R. R	200,000
Illinois Southern R. R	160,000

Of the advances made during the past month to the railroads, $16,610,000 was loaned them on demand at 6 per cent per annum interest, and the remaining $19,585,000 was paid on account of rental or compensation to the following lines: Erie, $4,500,000; St. Paul, $4,000,000; New York Central lines, $3,000,000; Southern Pacific, $2,000,000; Delaware & Hudson, $2,000,000; Chicago, Burlington & Quincy, $1,500,000; Denver & Rio Grande, $1,200,000; St. Louis-San Francisco, $750,000; Norfolk Southern, $350,000; and Central Vermont, $285,000.

Total Advances to Date.

The total advances made to date, either in the shape of loans or on account of compensation, aggregate $160,509,000, as follows:

New York, New Haven & Hartford Railroad	$46,964,000
New York Central Lines	35,000,000
Pennsylvania Railroad Co	25,000,000
Baltimore & Ohio Railroad	9,000,000
Chicago, Milwaukee & St. Paul Railway	9,000,000
Illinois Central Railroad	7,750,000
Erie Railroad	7,500,000
Chicago, Rock Island & Pacific Railway	3,000,000
Denver & Rio Grande Railroad	2,700,000
Southern Pacific Railroad	2,000,000
Delaware & Hudson Railroad	2,000,000
Chesapeake & Ohio Railway	2,000,000
Chicago, Burlington & Quincy Railroad	1,500,000
Wabash Railroad	1,300,000
Chicago, Indianapolis & Louisville Railway	1,000,000
Seaboard Air Line Railway	1,000,000
St. Louis-San Francisco Railway	750,000
Minneapolis & St. Louis Railroad	750,000
Buffalo, Rochester & Pittsburgh Railway	600,000
Hocking Valley Railway	500,000
Norfolk Southern Railroad	350,000
Central Vermont Railway	285,000
Detroit, Toledo & Ironton Railroad	200,000
Ann Arbor Railroad	200,000
Illinois Southern Railroad	160,000

There is at the present time an encouraging diminution in the pressure to borrow from the Government to meet the financial needs of the railroads.

Owing to improved money conditions and better earnings, the railroads of the country are showing increased ability to provide for their own financial requirements both in the matter of meeting maturing bond issues and in securing funds needed for improvements and additions to their property.

Men in Shipyard Plant Take $268,348 in Stamps

The Shipping Board issues the following:

Savings stamps to the amount of $1,495 were purchased by employees of the New York Shipbuilding Corporation during the week ending June 23. A report of the amount of stamps purchased each week, by each department, is posted at the plant, and the figures show that for the week ending June 23 employees of the yard office had an average of $4.59 per man, while the production department average $2.40 per man.

In the 14 weeks this campaign has been on the employees of the New York Shipbuilding Corporation have bought stamps valued at $268,348.

The philosophy of the W. S. S. is save, save, save.

Transfer of Chemical Section, Mines Bureau, to New Gas Service of the War Department

War Department,
Washington, June 25, 1918.

My Dear Mr. President: In connection with the proposed transfer of the chemical section at American University from the Bureau of Mines to the newly constituted and consolidated gas service of the War Department, which you are considering, I am specially concerned to have you know how much the War Department appreciates the splendid services which have been rendered to the country and to the Army by the Department of the Interior, and especially by the Bureau of Mines under the direction of Dr. Manning. In the early days of preparation and organization Dr. Manning's contact with scientific men throughout the country was indispensably valuable. He was able to summon from the universities and the technical laboratories of the country men of the highest quality and to inspire them with enthusiastic zeal in attacking new and difficult problems which had to be solved with the utmost speed. I do not see how the work could have been better done than he did it, and the present suggestion that the section now pass under the direction and control of the War Department grows out of the fact that the whole subject of gas warfare has assumed a fresh pressure and intensity, and the director of it must have the widest control so as to be able to use the resources at his command in the most effective way possible. The proposal does not involve the disruption of the fine group of scientific men Dr. Manning has brought together, but merely their transfer to Gen. Sibert's direction.

Respectfully, yours,
Newton D. Baker.

The President.

The White House,
Washington, June 26, 1918.

My Dear Dr. Manning: I have had before me for some days the question presented by the Secretary of War involving the transfer of the chemical section established by you at the American University from the Bureau of Mines to the newly organized division of gas warfare, in which the War Department is now concentrating all the various facilities for offensive and defensive gas operations. I am satisfied that a more efficient organization can be effected by having these various activities under one direction and control, and my hesitation about acting in the matter has grown only out of a reluctance to take away from the Bureau of Mines a piece of work which thus far it has so effectively performed. The Secretary of War has assured me of his own recognition of the splendid work you have been able to do, and I am taking the liberty of inclosing a letter which I have received from him, in order that you may see how fully the War Department recognizes the value of the services.

I am to-day signing the order directing the transfer. I want, however, to express to you my own appreciation of the fine and helpful piece of work which you have done, and to say that this sort of teamwork by the bureaus outside of the direct war-making agency is one of the cheering and gratifying evidences of the way our official forces are inspired by the presence of a great national task.

Cordially, yours,
Woodrow Wilson.

Dr. Van. H. Manning,
Chief, Bureau of Mines,
Department of the Interior.

TWO APPOINTED COLONELS.

Special Orders, No. 131:

415. The appointment of Lieut. Col. Chauncey B. Humphrey, Infantry, to the grade of colonel, National Army, with rank from May 11, 1918, is announced.

416. The appointment of Lieut. Col. John J. Toffey, jr., Infantry, National Army (major, Infantry), to the grade of colonel, National Army, with rank from May 11, 1918, is announced.

CONTRACTS AND PURCHASES AWARDED BY THE ARMY MEDICAL CORPS

The following contracts and purchases have been approved by the Surgeon General of the Army:

June 18, 1918.

Sharp & Dohme, Baltimore, medicines.
D. J. Barry & Co., New York City, brooms.
Fairbanks Co., New York City, scales.
Lalance & Grosjean Mfg. Co., New York City, trays.
S. Blickman, New York City, boilers.
Faultless Rubber Co., Ashland, Ohio, stoppers.
General Electric Co., Schenectady, N. Y., X-ray supplies.
Whitall Tatum Co., Keyport, N. J., syringes.
The Torsion Balance Co., Jersey City, N. J., scales.
Van Camp Products Co., Indianapolis, Ind., soap.
N. W. Greenhut Co., Buffalo, N. Y., cots.
Kelley Axe Mfg. Co., Charlestown, W. Va., axes.
The Mendelson Corporation, Albany, N. Y., chemicals.
The Empire Rubber & Tire Co., Trenton, N. J., clarifying tubes.
Schilling Bros. Table Co., Pulaski, N. Y., office tables.
P. W. Drackett & Sons, Cincinnati, medicines.
Dezell & Helwig, New York City, towels.
Becton, Dickinson & Co., Rutherford, N. J., thermometers.
Proctor & Gamble Distributing Co., Ivorydale, Ohio, soap.
C. E. Jennings & Co., New Haven, Conn., chests.
Kny-Scheerer Corporation, New York City, hospital furniture.
Hodgman Rubber Co., Tuckahoe, N. Y., syringes.
Wilford Hall Laboratory, Port Chester, N. Y., bandages.
H. Threlkeld Edwards, South Bethlehem, Pa., X-ray supplies.
Kelley-Koett Mfg. Co., Covington, Ky., X-ray supplies.
Heywood Bros. & Wakefield Co., Gardner, Mass., chairs.
American Sterilizer Co., Erie, Pa., sterilizers.
Eastman Kodak Co., Rochester, N. Y., X-ray supplies.
Monsanto Chemical Works, St. Louis, medicine.
Merck & Co., New York City, medicine.
P. W. Drackett & Sons, Cincinnati, Ohio, medicine.
F. B. Chamberlain Co., St. Louis, medicine.
Northern Textile Co., New York City, towels.

June 22, 1918.

Charles Cooper & Co., New York City, medicine.
H. K. Mulford Co., Philadelphia, medicine.
Merck & Co., New York City, medicine.
Monsanto Chemical Works, St. Louis, medicine.
Powers-Weightman-Rosengarten Co., Philadelphia, medicine.
Magnus Mabee Reynard, New York City, medicine.
Gebauer Chemical Co., Cleveland, Ohio, medicine.
Larkins Co., Buffalo, medicine.
Madison Trading Co., New York City, medicine.
Charles Cooper & Co., New York City, medicine.
McKesson & Robbins, New York City, medicine.

June 24, 1918.

Wilson Bros., Chicago, pajamas.
De Vilbiss Mfg. Co., Toledo, Ohio, atomizers.
F. J. Bernard & Co., New York City, laboratory equipment.
Henry Heil Medical Co., St. Louis, Mo., laboratory equipment.
Jackson Shear Co., Fremont, Ohio, scissors.
New York Thermometer Co., New York City, laboratory equipment.
Parker Sterns & Co., Brooklyn, surgical dressings.
United States Rubber Co., New York City, [illegible].
Webster Basket Co., Webster, N. Y., splints.
United States Knitting Co., Central Falls, R. I., stockinette.
Holliston Woolen Mills Co., Holliston, Mass., blankets.
Miller Rubber Co., Akron, Ohio, catheters.
J. Charles Teepe, New York City, trays.
John T. Stanley, New York City, soap.
International Cork Co., New York City, corks.
Pyrene Mfg. Co., New York City, fire extinguishers.
Spatz Tablet & Book Co., New York City, note paper.
Kny-Scheerer Corporation, New York City, food trucks.
Louis Bossert & Son, New York City, trays.
Lea & Febiger, Philadelphia, books.
H. Planten & Son, Brooklyn, N. Y., medicine.
William Wood & Co., New York City, books.
J. B. Lippincott Co., Philadelphia, books.
Young Glass Works, Boston, Mass., syringes.
Lelance & Grosjean Mfg. Co., New York City, pans.
Kny Scheerer Corporation, New York City, food trucks.
J. W. Ivory, Philadelphia, Pa., dental equipment.
Hodgman Rubber Co., Tuckahoe, N. Y., rubber tubing.
Chloride of Silver Dry Cell Battery Co., Baltimore, Md., battery for apparatus.
Beckton-Dickinson Co., Rutherford, N. J., syringes.
E. R. Squibbs & Son, New York City, medicine.
Sharp & Dohme, Baltimore, Md., medicine.
Grubel & Co., New York City, medicine.
Allaire Woodward & Co., Peoria, Ill., medicine.
Pacific Coast Borax Co., New York City, medicine.
Mallinkrodt Chemical Works, St. Louis, Mo., medicine.
Hoffman La Roche Chemical Works, New York City, medicine.
Heyden Chemical Works, New York City, medicine.
McKesson & Robbins, New York City, medicine.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 980, Opening of July 5, 1918.

35,000 ⅜-inch by 16-inch drift bolts or medium bar steel; 35,000 bolts ¾-inch by 18-inch drift bolts of medium bar steel.

Proposal No. 991, Opening of July 16, 1918.

7 screw plates, United States standard thread; 7 screw plates, United States standard thread; 7 screw plates, V thread; 7 screw plates, French metric thread; 14 screw plates, S. A. E. thread; 50 sets United States standard tap sets; 50 sets United States standard tap sets; 50 sets V thread tap sets; 50 sets French metric tap sets; 100 sets S. A. E. standard tap sets; 12 stay bolts with reamer points; 12 stay bolts with reamer points; 12 stay bolts with reamer points; 6 taper boiler taps, ⅝-inch United States standard; 6 ⅞-inch United States standard taper boiler taps; 6 1-inch United States standard taper boiler taps; 6 1⅛-inch United States standard taper boiler taps; 6 1¼-inch United States standard taper boiler taps; 6 1⅜-inch United States standard taper boiler taps; 6 1½-inch United States standard taper boiler taps; 6 ¾-inch United States standard taper boiler taps.

Proposal No. 994, Opening of July 12, 1918.

30 2-speed geared breast drills; 30 2-speed geared hand drills; 15 reversible ratchet hand drills with 18-inch handle.

Proposal No. 995, Opening of July 16, 1918.

50 air-operation riveting hammers; 150 riveting sets, and 300 chisel sets for same.

Proposal No. 996, Opening of July 12, 1918.

5,000 feet type P special reinforced lamp cord to be supplied in coils of 250 feet wrapped in burlap.

CONTRACTS OF BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

June 19, 1918.

No. 39138. Long Bell Lumber Co., Kansas City, Mo., yellow pine.
No. 39147. Lawrence Bros. Co., South Gardiner, Me., airplane spruce.
No. 39148. Morse & Buffman Co., Providence, R. I., airplane spruce.
No. 39149. Atlas Portland Cement Co., New York City, cement.
No. 39150. Marshall Furnace Co., Marshall, Mich., Hot-air furnaces.
No. 39151. Cleveland Cliffs Iron Co., Cleveland, Ohio, ore.
No. 39152. Mathias Bros. Co., Chicago, Ill., forced-draft fan.
No. 39153. Emerson-Brantingham Implement Co., Rockford, Ill., steam roller.
No. 39155. Harron, Richard & McCone, San Francisco, Cal., pipe-threading machine.
No. 39156. Niles-Bement-Pond Co., New York, N. Y., lathe engine.
No. 39157. Landis Machine Co., Waynesboro, Pa., threading machine.
No. 39158. Lorain Steel Co., Washington, D. C., railroad material.
No. 39159. Gem Metal Products Co., Brooklyn, N. Y., coffee boilers.
No. 39160. Harry Levis & Co., Philadelphia, Pa., railroad material.
No. 39161. William Whorton, Jr., Co. (Inc.), Easton, Pa., railroad material.
No. 39162. Bethlehem Steel Co., Bethlehem, Pa., railroad material.
No. 39163. Bond Foundry & Machine Co., Manheim, Pa., double coupling.
No. 39164. Northern Boiler Co., Cleveland, Ohio, repairs to boiler.
No. 39168. St. Louis Frog & Switch Co., St. Louis, Mo., frogs and guard rods.
No. 39169. York Manufacturing Co., York, Pa., refrigerating machines.
No. 36170. The Clothel Co., New York City, refrigerating machines.
No. 36171. Gleason Works, Rochester, N. Y., planers.
No. 36172. Russell, Burdsall & Ward, New York City, N. Y., nuts.
No. 36173. Stephans Nut & Bolt Co., Pawtucket, R. I., nuts.
No. 36174. Oliver Iron & Steel Co., Pittsburgh, Pa., bolts.
No. 36175. Buffalo Bolt Co., Buffalo, N. Y., bolts.
No. 36176. Lake Erie Iron Co., Cleveland, Ohio, nuts and bolts.
No. 36177. Forest City Foundry and Mfg. Co., Cleveland, Ohio, furnaces.
No. 36178. Dayton Dick Co., Quincy, Ill., centrifugal pumps.
No. 36179. Van Blerck Motor Co., Washington, D. C., gas engines.
No. 36180. D. Ballauf, Washington, D. C., machine.
No. 38181. Lackawanna Steel Co., Buffalo, N. Y., bars.

Proposal No. 998, Opening of July 12, 1918.

250 expansion Jennings pattern bits with two cutters; 250 sets auger bits in sets; 250 sets screw driver for ratchet brace bits in sets; 300 sets screw-driver bits for ratchet brace; 42 dozen chisels (socket framing 1-inch); 42 dozen 2-inch socket-framing chisels; 21 dozen carpenters' 3-inch socket-handle slicks; 250 sets socket-framing chisels in sets of three; 63 dozen drawknives.

Proposal No. 999, Opening of July 12, 1918.

100 Baileys adjustable iron planes; 100 smooth 8-inch long planes; 50 adjustable beading rabbit planes; 500 plumb bobs, about 8 ounce; 850 plumb bobs, about 1 pound; 313 dozen 2-foot 4-fold rules; 146 dozen 6-foot folding flexible joint rules; 63 dozen 6-foot rules.

Proposal No. 1000, Opening of July 16, 1918.

10 vertical solid-frame punches, 24-inch throat; 10 vertical solid frame punches, including motors and other electrical equipment; 10 punches and dies for above to punch ¾-inch hole; 10 punches and dies for above to punch ⅞-inch hole; 10 punches and dies for above to punch ⅞-inch hole; 10 punches and dies for above to punch 1-inch hole; 10 punches and dies for above to punch 1⅛-inch hole; 10 punches and dies for above to punch 1¼-inch hole.

MAXIMUM PRICES OF TOBACCO ON SALE IN GREAT BRITAIN

Consul General Skinner, at London, reports:

A schedule of maximum prices of tobacco on sale by manufacturers, wholesale dealers, and importers in the United Kingdom is now being put into effect.

The maximum price at which a manufacturer or importer may sell the tobaccos, cigarettes, and cigars of the qualities and descriptions set forth in the schedule shall now be at a price which, with all discounts deducted, is less than that at which tobaccos, cigarettes, and cigars may be retailed to the public under the provisions of any order in force for the time being by at least the amount shown in the schedule.

Cigarettes Manufactured and Imported.

Cigarettes manufactured in the United Kingdom put up in package, box, or other container, sold up to the rate of 8 cents for 10, to show at least 21 per cent on the manufacturers' price; at over the rate of 8 cents but not exceeding 11 cents for 10, 25 per cent; at over the rate of 11 cents but not exceeding 14 cents for 10, 27½ per cent; cigarettes sold at over the rate of 14 cents for 10, 30 per cent.

The maximum price at which a manufacturer may sell cigarettes manufactured in the United Kingdom and sold by weight shall be such that the difference between the manufacturers' price and the retail selling price shall be 5 per cent less than the difference which obtained between such prices on April 20, 1918, provided that the difference shall not in any case be less in pence per pound than it was on that date.

The gross difference between the importers' selling price of imported cigarettes (with all discounts deducted) and the price authorized by the schedule of prices shall be not less than 25 per cent on the net cost to the retailer.

Cigars Homemade and Imported.

The gross difference between the manufacturers' selling price of cigars per box of 50 (with all discounts deducted) and the price authorized by the schedule of prices referred to shall not be less than 30 per cent on the net cost price.

As to imported manufactured tobaccos and snuffs, the gross difference between the importers or dealers in bond or duty paid price and the price authorized by the schedule of prices referred to shall not bear a less profit in pence per pound to the wholesaler and retailer combined than they did on April 20, 1918.

As to British manufactured tobaccos and snuffs, the maximum price to be charged by the manufacturers of tobaccos and snuffs retailed on April 20, 1918, at 12 and 13 cents per ounce, and now to be retailed at 16 and 17 cents per ounce, respectively, shall be a price that will allow a profit to the retailer and to the wholesaler and retailer together of not less than 6 cents per pound more than was allowed under the schedule of wholesale prices dated August 13, 1917.

Maximum Prices Allowed.

The maximum price to be charged by the manufacturers of tobaccos and snuffs retailed on April 20, 1918, at 14 cents per ounce and upward and now to be retailed at 18 cents per ounce and upward shall be a price which will allow a profit to the retailer or the wholesaler and retailer together of not less in pence per pound than was allowed under the schedule of wholesale prices dated August 13, 1917.

The gross price, duty paid, charged by any importer shall not be more on imported cigars up to $21.89 per 100 than $1.46 per 100, and on cigars over $21.89 per 100 than $2.43 per 100 over the price charged by that importer for the same brands and quantities on April 20, 1918.

The above margins of profit, where goods are sold to a wholesale dealer and by him to a retailer, include both the wholesale dealers' and retailers' profit—that is, the retailer obtains the percentages of profit stated less the wholesaler's profit.

Sales to Retailers.

The maximum price at which a wholesale dealer sells to a retailer shall be the price at which he bought from the manufacturer with the addition of not more than the same proportion of the profit provided for the wholesale dealer and retailer together which it was customary for him to retain April 20, 1918.

Where a manufacturer sells to a purchaser a quantity of tobacco which under the conditions existing on April 20, 1918, would not have entitled the purchaser to the maximum discount allowed by the manufacturer, such manufacturer shall be entitled to retain a proportion of the maximum discount not exceeding that which it was customary to retain on April 20, 1918.

The net price at which a manufacturer or wholesale dealer sells any tobacco shall not exceed the price ruling on April 20, 1918, for the same or similar qualities sold by him under similar conditions of sale by more than the amount by which a retailer is entitled to increase the price of the same goods sold by him under any schedule or prices issued by the board of trade or the tobacco control board on their behalf in force for the time being.—Commerce Reports.

How First and Second Issue Liberty Bonds May Be Converted into Third Issue Bonds

The Treasury Department authorizes the following:

Liberty bonds of the first issue, Liberty bonds of the second issue, and Liberty bonds obtained by converting bonds of the first issue into bonds of the second issue can be converted into bonds of the third issue during the six months' period beginning May 9 and ending November 9, 1918.

Delivery of the bonds issued in conversion can not be made prior to July 1, but bonds presented for conversion on or before that date will be retained by the Treasury and a nonnegotiable receipt issued therefor. Interest will be adjusted in each case between the Government and the bondholder.

Expires on November 9, 1918.

After November 9, 1918, no further rights of conversion will attach to the 4 per cent bonds, either the original bonds of the second loan or those obtained by conversion of bonds of the first loan. Bonds of the first issue, however, will still have the privilege of conversion into any bonds issued, at a higher rate of interest than 3½ per cent, before the termination of the war. All of the 4¼ per cent bonds are nonconvertible.

Bonds for conversion may be surrendered at any Federal reserve bank or at the Treasury Department. Registered bonds must be assigned to the Secretary of the Treasury, but such assignment need not be witnessed.

Conversion of Registered Bonds.

On conversion of registered bonds, registered bonds only will be delivered, neither change of ownership nor change into coupon bonds being permitted.

Coupon bonds, however, may be converted into registered bonds upon request. Coupon bonds must have the May 15, or June 15, 1918, coupons and all subsequent coupons attached. Coupon bonds issued from conversion will have only four interest coupons attached, and later must be exchanged for new bonds with the full number of coupons attached.

All to be Dated May 9.

All bonds issued upon conversion into 4¼ per cent bonds will be dated May 9. The bonds secured upon conversion of bonds of the first loan and bonds obtained by conversion of bonds of the first loan into 4 per cent bonds will carry interest from June 15. Bonds issued upon conversion of 4 per cent bonds of the second issue will carry interest from May 15.

COTTON CONSUMED IN MAY.

Amounts on Hand Included in Department of Commerce Report.

The Bureau of Census, Department of Commerce, has issued preliminary statistics on the consumption of cotton during the month of May and the amount on hand at the end of the month. These figures show that 577,288 running bales (counting round as half bales, except foreign cotton, which is in equivalent 500-pound bales) of cotton were consumed during the month; that 1,795,497 bales were in consuming establishments at the end of the month; and that 2,414,831 bales were in public storage and in compresses at the end of the month. The foregoing figures include 13,340 bales of foreign and 7,581 bales of sea-island consumed, 51,506 bales of foreign and 24,659 bales of sea-island held in consuming establishments, and 35,218 bales of foreign and 32,586 bales of sea-island held in public storage and at compresses.

The imports of foreign cotton during the month were 29,735 bales of 500 pounds each and the exports of domestic cotton and linters were 292,041 running bales.—Commerce Reports.

Contribute to the Red Cross fund.

ENGINEER OFFICERS' TRAINING SCHOOL AT CAMP HUMPHREYS

The War Department authorizes the following statement from the Engineer Corps:

The Chief of Engineers, Gen. William M. Black, announced to-day that the Engineer officers' training camp, scheduled to open about August 1, will be situated at Camp Humphreys, 17 miles south of Washington, on a plateau overlooking the Potomac River. Two thousand candidates for commissions as captains and first lieutenants will be trained under the same facilities provided for the 17,000 Engineer replacement troops now there preparing for over-seas service. These facilities include the ordinary military arrangements, and in addition some 15 special schools to instruct men on such operations as mining, quarrying, gas, and flame defense, barbed-wire fortification, water supply, and railroad communication.

Training in Sapper Work.

The candidates for commission will become familiar with the work of all these schools and conclude their training with a course in sapper work, in order that they may be fitted to command sapper troops if necessary. Many of the candidates will come from civil life, a campaign being under way to interest men of technical training and experience.

Many applications for entrance to the training camp have been received. To examine these candidates, Gen. Black has designated a traveling board, which will visit several of the larger cities and determine the physical and mental fitness of the applicants. This board will be headed by Maj. E. H. Williams, who will advise the candidates as to the dates on which they should appear in the cities to be visited for examination. Candidates for first lieutenancies should be between 32 and 36 years old, and those for captaincies between 36 and 42. Traveling expenses to the camp will be allowed successful candidates. Those accepted before August 1 will be sent to the existing Engineer officers' training camp at Camp Lee, Petersburg, Va.

STEPS TO RELIEVE CONGESTION AT RAILROAD TICKET OFFICES

The Railroad Administration issues the following:

Congestion at the consolidated ticket offices in large cities results in part from an abnormally heavy passenger travel and in part from the recent advance in fares, which came at a time when the ticket offices were carrying their peak load for the season and which has slowed up the sale of tickets to a considerable extent. Another factor which has increased the burden of these offices is the recent authorization of a rate of a cent per mile for soldiers and sailors on furlough. Many men in the service are taking advantage of the low fare, and the work of issuing these tickets involves more or less delay.

The Director General has instructed that steps be taken promptly to remedy these conditions, and arrangements have been made to open on Monday next an annex to the Washington consolidated ticket office in the room formerly occupied by the Wells, Fargo Express Co., located in the same building as the ticket office. In this office Government orders—military, Navy, and other business, the transaction of which requires extended time—will be cared for. Other short cuts will be adopted in the sale of tickets both in the consolidated office at Thirteenth and F Streets and in the Washington Terminal, and the forces in both offices will be augmented.

Conditions in Other Cities.

The conditions which obtain in Washington also exist in New York City and other large centers, and like action will be taken in those cities to insure adequate service to the public.

CONDITION OF FRENCH CROPS IN APRIL BETTER THAN SAME MONTH A YEAR AGO

Consul General Thackara, at Paris, reports:

The minister of agriculture published in the Journal Officiel of April 18, 1918, a comparative statement of the condition of the French crops on April 1, 1918, and the figures for the same date in 1917. The condition of the crops is based as follows: 100 indicates very good; 80, good; 60, fairly good; 50, fair; 30, poor; and 20, bad.

Statement of Minister.

The statement of the minister of agriculture is as follows:

Crop.	1917	1918
Winter wheat	54	73
Spelt	59	73
Rye	62	74
Winter barley	56	72
Winter oats	52	70
Clover and other sown lands	62	70
Meadow lands (temporary)	62	70
Green forage	54	68
Meadow land	63	69

Commenting on the crop prospects, a leading French journal, Le Temps, says:

"As will be seen, the general agricultural condition is much better than last year, the weather being more favorable. We shall not know until next month how much land has been devoted to the growth of cereals, but we are already aware that since January 1, on which date an official inquiry showed an increase of about 320,000 hectares (790,734 acres) of land sown with winter wheat in comparison with the previous year, much of this sort of wheat has been sown. We know also that the sowings of spring wheat, and generally of all other spring cereals, has been on a large scale, and they have not yet finished; barley is still being sown, and maize and buckwheat will shortly follow.

Seed Distribution Slow.

"Unfortunately, the seed is distributed so slowly, owing to present circumstances, and so many formalities have to be complied with that it is to be feared that the efforts of the farmers will fall short of the desired result. In any case, it is considered that if the weather is favorable for the sowings many of the departments, which had to apply this season to the revictualing authorities or to more favored departments, will next season be able to supply their own needs. We may add that the recent rains have caused the spring sowings to germinate, but the temperature is at present too cold to allow of free growth. In every district warmer weather is needed."—Commerce Reports.

STUDY MADE OF SOLDIERS' FEET AND PROPER FITTING OF SHOES

The War Department authorizes the following:

A series of studies of soldiers' feet and the proper fitting of shoes has just been completed by a staff of officers, enlisted men, expert shoe men, and military orthopedists under the direction of the Quartermaster General and the Surgeon General. The experiments and tests, which covered a period of many months and a number of camps and cantonments, were thorough and complete and resulted in changes and improvements that will mean added comfort and marching power to the Army.

In several camps entire regiments have their feet measured and hundreds of drawings were made of oddly shaped or sized feet. One soldier was found to have feet measuring 13 inches long and 5 inches wide. Two out of every thousand men have had to have their shoes made to order.

Two Styles Necessary.

Heretofore there has been but one general type of Army shoe which has been used for all purposes. The size most in demand of this standard shoe was 7E. As a result of the special tests it was found that two styles are necessary; one, a field shoe and the other a marching shoe. The average size of the marching shoe is 8½D, while the average size of the field shoe is 9E. The marching shoe is somewhat lighter and softer than the field shoe. Larger size shoes are needed in the trenches as the men wear heavier or an extra pair of socks, which explains the difference in the average sizes of the field and marching shoes.

Men coming into the camps are surprised to find that their civilian shoes are too small and that marching has caused their feet to fill out. In many cases shoes several sizes larger than those worn in civilian life are needed after several weeks of training.

Men Larger Than in Previous Wars.

Facts brought out in the tests seem to prove that the men in the present Army are larger than those serving in previous wars. Not only is this shown by the larger sizes of shoes called for but by the larger sizes of outer clothing that is being required. Records in the Quartermaster General's office show that a size larger, on the average, is being called for in blouses, shirts, and breeches than have ever before been used. The average size in shoes and outer clothing is determined after a complete survey of all the records.

The Army uses up at the present time between two and three million pairs of shoes a month.

America Is Doing What Founders Would Have Done, Says President, in Address at Washington's Tomb, July 4

NEW ISSUE OF $750,000,000 IN TREASURY CERTIFICATES OFFERED FOR SUBSCRIPTION

WILL BEAR INTEREST FROM JULY 9

Rate Will Be Four and One-Half Per Cent Per Annum—Federal Reserve Banks to Receive Subscriptions—Conditions Outlined.

The Treasury Department authorizes the following:

Secretary McAdoo, under the authority of the act approved September 24, 1917, as amended by the act approved April 4, 1918, offers for subscription, at par and accrued interest, through the Federal reserve banks, $750,000,000 or more Treasury certificates of indebtedness, series IV B, dated and bearing interest from July 9, 1918, payable November 7, 1918, with interest at the rate of 4½ per cent per annum. Applications will be received at the Federal reserve banks. Subscription books will close at the close of business July 16, 1918.

Certificates will be issued in denominations of $500, $1,000, $10,000, and $100,000. Said certificates shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations.

Interest Exempt from Tax.

The interest on an amount of bonds and certificates authorized by said act approved September 24, 1917, or by said act as amended by said act approved April 4, 1918, the principal of which does not exceed in the aggregate $5,000 owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above.

Upon 10 days' public notice, given in such manner as may be determined by the Secretary of the Treasury, the certificates of this series may be redeemed as a whole at par and accrued interest on or

(Continued on page 2.)

FOOD ADMINISTRATION FINDS FARM WORK FOR "OBJECTORS"

Completes an Agreement with War Department for Men from Three Camps.

The Food Administration issues the following:

Useful war work in agriculture for "conscientious objectors" is being planned by the War Department and the Food Administration. Under an agreement just completed all men in Camps Taylor, Meade, and Lee who have religious scruples against fighting may be furloughed and set to farming.

About 160 in One Camp.

When it became known through Fred M. Sackett, Federal Food Administrator for Kentucky, that in Camp Taylor alone there were about 160 "conscientious objectors," nearly all of them farmers, a prompt interchange of views between Food Administration officials and the Adjutant General's Office provided the "objectors" with an opportunity to serve their country.

Commandants at the camps mentioned have been authorized to furlough the men until August 15.

Credit of $100,000,000 is Extended to France

The Treasury Department has extended to France an additional credit of $100,000,000, bringing that country's total indebtedness to the United States to $1,765,000,000 and the total of the allies to $6,081,590,000.

CAN BE BUT ONE ISSUE

"The Settlement Must Be Final and There Can Be No Compromise"—Reign of Law, Based Upon the Consent of the Governed, the One Object for Which the U. S. Fights.

Speaking at the tomb of George Washington, at Mount Vernon, on July 4, 1918, President Wilson said:

GENTLEMEN OF THE DIPLOMATIC CORPS AND MY FELLOW CITIZENS: I am happy to draw apart with you to this quiet place of old counsel in order to speak a little of the meaning of this day of our Nation's independence. The place seems very still and remote. It is as serene and untouched by the hurry of the world as it was in those great days long ago when General Washington was here and held leisurely conference with the men who were to be associated with him in the creation of a nation. From these gentle slopes they looked out upon the world and saw it whole, saw it with the light of the future upon it, saw it with modern eyes that turned away from a past which men of liberated spirits could no longer endure. It is for that reason that we can not feel, even here, in the immediate presence of this sacred tomb, that this is a place of death. It was a place of achievement. A great promise that was meant for all mankind was here given plan and reality. The associations by which we are here surrounded are the inspiring associations of that noble death which is only a glorious consummation. From this green hillside we also ought to be able to see with comprehending eyes the world that lies about us and should conceive anew the purposes that must set men free.

It is significant, significant of their own character and purpose and of the influences they were setting afoot, that Washington and his associates,

PRESIDENT'S ADDRESS AT WASHINGTON'S TOMB

like the barons at Runnymede, spoke and acted, not for a class, but for a people. It has been left for us to see and to know that it shall be understood that they spoke and acted, not for a single people only, but for all mankind. They were thinking, not of themselves and of the material interests which centered in the little groups of landholders and merchants and men of affairs with whom they were accustomed to act, in Virginia and the colonies to the north and south of her, but of a people which wished to be done with classes and special interests and the authority of men whom they had not themselves chosen to rule over them. They entertained no private purpose, desired no peculiar privilege. They were consciously planning that men of every class should be free and America a place to which men out of every nation might resort who wished to share with them the rights and privileges of free men. And we take our cue from them, do we not? We intend what they intended. We here in America believe our participation in this present war to be only the fruitage of what they planted. Our case differs from theirs only in this, that it is our inestimable privilege to concert with men out of every nation what shall make not only the liberties of America secure but the liberties of every other people as well. We are happy in the thought that we are permitted to do what they would have done had they been in our place. There must now be settled once for all what was settled for America in the great age upon whose inspiration we draw to-day. This is surely a fitting place from which calmly to look out upon our task, that we may fortify our spirits for its accomplishment. And this is the appropriate place from which to avow, alike to the friends who look on and to the friends with whom we have the happiness to be associated in action, the faith and purpose which which we act.

This, then, is our conception of the great struggle in which we are engaged. The plot is written plain upon every scene and every act of the supreme tragedy. On the one hand, amid the peoples of the world—not only the peoples actually engaged, but many others also who suffer under military lust but can not act: peoples of many races and in every part of the world—the people of stricken Russia still, among the rest, though they are for the moment unorganized and helpless. Opposed to them, masters of many armies, stand an isolated, friendless group of governments who speak no common purpose, but only selfish ambitions of their own by which none can profit but themselves and those peoples who fall to their hands: governments which fear their people and yet are for the time their sovereign lords, making every choice for them and disposing of their lives and fortunes as they will, as well as of the lives and fortunes of every people who fall under their power—governments clothed with the strange trappings and the primitive authority of an age that is altogether alien and hostile to our own. The Past and the Present are in deadly grapple and the peoples of the world are being done to death between them.

There can be but one issue. The settlement must be final. There can be no compromise. No halfway decision would be tolerable. No halfway decision is conceivable. These are the ends for which the associated peoples of the world are fighting and which must be conceded them before there can be peace:

I. The destruction of every arbitrary power anywhere that can separately, secretly, and of its single choice disturb the peace of the world; or, if it cannot be presently destroyed, at the least its reduction to virtual impotence.

II. The settlement of every question, whether of territory, of sovereignty, of economic arrangement, or of political relationship, upon the basis of the free acceptance of that settlement by the people immediately concerned, and not upon the basis of the material interest or advantage of any other nation or people which may desire a different settlement for the sake of its own exterior influence or mastery.

III. The consent of all nations to be governed in their conduct toward each other by the same principles of honor and of respect for the common law of civilized society that govern the individual citizens of all modern States in their relations with one another; to the end that all promises and covenants may be sacredly observed, no private plots or conspiracies hatched, no selfish injuries wrought with impunity, and a mutual trust established upon the handsome foundation of a mutual respect for right.

IV. The establishment of an organization of peace which shall make it certain that the combined power of free nations will check every invasion of right and serve to make peace and justice the more secure by affording a definite tribunal of opinion to which all must submit and by which every international readjustment that can not be amicably agreed upon by the peoples directly concerned shall be sanctioned.

These great objects can be put into a single sentence. What we seek is the reign of law, based upon the consent of the governed and sustained by the organized opinion of mankind.

These great ends can not be achieved by debating and seeking to reconcile and accommodate what statesmen may wish, with their projects for balances of power and of national opportunity. They can be realized only by the determination of what the thinking peoples of the world desire, with their longing hope for justice and for social freedom and opportunity.

I can fancy that the air of this place carries the accents of such principles with a peculiar kindness. Here were started forces which the great nation against which they were primarily directed at first regarded as a revolt against its rightful authority but which it has long since seen to have been a step in the liberation of its own people as well as of the people of the United States; and I stand here now to speak—speak proudly and with confident hope—of the spread of this revolt, this liberation, to the great stage of the world itself! The blinded rulers of Prussia have roused forces they knew little of—forces which, once roused, can never be crushed to earth again; for they have at their heart an inspiration and a purpose which are deathless and of the very stuff of triumph!

ISSUE OF TREASURY CERTIFICATES

(Continued from page 1.)

after any date, occurring before the maturity of such certificates, set for the payment of the first installment of the subscription price of any bonds offered for subscription by the United States after the offering and before the maturity of such certificates. The certificates of this series, whether or not called for redemption, will be accepted at par, with adjustment of accrued interest, if tendered on such installment date in payment on the subscription price then payable of any such bonds subscribed for by and allotted to holders of such certificates.

Do Not Bear Circulation Privilege.

The certificates of this series do not bear the circulation privilege and will not be accepted in payment of taxes. The right is reserved to reject any subscription and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on and after July 9, and on or before July 16. After allotment and upon payment Federal reserve banks will issue interim receipts pending delivery of the definite certificates. Qualified depositaries will be permitted to make payment by credit for certificates allotted to them for themselves and their customers up to an amount for which each shall have qualified in excess of existing deposits when so notified by Federal reserve banks.

As fiscal agents of the United States, Federal reserve banks are authorized and requested to receive subscriptions and to make allotment in full in the order of the receipt of applications up to the following aggregate amounts in their respective districts:

Boston	$65, 000, 000
New York	254, 000, 000
Philadelphia	53, 000, 000
Cleveland	68, 000, 000
Richmond	26, 000, 000
Atlanta	22, 000, 000
Chicago	105, 000, 000
St. Louis	30, 000, 000
Minneapolis	26, 000, 000
Kansas City	30, 000, 000
Dallas	18, 000, 000
San Francisco	53, 000, 000
Total	750, 000, 000

Belgian Queen Expresses Her Admiration for War Work of American Women

Her Majesty, the Queen of Belgium, in a cable sent to the Belgian minister at Washington, D. C., asks the woman's division of the Committee on Public Information to express to the women of America her admiration for their war work. Count de Jehay, of the cabinet of King Albert, sends the cable, which reads as follows:

"Please transmit to the Woman's Division of the Committee on Public Information the following message: 'I am directed by the Queen on the occasion of the Independence Day to inform you that Her Majesty wishes to express her admiration for the work the women of America are doing for the Allied cause.'

"COUNT DE JEHAY,
"Chef du Cabinet du Roi.
"July 4, 1918."

GIFT FROM AZORES TOWN FOR CAPTAIN OF U. S. VESSEL WHICH REPELLED ATTACK BY U-BOAT

The Navy Department authorizes the following:

The citizens of Ponta Delgada, Azores, have expressed, through the American minister at Lisbon, Portugal, their wish to present to the captain of the United States ship *Orion* a silver loving cup in recognition of his action in attacking and repelling an enemy submarine which bombarded that city on July 4, 1917. The Navy Department has decided that there is no legal objection to his acceptance of the gift, as it is not to be presented by any "king, prince, or foreign State," but by citizens.

Mr. Roosevelt's Reply.

In replying to the inquiry of the American minister, Acting Secretary of the Navy Roosevelt wrote:

"The Navy Department notes with much pleasure the desire of the people of Ponta Delgada. There appears no legal objection to the reception of this gift by the captain of the *Orion*, which the department welcomes as giving an occasion for an expression of the warm desire of the Navy to be of very real service to the people of the Azores in this time of common danger, and of the wish that the cooperation of our forces in this war may form a lasting bond of mutual sympathy and trust. It is suggested that this acknowledgment of the Navy Department of the information tendered in your letter may be communicated to the citizens of Ponta Delgada."

The action referred to took place on the morning of July 4, 1917, and Lieut. Commander J. H. Boesch, of the United States Naval Reserve Force, was in command of the *Orion*. An enemy submarine was shelling the town when the *Orion* arrived, engaged the U boat, and ended the attack on Ponta Delgada.

"WAR-SAVINGS STAMPS mark an epoch in our NATIONAL LIFE."—Secretary McAdoo.

Women, as the Men, Stand at Very Center of Every Issue Involved in the War, Says Mrs. Wilson in July 4 Greeting

"The greeting which I am glad to send to the women of our beloved country, who are playing so large and so noble a part in this day of our supreme test, can have but a single thought for its theme—the thought that is in all our hearts. That thought is that we are sustaining, not a government, but the very principle of our Nation's life. The morale of the war is in the thoughts and aspirations and hopes of the women as well as of the men. They stand at the very center of every issue involved, as the men do, and in that sense the war is theirs. It is a war for what is humane and right. They can put all that is best of them into the struggle. And they are doing so. I deeply admire them, and am proud to stand with them. A new glory attaches to the Fourth of July because we are striving to make the whole world free.

"Mrs. WOODROW WILSON."

Pledge of the Foreign Born to America Is Renewed by Chairman of Committee in Address at the Tomb of Washington

Felix J. Streyckmans, of Chicago, representing the Belgian-Americans, and chairman of the committee of the foreign born, made the following address at the Mount Vernon celebration July 4, 1918:

"MR. PRESIDENT, MEMBERS OF THE DIPLOMATIC CORPS: To this shrine of the American people, to the mortal remains of the man who, more than any other, gave the American ideal life and form, we have come to-day, bearing our humble tribute as citizens of the great Republic. You yourself, Mr. President, have acceded to our request that this Independence Day be designated as a festival of loyalty on the part of our foreign-born citizens and of their sons and daughters. It is for me, representing this committee of pilgrims, to tell you what it means to us.

Americans in Soul.

"One hundred and forty-two years ago to-day a group of men, animated with the same spirit as that of the man who lies here, founded the United States of America on the theory of free government with the consent of the governed. That was the beginning of America. As the years went on, as one century blended with another, men and women came from even the uttermost ends of the earth to join them. We have called them alien; but they were never alien. Though they spoke not a word of the language of this country, though they groped only dimly toward its institutions, they were already Americans in soul or they would never have come.

Spirit of Washington Guiding.

"We are the latest manifestation of that American soul. And scarcely had we settled ourselves into the structure of this dear country of our adoption when we found the spirit of Washington, now blazing up to be the guiding light of 20 great nations, assailed as never before by the sinister forces of reaction. Autocracy in its most murderous form had gathered itself for its final struggle. With the soul of Washington leading on America entered the battle line; and we, in a spirit of solemn gladness, entered with her.

Sealing Faith With Blood.

"We who make this pilgrimage are the offspring of 33 different nations—and Americans all. We come not alone. Behind us are millions of our people, united to-day in pledging themselves to the cause of this country and of the free nations with which she is joined. In my own city 800,000 foreign-born men and women are at this moment lifting their hands and renewing their vows of loyalty. From coast to coast in city, town, and hamlet our citizens will be demonstrating that the oath which they took upon their naturalization was not an empty form of words. Yes, and more than that. When to-morrow the casualty list brings heaviness to some homes and a firm sense of resolution to all we shall read upon the roll of honor Slavic names, Teutonic names, Latin names, Oriental names, to show that we have sealed our faith with the blood of our best youth.

Hopes Garnered in Hands.

"To this beloved shade we come to-day with the hopes of our races garnered in our hands. To you, worthy successor of our great liberator, we give the promise of the millions who sent us here that we will persevere in the struggle until lasting freedom is secured not only for this Nation but for the nations from which we sprang—yes, and for all the other nations. The sword which we have grasped we will not lay down until the dream of Washington and of his great generation be fulfilled for us, for our American sons and daughters, and for a whole suffering, struggling world."

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

CONDITIONS OF NEW AGREEMENT ON MAXIMUM PRICE FOR COPPER

The War Industries Board authorizes the following:

The President has approved an agreement made between the producers of copper and the price-fixing committee of the War Industries Board (after investigation by this committee in conjunction with the Federal Trade Commission as to the cost of production), that the maximum price of copper shall be 26 cents per pound, taking effect July 2, but subject to revision after August 15, f. o. b. cars at refinery if shipped from eastern refineries, and f. o. b. New York if shipped from western refineries, subject to the additional charges on copper [illegible] approved by the price-fixing committee on June 5, 1918.

The Conditions.

The conditions are: First, that the producers of copper will not reduce the wages now being paid; second, that they will sell to the United States Government, to the public in the United States, and to the allied Governments at not above the maximum price; third, that they will take the necessary measures, under the direction of the War Industries Board, for the conservation of copper to prevent it from falling into the hands of speculators, who might increase the price to the public; and fourth, that they will pledge themselves to exert every effort necessary to keep up the production of copper so as to insure an adequate supply so long as the war lasts.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique,
No. 49—Continued.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 2, 1918.

Section B.—The Commander in Chief has awarded distinguished-service crosses to the following enlisted men and officers for acts of gallantry as set forth after their names:

CORPL. REXFORD H. DETTRE, Field Artillery: "At Villers Tournelle, Cantigny sector, France, on May 1, 1918, displayed distinguished bravery in twice leaving his shelter during a heavy bombardment and going to the assistance of wounded men lying exposed in the open."

CORPL. A. H. QUICK, Field Artillery: "At Villers Tournelle, Cantigny sector, France, on May 1, 1918, displayed distinguished bravery in leaving his shelter during a heavy bombardment and going to the assistance of a wounded man who was lying exposed in the open."

CORPL. LOUIS LIBERMAN, Field Artillery: "At Villers Tournelle, Cantigny sector, France, on May 1, 1918, displayed distinguished bravery in twice leaving his shelter during a heavy bombardment and going to the assistance of wounded men lying exposed in the open."

SECOND LIEUT. LOUIS F. TIMMERMAN, JR., Marines: "In the Bois de Belleau, on June 6, 1918, he led his men in a bayonet charge against superior numbers of the enemy, capturing two machine guns and 17 prisoners. Wounded in the face by shrapnel, he continued heroically to perform his duties until relieved."

GUNNER SERGT. JOHN CROFF, Marines: "In the Bois de Belleau, on June 6, 1918, he charged an enemy of unknown numbers at the head of six men, dispersed them, and inflicted losses, showing exceptional coolness and bravery."

SERGT. DAREL J. McKINNEY, Marines: "In the Bois de Belleau, on June 8, 1918, he, although severely wounded, refused to go to the rear for treatment. Despite his wounds, he continued to lead his platoon to the attack, inflicting great losses upon the enemy."

CORPL. RAYMOND GIBSON, Marines: "In the Bois de Belleau, on June 8, 1918, he handled alone a Chauchat rifle with such accuracy in face of an extremely heavy fire that his platoon was thus enabled to move against the enemy machine-gun positions."

CORPL. CHARLES W. BROOKS, Marines: "In the Bois de Belleau, on June 8, 1918, he displayed great courage and absolute disregard for personal safety in repeatedly going through heavy machine-gun fire with messages."

PVT. HUGH S. MILLER, Marines: "In the Bois de Belleau, on June 6, 1918, he captured, single-handed, two of the enemy. Although in a weakened condition, he continued to perform his duty throughout the engagement."

SECOND LIEUT. RALPH W. MARSHALL, Marines: "In the Bois de Belleau, on June 6 and 8, 1918, he demonstrated conspicuous bravery and coolness in fearlessly exposing himself to heavy fire from machine guns, rifles, and hand grenades, in order that he might procure accurate information regarding the movements of the enemy."

FIRST LIEUT. ALFRED H. NOBLE, Marines: "In the Bois de Belleau, on June 6 and 8, 1918, he was conspicuous for his rare judgment and personal courage in handling his company in attacks against strongly fortified machine-gun positions."

CAPT. DWIGHT F. SMITH, Marines: "In the Bois de Belleau, on June 8, 1918, he was conspicuous for his gallantry and energy in conducting attacks against strongly fortified machine-gun positions. Under terrific machine-gun fire he held on until wounded."

FIRST LIEUT. CHARLES G. ROBERTS, Marines: "In the Bois de Belleau, on June 6 and 8, 1918, he showed rare courage in repeatedly leading his platoon to an attack against an impregnable machine-gun position. Severely wounded and having lost the greater part of his men, he remained in action and persisted in requesting reinforcements with which to renew the attack."

PVT. JOHN M. WORRELL, Marines: "During the capture of Bouresches, France, on June 6, 1918, he carried wounded men across the field swept by artillery and machine-gun fire until he himself was wounded."

PVT. LEON D. HUFFSTATER, Marines: "During the capture of Bouresches, France, on June 6, 1918, he carried wounded men across a field swept by artillery and machine-gun fire."

SERGT. GEORGE T. FRANK, Marines: "In the Bois de Belleau, on June 8, 1918, he showed great bravery and coolness in leading a platoon to an attack on a strongly fortified machine-gun nest, which he reached and held."

The Commander in Chief has awarded the distinguished-service cross posthumously to the following officers and enlisted men for acts of gallantry as set forth after their names:

PVT. CLINTON S. LENDSEY, Marines: "In the Bois de Belleau, on June 6, 1918, he carried a wounded officer off the field to safety while

(Continued on page 10.)

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

The Senate was in session Wednesday only a few minutes, adjourning out of respect to the memory of the late Senator Tillman, of South Carolina, whose death was announced. The customary resolutions were adopted and a committee appointed to join a similar committee from the House to attend the funeral.

Conferees on the agricultural appropriation bill are still deadlocked over the Senate amendment increasing the guaranteed price of wheat to $2.50 a bushel.

Conferees on the Army appropriation bill have reached a partial agreement on some of the many amendments adopted in the Senate. At the demand of the managers on the part of the House, Senate amendment which had been inserted at the request of the War Department providing for the training and equipment in the United States of foreign troops, especially those from Latin America, was stricken out. The Senate amendment providing for the sale at cost by the Government to Army and Navy officers of uniforms and equipment also was eliminated. Senate amendment providing for medals of honor and distinguished crosses and badges for those who distinguish themselves in the military service was agreed to.

HOUSE.

The bill providing for the taking of the 1920 decennial census was passed Wednesday afternoon by a vote of 158 to 128. Republican opposition was centered chiefly against the provision granting authority to the Director of the Census to name district supervisors.

Schuyler Otis Bland was sworn in as the successor to the late Representative William A. Jones of the first Virginia district.

By a unanimous vote the Committee on Interstate Commerce ordered a favorable report on the pending resolution giving the President authority to place all telegraph and telephone lines of the country under Government control for the period of the war. By a vote of 9 to 7 the committee rejected a proposal to extend the time to six months after the war, and on a viva voce vote rejected various other proposed amendments fixing a certain time after the close of the war. The text of the resolution as ordered reported is as follows:

> *Resolved, etc.,* That the President in time of war is authorized and empowered to supervise or take possession and assume control of any telegraph, telephone, marine cable, or radio system or systems, or any part thereof, and to operate the same in such manner as may be needful or desirable for the duration of the war, which supervision, possession, control, or operation, shall not extend beyond the date of the proclamation by the President of the exchange of ratifications of the treaty of peace: *Provided,* That just compensation shall be made for such supervision, possession, control, or operation.

As the manager on the part of the House conferees on the Agricultural appropriation bill, Chairman Lever reported a continued deadlock over the Senate item increasing the guaranteed price of wheat to $2.50 a bushel.

Synopsis of the Trust Accounts of Alien Property Custodian

Following is a synopsis of the trust accounts of the Alien Property Custodian as of June 30, 1918:

Cash deposited with Secretary of the Treasury:		
Invested in Government securities	$27,172,027.82	
Uninvested	14,820,305.66	
		$41,992,333.48
Stocks		141,499,819.80
Bonds—other than investments made by Secretary of the Treasury		51,982,924.35
Mortgages		8,416,512.05
Notes receivable		5,829,425.78
Accounts receivable		52,372,121.39
Real estate		5,616,625.76
General businesses and estates in operation or liquidation, merchandise, miscellaneous, investments, etc		76,590,128.58
Enemy vessels		34,193,690.00
		418,493,581.19

Number of trusts reported to Alien Property Custodian, 20,091.
Number of trusts opened, 11,786.

DESTROYER IS NAMED IN HONOR OF THE LATE SENATOR TILLMAN

Secretary Daniels has named the latest destroyer the *Tillman* in honor of the late Senator Benjamin R. Tillman, chairman of the Naval Affairs Committee of the Senate. Secretary Daniels, in making the announcement, said:

"Senator Tillman had been a member of the Naval Affairs Committee for nearly twenty-four years and for over five years had been chairman of that committee. During these later years, in feeble health, he has given himself unstintedly to the work of increasing the Navy, often permitting his zeal to overtax his strength. He died as truly at his post of duty as any officer or sailor in the war zone. Therefore it is fitting that a destroyer should bear the name of a loyal fighter whose victories strengthened the Navy.

His Work for the Navy.

"The country owes a lasting debt of gratitude to Senator Tillman for the development of the Navy. He had the vision of a powerful Navy and lived to carry through measures that have enabled it to reach its present high state of efficiency and the legislation he championed will give to America a fighting Navy worthy of our great Republic. It was under the leadership of Senator Tillman that the three-year building program was enacted before America entered this war. That constructive piece of legislation, a radical departure from all precedents, can not be appraised at its true value to-day. Only when all the mighty ships, provided in that bill, are commissioned, will the country fully appreciate its obligation to Senator Tillman and his associates. That was his most lasting service, but was only one of the many wise measures enacted under his chairmanship of the Senate Committee. The Navy in every function had been helped by his intelligent interest and service. He knew all the chief naval officers and kept in touch with all naval activities. He was beloved by every man in the Navy, and in spirit all will to-morrow be in mourning when his body is laid to rest."

Telegram from Congressmen.

Secretary Daniels has received the following telegram from the South Carolina delegation in Congress:

COLUMBIA, S. C., *July 4.*

Hon. JOSEPHUS DANIELS,
Secretary of the Navy,
Washington, D. C.

The Members of the South Carolina delegation in the Senate and House of Representatives wish to express their appreciation of the honor conferred upon the State of South Carolina in naming a destroyer *Tillman* in honor of the deceased Senator Benjamin Ryan Tillman. We are conscious of the fact that heretofore destroyers have been named only in honor of naval heroes, but we feel, with you, that this honor is rightfully conferred because of the loyal and effective services of Senator Tillman, who, like a hero, died at his post of duty, working for the development of the Navy of the United States.

E. D. SMITH, *Senator.*
A. F. LEVER,
J. F. BYRNES,
J. W. RAGSDALE,
R. S. WHALEY,
S. J. NICHOLLS,
F. H. DOMINICK,
W. F. STEVENSON,
Representatives.

ORDERED TO CAMP LEE.

Special orders, No. 146:

251. Majs. Bernard A. Miller and Paul T. Bock, Corps of Engineers, are relieved from duty at Camp A. A. Humphreys, Va. They will proceed without delay to Camp Lee, Petersburg, Va., and report in person to the commanding officer, Engineer officers' training camp, for duty as instructors.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

JULY 4, 1918

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	9
Died of wounds	6
Died of disease	5
Died of accident and other causes	3
Severely wounded	26
Missing in action	2
Prisoner	1
Total	52

Killed in Action.

Lieut. Roland Jackson. W. S. Jackson, 228 East Kiowa Street, Colorado Srings, Colo.

Hedley Cooper. Rev. C. O. Cooper, Riverside, Ill.

Halliday Smith. Spencer C. Smith, Sickles Street, Nyack, N. Y.

PRIVATES.

Arthur Bridgenhagen. Mrs. Julia Bridenhagen, Sturgeon Bay, Wis.

Arthur H. Bunce. Wesley Bunce, Ashton, S. Dak.

Charles J. Houston. James Houston, 5644 Chew Street, Philadelphia, Pa.

Fred L. Strong. Mrs. Verda Strong, R. F. D. 4, Hart, Mich.

Cecil R. Sullivan. Mrs. Daniel C. Sullivan, 1943 Florence Avenue, Butte, Mont.

Tom R. West. Edward A. West, Oliver Springs, Tenn.

Died of Wounds.

PRIVATES.

Beraldo Delbeato. Frank Delbeato, Pachino, Italy.

Pat Rogers. William Rogers, Glasdrummond, County Down, Ireland.

Joseph Sammartino. Samuel Sammartino, 315 Melrose Street, Brooklyn, N. Y.

Adolph Tonetti. Edward Tonetti, Millsboro, Pa.

Virgil E. Weaver. Mrs. Clara Weaver, 637 Prospect Avenue, Fort Wayne, Ind.

Earl R. Williams. Warren F. Williams, Yoder, Kans.

Died of Disease.

Wagoner Thomas H. Elston. C. H. Elston, Oswego, Oreg.

PRIVATES.

Anthony J. Bevilacqua. Daniel Bevilacqua, R. F. D., Colfax, Cal.

Charles Samuel Carpenter. Charles E. Carpenter, 15 Bronson Street, Littleton, N. H.

Bertrand C. Howell. J. N. Howell, 155 Fort Street, Nelsonville, Ohio.

Henry O'Neal. Mrs. Essie Pitts O'Neal, 406 Second Avenue, Columbus, Ga.

Died from Accident and Other Causes.

PRIVATES.

George Ashe. Vasseeb Areda, 72 Trinity Place, New York, N. Y.

Theodore L. Braaflat. Mrs. Gust Hendricks, Plaza, N. Dak.

Abraham Brown. Barnett Brown, 64 East Broadway, New York, N. Y.

Severely Wounded.

Sergt. John Martin. John Martin, 524 West Cherry Street, Mount Carmel, Pa.

Sergt. Robert Yarbrough. John F. Yarbrough, R. F. D. No. 2, Lamar, Ala.

Corpl. John Lewis. Richard Hughes, 520 North Street, Clinton, Ind.

Corpl. Charles T. Sierman. Mrs. C. A. Sierman, 952 Park Street, Hartford, Conn.

PRIVATES.

Alvin Bealer. Barton Z. Bealer, Mohnton, Pa.

Harry A. Cosgrove. Mrs. Agnes Cosgrove, 1717 West Columbia Avenue, Philadelphia, Pa.

Arthur Martin Drury. Mrs. William Drury, 417 Enterprise Street, Bowling Green, Ohio.

Alfred J. Garcean. Mrs. Matilda Leehan, 564 Newbury Street, Boston, Mass.

Ernest T. Goodnough. Mrs. Vernie Goodnough, 21 Duke Street, Dunsan Mill, Greenville, S. C.

Charles E. Hutton. J. R. Hutton, Rockville, Ind.

Harold C. Jolley. Armond Jolley, 505 Van Consant Street, St. John, Mich.

Albert Kainula. Henry Kainula, Gilbert, Minn.

Thomas M. Knight. Mrs. Lois E. Knight, Kimberly, Idaho.

Martin G. Lehman. Frank Lehman, 875 East Forest Avenue, Detroit, Mich.

Frank Jeremiah Long. Mrs. Catherine Worden, 346 South Street, Hagerstown, Md.

Gerald H. Lundegard. Mrs. Frieda Lundegard, 638 West Sixty-first Street, Chicago, Ill.

Frank A. Matson. Mrs. Ben Matson, Hatfield, Ark.

James Virgil Moran. Mrs. Lucy Lamons, 1319 Peerless Court, Louisville, Ky.

Palmer A. Roye. Harry A. Roye, Farmerville, La.

George N. Sebren. Samuel Dear, Crystal Springs, Miss.

William H Shellenberger. Thomas J. Shellenberger, 403 Morehead Avenue, Troy, Ohio.

John P. Sullivan. Mrs. J. J. Sullivan, 955 North Main St., Butte, Mont.

Joseph J. Thowlatch. Miss Ethel Thowlatch, 961 First Avenue, New York, N. Y.

Patsy Vance. Onofrio Vance, Dioni, Italy.

Ernest M. Wendell. Mrs. Emma Wendall, Houghton Lake, Mich.

William Whitehead. Mrs. Ellen Whitehead, Glenavon, Saskatchewan, Canada.

Missing in Action.

Lieut. Parr Hooper. H. Hooper, 1626 Bolton Street, Baltimore, Md.

Pvt. Joseph Maceira. John Puente, Animas Y. Crespo, Havana, Cuba.

Prisoner.

Lieut. Burr W. Leyson. Burr W. Leyson, 114 State Street, Boston, Mass.

Previously Reported Missing, Now Reported to have been Slightly Gassed and Now on Duty with Company.

Pvt. Edward M. Green. Mrs. Mary Green, 135 Farmington Avenue, Bristol, Conn.

JULY 5, 1918

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	5
Died of wounds	7
Died of disease	2
Died of accident and other causes	1
Wounded severely	3
Missing in action	5
Total	23

Killed in Action.

PRIVATES.

James J. Keogh. Miss Marie Keogh, 235 West Nineteenth Street, New York, N. Y.

Christopher Martin. Mrs. Mary Martin, 413 Anaconda Road, Butte, Mont.

Fred Slinker. Mary Brosz, Terry, Mont.

Roswell F. Steeves. Walter B. Steeves, 300 Hawthorn Avenue, Derby, Conn.

George Lawrence Zornes. Mrs. Trinnie Zornes, Kehoe, Ky.

Died of Wounds.

Sergt. John J. Herold, jr. Mrs. John Herold, 426 West Fortieth Street, New York, N. Y.

Corpl. Leon A. Baribault. Mrs. Ellen Baribault, 25 Cedar Street, Springfield, Mass.

PRIVATES.

Francisco Di Cresco. Mrs. Elizabeth Di Cresco, Sora, Italy.

John Dudala. Peter Dudala, Borccon, Russia.

Joseph Kotlyn. Mrs. Rose Kotlyn, 4710 Barkwell Avenue, Cleveland, Ohio.

Gottfred Schwemmer. G. Schwemmer, North Milwaukee, Wis.

Frank Smith Snyder. Thomas Snyder, Meadowbrook, W. Va.

Died of Disease.

Sergt. John W. Raezer. Mrs. Stella Buck, 105 Vinton Street, San Antonio, Tex.

Pvt. Orazio Zona. Giacamo Zona, Santa Sabba, Messina, Italy.

Died of Accident and Other Causes.

Pvt. Louie Bernstetter. Mrs. Mary Bernstetter, Fedora, S. Dak.

Severely Wounded.

Lieut, A. Mortimer Van Ostrand. Mrs. A. M. Van Ostrand, 508 Eighth Street, Lewiston, Idaho.

Pvt. Roy E. Lambert. Mrs. J. R. Rudd, Roseville, Cal.

Pvt. Carl A. Olsen. Ed. Olsen, Hartington, Nebr.

Missing in Action.

Lieut. Leonidas B. Faulk. Mrs. L. B. Faulk, 103 Arkansas Avenue, Monroe, La.

Pvt. Harold Deiters. Mrs. Kate Deiters, 568 Court Street, Brooklyn, N. Y.

Pvt. Mather De Saint Croix. Mrs. Vene De Saint Croix, Savannah, N. Y.

Pvt. Martin J. Hallinan. James Hallinan, 250 Schenectady Avenue, Brooklyn, N. Y.

Pvt. Willis E. Snowman. Mrs. C. S. Snowman, Blue Hill, Me.

Prisoner (previously reported missing).

Pvt. John L. Whalen. Mrs. Thomas A. Whalen, 59 Congreve Street, Rosindale, Boston, Mass.

NOTE.—Previously reported missing, now reported discharged to depot division for duty: Pvt. Robert S. Niver. Samuel Niver, 101 Hudson Street, Hartford, Conn.

Steel Men Confer With War Industries Board

The War Industries Board authorizes the following:

J. Leonard Replogle, chairman, and other members of a subcommittee on steel products were in conference to-day with a committee representing the American Iron & Steel Institute with a view to determining later the prices for various items of finished steel.

The representatives of the institute were: James A. Farrell, of the United States Steel Corporation; E. A. S. Clarke, of the Lackawanna Steel Co.; A. C. Kinley, of the Midvale Steel & Ordnance Co.; E. G. Grace, of the Bethlehem Steel Corporation, and John A. Topping, of the Republic Iron & Steel Co.

Costs and conditions of manufacture in various branches were discussed, particularly in steel rails, high speed tool steel and wire rope. The committee asked for further information which is to be submitted at another meeting next week.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

Additional List of American Prisoners and German Camps Where They Are Held

The War Department authorizes the following:

The following is a list of soldiers of the American Expeditionary Forces, whom it has been ascertained are now prisoners of war in Germany:

Name and camp.	Rank.	Emergency address.
LIMBURG.		
Johnson, Arthur F.	Corporal	Edward Johnson, brother, 75 East Main Street, Middletown, Conn.
Johnson, Arthur S.	Private	Mrs. Martha M. Johnson, mother, 377 Chapel Street, New Haven, Conn.
Markle, Clifford N.	do	Frank J. Markle, father, 358 Edgewood Avenue, New Haven, Conn.
HESEPE.		
Deming, R. M.	Captain	Mrs. Deming, 251 South Willard Street, Burlington, Vt.
Gordon, A. J.	Lieutenant	I. Gordon, 244 Mulberry Street, Newark, N. J.
RASTATT.		
Hunter, Philip W.	First lieutenant	Mrs. J. J. Hunter, 19 West Liberty Street, York, S. C.
DARMSTADT.		
Herdman, Burnett A.	Private	Mrs. Martha Herdman, 635 North High Street, Middletown, Conn.
BAYREUTH.		
Horton, J.	do	Not known.
Lehnckey, Effin [1]	do	Do.
McGrath, Edward	do	Mrs. Bridgett McGrath, mother, 242 State Street, New Bedford, Mass.

[1] Probably refers to Pvt. Effim Lehukey, emergency address, Jacob Rach, 936 North Franklin Street, Philadelphia, Pa.

RULING AS TO THE APPLICATION OF SOFTWOOD LUMBER PRICES

The War Industries Board authorizes the following:

Under date of July 2 the Price-Fixing Committee of the War Industries Board passed the following supplementary ruling as to the application of prices for softwood lumber:

Notice as to application of prices for softwood lumber affected by rulings of the Price Fixing Committee of the War Industries Board.

All lumber manufacturers and dealers are hereby notified that the present prices for soft lumber for mill shipment, as heretofore established or which may hereafter be established by the Price Fixing Committee of the War Industries Board, shall remain in effect during the period of time prescribed and that in no case must orders for lumber for mill shipment or reconsignment thereof be accepted, sold, or invoiced to any purchaser by either a manufacturer, dealer, or other person at a greater price per item than the maximum price fixed by the Price Fixing Committee of the War Industries Board, except where delivered prices are made to purchasers' destination points, in which cases freight may be added on the basis of standard weights for each item so priced, also except as to orders received or contracts made prior to the date of ruling of the Price Fixing Committee governing the producing territory involved.

The Price Fixing Committee has taken the position that cost figures presented by the Federal Trade Commission on which the Price Fixing Committee has based its rulings already include sales service to purchaser. So, in fact, in paying the price fixed in the ruling, the purchaser has already paid for this sales service. The purchaser or public should not be asked to pay any additional price to any vender offering mill shipments.

SENDING FUNDS AND FOOD TO WAR PRISONERS IN U. S.

The War Trade Board issues the following:

The War Trade Board has authorized persons in the United States to send foodstuffs, funds, clothing, and other articles of personal use to Germans or Austrians interned or held as prisoners of war in the United States by the War Department, provided that the consent of the War Department is first obtained and the regulations of the War Department are observed. This authorization applies only to persons held within the United States by the War Department. It does not apply to any prisoners of war held by the United States forces in foreign countries.

In accordance with this ruling (W. T. B. R. 158), hereafter persons desiring to send funds, foodstuffs, clothing, or other articles for personal use to interned aliens and prisoners of war in this country should apply directly to the War Department.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

FOOD ADMINISTRATION BEGINS CAMPAIGN TO UTILIZE GARBAGE

The Food Administration issues the following:

A campaign for the utilization of garbage has been inaugurated by the United States Food Administration, which is advising all State administrators to spread garbage utilization propaganda through their territory and urge upon housekeepers the necessity for keeping garbage (kitchen and table refuse) in a separate container from other house refuse.

Figures and statistics issued by the Food Administration show that in one ton of garbage there is sufficient glycerin to make the explosive charge for fourteen 75-millimeter shells, enough "fatty acid" to manufacture 75 pounds of soap, fertilizer elements to grow 8 bushels of wheat, and a score of other valuable materials essential in the manufacture of munitions.

It is also pointed out that 24 cities of over 100,000 are not utilizing garbage and that the combined population, which is estimated to be over 5,000,000, is wasting 4,400,000 pounds of nitroglycerin and 40,000,000 twelve-ounce cakes of soap, besides 60,000 tons of tankage which contains fertilizer elements sufficient to produce a 3,000,000-bushel wheat crop. The value of this loss of materials is estimated at $5,000,000.

Saving in 29 Cities.

In 29 cities where there are garbage utilization plants the figures show that a combined population of 18,000,000 people are utilizing these products, to the value of over $11,000,000 annually, and that a large percentage of this saving is being directly used by the Government in munition making. Plans are under way in several cities for the manufacture of alcohol on a large scale from garbage, and from experiments it has been shown that the grade of alcohol produced equals a high-grade grain product.

But in these 29 cities, or most of them, large amounts of garbage are destroyed by burning or made useless by being mixed with other wastes. This means that around 9,000,000 pounds of grease is lost, or sufficient to produce 1,300,000 pounds of nitroglycerin, which would furnish the powder charge of about 2,000,000 shells of the famous French "seventy-fives." In addition there is a loss of fatty acids sufficient to manufacture 25,000,000 twelve-ounce cakes of soap.

The fertilizer waste amounts to 1,250,000 pounds of nitrogen, 3,500,000 pounds of phosphate of lime, and 350,000 pounds of potash, or enough for the replacement of the elements removed from the soil by 1,000,000 bushels of wheat—in other words, a waste of 22,500 tons of fertilizer.

Keep the Garbage "Clean."

If in these 29 cities the garbage was "kept clean," or free from bottles, tin cans, crockery, and other foreign matter, the saving to the Government would be many million dollars more. The responsibility devolves upon the shoulders of the housewife, who is urged to see that nothing but garbage goes into the garbage pail. Other house refuse has a value, but its value is lost and the value of the garbage is lost if refuse and garbage are mixed.

GROWTH OF AMERICAN ARMY IN ONE YEAR REVIEWED IN DETAIL BY MR. BAKER IN LETTER TO CONGRESS COMMITTEE CHAIRMAN

Representative Dent has had inserted in the Congressional Record the following letter from Secretary of War Baker:

WAR DEPARTMENT,
Washington, June 28, 1918.

Hon. S. HUBERT DENT, Jr.,
Chairman Committee on Military Affairs, House of Representatives.

MY DEAR MR. DENT: I have received your letter of June 27 reminding me that just a year had elapsed since the first American troops were landed in France and suggesting that I furnish the Committee on Military Affairs of the House a summary of the development of the military establishment in the 15 months since Congress declared war against the Imperial German Government. Any such report might go into unlimited detail. I am happy, however, to have an opportunity to comply with your request, and will do so as fully as the compass of a letter will permit.

1. Since April 6, 1917, the Regular Army has increased from 5,791 officers and 121,797 enlisted men to 11,365 officers and 514,376 enlisted men; the National Guard in Federal service, from 3,733 officers and 76,713 enlisted men to 17,070 officers and 417,441 enlisted men; the Reserve Corps in actual service has increased from 4,069 enlisted men to 131,968 officers and 78,560 enlisted men; the National Army has been created, with an enlisted force of approximately 1,000,000 men.

The Army has increased in 14 months from 9,524 officers and 202,510 enlisted men to approximately 160,400 officers and 2,010,000 enlisted men.

The number of men in France or en route to France, including combatants, medical service, service for supply, and all the units which go to make up an entire army is on July 1 practically 1,000,000 men.

2. Supplies for soldiers: The size of this undertaking may best be seen by these typical purchases made by the Quartermaster Corps from the beginning of the war to June 15, 1918:

Hardware and metals.

Articles:	Quantity.
Hammers	2,567,000
Axes	5,121,729
Files	10,870,000

Vehicles and harness.

Articles:	
Halters	1,700,000
Escort wagons	129,000
Combat wagons	26,000

Animals.

Articles:	
Horses and mules	339,593

Clothing and material for clothing.

Articles:	
Shoes ——pairs	27,249,000
Boots, rubber, hip——do	2,340,000
Overshoes, arctic——do	4,010,000
Cotton undershirts	43,922,000
Denim cloth ——yards	103,028,000
Stockings, wool——pairs	104,333,000

3. Health of men in cantonments: The deaths per thousand, from all causes, in the Regular Army of the United States has been as follows:

1898	20.14
1900	7.78
1901	6.90
1916	5.13

The death rate per thousand among all troops—Regulars, National Army, and National Guard—in the United States for the week ending May 31 was 4.89, and for the week ending June 7, 4.14. The death rate for disease only among all troops in the United States for the week ending June 7 was 3.16, which is still lower than that of the preceding week (3.2), which was then the record low rate since that of November 2, 1917.

Hospitals in U. S. and France.

The bed capacity on June 5 in all department hospitals in the United States was 72,667. New construction now under way will provide for a total of 87,344 beds. The number of base and general hospitals in this country has increased from 7 to 72, and will be further increased. Vast hospital facilities have been organized and are being organized in France, providing beds numbering from 5 per cent to 10 per cent of the number of men in the American Expeditionary Forces.

Psychological examinations, of which more than 500,000 have been made, result in the weeding out of about one-fourth of 1 per cent of the men examined.

Nutritional surveys in 270 messes in 50 camps have resulted in a readjustment of rations and a conservation of food.

The number of officers in the Medical Corps has increased from 900 to 24,000; the number of enlisted men from 8,000 to 148,000. These figures, of course, are exclusive of the Sanitary Corps and of the Army nurses.

4. Transportation in France: With the completion of the organization of 5 new regiments and 19 battalions of railway engineers there will be over 45,000 Americans engaged in railroad construction and operation in France. Nine regiments of railway engineers have been in France since last August.

Railroads in France.

There have been produced for the railroad operations of the War Department in France more than 22,000 standard gauge and 60 C. M. freight cars and more than 1,600 standard gauge and 60 C. M. locomotives. In addition to this, purchases of both cars and locomotives have been made abroad.

A double line of railroad communication has been secured from the French by Army Engineers, extending from the coast of France to the battle front, including the construction of hundreds of miles of trackage for yards and the necessary sidings, switches, etc.

Production of Aircraft.

5. Aircraft production (training planes, bombing planes, combat planes, and guns therefor, and production of Liberty engines):

Deliveries of elementary training planes to June 8	4,495
Deliveries of advanced training planes to June 8	820

The average weekly production of advanced-training planes during April was 22; during May was 45½; week ending June 8 was 78.

To June 8, 286 combat planes were delivered. The weekly average of this type of machine in April was 5; in May, 38; and for the week ending June 8 was 80.

Six thousand eight hundred and eighty elementary-training engines were delivered to June 8; 2,133 advanced-training engines were delivered to same date.

More than 2,000 Liberty engines have now been delivered to the Army and the Navy. The average weekly production in April was 96; in May, 143; and in the first week of June 115.

Thirty-seven thousand two hundred and fifty machine guns were delivered for use on aeroplanes before June 8.

6. Rifles and ammunition: More than 1,300,000 rifles were produced in America and delivered between the declaration of war and June 1 of this year.

Deliveries of new United States model 1917, the so-called modified Enfield, have passed the million mark. In the two weeks preceding June 1 more than 66,000 rifles were delivered. Sufficient rifles are being received now to equip an Army division every three days.

Guns and Ordnance Supplies.

7. Ordnance supplies, artillery, Browning guns, etc.: As to machine guns, heavy Browning guns for instruction purposes are in every National Guard camp and National Army cantonment in this country where troops are in training. During May more than 900 of these heavy machine guns were delivered.

More than 1,800 light Browning machine guns were delivered in May.

Probably the most difficult undertaking in the outfitting of an army is the manufacture of heavy artillery. Not only are the forging and machining processes extremely difficult, but it has been necessary to create manufacturing facilities for a vast proportion of the program. Sixteen plants had to be provided for the manufacture of mobile artillery cannon. In practically all cases these plants had to be retooled, and in some cases they were built from the ground up. The same difficulty is met in the design and manufacture of artillery carriages, but the artillery program is now approaching a point where quantity production is beginning.

The first of four Government-owned shell-fitting plants has been completed and is beginning to produce. In addition, a number of private plants are at work loading shells.

Vast as were the privately owned facilities for the manufacture of powder and high explosives, the Government has provided additional facilities which are very much larger than those which private enterprise had created.

Ordnance engineers, it seems, are well on the way to a solution of the problem of the motorization of field artillery. The problem of motorization of light artillery has been a constant factor in slowing up the advance of troops to await the bringing forward of their supporting guns. Tractors have been used by all nations, of course, to haul heavy pieces along good roads, but they have been unable to develop tractors for hauling light pieces over shell-shattered ground. On June 3 the Ordnance Department demonstrated a 5-ton armored artillery tractor which proved capable of negotiating the most difficult terrain, hauling a 4.7 howitzer which weighed approximately 9,000 pounds.

Approximately $90,000,000 are being spent to provide for the manufacture of nitrates, which are essential in the manufacture of explosives, but which have heretofore had to be procured from Chile. The building of these plants will add to our powder output, will save large amounts of cargo space, and it is supposed after the war will produce nitrate for fertilizing American farms.

Port Facilities in France.

8. Port facilities in France: Among the most dramatic stories of the war is that of the development by American engineers and American enterprises of port facilities on the French coast. It is not permissible to say where this development has taken place, but the scope of it may be judged by the fact that it would be possible to handle during the month of July a maximum of 750,000 tons at the ports of the American Army in France.

It was necessary, before troops of the American Expeditionary Force could be landed, to send an organization of foresters into the woods of France, to send knocked-down sawmills after them, to cut down trees, to shape them into timbers, and to build them into docks in order that our troops might leave their ships. Fast as this work was and large as the flow of troops has been accelerated, the facilities for dockage have kept pace with the shipments of troops and supplies.

Morale of the Army.

9. Morale of the Army: Consensus of opinion is that drunkenness in the Army is completely under control, both in the United States and in France. Gen. Pershing states:

"As there is little beer sold in France, men who drink are thus limited to the light native wines used by all French people. Even this is discouraged among our troops in every possible way."

You may travel for weeks in France without seeing an intoxicated American soldier. In the Congressional Record on or about March 31 there is reprinted the statement of a journalist in France, beginning:

"Everyone is on the water wagon at the American front. During the past month I have been at the front daily and often twice a day, seeing thousands of American soldiers. In that time I saw exactly one man drunk and one other who was under the influence of liquor."

The Third Assistant Secretary of War, in 10 days at a National Army camp adjacent to Chicago, saw two men intoxicated.

There is no permanent military camp in the United States with a red-light district in its vicinity.

The Commission on Classification of Personnel reports that a surprisingly large proportion of recruits ask to be placed in the most hazardous branches of the military service. If a reply is needed to those who say that the men of the National Army are in camp because they have to be, it is this, that those same men are going over the top because they want to go.

Men Eager to Get to Front.

The desire among men in the military service to get to France and to the front is universal. The Secretary of War stated before the Senate Military Affairs Committee that he had seen grizzled men of the Army turn away from his desk to hide their tears when

(Continued on page 24.)

"COMRADES IN A GREAT CAUSE" PRESIDENT WILSON'S GREETING TO MEN WHO BUILT BIG FLEET

PRIDE IN JULY 4TH LAUNCHINGS

Chairman Hurley Also Telegraphs Congratulations to Workers at All Yards Over "Splash That Will Go Around the World."

The Shipping Board issues the following:

To every shipyard in the country Chairman Edward N. Hurley, of the United States Shipping Board, wired verbatim the following letter from the President:

THE WHITE HOUSE,
Washington, June 26, 1918.

MY DEAR HURLEY:

I am very glad to take part in celebrating the launchings of the Fourth of July, and beg that you will make use of the following message:

"I join with you in feeling the greatest pride in the diligence and skill and devotion which the men in the shipyards have exhibited in completing the fleet which is to be launched on the Fourth of July, and I hope that you will convey to them my congratulations and my pleasure in feeling that we are all comrades in a great cause.

"Cordially and sincerely yours,
"WOODROW WILSON."

Chairman Hurley's Telegram.

To every shipyard launching a vessel for the Emergency Fleet Corporation on July Fourth Mr. Hurley sent the following telegram:

"Our historic launching to-day is a new declaration of independence. It is great. Yet it is only America's stride. The big splash will go around the world. Your yard helped make it. Your employees are behind Pershing's men, behind the faith of France, the dogged courage of England, the vim of Italy. They will douse the Kaiser. After that these ships mean service to our neighbor nations ranged on democracy's side in Latin America. Thanks and hearty good wishes from Mr. Schwab and myself. Let us all go back Friday morning to work for greater records. I believe you will share our satisfaction in June figures of ships completed and delivered just compiled showing 262,900 tons steel ships, 17,500 tons wood ships. Total of 280,400 tons ships actually put in service during June.

"EDWARD N. HURLEY,
"*Chairman.*"

To Other Shipyards.

To every shipyard engaged in Emergency Fleet work but not launching on July 4 Mr. Hurley wired as follows:

"Our country is 142 years old to-morrow, but our new shipbuilding industry less than a year old. As we celebrate our first Fourth of July by a historic launching let us remember that it is the splendid American shipyard spirit which makes such results possible—the spirit of 1918. This is America's idealism and energy put behind the blow which will crush Prussian militarism. Mr. Schwab and myself desire to thank every ship worker for the enthusiasm that makes our new industry a mighty unit. We are just beginning to fight and the fleet we are building will win the war and assure us our place on the oceans. I believe you will share our satisfaction in June figures of ships completed and delivered just compiled showing 262,900 tons steel ships, 17,,500 tons wood ships. Total of 280,400 tons ships actually put in service during June.

"EDWARD N. HURLEY,
"*Chairman.*"

"All Hail American Shipbuilders!" Cables Pershing to Chairman Hurley, Referring to July Fourth Launchings

Chairman E. N. Hurley, of the Shipping Board, sent the following cablegram to Gen. Pershing:

JUNE 26, 1918.

"Not by delaying a single ship but by speeding to the utmost, the American shipyards will launch nearly 100 ships on July 4. On this one day, celebrating Nation's independence and backing up boys in the trenches the men in the shipyards will launch 450,000 deadweight tons, as much as was launched in six months last year. Your inspiring leadership of the American Army in France has thrilled the shipyard workers, and if the time comes when you need even the shipyard men over there, they will go to the last man. We want you and the boys in the trenches to know that the men in the yards are going the limit to provide in record-breaking time the ships that will carry more men, food, and munitions to the intrepid American Expeditionary Forces. A cablegram from you to be read in the shipyards July 4 will arouse increased enthusiasm."

This was the cabled reply from Gen. Pershing:

"The launching of 100 ships on the Fourth of July is the most inspiring news there has come to us. All ranks of the Army in France send their congratulations and heartfelt thanks to their patriotic brothers in the shipyards at home. No more defiant answer could be given to the enemy's challenge. With such backing we can not fail to win. All hail American shipbuilders.

"PERSHING."

14 NEW DESTROYERS LAUNCHED IN U. S. YARDS

The Navy Department was informed to-day that all of the 14 destroyers scheduled to be launched on July 4 took their maiden plunge according to program.

The destroyers were launched as follows:

Bethlehem Union Plant, San Francisco: The *McKean, Harding, Gridley, Williams, Crane, Hart, Ingraham,* and *Burns.*

Newport News Shipbuilding & Dry Dock Co., Newport News, Va.: The *Thomas, Haraden,* and *Abbot.*

William Cramp & Sons Shipyard, Philadelphia, Pa.: The *Upshur* and *Elliot.*

Bethlehem Shipbuilding Co., Fore River plant, Quincy, Mass.: The *Maury.*

Immediately after the launchings from the Bethlehem Union Plant at San Francisco the keels of eight additional destroyers were laid to take their places.

95 MERCHANT VESSELS ARE LAUNCHED BY AMERICAN YARDS

The Shipping Board authorizes the following:

Counting in 2 ships which stuck on their ways, 11 which had been held up by a sudden freshet on the Columbia River and whose crews had stood by until midnight hoping the flood would subside in time to get the ships overboard on the Fourth, and the 8 which, through tidal or other causes had been launched on the eve of the Fourth, the big splash, from reports so far received, represents a total of 95 ships with an approximate deadweight tonnage of 474,464, as against the 439,886 tons as had originally been announced.

The list comprises 42 steel ships of 287,464 dead-weight tons and 53 wooden vessels of 187,000 dead-weight tons.

It was at 2 o'clock this (Friday) morning that District Superintendent L. C. Wentworth telegraphed to Vice President Howard Coonley that the launching crews of the yards on the Columbia River had stood by until midnight and in readiness to launch 11 vessels which were ready for going down the ways but prevented by a sudden freshet. He asked that the 11 be included in the count of vessels launched, as only the suddenly swollen waters had prevented the launching. After hearing the circumstances Mr. Coonley decided that these should be included.

FIRST LOCOMOTIVE COMPLETED.

The Railroad Administration authorizes the following:

Director General McAdoo was to-day notified by the Baldwin Locomotive Works that the first one of the 1,415 locomotives recently ordered by the United States Railroad Administration has been completed and is ready for inspection.

The order for the 1,415 locomotives was divided between the Baldwin Locomotive Co., the American Locomotive Co., and the Lima Locomotive Works.

AMERICAN OFFICIAL COMMUNIQUES

(Continued from page 4.)

under heavy machine-gun fire. He was killed in action June 8, 1918."

SECOND LIEUT. ALTON P. WOOD, Infantry: "While on patrol in 'no man's land,' in the vicinity of Ancreville, on the night of May 3–4, 1918, he displayed great courage and devotion to duty in continuing to direct his men and after having been mortally wounded and refusing aid until he was assured of the safety of his men."

PVT. (FIRST CLASS) JOHN B. WALTERS, Infantry: "While a member of a patrol in 'no man's land,' in the vicinity of Ancreville, on the night of May 3–4, 1918, he displayed great self-sacrifice in refusing aid and continuing to do his duty after being mortally wounded."

SECOND LIEUT. WELLBORN S. PRIDDY, Infantry: "While in command of an important post near Badonviller, France, on May 26, 1918, he displayed, courage, judgment, and devotion to duty in heroically defending his position against a large force of the enemy, continuing to perform his duty after having been badly gassed. He has since died as a result of the gas poisoning."

SERGT. (FIRST CLASS) THERON DALRYMPLE, Engineers: "At Bois De Villers, France, on May 9, 1918, displayed heroic devotion to duty by rendering first aid assistance to the wounded, by handling his platoon under shell fire with coolness and courage, and by attempting to protect a comrade while he himself was mortally wounded."

PVT. FRANK P. VALLELY, Field Artillery: "At Coullemelle, France, on April 27, 1918, under a heavy bombardment, voluntarily went to the assistance of other soldiers who had been buried in a dugout by enemy shell fire, and was killed while engaged in this heroic action."

CAPT. KELLER E. ROCKEY, Marines: "At Chateau Thierry, France, on June 6, 1918, performed distinguished service by bringing up supports and placing them in the front lines at great personal exposure, showing exceptional ability and extraordinary heroism. He was indefatigable and invaluable in carrying forward the attack and organizing and holding the position."

CAPT. JOHN H. FAY, Marines: "At Chateau Thierry, France, on June 6, 1918, displayed extraordinary heroism when placing his machine guns in position, exposing himself fearlessly. He was in the fight at all times and encouraged his men by his utter indifference to danger, setting an example to all near him."

SURG. PAUL T. DESSEZ, Marines: "At Chateau Thierry, June 6, 1918, organized the service of caring for and evacuating the wounded in a most systematic and admirable manner, constantly exposing himself to the enemy, displaying extraordinary heroism, coolness, and energy."

PASSED ASST. SURG. RICHARD OBSHEA, Marines: "At Chateau Thierry, France, on June 6, 1918, displayed extraordinary heroism, treating the wounded while under heavy bombardment. He showed utter disregard of personal safety during the whole attack and after."

FIRST LIEUT. EDWARD B. HOPE, Marines: "At Cheateau Thierry, France, June 6, 1918, displayed coolness and courage in directing his platoon in attack, during which he was badly wounded, but refused assistance until wounded men near him had been treated."

SERGT. MAJ. CARL J. NORSTRAND, Marines: "Volunteered to rescue wounded men from the field swept by machine-gun fire and under fire of snipers. He continued this work, with the aid of other volunteers, until all had been rescued. This at Chateau Thierry, France, June 6, 1918."

MARINE GUNNER HENRY L. HULBERT, Marines: "At Chateau Thierry, France, June 6, 1918, displayed extraordinary heroism during attack on the enemy's lines, during which time he constantly exposed himself to the enemy's fire without regard for personal danger, thereby assuring the delivery of supplies."

GUNNER SERGT. CHARLES F. HOFFMAN, Marines: "At Chateau Thierry, France, June 6, 1918, displayed coolness and extraordinary heroism throughout the attack. During the counterattack of the enemy he, armed with a rifle, charged and routed a group of machine gunners."

SERGT. JOHN CASEY, Marines: "At Chateau Thierry, France, June 6, 1918, although wounded during the counter attack, remained with his group, refusing to go to the rear or to accept medical attention until assured that the enemy had retired and his men had properly dug in."

CORPL. ARNOLD D. GODBEY, Marines: "At Chateau Thierry, France, on June 6, 1918, volunteered to rescue wounded men from the field swept by machine-gun fire and under fire of snipers. He continued this work with the aid of other volunteers until all had been rescued."

CORPL. PRENTICE S. GREEN, Marines: "At Chateau Thierry, France, on June 6, 1918, when enemy counter attacked, his group having become isolated, he courageously charged the enemy with his bayonet and, with the assistance of his comrades, captured a machine-gun crew and repulsed the attack at that point."

PVT. JOHN KUKOSK, Marines: "At Chateau Thierry, France, on June 6, 1918, alone, charged a machine gun and with the utmost bravery captured it and its crew, together with an officer."

SERGT. JOHN H. CULNAN, Marines: "At Chateau Thierry, France, June 6, 1918, while assisting a wounded man to the rear, was himself wounded in the head, but carried out his mission, succeeding in bringing the other wounded man to the dressing station."

The commander in chief has also awarded the Distinguished Service Cross posthumously to the following: enlisted men of the Marines: GUNNERY SERGT. HAROLD TODD, GUNNERY SERGT. FRANCIS J. FLYNN, GUNNERY SERGT. ARTHUR J. RINDEAU, FIRST SERGT. WILLIAM HIGGINSON, FIRST SERGT. JOHN GRANT, FIRST SERGT. EDMUND T. MADSON, SERGT. JAMES J. GIVENS, SERGT. LUTHER W. PILCHER, SERGT. FRED T. LUKINS, SERGT. WILLIAM B. PARMLEY, CORPL. ROBERT McC. FISCHER, SERGT. STEPHEN G. SHERMAN, CORPL. CHARLES AUER, SERGT. VINCENT M. SCHWAB, CORPL. WILLIAM H. OTTO, SERGT. WILLIE JEFFRESS, CORPL. WILLIAM L. GRIFFEN, SERGT. JOHN W. ROGERS, CORPL. CHARLES W. HEWITT, JR., SERGT. BERNARD WERNER, CORPL. CHARLES E. PLATT, CORPL. WILLIAM HANSEN, CORPL. BENJAMIN T. STRIN, CORPL. MEARL C. ALEXANDER, CORPL. KARL W. LOKE, CORPL. FRANCIS J. DOCK, CORPL. GEORGE A. MINCEY. "Killed in action at Chateau Thierry, France, June 6, 1918, they gave the supreme proof of that extraordinary heroism which will serve as an example to hitherto untried troops."

FIRST SERGT. DANIEL A. HUNTER, Marines: "During the attack at Chateau Thierry, France, on June 6, 1918, he fearlessly exposed himself and encouraged all men near him, although he himself was wounded three times. He subsequently died of his wounds."

The successful attack made by our troops in the Chateau Thierry region on the evening of July 1 was carried out by two battalions of United States Infantry. The attack was preceded by a finely executed artillery preparation, which was executed by American batteries and lasted 12 hours. The Infantry action commenced at 6 o'clock in the evening. All objectives were gained and our positions consolidated inside of one and a half hours. The enemy's losses were exceedingly heavy, one of his regiments being practically annihilated. The enemy's positions were taken at the point of the bayonet. The amount of material captured was very large, and included considerable quantities or ammunition. At 3.45 in the morning the Germans counterattacked. Thanks to the thorough consolidations of the position which had been made the counterattack was repulsed with heavy losses to the enemy in killed and wounded. It also resulted in the taking by us of additional prisoners. The number of prisoners so far counted is over 500, and includes 6 officers. Our casualties were light, considering the success obtained.

In the Chateau Thierry region between June 29 and 30 there was con-

AMERICAN OFFICIAL COMMUNIQUES

siderable activity of various sorts, although no important developments took place. The German artillery was again aggressive, delivering much harassing fire during the morning hours. This was directed in part on our advance positions along the Belleau, Clerembauts, and Marette Woods, and was especially heavy on the right of our positions. Numerous points in our rear areas were also shelled. The fire was continuous rather than heavy. High explosives, shrapnel, and a small amount of gas were all employed. Besides delivering harassing fire the German batteries were obviously attempting to register on some of the roads in our rear. Our own batteries vigorously returned the fire and at one point registered directly upon a detachment of the enemy. The activity of the German airplanes, like that of the German artillery, was notable in being continuous rather than concentrated at any one time or place. More than the usual number of balloons were in evidence. One of the hostile planes was brought down by antiaircraft fire opposite the right of our sector and forced to land behind its own lines. Numerous groups of men passed frequently along the roads running between Givry, Epaux, Belleau, Bonnes, Grisolles, Etrepilly, le Tartre, and Plaisance. Wagons and trucks moved along the same routes singly and in large groups. Infantry activity on both sides was normal.

Along the Marne on June 28 and 29 the German artillery continued to deliver the scattered but fairly vigorous fire of the days preceding. On this day, however, the heaviest fire was on the left rather than on the right of our sector. On the other hand, our left sector still continued to draw most of the shrapnel. The shelling was confined mostly to the afternoon and evening, and on objectives identical with those previously reported. German machine guns were particularly quiet and there was little rifle fire. Hostile airplanes were also less frequently observed than has been usual during the past fortnight. Behind the German lines men were seen strolling about in the usual fashion.

In the Colmar sector the day of June 29 passed quietly. The German Infantry delivered some scattering machine gun and rifle fire and made use of a few hand and rifle grenades. During the night German patrols were observed on several occasions, two of them coming under our rifle and grenade fire. There were no encounters and no serious attempts to reach our lines. The German artillery delivered only light and scattered fire with guns mainly of medium caliber. His airplanes appeared only at rare intervals and were in nearly every case driven back by our antiaircraft batteries. They were engaged mainly in reconnaissance work, but made some attempt to regulate the artillery fire. Behind the German lines the haymaking, in which women play an increasingly large part, continued, but neither in the matter of circulation nor in the construction of works did anything of note occur.

In the Mulhouse sector there was no unusual occurrence on June 29 apart from the increased activity on the part of the German air forces. Late in the afternoon an air combat occurred and one of the German machines was seen to descend in an apparently crippled condition. Light artillery fire, the throwing of a few grenades on our wire, with normal rifle fire, and the ordinary circulation in the German rear areas comprised the other activities of the day.

American Official Communique, No. 50.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 3, 1918.

Section A.—Northwest of Chateau Thierry there has been intense artillery activity on both sides. In the Vosges three raiding parties which attempted to reach our lines were repulsed and suffered severely from our fire.

Section B.—Northwest of Chateau Thierry the day of June 30 to July 1 was occupied by our troops mainly in preparation for the attack made during the evening of July 1 on Vaux. The preparation consisted in continuous and heavy harassing fire from our batteries commencing at 5 o'clock in the morning. The German artillery, on the other hand, was somewhat less active than on the preceding day. Its operations took the form of harassing and registration fire which fell mainly on the Marette wood, le Thiolet, la Croisette, Bourbelin, the Paris road, Triangle farm, la Cense farm, the Belleau wood, Bouresches and La Voie du Chatel. Shortly after 5 o'clock in the afternoon the enemy's fire on Menneaux, Hill 204, our lines of Belleau wood, and our positions in the vicinity of Bouresches became heavy. The German infantry increased its machine gun, rifle and grenade fire, especially from the region of Hill 204 and Vaux. Otherwise, there was no unusual activity until after the commencement of our attack, when the circulation of troops and vehicles in the German rear areas greatly increased.

Of the numerous prisoners taken in and around Vaux July 1 to July 2, one gave especially interesting information regarding the German counter attack. The main points of his story were as follows: At 4.30 o'clock on the afternoon of July 1 his battalion, while drilling in a rear area, suddenly received the order to fall in with marching equipment. At 7 o'clock they left camp and proceeded by the Chateau Thierry, Paris road and other minor roads through Vincelles to a point about 700 yards from Vaux. There they lay in readiness for the counter attack which was scheduled to take place at 3.15 o'clock. So heavy was the artillery fire on both sides, however, that it was impossible for them to advance until 3.45 o'clock. The counter attack was performed by groups of eight men deployed in skirmish line and immediately followed by other groups of which each carried two light machine guns. After several attempts to go forward they were stopped by our machine-gun fire. Their platoon leader asked for reinforcements before attempting to go forward, but reinforcements were refused and a continuation of the attack ordered. He next sent word that his platoon was receiving flanking fire from two machine guns and could make no progress. Once again he was ordered to attack under all circumstances but his men now refused to obey. Another platoon came up, deploying on the left of the first, but this, too, was decimated by our fire. Finally the men received orders to save themselves as best they could. They then took refuge in a cellar where 50 or 60 of them surrendered shortly before 6 o'clock.

On the day of June 29–30 the German artillery along the Marne did not maintain the activity shown on the day previous. The fire, which was mainly from guns of small caliber, was distributed almost impartially along the sector. A few gas shells were noted, this being the first occasion that gas has appeared in this sector for some time. German airplanes again showed moderate activity. Behind the German lines isolated and individual groups were seen here and there, a few of the men riding bicycles. During the night there was a plentiful display of red and white rockets of from one to four stars each, in connection with the usual hanging ropes.

In Picardy, between noon June 29 and noon of the 30th, there were no notable occurrences except the activity of the enemy's airplanes. His combat planes were more aggressive than usual and several fights ensued, in the course of which one German plane was brought down. A few bombs were again dropped by German machines during the night, falling on this occasion on our front lines. The total number of German planes was, however, distinctly below the average. The hostile artillery fire was light, consisting of slight harassing fire in our rear areas with short concentrations at Grivesnes, the Villers wood, and other points. Very little gas was used. In the German rear areas nothing of particular note was observed except that a party of 40 to 50 Germans came under our rifle fire while moving in the vicinity of Fontaine wood. They were scattered and put to flight. During the morning a propaganda balloon came down inside our lines.

The food YOU waste to-day may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

Make This "The First Independence Day for All Peoples," President Wilson's Fourth of July Message to the Nation

A FOUR-MINUTE Independence Day address by the President was read by Four-Minute Men yesterday to patriotic community meetings in 5,300 communities in every part of the United States. The message was as follows:

You are met, my fellow citizens, to commemorate the signing of that Declaration of Independence which marked the awakening of a new spirit in the lives of nations. Since the birth of our Republic, we have seen this spirit grow. We have heard the demand and watched the struggle for self-government spread and triumph among many peoples. We have come to regard the right to political liberty as the common right of humankind. Year after year, within the security of our borders, we have continued to rejoice in the peaceful increase of freedom and democracy throughout the world. And yet now, suddenly, we are confronted with a menace which endangers everything that we have won and everything that the world has won.

In all its old insolence, with all its ancient cruelty and injustice, military autocracy has again armed itself against the pacific hopes of men. Having suppressed self-government among its own people by an organization maintained in part by falsehood and treachery, it has set out to impose its will upon its neighbors and upon us. One by one, it has compelled every civilized nation in the world either to forego its aspirations or to declare war in their defense. We find ourselves fighting again for our national existence. We are face to face with the necessity of asserting anew the fundamental right of free men to make their own laws and choose their own allegiance, or else permit humanity to become the victim of a ruthless ambition that is determined to destroy what it cannot master.

Against its threat the liberty-loving people of the world have risen and allied themselves. No fear has deterred them, and no bribe of material well-being has held them back. They have made sacrifices such as the world has never known before, and their resistance in the face of death and suffering has proved that the aim which animates the German effort can never hope to rule the spirit of mankind. Against the horror of military conquest, against the emptiness of living in mere bodily contentment, against the desolation of becoming part of a State that knows neither truth nor honor, the world has so revolted that even people long dominated and suppressed by force have now begun to stir and arm themselves.

Centuries of subjugation have not destroyed the racial aspirations of the many distinct peoples of eastern Europe, nor have they accepted the sordid ideals of their political and military masters. They have survived the slow persecutions of peace as well as the agonies of war and now demand recognition for their just claims to autonomy and self-government. Representatives of these races are with you to-day, voicing their loyalty to our ideals and offering their services in the common cause. I ask you, fellow-citizens, to unite with them in making this our Independence Day the first that shall be consecrated to a declaration of independence for all the peoples of the world.

July Fourth This Year More Than Holiday; Is International Holy Day

BY ROBERT LANSING, SECRETARY OF STATE.

This year the Fourth of July is more than a national holiday; it is an international holy day. While we rejoice over liberty achieved for our country, we should consecrate ourselves to the defense of that liberty which is imperiled by Prussian militarism. The flags displayed, the patriotic demonstrations, and the words of the Declaration of Independence have a new and more profound meaning, which kindles in our hearts a consuming flame of loyalty and service and sacrifice.

On this day of glorious memories America with stern will and unalterable purpose rededicates her all to liberty and looks into the future with supreme faith that God will crown with victory the cause of the nations arrayed against autocracy.

The Promise and Augury Given of "Independence Day for all Mankind"

BY NEWTON D. BAKER, SECRETARY OF WAR.

When the Imperial German Government undertook to dominate the world by the power of military conquest it brought a new challenge to the United States of America. We had learned, under Lincoln, that this Nation could not endure "half slave and half free." The aggressions of Imperial Germany have warned us that the world can not continue "half slave and half free"; that we can not preserve our peace and freedom unless we help to bring peace and freedom to the other peoples of the earth; that we can not maintain our own rights and liberties if we allow even little Belgium to be deprived of hers.

In that sense this Independence Day of 1918 is the promise and augury of an Independence Day for all mankind. We are fighting for our own national life, but the victory in which we share will save the life of democracy in Europe and in Africa and in Asia no less than in America. We have declared for the self-determination of all peoples, for their freedom and independence. And on this Independence Day we celebrate that declaration as much as ours of 1776.

American People's Fresh Baptism of the Spirit of Sacrifice for Liberty

BY JOSEPHUS DANIELS, SECRETARY OF THE NAVY.

The American people have had a fresh baptism of the spirit of sacrifice for liberty which enabled the men of '76 to make the Declaration of Independence the decree of a powerful nation. They have entered this war to aid in insuring to peaceful peoples freedom from conquest, and they will not lay down the sword until the menace of militarism is lifted from mankind. The men who have given their lives on land and sea in this glorious adventure will forever shine in the Republic's firmament, and we have highly resolved they shall not have died in vain. Out of the tragedy of war the steady light of peace, guaranteed by a league of all free nations, will illumine the world.

Americans at Home and Those in France Given New Inspiration

BY GEN. PEYTON C. MARCH, CHIEF OF STAFF.

The Fourth of July is a symbol of freedom to all Americans. It represents the establishment on this continent of a government by the people, the outcome of a war where men sacrificed their lives and their fortunes in order that their destinies should not be controlled by autocracy.

On this Fourth of July we find the whole Nation mobilized for war in order that the freedom gained by our forefathers should not be wrested from us by a ruthless and despotic monarchy. Americans in France and Americans at home will to-day receive new inspiration,

(Continued on page 13.)

COAL PRICES ESTABLISHED FOR CERTAIN WEST VIRGINIA MINES

The United States Fuel Administration issues the following orders:

Applications having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined in the counties of Hancock, Brooke, Ohio, and Marshall, in the State of West Virginia, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1918,

Hereby orders and directs that bituminous coal mined in the counties of Hancock, Brooke, Ohio, and Marshall, in the State of West Virginia, may be sold at prices, f. o. b. cars at the mine, not to exceed $1.90 per net ton for run of mine, $2.15 per net ton for prepared sizes, $1.90 per net ton for slack or screenings, plus the 45 cents allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., June 29, 1918.

The United States Fuel Administration hereby orders and directs that bituminous coal mined in the county of Mason, in the State of West Virginia, may be sold at prices f. o. b. cars at the mine not to exceed $2.35 per net ton for run of mine, $2.60 per net ton for prepared sizes, $2.10 per net ton for slack or screenings, plus the 45 cents allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., June 29, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Calls Nurses to Enroll for War Service and on Women to Train for Nursing

The Red Cross issues the following:

Dr. Anna Howard Shaw, chairman woman's committee, Council of National Defense, calls on nurses to enroll for service in the Army and the Navy, on women to train themselves for nursing, and on the public to economize in the use of nurses, in the following letter:

COUNCIL OF NATIONAL DEFENSE,
Washington.

Miss JANE A. DELANO,
American Red Cross,
Washington, D. C.

MY DEAR MISS DELANO: The information that a definite campaign for the purpose of securing Red Cross nurses is to be launched is exceedingly timely.

The news from the field of battle, where our splendid young soldiers are sacrificing life, and more than life—the agony of years of suffering, disappointment, and incapacity for future usefulness in defense of all that we, as Americans, hold dear—is a clarion call to young women to answer their call with service for service, sacrifice for sacrifice, and show themselves worthy of such loyalty and patriotism in volunteering by the thousands to prepare for hospital service, either at home or abroad, that our men may receive every possible care which women can render to prove our gratitude for all they have suffered and will suffer for us and for our country.

There is no greater patriotic service which the young, strong, and enthusiastic young women who are graduating from our colleges and high schools can render their country than to care for our wounded men. It is a service requiring intelligence, patience, and unfaltering courage; the kind of service that will do for our splendid young women what the drill and order and hardship of field service is doing for our men, and will make them fit comrades and coworkers with them when the time for the reconstruction of our national life comes after the war is ended.

This call of duty is not alone to our young women to prepare for service, but to the people everywhere to economize in the use of professional nurses except in cases of serious illness. The war has so drawn upon the nurses of the country that there are not half enough for serious home cases, and they should be employed in no other. Every household should care for its own sick so far as is consistent with the health of the community.

Call to Young Women.

The call from our brave men to our brave young women is: "Prepare to care for us when we come back from the field battle torn and shattered." And to the families everywhere: "Economize in the use of nurses; fit yourselves to care for home needs, and send to us at once the nurses already trained; we need them that we may be healed to go back to the front and fight until we win a conclusive peace for you, ourselves, and for the world."

Faithfully,

ANNA H. SHAW,
Chairman Woman's Committee,
Council of National Defense.

OFFICIAL WAR PHOTOGRAPHS.

Catalogue Prepared by Picture Division, Committee on Public Information.

A catalogue of the official war pictures collected by the picture division of the Committee on Public Information has just been issued and is now ready for distribution to the public. The "official" pictures listed in the catalogue include photographs taken by the Signal Corps of the Army, the Navy, Marine Corps, and other branches of the American service, and also photographs taken by the French and Belgian Governments. Photographic prints of the pictures on heavy paper and ready for framing or insertion in albums are now on sale at 10 cents each. Stereopticon slides of finest workmanship, standard size, and suitable for the use of teachers and lecturers, are for sale by the committee at 15 cents each.

For further information in regard to these photographs address the Division of Pictures, Committee on Public Information, 10 Jackson Place, Washington, D. C.

(Continued from page 12.)

from the recollection of what this day means to us, to pursue this war to a victorious conclusion. Free men all over the world are to-day united under one standard and are animated by one idea, never to be enslaved by any nation, and for this idea they will gladly die; and in this fact lies our assurance that Germany can never win.

U. S. Soldiers in France "Renew Pledge of Fealty and Devotion to Nation"

BY GEN. JOHN J. PERSHING.

On this anniversary of our independence the officers and men of the American Expeditionary Forces on the battle fields of France renew their pledge of fealty and devotion to our cause and country. The resolve of our forefathers that all men and peoples shall be free is their resolve. It is quickened by sympathy for an invaded people of kindred ideals and the war challenge of an arrogant enemy. It is fortified by the united support of the American people.

Facing Question Whether Freedom Shall Continue to Exist in the World

BY SECRETARY OF LABOR WILSON.

With the exception of the Fourth of July, 1776, this Fourth of July is the most significant in the history of the Republic. In the 141 anniversaries which we have hitherto celebrated we have been concerned with the question of preserving and perpetuating liberty in the United States. On this fateful day, for the first time in our annals, we are face to face with the question whether freedom, as we understand it, shall continue to exist in the world, or whether the feudalism which we once deemed obsolete shall be reimposed upon mankind. All other issues are extraneous; all other considerations of slight account. The die has been irrevocably cast. If the tide of battle could be adverse it would mean that for many years the best hopes of humankind would come to disappointment or to naught. In that reflection lies the inspiration of the war, because it is inconceivable that this great and invincible Nation, in alliance with the liberated peoples of the world, can fail in the struggle wherein all the accomplishments of human progress are at stake. The vision of this people is now a world vision, and, as the result of our triumphant destiny, Europe, Asia, and all the continents of the earth will rejoice in the extended blessings of liberty, and we ourselves enjoy a greater and a better freedom than we have ever known. The ages made us, and the ages wait us!

War Industries Board Issues New Scale of Maximum Prices for Long and Short Leaf Virginia and Carolina Pines

The War Industries Board authorizes the following:

After considering information submitted by the Federal Trade Commission and representatives of the industry as to cost of manufacture, the price fixing committee of the War Industries Board has determined by agreement with the representatives of the industry upon a new scale of maximum prices for long and short leaf pine lumber produced in Virginia and North and South Carolina. These prices are effective beginning at midnight, June 28, 1918, and apply to all purchases of lumber for mill shipment.

One Price to Government and Public.

The list contemplates the delivery of lumber of comparable grades to New York City on approximately the same basis as in the list published for southern pine, except as to box grades, which are somewhat higher. The prices to the Government show virtually the same increase as did the prices on southern pine. This means that there will be one price for the Government and the public, the Government paying considerably more than it did formerly and the public less.

The prices named in the new list are on the basis of delivery to Norfolk, Richmond, and other Virginia gateways and include freight charges to those points.

The agreement provides that all contracts for lumber shall be subject always to an option in favor of the United States Government and any nominee of the War Industries Board. It provides also for the maintenance of production and the present scale of wages.

Text of the Agreement.

The text of the agreement follows:

Maximum Mill Base Prices for Long and Short Leaf Pine Lumber Produced in the States of Virginia and North and South Carolina.

Prices of all long and short leaf pine lumber in the States of Virginia and North and South Carolina shall not exceed the item prices named on attached list. These prices are for long and shot leaf pine lumber delivered (freight allowed) to Norfolk, Richmond, and other Virginia gateways. For shipments to destination points north of and beyond these gateways these prices are for such portion of freight allowed to destination points as will equal shipments originating in above gateways. For shipments to destination points south of these gateways the f. o. b. cars mill or f. o. b. vessel rail-mill prices shall be $2.50 per thousand less on each item than prices named on attached list.

Prices Not Covered in List.

Prices on items not covered by above list shall be priced on basis of nearest comparable item.

The usual trade practices shall continue, including cash discounts to be applied to the United States Government purchases as well as all others, except that in commercial transactions, where purchasers do not avail themselves of the cash discounts, the accounts may be converted into trade acceptances, which do not bear interest before maturity.

The custom of delivered prices of lumber to purchasers' destination points shall remain unchanged.

Contracts for the sale of lumber entered into in good faith prior to midnight, June 28, 1918, and enforceable at law, will be performed in accordance with their terms, subject, of course, to orders received from the Government, which may require priority.

It is imperative that, with the least possible disruption of the industry, the vast war needs of the Government, both direct and indirect, for long and short leaf pine lumber from Virginia, North and South Carolina be supplied on a fair basis; that an adequate supply and equitable distribution thereof be assured for essential commercial needs; that the movement thereof be facilitated; and that injurious speculation therein be prevented. Therefore, the procedure outlined below, by agreement with the representatives of the manufacturers of long and short leaf pine lumber from above-mentioned States, has been adopted for a period of three months beginning midnight June 28, 1918.

Procedure for Manufacturers.

The procedure is that each manufacturer of long and short leaf pine lumber in Virginia and North and South Carolina shall—

(1) Make contracts and accept orders for his product at prices not in excess of the applicable maximum prices, always subject to an option at the applicable maximum prices in favor of the United States or the nominee of the War Industries Board. Under this option, which will cover all long and short leaf pine lumber from above-mentioned States down to actual delivery to the purchaser, the War Industries Board to any extent required will allocate either to the Government or to other essential users. Any balance not so allocated will be released for sale to commercial buyers, but at prices no greater than those determined upon as above set forth.

(2) Comply with the directions of the War Industries Board, as issued from time to time, with reference to filling commercial requirements in the order of their public importance and to furnishing such information and making such reports as may be required.

Maximum Prices for North Carolina Pine.

These prices are for long and short leaf pine lumber delivered (freight allowed) to Norfolk, Richmond, and other Virginia gateways. For shipments to destination points north of and beyond these gateways these prices are for such portion of freight allowed to destination points as will equal shipments originating in above gateways. For shipments to destination points south of these gateways the f. o. b. cars mill or f. o. b. vessel rail mill prices shall be $2.50 per thousand less on each item than prices named on attached list.

Effective June 28 to and including September 28, 1918:

	No. 1.	No. 2.	No. 3.	No. 4.	Cull.

6/4 x 12 inches, random	54.50	52.50	44.00	38.50
8/4 x 4 to 12 inches, random	42.50	47.50	41.00	.....
8/4 x 6 inches, random	50.50	48.50	41.00	.....
8/4 x 8 inches, random	51.50	49.50	41.00	.....
8/4 x 10 inches, random	52.00	50.00	41.00	.....
8/4 x 12 inches random	53.50	51.50	44.00	.....
Molded casing and base.				
From 1 x 4, 6 and 8 inch stock	50.00	47.00	.....	.....
From 1 x 5 and 10 inch stock	52.00	49.00	.....	.....
Jambs from 4/4-inch stock	50.00	47.00	.....	.....
Jambs from 5/4, 6/4 and 8/4 inch stock	53.00	50.00	.....	.....

The above prices are for S2S finish: for S4S add 50 cents per thousand feet.

For specified lengths add $1 per thousand feet; for rough, deduct 50 cents per thousand feet.

Moldings: 1⅛ inches width and smaller, 52 per cent discount; 1⅜ inches and wider, 47 per cent discount.

(3) Keep up to the best of his ability the production of long and short leaf pine lumber in Virginia and North and South Carolina, so as to insure an adequate supply so long as the war lasts.

(4) Neither reduce the scale of wages now being paid nor change fundamental labor conditions now in force.

Apportioning Car Supply.

The Government will apportion the car supply available for lumber and arrange for its transporation, subject to allocation by the War Industries Board as aforesaid, to the end that injury to the industry due to abnormal war-time conditions be neutralzed so far as may be.

Foreign trade, except to the Governments of nations associated with us in the present war, is not to be affected by this ruling.

Boards.

Nos. 3 and 4 bark strips and miscuts, Slor2S	.....	.....	24.00

For 1-inch No. 3 and No. 4 in specified lengths add 50 cents, except 16-foot add $1; rough, 50 cents less than S2S; S4S, D&M, or shiplap add 50 cents to S2S prices. For resawing add $1 per thousand.

No. 1 and No. 2 bark strips, when worked to partition, add to above S2S price $2 per thousand feet; boards when ordered kiln dried, add $1 per thousand feet.

(Continued on page 15.)

Operation of "Work or Fight" Order Explained by Provost Marshal General

The Provost Marshal General authorizes the following:

Provost Marshal Gen. Crowder, in an interview, commenting on the "work or fight" regulation, which took effect July 1, called attention to the occasional misconception of its scope. It applies only to men between the ages of 21 and 30, viz., the ages covered by the selective-service law, and thus made liable to draft for military service. Gen. Crowder said: The widespread and instant popular approval of this regulation has been emphatic. But its scope should not be misunderstood, as occasionally it is found to be. It is primarily a military measure and was promulgated under the selective-service act, which places under liability for immediate military service all qualified men between the ages of 21 and 30. It does not affect men outside of those ages, and therefore does not affect industry at large.

Setting Free the Fighters.

The Army and Navy are taking the men who are best able physically to do the fighting. But that is only one part of the national task imposed by the war. The other part, the part that falls on the other men, is to set free these men who are to do the fighting. Every man who helps to set free a fighting man is helping to fight and win the war.

And it is every man's duty to give that share of help. That duty to work, and to work effectively, is the foundation of the new measure. "Work or fight." There is no other alternative.

Now, many of the men of draft age in deferred classes 2, 3, and 4, deferred, that is, on grounds of dependency, are not engaged in effective industry. The spectacle is not a satisfying one of a contingent of drafted men from Class 1 being marched down the street to camp while other men of their own age, watching them from the windows, remain behind to sell cigarettes or dispense soda-fountain drinks, solely because they have received deferment on grounds of dependency. If these men of the same age are to stay behind let them at least get into work more effective to help the war. Their deferment takes them out of military service and yet serves no economic war purpose whatsoever. They are of military age, and therefore have the primary duty to do war work. If their dependency gives them deferment from immediate military war work, let them at least do something economically useful to maintain the Nation's welfare while at war. They should get into some useful and effective occupations or else forfeit their deferment from military service. The alternative is a fair one.

Persons Outside Draft Age.

This regulation, therefore, does not affect any person outside of draft age, except indeed that it will offer him more opportunities of employment than before. The place left vacant by the men within draft age will now be filled by men of older or younger ages and by women. The limited list of noneffective employments was in part selected with a view to this very fact that the work in those occupations could as well be performed by older or younger men or by women. These men who are of military age will either go into military service or will go into occupations more necessary for the national welfare, where there is an unfilled demand for additional man power. They will be replaced, to the extent that they need replacing, by the others not liable to military service.

Natural and Logical Consequence.

This is a natural and logical consequence of the vast withdrawals for the Army. Nearly three million men are said to have gone into camp or into the Navy. It is a simple and obvious fact that if the Army is to be a national one in the fullest sense, the places left vacant by the fighters stepping forward out of the ranks of civic industry must be filled by new workers, and the places vacated by them must be in turn filled by still others, and so on, until the ranks have been closed up and the whole man power has been utilized in replacements.

The need is insistent and the demand is universal for systematic, Nation-wide organization of the man power that is now either idle or noneffectively employed.

(Continued from page 14.)

Dimension.

	10, 12, 14, and 16 feet.	18 and 20 feet.	22 and 24 feet.	Random.
2 x 2, S1S1E	$31.00	$33.00	$34.50	$30.50
2 x 3, S1S1E	29.50	30.50	32.00	29.00
3 x 4, S1S1E	30.00	32.00	33.50	29.50
2 x 6, S1S1E	28.50	29.50	31.00	28.00
2 x 8, S1S1E	29.50	31.50	33.00	29.00
2 x 10, S1S1E	30.00	32.00	33.50	29.50
2 x 12, S1S1E	32.00	33.50	35.00	31.50

Dimension when ordered kiln dried, add $2 per thousand feet.

Dimension D&M or shiplap, add $1 per thousand to S1S1E prices; rough 50 cents less than S1S1E prices; S4S add 50 cents per thousand to S1S1E prices; for dimension over 24 feet add $1 for each 2 feet up to 32 feet.

NOTE.—All lumber not over 2 inches thick when ordered in odd or fractional lengths will be invoiced as of next longer length in multiples of 2 feet.

Timbers.

	10 to 20 feet.	22 and 24 feet.	26 feet.
3 x 4 and 4 x 4	$33.00	$34.00	$35.00
3 x 6 to 8 x 8	32.00	33.00	34.00
3 x 10 to 4 x 10	36.00	37.00	38.00
5 x 10 to 10 x 10	35.00	36.00	37.00
3 x 12 to 5 x 12	38.00	39.00	40.00
6 x 12 to 12 x 12	37.00	38.00	39.00
3 x 14 to 5 x 14	43.00	44.00	45.00
6 x 14 to 8 x 14	42.50	43.50	44.50
10 x 14 to 14 x 14	42.00	43.00	44.00

	28 feet.	30 feet.	32 feet.
3 x 4 and 4 x 4	$36.00	$37.00	$38.00
3 x 6 to 8 x 8	35.00	36.00	37.00
3 x 10 to 4 x 10	39.00	40.00	41.00
5 x 10 to 10 x 10	38.00	39.00	40.00
3 x 12 to 5 x 12	41.00	42.00	43.00
6 x 12 to 12 x 12	40.00	41.00	42.00
3 x 14 to 5 x 14	45.00	47.00	48.00
6 x 14 to 8 x 14	45.50	46.50	47.50
10 x 14 to 14 x 14	45.00	46.00	47.00

Add for timbers over 14 inches $3 for each 2 inches over 14 inches.

Add for timbers over 32 feet $1 for each foot over 32 feet.

Prices above are for short-leaf dimension, rough; for better qualities and various working apply the following differentials: For long-leaf No. 1 common add $2 per 1,000 feet; for merchantable, 10 inches and smaller, add $3 per 1,000 to No. 1 long-leaf price; for merchantable, 12 inches and larger, add $2 per 1,000 to No. 1 long-leaf price; for prime rule of 1905 add $5 to No. 1 long-leaf price. Add for dressing $1 per 1,000 feet; add for tongue and grooved or shiplap $2 per 1,000 feet; add for grooving $3 per 1,000 to dressed-price stock 3 and 4 inches thick; add for grooving $5 per 1,000 to dressed-price stock 5 inches and thicker; add for beveling and outgauging $2 per 1,000 feet to dressed prices.

NOTE.—All timber when ordered in odd or fractional lengths will invoice as of next longer length a multiple of 2 feet.

SURVIVORS OF ROCKEFELLER COMMENDED FOR BEHAVIOR

The Committee on Public Information issues the following:

Secretary Daniels has commended the following-named survivors of the U. S. S. *William Rockefeller* for their excellent behavior and devotion to duty at the time that vessel was sunk by a torpedo on the night of May 18, 1918:

Huston, Myron Ellsworth, gunner's mate, first class, U. S. N.

Burke, Raymond Patrick, seaman, second class, N. N. V.

Martin, Carl Cecil, seaman, U. S. N.

Kasper, Ladislavs Joseph, seaman, U. S. N.

Mimms, Sam, jr., seaman, U. S. N.

Mulligan, Arthur James, seaman, second class, U. S. N.

Burch, William Earl, seaman, U. S. N.

Schroeder, William Henry, seaman, second class, U. S. N.

Moorhead, John Robert, gunner's mate, third class, U. S. N.

The commanding officer of the *William Rockefeller* reports that the first eight men above named, who comprised the crew of No. 1 gun, remained at their stations until the ship was so far down at the stern end that the guns could not be manned, and that John Robert Moorhead, gunner's mate, third class, U. S. N., went to the magazines, opened them, and stood by until called, to see that ammunition was sent to the guns.

Records of the Men.

Huston enlisted at San Francisco, Cal., February 27, 1917; father, George Cobern Huston, Gault, Mo.

Burke enlisted at Boston, March 29, 1917; next of kin, friend, Mrs. Margaret Lomasmy, Boston.

Martin enlisted at Minneapolis February 16, 1917; mother, Hannah Martin, Two Harbors, Minn.

Kasper enlisted at Cleveland, Ohio, April 11, 1917; father, Joseph Kasper, Cleveland.

Mimms enlisted at Dallas, Tex., March 24, 1917; father, Samuel Mimms, Dallas.

Mulligan enlisted at Lowell, Mass., April 23, 1917; mother, Margaret Mulligan, Lowell, Mass.

Burch enlisted at Washington, D. C., August 10, 1917; father, Jubal Alexander Burch, Washington.

Schroeder enlisted at Cincinnati, December 13, 1917; father, Henry Schroeder, Cincinnati.

Moorhead enlisted at Atlanta, Ga., December 30, 1915; mother, Eugenia Moorhead, Hartwell, Ga.

War Industries Board Reaffirms Policies Regarding New Building Construction When Not Contributing to War Activities

The War Industires Board authorizes the following:

In order to correct the apparently widespread misapprehension of its position with reference to new building construction that does not contribute directly or indirectly to the war needs the War Industries Board authorizes this restatement of its attitude.

It is becoming more and more apparent that the one outstanding piece of work before the country is the winning of the war and that this demands the cooperation and best efforts of every industry and every individual. In proportion as each industry increases its devotion to the task will the country become better mobilized for victory and the speedy termination of the war.

The Building Materials Industry.

The building materials industry, being one of those most adversely affected by war conditions, has the full sympathy of the board and everything that is possible will be done to relieve its situation. To that end the building materials section of the board has been and is in frequent conference with the building interests of the country in an effort to mobilize their resources and their activities to meet the requirements of the Government and has served as the point of contact through which the needs of each building industry have been communicated to the War Industries Board in order that all possible relief might be furnished.

The War Industries Board has been gratified by the patriotic, unselfish, and unstinted support with which all branches of the building industry have responded to its appeal and is wholly disposed to do everything possible to relieve adverse conditions. However, the board has not changed its general policy with reference to new construction that does not contribute to war needs.

Policy Set Forth in Resolutions.

That policy was and is expressed in the following resolutions, formerly adopted and published:

Whereas it has come to the notice of this board that new industrial corporations are being organized in different sections of the United States for the erection of industrial plants which can not be utilized in the prosecution of the war; and

Whereas plans are being considered by certain States, counties, cities, and towns for the construction of public buildings and other improvements which will not contribute toward winning the war; and

Whereas the carrying forward of these activities will involve the utilization of labor, materials, and capital urgently required for war purposes: Now, therefore, be it

Resolved, by the war Industries Board, that in the public interest all new undertakings not essential to and not contributing either directly or indirectly toward winning the war, which involve the utilization of labor, material, and capital required in the production, supply, or distribution of direct or indirect war needs, will be discouraged, notwithstanding they may be of local importance and of a character which should in normal times meet with every encouragement: Be it further

Resolved, That in fairness to those interested therein, notice is hereby given that this board will withhold from such projects priority assistance, without which new construction of the character mentioned will frequently be found impracticable, and that this notice shall be given wide publicity, that all parties interested in such undertakings may be fully apprised of the difficulties and delays to which they will be subjected and embark upon them at their peril.

Applications for Preferences.

The building materials section of the War Industries Board considers and in proper cases arranges for and assists industries and plants in presenting to the priorities board their application for preference treatment in the supply of fuel, transportation, and raw materials. If preferential treatment is to any extent accorded an industry or plant it is subject to reconsideration at the end of 30 days as the classification may require modification in order to meet changing conditions. The necessity for conserving the fuel supply and relieving congestion in transportation is particularly imperative in what is known as the "congested district," which, generally speaking, is that territory lying north of the Potomac River and east of the Allegheny Mountains. The wholehearted cooperation of the building materials industries in conserving fuel, materials, transportation, and labor needed to meet war requirements is invited and confidently expected.

Commercial Stocks of Grain, Flour, Meals, and Other Foods in U. S. on June 1, 1918

The United States Department of Agriculture authorizes the following:

The commercial stocks of wheat reported to the United States Department of Agriculture in a food survey for June 1, 1918, amounted to 17,068,487 bushels. This refers to stocks actually reported and does not represent an estimate of the total commercial stocks of the country. Neither do the figures include stocks on farms on June 1, for which no data are available. According to the statement just issued by the department these stocks were held by 9,576 firms out of a total of 13,109 submitting reports (the firms consisting of elevators, warehouses, grain mills, and wholesale grain dealers), and were 38.2 per cent of the stocks held by the same firms on June 1, 1917.

Commercial Visible Supply.

The commercial visible supply figures as published by the Chicago Board of Trade show only 1,146,000 bushels of wheat, as against 28,896,000 bushels a year ago, and the Bradstreet figures for June 1 show 4,479,000 bushels, as against 34,876,000 bushels for the same date in 1917. The board of trade figures cover commercial holdings in about a score of large cities; the Bradstreet figures cover these holdings and those in certain smaller markets; in all, about 50. The food-survey figures cover practically all commercial holdings throughout the country. These figures indicate that the stocks of wheat in the primary markets were largely depleted and that the commercial holdings were confined for the most part to the smaller interior points.

Stocks of Other Cereals.

The commercial stocks of other cereals on June 1, according to the department's statement, were as follows: Corn, 32,834,521 bushels; oats, 42,943,610 bushels; barley, 8,228,164 bushels; and rye, 3,178,105 bushels. These stocks represent the following percentages of the corresponding stocks on June 1, 1917: Corn, 149.5 per cent; oats, 90.6 per cent; barley, 121.7 per cent; and rye, 208.8 per cent.

The commercial stocks of flour and meal, as reported in the survey, were: Wheat flour, white, 4,433,515 barrels; whole wheat and graham flour, 153,966,000 barrels; rye flour, 1,005,691 barrels; rye meal, 3,612,863 pounds; barley flour, 1,092,310 barrels; barley meal, 1,266,047 pounds; corn flour, 49,701,212 pounds; granulated corn meal, 77,664,450 pounds; other corn meal, 43,238,183 pounds; and buckwheat flour, 3,101,059 pounds.

Percentage of Year Ago.

These stocks represent the following percentages of the stocks on hand a year ago: Wheat flour, white, 64.6 per cent; whole wheat and graham flour, 141.7 per cent; rye flour, 419.9 per cent; rye meal, 376.1 per cent; barley meal, 377.9 per cent; granulated corn meal, 220.9 per cent; other corn meal, 227.9 per cent; and buckwheat flour, 95.5 per cent. The stocks of corn flour and barley flour on hand June 1, 1917, were so small as to make unnecessary any comparison between them and the present stocks on a percentage basis. The stocks of corn flour on June 1 this year show an increase over the holdings reported a month earlier, being 49,701,212 pounds, as against 24,396,026 pounds.

The following commodities were reported by wholesale grocers, with the results indicated: Beans, 5,770,709 bushels; rice, 61,584,539 pounds; rolled oats, 50,057,798 pounds; canned salmon, 78,615,960 pounds; canned tomatoes, 95,571,689 pounds; canned corn, 47,399,225 pounds; and sugar, 237,191,696 pounds.

Increase in Certain Stocks.

The stocks of beans, rolled oats, canned salmon, and canned tomatoes showed a substantial increase, the present stocks representing the following percentages of those on hand a year ago: Beans, 184.6 per cent; rolled oats, 137.5 per cent; canned salmon, 119.2 per cent; and canned tomatoes, 113.1 per cent. The stocks of sugar, rice, and canned corn, on the other hand, were from 11 to 21 per cent smaller than those of last year. Returns from wholesale grocers reporting holdings of condensed milk on June 1, 1918, indicated that the stocks of condensed milk, amounting to 20,375,502 pounds, were 11.7 per cent larger than those last year, and that the stocks of evaporated milk, amounting to 73,243,924 pounds, were 177.1, 20.6 per cent larger than on the corresponding date a year ago.

NEW SHIP REQUISITION LAW PASSED IN THE NETHERLANDS

Paul L. Edwards, commercial attache at The Hague, reports:

The Second Chamber of the Netherlands Parliament has just passed a law, which will go into effect immediately, giving the minister of agriculture, industry, and commerce the power to requisition Dutch vessels of over 500 tons cargo-carrying capacity, for the purpose of carrying outward-bound cargo of all descriptions and for the purpose of conveying passengers on inward and outward voyages.

Extends Power of Ministry.

This new law greatly extends the power of the minister of agriculture in the matter of directing the use of Dutch ships according to his own desires and the interests of the public. The first Netherlands ship requisition law, which was passed on February 10, 1917, gave the minister the power to require the use of space on homeward-bound Dutch vessels for the purpose of bringing goods the distribution of which was controlled by the Government. This law was modified in May, 1917, so as to enable the minister to requisition space for the purpose of conveying to Holland all goods which might be designated.

To Be in Force At Once.

It is understood that several vessels are to be requisitioned immediately for the purpose of carrying passengers and cargoes from Holland to the Dutch East Indies.—Commerce Reports.

Bought a French Hotel to Biliet U. S. Troops

The National War Work Council Y. M. C. A., authorizes the following:

In one of the big seaport towns of France recently, a division of American soldiers debarked. Every available house in town had its full complement of soldiers billeted, and there was no place where the tired troops just off the steamship could be housed. The nearest city was 50 miles away. The only chance was to lodge them at an immense hotel. This was crowded with guests. The Y. M. C. A. secretary, upon whom devolved the necessity of finding quarters for the soldiers, had to think quickly.

He went to the maritime governor and told him that he would like to lease the hotel. For some reason the official declared this to be impracticable.

"Then we'll buy the hotel," said the "Y" man.

"How about the guests?" asked the official.

The "Y" secretary made arrangements with each of the guests, all of whom patriotically waived their privileges and went by rail to the distant town where accommodations had been arranged for them by telegraph by the "Y" man.

The Y. M. C. A. will continue to use the hotel during the war for the accommodation of the soldiers.

Give up your luxuries that the Kaiser may be made to give up his ambitions.

TABLE OF CANADIAN IMPORTS OF "NONESSENTIAL" ARTICLES

Consul Johnson, at Kingston, Ontario, reports:

A compilation for the fiscal year 1916–17 and for the 10 months of 1917–18, ending February 1 last, shows the imports of nonessentials which are included in the Canadian Government's first list of prohibited importations to have aggregated $36,486,700, as follows: 1916–17, $18,985,300; 1917–18, $17,501,400.

Under Nine Distinct Heads.

The Dominion Government's decree barring purchases of nonessentials abroad may be separated under nine distinct heads. Further progress in cutting down Canada's luxury imports may be expected. In the calendar year 1917 Canada's total imports reached $1,005,134,000, so that the ratio of now prohibited importations is less than 2 per cent of the total of Canada's foreign buying.

Table of "Nonessentials."

The following table gives the imports of "nonessential" articles for the fiscal year ended March 31, 1917, and for the 10 months ended February 1, 1918:

Articles.	Year ended Mar. 31, 1917.	Ten months ended Feb. 1, 1918.
SPORTING GOODS.		
Billiard tables, etc.	$3,200	$20,500
Pleasure boats, etc.	28,900	32,000
Cartridges, etc.	279,600	205,600
Powder	404,100	10,500
Sport bags, etc.	4,100	2,300
Skates	34,100	35,400
Guns, etc.	665,200	184,000
Fish rods	20,600	23,400
Total	1,439,800	513,700
FRUITS AND NUTS.		
Nuts	2,328,600	2,527,800
Berries	5,000	4,000
Blackberries	542,100	674,000
Cherries	59,700	107,000
Cranberries	135,000	101,100
Currants	100	100
Grapes	440,500	440,000
Peaches	353,500	496,800
Pineapples	270,400	312,400
Plums	293,600	409,100
Quinces	510,800	691,000
Total	4,939,300	5,763,300
VEGETABLES.		
Fresh tomatoes	491,100	521,200
Sugar beets	39,000	24,000
Total	530,100	545,100
SWEETS, CONFECTI, ONSETC.		
Preserved ginger	40,000	20,000
Jellies, etc.	150,400	27,400
Sugar candy, etc.	712,100	370,200
Lime juices (10 months)	138,000	230,000
Total	1,040,500	647,600
AUTOMOBILES.		
Passenger (50 per cent of total imports)	4,291,300	4,462,700
Auto parts (50 per cent)	3,600,000	2,798,700
Total	7,891,300	7,261,400
PAINTINGS.		
Paintings, etc.	852,000	971,600
Total	852,000	971,600

CIVIL SERVICE COMMISSION DATES FOR EXAMINATIONS

The United States Civil Service Commission announces open competitive examinations as follows:

List No. 1. Examinations of the non-assembled type, that is, those in which competitors are not assembled for scholastic tests, but are rated upon the subjects of education, training, and experience, and corroborative evidence. Applications for these examinations are received at any time: Telephone operator, departmental service.

List No. 2. Examinations of the non-assembled type, for which applications must be filed by the dates specified: Assistant in transportation, Department of Agriculture, July 30.

List No. 3. Examinations in which competitors will be assembled for scholastic tests: Field station aid and herbarium assistant, Department of Agriculture, July 24; library assistant, departmental service, July 24 and August 21; assistant examiner, Patent Office, July 24–25 and August 21–22; clerk qualified in modern language, Department of Commerce, July 24–25 and August 21–22; calculating-machine operator, multigraph and writer press operator, operative (card-perforating machines), statistical clerk, departmental service, July 24, August 21, and September 18; stenographer and typewriter, Panama Canal Service, August 6.

Full information and application blanks may be obtained by addressing the United States Civil Service Commission at Washington, or the civil-service district secretary at Boston, New York, Philadelphia, Atlanta, Cincinnati, Chicago, St. Paul, St. Louis, New Orleans, Seattle, or San Francisco.

APPOINTED TO COLONELCY.

Special Orders, No. 131:

247. The appointment of Lieut. Col. John B. Schoeffel, Infantry, to the grade of colonel, National Army, with rank from May 11, 1918, is announced. He will proceed to Camp Pike, Little Rock, Ark., and report to the commanding general for assignment to duty with the Infantry replacement camp.

Articles.	Year ended Mar. 31, 1917.	Ten months ended Feb. 1, 1918.
PERFUMERY.		
Perfumery, etc.	$669,900	$657,800
Total	669,900	657,800
GOLD AND SILVER.		
Jewelry	966,600	711,700
Manufactures of	475,900	260,500
Total	1,442,500	971,200
MARBLE.		
Manufactures of	179,900	169,600
Total	179,900	169,600

—Commerce Reports.

JUNE 25 OFFERING OF TREASURY CERTIFICATES OVERSUBSCRIBED

The Treasury Department authorizes the following:

Secretary McAdoo announces that the offering of $750,000,000 or more Treasury certificates of indebtedness Series IV A, dated June 25, 1918, subscriptions for which closed on July 2, was oversubscribed by $88,000,000. This was the first issue in anticipation of the fourth Liberty loan and the first issue under the program announced by the Secretary of the Treasury to the banking institutions of the country in his letter of June 12. It was the largest offering of Treasury certificates ever made at one time by the Treasury Department and the largest oversubscription of any offering ever received. The following is a list of the Federal reserve districts, giving their quota and the amount of subscriptions received and allotted:

Federal Reserve bank.	Quota.	Allotment.
Treasury United States	.....	$11,938,000
[illegible]	$[illegible],000,000	64,590,000
New York	251,000,000	312,814,500
[illegible]	53,000,000	53,000,000
Cleveland	68,000,000	80,000,000
Richmond	26,000,000	19,013,000
Atlanta	22,000,000	[1] 16,140,500
Chicago	105,000,000	131,481,500
St. Louis	30,000,000	31,054,000
Minneapolis	26,000,000	20,000,000
Kansas City	30,000,000	28,410,500
Dallas	18,000,000	18,481,500
San Francisco	53,000,000	48,000,000
Totals	750,000,000	838,553,500

[1] Final figures from Atlanta not yet received.

Loan Subscriptions Not to be Restricted to Banks Qualified as Depositaries

Newspaper dispatches on the morning of June 27, commenting on the fourth Liberty loan bond act, stated as follows:

"Only banks and trust companies which are qualified Government depositaries would be allowed to take subscriptions for future loans."

Section 4 of the fourth Liberty loan bond act provides as follows:

"That any incorporated bank or trust company designated as a depositary by the Secretary of the Treasury * * * may, upon and subject to such terms and conditions as the Secretary of the Treasury may prescribe, act as a fiscal agent of the United States in connection with the operations of selling and delivery of any bonds, certificates of indebtedness, or war-savings certificates of the United States."

It is not the intention of the Treasury Department that banks which do not qualify as depositaries and become fiscal agents should not be designated by their customers to receive applications for subscriptions to Liberty bonds and Treasury certificates of indebtedness. On the contrary, the Treasury Department desires that all banking institutions shall continue in the future, as they have in the past, patriotically to assist and cooperate during the various campaigns for the sale of Government securities.

Magnesia and Asbestos Subject of Conference

The War Industries Board authorizes the following:

A committee representing the manufacturers of magnesia and asbestos coverings and textiles of the United States was accorded a hearing before the priorities commissioner and other representatives of the War Industries Board for the purpose of presenting claims for preferential treatment in procuring supplies of fuel, raw materials, and transportation service.

The hearing clearly developed the fact that a free and proper use of magnesia and asbestos in heating plants and in pipe coverings enormously conserves fuel; and because the demands for fuel far exceed the supply now available, or that can be made available, it was determined that the production of magnesia and asbestos coverings should be stimulated in so far as they are used in connection with heating plants and other uses measurably curtailed.

Preferential Treatment for Hollow-Tile Makers

The War Industries Board authorizes the following:

A committee representing the principal manufacturers in the United States of hollow tile were accorded a hearing before the priorities commissioner and other representatives of the War Industries Board. The hearing developed the fact that considerable quantities of hollow tile are required in connection with Government construction, a limited amount in expansion by war industries and in the building of silos, etc.

The conclusion was reached that the industry should be accorded preferential treatment to the extent necessary to produce the tile required for the uses mentioned and no more, conditioned upon the producers pledging themselves to sell their product only if devoted to essential uses as that term shall be defined by the Priorities Board.

Restrictions Modified on Manganese Imports

The War Trade board has, by a new ruling (W. T. B. R. 159), amended the restriction upon the importation of magnesite to permit its importation, under the back-haul proviso, permitting the importation of magnesite when shipped as return cargo from Europe and the Mediterranean coast of Africa, and when shipped from convenient ports where loading can be done without delay.

Importations of manganese ore from Asia and Australasia have, by another ruling, been prohibited as to ocean shipments made on and after July 20, 1918; and, to make this ruling effective, all outstanding licenses for the importation of manganese from those countries have been revoked as to ocean shipment on and after July 20, 1918.

Adequate supplies can be obtained, it has been found, from sources near by, entailing far less strain upon the tonnage resources of the United States during the present difficult period than shipments from the distant ports in Asia and Australasia.

FLYING FIELD AT ANACOSTIA IS NAMED "BOLLING FIELD"

The following order has been issued by Maj. Gen. William L. Kenly, Director of Military Aeronautics:

"The flying field at Anacostia, D. C., is named 'Bolling Field,' in memory of the late Col. Raynal C. Bolling, Signal Corps, who was killed in action on or about March 29, 1918, on the road between Estree and Foukan Court, France, during the German offensive."

The new field, which is now practically completed, will be a single squadron field with a capacity for 18 planes. It will serve three purposes, first as a field for experiments which it is desired be made near Washington; second as the terminal of the New York-Philadelphia-Washington Aerial Mail Service, and third as a training field where administrative officers in Washington may learn to fly, without interfering with their other duties.

Col. Bolling, for whom the field was named, was sent overseas on July 16, 1917, as head of America's first Aviation Mission to the Allied Governments. Under his direction all the early negotiations as to industrial cooperation between this country and England, France, and Italy, including the whole program of American purchases abroad and questions such as the allocation of raw materials and the interchange of patent-rights, were carried out.

Col. Bolling was born in Hot Springs, Ark., September 1, 1877, graduated from Harvard College in 1900 and Harvard Law School in 1902, and rose rapidly through the legal profession to the position of general solicitor of the United States Steel Corporation. In August, 1915, he organized and took to the training camp at Plattsburg an experimental motor machine gun battery of 70 officers and men, and in the spring of 1915, as a first lieutenant in the Signal Corps of the National Guard of New York, organized the first aero company of the guard in the United States. He passed his reserve military aviators test in the following September, and on March 14, when war with Germany appeared inevitable, was recommended for a commission as major in the Signal Corps. He was assigned to active duty on May 10, and on June 9 ordered overseas as special representative of the Aircraft Production Board.

Quartermaster Corps Establishes a Survey Course at Camp Meigs

The War Department authorizes the following:

The Quartermaster Corps has established an introductory survey course at Camp Meigs, Washington, D. C., for the purpose of acquainting new appointees and new commissioned officers with the general organization of the War Department, the Quartermaster Corps, and the American Expeditionary Forces.

All officers and all civil-service appointees receiving a salary in excess of $2,000 per year who report for duty at the Office of the Quartermaster General will be assigned for two weeks to Camp Meigs for the introductory survey course.

Questions Affecting 50,000 Workers In Essential Plants at Bridgeport Are Submitted To War Labor Board

Agreement to Abide By Latter's Decisions Posted In Every Factory In the City.

The National War Labor Board authorizes the following:

The entire existing system of industrial relations in Bridgeport, Conn., affecting 53 employing firms and corporations and more than 50,000 workers, has been turned over to a section of the National War Labor Board for such changes, corrections, or improvements as, after a thorough investigation of prevailing conditions, it sees fit to make.

Outcome of Hearing.

This significant development in the effort of the National War Labor Board to maintain a maximum of production by effecting a maximum of mutual satisfaction and understanding in the relations of employer and employed throughout the country marked the end of a three-day hearing of testimony concerning the causes leading up to the strike of 10,000 skilled workers at Bridgeport last week. The hearing was conducted at Bridgeport by former President William H. Taft and Frank P. Walsh, joint chairmen of the board, and Loyall A. Osborne and William H. Johnson, two of its members representing, respectively, capital and labor.

On the last two days the place of Mr. Taft, who has gone to Murray Bay, Canada, for the summer, was taken by Frederick N. Judson, of St. Louis, Mo., whom he nominated as his alternate during his absence. Beginning Friday, July 5, the hearing will be resumed by examiners for the board.

Blanket Authority Given.

The blanket authority to revise the existing system at Bridgeport was given to the section when the employers of the city, most of whom were not affected by the recent strike, made known their belief that it would lead to further instability and unrest in the district if an award involving increased wages and improved working conditions were made in favor of machinists and some other skilled workers in a restricted number of plants. The remainder of the working population, the employers felt, would undoubtedly formulate demands of their own and set out upon a campaign to realize them. Consequently, the employers asked that the board extend its inquiry to take in the conditions prevailing throughout all of the plants and that such award or decision as it finally arrives at be made applicable to the entire industrial life of the community. Moreover, each of the employing companies signed an agreement binding it to abide by whatever decision is ultimately reached.

Predicated On Principles.

The decision, whatever it may be, will, of course, be predicated upon the principles and policies of the National War Labor Board.

This being the case, the section at Bridgeport would hear but little of what promised to be a great deal of evidence intended to show that employers at Bridgeport, affiliated with the Manufacturers' Association, maintained a so-called "black list." Instead of hearing all of the testimony on this point, it was announced from the bench that discriminatory practices against union workmen were forbidden by the principles and policies and by the agreement between capital and labor upon which the principles and policies of the board itself are founded. The employers, furthermore, were asked to reinstate several men whose names were shown to have been on cards kept by the manufacturers and the reason for whose discharge from their employments was given on the cards as "belonging to the union." The principle of the War Labor Board on this point is that the workers shall have the right to organize into trade unions and to bargain collectively through chosen representatives with their employers. A promise was obtained from the manufacturers concerned that men dismissed for union affiliations would be reinstated.

Questions of Wages.

Other grievances which have created general unrest at Bridgeport throughout a more or less belligerent six months, during which time several strikes have occurred, concern wages and the right of the workers to participate, through chosen representatives, in a reclassification of employees in various plants. It is complained by the workers that wages are not sufficient to meet the cost of living. Those of them who are organized have also contended that the employers should not arbitrarily set up classifications of work and wages. As a result of the submission of the whole matter by both sides, all of these questions will now be decided on the basis of the principles and policies of the War Labor Board.

An award increasing the wages of machinists and toolmakers was recently made by a board representing the Ordnance Department, but, for some reasons, principally, the employers stated, because it was not sufficiently clear on several important points the employers did not put it into effect. It was this situation which directly led up to last week's strike.

Notices Posted in Shops.

In order that all workers might fully understand that the manufacturers will abide by the decision of the section of the War Labor Board, the section to-day effected an agreement with the manufacturers by which printed notices were posted in every shop as follows:

BRIDGEPORT, CONN., *July 3, 1918.*

To whom it may concern:

In order that maximum production may be maintained and as a guarantee of fair treatment to all, as well as the conservation of national interest in this crisis, an agreement has been entered into this day between the (name of particular company) and the National War Labor Board to the effect that all differences now existing between said company and its employees have been submitted to the arbitration of the National War Labor Board with the understanding that said company and its employees shall be bound by the award of said board and that all parties will faithfully abide by its decisions.

It may further be understood that the award of said board shall have a just and [illegible] active effect, and that the award shall be made as close to August 1, 1918, as the circumstances of the board may permit.

FREDERICK N. JUDSON,
FRANK P. WALSH,
Joint Chairmen.
L. A. OSBORNE.
WM. H. JOHNSTON.

Those of the employers who were not involved in the recent strike and who have at present no differences with their workers also posted the notice affixing a statement that they also would be bound by the decision.

Industries Vital to the War.

The industries of Bridgeport are almost exclusively employed upon production vital to the prosecution of the war. One of the plants, that of the Remington Arms Co., with five other firms, manufactures 98 per cent of all the cartridges used by the American forces. The award finally made in the case now before the section of the War Labor Board will affect from 80 to 90 per cent of the industrial population of Bridgeport.

Following are the firms involved in the recent strike who have submitted to arbitration by the labor board's section: American & British Manufacturing Co., Locomobile Co. of America, American Tube & Stamping Co., Singer Manufacturing Co., Bridgeport Brass Co., A. H. Nilson Machine Co., Connecticut Electric Manufacturing Co., Liberty Ordnance Co., Remington Arms Co.

Following are the contract shops, so-called, or jobbers, involved in the controversy, who have consented to submit to the decision of the section sitting as a board of arbitration: The E. W. Carpenter Manufacturing Co., the Bradley Machine Co., the Feeney Tool Co., Bridgeport Die & Machine Co., Bridgeport Gun Tool Co., J. Pederson Machine Co., S. Lowe & Sons Co., H. H. Boudreau, Lindstrom Tool Works, Electric Compositor Co., Fred G. Breul, International Tool & Gauge Co., W. T. Smith Manufacturing Co., the Anderson Die & Machine Co., Harris Engineering Co.

Others Giving Consent.

Following are the manufacturers, not parties to any agreement and not involved in the strike, who submitted with the others in order to stabilize conditions of labor in Bridgeport: The Bilton Machine Tool Co., Automatic Machine Co., Holmes & Edwards Silver Co., Bridgeport Motor Co. (Inc.), Bridgeport Chain Co., American Chain Co. (Inc.), The Eastern Malleable Iron Co., Bridgeport Malleable Iron Works, Salts Textile Manufacturing Co., Bryant Electric Co., The Bullard Machine Tool Co., The Bullard Engineering Co., The Ashcroft Manufacturing Co., The Black Rock Manufacturing Co., Bridgeport Metal Goods Manufacturing Co., The Raybestos Co., Bridgeport Hardware Manufacturing Co., Handy & Harman, Bridgeport Cutter Works (Inc.), Hamilton & Deloss (Inc.), Electric Cable Co., Housatonic Machine & Tool Co., Coulter & McKenzie Machine Co., Grant Manufacturing & Machine Co., Heppenssall Forge Co., Blue Ribbon Body Co., H. Hubbell (Inc.), Standard Coupler Co., Manufacturers' Iron Foundry, The Max Ams Machine Co., Bridgeport Deox Bronze & Metal Co., Sprague Meter Co., Remington Typewriter Co.

FAR-REACHING ORDER STOPPING UNNECESSARY LIGHTING WILL SHORTLY BE PLACED IN EFFECT

TO LIMIT DISPLAY ILLUMINATION

Store Window Electric Advertising and Other Forms of Lighting to Be Restricted—Will Ask Economy in Homes.

The Fuel Administration authorizes the following:

The order of the United States Fuel Administration curtailing unnecessary lighting, which will go into effect shortly, is far-reaching. It forbids wasteful practices in outdoor lighting and especially illumination during the daylight hours. As now proposed, the order restricts display illumination, store window illumination, electric advertising, and other forms of lighting, which in ordinary times are considered legitimate merchandising propaganda, to four nights a week in the Eastern States, where coal is particularly short, and to two nights a week in other parts of the country.

Emergency Need Recognized.

Advertising companies and store owners have insisted that display lighting and display advertising were legitimate industries and involved large legitimate investment of capital. They have patriotically recognized, however, that conditions brought about by the war have made necessary immense personal sacrifices on the part of those whose business involves a large consumption of fuel. They are unfortunate enough to have their investments in a business which, while legitimate and even important in times of peace, can be more easily spared in times of war than many others.

The new "lightless night" order is to be followed by another order, in preparation, establishing rules for lighting and heating large public buildings, including office buildings, hotels, and apartment houses. These regulations will reduce the present practice very considerably.

Less Lighting in Homes.

The public will be asked at the same time to reduce lighting in homes.

A survey of the lighting and heating practices of the country has shown that a change to a war standard of economy will save the country from a very disastrous fuel shortage the coming winter, and when all of the regulations which have been passed upon by the Fuel Administration as reasonable and necessary are in full effect and the public has been aroused to its share in the work of conserving fuel, the United States as a nation will have taken a long step toward "stripping for war."

ORDERED TO CAMP LAUREL.

Special Orders, No. 146:

249. Lieut. Col. John R. D. Matheson, Corps of Engineers, is relieved from duty at Camp A. A. Humphreys, Va., and will proceed without delay to Camp Laurel, Md., and report in person for duty in charge of the organization of engineer troops at that station.

Apportionment of Railroad Revenues From Ticket Sales and Other Sources

U. S. Railroad Administration,
Office of Director General,
Washington, June 29, 1918.

General Order No. 32.

Effective with the settlement of interline passenger accounts for the month of June, 1918, and thereafter, during the period of Federal control, the following rules and regulations shall govern the apportionment of revenues from the sale of tickets, collection of excess baggage revenues, and other analogous revenues derived from interline passenger service by one road under Federal control to other roads under such control:

(1) Interline passenger revenue shall be apportioned to interested carriers under Federal control by the initial carrier on bases of mileage applying via route over which the service is performed.

(2) Each selling carrier shall determine monthly:

(a) The total passengers carried 1 mile separately for each carrier over whose line tickets are sold.

(b) The total revenue applicable to the total passengers carried 1 mile, as determined by (a).

(c) The average revenue per passenger per mile by dividing the total revenue (b) by the tota passengers carried 1 mile (a); such average to be extended to four points beyond the decimal.

(d) The revenue accruing to each carrier by multiplying the passengers carried 1 mile for each carrier (a) by the average revenue per passenger per mile (c).

(3) The revenues derived from the various classes of traffic, such as mileage and scrip exchange passage tickets, excess train fare tickets or coupons, etc., which are based upon rates other than three (3) cents per mile, shall be eliminated from the regular sales and apportioned separately on the passengers-carried-one-mile-basis. This should also be done in the case of special excursion, military, or other traffic interchanged between two or more carriers where, if included, it would serve to distort the average revenue per passenger per mile that would obtain for other carriers interested in the distribution of the entire sales.

(4) Excess baggage revenue shall be divided on the same general basis.

(5) A carrier which, on and after June 10, 1918, may have a standard rate of fare in excess of three (3) cents per mile, shall be allowed, in the apportionment of revenue on interline tickets, a constructive mileage; such constructive mileage shall be based on the ratio that the excess rate bears to the standard rate of three (3) cents per mile. Carriers should not claim constructive mileage when fares to be divided are not made a combination of the local fares based on the higher rate per mile. Revenue derived from such traffic should be apportioned as provided in paragraph 3.

(6) The selling carrier shall be held responsible for the correctness of rates and the collection of the proper revenues derived therefrom.

(7) The initial or reporting carrier shall be held responsible for the prompt and proper reporting and distribution of interline revenues collected by it in the manner herein prescribed. Claims should be made for unreported tickets. Claims for substantial errors in apportionment, due to the use of erroneous mileage or erroneous average revenue per passenger per mile, shall, if correct, be accepted and adjusted in reports for the subsequent month. Claims for arithmetical errors, such as errors in calculation, addition, etc., which affect a single carrier's proportion to the extent of $5 in any one item, shall likewise be made, and if correct, adjusted; no adjustments shall be made for such errors under $5.

(8) Land-grant revenues and revenues affected by land-grant equalizations shall, until otherwise ordered, be reported and apportioned separately on bases heretofore applicable.

(9) Arbitraries on account of water transfers, bridge tolls, omnibus and baggage transfers, and other similar arbitraries heretofore considered in the division of interline fares, shall be allowed to the carrier to which such arbitraries accrue. Proportions accruing to carriers not under Federal control, including boat and stage lines, etc., shall also be determined and allowed on regular bases heretofore in effect, and reported direct to such lines; such arbitraries and proportions shall be deducted from the gross revenue and the remainder shall be used in establishing the average revenue per passenger per mile for apportionment of revenues to carriers under Federal control.

(10) Interline passenger revenues shall be reported to interested carriers in such manner and on such forms as may be prescribed by the Director of Public Service and Accounting, in instructions to be issued by him, which instructions shall be complied with. For the present, the standard association form of blanks may be used.

(11) The methods herein prescribed for apportioning interline passenger revenues should be extended to carriers not under Federal control as far as practicable; therefore, should carriers not under such control desire to avail themselves of the simplified bases for apportioning interline passenger revenues, as herein prescribed, in conjunction with carriers under such control, arrangements may be made between such interested carriers for the extension of such methods.

W. G. McAdoo,
Director General of Railroads.

EXAMINING BOARD CALLED.

Special Orders, No. 145:

290. A board of officers, to consist of Maj. John C. Walker, jr., National Army; Capt. John J. Deeming, Quartermaster Reserve Corps; and Capt. Edward E. Green, Medical Reserve Corps, is appointed to meet at Hoboken, N. J., at the call of the president thereof, under the provisions of section 9, Bulletin No. 32, May 24, 1917, War Department, for the purpose of examining into and reporting upon the capacity, qualification, conduct, and efficiency of Capt. Ralph C. Doughty, Quartermaster Reserve Corps.

RIGID ECONOMY IN USE OF PAPER URGED UPON ALL NEWSPAPERS

The War Industries Board authorizes publication of the following letter to all newspaper publishers:

On account of the shortage of materials the question of the supply of paper is becoming acute and the use of paper must be economized to the greatest possible extent.

It is necessary that all newspapers which publish a daily and weekly edition put the following preliminary economies into effect July 15, 1918:

Discontinue the acceptance of the return of unsold copies.

Discontinue the use of all samples or free promotion copies.

Discontinue giving copies to anybody, except for office-working copies or where required by statute law in the case of official advertising.

Discontinue giving free copies to advertisers, except not more than one copy each for checking purposes.

Discontinue the arbitrary forcing of copies on news dealers (i. e., compelling them to buy more copies than they can legitimately sell in order to hold certain territory).

Discontinue the buying back of papers at either wholesale or retail selling price from dealers or agents in order to secure preferential representation.

Discontinue the payment of salaries or commission to agents, dealers, or newsboys for the purpose of securing the equivalent of return privileges.

Discontinue all free exchanges.

WAR INDUSTRIES BOARD,
Chief, Pulp and Paper Section.

Flaxseed and Linseed on the Restricted List

The War Trade Board issues the following:

Flaxseed and linseed have been placed by the War Trade Board in a new ruling (W. T. B. R. 160) upon the list of restricted imports.

All outstanding licenses for the importation by sea of flaxseed and linseed have been revoked, except for the importation of flaxseed or linseed which is now in transit or is to be transported upon vessels which are now loading. No licenses will be issued hereafter for the importation of flaxseed or linseed, except that, up to and including July 10, 1918, licenses will be issued for the importation of cargoes which are now in transit and for the cargoes of vessels which are now loading.

CHIEF OF PULP SECTION.

The War Industries Board authorizes the following:

Thomas E. Donnelley, of Chicago, has been appointed chief of the Pulp and Paper Section of the War Industries Board, to succeed W. B. Colver, who is unable to continue in charge of the section because of increasing duties as chairman of the Federal Trade Commission and a member of the price-fixing committee. Mr. Donnelley will have the benefit of Mr. Colver's advice on matters that require consultation.

GRAIN CORPORATION REORGANIZED UNDER NAME OF CEREAL DIVISION

The Food Administration issues the following:

With the alterations made in the milling plan for next year, a reorganization has been made in the Food Administration to cover the new plan of control. The grain corporation has been expanded to cover all cereals and is now to be known as the cereal division. Mr. Julius H. Barnes, who has been head of the grain corporation, will be head of the cereal division. Mr. F. J. Lingham, one of the largest millers in the East, has entirely severed his connection with the milling business in order to serve as head of the milling section of the new division. The grain corporation will, as before, be the instrument through which the financial transactions of the Food Administration with regard to grain are to be carried out.

27,000,000 CARTRIDGES MADE IN ONE DAY FOR U. S. TROOPS

The War Department authorizes the following statement from the Ordnance Department:

American records for daily production of ammunition for rifles and pistols were broken on June 27, when approximately 27,000,000 cartridges of every description were produced in plants manufacturing for the United States Government. This figure includes no cartridges manufactured commercially or for other Governments. The twenty-seven million should not be regarded as an average production figure—only as a high record.

Rifle Record Broken.

The daily average for the production of United States Army rifles of the models of 1917 and 1903 was broken in the week ending June 29. An average of 10,142 rifles of these types—the modified Enfield and the Springfield—was maintained, 55,794 rifles being produced, together with spare parts, equivalent to several thousand rifles. Russian rifles to the number of 3,280 also were manufactured.

Workman Sets Record.

A Mr. Cahill, a workman in the rifle department of the Midvale Steel Ordnance Company at Eddystone, Pa., finally assembled 281 Model 1917 rifles in a ten-hour day last week. This is a record. The average finally assembled, per man, is approximately 200 per day. When Eddystone was making rifles for the British, the largest number assembled per man per day was 50, and the average was 40. Mr. Cahill's only comment on his record was, "I guess the boys in the trenches will need them."

RELIEVED FROM GAS DUTY.

Special Orders, No. 146:

146. Maj. Milton C. Winternitz, Medical Reserve Corps, is relieved from duty with the gas defense service, office of the Surgeon General of the Army, this city, and will proceed to New Haven, Conn., and report in person to the military director, Yale University, that place, for duty.

PLAN TO ESTABLISH STANDARD "HELP WANT" ADVERTISEMENTS

The Division of Information and Education of the Department of Labor authorizes the following:

A delegation from the American Newspaper Publishers Association and the Associated Business Papers Association, together with representatives of the leading newspapers of America, participated in a conference at the Department of Labor, Washington, D. C. The subject under discussion was the uses and abuses of "Help Wanted" advertising. J. B. Densmore, director general of the United States Employment Service, presided.

Standard "Help Wanted" Ad.

Officials of the Department of Labor outlined the policy of the Government. Among other things it was stated that the newspapers would be requested not to take advertising which results in "stealing labor," or unnecessarily transporting men from one territory to another, which results in an unnecessary turnover among industries engaged on war work.

In the course of the discussion it was brought out that the best results are obtained both for the newspapers and industry by using only a standard form of advertising and limiting the same either to firms certified to by the United States Employment Service or by employment agents licensed by such service.

Standardizing of Wages.

Norman E. Mack, of the Buffalo Times, made the point that most valuable work can be done by standardizing wages, and that such a standardization should be carried on in connection with any rulings regarding advertising. Mr. Densmore replied by stating that a committee is now at work on such a standardization of wages. Several of the speakers claimed that the employment service is now compelled to waste money in recruiting labor along present lines, and that the Government could save much money by using paid advertising in newspapers, thus following the system used by the English and Canadian Governments.

Willingness to Cooperate.

Roger W. Babson, chief of the Information and Education Service of the Department of Labor, agreed with this position, and stated that he is in favor of the Government paying for certain classes of advertising. A willingness to cooperate was expressed by all interested, and it was agreed that the American Newspaper Publishers Association will appoint a committee of three with which further negotiations will be carried on.

POST-OFFICE FRAUD ORDERS.

OFFICE OF THE POSTMASTER GENERAL,
Washington, June 25, 1918.

Order No. 1611 has this day been issued against the Dr. J. Russell Price Co., its officers and agents as such, and V. Leverne, at 208 North Fifth Avenue and 9 South Clinton Street, Chicago, Ill.

JUNE 26, 1918.

Order No. 1616 has this day been issued against the Mississippi Kennels, Booneville, Miss.

A. S. BURLESON,
Postmaster General.

AWARDS BY PURCHASING DEPARTMENT OF THE GENERAL ENGINEERING DEPOT

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

June 28, 1918.

Lansing Co., New York City, wheelbarrows.
Howells Mining Drill Co., Plymouth, Pa., telescope drill and spare parts.
Coes Wrench Co., care of John H. Graham, New York City, wrenches.
I. Block & Sons, New York City, lantern wicks.
Klein-Logan Co., Pittsburgh, Pa., miners' drills.
Sneath Glass Co., Hartford City, Ind., lantern globes.
Excelsior Bag Manufacturing Co., Troy, N. Y., twist-drill rolls.
John T. Lewis & Bros. Co., Baltimore, Md., block tin.
Marcus Ward (Inc.), New York City, paper scratch pads.
W. D. Allen Manufacturing Co., Chicago, Ill., leather belts.
B. F. Goodrich Rubber Co., Akron, Ohio, rubber fire hose and attachments.
John T. Lewis & Bros. Co., Baltimore, Md., babbitt metal.
The Sperry Gyroscope Co., Brooklyn, N. Y., searchlight parts.
Miller, Reese, Hutchinson (Inc.), Orange, N. J., batteries.
Richard Dudgeon, New York City, jacks.
H. W. Johns-Manville Co., New York City, asbestos sheets, wicking, packing.
The Irwin Auger Bit Co., Wilmington, Ohio, ship augers.
Oliver Iron & Steel Co., Pittsburgh, Pa., picks.
Peck, Stow & Wilcox Co., New York City, braces, ratchet bits.
Taylor Instrument Cos., Washington, D. C., barometers.
Eastman Kodak Co., Rochester, N. Y., kodak supplies.
Hendee Manufacturing Co., Springfield, Mass., bicycle and motorcycle tools.
The Stanley Rule & Level Co., New Britain, Conn., carpenters' supplies.
Harrington & King Perforating Co., Chicago, Ill., steel screen sections.
Hibbard, Spencer, Bartlett & Co., Chicago, Ill., coil chains.
Rudolph & West Co., Washington, D. C., carpenters' supplies.
Justrite Manufacturing Co., Chicago, Ill., miners' lamps and spare parts.
Anchor Packing Co., Baltimore, Md., hydraulic and rubber packing.
Dymalkon Metals Corporation, New York City, searchlight mirrors.
General Electric Co., Schenectady, N. Y., rheostats, projectors, and parts.
Katzenback & Bullock Co., New York City, soldering acids.
The Alvey Manufacturing Co., St. Louis, Mo., gravity lumber conveyor.
Fairbanks Co., Washington, D. C., scales.
Henry Disstons & Sons, Philadelphia, Pa., files and levels.
Ingersoll-Rand Co., New York City, hoists.
Buffum Tool Co., Louisiana, Mo., scrapers.
Hobbs Manufacturing Co., Worcester, Mass., split-lock washers.
Acme Printing Co., Washington, D. C., requisition forms.
Arcadia Trailer Corporation, Newark, N. Y., tire press trailers.
Detroit Trailer Co., Detroit, Mich., reversible trailers.
Highway Trailer Co., Edgerton, Wis., reversible trailers.
Semmes Motor Co., Washington, D. C., motor trucks and parts.
International High Speed Steel Co., New York City, drill steel.
The Graton & Knight Manufacturing Co., Worcester, Mass., leather belts.
Milwaukee Locomotive Manufacturing Co., Milwaukee, Wis., spare parts for tractors.
Eastman Kodak Co. of New Jersey, Rochester, N. Y., cameras and lenses.
Fred J. White Iron Works, Washington, D. C., iron pintable bolts.
Union Envelope Co., Richmond, Va., envelopes, rope.
The James Swan Co., Seymour, Conn., gimlet bits.
Eberson-Lindsley Paint Co., St. Louis, Mo., paint, battleship gray.
Warren Tool & Forge Co., Warren, Ohio, claw and pinch bars.
Mills Woven Cartridge Belt Co., Worcester, Mass., pencil cases.
Charles Hvass & Co. (Inc.), New York City, brooms.
Thermoid Rubber Co., Trenton, N. J., hydraulic compressed broke lining.
Armstrong Manufacturing Co., Bridgeport, Conn., stocks and dies.
C. Draw & Co., Kingston, Mass., marlin spikes.
Fayette R. Plumb Co. (Inc.), Bridesburg, Pa., ball peen hammer.
District of Columbia Paper Manufacturing Co., Washington, D. C., paper.
Chicago Rawhide Manufacturing Co., Chicago, Ill., rawhide mallets.
Sasgen Derrick Co., Chicago, Ill., hand winch.
The Germantown Tool Works, Philadelphia, Pa., broad hatchets.
American Logging Tool Co., Evart, Mich., clevises.
John B. Black Co. (Inc.), Chester, Pa., adz handles.
Kelly Ax Manufacturing Co., Charleston, W. V., hammers.
Standard Seamless Tube Company, Ambridge, Pa., boiler tubes.
Bartlett Edge Tool Co., Salem, N. Y., grass hooks.
B. F. Gladding & Co. (Inc.), New York City, chalk line, hanks.
James Graham & Co., New Haven, Conn., hammers.

June 29, 1918.

The American Handle Co., Jonesboro, Ark., ax handles.
James Walker Company, Baltimore, Md., iron pitch payers.
L. C. Smith & Bros. Typewriter Co., Washington, D. C., typewriters.
Remington Typewriter Co. (Inc.), Washington, D. C., typewriters.
West Disinfecting Co., Washington, D. C., fumigators.
Sperry Gyroscope Co., Brooklyn, N. Y., searchlight parts.
William B. Bliss, Jr., & Co., Washington, D. C., tracing tape.
The Eagle-Tool Works, Bayonne, N. J., chisels and bars.
Beaumont Glass Co., Morgantown, W. Va., office supplies.
Crane Co., Philadelphia, Pa., countersink plugs.
Bethlehem Steel Corporation, Washington, D. C., turnouts, rail braces.
Rampo Iron Works, Hillburn, N. Y., standard rigid frogs.
United States Steel Products Co., Washington, D. C., bolts and nuts.
C. Hammond & Sons (Inc.), Ogontz, Pa., hammers.
Tower Manufacturing & Novelty Co., New York City, adhesive tape.
Goodyear Tire & Rubber Co., Philadelphia, Pa., hose and couplings.
Ingersoll-Rand Co., Washington, D. C., air compressors and parts, calking machines and parts.
Bausch & Lomb Optical Co., Rochester, N. Y., magnifying glasses and lenses.
Allen-Bradley Co., New York City, spares for motor starter.
The Piqua Handle Manufacturing Co., Piqua, Ohio, chisel handles.
The James Walker Co., Baltimore, Md., pitch mops.
The Lansing Co., New York City, wheelbarrows.
Thomas Somerville Co., Washington, D. C., water piping supplies.
Driver-Harris Co., Harrison, N. J., wire.
Imperial Electric Co., Akron, Ohio, motors.
The Duff Manufacturing Co., Pittsburgh, Pa., jacks.
Conneaut Shovel Co., Conneaut, Ohio, shovels.
Peck, Stow & Wilcox Co., New York City, braces.
O. M. Edwards Co. (Inc.), Washington, D. C., office supplies.
Greenfield Tap & Die Corporation, Greenfield, Mass., pipe cutters.
Goodell-Pratt Co., Greenfield, Mass., calipers.
L. S. Starrett Co., Athol, Mass., blacksmiths' calipers.
Champion Blower & Forge Co., Lancaster, Pa., dies.
Piedmont Cotton Mills, Egan, Ga., duck.
The Carroll Electric Co., Washington, D. C., exhaust fans.
Klein-Logan, Pittsburgh, Pa., picks.
Warwood Tool Co., Wheeling, W. Va., pick mattocks.
Smith & Hemenway Co., Irvington, N. J., lineman's climbers.
W. & L. E. Gurley, Troy, N. Y., repair-shop supplies.
Taylor Instrument Co., Washington, D. C., barometers.
American Saw Mill Machinery Co., New York City, saws.
Greenlee Bros. & Co., Rockford, Ill., draw knives.
Winsted Edge Tool Works, Winsted, Conn., chisels.

July 1, 1918.

Chicago Pneumatic Tool Co., Philadelphia, Pa., wood borers, hammers, etc.
Carolus Manufacturing Co., Sterling, Ill., bolt clippers.
A. Leschen & Sons Rope Co., St. Louis, Mo., hoisting rope.
Kennedy Manufacturing Co., Van Wert, Ohio, office furniture.
Beaumont Glass Co., Morgantown, W. Va., office supplies.
Charles Pfizer & Co. (Inc.), New York City, borax.
Broderick & Bascom Rope Co., St. Louis, Mo., hoisting rope.
Peck, Stow & Wilcox Co., Southington, Conn., squaring shears.
Champion Blower & Forge Co., Lancaster, Pa., post drills.
Sterling Grinding Wheel Co., Tiffin, Ohio, carbolon wheels.
American Handle Co., Jonesboro, Ark., axe handles.
Magor Car Corporation, Passaic, N. J., gondola cars.
The National Carbon Co., Cleveland, Ohio, carbons and containers.
McCord Manufacturing Co. (Inc.), Detroit, Mich., radiators.
American Steel & Wire Co., Washington, D. C., steel hoisting rope.
Verona Tool Works, Pittsburgh, Pa., picks, mattocks, and hammers.
Peaslee-Gaulbert Co., Louisville, Ky., turpentine.
Smith & Hemenway Co., Irvington, N. J., bolt cutters.
Sussfeld, Lorsch & Co., New York City, rotometers.
Henry Disston & Sons Co., Philadelphia, Pa., levels.
North Indianapolis Cradle Works, Indianapolis, Ind., scythes, snaths.
Whitman-Barnes Manufacturing Co., Akron, Ohio, wrenches.
J. G. Brill Co., Philadelphia, Pa., seats for limber and caisson wagons.

Marine Corps Contracts

Contracts have been placed by the Quartermaster, United States Marine Corps, as follows:

No.	Contractor.	Material.
197–19	Wolfe & Ronan, Savannah, Ga.	Onions.
197–19	Max Klein, Pensacola, Fla...	Onions and potatoes.
197–19	H. T. Cottam & Co. (Ltd.), New Orleans, La.	Subsistence.
197–19	Henry H. Dutton, Portsmouth, N. H.	Oleomargarine.
197–19	Ferguson Bakery, Boston, Mass.	Bread.
197–19	Amos C. Humphrey, Hingham, Mass.	Subsistence stores.
197–19	Samuel E. Hunter, New York, N. Y.	Potatoes and onions.
197–19	J. L. Christian, Philadelphia, Pa.	Onions.
197–19	Frederick W. Schaper, Haverstraw, N. Y.	Bacon and lard
230–19	J. Edward Chapman, Washington, D. C.	Fuel.
230–19	L. P. Steuart & Bro., Washington, D. C.	Unloading, hauling, and storing coal.
72–19	Old Dominion Paper Co., Norfolk, Va.	Stationery.
212–19	Stevens Lumber Co., Lynchburg, Va.	Lumber.
1179	A. G. Spalding & Bros., New York, N. Y.	Athletic equipment.
124–19	The Union Ice Co., San Diego, Cal.	Ice.
124–19	M. J. Ford, Bremerton, Wash.	Do.

CONTRACTS AND PURCHASES APPROVED BY THE SURGEON GENERAL OF THE ARMY

The following contracts and purchases have been approved by the Surgeon General of the Army:

June 24, 1918.

Powers-Weightman-Rosengarten, Philadelphia, medicine.
Bristol Myers Co., New York City, medicine.
F. A. Thompson & Co., Detroit, medicine.
Schiefflin & Co., New York City, medicine.
Mager & Gougelmann (Inc.), New York City, surgical dressings.
Eli Lilly & Co., Indianapolis, medicine.
Lowell Textile Co., New York City, towels.
Lehn & Fink (Inc.), New York City, medicine.
E. R. Squibbs & Son, New York City, medicine.
New York Quinine & Chemical Works, New York City, medicine.
Glenn Falls Pharmaceutical Co., Glenn Falls, N. Y., medicine.
R. J. Strasenburgh Co., Rochester, N. Y., medicine.
H. K. Mulford Co., Philadelphia, medicine.
Heyden Chemical Works, New York City, medicine.
Powers-Weightman-Rosengarten Co., Philadelphia, Pa., medicine.
Sharp & Dohme, Baltimore, medicine.
M. Ames Chemical Co., Glen Falls, N. Y., medicine.
Allaire Woodward & Co., Peoria, Ill., medicine.
Frederick Stearns & Co., Detroit, medicine.
Merck & Co., New York City, medicine.

June 25, 1918.

Emil Greiner, New York City, laboratory apparatus.
Ernst Leitz, New York City, laboratory supplies.
Martin Dyeing & Finishing Co., Bridgeton, N. J., duck.
McCaskey Register Co., Alliance, Ohio, chests.
F. J. Stokes Machine Co., Philadelphia, distilling apparatus.
Turner, Day & Woolworth Handle Co., Louisville, Ky., ax helves.
Henry Smail, New York City, sutures.
Dezell & Helwig, New York City, towels.
F. B. Chamberlain Co., St. Louis, medicine.
Powers-Weightman-Rosengarten Co., Philadelphia, medicine.
Ludwig Remedy Co., St. Louis, Mo., medicine.
Sharp & Dohme, Baltimore, medicine.
Charles Pfizer & Co. (Inc.), New York City, medicine.
H. J. Baker & Bros., New York City, medicine.
Block & Co., Brooklyn, medicine.
W. D. Young & Co., Boston, medicine.
Eli Lilly & Co., Indianapolis, medicine.
Wm. S. Merrill Co., Cincinnati, medicine.
E. R. Squibbs & Son, New York City, medicine.
H. J. Baker & Co., New York City, medicine.

June 26, 1918.

Northwestern Steel & Iron Works, Eau Claire, Wis., emergency cases.
L. C. Chase & Co., Boston, rubber aprons.
Waite & Bartlett Manufacturing Co., New York City, X-ray supplies.
Bauer & Black, Chicago, bandages.
F. A. Cigol Rubber Co., Philadelphia, Pa., stoppers.
American Sterilizer Co., Erie, Pa., sterilizing outfits.
C. J. Tagliabae Manufacturing Co., New York City, thermometers.
Rogers & Madison Trunk Co., Petersburg, Pa., dental equipment.
Pyrene Manufacturing Co., New York City, fire extinguishers.
Northwestern Steel & Iron Works, Eau Claire, Wis., autoclaves.
F. F. Fromeyer & Co., Cincinnati, floor brightener.
Central Stamping Co., New York City, buckets.
E. E. Smith, Philadelphia, hand pieces.
National Thermometer Co., New York City, thermometers.
Schilling Bros. Table Co., Pulaski, N. Y., tables.
Republic Metalware Co., Buffalo, N. Y., tubs.
Edward Miller Co., Meriden, Conn., lamps.
Hospital Supply Co., New York City, bed cradles.
American Steel & Wire Co., Worcester, Mass., nose clip springs.
British American Manufacturing Co., Springdale, Conn., face fabric.
Maurice O'Meara, New York City, stationery.
Enlow Co., New York City, files.
Mendelson Corporation, Albany, N. Y., lye.
J. L. Mott Iron Works, Trenton, N. J., surgical stands.
Parke, Davis & Co., Detroit, medicine.
United States Stamping Co., Moundsville, W. Va., laboratory equipment.
American Cord & Webbing Co., New York City, webbing.
Kelley-Koett Manufacturing Co., Covington, Ky., X-ray equipment.
Waite & Bartlett Manufacturing Co., New York City, X-ray equipment.
John Wyeth & Bros., Philadelphia, Pa., medicine.
Beechnut Manufacturing Co., Brooklyn, medicine.
Parke, Davis & Co., Detroit, medicine.
Flach & Seibert, Philadelphia, medicine.
Abbot Laboratories, Chicago, medicine.

L. D. Caulk Co., Milford, Del., dental supplies.

LANDS CLASSED FOR ENTRY.

Over 3,000,000 Acres Designated in May Under Homestead Act.

The Department of the Interior issues the following:

Secretary Lane announces that during the month of May over 3,000,000 acres of land were classified for entry under the act which provides for acquiring stock-raising homesteads embracing 640 acres each. Of this land, 985,000 acres are in Colorado, 370,000 in New Mexico, 475,000 in South Dakota, and 1,265,000 in Wyoming. This makes a total of more than 6,000,000 acres that have so far been designated for entry under this act.

Also during the month nearly 1,000,000 acres of land were designated for entry under the enlarged homestead act under which entrymen may take up 320-acre tracts. These lands are located in Arizona, California, Colorado, Idaho, Montana, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming.

Twenty-two thousand acres in Montana and 2,400 acres in Washington were restored from coal withdrawals.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

DEPARTMENTS ASKED TO WAIT STANDARDIZATION OF LABOR

The War Labor Policies Board authorizes the following:

In view of the conferences now in progress concerning the stabilization of wages, hours and conditions of work, in order to enable America to produce as rapidly as possible the materials urgently needed by the armies overseas, the War Labor Policies Board appeals to all interests involved to await the formulation of these policies.

Statement By Chairman.

Chairman Felix Frankfurter in drawing attention to the request of the policies board said:

"The elimination of the lost motion in American war industry is imperative if the men and women of this country are to do their full duty by our fighters in France.

"The standardization of working conditions is the next necessary step in the attainment of this end.

"The policies board is proceeding with all speed commensurate with the magnitude of the interest to substitute reasonable and just conditions for the confusion now so costly. It has, therefore, called upon the departments and boards it represents to refrain from making any changes which would jeopardize the success of the greater war policies. In making this request it assures all concerned that nothing drastic is contemplated and that no affirmative action will be taken until every interest has been properly consulted and every relevant point of view considered. Consultations have already been arranged with the representatives of organized labor, of industrial management, of the governmental departments, and of all other agencies concerned.

Resolution Outlining Sentiment.

"The following resolution expresses the sense of the board:

"'Whereas the War Labor Policies Board was appointed to establish harmony in those industrial matters on which the governmental departments were agreed that there should be unity of action; and

"'Whereas the War Labor Policies Board has now under advisement methods of standardizing wages, hours, and conditions of labor in establishments engaged on war work, and is now, with that dispatch compatible with the importance of the interests involved, conferring on war labor policies with representatives of organized labor, of industrial management, and of governmental departments, and other agencies: Therefore be it

"'*Resolved*, That the War Labor Policies Board urgently requests the departments and boards represented on it to refrain from making changes pending the standardization now under consideration.

"'Representatives of the Department of Labor, Agricultural Department, Emergency Fleet Corporation, Food Administration, Fuel Administration, Navy Department, U. S. Shipping Board, War Department, and War Industries Board were present.'"

Contribute to the Red Cross fund.

SALE OF STANDARDIZED TICKETS NOW MADE AT SPECIAL WINDOWS

The Director General of Railroads authorizes the following:

The sale of railroad tickets out of Washington has been greatly facilitated by the arrangement at the Union Station of special windows for tickets to Baltimore, Philadelphia, Wilmington, and New York. These tickets can now be handled as rapidly as theater admissions.

In the past persons desiring to purchase these standard tickets have sometimes had to wait in line while tickets covered by more complicated rates were being worked out. The result of the change has been to facilitate the sale of both classes of tickets. A large proportion of the travel out of Washington is to the points mentioned.

Similar arrangements are being made in other large cities wherever it is possible to thus care for standardized tickets for which there is a heavy demand.

GROWTH OF AMERICAN ARMY

(Continued from page 8.)

they were asked to do organization work in America rather than go to France where the glory of their profession lies. When the Secretary of War started for Europe and was on the ocean he was approached in a number of instances by seamen, requesting transfers to the Army in order that they might see service which seemed more active and closer to the front.

In France it was necessary to change the name of the zone behind the armies from the "Service of the rear" to "Service of supply," because of the difficulty in getting men to serve in a region having the shell-proof connotation of the word "rear." Even at the actual front there is something of a tradition against the use of the term "No Man's Land." Our men prefer to call it—and make it—"Yankee Land."

I have written the above in a somewhat intimate and free way, both because I know that as to many of these statements full and ample details are in the hands of the committee, and also because I am so deeply grateful to the committee for its sympathy and cooperation during all these months, and I wish to express to them in some degree my own happiness and satisfaction at the results which the War Department has been able to achieve with the cordial support it has received from Congress.

Cordially, yours,
NEWTON D. BAKER,
Secretary of War.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 2, 1918.

RECEIPTS.

Customs receipts	$651,708.27
Internal-revenue receipts:	
Income and excess-profits tax	38,330,012.77
Miscellaneous	3,929,111.15
Miscellaneous revenue receipts	205,833.18
Total ordinary receipts	43,116,665.37
Panama Canal receipts	
Public-debt receipts	23,746,016.40
Balance previous day	1,757,135,497.66

Total	1,823,998,179.43

NATURALIZATION OF FOREIGNERS IN NAVAL OR MILITARY SERVICE

The Bureau of Naturalization of the Labor Department authorizes the following:

Under the act of Congress approved May 9, 1918, a new procedure has been provided by which the United States will be assured of an all-American Army. Under the provisions of this law, a code of procedure has been established whereby any foreigner who is in the military or naval service of the United States may become naturalized without the delays required in the general provisions of the naturalization law.

Many Already Naturalized.

Many have availed themselves of this privilege of the naturalization law and offered themselves for enlistment in the military service of the United States. Included among these are Canadians, English, Scotch, Irish, Italians, French, and those from neutral countries. No age limit is set upon those who desire to volunteer; any who are upward of 18 years of age may enlist, even including those up to 45 years of age or over, if they can pass the physical examination. The American recruiting officers are to be found in every city in the United States.

Where to Address Inquiries.

Any questions relating to the procedure to become naturalized should be addressed to the Bureau of Naturalization, Department of Labor, Washington, D. C. Those who live in Boston, New York, Brooklyn, Philadelphia, Buffalo, Pittsburgh, Detroit, Cleveland, Chicago, St. Paul, Duluth, St. Louis, Des Moines, Iowa; Kansas City, Mo.; Omaha, Nebr.; Denver, Salt Lake City, Seattle, Portland, Oreg.; San Francisco, or Los Angeles should apply direct to the local representative of the Bureau of Naturalization.

SCHOOL FOR TRAINING WOMEN AS RAILROAD TICKET SELLERS

The United States Railroad Administration issues the following:

Because of the need for skilled ticket sellers and the difficulty of obtaining enough trained men the Railroad Administration has opened schools in several sections of the country for training women to fill these positions.

The present force of trained men ticket sellers will be retained whenever possible because of the expert character of their work, but it has been found necessary to supplement their activities with women. This is due partially to the increase of traffic and partially to the loss of men to the Army and Navy.

When thoroughly trained, women ticket sellers will be paid the same salaries as men doing the same work. Already enough applications have been made to fill the schools for the present.

After preliminary training of from one to two months, the women who show aptitude will be given work of actual selling the simpler form of tickets and gradually will be work into the sale of more complicated forms.

GERMANS ARE PREPARING FOR A HEAVY ASSAULT ON ALLIED LINES IN FRANCE, GEN. MARCH ANNOUNCES

REORGANIZING FORCES

"We Are Now Going After the Second Million," the Chief of Staff Says, in Regard to Embarkation of American Soldiers for France—Nothing to Give Out About Russia.

Statement of Gen. Peyton C. March, Chief of Staff, to the press July 6, 1918:

"The activities of the United States in the war have been so completely summarized by the Secretary of War during the past week that there is nothing to be added to that.

"The situation along the various western fronts has developed a situation where nibbling by the allied forces is going on all the time, and with complete success so far as the allied attacks are concerned. The most interesting of these minor raids, from the American standpoint, was the successful attack on Vaux, which occurred on the 1st of July. This town was taken by a very nicely planned American attack, in which the 9th and 23d Regiments of Infantry furnished the Infantry contingent, and the 12th, 15th, and 17th Regiments of Field Artillery supported the attack. These troops form a part of our Second Division, which is under the command of Maj. Gen. Omar Bundy. The successes attained have been consolidated, and subsequent attacks of the Germans have not been sufficient to cause our withdrawal from any terrain which has been occupied.

Situation in Italy.

"On the Italian front the situation has now come down to complete occupation by Italy of the southern bank of the Piave, with the exception of one small sector. The size of that sector, which is the only part of the south bank of the Piave still held by the Austrians, is 3½ by 1½ miles. It is on the delta near Gricolera. Along that entire region, which has been held by the Austrians for a long time, the Italians have made successful advances over practically a 9-mile front, driving the Austrians back of the river, with the exception of the little area I have indicated to you.

U. S. TRANSPORT COVINGTON TORPEDOED ON HOME TRIP; SIX OF HER CREW MISSING

WENT DOWN WHILE BEING TOWED

Former German Ship Was in Convoy With Other Vessels When Struck Forward of Engine Room—List of the Missing Men.

The Committee on Public Information issues the following:

The Navy Department has received dispatches from Vice Admiral Sims stating that the U. S. S. *Covington* was struck by a torpedo on the night of July 1 at 9.17 o'clock. The torpedo struck just forward of the engine room bulkhead and the engine room and fireroom were rapidly flooded.

With its motor power gone the vessel was helpless and, facing the possibility of the torpedoing of another ship in the convoy, the *Covington* was temporarily abandoned. This was done in excellent order and the officers and crew taken on board a destroyer. The submarine was not seen.

Efforts at Salvage Fails.

At daybreak the captain, several officers, and a number of members of the crew returned to supervise salvaging operations. Another vessel and two tugs took the *Covington* in tow, in the effort to get her to port, but she was too badly damaged to keep afloat and sank.

All the officers and crew except six were taken to a French port, none of those landed being seriously injured. The six men of the crew who, at last accounts, were still missing are:

WORLD-WIDE PRIDE IN AMERICA SHOWN IN CABLES TO PRESIDENT

Fourth of July Greetings from England, Italy, and Australia.

FAITH IN THE REPUBLIC

British Premier Sends Congratulations on U. S. Ship Launchings.

The White House makes public the following messages received by the President and his replies:

FROM MR. BALFOUR TO LORD READING.

JULY 4, 1918.

The following for the President from the prime minister:

Have just heard that 100 ships are being launched in the United States to-day. Heartiest congratulations on this magnificent performance.

JULY 5, 1918.

MY DEAR MR. AMBASSADOR: I am very much obliged to you for sending me a copy of the telegram received last night from the prime minister conveying his congratulations on the launching of 100 ships in the United States yesterday, and beg that you will be kind enough to transmit to the prime minister the following reply:

Your personal telegram of yesterday is most welcome and will give great pleasure to those who are working with enthusiasm and success to fill the sea with ships that shall, if only by their very number, make the successful conduct of the war absolutely certain. Please accept my personal thanks for your message.

I am, My Dear Lord Reading,
Cordially and sincerely, yours,
WOODROW WILSON.

HIS EXCELLENCY,
THE EARL OF READING,
Ambassador of Great Britain.

FROM MR. BALFOUR TO LORD READING.

JULY 4, 1918.

Following from the Governor General of the Commonwealth of Australia:

The Commonwealth of Australia would be glad if His Majesty's ambassador at Washington can be requested to communicate the following message to the President of the United States of America:

Australia warmly greets America on its natal day; it notes with pride and gratitude that although only 14

months have elapsed since the memorable declaration of war by the peace-loving nonmilitary United States against the enemies of civilization and small nations, the brave armies and illimitable resources of the great English-speaking democracy are already a powerful factor in the world fateful struggle against militarism; springing from common family stock, Australia looks to the day when America will clasp hands across the ocean with Australia as a brother, thus making real the family tie and securing the destiny of the liberty-loving peoples of the Pacific.

JULY 5, 1918.

MY DEAR MR. AMBASSADOR:

May I not thank you for sending me a copy of the telegram from Mr. Balfour in which he conveys a message to me from the Commonwealth of Australia on the occasion of the Fourth of July celebrations? I am taking the liberty of inclosing a reply, which I would be obliged if you would send by such channels as you think proper to the governor general of the Commonwealth of Australia:

The people of the United States send their warmest greetings to the people of Australia. They sincerely appreciate the friendly sentiments of your message and wish in reply to express their pride in being associated with the gallant sons of Australia in this great struggle which illustrates in everything that lies at the heart of it the deep convictions of right and of liberty which underlie the political life of both people. I am happy in their name to send their heartiest fraternal greetings.

Cordially and sincerely, yours,
WOODROW WILSON.

HIS EXCELLENCY,
THE EARL OF READING,
Ambassador of Great Britain.

FROM THE GOVERNOR OF WESTERN AUSTRALIA TO LORD READING.

JULY 4, 1918.

Please convey the following message to the President:

On behalf of the people of Western Australia whose sons are fighting beside the sons of America for liberty and freedom, I beg to convey their fraternal greetings to the citizens of the United States, through you, their Chief Magistrate, on this their most honored day.

WILLIAM ELLISON MACARTNEY.

JULY 5, 1918.

MY DEAR MR. AMBASSADOR:

I have been gratified to receive the telegram from the Governor of Western Australia conveying on behalf of the people of that Province fraternal greetings to the citizens of the United States, and beg that you will be kind enough to convey to the Governor of Western Australia the following message:

Your message on behalf of the people of Western Australia has been received with the greatest satisfaction. Will you not convey to them sincere and hearty greetings of friendship from the people of the United States, who feel very sensible of the ties of comradeship which now bind the two people together in a common sacred cause?

Sincerely, yours,
WOODROW WILSON.

HIS EXCELLENCY,
THE EARL OF READING,
Ambassador of Great Britain.

Asks Press Not to Mention the Location or Movement of Any Ships in U.S. Waters

Secretary Daniels issues the following request:

To the Press in America:

The appearance of submarines on the Atlantic Coast makes it imperative that no mention should be made in any newspapers, either in the advertising or news columns, of the sailing or departure, or location, or supposed location of any ship in American waters.

This information conveyed by advertising is as dangerous as in the news columns, and I am making this request to all the newspapers in the country in the assurance that they will cooperate with the Government in its efforts to prevent any information about ships reaching submarines which may be off the American coast.

JOSEPHUS DANIELS,
Secretary of the Navy.

Secretary Daniels explains that this does not indicate any new submarine activity off the American coast but is a measure of general precaution, taken on the recommendation of the Office of Naval Intelligence.

FROM THE GOVERNOR OF THE VIRGIN ISLANDS TO THE PRESIDENT:

JULY 4, 1918.

FOR PRESIDENT OF THE UNITED STATES:

Upon the great national holiday inhabitants of St. Thomas and St. John renew to you their pledge of loyalty and express appreciation of interest manifested in islands' welfare and their generous treatment. May the spirit of the glorious anniversary inspire anew the sons of America now bravely battling for democracy, and speedy victory reward their noble sacrifices.

COLONIAL COUNCIL ST. THOMAS AND ST. JOHN.

JULY 5, 1918.

TO THE GOVERNOR OF THE VIRGIN ISLANDS:

Please convey to the inhabitants of St. Thomas and St. John, on behalf of their fellow Americans of the United States, very warm thanks for their message of loyalty and brotherhood which you have been kind enough to convey, and assure them of the very great satisfaction we all feel that the islands are now so vitally associated with us, as well as of the sincere interest of the whole country in their welfare.

WOODROW WILSON.

FROM THE MAYOR OF FLORENCE, ITALY, THROUGH THE AMERICAN EMBASSY AT ROME:

JULY 4, 1918.

The people of Florence, assembled in the Piazza della Signoria in the presence of His Excellency Minister Crespi, as representative of the Government, and of the political and military authorities and of the representatives of the communes and provinces of Tuscany, proclaim you an honorary citizen of Florence, solemnly ratifying the deliberations of the common council which I have delivered to the representative of your Government. The people of Florence have desired in this way, on your sacred Day of Independence, to render homage to you personally, Mr. President, and to render still deeper and still more fruitful the current of sympathy which has come into being between the young American Nation and the old Commune of Florence. As a fellow citizen, the mayor,

PIER FRANCESCO SERRAGLIO.

JULY 5, 1918.

TO THE AMERICAN AMBASSADOR AT ROME:

Please take the earliest opportunity of conveying to the people of Florence an expression of my warm gratitude to them for the great honor they have done me and my pride in being a citizen of the great city they represent. I am sure that the people of the United States will feel as I do that the municipal authorities and people of Florence have sought in this way to show their generous sense of unity with the people of the United States in this crisis of freedom as well as their gracious wish to honor me. The people of Florence may rest assured that the heart of our people is with them and that we shall hope in every possible way to show our interest in their welfare and security.

WOODROW WILSON.

From the President of Mexico.

The following telegram was received yesterday by President Wilson from the President of Mexico:

HIS EXCELLENCY, WOODROW WILSON,
President of the United States of America, Washington.

I take great pleasure in sending to Your Excellency and to the American people, on the occasion of the glorious anniversary celebrated on this day, the most cordial felicitations of the Mexican people and Government. I am glad at the same time to express to Your Excellency my most sincere and fervent wishes for the prosperity of the United States and for the very early advent of the everlasting reign of peace and justice in both continents.

World-wide Celebrations of July 4 Indicated in the Many Cablegrams Received at the State Department

A telegram to the Department of State from the American ambassador at Rio de Janeiro says that Independence Day was being commemorated as a national holiday in Brazil. There was much popular enthusiasm. The streets were decorated and there was a parade of Brazilian naval, military, and volunteer forces during the afternoon and a popular torchlight procession in the evening. All of the newspapers published sympathetic articles appreciative of President Wilson and America's disinterested fight for democracy.

The American colony held a religious service on the evening of July 3 and a patriotic celebration on the 4th, to which all their friends were invited. Addresses were delivered by Bishop Lucien Kinsolving and others.

Celebration at Algiers.

A telegram from the American consul at Algiers said that a parade and a most enthusiastic demonstration by the civil and military establishments in honor of the United States took place on the evening of July 3 before the American consulate. It was a unique occurrence in the history of the city. The Fourth was a complete holiday. A review of troops took place in the forenoon, with official visits from colonial, municipal, and other authorities to the consulate. There were other festivities throughout the day and evening. Arches, a statue of liberty, and other elaborate decorations were erected. The consul states that the celebration comprised an unprecedented homage to a foreign nation.

The American consul at St. Pierre, Martinique, said that there are no Americans there, but that July 4 would be celebrated by the French colonists and the Colonial Government as a national fete.

Observed at Saltillo, Mexico.

The allied club at Saltillo, Mexico, sent the following telegram to the American consul at Piedras Negras:

All business houses with the exception of German closed to-day in honor your country. Accept our congratulations.

The American consul at Marseille has reported that the Marseille Chamber of Commerce unanimously voted on July 2, upon the occasion of the Fourth of July, to request the French Government that the name "Bassin President Wilson" be given to the largest dock of that port. The chamber's action, the consul stated, has the enthusiastic indorsement of the entire population of Marseille.

Telegram from Brisbane.

A consular telegram to the Department of State says that the mayor and council of Brisbane requested the transmission of the following cablegram to the President of the United States:

On this the national day of the United States of America, the mayor and alderman of the city of Brisbane, the metropolis of Queensland, for and on behalf of the citizens, tender their felicitations to the people of the United States of America on their 142 years of free and independent Government and express their appreciation of the whole-hearted manner in which the United States of America have entered upon, and, in conjunction with Great Britain and her allies, are prosecuting the war against the enemies of liberty, freedom and justice.

Roumanian Colony at Paris.

The American ambassador at Paris has reported that representatives of the Roumanian colony of Paris called upon him on July 3, stating that in a desire to participate in the great manifestation of friendship and admiration which is taking place in France on the Fourth of July, they send to the President the following message:

To His Excellency President Woodrow Wilson: The Roumanian colony of Paris have the honor to present to you their respectful homage on the occasion of the national fete of liberty. They express the most ardent hopes for the victory of the armies of the great American democracy who are fighting so generously and with such noble valor for the cause of liberty for all oppressed peoples.

Holiday at Tunis.

A consular telegram from Tunis says that the Fourth of July was enthusiastically celebrated publicly and privately throughout the regency. A holiday was proclaimed. The city of Tunis was dressed with flags and there was a review and speeches. At night there was a torchlight procession of troops with music.

Celebration at Havre, France.

The American consul at Havre has sent the following telegram to the Department of State:

"The authorities and inhabitants of Havre and the entire region honored the United States by a most enthusiastic and impressive celebration of Independence Day.

"The municipal council of Havre passed cordial resolutions, which were delivered to me on the Fourth by Mayor Morgand, at a brilliant ceremony at the Hotel de Ville, attended by distinguished representatives of all the allied governments."

A consular telegram to the Department of State from Dakar says that Independence Day was gloriously celebrated by all the French in West Africa.

The American consul at Swansea has sent the following text of a resolution adopted by the Swansea Chamber of Commerce:

"That this meeting of members of the Swansea Chamber of Commerce, on Independence Day, July 4, tenders to Mr. Moorhead, the United States Consulate, Swansea, and through him to President Wilson and the people of America, the expression of their heartiest greetings and felicitations and their admiration of the whole-heartedness that America has demonstrated in the fight for liberty and justice, expressing also their full confidence in the complete success of the allied cause."

The mayor of Swansea issued proclamations calling on all citizens to decorate buildings with American flags.

FIVE CENTRAL CAMPS NAMED FOR TRAINING CIVILIANS AND ENLISTED MEN FOR OFFICERS

ARE TO BE RUN CONTINUOUSLY

New Class to be Admitted Each Month—Course to be Three and Four Months According to the Branch of Service.

The War Department authorizes the following:

Five Central Officers' Training Camps, at which civilians and enlisted men will be trained for commissions in the Officers' Reserve Corps, have been established by the War Department. Camps for Infantry training are located at Camp Lee, near Petersburg, Va.; Camp Gordon, near Atlanta, Ga.; Camp Pike, near Little Rock, Ark.; a camp for Field Artillery training at Camp Taylor, near Louisville, Ky.; and a camp for machine-gun training at Camp Hancock, near Augusta, Ga.

To Run Continuously.

These training schools will be run continuously, a new class being admitted monthly. The course of training will be for four months at the Infantry and Machine Gun Schools and about three months at the Field Artillery School. These schools are open to qualified enlisted men of all branches of the service, except Coast Artillery Corps, Signal Corps, and labor units, and also to a limited number of civilians.

To be eligible for admission to a central training school, candidates, either civilians or enlisted men, must be between the ages of 20 years and 8 months and 40 years; must be citizens of the United States and not have been born in any of the countries with which the United States is at war or allies of such countries. Enlisted men must have the moral, educational, and physical qualifications required of an officer. Civilians must be graduates of a high school or have pursued an equivalent course of instruction; must be of good moral character; and must have the physical qualifications required for a commission in the Officers' Reserve Corps.

Field Artillery Candidates.

For the Field Artillery candidates must, in addition to the above, possess a thorough understanding and working knowledge of arithmetic, algebra, to include quadratic equations, and plane geometry. A knowledge of trigonometry and the use of logarithms is desirable. Men having had a previous scientific and technical education and training are most desirable, particularly those educated and trained as civil, mechanical, electrical, mining, or architectural engineers.

Civilians possessing the requisite qualifications as to education, character, and physique, who desire to attend an officers' training school, will apply for information and necessary blank forms to the Army officer on duty as professor of military science and tactics at the educational institution nearest the residence

(Continued on page 11.)

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

$6,000,000 IN ALLOTMENTS PAID BY QUARTERMASTER'S OFFICE

The War Department authorizes the following statement from the office of the Quartermaster General:

All allotments payable by the Central Disbursing Division, office of the Quartermaster General, formerly payable by the depot quartermaster, were completed with the third instant. This included checks to the designated allottees of officers and enlisted men, both active and retired, wherever stationed. The amount paid was approximately $6,000,000, and covered allotments made by some 800,000 allotters. These payments included checks to the dependents of officers whose accounts had been left in Washington for settlement and officers on foreign service who had made allotments to their families, as well as enlisted men. This payment also included checks for the settlement of accounts of enlisted men in detachments located in and around Washington whose rolls had been submitted for settlement.

FOOD DEALER PENALIZED.

The U. S. Food Administration issues the following:

Fifteen hundred dollars has been given to the Red Cross by Thomas Duggan, wholesale grocer at Savannah, Ga., in lieu of prosecution by the Food Administration for profiteering, for selling wheat flour without substitutes, and for doing business without a license.

Contribute to the Red Cross fund.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 51.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES, *July 4, 1918.*

Section A.—In the course of successful patrolling activity in Picardy and in the Chateau Thierry region we captured prisoners. In Picardy a machine gun was also taken. Hostile planes which approached our lines near Vaux and in the Vosges were driven back by our fire.

Our troops cooperated with the British in their attack made to-day.

Section B.—Near Cantigny one of our raiding parties this morning encountered an enemy raiding party of 70 ready to start out. Twenty-five of our men penetrated the enemy's wire, killing at least 20 Germans, wounding others, and capturing three with machine gun.

Further details are now available concerning the German counterattack in the vicinity of Bois de la Roche in the early morning of July 2. The attack broke down completely under our artillery, rifle, and machine-gun fire. Besides inflicting heavy losses in killed and wounded our troops took 140 prisoners. These were included in the total of 500 previously reported. For some time after the counterattack the enemy kept up a continuous harassing fire on our front lines, and during the day of July 2, intermittent fire on our front lines and on points in our rear areas. Our own batteries were equally active. The German air forces were also active, but met considerable opposition from our airplanes, whose activity is increasing. Conflicts occurred of which the results have not been reported. In the German rear areas troops were in position around Bonnes Wood and near Givry, Epaux, and the Picardy Farm. During the night of July 3 to July 4 a hostile infantry showed some slight activity, directing bursts of machine-gun fire on the right of our line and sending out a patrol which attempted to occupy a house north of Vaux. The patrol was easily driven back. At the same time two of our own men penetrated the German lines in the same region and brought back two prisoners. Throughout the night the hostile artillery shelled our front and rear positions on the right of our line using more than the usual amount of gas. American artillery vigorously replied. During the day of July 3 there was some machine-gun fire and sniping of the right half of our sector, but such aggressiveness as was shown by the enemy was developed mainly by his air forces. Once again, however, the American planes showed themselves able to cope with the situation, driving some of the German machines back over their own lines.

In Picardy the day extending from noon, June 30, to noon, July 1, was marked only by the aggressiveness of the enemy's airplanes. The German machines were more active in combat than has been the case recently. They were fired on by our own planes and antiaircraft batteries. No results are as yet reported. The enemy's artillery fire was of moderate intensity and was concentrated only on some of our positions in the vicinity of Broyes and Villers Tournelle. Very few shells fell on our front lines. His machine-gun fire, originating mainly from the vicinity of Chateau Jenlis, was directed principally on our lines near Cantigny.

In the Mulhouse sector on July 1 the feature of the day was the attempt of the enemy to raid our trenches after artillery preparations. In connection with this our advance positions between the Doller River and Balschwiller were heavily bombarded between 3 o'clock in the morning and 5 o'clock in the morning. The bombardment involved the use of a very large number of shells of small, medium, and large caliber, but our casualties were exceptionally light. The raid itself was entirely repulsed by our counter barrage. Besides the artillery activity on both sides connected with the attempted raid much shelling occurred during the day. The most notable concentration on the part of the enemy was one placed in the vicinity of the Doller River shortly after noon. Our own batteries in conjunction with the French artillery were active along the whole front. The German machine guns kept up a continuous fire from the direction of Pont d'Aspach and Burnhaup le Haut. Between 7 o'clock in the morning and 6 o'clock in the evening a number of German planes circled over our lines, and over the enemy's advanced positions. Some penetrated our lines but were forced back by antiaircraft batteries in our rear areas. During the night the enemy offered a particularly fine exhibition of signal lights, including 300 flares and rockets at various points along the front, and red and yellow balloons. Carrier pigeons were seen flying from his front to his rear positions. Our own infantry was active in patrol and raiding operations. One party entered the German trenches at Pont d'Aspach on the night of June 30–July 1. Results are not yet reported.

In the Woevre sector the day of June 29 to June 30 passed quietly for our troops. The enemy's artillery delivered a scattered fire which included moderate concentrations during the early evening and about midnight on the Bois de Jury. A small amount of gas was used. His machine gun and rifle fire were also light

(Continued on page 6.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

Without a roll call and with only informal discussion the Senate yesterday afternoon passed the bill authorizing a further issuance of $8,000,000,000 in Liberty bonds. Other measures passed included the following: A resolution by Mr. Frelinghuysen directing the Interstate Commerce Committee to investigate the taking over by the Railroad Administration of the Hudson tubes connecting New York City and Jersey City and Newark, N. J. A resolution by Mr. Myers requesting the President to issue a proclamation calling on the American people to observe the noon prayer during the period of the war. A resolution by Senator Saulsbury directing the Secretary of Commerce to furnish the Senate with information regarding the advisability of connecting Chesapeake Bay, Delaware River, New York Bay, and Massachusetts and Buzzards Bay by a series of canals. A resolution by Senator Sutherland asking the Secretary of War and Postmaster General to inform the Senate regarding the movement of mail to and from American troops abroad and the steps being taken to improve the service.

Agreement on Deficiency Bill.

Conferees on the general deficiency bill reached an agreement. The measure carries a total of $995,000,000, largely for clothing for the Army and housing accommodations for war workers. The housing item was compromised at $100,000,000. Conferees on the rivers and harbors appropriation bill reached an agreement. The bill carries a total of $23,994,600.

A complete and final agreement was reached yesterday afternoon on the Army appropriation bill carrying a total of $12,000,000,000. The Senate amendment for the training and equipment in the United States of foreign troops, especially those from Latin America, was stricken out. The provisions for the Slavic Legion was retained, but the Senate amendment for a Russian Legion was eliminated. The Senate amendment to elevate Provost Gen. Crowder to the rank of lieutenant general was rejected, Gen. Crowder having sent Chairman Chamberlain, of the Senate Committee, a letter declining the promotion provided for by the Senate amendment. He gave credit to many other officers and civilians for the success of the administration of the selective-service law and said he did not wish to be singled out alone for promotion on account of any work he may have done. Increases in the Medical Corps agreed upon were two assistant surgeon-generals with the rank of major general and two with the rank of brigadier general in the Regular Army, and a major general and two brigadiers for each 1,000,000 in the National Army. A Senate amendment basing the Army draft quota on the number of men in class 1 instead of upon the State population was retained, as was the House provision granting the President unlimited authority to increase the Army by calls under the draft law.

Senator Saulsbury, of Delaware, introduced a resolution proposing the formation of an alliance between the United States, Great Britain, and Japan to keep Germany out of the Pacific. When Russia and China have established a sufficiently stable government they are to be permitted to become parties to the alliance.

From the Judiciary Committee a favorable report was made on the bill passed by the House providing for the equipment of the Federal penitentiary at Atlanta for the manufacture of cotton goods for the Government to be used for war purposes. The Commerce Committee gave its approval to a bill directing the Commisioner of Patents to recognize the international registration of trade-marks by the Pan-American Bureau at Habana as valid, this being intended as a substitute for proposed amendments to the present trade-mark law designed to carry out the convention signed in 1910 by all North and South American countries. The Finance Committee favorably reported House bill permitting the Bureau of War Risk Insurance to insure vessels of friendly nations when under charter to the Shipping Board or citizens of the United States, or when carrying cargoes for the Government or American citizens.

HOUSE.

After discussion continuing through yesterday afternoon, the House late last evening passed the resolution empowering the President to take over the telegraph, telephone, cable and radio systems. The vote by which this action was authorized was 221 to 4. The resolution now goes to the Senate. During the discussion Acting Minority Leader Gillett, of Massachusetts, paid a tribute to the President. He asked that the address delivered by the Executive at Mount Vernon on the Fourth of July be printed in the Record, and added: "By it the President demonstrates that he is the ideal spokesman for the American people in this world crisis."

The conference report on the rivers and harbors bill was agreed to by a vote of 110 to 103. House conferees yielded on the Senate increase in the appropriation for Mobile Harbor. The Senate also adopted the conference report.

DEPARTMENT DENIES RUMORS.

Reports of Tax on Broom Corn Are Pronounced Ridiculous.

The United States Department of Agriculture issues the following:

The latest rumor intended to discourage food production comes from Colorado, where, according to the United States Department of Agriculture, farmers are being told that the Government will tax broom corn and other crops from $5 to $6 an acre. This latest lie is ridiculous, according to the department and the Bureau of Internal Revenue. D. C. Roper, Internal Revenue Commissioner, states that there is no foundation for it. Such taxes, it is explained, can be levied only by act of Congress.

The Department of Agriculture warns against further attempts to discourage production by the circulation of rumors. Farmers and others who hear such rumors concerning food production are urged to communicate at once with their local authorities or county agents in order that action may be taken to suppress them.

GERMAN HIGH COMMAND IS PREPARING HEAVY ASSAULT

(Continued from page 1.)

"It is perfectly evident that this delay is preparatory to a heavy assault in force by the German high command, and the present condition of affairs due our mean anything but that. They are reorganizing their troops, filling up [illegible], and preparing to try it again.

"With reference to the American program, as you have been told during the week, we have embarked a million men and we are now going after the second million."

Supplies for Troops.

In answer to specific questions, Gen. March said:

"We have nothing official on the statements in the press that supplies intended for the Russians are going to Americans. So far as I know there is not a word of truth in it. When we have American troops serving with the British we are furnished with exactly the same supplies the British troops get, and when we have American troops serving with the French we are furnished with supplies by the French, and that is always a matter of subsequent adjustment. What is furnished is replaced, paid for, or covered in some other way. When part of our troops are scattered and the entire service of supply is in the hands of our allies it is absolutely necessary that they should supply our troops, as it would be impossible for us to bring up, from our own base, supplies for our troops.

"There is nothing to give out on the subject of Russia.

"So far as our information goes the Germans did not use large bodies of cavalry in the recent drive."

Gas Service.

"The matter of the use of gas in our service has recently been consolidated, as has been announced to the press, by organizing what we call the chemical warfare service, under Maj. Gen. Sibert, and this under presidential order has taken over the Bureau of Mines and experiment stations heretofore conducted by a great number of agencies, and is now being pressed forward under Gen. Sibert into a very large and important section of Army work. Chemical service in France was formerly called the gas service. Gen. Pershing has been directed to make his organization conform to the organization adopted here, and the chemical warfare service is the title now given to that section in France also. In that connection the tribute which has been paid to the fine work of our chemists under the Bureau of Mines is thoroughly deserved. They have really done unusually good work, but the work now coming under one directing head will show the fine results achieved from unity of command everywhere. In order to have success in modern war you can not have four or five men doing the same thing."

RELIEVED FROM FLYING DUTY.

Special Orders, No. 146:

145. Maj. Albert D. Smith, junior military aviator, Signal Corps, is announced as being relieved from duty requiring him to participate regularly and frequently in aerial flights from June 1, 1918.

AMERICAN OFFICIAL COMMUNIQUE

(Continued from page 1.)

and scattered. His airplanes flew [illegible] time to time, but on [illegible] occasion were driven back by American machines and by antiaircraft guns. During the night a large number of flares were lighted along his entire front. A [illegible] balloon was found by us containing copies of La Guerre Qui Vient, L'Anglais tel qu'il est, and Gazette des Ardeness.

In the same sector the day of June 30 to July 1 was marked only by activity in the German rear areas. Men on foot, men on horseback, trucks, and wagons were seen on the roads, and working parties were observed. The enemy's airplanes were normally active, while the number of balloon ascents was above the average. None of the balloons remained up longer than an hour and a quarter. The enemy's batteries showed slightly increased activity, his antiaircraft batteries being greatly on the alert. The area which seemed especially singled out for shelling was the Haslett wood. In this vicinity some gas was used. During the night the German lines were again lighted up with flares, while star shells and rockets were sent up in great numbers.

The Commander in Chief has awarded distinguished service crosses to the following officers and enlisted men for acts of gallantry, as set forth after their names:

CORPL. RAYMOND W. BOONE, "After receiving three severe wounds, he continued in the advance on Bouresches, France, on June 6, 1918. Having been sent to the rear, he returned close to the advanced lines and there assisted in bringing in wounded."

CORPL. HARRY B. FLATCHER, Marines. "After being severely wounded in the capture of Bouresches, France, on June 6, 1918, he refused to go to the rear for treatment, remaining at his post and urging on his men to renewed efforts."

CORPL. DAVID L. SPAULDING, Marines. "He returned to the front line encouraging his men after having been sent to the rear with a severe wound in the advance on Bouresches, France, on June 6, 1918."

PVT. ALBERT E. BROOKS, Marines. "At Bouresches, France, on June 6, 1918, he was conspicuous for the heroic action of placing his body in front of his platoon leader, while under heavy machine-gun fire, in order that he might dress the latter's wounds. He was shot twice in the hip while shielding the body of his leader."

PVT. JOHN G. FLECKEN, Marines. "During the capture of Bouresches, France, June 6, 1918, twice hit in the leg, he dragged his autorifle 200 yards forward, opened fire on an enemy machine gun and silenced it."

PVT. ERIEA C. HUFFSTEDER, Marines. "After being severely wounded in the occupation of Bouresches, France, on June 6, 1918, he refused to go to the rear. He remained and assisted with the wounded, displaying great self-sacrifice and devotion to duty."

FIRST LIEUT. JULIUS C. UPGAWELL, Marines. "Having been previously wounded in the bombardment of La Cenco Farm, he refused to be evacuated, remaining with his company and conducting his platoon with marked bravery and skill in an assault on a formidable machine gun position until seriously wounded on June 6, 1918."

CORPL. HAROLD J. RANDLES, Marines. "In the Bois de Belleau on June 6, 1918, in delivering messages, voluntarily chose the most direct route through a machine gun barrage to deliver information which prevented the bombardment of positions that had just been occupied. He chose the path of danger to serve his comrades because it was the shortest."

CORPL. DONALD R. SHEAFF, Marines. "In the Bois de Belleau on June 6, 1918, in delivering messages, voluntarily chose the most direct route through a machine gun barrage to deliver information which prevented the bombardment of positions that had just been occupied. He chose the path of danger to save his comrades because it was shortest."

CORPL. JOHN J. INGALLS, Marines. "Wounded in the assault on machine gun positions in the Bois de Belleau, France, on June 6, 1918, he refused to be evacuated, assisting in the evacuation of the wounded, thereby displaying qualities of self-sacrifice and devotion to duty."

CORPL. RAY W. CHASE, Marines. "Assumed command of his platoon in the attack on enemy gun positions in the Bois de Belleau on June 8, 1918, during which they captured two machine guns and killed their crews. He did not retire from the action until all his men had been killed or wounded."

CORPL. FRANK A. VIAL, Marines. "Although exposed to fire from strongly fortified machine gun positions in the Bois de Belleau on June 8, 1918, he repeatedly carried messages from one post to another. In the face of a heavy machine gun fire he volunteered and brought to its position a detachment which had been left to hold a point while companies were being reorganized."

CORPL. FRED W. HILL, Marines. "Regardless of personal danger he showed conspicuous bravery in carrying ammunition from a dump into fighting line in the face of heavy machine gun and rifle fire from the enemy in the Bois de Belleau on June 8, 1918. Learning of the need of hand grenades in the assault against strong enemy machine gun positions, and without waiting for orders, carried same to that point."

FIRST LIEUT. JAMES McB. WELLERS, Marines. "On June 6, 1918, at Bouresches, France, carried an important message through heavy artillery and gun-shell fire and delivered same, although seriously wounded, making a report of value at a critical stage."

PVT. EARL BELFRY, Marines. "He showed great courage in the capture of Bouresches, France, on June 6, 1918, entering the town after being wounded and taking a leading part in causing the machine guns of the enemy to evacuate."

PVT. JAMES W. CARTER, Marines. "After having been wounded in the capture of Bouresches, France, on June 6, 1918, he displayed remarkable energy and courage in fearlessly attacking superior numbers of the enemy and materially assisted in their defeat."

FIRST LIEUT. P. H. HARLEY, Marines. "In the Bois de Belleau, on June 6, 1918, displayed coolness, judgment, and utter disregard for danger in leading platoon in its objective under heavy fire."

CORPL. JOSEPH A. GARGES, CORPL. BENJAMIN TILGHMAN, CORPL. HOWARD CHILDS, and PVT. HERMAN L. McLEOD, Marines. "These four men were prominent in the attack on enemy machine-gun position in the Bois de Bellieu on June 6 and 8, 1918; were foremost in their company at all times, and acquitted themselves with such distinction that they were an example for the rest of their command."

FIRST LIEUT. JAMES F. ROBERTSON, Marines. "Displayed marked courage and resourcefulness in capturing the town of Bouresches, France, with one platoon of his company, on the night of June 6, 1918. In the face of a heavy machine-gun barrage, he entered the town and heroically withstood all attempts to dislodge him."

FIRST LIEUT. CHARLES I. MURRAY, Marines. "Displayed conspicuous bravery and efficiency during the advance upon the town of Bouresches, France, on the night of June 6, 1918. Having been shot through both arms, he refused assistance and walked to the rear alone."

CAPT. RANDOLPH T. ZANS, Marines. "While holding the town of

KILLED IN AIRPLANE ACCIDENT.

Two Naval Airmen Dead in France, Department Hears.

The Navy Department is informed that Thomas MacMillan Weddell, landsman for quartermaster, aviation pilot, and Edward Charles Kneip, machinist's mate, aviation observer, were killed in an aviation accident in France on July 1.

Weddell's next of kin, his father, Thomas R. Weddell, resides at 82 North Lincoln Street, Hinsdale, Ill. Kneip's next of kin, his mother, Mrs. Charles E. Kneip, resides at 168 East End Avenue, New York.

AMERICAN OFFICIAL COMMUNIQUE

Bouresches, France, on the night of June 7 and 8, 1918, he displayed such bravery and coolness as to inspire the garrison to successfully resist heavy attack by machine-gun fire and infantry.

PVT. WILET A. STAIR, Marines; PVT. EARL C. ROCKWELL, Marines. "Near Torcy, France, on the night of June 4, 1918, as members of a reconnoitering patrol, displayed great courage and devotion to duty by fearlessly entering the German lines and obtaining there valuable information."

SECOND LIEUT. WILLIAM B. MOORE, Marines. "On June 6, 1918, he volunteered and took a truck load of ammunition and material into the town of Bouresches, France, over a road swept by artillery and machine-gun fire, thereby relieving a critical situation."

SERGT. MAJ. JOHN H. QUICK, Marines. "On June 6, 1918, he volunteered and assisted in taking a truck load of ammunition and material into the town of Bouresches, France, over a road swept by artillery and machine-gun fire, thereby relieving a critical situation."

SECOND LIEUT. FREDERICK C. WHEELER, Marines. "On the 5th of June, 1918, near Bouresches, France, he was conspicuous for his bravery in remaining in action, although twice wounded, refusing to be evacuated until wounded a third time, and then endeavoring to return to his command."

SECOND LIEUT. WILLIAM A. EDDY, Marines. "Near Torcy, France, on the night of June 4, 1918, while leader of a reconnoitering patrol, displayed great courage and devotion to duty by fearlessly entering the German lines and obtaining there valuable information."

The Commander in Chief has also awarded the distinguished-service crosses to the following men posthumously:

PVT. HERBERT D. DUNLAVY, Marines. "Showed conspicuous courage in capturing a machine gun single-handed during the street fighting in Bouresches, France, when that town was captured on the night of June 6, 1918. This brave soldier was killed in the repulse of the enemy on the night of June 7–8, 1918."

SERGT. GROVER C. OKELLEY, Marines. "In the operations against the enemy in the Bois de Belleu, France, on June 6 and 8, 1918, displayed the greatest qualities of courage and leadership in the assault against strong enemy machine-gun positions. This brave soldier was killed in performance of his duty."

DENTAL SURG. WEEDON C. OSBORNE, United States Navy. "During the advance on Bouresches, France, on April 6, 1918, at great risk of his life, performed heroic deeds in aiding the wounded. He was struck by a shell while carrying an officer to a place of safety."

Addresses of Men Who Won Service Crosses for Gallantry in Action

The War Department authorizes the following statement from The Adjutant General's Office:

The following are emergency addresses of officers and men of the American Expeditionary Forces mentioned in section B, Communique No. 49:

Pvt. (first class) Rexford H. Dettre, Field Artillery. Mrs. J. R. Dettre, mother, 2331 Green Street, Philadelphia, Pa.

Corpl. Louis Liberman, Field Artillery. M. Kline, uncle, 712 Ashland Building, Chicago, Ill.

Sergt. (first class) Theran E. Dalrymple, Engineer Corps. Asa C. Dalrymple, father, 19 Ruth Place, Rochester, N. Y.

Second Lieut. Welborn S. Priddy, Infantry. Emerson Priddy, father, 1650 East Fifty-third Street, Chicago, Ill.

Corpl. Arthur H. Quick, Field Artillery. Mrs. E. Quick, mother, 104 South Parker Street, Kansas City, Mo.

Second Lieut. Alton P. Wood, Infantry. Nathaniel Wood, father, 327 Huntington Avenue, Boston, Mass.

Pvt. (first class) John B. Walters, Infantry. S. Walters, father, 519 Washington Street, Gadsden, Ala.

Pvt. Francis P. Vallely, Field Artillery. Mary Grady, aunt, Pratt City, Ala.

The Commander in Chief has awarded distinguished-service crosses to the following officers and men for the acts of gallantry set forth after their names:

MAJ. EDMUND B. COLE, Marines. "In the Bois de Belleu, on June 10, 1918, displayed extraordinary heroism in organizing positions, rallying his men, and disposing of his guns, continuing to expose himself fearlessly until he fell. He suffered the loss of his right hand and received wounds in upper arm and both thighs."

SURG. RAY G. FARWELL, Marines. "On June 6, 1918, he personally supervised the evacuation of his wounded commanding officer across a field exposed to fire of machine guns and snipers, thereby displaying the greatest qualities of self-sacrifice and fidelity to duty."

ASST. SURG. W. H. MICHAEL, United States Navy. "Displayed unusual courage on the morning of June 6, 1918, near Bois de Belleau when he established a dressing station in the open exposed to both shell and machine-gun fire. Under these conditions he worked for several hours, evacuating a large number of wounded."

The Commander in Chief also has awarded the distinguished service cross posthumously to the following officers and enlisted men of the Marine Corps:

CAPT. JOHN BLANCHFIELD, CAPT. DONALD F. DUNCAN, CAPT. JAMES McCOY, FIRST LIEUT. ORLANDO C. CROWTHER, DENTAL SURG. W. G. OSBORNE, SECOND LIEUT. CLARENCE A. DENNIS, SECOND LIEUT. WILLIAM C. PETERSON, SECOND LIEUT. C. C. ROBINSON, SECOND LIEUT. VERNON L. SOMERS, SECOND LIEUT. JOSEPH A. SYNNETT, MARINE GUNNER W. R. CORNELL, SECOND LIEUT. H. LESLIE EDDY, SECOND LIEUT. WALTER D. FRAZIER, SECOND LIEUT. THOMAS H. MILES. Killed in action at Chateau Thierry, France, June 6, 1918, they gave the supreme proof of that extraordinary heroism which will serve as an example to hitherto untried troops."

U. S. TRANSPORT IS TORPEDOED

(Continued from page 1.)

Ernest C. Anderson, fireman, third class, United States Navy. Mother, Mrs. Mary E. Hamm, 54 Winthrop Street, Lynn, Mass.

Joseph P. Bowden, seaman, second class, United States Navy. Mother, Mrs. Ellen Bowden, House No. 33, Mountain Lakes, N. J.

Ambrose C. Ford, fireman, second class, United States Naval Reserve Force; mother, Mrs. Elizabeth G. Ford, 32 Mount Vernon Street, Somerville, Mass.

William Henry Lynch, jr., fireman, first class, United States Navy; mother, Mrs. Margaret Lynch, 1260 Brown Avenue, Manchester, N, H.

Albert S. Payne, seaman, second class, National Naval Volunteers; mother, Mrs. Mary Payne, 35 Bement Avenue, West New Brighton, Staten Island, N. Y.

Lloyd H. Silvernail, seaman, second class, United States Navy; father, Farion A. Silvernail, Bainbridge, N. Y.

Was Former German Ship.

The *Covington* was one of the German ships taken over by this Government and was formerly the *Cincinnati*, having been renamed when she was put into the United States service. She was 608 feet long, 65 feet beam; gross tonnage, 16,339. She was used as a transport, but had no Army personnel or passengers aboard when she was torpedoed.

Vessels have been searching for the missing men, and the Navy Department awaited the report of the names of those missing, which was not received until to-day, before announcing the sinking of the ship.

60 More Women Telephone Operators Reach France

The Committee on Public Information, division on woman's war work, issues the following:

A fourth detachment of 60 women telephone operators in the uniform of the American woman's telephone unit has reached France for work with the American Expeditionary Forces, according to the announcement of the Civilian Personnel Section, Signal Corps, United States Army. One hundred and sixty women are now serving in this capacity with the American troops abroad.

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Forwarding and Delivery of Mail for United States Soldiers in Europe.

Otto Praeger, Second Assistant Postmaster General, recently issued a circular letter in reference to mail for soldiers in Europe, from which the following is quoted:

Mail for American troops stationed in England is transmitted by the Post Office Department to the Army post office, London, England, which gives the mail to the proper military authorities for delivery to the addressee.

Mail for Americans who may be serving in the English, the Canadian, or the French Army, is dispatched as foreign mail to the postal service of the foreign government with which such American is identified, and the delivery of such mail is effected by such Government.

Mail for members of the American Expeditionary Forces in France, including civilians and independent organizations attached to the American Expeditionary Forces, is handled by the United States Army postal service, which delivers the mail in bulk to the proper military mail authorities, who undertake the delivery of the letters, papers, or parcels to the individuals to whom they are addressed. All mail for the American Expeditionary Forces in France is made up in this country to companies and other units, and under military regulations is delivered by the postal authorities in France to the regular military mail orderlies or their agents, who upon returning to the camps or stations of the troops, undertake the delivery of this mail to the individuals to whom it is addressed, or if they can not deliver it, undertake to have it sent to such other unit to which the addressees may have been transferred. Should an addressee not be known in the regiment his letters are returned to the postal authorities, who endeavor to locate him at the general military headquarters. Should the addressee have been transferred to some other unit the mail orderlies are under instructions to readdress his letters to the proper unit. Every effort is being made by the American authorities in France to effect, as promptly as war conditions admit, the delivery of mail for our troops.

Complaints as to delay or failure to deliver letters, papers, or parcels arise, in the main, from the fact that persons communicating with our troops do not take into consideration that approximately 30 days are required from the time of mailing for a letter to reach the addressee, owing to the disturbed ocean traffic. By far the larger part of the mail is taken to France on the Army transports, which, of necessity, must give preference to men and supplies, and the movement of mail across the water consequently is very irregular. Again, the railroad transportation in France is strained to the utmost to meet military needs. Many persons who have complained to the Post Office Department have later advised that the mail is reaching the persons to whom it is addressed in a satisfactory manner. Their original complaints were due to not allowing sufficient time for their letters to get across and the answers to return.

Another cause of complaint is due to the insufficient manner in which letters are addressed. Thousands of communications, as well as parcels, reach the military terminals with an insufficient address, and weeks must sometimes elapse before it is possible to obtain the necessary information to complete the address. The English and French Governments refuse to forward letters which do not carry the complete address, and with the steady increase in the volume of mail from this country to soldiers in France the Post Office Department will shortly be compelled to follow the same practice and return to the senders all such pieces of mail.

Mr. Praeger further stated that after July 1 the delivery of mail to members of the Expeditionary Forces will be conducted under the jurisdiction of the War Department. The plans for a military postal express service under the direction of Lieut. Col. T. D. Howe, of the United States Army, were announced in THE OFFICIAL BULLETIN on June 11. Thus far mail for the Expeditionary Forces has been delivered by the Post Office Department to the "rail head" in France; that is, to the end of the railroad nearest the headquarters of the division or regiment for which the mail is intended. After July 1 the Army will assume jurisdiction over the delivery of this mail from the time it leaves this country. It is hoped that this transfer of jurisdiction may tend to hasten the delivery of letters to men in the Expeditionary Forces, especially to men who have recently arrived in the war zone and whose location is known only to the military authorities and for military reasons can not be disclosed to civilian employees of the Post Office Department.

To deliver a letter to a man in the American Expeditionary Forces takes on the average a little less than 30 days from the time the letter is put in the mail box in America until it is delivered to the mail orderly of the United States Army at the rail head in France. Some letters have made this trip in 17 days; in other cases it has taken 42 days, and 60 per cent of this mail makes this trip in from 20 to 25 days. This is somewhat remarkable when it is remembered that the sailing of fast vessels, such as are intrusted with this mail, is very irregular, and also because of the fact that the men and supplies which are pouring into France have tied up all rail transportation from the ports of arrival to the rail heads. Between 1,000,000 and 2,850,000 letters are carried upon each vessel.

The delivery of these letters after they leave the railway is, of course, subject to the uncertainties of war conditions. The importance of giving the "last unit"—for instance, the company—as well as the regiment to which a man belongs can not be overemphasized. If the letter bears merely the number of the man's regiment, or if the man is in the air service, the Quartermaster Corps, or some other organization which is not divided into companies, it is necessary to send the letter to the statistical division to ascertain where the soldier is stationed.

Effect of Unlimited Furloughs on Allotments and Insurance.

The Judge Advocate General of the Army recently rendered the following opinion in reference to questions as to the effect upon allotments, allowances and insurance of furloughs granted under the act of March 16, 1918. Under this act furloughs "with or without pay and allowances or with partial pay and allowances" may be granted to enlisted men to engage in civil occupations and pursuits. The questions asked and the answers thereto rendered by the Judge Advocate General are as follows:

Q. Whether allotments, compulsory and voluntary, and family allowances will be continued to soldiers who are granted (such) furloughs.

A. Compulsory and voluntary allotments in force on April 2, 1918 (date when regulations under the act went into effect) and family allowances based thereon, continue during the period of furlough. Sufficient pay is to be credited to the furloughed soldier to meet such allotments. If the furloughed soldier had no allotment, either compulsory or voluntary on April 2, 1918, neither allotment nor family allowances will continue during the period of furlough. In this connection, it must be stated that the decision of the Director of the Bureau of War Risk Insurance as to the payment of family allowances under such circumstances would be controlling.

Q. Whether a soldier who, while on such furlough, allows his insurance to lapse, will after the expiration of the furlough be entitled to apply for insurance as a new applicant or whether he must seek reinstatement under the terms of his original policy.

A. If a soldier while on furlough allows his war-risk insurance to lapse, he will not upon return to duty be entitled to be considered a new applicant for insurance, or have 120 days after such return to duty to apply therefor. He must seek reinstatement under the terms of his policy, which provides as follows: "If any premium be not paid, either in cash or by deduction as herein provided, when due or within the days of grace, this insurance shall immediately terminate, but may be reinstated within six months upon compliance with the terms and conditions specified in the regulations of the bureau."

Q. Whether, where such a furlough is granted with part pay, such part pay will be sufficient to meet the soldier's allotments, including those for insurance premiums and Liberty bonds.

A. Such "furloughed soldiers shall be given pay only sufficient to meet allotments in force on April 2, 1918, war-risk insurance and pledges on Liberty bonds."

Return of United States Sailors' Bodies on Warships and Transports.

The following reply recently received by the department of civilian relief from Rear Admiral W. C. Braisted, Surgeon General, United States Navy, indicates the policy of the Navy Department in connection with the shipment of the remains of deceased members of the Navy:

It is the desire and intention of the Navy Department to return to the United States and their homes the remains of all officers and men who lose their lives during the war. The only exceptions to this policy will be in the cases of those who die or are killed in France, where military laws prohibit the transportation of bodies during the war, and in other locations in the war zone where facilities for embalming and preparing the body are not available. Every endeavor will be made to have our ships and transports provided with facilities for preserving the bodies and returning them to this country.

TREASURY STATEMENT.

Washington, D. C., July 3, 1918.

Statement of War Industries Board to Producers and Consumers of Iron and Steel—Is Issued to Clear up Misunderstandings Regarding Practices to be Observed

The War Industries Board authorizes the following:

To all producers and consumers of iron and all manufacturers and consumers of iron and steel products:

In order that misunderstandings which have apparently arisen in some quarters as to the practices to be observed in the distribution of pig iron and of iron and steel manufactured products may be removed we invite careful consideration of the following:

1. All pig iron and steel manufactured products are now being shipped and delivered by the producer or manufacturer in accordance with the resolution of the War Industries Board adopted June 6, 1918, a copy of which resolution, marked for identification "Exhibit A," is hereunto attached and made a part hereof.

Priority Orders and Certificates.

2. Priority orders.—It will be noted that under the resolution of June 6, 1918, all orders covered by priority certificates shall be first provided for or filled and thereafter orders embraced within the schedule of purposes entitled to preferential treatment as determined by the Priorities Board may be filled without other specific priority instructions and without the further approval of any governmental agency.

The purpose was to permit deliveries of pig iron and of steel-manufactured products under the schedule of purposes not only after orders covered by priority certificates shall have been filled, but at any time to the extent that such deliveries will not interfere with the filling when and as required of orders covered by priority certificates.

The Priorities Committee is now issuing certificates of three classes, namely, Class AA, Class A, and Class B. One effect of this resolution is to put all orders not covered by priority certificates, but embraced within the schedule of purposes entitled to preference treatment, in a fourth class, which we will designate Class C, and to give such orders priority and precedence over all other orders not covered either by priority certificates or embraced within the said schedule of purposes, which other orders will be designated Class D.

If reasonably satisfactory delivery can be secured on Class C orders, no application for a higher priority rating need or should be made to the Priorities Committee.

Filling Class D Orders.

3. Class D orders, permit to ship.—Orders falling within Class D may be filled from surplus stocks, if any remain after orders covered by priority certificates or falling in Class C have been provided for or filled, subject, however, to the approval in writing of the director of steel supply first had and obtained.

In order to avoid delays in the filling of small orders urgently required for essential civilian uses, the director of steel supply does hereby approve in writing the filling of such orders falling in Class D on the conditions following:

(a) That the order in the aggregate shall not exceed in quantity 5 tons.

(b) That the manufacturer shall, on or before the 10th of each month, report to the director of steel supply all orders filled during the preceding month under this authority, and shall certify that he believes that it was in the public interest that such orders should be filled.

Applications for Permit.

Applications for permit to manufacture or ship Class D orders which can not be shipped under the foregoing authority must be filled out and mailed in duplicate to the Director of Steel Supply on blanks which will be forwarded each manufacturer; such applications must be made by the manufacturer only and not by the purchaser. Upon receipt of such application it will have prompt and careful consideration at the hands of the Director of Steel Supply who will indorse on the bottom of the application in a space provided therefor the word "Granted" or the word "Declined" and return one copy to the applicant. If granted the manufacturer may ship on such terms and under such conditions as may be imposed by the Director of Steel Supply.

4. Allocations.—The direct war requirements of iron and of iron and steel products of all departments and agencies of the United States Government and of its allies will be allocated to the various manufacturers by the Director of Steel Supply.

All other orders for direct and indirect war requirements for iron and iron and steel products should be placed by the consumer with his regular source of supply. In the event a consumer is unable to find a producer or manufacturer who will accept this order, application for allotment should be made to the Director of Steel Supply only when supported by strong evidence in writing that the public interest requires that such order shall be placed and filled.

Pledge by Jobbers.

5. Jobbers' stocks.—It is in the public interest that jobbers dealing in plates, sheets, bars and shapes, structural shapes, tubular products, wire and wire products, tin plate, heavy hardware, farm implements, mining tools, machinery and equipment, oil-well supplies, and similar products should be permitted to maintain reasonable stocks from which Government agencies, war industries, and the civilian population may draw to meet essential requirements. The jobbers recognize the necessity for rigidly restricting all iron, steel, and tin products to essential use and have pledged their whole-hearted cooperation to a program to prevent hoarding on the part either of the jobbers or of their customers, and to reduce to an absolute minimum both jobbing and retail stocks. On the faith of this pledge on the part of the jobbers a plan has been adopted as follows:

(a) Each jobber shall, not later than the 5th of each month, file with the director of steel supply, on forms to be furnished by him, a certified statement covering shipments made by the jobber during the preceding month.

(b) To the extent that such shipments fall within priority Class AA, Class A, Class B, or Class C, as hereinbefore defined, or by permits issued by the director of steel supply, the jobber shall be entitled to place with the manufacturer or manufacturers constituting his regular source or sources of supply, orders for the replacements of shipments so made, provided the total tonnage or quantity of each commodity ordered for replacement shall not be in excess of the amount of such commodity shipped by him during the previous month and embraced within the priority classes mentioned.

Scrutiny of Orders.

(c) The manufacturer will upon receipt of such order scrutinize it carefully in the light of the other demands to the supply generally and the particular requirements and demands for the products ordered in the territory served by the jobber placing the order, to guard against hoarding or an inequitable distribution of the supply available to meet all demands for essential uses. The Government is depending upon the experience and patriotism of the manufacturers to assist it in securing an equitable distribution of all products and their restriction to essential uses.

(d) All orders for stocks placed in accordance with the foregoing rules shall be and are hereby rated as class B–4 and entitled to priority and precedence accordingly, conditioned, however, upon the jobber placing the order having first filed with the priorities committee and also with the director of steel supply a pledge in writing as follows:

I do hereby pledge myself not to use, or so far as lies within my power, permit the use of any stocks now or which may hereafter come into my possession or control, save (1) for essential uses, as that term may be defined from time to time by the priorities division of the War Industries Board, or (2) under permits in writing signed by the director of steel supply; that I will make no sale or delivery from such stocks to any customer or retailer before his filing with me a similar pledge in writing; and that I will use my utmost endeavor to prevent the hoarding of stocks and to insure that they be distributed solely for essential uses.

Certificate by the Jobber.

Where such pledge has been once filed in accordance with the above paragraph the jobber should so certify to the manufacturer when placing his order, and the order shall not be accepted by the manufacturer in the absence of such certification.

5. Exports.—No application for a license to export iron or iron and steel products (save on direct orders of the United States and its allies) should be made of the War Trade Board unless the orders fall within priority Class AA, Class B, or Class C, as hereinbefore defined, or are covered by a permit by the Director of Steel Supply.

All communications with respect to priority matters dealt with herein should

(Continued on page 15.)

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	15
Died from wounds	2
Died of disease	5
Died of aeroplane accident	1
Died from accident and other causes	1
Severely wounded	17
Missing in action	2
Total	43

Killed in Action.

Lieut. Thomas W. Desmond. Jeremiah J. [illegible], Plymouth Street, Randolph, Mass.

Lieut. Thomas Goodfellow. G. C. Goodfellow, 206 Schwartz Building, Peoria, Ill.

Sergt. Joseph A. Hauptman. Carl Hauptman, 1408 North Morris Avenue, Bloomington, Ill.

Corpl. Roman Lemanski. John Lemanski, 1053 Middleman Avenue, Milwaukee, Wis.

Corpl. Lawrence F. Murphy. Peter Murphy, 616 Stevenson Street, Sayre, Pa.

Corpl. Ernest Frederick Oldenburg. Christian John Oldenburg, Box 46, Wilson, Mich.

PRIVATES.

Carl Bell. Mrs. Emma Bell, 67 Salem Street, Hillsdale, Mich.

Lee Caudle. E. L. Caudle, McCrory, Ark.

George E. Doran. Daniel Doran, 764 Fourteenth Street, Milwaukee, Wis.

Joseph Downey. John Lemieux, 89 Granby Road, Chicopee, Mass.

Tod. F. Gillett. Myron E. Gillett, 110 Crescent Place, Tampa, Fla.

Francis M. Lesley. Mrs. Carrie B. Collier, R. F. D. No. 1, Scottsburg, Ind.

John Naujokitis. Mrs. Mary Naujokitis, 222 East Third Avenue, Homestead, Pa.

Peter Rahubik. Mrs. Anna Grineski, Gilman, Wis.

Arthur F. Voss. Herman Voss, Horicon, Wis.

Died from Wounds.

Lieut. Stephen P. McGroarty. C. M. McGroarty, Falls Church, Va.

Pvt. Chester O'Neil. Robert Gawne, 1222 West Seventieth Avenue, Cleveland, Ohio.

Died of Disease.

Sergt. Ernest W. Pearson. Mrs. John Pearson, 1062 Cherry Street, Wausau, Wis.

Corpl. Clyde Gillespie. Mrs. Nina Elizabeth Gillespie, 59 Atlantic Avenue, Grand Rapids, Mich.

PRIVATES.

William Allen. Mrs. Mary Allen, 201½ Thirty-fourth Street, Brooklyn, N. Y.

Joseph H. Kellenbach. Henry C. Kellenbach, 250 West Jefferson Street, Williamsport, Pa.

William B. Lesher. Nicholas Lesher, 511 North Root Street, Aurora, Ill.

Died of Aeroplane Accident.

Pvt. Ernest Adams. Mrs. Mary E. Adams, 1197 Hinman Avenue, Evanston, Ill.

Died from Accident and Other Causes.

Pvt. Johnny G. Myrick. Ernest W. Myrick, R. F. D. 2, Portsmouth, Va.

Severely Wounded.

Lieut. LeRoy V. Davis. J. Max Davis, Hoplin, Mo.

Lieut. William M. Mayes. Mrs. Sarah C. Mayes, Newberry, S. C.

Lieut. J. Kenneth Rutherford. Mrs. J. K. Rutherford, 158 Alta Avenue, Park Hill, Yonkers, N. Y.

Lieut. Frederick G. Wagoner. George W. Wagoner, 571 West One hundred and thirty-ninth Street, New York, N. Y.

Corpl. John F. Auchter. Joseph Auchter, 1013 Thirty-seventh Street, Milwaukee, Wis.

Corpl. Julius Bruskin. Abraham Bruskin, 271 Franklin Avenue, Nutley, N. J.

Corpl. Edward P. Hagedorn. Miss Hazel Crabtree, General Delivery, Paoli, Okla.

Corpl. Joseph H. Hanford. Mrs. F. E. Goodman, Mount Hope, P. O., Hamilton, Ontario, Canada.

Corpl. Charles J. Kennedy. Miss Mary Kennedy, 73 Marshall Street, Paterson, N. J.

Corpl. John Quinn. Mrs. Una Quinn, 433 South Walnut Street, Lansing, Mich.

Corpl. Harvey J. Troyer. David W. Troyer, R. F. D. 2, North Judson, Ind.

PRIVATES.

Raymond L. Bayle. Steve S. Bayle, R. F. D. 1, Stirum, N. Dak.

Oran Emberton. Thomas Houck, Glasgow, Ky.

Carl Jay Geney. Mrs. Emma Shaw Geney, Box 285, Corunna, Mich.

Lawrence Ludovici. Carlo Ludovici, 2836 North Van Pelt Street, Philadelphia, Pa.

Peter A. Molver. Harry B. Hendricksen, Kalispell, Mont.

John Wade. William Wade, R. F. D. No. 4, Owosso, Mich.

Missing in Action.

PRIVATES.

John J. Micklovich, jr. John Micklovich, 181 Church Street, Bridgeport, Conn.

McKinley Pigg. Dan Pigg, Louisa, Ky.

Prisoners (previously reported missing).

Corpl. Le Roy E. Congleton. Mrs. Abbey E. Congleton, 922 South Yewdello Street, West Philadelphia, Pa.

Corpl. Ralph Harney. T. F. Harney, 87 Concord Street, Framingham, Mass.

Pvt. (first class) Louis R. Ziegra. Mrs. Mary Ziegra, Deep River, Conn.

PRIVATES.

Joseph D'Anna. Frank Onarato, box 264, New Milford, Conn.

Chester Darman. Mrs. Mary Cole, Moundsville, W. Va.

Ernest A. French. Mrs. Martha French, 42 Irvington Street, New Haven, Conn.

Clifford Markle. Frank J. Markle, 358 Edgewood Avenue, New Haven, Conn.

Edward J. Murray. Mrs. Elizabeth Murray, 24 Berlin Avenue, Southington, Conn.

George E. Newton. Mrs. Anna Newton, 65 Capitol Avenue, Hartford, Conn.

Walter S. Wolf. Mrs. Alexander Kafstein, 1208 Acushnet Avenue, New Bedford, Mass.

Previously Reported Died of Wounds, Now Reported Died of Disease.

Pvt. Howard Van Campen. Mrs. Elmora Van Campen, R. F. D. No. 3, Haven, Kans.

Pvt. Richard J. Hartigan. Mrs. Margaret Hartigan, 81 Congress Street, Brooklyn, N. Y.

NOTE.—The emergency address of Ross T. Hadley, listed as died from accident, etc., should read John W. Hadley, North English, Iowa. Pvt. Ray W. Miner, reported severely wounded; emergency address, Mrs. Francis E. Miner, Ione, Cal., should read: Pvt. Ray W. Minor; emergency address, N. A. Minor, father, Boerne, Tex.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	17
Died of wounds received in action	18
Died of disease	1
Wounded (severely)	24
Wounded (degree undetermined)	66
Missing in action	18
Total	144

Killed in Action.

Capt. Edward C. Fuller. Col. Ben H. Fuller, father, marine barracks, navy yard, Philadelphia, Pa.

Capt. John D. Burns. Mrs. Jacob Keigler, sister, 255 Sly Avenue, Corning, N. Y.

Capt. Harlan E. Major. Mrs. C. J. Major, mother, Crescent, Ohio.

Second Lieut. Walter D. Frazier. Mrs. Walter A. Frazier, mother, 48 Pixley Place, Bridgeport, Conn.

Corpl. Thomas A. Gragard. Matilda R. Gragard, mother, 2339 Octavia Street, New Orleans, La.

PRIVATES.

Louis Chartier. Louise Chartier, mother, 3525 Fifth Avenue, Chicago, Ill.

Joseph C. Clark. Delia Jane Clark, mother, general delivery, Alexandria, Ind.

Elmer Fogelstad. John Fogelstad, father, 3745 Palmer Street, Chicago, Ill.

John H. Kaiser. August Kaiser, father, 313 East Perry Street, Belvidere, Ill.

Ralph T. Wright. Theodore Wright, father, R. F. D. No. 1, Hibbetts, Ohio.

Nathan L. Pizer. Sam Pizer, father, 116 Roberts Street, Houston, Tex.

Russell Rawlings. Herchel L. Rawlings, father, 5880 Delmar Avenue, St. Louis, Mo.

Rozaire D. Rivard. Joseph H. Rivard, father, North St. Paul, Minn.

George D. Snow. George E. Snow, father, 1934 South Troy Street, Chicago, Ill.

Robert Vitatoe. Mary Vitatoe, mother, Cotula, Tenn.

Horace A. Ward. Mary A. Ward, mother, Box 178, Plymouth, Ohio.

Joseph S. Wilkes. Albert Wilkes, father, 403 Seventh Avenue, Salt Lake City, Utah.

Died of Wounds.

Maj. Edward D. Cole. Mrs. Edward B. Cole, wife, 22 Strathmore Road, Brookline, Mass.

SERGEANTS.

FIVE CENTRAL CAMPS NAMED FOR TRAINING OF CIVILIANS

(Continued from page 3.)

of the applicant. This may be done either in person or in writing. The application and other blank forms furnished must be filled out in detail and must be accompanied by at least three testimonials by reputable persons as to good character, and a record of the physical examination of the applicant, submitted on prescribed form and made by a reputable physician. The application and accompanying papers will then be forwarded to the officer of the Army on duty as professor of military science and tactics at an educational institution nearest the residence of the applicant. Upon receipt of the application and necessary papers, each applicant will be notified to appear in person, at his own expense, at an appointed time, before such professor of military science and tactics, for a preliminary examination, regarding the applicant's qualifications to attend an officers' training school.

Forwarding of Applications.

After the applicant has been examined by a professor of military science and tactics his application will be forwarded to the commanding officer of the appropriate central officers' training school. Only such applications as are approved by the professor of military science and tactics will be forwarded to the commanding officer of the Central Officers' Training School. On receipt of such applications at the Central Officers' Training School, the commanding officer will notify from time to time such applicants as may be needed, directing them to report at a designated training school on a specified date.

In the selection of men to attend these training schools preference will be given to qualified enlisted men so long as they are available. The number of civilians designated to attend will be small. The selection of civilians will be made by the commanding officers of the various training schools, who will endeavor to apportion geographically those selected. No applications for admission to these training schools will be received or considered by the War Department.

TRANSFERRED TO CAMP LEE.

Special orders, No. 146:

252. Maj. Lunsford E. Oliver, Corps of Engineers, is relieved from duty at Camp Dix, N. J., and will proceed without delay to Camp Lee, Petersburg, Va., and report in person to the commanding officer, Engineer officers' training camp, for duty as instructor.

Health Conditions at the National Guard, National Army, and Regular Army Camps as Reported for the Week Ending June 28

[illegible] June 28. The report of the Division of Sanitation to the Surgeon General of the Army for that [illegible]

[illegible] health conditions [illegible] the United States [illegible] for the week ending June 28, [illegible] 75 new cases of pneumonia reported from the camps, as against 87 the last week. Of this number Camp Pike reports 16 [illegible] 12 last week, and Camps Travis and Taylor 11 and 10 new cases, respectively. Malaria admissions total 89 for all troops of this group; 53 are charged to two camps, namely, Camps Beauregard and Shelby.

Camp Grant's Low Rate.

2. Cantonments.—The best health record for [illegible] in camps of this group continues to be held at Camp Grant, which has the remarkably low noneffective rate of 12.3 and admission rate 15.9. The highest sick rates are reported from Camps Travis and Taylor. Measles continue quite generally prevalent in [illegible] camps. Camp Dodge leads in the number of new cases (150); Camp Pike is second in this respect with 61 new cases. One hundred and [illegible] cases of pneumonia are reported from this group against 111 last week. Of this number Camp Pike reports 15; Camp Lee, 12; Camp Taylor, 11; and Camps Gordon and Travis, 10 each. Out of a total of 57 admissions for malaria, 33 are charged to a single camp (Pike).

3. Departmental and other troops.—Sick rates of stations in this group are lowest of all groups. Reports from aviation camps and ports of embarkation indicate continued satisfactory health conditions.

Figures given as "sick rate per 1,000" in the following tables are of new cases first reported during the week. The total number of sick and injured per 1,000, whether in hospitals or quarters, is given under the "noneffective rate." The weekly rate for new cases of sickness reported (the "admission rate") is used in this report.

San Antonio, Tex.—Pvt. Max Heirich, 64 West Seminole Street, McAlester, Okla.

San Benito, Tex.—Pvt. Arthur Chapel, Heppner, Oreg.*

San Francisco, Cal.—Pvt. Frans Edwin Mathander, Stockholm, Sweden.

Washington, D. C.—Pvt. Clyde L. Murphy, 172½ Chestnut Street, Meadville, Pa.

INFORMATION AS TO BENEFITS UNDER AMENDED PENSION LAW

The Department of the Interior, Bureau of Pensions, issues the following:

The act of June 10, 1918, amending the pension law of May 11, 1912, provides the minimum rate of $30 per month for soldiers and sailors of any age who served ninety days or more during the Civil War and were honorably discharged, and who are now receiving a lower rate. Those who are 72 years of age, or over, and who served six months, are entitled to receive $32 per month; those who served one year, $35 per month; one and one-half years, $38 per month; and two years or over, $40 per month. These increases will date from June 10, 1918, and will be granted automatically, without application of any kind, to all soldiers and sailors now pensioned under the act of May 11, 1912, who have attained the required age and served the necessary length of time.

Applications Under the Act.

Soldiers and sailors who served during the Civil War and are pensioned at lower rates under some other law, but who are entitled to pension under the act of May 11, 1912, will be required to file an application under that act in order to receive the benefits of the new law. In such cases the increase, if allowed, will begin from the date of filing the application in this bureau (or from the date of attaining the age of 72 years thereafter), and not from June 10, 1918. If, however, they have once had their pensionable rights determined under the act of May 11, 1912, they may have their pension renewed under said act upon written request, and the new rate of increase in such cases shall begin from June 10, 1918.

The Pension Bureau will make these allowances with all the dispatch possible under existing conditions. A special force for the adjustment of cases within the provisions of the new law has been organized which will handle these cases exclusively. It should be borne in mind by those concerned that there are now nearly 268,000 pensioners under the act of May 11, 1912, and all are urged to exercise patience and consideration. While every effort will be made to hasten this work, there will be no avoidable interference with the progress of claims now on file or hereafter filed under other laws. A special effort will be made not to interfere with the adjudication of widows' claims.

New Payments in August.

It will be wholly impracticable to make payments at the increased rate on July 4, 1918; but it is hoped that payments due August 4, 1918, may be made at the rate provided by the new law. It will not be necessary to write the bureau about these increases. Letters of inquiry will simply delay the work of making allowances.

No attorneys' fees will be allowed or paid for services in securing increase of pension under the act of June 10, 1918.

G. M. SALTZGABER,
Commissioner.

25,000 STUDENT NURSES WANTED FOR TRAINING IN U. S. HOSPITALS

The Council of National Defense announces the following:

With the Nation's reserve of trained nurses depleted through the calling of [illegible] nurses for service in military and naval hospitals, both [illegible] in the United States, it has become necessary to call immediately for 25,000 student nurses for training in [illegible] hospitals.

This call for women between the ages of 19 and 35 is being issued jointly by W. C. Gorgas, Surgeon General of the United States Army; Rupert Blue, Surgeon General of the United States Public Health Service; H. P. Davison, chairman, War Council, American Red Cross; Dr. Franklin Martin, chairman, General Medical Board, Council of National Defense; Anna Howard Shaw, chairman, Woman's Committee, Council of National Defense.

The call is made necessary because only [illegible] nurses can be used to advantage in military hospitals and to replace the graduates in this profession already called to service. The enrollment will begin July 29, and those who register will thereby be subject to call for training in the Army nursing school or in civilian hospitals until April 1, 1919.

Following is the formal appeal issued:

"To the Young Women of America:

"Across the sea, from France, with every closing day of the heroic struggle of our fighting men, there comes a more imperative call to the women of America to assume their full share of responsibility in winning this world war for the right of men, women, and nations to live their own lives and determine their own fortunes.

"There exists now an extreme need for at least 25,000 women of character, inteligence, and education to fill the gaps in our hospital staffs caused by the calling of many thousands of skilled nurses to the fighting front.

"There is only one way to fill these gaps: by helping our hospital training schools supplied with students, who are not only preparing for service abroad and at home at the end of their course and at the same time are equipping themselves to earn their living in one of the noblest of professions, but from the very outset of their course are serving their country as well as learning.

"The Surgeon General of the United States Army, the Surgeon General of the United States Public Health Service, the American Red Cross, the General Medical Board, and the women's committee of the Council of National Defense therefore unite in an earnest appeal for 25,000 young women between the ages of 19 and 35 to enroll in what shall be called the United States Student Nurse Reserve. The enrollment will begin on July 29, 1918. Those who register in this volunteer body will engage to hold themselves in readiness until April 1, 1919, to be assigned to training schools in civilian hospitals or to the Army Nursing School and begin their course of study and active student nursing.

"The service which we are asking calls for the best that the womanhood of America can offer in courage, devotion, and resourcefulness. We can not go forward to victory overseas if the wives and families of our fighters are not sustained in health and strength, if we can not protect our workers against the hazards of war industries, if we can not defeat accident and disease—our enemies at home. Upon the health of the American people will depend the spirit of their forces in the field.

"Acting on the urgency of the need, the undersigned have asked the State divisions of the Women's Committee of the Council of National Defense, through their local units, to enroll the 25,000 women needed. We ask the women of America to support us in our further effort not to lower American hospital standards, and to give us the practical assurance of their support by going to the nearest recruiting station established by the Women's Committee of the Council of National Defense on or after July 29 and enrolling in the United States Students Nurse Reserve."

ANNA HOWARD SHAW,
Chairman, Woman's Committee, Council of National Defense.

W. C. GORGAS,
Surgeon General, United States Army.

RUPERT BLUE,
Surgeon General, United States Public Health Service.

H. P. DAVIDSON,
Chairman, War Council, American Red Cross.

DR. FRANKLIN MARTIN,
Chairman, General Medical Board, Council of National Defense.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Officers Ordered from Philippines to Camp Lee

Special Orders, No. 141:

305. The following-named officers, Engineer Reserve Corps, are assigned to active duty; they will proceed from the Philippine Islands by first available transportation to the United States and to Camp Lee, Petersburg, Va., and report in person to the commanding officer for assignment to duty as students:

Majs. Alexander C. Cornelison and Fred L. Patstone; Capts. Carl B. Andrews, Elbert C. Brown, Harry D. Cranston, Levant R. Brown, William Debenham, John B. Findley, Walter J. Grodske, Eusebius J. Halsema, Ernest I. Jeffery, Paul W. Mack, Allen R. Pease, Wallace C. A. Palmer, Claud Russell, Alpheus D. Williams, Wade C. West and Andrew G. Yankey; First Lieuts. H. A. R. Austin, Henry W. Corp, LaMonte T. Clark, Merton C. Collins, Seward W. Hulse, John G. Morgan, Charles D. Rea, Robert B. Stanton, jr., Frank E. Wilmot and John J. Riehl.

NEED OF CERTAIN SKILLED MEN IN THE ARMY ENGINEER CORPS

The Provost Marshal General authorizes the following:

JULY 1, 1918.

Draft executives in all States:

Number E–1720.

The Engineer Corps is in need of certain skilled men. Only white men qualified for general military service may be accepted under this call. No man who is needed to fill the July calls already announced should be allowed to volunteer for this service. Volunteers may be accepted from the 1918 class provided the registrant waives all time limits for classification and examination.

The following types of men are desired: Auto repairmen, axmen, blacksmiths, boatmen, bridge carpenters, cabinetmakers, calkers, concrete foremen, concrete workers, construction foremen, cooks, draftsmen, electricians, gas-engine men, stationary-engine men, farriers, horseshoers, lithographers, machinists, buglers, photographers, plumbers, powder men, quarrymen, riggers, saddlers, shoemakers, surveyors, tailors, teamsters, telephone operators, timbermen, and topographers.

Please give the widest publicity to this matter, using the "Nation's Want Column" method and urging qualified registrants to present themselves to their local boards for listing. If a sufficient number of volunteers are not secured, involuntary induction will be used. On July 18 wire this office the number of qualified men listed in each of the above occupations which we may expect from your State. Upon receipt of this information we will make definite allotments and complete mobilization details. Local boards must understand thoroughly that these registrants are not to be inducted until orders are received as to allotments and that no men needed to fill the July calls already announced shall be permitted to volunteer. Volunteers for this service shall not be released to the Navy or Marine Corps or to withdraw their application prior to August 1. Acknowledge.

CROWDER.

JOINS THE SHIPPING BOARD.

Mr. J. H. Rosseter Succeeds Mr. Carry as Director of Operations.

The Shipping Board issues the following:

Chairman Hurley of the Shipping Board announces the appointment of J. H. Rosseter as director of the department of operations to succeed Edward F. Carry, who resigns to become chairman of the Port and Harbor Commission. The appointment is in line with the Shipping Board's policy of drafting men of large practical experience and ability for the tasks and problems arising in connection with our rapidly expanding merchant fleet.

Mr. Rosseter brings to the Shipping Board a wide experience and knowledge of international shipping gained in a long and successful career on the Pacific coast, where he was the vice president and general manager of the Pacific Mail Steamship Co.

Business as usual now may mean no business later.

Statement of War Industries Board Concerning Iron and Steel

(Continued from page 9.)

be addressed to the priorities committee. All communications with respect to all other matters dealt with herein should be addressed to the Director of Steel Supply.

EDWIN B. PARKER,
Priorities Commissioner.
J. LEONARD REPLOGLE,
Director of Steel Supply.

Approved:
B. M. BARUCH,
Chairman War Industries Board.
Washington, D. C., July 3, 1918.

"EXHIBIT A."

The War Industries Board on June 6, 1918, adopted the following resolution:

Be it resolved by the War Industries Board, That the following agreement, reached as a result of several conferences between a committee of this board and the American Iron & Steel Institute, be, and the same is hereby, ratified, confirmed, and approved, to become effective at once.

The agreement follows:

Whereas, a careful study of the sources of supply in connection with the present and rapidly increasing direct and indirect war requirements for iron and steel products has convinced the War Industries Board of the necessity for (1) a strict conservation of the available supply of iron and steel products on the one hand, and (2) the expansion of existing sources and development of new sources of supply of iron and steel products, on the other and; and

Whereas, the producers of iron and of iron and steel products in the main concur in this conclusion reached by the said board and have expressed their willingness to whole-heartedly cooperate with the said board in its efforts to provide for promptly meeting the direct and indirect war requirements of the United States and its allies for iron and steel products;

Conditions of Shipment.

Now, therefore, it is understood and agreed by the committee on steel and steel products of the American Iron and Steel Institute and the War Industries Board that no pig iron or steel manufactured products shall be shipped or delivered except as follows:

(1) By priority certificates issued by the Priorities Division of the War Industries Board; or

(2) After orders covered by priority certificates shall have been provided for or filled, then producers of pig iron and of steel manufactured products may utilize such raw materials and manufacturing capacity, if any, as they may have available, to fill orders of their customers not covered by priority certificates, provided such orders are embraced within the schedule of purposes entitled to preference treatment as determined by the Priorities Board as follows:

Ships.—Including destroyers and submarine chasers.

Aircraft.

Munitions, military and naval supplies and operations.—Building construction for Government needs. Equipment for same.

Fuel.—Domestic consumption. Manufacturing necessities named herein.

Food and collateral industries.—Foodstuffs for human consumption and plants handling same. Feeding stuffs for domestic fowls and animals, and plants handling same. All tools, utensils, implements, machinery, and equipment required for production, harvesting, and distribution, milling, preparing, canning, and refining foods and feeds such as seeds of foods and feeds, binder twine, etc. Products of collateral industries, such as fertilizer, fertilizer ingredients, insecticides and fungicides, containers for foods and feeds, collateral products, materials and equipment for preservation of foods and feeds, such as ammonia and other refrigeration supplies including ice. [Including all necessary raw materials partially manufactured parts and supplies for completion of products.]

Clothing.—For civilian population.

Railroad.—Or other necessary transportation equipment including water transportation.

Public utilities.—Serving war industries, Army, Navy, and civilian population.

Provided, however, whenever the Priorities Board shall have promulgated and certified for observance to the producers of pig iron and steel manufactured products a revised preference list, no surplus material or capacity after filling or providing for all orders covered by priority certificates shall be used to fill nonpriority orders save such as are placed by industries or plants embraced within preference lists; and

Provided, further, that each producer of pig iron and of steel manufactured products shall at the end of each week, ending with midnight Saturday thereof, prepare and forward to the Director of Steel Supply of the War Industries Board a detailed statement of all shipments made during such week not covered by such priority certificates.

Be it further resolved, That should any producer of pig iron or of steel manufactured products have any surplus war material or manufacturing capacity after filling (a) all orders covered by priority certificates, and (b) all orders embraced within the schedule of purposes entitled to preference treatment or placed by industries or plants embraced within the revised preference list, after it shall have been promulgated and certified by the priorities board, then in such event such surplus materials or capacity may be disposed of by such producer or manufacturer to other customers subject to the approval in writing of the director of steel supply first had and obtained.

Be it further resolved, That the director of steel supply and a committee appointed by the American Iron and Steel Institute shall jointly make a careful study of the present and prospective iron and steel requirements of each and every department and agency of the Government of the United States and of its allies, and the capacity of the iron-producing and steel-manufacturing plants of the United States to meet such requirements and present to this board as early as practicable (1) a report of their findings, together with (2) recommendations of measures, if any, which should be taken to stimulate and increase the production of iron and of iron and steel products in order to meet the direct and indirect war requirements and the demands of industries of exceptional or national importance.

ORDER FIXING COAL PRICES AT DOCKS ON GREAT LAKES

The Fuel Administration issues the following:

WASHINGTON, D. C., *June 24, 1918.*

Order of the United States Fuel Administrator fixing prices for the sale of anthracite coal received by rail and water on docks located on Lake Michigan and Lake Superior.

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that until further or other order by the United States Fuel Administrator, the following maximum prices per gross ton are fixed for anthracite coal f. o. b. cars, docks on Lake Michigan and Lake Superior:

1. The selling prices for anthracite coal shipped from the mines on or after June 25, 1918, and received at such docks and reshipped by rail from such docks to purchasers buying in carload lots shall be as follows:

Broken, $10.20; egg, $10.10; stove, $10.35; nut, $10.45; pea, $8.80.

The above prices are subject to a summer reduction of 30 cents per gross ton until September 1, 1918, and are based on the freight rates effective June 25, 1918, from the mines to Lake Erie ports. In the event that the above-mentioned freight rates are increased by order of the United States Railroad Administration effective at any time hereafter, an amount equivalent to the amount of such increase in freight rates may be added to such prices.

2. The selling prices for anthracite coal shipped from the mines before June 25, 1918, and reshipped on or after June 25, 1918, by rail from such docks to purchasers buying in carload lots shall be the prices specified in paragraph numbered "1" of this order, less 45 cents per gross ton, which sum represents the advance in freight effective June 25, 1918.

3. The selling price for anthracite coal received at any dock on Lake Michigan or Lake Superior and sold on and after June 25, 1918, for delivery by truck, wagon, or other usual facility for retail delivery to consumers without any rail reshipment, shall be fixed and determined in the manner and in accordance with the provisions and limitations prescribed in the orders and regulations of the United States Fuel Administrator relative to maximum gross margins and prices to retail coal dealers.

H. A. GARFIELD,
United States Fuel Administrator.

Summary of Recent Important Legislation Affecting the U. S. Lighthouse Service

Commissioner Putnam, of the Lighthouse Service, authorizes the following statement concerning legislation affecting the service:

The general lighthouse act approved June 20, 1918, contains provisions of much importance to the Lighthouse Service, including a retirement system for all of the field force, and more equitable compensation for the officers in charge of the lighthouse districts, whose designation is changed to superintendent of lighthouses, and for the lightkeepers, as well as other much needed relief for the latter.

Terms of the System.

The retirement system provided permits optional retirement at 65 years for those having 30 years' active service; retirement compulsory for employees 70 years and over, and applies to all employees in the field service and on vessels except those continuously employed in the district offices and shops. The retirement pay is one-fortieth average annual pay during last five years of service times the number of years spent in active service in the Lighthouse Service or some other branch of the Government which has a retirement system, not exceeding, in any case thirty-fortieths of such average annual pay.

The designation of the officers in charge of lighthouse districts heretofore known as lighthouse inspectors is changed to superintendent of lighthouses and their compensation, except in the third district, is increased from $2,400 to $3.000 per annum.

The limit for the average pay of lightkeepers is increased to $840, from the $600 at which it was fixed by law 51 years ago. The commutation for rations for lightkeepers is increased from 30 to 45 cents per day, and authority is given to pay traveling and subsistence expenses of teachers while actually employed by States or private persons to instruct the children of keepers of lighthouses.

The sale of publications of the Lighthouse Service is authorized, including the allowance of a commission for such sales.

Special Work Authorized.

The following special works in the Lighthouse Service are authorized by this act, but appropriations for these have not been made except as noted:

Lighthouse tenders and light vessels, to replace old vessels	$760,000
Ambrose Channel, N. Y., improvements in lighting	26,000
NOTE.—Appropriation made in sundry civil appropriation act for 1919.	
Nantucket Breakwater, Mass., appropriation of $15,000 made available for electrically operated fog bell.	
Staten Island Lighthouse Depot, N. Y., improving and extending wharves	65,000
Staten Island Lighthouse Depot, N. Y., extending and enlarging machine shop	30,000
Joe Flogger Shoal, Del., gas buoys and improving aids	40,000
NOTE.—Unexpended balance of appropriation of $40,000, made June 30, 1916, made available for this purpose, by sundry civil appropriation act for 1919.	
Portsmouth, Va., fifth lighthouse district, lighthouse depot	275,000
Fifth lighthouse district, gas buoys for improving aids to navigation	125,000
NOTE.—$65,000 for this item appropriated in sundry civil appropriation act for 1919.	
Potomac River, Maryland, and Virginia, improving aids to navigation and establishing new aids	95,000
Sand Island Light Station, Alabama, improvements	45,000
NOTE.—$37,000 for this item appropriated in sundry civil appropriation act for 1919.	
New Orleans, La., eighth lighthouse district, lighthouse depot	88,500
American Virgin Islands, establishing and improving aids to navigation	50,000
Spectacle Reef Light Station, Mich., improvements	28,000
NOTE.—Appropriation made in sundry civil appropriation act for 1919.	
St. Marys River, Mich., improvements, etc., aids to navigation	80,000
Lakes Washington and Union, Wash., establishment and maintenance of post lantern lights and other aids to navigation.	

Miscellaneous Appropriations.

In addition to the appropriations for special works noted above the sundry civil appropriation act for 1919 provides for the following:

Guantanamo Bay, Cuba, keepers' dwelling and improving lighting	$14,000
Second lighthouse district, lighthouse depot	85,000
Detroit, Mich., lighthouse depot	51,000
Ketchokan, Alaska, lighthouse depot	90,000
Authority for commutation of rations for members of field-working parties.	
Authority to use general appropriation for the restoration of light stations and depots and buildings connected therewith.	
The legislative, executive, and judicial appropriation act provides for one additional clerk, office of Bureau of Lighthouses at Washington	1,400

Other legislation of general character in legislative, executive, and judicial act, not affecting Lighthouse Service exclusively, includes increase of compensation for next fiscal year, $120 per annum, subject to various conditions. Authorizes open-market purchases not to exceed $25.

VOL. 2 WASHINGTON, MONDAY, JULY 8, 1918. No. 354

PAYMENTS TO THE DEPENDENTS OF SOLDIERS UNDER THE ARMY ALLOTMENT LAW EXPLAINED

ARE NOW IN EXCESS OF 800,000

Central Disbursing Division, Office of Quartermaster General, Makes the Payments—Former Delay of One Month Eliminated.

The War Department authorizes the following:

There has been considerable misunderstanding regarding the payment of allotments to the dependents of soldiers because of the confusion in the minds of many persons concerning the allotments under the old system and those paid under the so-called war-risk insurance act. The law of 1899 authorized an allotment system and the war-risk insurance act of last year also provides for allotment to dependents of enlisted men.

Under the first law the Army perfected an allotment system which enabled enlisted men who are ordered for duty abroad to have withheld from their pay a stated amount that would be paid to their families in this country. These payments were made through the depot quartermaster at Washington. The war-risk insurance act provided for the dependents of enlisted men called into the service under war conditions. This enactment, which is more liberal and generous in the scope of its provisions than any similar law enacted, provided that in addition to the amount withheld from the soldiers' pay the Government should pay an allowance to the soldier's family.

Army Allotment Law.

The Army allotment law, as originally drawn, provided for the intervention of a complete month between the date of the accruing of the soldier's pay, from which the allotment was deducted, until the time of payment; that is, an allotment withheld from the pay of the soldier due on May 31 could not be paid until July 1. For the purpose of advancing the date of payment and doing away with this intervening month the law was amended and steps were immediately taken to bring the payments up to date, two payments of allotments being made in the month of November, 1917. At the present time the allotment payments for any one month are made beginning with the first of the succeeding month.

At the beginning of the war the Army allotments were less than 10,000 in number, while at the present time they are in excess of 800,000. Notwithstanding the increase in the number of allotments, payments have been made each month promptly and accurately, except where al-

DRASTIC COAL RATIONING SYSTEM IS ANNOUNCED BY THE FUEL ADMINISTRATION

PRESIDENT'S INDEPENDENCE DAY GREETINGS TO AMERICAN CITIZENS BEYOND THE SEAS

The Department of State sent the following Independence Day greeting from the President to all American diplomatic missions and consular officers:

"*On the anniversary which the people are celebrating throughout the United States to-day, I extend to American citizens beyond the seas cordial greetings.*

"*The burden of this great war which has been thrust upon us has been greatly lightened by the co-operation and loyalty of American citizens abroad, and I take this occasion to thank them in the name of the American people for their devotion to the cause of their country and that of the allied powers, with the assurance that much is to be gained by that filial affection which is so potent a factor in the lives of our people and which will redound to the glory of peace and victory for all civilized mankind.*"

Several replies have now been recieved.

A telegram from Sydney, Australia, states:

"The Americans residing in Australia most heartily appreciate the President's message of confidence and wish to convey to him, a worthy successor to Washington and Lincoln, renewal of their devotion and loyalty in this trying hour of their country's history."

The following came from Port of Spain:

"The Americans in Trinidad assembled at their annual celebration express their thanks and great appreciation for the President's greetings. They will gladly continue to loyally devote themselves to the cause of their country and her allies in this great fight for liberty and civilization."

ELIMINATES HOARDING

Householder Will Be Allowed Only Enough Fuel to Heat His House to 68 Degrees—Thoughtless or Wasteful Consumer May Find His Allowance Gone Before the End of Winter.

The Fuel Administration authorizes the following:

With every ounce of pressure possible being put upon increasing the production of coal, requirements continue to mount. It is evident that there will be an insufficient supply for winter necessities unless the utmost conservation is practiced and a system of local distribution inaugurated which will prevent any consumer from obtaining more coal than is sufficient for his wants with the utmost care and economy being employed in its consumption.

There will not be enough household coal available this winter if last year's waste continues, or if unequal local distribution is not prevented.

May Start Coal Rationing.

The Fuel Administration has taken the necessary steps to this end. Householders may be put on coal rations, as in England and France. The coal allowed to each consumer will not be the amount used last year, but only so much as is scientifically found sufficient to heat his house to 68°, providing every conservation rule has been obeyed. The allowance for each will be sufficient for comfort, but the thoughtless and wasteful consumer who finds his allowance gone before the end of the winter will have only himself to thank if he has no fuel with which to heat his house.

Under this system everyone will get his fair proportion of coal. The hoarder will be eliminated. This system was originally worked out and applied in Philadelphia. It has proved an unqualified success and, with modifications suggested by the experiences in that city, the adoption and enforcement has been referred to the Federal Fuel Administration in all States.

Features of the Plan.

This plan involves a department of coal allotments in connection with each local fuel administrator's office. Plans for this organization and for the necessary equipment have been completed by the administration in Washington in

such detail that the local bureaus can inaugurate the system without delay.

The important features of the plan are:

First, a censorship of every order for coal received by any dealer, each order being compared with a figure obtained by very simple yet effective formulas showing the rating of the house where the coal is to be used.

Second, actual inspection of all doubtful cases and a checking up through inspectors of statements made by householders as to the coal on hand, the space to be heated, and the heating system employed.

Third, an effective refusal to furnish any householder more coal than a scientific analysis shows is necessary if the requisite care is taken in the heating of the house. Under this system surplus coal will be refused.

All consumers who have obtained a quantity of coal in excess of their allotments, or who by deceit or misrepresentation have violated any rules and regulations of the Fuel Administration, will be prosecuted.

System Will Be Drastic.

This system will be drastic and will introduce conditions new to the country. It will be no more drastic, however, than conditions demand in the interest of all concerned. No one will be deprived of coal actually needed for heating; but no one will be allowed fuel for waste or extravagance, or to doubly insure a supply of fuel, while neighbors on account of this excess are unable to obtain enough.

With a shortage of coal confronting the country, it is only through such detailed regulations that a necessary supply can be insured to all. To delay until the emergency is upon us would be fatal. The Fuel Administration expects every one to recognize the necessity and the reason for this supervision and to cooperate fully with the local committees entrusted with carrying out the plan.

CHANGES IN RED CROSS SERVICE ASSIGNS H. D. GIBSON TO FRANCE

The American Red Cross authorizes the following:

Harvey D. Gibson, general manager of the American National Red Cross and member of the war council, has been appointed Red Cross commissioner to France, relieving Maj. James H. Perkins of his duties as head of the French organization. Maj. Perkins will continue in the service as Red Cross commissioner to Europe, having, since the resignation of Maj. Grayson M.-P. Murphy to accept a commission on the staff of Gen. Pershing, served as chief of both the European and French commissions. Mr. Gibson will remain a member of the war council during his service in France, which is for an indefinite period.

G. E. Scott Acting General Manager.

George Eaton Scott, of Chicago, who has served the Red Cross national headquarters as assistant general manager, has been designated acting general manager. S. M. Greer, formerly director of the department of development, has been appointed assistant general manager, and H. G. Atwater, formerly of the Bureau of Standards, has been appointed assistant to the general manager. These changes are made in consequence of the departure of members of the general manager's staff for France in company with Mr. Gibson.

In the absence of Joseph M. Hartfield, Ralph Wolf will act as legal adviser to the war council. James G. Blaine, jr., formerly assistant director of the department of development, succeeds Mr. Greer as director. Austin Gailey succeeds Mr. Atwater as director of the Bureau of Standards.

GENERAL LICENSE IS REVOKED FOR IMPORTS FROM CANADA

The War Trade Board issues the following:

The general import license covering the importation of commodities from Canada and Newfoundland has been revoked as to shipments of articles on the List of Restricted Imports on and after July 20, 1918. After that date all shipments of articles, the importation of which from other countries has been restricted, will require individual import licenses when imported into the United States from Canada or Newfoundland.

Reasons for Ruling.

Reasons for this new ruling of the War Trade Board (W. T. B. R. 161), which has been adopted after consultation with the Canadian Government, are given by the necessity of closing the door to possible evasions of the General Restricted Import Regulations through shipments by sea into Canada, whence restricted commodities could be transported by rail into the United States. The general policy regarding restriction of imports is based, as is well known, upon tonnage reasons, the design being to make available ocean-going tonnage for war purposes and more essential imports by restricting or prohibiting importation of the commodities in question by sea. In logical consequence of this policy import restrictions have been subject to the general exception permitting importations from Canada by rail or Great Lake tonnage and from Mexico by rail. Unfortunately, however, importers have been found who have endeavored to evade the plain intent of these regulations by having shipments from overseas directed to Canada, where their identity would be lost sight of in the general mass of Canadian merchandise, and then entering the commodities into the United States as Canadian merchandise under the blanket license now revoked.

Aim of the Board.

The aim of the War Trade Board under the new procedure, under which individual import licenses will be required, is to bar the importation of commodities of non-Canadian origin. Goods of Canadian origin on the restricted lists will be granted entry as before in conformity with the above-enunciated general policy.

ORDERED TO WASHINGTON.

Special Orders, No. 138:

422. Lieut. Col. Norris Stayton, Quartermaster Corps, National Army, is relieved from his present duties and will proceed from Fort Worth, Tex., to Washington, D. C., and report to the Acting Quartermaster General of the Army for assignment to duty in the depot division.

CHEMICAL WARFARE SERVICE TO CONTROL GAS OPERATIONS

The following statement is authorized by the Secretary of War:

The organization of the Chemical Warfare Service has been completed. Henceforth all phases of gas warfare will be under the control of the Chemical Warfare Service commanded by Maj. Gen. William L. Sibert.

Heretofore chemical warfare has been carried on by divisions in the Medical Department, the Ordnance Department, and the Bureau of Mines. All officers and men who have been connected with offensive or defensive gas warfare here will be responsible to the Chemical Warfare Service. The field training section at present is under the Corps of Engineers.

Defensive Warfare.

Defensive warfare has been under the control of the Medical Department. This work has consisted of the designing and manufacture of masks both for men and animals and the procurement of appliances for clearing trenches and dugouts of gas.

Offensive gas warfare consists principally of manufacturing gases and filling gas shells. The work has been under the direction of the Ordnance Department.

The new department will take over the work of chemical research for new gases and protection against known gases which has been carried on by the Bureau of Mines. All testing and experiment stations will be under the direction of the Chemical Warfare Service.

The responsibility of providing chemists for all branches of the Government and assisting in the procurement of chemists for industries essential to the success of the war and Government has been intrusted to the Chemical Warfare Service.

All chemists now in the Army will be removed from their units and placed under the authority of the Chemical Warfare Service. Newly drafted chemists will be assigned to the Chemical Warfare Service.

Authority to assign enlisted or commissioned chemists to establishments manufacturing for the Government has been granted to the new section.

U. S. Mails Destroyed By Bomb in France

OFFICE OF SECOND ASS'T P. M. GEN.,
Washington, July 3, 1918.

This office has been advised that on the night of May 30th a mail car in France was struck by an incendiary bomb and the contents entirely destroyed. The following mails from the United States were lost:

Four sacks for the 28th Division.

One sack for the 412th Telegraph Battalion.

One sack for the 13th General Hospital.

One sack from the 35th Division A. E. F. for British Army Post Office No. 3.

Two sacks from the United States for Boulogne.

One sack of empty mail bags for the United States.

No information is available with respect to the number of letters lost, the place of origin, or the approximate posting dates of said mails.

In connection with inquiries for missing mail matter, postmasters will consider the information herein given and when it furnishes a reason for the nonreceipt of mail matter at destination they will so inform the senders.

OTTO PRAEGER,
Second Assistant Postmaster General.

Heroism of American Women at Front Revealed in Vivid Letter Written to the Secretary of State by His Sister

Experiences Under Fire and in Barracks Filled With Badly Wounded Men of Many Nationalities Described—Nerved by Keeping Busy to Face Terrible Scenes—With Her Sister a Red Cross Canteen Worker.

The Committee on Public Information, division on women's war work, issues the following:

The heroism of American women in canteens and hospitals in France is revealed in a letter to the Secretary of State from his sister, Miss Katherine Ten Eyck Lansing, who, with Miss Emma Sterling Lansing, another sister, has been engaged in canteen work with the American Red Cross in France since September, 1917. The letter follows:

"FRANCE, *Thursday, June 6, 1918.*

"Long before you receive this you will have received the cablegram we hope reached you through the ambassador and have been relieved of your anxiety about us. We have been living through thrilling days and I am still tired enough to be afraid that I won't write a very clear letter. This is the first chance either of us has had to write, for we have been tremendously busy.

"Of course, the first news we had of the big German attack came a week ago Monday. We knew that it was all along the line near us, but felt no anxiety about our own situation, although two of the ladies had decided to go to Paris that day for the day—but decided not to, as they were afraid there might be some difficulty about getting back to ———, (a place about 12 miles from the front,) on account of the movement of troops. The troops passed all day and we knew they were being taken to the different points of attack.

Advised to Go to Paris.

"Tuesday morning there was some excitement in the hall while I was still in bed. I got up to see, and found Miss E—— (head of the canteen) had received a letter from an English friend, couched in very ambiguous terms, but by reading between the lines we made out that he thought we should all go at once to Paris while 'the going was still good,' as he put it. After consultation with the military authorities we decided there was no immediate danger. Tuesday the ambulances kept going by with the wounded, and Tuesday night Miss E—— took one person and went to see if there was anything to be done at the Evacuation Hospital. We did not all go, as she was not willing. About 10 she came back for five more people. Emma could not go, as she was on night duty in the canteen, but I went with four others, and I never spent such a strange night. As soon as I reached the hospital I was asked if I would go into one of the barracks where the more lightly wounded were and interpret between the French doctors and English.

"The hospital is a huge place with wooden shacks for the different wards and spreads over a great deal of ground. I was taken into one of these barracks crowded with people, becoming more crowded as the night went on. There were both English and French, and I was asked to take the names of all the English, their regiments, enlistments, and so on, and find out where they were wounded. I was told what to do, then left alone, and there I was all night, the room crowded with French, Algerians, blacks, and English.

"As the night wore on the poor things laid down as they could on the floors, under the tables, and on the tables, bloody bandages all around. I had made out all the English papers by about half past 2. In the midst of it, about 1, we had an air raid, and I can tell you the bombs never sounded so loud as they did out there, all alone with all those wounded men. In the midst of it some one opened the door and called 'a l'abri,' and those who were able left the shack and went to the abri. I went out to see how it was and found many of them standing outside, as the abri was full. About 4 it began to be light and I wondered whether the others had gone home, but as I was alone with all these men I did not like to leave. A little later some of the officials came in, and then began the task of fitting the papers to the men and getting them off in the train. They wanted me to stay to read the names, as they were so difficult to pronounce. I made another list of men who had to go off on stretchers, told the doctors, in French, where they were wounded, and so on, and did not get back to the house until 12 at noon. It was rather a long stretch from 10 the night before, especially as I had nothing to drink or eat.

Amazing Troop Movements.

"In the afternoon I went to the canteen. Some of the people in ——— were beginning to leave, and the inhabitants were all gathered in knots around the street. The military movement through the town was something amazing. Of course, excitement ran high. We spent all our days and nights—until Saturday night—at the hospital, with only two people left at the canteen.

"I can't tell you anything about it—only with the most vivid imagination. I do not think anyone can dream of such suffering, such patience, such heroism, or such terrible human wreckage, and until one has seen it they can not know what war means. We found more than we could do even with our lack of knowledge, giving the men water, washing their bloody faces, interpreting between the English and the French doctors, and wishing we could go a hundred times as fast. One French boy I brought water to, and the tears rolled down his face, he had waited so long for it—and for a French boy to cry like that means more than other nationalities.

"I have found that you can bear seeing the most horrible wounds if you are doing something. I was so afraid I would not have the courage, but when I was doing something I did not think of that side of it. I went into the operating room—or, rather, the room where the wounds were cleansed and dressed—and gave water to the men on the tables, but the hardest thing was to give milk or water to the men whose faces were completely smashed to pieces. No words could describe such sublime endurance of suffering.

"Friday night we had a heavy air raid. Miss E———, Miss L———, and I were in bed and were caught in the house before we could go to the cave, and I must say we were all pretty scared, not only for ourselves, but for those at the canteen and the hospital. When a break came we made a dash for the cave next door, but the next day we had mattresses taken to one of the champagne caves, and all 17 of us slept there—at least tried to sleep.

"The hospitals were evacuated Saturday, so after Saturday there was nothing more for us to do there, and we went back to canteen work. Saturday night came a telegram from the ambassador, asking the general to make possible Emma's and my return to Paris. Of course, we could not leave like cowards before the rest of the unit left, so we sent the telegram to him, saying that unless he had bad news for us from home we preferred not to leave ———, telling him to cable you that we were well and well taken care of.

First Shell Strikes Town.

"Sunday afternoon the first obus (shell) fell in the town, and that night it was decided that 10 of us should leave, 7 staying, Emma and I among them, but Monday morning Miss E——— said only the 4 who could run cars were to stay. Some went to ———, some to ———, and 7 of us came here.

"We had musettes packed for several days ready to leave—expecting two of them were the only things each of us could take, but as we came in a big Red Cross truck we each brought a suit case besides. However, most of our things are in two trunks in ——.

"This is a very quaint, picturesque town, with many old buildings. We went to 10 places to find a place to stay and Emma and I are with the widow of a doctor—a quaint house with a lovely garden where I am writing now—the house much run down. We have a very small room for which the lady allows us to pay one franc a day. She wished nothing to be paid as we are working for the French. We take our meals at the hotel—very near. All seven of us are scattered around. A French canteen is to be opened here and we expect to help in opening it, at least two or three of us.

"Trains are uncertain, but this letter may reach you as I hope it will. Don't worry about us, we shall not run into danger, and if it comes to us you don't want us to run away from it, but take it as bravely as other people do. We shall send you word whenever we can.

"Lovingly yours,

"KATE."

Official U. S. Bulletin

Published [illegible] by the Committee on Public Information.

Office: No. 10 Jackson Place, Washington, D. C. Tel. Main 3600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all persons and institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

INSTRUCTIONS ON SETTLEMENT OF RAILROAD CONTROVERSIES

U. S. RAILROAD ADMINISTRATION,
OFFICE OF DIRECTOR GENERAL,
Washington, July 3, 1918.

CIRCULAR No. 39.

Order No. 13 created Railroad Board of Adjustment No. 1, to which board all disputes between railway employees, members of certain organizations, and the several railroads, that can not be satisfactorily adjusted, are to be referred for investigation and disposition. Order No. 29, creating Railroad Board of Adjustment No. 2, carries with it a like assignment of duties. Where controversies are not amicably adjusted and where they do not fall within the provisions of General Orders 13 and 29, they are to be referred to the Director, Division of Labor, United States Railroad Administration.

My attention has been called to an arbitration held by agreement between the employees and officials of a certain railroad to adjust matters in controversy in a different manner than that prescribed herein.

In order that uniformity of application of decisions affecting labor matters may be preserved, no agreement should be reached between officials and employees of any railroad to adjust their differences in any other manner than prescribed in orders 13 and 29, and by other orders hereafter issued.

W. G. MCADOO,
Director General of Railroads.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique,
No. 52.

HEADQUARTERS, AMERICAN
EXPEDITIONARY FORCES,
July 5, 1918.

Section A.—Our patrols again took prisoners in the Chateau Thierry region. In Picardy, Chateau Thierry region and in the Vosges there was brisk artillery fighting. In the Vosges a hostile raiding party and two patrols, attempting to reach our lines, were driven off.

Section B.—Concerning the operations of our troops in the vicinity of Vaux July 1 to July 2 it is stated that the enemy fled in disorder from the Bois de la Roche to the Bois des Rochets before our Infantry. Hand-to-hand fighting was of short duration. So effective was our Artillery fire that communication between German battalion and regimental headquarters could be maintained only by a single messenger dog. Intense machine-gun fire and a heavy bombardment of the Clerembauts wood and adjacent points preceded the German counter attack. Some gas was used. Hostile airplanes, which made frequent flights, dropped bombs on some of our advanced positions in the early morning and in one case fired on our lines. One of them was brought down near Torcy. In the German rear areas long columns of men and wagons moved from point to point, while, during the night red and green rockets gave signals, while searchlights kept watch for our airplanes.

In this sector between the evening of July 3 and July 4 activity on both sides greatly decreased. The enemy, however, shelled the region of the Marette wood with gas during the morning hours and put down some harassing and interdiction fire in our rear areas. Our own batteries maintained a continuous harassing fire, apparently destroying an ammunition dump in Etrepilly and setting on fire buildings in the enemy's rear areas. It was again notable that the activity of the enemy's air forces decreased, while our own became more aggressive. American snipers seemed to be successful in killing and wounding a number of the enemy during the day. One of our reconnaissance patrols, consisting of a corporal and two men crawled from our front lines north of Vaux to a house inside the German lines at Bois des Rochets at 2 o'clock in the afternoon. They captured a German outpost of two men and brought them back to our lines at 4 o'clock in the afternoon in spite of the continuous fire of German snipers.

Our troops located along the Marne at 8 o'clock p. m. on July 1 to 8 p. m. on July 2 experienced a comparatively quiet day. There was, however, an increase in the enemy's rifle and machine-gun fire, the result of our activities in patrolling. The enemy's light artillery fire consisted of shells of small caliber. A decrease was also noted in the enemy's airplane activity, which was concentrated on observation and reconnaissance work. These planes made flights along our lines singly and in usual patrol formations. Several hostile observation balloons were also seen. There was an unusual amount of movement in the enemy's rear areas, but no large groups were observed. A large number of wagons were seen in the vicinity of Charteves. The enemy's signaling continues excessive. There were several indications of hits being made by our artillery on the ammunition dumps in the enemy's rear areas. One of these occurred late in the evening, when a large blaze was seen in the sky and a heavy explosion heard from a point which had just been shelled by our artillery. Later in the same vicinity an occasional glow was seen and reports were heard. Our guns had been firing very heavily in that direction just prior to the explosion. Another explosion probably of an ammunition dump occurred at about the same time in another locality, where a bright light was at first observed, followed directly by a loud explosion. In the early morning of July 2 there was still another report of an explosion. Our guns were playing on this particular spot at the time, and the report, the smoke which immediately arose, the high-shooting flames, and the bursting of cartridges are evidence that this was still another ammunition dump. Still another large fire, accompanied by several explosions, was observed. This was probably an ammunition dump struck by French shells.

In Picardy the enemy's artillery fire was the only outstanding feature of hostile activity on July 1 to July 2, noon to noon. A large proportion of his fire was employed in concentrations on our lines in the vicinity of Cantigny and the northern edge of the Bois Fontaine. In addition to these concentrations there was slight harassing fire on our front about noon July 1. The enemy's infantry was quiet during the day; we did, however, see early on July 2 an enemy patrol returning to its lines. The enemy's airplanes were more active during the morning than at any other time during the day, one patrol of five planes being seen over our lines at that time. During the night bombs were dropped in what appeared to be an attempt to explode one of our ammunition dumps. Shortly before

(Continued on page 8.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

A determined effort was made in the Senate until a late hour Saturday night to bring about an adjournment until the 12th of August and the postponement of consideration of the wire control bill until the reassembling of Congress, the Interstate Commerce Committee in the meantime to conduct hearings on the subject. There were several hours of debate on the subject of legislation authorizing the taking over by the Government of all forms of electrical communication, and the advisability of Congress adjourning at all. In the end a resolution offered by Majority Leader Martin providing for such an adjournment was adopted by a margin of one vote. The Senate then made the food stimulation bill the next order of business, with its war prohibition amendment attached, as reported from the committee. When word was received that the House had failed to act on the adjournment resolution and had adjourned until today, the Senate followed the same course. The vote on the resolution intended to provide a midsummer recess was cast as follows:

FOR ADJOURNMENT.

Democrats.—Beckham, Fletcher, Gerry, Gore, Gulon, Kendrick, King, Lewis, McKellar, Martin, Overman, Phelan, Pomerene, Ransdell, Reed, Saulsbury, Shafroth, Simmons, Smith of Arizona, Smith of Maryland, Swanson, Underwood.—22. Republicans.—Cummins, Dillingham, Lenroot, Penrose, Poindexter.—5. Total—27.

AGAINST ADJOURNMENT.

Democrats.—Ashurst, Bankhead, Jones of New Mexico, Myers, Nugent, Pittman, Sheppard, Shields, Smith of Georgia, Thompson, Trammell, Vardaman.—12. Republicans.—Borah, Curtis, Fernald, France, Hale, Johnson of California, Jones of Washington, Kellogg, New, Morris, Sherman, Smoot, Sterling, Sutherland.—14. Total—26.

Bills Passed.

Bills were passed by the Senate Saturday afternoon and evening as follows: Providing penalties for corrupt practices at elections of Federal officers, amending it to make the measure applicable to primaries and to vote selling as well as vote buying. Those convicted under the proposed law may be fined $1,000 or imprisoned one year. The bill now goes to the House. A bill designed to prevent a fuel shortage by stimulating production of peat and lignite. It appropriates $150,000 to be expended by the Bureau of Mines in a survey of peat fields with a view to obtaining increased production of these substitutes for coal. A bill already acted upon by the House, authorizing the insuring by the War-Risk Insurance Bureau of vessels of friendly nations when under charter by the United States Shipping Board, or to a citizen of the United States, or on the cargoes whether or not they are so chartered. "House bill, with minor amendments, providing for the establishment of a factory at the Atlanta penitentiary for the manufacture of cotton fabrics and cotton duck to be sold only to the Government, and for the acquisition of land near the penitentiary to be used for farming by convict labor. House bill enlarging the powers of the Shipping Board, conferring upon the board through the President authority to prescribe charter and freight rates and to requisition vessels, either built or now under construction. The bill in some of its provisions is designed to perfect and clarify the powers already exercised by the board.

The Senate confirmed the nomination of of eight brigadier generals to be major generals in the National Army, and forty-one colonels to be brigadier generals.

Agree on $2.40 Wheat.

The conference report on the agricultural appropriation bill, with its compromise of $2.40 as the guaranteed price of wheat per bushel, was adopted by the Senate Saturday afternoon. Similar action was taken in the House and the bill sent to the President.

Senator Lewis introduced a bill to create a Department of Transportation and Telegraph, to be headed by a Cabinet officer to be known as the Secretary of Transportation and Telegraph. The bill proposes to give the department it seeks to create jurisdiction over railroads and water craft and such commercial telegraph and telephone lines as the United States may own or control, and other lines owned or supervised by the War and Navy Departments.

Senator Lewis also introduced a bill giving Army nurses rank in the service.

Senator Swanson, of Virginia, on Saturday was chosen chairman of the Committee on Naval Affairs to succeed the late Senator Tillman.

HOUSE.

The House Saturday evening manifested such opposition to the proposed midsummer adjournment without action by the Senate on the resolution authorizing the President to take over all means of electrical communication that Majority Leader Kitchin withdrew the resolution which had been sent over by the Senate, and the House promptly adjourned. The President's desire for prompt action by Congress on this subject was shown in a letter written to Chairman Sims, of the House committee, which was made public at the Capitol, as follows:

"My Dear Mr. Sims:

"I am deeply grateful that the House acted so promptly and so emphatically in the matter of the control of the wires, and I want to thank you and all who were associated with you in getting the measure adopted.

"I feel the critical importance of the whole thing very keenly and am hoping that Members of the House may be influential with Members of the Senate in pressing for action by that body before the recess."

Returns Fund to Col. Roosevelt.

Acting in accordance with a request from former President Roosevelt the House passed a resolution providing for the return to Mr. Roosevelt of the $40,000 Nobel peace-fund prize. Calling attention in a letter to Representative Gallivan that nothing had ever been done with this money, Mr. Roosevelt said if returned to him he intended to use it in war relief work through the American Red Cross, Y. M. C. A., Knights of Columbus, Jewish war fund, and other relief organizations.

The conference report on the $12,000,000,000 Army bill was agreed to, it having been previously adopted in the Senate. The conference report on the agricultural appropriation bill also was agreed to, including the compromise of $2.40 as the guaranteed price of wheat.

Mr. Steenerson, of Minnesota, introduced a bill under which newspapers entitled to second-class mail privileges when addressed to officers, soldiers, or sailors, or marines would be carried free of postal charges.

The report from the special committee appointed to investigate the race riots in East St. Louis, Ill., a year ago was submitted to the House. It condemned the conduct of the city and county officials and the Illinois National Guard.

Contribute to the Red Cross fund.

ADDITIONAL LIST OF ARCHITECTS ASSIGNED TO HOUSING PROJECTS

The War Labor Policies Board authorizes the following:

Additional assignment of architects in Bureau of Industrial Housing and Transportation:

New London, Conn. (Project No. 157).—Architects, Hoppin & Keen, 4 East Forty-third Street, New York City; engineers, Tribus & Massa, 86 Warren Street, New York City.

Rock Island, Ill. (Project No. 246).—Architects, Cervin & Horn, Rock Island, Ill.; town planner, George E. Kessler, 423 Security Building, St. Louis, Mo.; engineer, W. S. Shields, Hartford Building, Chicago, Ill.

Moline, Ill. (Project No. 246a).—Architects, Cervin & Horn, Rock Island, Ill.; town planner, George E. Kessler, 423 Security Building, St. Louis, Mo.; engineer, W. S. Shields, Hartford Building, Chicago, Ill.

East Moline, Ill. (Project No. 246b).—Architects, Cervin & Horn, Rock Island, Ill.; town planner, George E. Kessler, 423 Security Building, St. Louis, Mo.; engineer, W. S. Shields, Hartford Building, Chicago, Ill.

Davenport and Bettendorf, Iowa (Project No. 246cd).—Architects, Temple & Burrows, 208 Maine Street, Davenport, Iowa; town planner, George E. Kessler, 423 Security Building, St. Louis, Mo.; engineer, W. S. Shields, Hartford Building, Chicago, Ill.

Niagara Falls, N. Y. (Project No. 404).—Architects, Dean & Dean, 137 South La Salle Street, Chicago, Ill.

Indian Head, Md. (Project No. 496).—Architects, Donn & Deming, 803 Seventeenth Street NW., Washington, D. C.

Alliance, Ohio (Project No. 621).—Engineer, R. Winthrop Pratt, Hippodrome Building, Cleveland, Ohio.

Bridgeport, Conn. (Project No. 102).—Engineer, Alfred Terry, 886 Main Street, Bridgeport, Conn.

Lowell, Mass. (Project No. 398).—Architect, Henry L. Rourke, Lowell, Mass.

Portsmouth, N. H. (Project No. 604).—Architect, James H. Ritchie, 8 Beacon Street, Boston, Mass.

Sharon, Pa. (Project No. 138).—Architect, George H. Schwann, Pittsburgh, Pa.

Niles, Ohio (Project No. 481).—Architect, George H. Schwann, Pittsburgh, Pa.

Warren, Ohio (Project No. 118).—Architect, George H. Schwann, Pittsburgh, Pa.

Nominations Sent to Senate

Nomination sent to the Senate July 6, 1918.

Charles E. Lobdell, of Great Bend, Kans., to be a member of the Federal Farm Loan Board for a term of eight years; a reappointment.

Charles H. Verrill, of Maine, to be a member of the United States Employees' Compensation Commission.

Total Casualties in U. S. Army and Marine Corps

The following weekly statement is authorized by the War Department:
The total number of casualties to date, including those reported Sunday (July 7), is as follows:

Killed in action (including 291 at sea)	1,574
Died of wounds	532
Died of disease	1,322
Died of accident and other causes	489
Wounded in action	5,200
Missing in action (including prisoners)	452
Total	9,569

The total number of Marine Corps casualties, including those reported on July 5, is as follows:

Officers:	
Deaths	21
Wounded	28
Missing	2
Enlisted men:	
Deaths	476
Wounded	941
In hands of enemy	2
Missing	47
Total	1,517

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

JULY 7, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	25
Died from wounds	17
Died of disease	9
Died of aeroplane accident	2
Died from accident and other causes	3
Severely wounded	48
Missing in action	13
Total	117

Killed in Action.

Lieut. Wesley Freml. Mrs. Kathreen E. Freml, 42 Van Ness Street, San Antonio, Tex.
Lieut. Frank C. Linn, jr. Mrs. F. C. Linn, R. F. D. 9, Box 42, San Antonio, Tex.
Sergt. Dey L. Allen. Joe E. Allen, Lykins, [illegible].
Corpl. Harry T. Gale. George W. Gale, Box [illegible], Wyoming, Ill.
Cook William S. Craven. Mrs. Jeanette Craven, [illegible] West Main Street, Meriden, Conn.
Wagoner John A. Hamilton. Alexander Hamilton, Lehigh, Iowa.

PRIVATES.

Meinrad Aufdermaur. Frank Bricker, 641 California Street, San Francisco, Cal.
Alex Backer. Kostanti Backer, 63 Auburn Street, Springfield, Mass.
Lee I. Brown. Mrs. Florence I. Brown, Syracuse, Kans.
Walter Daetwiler. Arnold Daetwiler, 615 Western Avenue, Janesville, Wis.
David Doctor. Mrs. Lena Russell, 276 Vermont Street, Brooklyn, N. Y.
Lloyd E. Hutcheson. Mrs. L. E. Hutcheson, Meridian, Idaho.
Edward H. McLin. Berry L. McLin, Canton, Mo.
Beaven E. Patterson. Mrs. F. F. Martin, 549 Central Avenue, San Francisco, Cal.
Domenico Patti. Angelo Patti, Tisna, Italy.
Frederick J. Renn. Ed. Renn, Epping, N. Dak.
Ernest Russell. Mark Russell, 32 Melrose Street, Lawrence, Mass.
Lee D. Saxton. William D. Saxton, Belvidere, Nebr.
Fred A. Sell. Mrs. Rosa Sell, Chelsea, Iowa.
Gust Shellburg. Dan Rielly, Tappen, N. Dak.
John J. Sheridan. Mrs. Mary Robinson, 193 Walnut Street, Newark, N. J.
John W. Shumate. John S. Shumate, South Charlestown, W. Va.
Lyndley T. Spencer. Mrs. Mary Spencer, Canutillo, Tex.
Floyd H. Wood. Mrs. N. E. Wood, 587 O'Farrell Street, San Francisco, Cal.
Joseph Zboran. Frank Zboran, Dunkin, Pa.

Died from Wounds.

Lieut. Charles Abbott Dean. A. A. Dean, 5809 West Ohio Street, Chicago, Ill.
Lieut. Harold Lloyd Pinkham. William F. Pinkham, 69 Sagamore Avenue, West Medford, Mass.
Sergt. Cyril Mosher. Rev. Gibson Mosher, 56 Spring Street, New Haven, Conn.
Sergt. Boyd F. Mulligan. Mrs. Sara Mulligan, 418 Cedar Street, Topeka, Kans.
Corpl. Ollie Ralph Hatcher. Peter Lloyd Hatcher, Station A, Boston, Ga.
Corpl. Edward D. Prichard. David C. Prichard, Geneseo, Ill.

PRIVATES.

Oswald E. Apitz. Mrs. Martha LePage, 807 Essex Street, Lawrence, Mass.
Chester A. Fleet. Mrs. M. Fleet, 124 Maple Street, Lynn, Mass.
Barney Ginsberg. Alex Ginsberg, 625 Wales Avenue, New York, N. Y.
Wesley Heffner. Amos Heffner, Chanceford, Pa.
Earl Horton. E. Honeycutt, Bracken Road and Gate Street, Cincinnati, Ohio.
James H. Hurd. Henry Hurd, Florida, Ohio.
George MacInnis. Mrs. Eben W. Wheeler, South Street, Wrentham, Mass.
Wylie V. McCauley. S. H. McCauley, R. F. D. No. 1, Summerville, Ga.
Otis Morris. James H. Morris, Montezuma, Ind.
Adolf William Mueller. Henry Fred Mueller, 1406 Seventh Street, Fort Dodge, Iowa.
Ben Nudd. E. E. Nudd, 920 First Avenue North, Seattle, Wash.

Died of Disease.

Corpl. Dennis Falvey. Mrs. Julia Falvey, 2749 Eighth Avenue, New York, N. Y.

PRIVATES.

Edward Daly. Mrs. Harriet E. Daly, 119 Second Avenue, North Troy, N. Y.
Frank M. Hensley. Mrs. R. E. Hensley, 501 Brooklyn Avenue, Seattle, Wash.
Barney C. Ivey. Adam C. Ivey, Boston, Ga.
Decater Nelson. Mrs. Mary Hunfery, Rosa, Ark.
Lyman H. Payne. Frank C. Payne, Portland, Conn.
Tinsley Rucker. Mrs. Winnie Browne Rucker, R. F. D. No. 5, Oglesby, Ga.
Robert Henry Schaich. Mrs. Virda Schaich, Talmage, Kans.
Clifford A. Smith. Stephen A. Smith, Brockton, N. Y.

Died of Aeroplane Accident.

Capt. Elliot P. Hinds. Fred A. Purchase, McGraw, N. Y.
Lieut. John J. Donnohue. Mrs. Annie Donnohue, Appleton City, Mo.

Died from Accident and Other Causes.

Sergt. Theodore N. Carter. Milton H. Carter, South Bethlehem, Pa.
Corpl. Adam Demaraski. Joseph Demaraski, Montreal, Wis.
Pvt. Oscar Male. Ole Male, Malta, Ill.

Wounded Severely.

Maj. John P. Lucas. Charles C. Lucas, Kearneysville, Jefferson County, W. Va.
Maj. Daniel F. Maguire. Mrs. D. F. Maguire, 6 West Gonsales Street, Pensacola, Fla.
Lieut. Joseph J. Devine. John F. Devine, 139 Rosette Street, New Haven, Conn.

CASUALTIES REPORTED BY GEN. PERSHING

Lieut. Charles I. Kerr. Mrs. Marinda Kerr, Winslow, Ind.
Lieut. Thomas H. Lee. Thomas J. Lee, 216 West One hundred and twenty-first Street, New York, N. Y.
Lieut. Ralph L. Warren. E. A. Warren, Carlsbad, N. Mex.

SERGEANTS.

William J. Condrick. John F. Meehan, 109 Bastable Building, Syracuse, N. Y.
Daniel J. Ennis. John F. Ennis, 3831 Newton Street, Denver, Colo.
Le Roy A. Hammer. Mrs. Laura Pearl Hammer, Lone Tree, Iowa.
Richard C. Hertal. Mrs. Katherine Hertal, 408 Ward Street, Saginaw, Mich.
John Kallman. Clares Kallman, 212 Drake Street, Grand Rapids, Wis.
Emile F. Miller. Mrs. Emma Miller, 2315 Lafayette Avenue, New Orleans, La.
Corpl. Ben S. Boyce. William D. Boyce, 500 North Dearborn Street, Chicago, Ill.
Corpl. Harry Hopson. Mrs. Mary Scott, 1810 Morgan Street, St. Louis, Mo.
Corpl. Ben Sendobry. Frank Sendobry, 2022 South Leavitt Street, Chicago, Ill.
Mechanician Harry L. Depp. Mrs. J. E. Depp, 334 Glenn Avenue, Portland, Ore.
Cook Bennie O. Hanson. Hilmer Hanson, R. F. D. No. 1, Box 37, Duluth, Minn.

PRIVATES.

Sigurd Arnvig. Mrs. Astrad Faeborg, Elkhorn, Iowa.
Irus A. Bell. Henry A. Bell, 324 West Fourth Street, Leadville, Colo.
Frank A. Billman. Jacob Billman, R. F. D. 1, Myerstown, Pa.
John A. Boardman. Cornelius Cronin, 27 Bedford Street, Hartford, Conn.
Flint Breneman. Joseph Breneman, El Cerrito, Cal.
Robert E. Carson. Ernest Carson, Chatfield, Minn.
Merrill E. Charleson. Mrs. Mattie Dove, Flora, Ill.
Paul E. Cobb. Press Cobb, Gastonia, N. C.
George Cody. William E. Smith, 225 Hampshire Street, Cambridge, Mass.
Clarence C. Coles. Geo. E. Coles, Collins, Iowa.
Daniel F. Cronin. Joseph Cronin, Hyattville, Wyo.
Andrew G. Eakman. Luster Eakman, Export, Pa.
Lewis Flattum. Mrs. Lucy Flattum, St. Croix, Wis.
Mike Gladue. Mrs. Joe Gladue, Neche, N. Dak.
Walter Gray. Mrs. Nancy Gray, Loma, Mont.
Ross Hall. Mrs. Willie Pique, Fitzgerald, Ga.
Herbert Hertig. Christian Hertig, general delivery, Alpena, W. Va.
Jesse M. Lingo. William Lingo, Baldridge, Mo.
Clarence R. Martin. Mrs. Sarah Martin, Smithsburg, Md.
John M. Meehan. Mrs. Ellen Meehan, 514 Rice Street, Springfield, Ohio.
Henry L. Miller. Mrs. John Gallagher, 225 East Polk Street, Chillicothe, Mo.
Lawrence Joseph Mulhearn. Mrs. Charlotte Mulhearn, 172 St. James Place, Brooklyn, N. Y.
Aaron Price. Mrs. May Price, 902 East Dewarl Street, Shamokin, Pa.
Charles W. Ratliff. Charles W. Ratliff, 706 Park Avenue, Louisville, Ky.
Fred J. Runge. Mrs. Emma Brickman, 3032 South Tripp Avenue, Chicago, Ill.
James Henry Smith. Robert Cutting, 1552 Payne Avenue, Cleveland, Ohio.
Patrick F. Sullivan. Mrs. John D. Kelly, 26 West Center Street, Butte, Mont.
Joseph E. Tressler. Samuel T. Tressler, 24 Locust Street, Uniontown, Pa.
John Wasserbach. George Wasserbach, Algoma, Wis.
Albert Weinrich. Frank Weinrich, 556 Woodward Avenue, Brooklyn, N. Y.
Louis Winters. John Winters, Skillman Avenue, Oceanside, N. Y.

Missing in Action.

PRIVATES.

John B. Ardis. William H. Ardis, Brownfield, Tex.
Joseph Ascenzi. J. Ascenzi, 262 North Sixth Street, Brooklyn, N. Y.
William M. Bourdeau. Mrs. J. Bourdeau, 44 Dumming Street, Concord, N. H.
William Davies. Mrs. Sarah Prichard, 1140 Seymore Avenue, Utica, N. Y.
Leslie Ray Elliott. Myron J. Elliott, Brunswick, Vt.
Oke C. Freeberg. Mrs. Louisa Freeberg, Houtzdale, Pa.
Edward V. Mallery. Mrs. Alice Meyers, 2120 Second Street, Menomonie, Wis.
Joseph Michaud. Peter Michaud, St. Leon Le Grand, Canada.
Henry L. Miller. Charles Miller, R. F. D. 3, Pittsford, N. Y.
Millard F. Roberts. Joseph Roberts, R. F. D. 13, Knoxville, Tenn.
Harry Sebe. Harry Sebe, 1305 East High Street, Lima, Ohio.
Frank Siers. Jink Siers, Nebo, W. Va.
Joseph C. Solane. Mrs. Margaret Solane, Maplewood Street, Etna, Pa.

Prisoners (previously reported missing).

CORPORALS.

Miles S. Dunning. Harry G. Dunning, 110 California Street, West Haven, Conn.
William Kluth. Charles Kluth, 205 Springside Avenue, New Haven, Conn.
Eric A. Lee. George Lee, 189 Massachusetts Avenue, Providence, R. I.
Bugler Nelson F. Waters. Mrs. Amanda Waters, 1238 Dixwell Avenue, New Haven, Conn.

Fred. A. Wegenast. John Rowe, uncle, St. Matthews, Ky.

American Communiques

(Continued from page 4.)

midnight air combats occurred. At 9 o'clock in the morning a German plane was brought down by an allied machine over the enemy's lines. Five enemy planes were observed engaged in photographic work. The enemy's balloons continued their activity of yesterday. Our antiaircraft batteries and machine guns were in active operation against the enemy's planes. There was only slight movement of troops or traffic of any sort in the enemy's front and rear areas. Enemy working parties were heard at intervals near Chateau Jenlis, Fontaine sous Montdidier, Montdidier, and other points. Our artillery apparently registered hits directly on German ammunition dump.

In Lorraine during the day extending from noon, June 30, to noon, July 1, there was unusually heavy machine-gun and rifle fire on our lines. The machine-gun fire doubled in the space of 24 hours, originating largely in the German position opposite Badonviller. The enemy's artillery fire was light and scattered, consisting mainly of small caliber shells, and including the use of some shrapnel and gas. His planes were fairly active over both our front and rear areas and at one point dropped a few bombs, which did no damage. In his rear areas there was considerable movement of men, trucks, wagons, and trains.

In the same sector the day followed showed the same unusual amount of machine-gun fire and the same moderate artillery activity by the enemy during the morning. On the other hand, the circulation in the enemy's rear areas was very notable, automobiles, wagons, trucks, cyclists, and pedestrians moving along the roads at frequent intervals. Our patrols were very successful in gaining information.

In the Colmar sector on July 1 there were no developments of note, conditions being in every case normal. An amusing example of German propaganda, designed to induce our men to surrender easily, was found. A German plane dropped in our line a post card, reading: "Soldiers of the U. S. A. say that we kill prisoners of war or do them some other harm. Don't be such greenhorns! How can you smart Americans believe such a silly thing?"

American Official Communique, No. 53.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 6, 1918.

Section A.—In the Chateau Thierry region, where the artillery activity of the preceding days still continues, our patrols again took prisoners. In the Vosges and in the Woevre the enemy once more failed in attempts to reach our lines. In the Woevre a strong hostile party succeeded in occupying, for a short time, one of our outpost positions.

Resolution Directs Public Printer to Discontinue All Publications Not Essential to War Activities

Congress Joint Committee Points Out Necessity for the Saving of Paper and Labor.

In accordance with its policy of economy in the public printing, the Joint Committee on Printing, of which Senator Marcus A. Smith, of Arizona is chairman, has adopted a resolution directing the Public Printer to discontinue the printing of publications that are not essential to the work of the Government during the war, and exercise to the fullest extent his authority under the law to regulate the use of paper in Government printing.

Text of the Resolution.

The resolution adopted by the joint committee is as follows:

Whereas the supply of paper is short and the prices demanded therefor exceedingly high, which situation the paper and pulp section of the War Industries Board reports will soon become even more serious owing to the requirements for fuel and transporation by essential war industries;

Whereas large quantities of paper have been used in Government printing that has no relation to the war and is not required for the essential work of the Government at this time, thereby tending to cause delays in printing which is necessary to the war activities of the Government and greatly increasing the expenditures for the public printing;

Whereas the Joint Committee on Printing has "power to adopt such measures as may be deemed necessary to remedy any neglect or delay in the execution of the public printing and binding" (act of Mar. 1, 1907);

Whereas the Public Printer has authority to determine the forms and style in which printing and binding ordered by any of the departments may be executed and the material to be used (sec. 51, act of Jan. 12, 1895); and

Whereas the Joint Committee on Printing, on December 12, 1917, adopted and transmitted to the Public Printer the following recommendation of its Subcommittee on Paper Specifications:

"In order to conserve paper-making material during the war recommendation is made that the Joint Committee on Printing request the Public Printer to exercise, to the fullest extent, his authority under section 51 of the printing act approved January 12, 1895, to require the use of the lightest weight and lowest grade paper possible in the execution of the public printing and binding.

"If all the departments and establishments of the Government will regulate their paper needs, at least for the period of the war, by the determination to use the lightest, lowest grade suitable paper, the estimated saving ($320,000) can be readily more than doubled, and the country will further benefit in the labor, fuel, and transportation thereby released. These statements are as true of the requirements of business as of the Government, and the elimination of the needless use of paper will contribute not a little to the national well-being."

Therefore be it

Resolved, by the Joint Committee on Printing, That the Public Printer be requested to strictly enforce the authority vested in him under law to determine the material, including paper, to be used in the public printing and binding, and that during the continuation of the war he be directed to print only such publications as are required for the essential work of the Government and which do not delay necessary war printing; be it further

Resolved, That all cases of doubt or dispute as to whether publications are nonessential at this time and are thereby causing delay in the public printing and binding be referred to the Joint Committee on Printing for the adoption of such additional measures as it may be deemed necessary.

The Joint Committee, after a careful study of the subject, has come to the conclusion that a number of Government publications could and ought to be suspended during the present war, not only to effect desirable economy in the public printing, but also, and which is even more important, to avoid serious delays in war printing, which is the chief duty of the Government Printing Office in this emergency. In this endeavor the committee hopes to have the hearty cooperation of all the departments of the Government without the necessity of taking further action in regard thereto. The Joint Committee has long realized that printing ought to be placed upon a war basis as well as all other work of the Government.

That the Joint Committee has begun its work of economy at home is evidenced by the fact that not a single reprint of publications authorized by law for distribution by Members of Congress has been ordered by the committee since the beginning of the war. Under the law the committee has authority to fix editions in which such publications shall be printed, and by its regulations, which have been effective since October 6, 1914, the number of documents available for distribution by Members of Congress has been decreased more than 50 per cent. This has resulted in a saving of several hundred thousand dollars to the Government and has relieved the Government Printing Office of a corresponding amount of work at a time when it was imperative for that establishment to exert all its energies to the production of war printing.

Saving in Purchases.

In this connection it is also appropriate to state that, through the action of the Joint Committee on Printing in rejecting bids for annual contracts and directing the Public Printer to purchase paper in the open market, a net saving to the Government of $846,278.14 was effected for the year ended March 1, 1918. This was a saving of nearly 50 per cent, as the total open-market purchases of paper for that year amounted to $1,920,998.14. The total amount of paper bought for the Government Printing Office, both on contract and in the open market, during the same year amounted to $4,500,000. In addition to fixing the standards for all this paper and awarding the contracts therefor, everyone of the hundreds of open-market purchases was submitted to the joint committee for its consideration and approval before such purchases by the Public Printer were authorized. The committee also exercises direct supervision over the inspection of all this paper, the technical tests of which are made by the Bureau of Standards, so that the interests of the Government are in every way safeguarded.

Waste Material Utilized.

In a further effort to relieve the paper situation, particularly as to the supply of raw material, the committee has authorized the Public Printer to sell as waste paper several hundred thousand obsolete and useless publications which have accumulated at the Government Printing Office. This waste will go to paper manufacturers to again be made up into paper, and will relieve the present shortage of material to that extent. A similar effort to utilize waste and useless papers in the manufacture of new paper has also been suggested by the paper and pulp section of the War Industries Board, with which the Joint Committee on Printing is cooperating.

TRUCE PROVISIONS SIGNED BY RUSS-UKRAINIAN DELEGATES

State Department Informed of Principal Terms of Kieff Agreement of June 12.

A telegram to the Department of State gives the following summary of the provisions of the truce signed on June 12 by Russian and Ukrainian delegates at Kieff:

Military activities along entire front are stopped during the period of peace negotiations. Nationals of the contracting parties are allowed to return to their respective States with their property with the exception of merchandise, interest-bearing papers, and valuables.

Cash Allowed Nationals.

Cash to be taken is limited to 10,000 roubles for the head of family and 2,000 roubles for each member, with maximum of 20,000 for the family. An additional 80,000 roubles may be transferred if resulting from sale of property. Both contracting parties have the right to limit and stop import and export of foreign currency.

A commission of representatives of both States will be formed to transfer gradually from Russia to Ukrainia railway rolling stock taken from Ukrainia. Postal, telegraphic, and passenger communication will be reestablished simultaneously with fulfillment of above provisions of this paragraph.

Basis of Reciprocity.

Both States, on a basis of reciprocity, will establish their representative commissaries and consuls for Russia and Ukrainia. The Red Cross societies shall facilitate the journey to their respective States of prisoners of war who are citizens of either State. A committee shall be formed within one week to regulate requests for and exchange of merchandise. Both States shall immediately consider terms of peace.

300 Draft Men Ordered to Fort Seward, Alaska

The Provost Marshal General authorizes the following:

Three hundred men (whites) called by the selective draft of June, 1918, have been directed to report at Fort William Seward, Haines, Alaska. No date of entrainment has been announced.

Limited service clerks will entrain July 15, 1918, as follows:

From New York, 500, to Camp Joseph Johnson, Jacksonville, Fla.

From Connecticut, 150, to Camp Meigs, Washington, D. C.

Make every day a thrift day and help your Government end the war days.

INDEPENDENCE DAY GREETINGS FROM ANGLO-SAXON FELLOWSHIP

Meeting at London Sends Message to President and People of United States — Mr. Wilson's Reply.

President Wilson has received the following telegram:

LONDON, *July 4, 1918.*

PRESIDENT WILSON,
The White House, Washington.

At this representative meeting of Anglo-Saxon fellowship, assembled at the Central Hall, Westminster, London, and presided over by the Right Honorable Viscount Bryce, O. M., the following resolution has been proposed by the Right Honorable Winston S. Churchill, seconded by the Honorable A. Meighen and carried with acclamation:

The meeting of Anglo-Saxon fellowship assembled in London on July 4, 1918, sends to the President and people of the United States their heartfelt greetings on the one hundred and forty-second anniversary of the declaration of American independence. They rejoice that love of liberty and justice on which the American Nation was founded should in the present time of trial have united the whole English-speaking family in a brotherhood of arms. They congratulate the United States Army and Navy on the marvelous achievement involved in the safe transportation to the battle fields of Europe of the first million soldiers of the American Continent. They affirm their devotion to the noble and righteous cause in which we are fighting, and their faith that by the help of God a complete and lasting victory will be won for freedom and humanity.

BRYCE.

The following reply has been sent:

The Right Hon. VISCOUNT BRYCE, O. M., *London, England.*

The generous resolution of the great meeting held on July 4th by the citizens of London in celebration of the anniversary of the independence of the United States has been received with the deepest appreciation. The people of the United States have entered this war not only with the full force of their own national life and action, but also with a profound sense of the interdependence of free peoples of the world, and it is with [illegible] that they find themselves associated in close fraternal [illegible] with the people of the British Empire.

WOODROW WILSON.

FOUND DEAD ABROAD.

The Navy Department is informed that Hugh Geary Martin, yeoman, first class, United States Navy, was found dead on a railroad abroad. He enlisted at Houston, Tex. Next of kin, mother, Mrs. Julia Martin, 232 Front Street, McComb, Miss.

PAYMENT OF ALLOTMENTS

(Continued from page 1.)

lotment forms were incorrectly filled out, addresses incorrectly given, or other causes over which the disbursing officers had no control.

These payments have been made by the finance division of the depot quartermaster, which is now the central disbursing division, office of the Quartemaster General. The total payment for May was approximately $5,000,000, and this payment was completed June 8. The allotment law, as amended October 6, provided also for the allotment of commissioned officers as well as enlisted men, and at the present time some 30,000 commissioned officers have taken advantage of this provision, allotting approximately $1,000,000 per month.

Included in the allotments are the thousands of monthly payments for Liberty bonds allotted for by commissioned officers and enlisted men. During the month of August the central disbursing division will be faced with the duty of distributing a million fifty-dollar bonds of the second Liberty loan, which were contracted for by officers, enlisted men, and permanent civilian employees.

Movie Actors Not to Be in Nonessential Class

The office of the Provost Marshal General authorizes the announcement that skilled men, including legitimate performers, engaged in the production and presentation of motion pictures, will not be placed in classes designated in the selective service regulations as being engaged in nonessential industries. This will include musicians who are actual performers in legitimate concerts.

DETAILED TO AIRCRAFT BUREAU.

The War Department authorizes the following:

The appointment is announced of Maj. B. H. Gitchell, National Army, under detail to the office of the Secretary of War, as Chief of the Industrial Relations Section, Bureau of Aircraft Production, to take the place of Charles P. Neill, who is now chairman of the Railroad Board of Adjustment No. 1.

PROPOSALS FOR SEWER SYSTEM.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., June 12, 1918.

Sealed proposals plainly marked on the outside of the sealed envelope, "Proposals for sewer system, water supply and distributing system at the Toadlena School, under the jurisdiction of the San Juan School, Shiprock, N. Mex." and addressed to the "Commissioner of Indian Affairs, Washington, D. C.," will be received at the Indian Office until 2 o'clock p. m. of July 18, 1918, for furnishing materials and labor for the construction of a sewer system, water supply, and distributing system in strict accordance with the plans, specifications, and instructions to bidders, which may be examined at the office of the paper or periodical in which this advertisement appears, the United States Indian Warehouse at Chicago, Ill.; St. Louis, Mo.; San Francisco, Cal.; and the Builders' Exchange, St. Paul, Minn., and at office of the superintendent of the San Juan School, Shiprock, N. Mex. For further information apply to the superintendent of the San Juan School.

CATO SELLS,
Commissioner.

URGED TO COOPERATE IN CURBING SPECULATION IN WOOL GOODS

The War Industries Board authorizes the following:

The Woolens Section of the War Industries Board has sent to a number of organizations representing dealers in woolens and woolen clothing the following letter:

The War Industries Board is advised that speculation in woolen piece goods persists.

It is, therefore, desired that you communicate to the members of the industries represented by you that profiteering in cloth or clothing is detrimental to the public welfare and is contrary to the industrial policy as outlined by the President.

Please urge that trading should be confined to those who are known to serve in some generally recognized way as distributors. If speculation is allowed to continue it is bound to react upon all concerned.

Your cooperation in spirit and act to help correct this situation is requested.

HERBERT E. PEABODY,
Chief, Woolens Section,
War Industries Board.

List of Organizations.

The organizations to which the letter was sent are: The National Garment Retailers' Association; National Association Garment Manufacturers; National Cloak, Suit, and Skirt Manufacturers' Association; Children's Dress Manufacturers' Association; International Ready-to-Wear Corporation; Mutual Cloak, Suit, and Skirt Manufacturers' Association; Merchants' Ladies' Garment Association; Cloak, Suit, and Skirt Manufacturers' Protective Association; Dress and Waist Manufacturers' Association; Chicago Designers' Association of Women's Wearing Apparel; War Service Committee of the Wool Manufacturing Industry; National Retail Clothiers' Association; War Service Committee of Retail Clothiers; National Custom Tailors' Association; Wholesale Jobbers of Woolen for Custom Tailors; War Service Committee of the Clothing Industry.

BIDS FOR PAINTING BRIDGE.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., June 20, 1918.

Sealed proposals plainly marked on the outside of the sealed envelope, "Proposals for repainting and replanking one steel highway bridge near Tanners Crossing, Little Colorado River," and addressed to the "Commissioner of Indian Affairs, Washington, D. C.," will be received at the Indian Office until 2 o'clock p. m. of July 24, 1918, for furnishing material and labor for the repainting and replanking of one steel highway bridge in strict accordance with the plans, specifications, and instructions to bidders, which may be examined at the office of the paper or periodical in which this advertisement appears, the United States Indian warehouses at Chicago, Ill.; St. Louis, Mo.; San Francisco, Cal.; the Builders' Exchange, St. Paul, Minn.; and at the office of the superintendent of the Western Navajo School. For further information apply to the superintendent of the Western Navajo School, Tuba City, Ariz.

CATO SELLS,
Commissioner.

ORDERED TO LOUISVILLE.

Special orders, No. 146:

77. Chaplain William R. Arnold, Coast Artillery Corps, will proceed without delay to Camp Zachary Taylor, Louisville, Ky., and report to the commanding general thereof for temporary duty as instructor in the Training School for Chaplains and Approved Chaplain Candidates at that place.

Bills Approved by President

THE WHITE HOUSE, *July 5, 1918.*

July 1, 1918, the President approved bills of following numbers and titles:

H. R. 12441. An act making appropriations for the sundry civil expenses of the Government for the fiscal year ending June 30, 1919, and for other purposes.

H. R. 10854. An act making appropriations for the naval service for the fiscal year ending June 30, 1919, and for other purposes.

July 2, 1918, the President approved bills of the following numbers and titles:

H. R. 12000. An act making appropriations for the payment of invalid and other pensions of the United States for the fiscal year ending June 30, 1919, and for other purposes.

H. R. 12599. An act making appropriations for the service of the Post Office Department for the fiscal year ending June 30, 1919, and for other purposes.

H. R. 7634. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 8496. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 9160. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 9612. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 10027. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 10477. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

July 2, 1918, the President approved joint resolution and bills of the following numbers and titles:

S. J. Res. 86. Joint resolution authorizing the Secretary of War to receive for instruction at the United States Military Academy at West Point, Aurelio Collazo, a citizen of Cuba.

S. 2104. An act to amend sections 4402, 4404, and 4414 of the Revised Statutes of the United States.

H. R. 10350. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 11364. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

H. R. 11663. An act granting pensions and increase of pensions to certain soldiers and sailors of the Civil War and certain widows and dependent children of soldiers and sailors of said war.

July 3, 1918. The President approved bills of the following number and title:

H. R. 3332. An act authorizing the Secretary of the Treasury to sell and convey certain land to the city of Faribault, Minn.

H. R. 12633. An act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1919, and for other purposes.

H. R. 9508. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy, and certain soldiers and sailors of wars other than the Civil War, and to widows of such soldiers and sailors.

H. R. 9641. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy, and certain soldiers and sailors of wars other than the Civil War, and to widows of such soldiers and sailors.

H. R. 10843. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy, to certain soldiers and sailors of wars other than the Civil War, and to widows of such soldiers and sailors.

H. R. 10924. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy, and certain soldiers and sailors of wars other than the Civil War, and to widows of such soldiers and sailors.

H. R. 11658. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy, and certain soldiers and sailors of wars other than the Civil War, and to widows of such soldiers and sailors.

S. 1553. An act to give effect to the convention between the United States and Great Britain for the protection of migratory birds concluded at Washington, August 16, 1916, and for other purposes.

S. 4127. An act to authorize the W. M. Ritter Lumber Co., a corporation, to construct bridges across the branches and tributaries of the Big Sandy and their tributaries, in the counties of Buchanan and Dickenson, in the State of Virginia.

Additional List of American Prisoners Sent Through Spanish Embassy at Berlin

The following statement is authorized by the War Department:

Additional list of American Prisoners of War, interned at various prison camps in Germany, as reported by the Royal Prussian War Ministry, Central Information Bureau, which list was forwarded to the American Legation at Berne by the Royal Spanish Embassy at Berlin:

Name.	Rank.	Date and place of capture.	Where interned in Germany.	Emergency address.
Goodrich, Harold A....	First lieutenant.	Mar. 23, 1918, near Beugny.	Mainz.....	17 East Lockwood Street, Webster Groves, Mo.
Gordon, William Henry.	First lieutenant.	Apr. 13, 1918, St. Michael	Villingen..	Mrs. Etta W. Gordon, 464 Riverside Drive, N. Y.
Hardesty, John F.....	Captain.....	Mar. 23, 1918, Doignies.	Villingen..	B. Frank Hardesty, Winfield, Mo.
Jeffrey, Robert Harrison.	Lieutenant.....	Mar. 21, 1918, Lempire.	Villingen..	Mrs. Elizabeth Brooks Jeffrey, Uniontown, Pa., 335 Gallatin Avenue.
Kern, Thomas Benjamin.	Lieutenant.....	Mar. 21, 1918, trenches.	Villingen..	Mrs. Thos. B. Kern, 216 North Main Street, Bethlehem, Pa.
Quigley, James Earl..	Lieutenant.....	Mar. 21, 1918, Louverval.	Villingen..	Mrs. Francis Quigley, Adrian, Pa.
Stonina, Joseph.....	Sergeant.....	Mar. 1, 1918, Romier.	Tuchel....	Katherine Stonina, 51 Litcomb Street, Webster, Mass.
Strauss, Abraham[1]...	First lieutenant.	Mar. 22, 1918, St. Emilie.	Villingen..	Cleveland, Ohio.

[1] The records of the Adjutant General's office do not show a First Lieut. Abraham Strauss of Cleveland, Ohio, but do show a First Lieut. Abraham Strauss of No. 1 West Ninety-third Street, New York, N. Y.

Y. M. C. A. RADIO SCHOOL.

Total of 280 Students Graduated from Three Classes at Detroit.

The Department of Commerce issues the following:

A marked degree of success has attended the work of the Y. M. C. A. Radio School in Detroit, Mich., which was opened October 15, 1917, under the supervision and instruction of Mr. S. W. Edwards, United States radio inspector, and has been in continuous operation since that date. From three classes organized, 280 students were graduated. A fourth class of 75 students is now under instruction and is expected to finish early in August. Out of the 280 students already graduated 89 passed the Government examination for commercial radio operator's license; 137 of the graduates are now in active service—25 being in aviation work, 44 in the Navy, 62 in the Signal Corps, and 6 employed as commercial operators on the Great Lakes.

Letters have been sent to the various schools and colleges in the Detroit radio district stating the situation in regard to the demand for radio operators, requesting them to continue their efforts in training large classes of young men, and assuring them of the full cooperation of the radio inspector.

Analysis of U. S. Merchant Shipbuilding Shows 1,622 Vessels of All Description, Totaling 1,430,793 Tons in Past Year

The Department of Commerce, Bureau of Navigation, issues the following statement of American merchant shipbuilding for the year ended June 30, 1918:

Merchant vessels built in the United States during the fiscal year ended June 30, as officially returned to the Commerce Department, Bureau of Navigation, numbered 1,622, of 1,430,793 gross tons. The output of the past four months, 706,084 gross tons, almost equaled that of the preceding eight months, and is greater than any previous annual output in our history. The years' output is more than double the largest output of German shipyards in peace times. The output of the United States for the 12 months ended June 30 has not been stated, but for the 12 months ended May 31 it was 1,406,838 gross tons, or about 70 per cent of the annual output of peace times.

Of the years' American output, 253 of 1,034,604 gross tons were seagoing steel steamers, 157 of 213,088 gross tons seagoing wooden vessels, and the remainder were vessels for the lakes, rivers, and domestic transportation. One concrete seagoing steamer of 3,427 gross tons is included.

The years' output is almost exclusively from established private shipyards as the great shipbuilding plants like Hog Island, established through Government cooperation, had not begun to add finished ships to the cargo fleets to win the war.

Built for Foreign Owners.

The vessels covered by the year's official returns to the Commerce Department, Bureau of Navigation, are almost wholly ships building or contracted for by private shipowners, American, British, French, or Norwegian, and in the main requisitioned by the Shipping Board, as relatively small tonnage originally contracted for by the Government was finished, but will appear in large volume in the new fiscal year's returns.

Of the years' output 48,364 gross tons were built for and delivered direct to foreign owners.

Output by Months.

Vessels built and officially numbered in the United States from July, 1916, including vessels built for foreign owners.

[1] Includes 1 cement vessel of 3,427 gross tons.

(Continued on page 13.)

FOUR FIRMS ARE PENALIZED BY THE FOOD ADMINISTRATION

The Food Administration issues the following:

Two Massachusetts firms have been put out of business and another has had its sugar supply curtailed by the Food Administration for disregarding its rules and regulations. The licenses of two of the firms have been revoked for an indefinite period and they will not be allowed to deal in any commodities licensed under the food control act.

Boston and Lawrence Firms.

The two concerns are E. R. Sherburne & Co., of Boston, and L. M. Koritz Co., of Lawrence, Mass. Both were found to have accepted bonuses of about $10 a barrel in connection with sugar sales and of having sold large quantities to a small retailer.

The other concern to come under the ban was the P. M. Leavitt Co., of Boston. The Food Administration has forbidden all refiners and distributers from selling more sugar to this firm than was sold in the corresponding period of last year. The order was issued because P. M. Leavitt and the P. M. Leavitt Co. together controlled both of the concerns which have been put out of business.

Donation to Red Cross.

A payment of $5,000 to the Red Cross in lieu of other penalties for violation of United States Food Administration rules, has been made by the wholesale grocery firm of Oberman & Scherl, of 217 West One hundred and twenty-fifth Street, New York City.

The violations consisted of sales of flour at excessive margins of profit, and sales of wheat flour without proper substitutes. The case was heard before the New York Food Board, which gave the firm the opportunity of making the Red Cross donation.

Three Additional Naval Vessels Are Launched

The Navy Department has received dispatches stating that in addition to the 14 destroyers launched on July 4, 3 other naval vessels were launched as follows:

Gunboat.—Charleston Navy Yard, Charleston, S. C., gunboat *Asheville.*

Mine sweepers.—Alabama Dry Dock Co., Mobile, Ala., the *Swanhill.* Staten Island Shipbuilding Co., New York, the *Oriole.*

EXECUTIVE ORDER.

During the continuance of the present war the Public Printer is authorized to appoint skilled laborers without regard to the requirements of the civil-service act and rules. This order is issued on the recommendation of the Public Printer, with the concurrence of the Civil Service Commission, in view of the difficulty under present conditions of securing efficient help, and will be revoked as soon as the necessity for it is passed.

WOODROW WILSON.

THE WHITE HOUSE,
June 24, 1918.

RAILROAD ADMINISTRATION TO PAY EXPENSES INCURRED BY CARRIERS IN MAKING VALUATIONS

The Railroad Administration has issued the following:

PUBLIC SERVICE AND ACCOUNTING CIRCULAR No. 10.

The Director General will pay as a part of operating cost whatever expenses may be necessarily incurred by carriers in making the valuation which is now being made by the Interstate Commerce Commission; he will not pay expenses incurred to test the accuracy of this valuation or to contest the same before the commission or the courts. This valuation is of great importance to the corporation and it is entirely proper that the corporation should assure itself of its correctness; but it is also manifest that the corporation and not the Director General must determine the manner and extent of all this and that it should decide upon the amount of the outlay necessary to test such correctness and pay it.

In the application of this rule the following classes of expenditure will be borne by the Director General as an operating cost.

1. Whatever is necessary to comply with the valuation orders of the Interstate Commerce Commission.

2. Whatever is necessary to prepare and furnish the information required by the Bureau of Valuation. This includes requirements by its employees who are conducting the valuation in the several districts.

3. Whatever may be necessary to cooperate in the field by the furnishing of men to point out the property of the company, to assist in the taking of the inventory, etc.

4. For computers when, and only when, they work with the computers of the Bureau of Valuation or under its direction or on preparation of data required by the Bureau of Valuation.

5. For land appraisers provided they proceed in the same general manner as the appraisers of the commission in the collection of facts and opinions bearing upon the value of the lands to be appraised, and provided further that they will after such information is accumulated exhibit the same to the employees of the Bureau of Valuation in an effort to agree upon reasonable values. Expenses for expert opinions will not in any case be paid for.

6. When the field work of the Bureau of Valuation in any branch has been completed no further outlay by the carrier for account of the Director General in respect of that branch will be paid for and charged to Federal operation without special authority obtained from this office.

The above rules will apply as of July 1, 1918, and thereafter, leaving open for further consideration and instruction the six months then already elapsed.

C. A. PROUTY,
Director Division of Public Service and Accounting.

Analysis of U. S. Merchant Shipbuilding

(Continued from page 12.)

Number and Tonnage.

Gross tonnage of merchant vessels built in the United States (including those for foreign owners) and officially numbered during successive 12-month periods beginning with the 12 months which ended June 30, 1916.

ACT REQUIRING NUMBERING OF UNDOCUMENTED VESSELS

The Department of Commerce issues the following:

June 17, 1918.

To collectors of customs and others concerned:

Your attention is invited to the following act: "To require numbering and recording of undocumented vessels" approved June 7, 1918:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That every undocumented vessel, operated in whole or in part by machinery, owned in the United States and found on the navigable waters thereof, except public vessels, and vessels not exceeding sixteen feet in length measured from end to end over the deck excluding sheer, howsoever propelled or equipped with detachable motors, shall be numbered. Such numbers shall be not less in size than three inches and painted or attached to each bow of the vessel in such manner and color as to be distinctly visible and legible.

Award of Numbers.

SEC. 2. That the said numbers, on application of the owner or master, shall be awarded by the collector of customs of the district in which the vessel is owned and a record thereof kept in the customhouse of the district in which the owner or managing owner resides. No numbers not so awarded shall be carried on the bows of such vessel.

SEC. 3. That notice of destruction or abandonment of such vessels or change in their ownership shall be furnished within ten days by the owners to the collectors of customs of the districts where such numbers were awarded. Such vessel sold into another customs district may be numbered anew in the latter district.

SEC. 4. That the penalty for violation of any provisions of this act shall be $10, for which the vessel shall be liable and may be seized and proceeded against in the district court of the United States in any district in which such vessel may be found. Such penalty on application may be mitigated or remitted by the Secretary of Commerce.

SEC. 5. That the Secretary of Commerce shall make such regulations as may be necessary to secure proper execution of this act by collectors of customs and other officers of the Government.

SEC. 6. That this act shall take effect six months after its passage.

Rules and Regulations.

1. Application for numbers will be made by the owner or master to the collector of customs of the district in which the owner resides. The owner will then receive full instructions as to the number awarded, how it is to be placed on the vessel, etc.

2. In the case of power tenders for a boat which is itself numbered under this act, the tenders will take the same number as the parent boat. Tenders of documented boats will take a separate number for each power tender.

3. This law does not amend section 14 of the act of March 4, 1915, requiring the marking of lifeboats.

Respectfully,
WILLIAM C. REDFIELD,
Secretary.

EXECUTIVE ORDER.

Schedule A, Subdivision V, paragraph 3, of positions excepted from the requirements of examination under the civil-service rules is hereby amended to except from examination all positions under the Navy Department in the Virgin Islands. As amended paragraph 3 will read as follows:

3. All positions in the Island of Guam, in the Island of Samoa, and in the Virgil Islands.

WOODROW WILSON.

THE WHITE HOUSE,
June 24, 1918.

465,000 Officers and Men in Naval Service Today, Secretary Daniels Tells Pelham Bay Station Recruits

"There are 465,000 officers and men in the naval service to-day," said Secretary Daniels in addressing recruits at the Pelham Bay Naval Training Station at the Fourth of July flag raising, "and the number is growing at the rate of nearly 2,000 a day. At the present rate of increase we will soon pass the half-million mark.

"When we recall that at the time we entered the war there were but 70,000 men in the Navy and 13,000 men in the Marine Corps, making about 83,000 in the entire service, some idea can be gathered of the tremendous growth in little more than a year. Shortly before the beginning of the war Congress authorized the organization of the Naval Reserve Force. Only a few hundred had been enrolled, but since the war began the Naval Reserve Force has grown to 170,000 officers and men, and here at Pelham Park are gathered now 10,000 of the choicest spirits and soon the number here will reach 20,000.

Enlisted Men Promoted.

"More than 550 enlisted men of the Regular Navy have been promoted to the commissioned rank in the last 12 months; 1,220 warrant officers have won commissions, while 1,619 have gone to the warrant rank. There is the open door of promotion and honor to every man who enlists in the Navy.

"The subject of aviation has been a good deal before the public in the last few months, and you might like to hear a word or two on naval aviation. I know we have not done as much in aviation as we would have liked to do. Perhaps we have not done as much as we should have done; but still much has been accomplished. Some of you perhaps have seen in the last few months a dirigible or so over the city of New York. These are not the big German Zeppelins, but a type of small [illegible] dirigible which has been found very useful for seacoast patrol.

Navy's Own Design.

"In a few months the Navy designed and had built its own type of dirigible, [illegible] are coming forward steadily. We have developed sources of supply adequate to our needs. As regards airplanes, perhaps not very much has been seen of naval aircraft, for the reason that while the Army flies over the land the Navy flies over the water, and there are not many spectators at sea. [illegible] at sea naval aircraft may be seen every day—at least I know they are flying and patrolling every day. Naval aircraft built in this country are now in service abroad, and they are going over in a steady stream. Mind you, the Navy flying boat is a craft of size, and perhaps it should be more properly called a flying ship, with its [illegible] its length of 50 or 60 feet, it has always been a wonder to me that it could rise from the water at all, much less fly at a rate approaching 100 miles an hour.

"I wish it were permissible to tell in detail what has been accomplished by the experts in ordnance. The things of which we are proudest it is inadvisable now to discuss publicly, but I may say that the tests of the Navy's 16-inch gun, which forms the armament of our new dreadnaughts, which are to be larger than any other nation has built or is building, have fulfilled all the expectations of its designers. The Navy has a personal interest in the defense of Venice because a large number of our medium-caliber guns were mounted on floats there and used in the protection of that city. Torpedoes are being manufactured in increasing numbers. We are manufacturing more mines in this country every day than we produced in a whole year before America entered the war.

Supply of Depth Charges.

"The Navy has produced practically an unlimited supply of depth charges which alone have contributed more to solving the U-boat menace than any other agency. German testimony is abundant as to the effectiveness of this new weapon, for there is nothing the German commander fears so much as an American destroyer bearing down upon it with a cargo of these death-dealing depth charges which the Germans well know means the destruction of their ship. The skilled experts in ordnance in the Navy and their civilian assistants receive no glory and never appear in the limelight."

352,223 Tons of American Shipping Sunk since War Began, Says Mr. Daniels

Addressing the Tammany Society in New York at its July Fourth celebration, Secretary of the Navy Daniels said in part:

"One year ago to-day I had the pleasure of officially announcing that all the units of the first convoy of American transports had safely landed their precious cargoes in France in spite of submarine attempts at sinking. That news cheered the people of the whole country because the boasts of the Germans at that period when the sinking of ships by submarines was at its height had alarmed many mothers and fathers. When the vigilant and valorous destroyers, hovering as a protecting mother over the ships carrying our first soldiers of liberty to return the call of Lafayette had landed these brave youths in safety, there was a sigh of relief and a prayer of thanksgiving, a patriotic Fourth of July, rejoicing, and a shout of praise for the men of the American Navy, whose protection gave fresh confidence in the ability of the Navy of our day to live up to its best traditions. So impressed was Congress and the country by this initial success of naval convoys that soon thereafter Congress voted the money to build as many destroyers as facilities could be provided for their construction. And we are building them in large numbers more rapidly than such craft were ever completed.

"The recent enemy submarine activities off our coast resulted in the loss of 25,411 gross tons of American shipping. During this same time 130,000 deadweight tons of shipping were built.

"To give some idea of the tonnage situation with reference to American shipping, it may be of interest to know that the total tonnage of American vessels lost prior to the entry of the United States into the war was 67,815. The total American tonnage sunk since the entry of the United States into the war is 284,408; or a total of 352,223 tons sunk during the whole period of the European war. As against this loss, the gross tonnage of merchant ships built in the United States since the commencement of the European war is 2,722,563 tons, 1,736,664 gross tons of which have been built since the entry of the United States into the war. In addition to the tonnage thus built 650,000 tons of German shipping have been taken over. This does not include the tonnage acquired of Dutch, Japanese, and other vessels. It will be of further interest to know that to-day there will be launched in the great shipyards of this country over 400,000 deadweight tons. These figures are in addition to those previously given.

"Since last Independence Day a million men have been transported to Europe. Despite the constant threat of enemy submarines, coming almost to our very shores in their murderous hate, not one American transport bound for France has been sunk, and not one soldier on our transports on the way to France has been lost by enemy action. Only two vessels carrying American troops abroad, the *Tuscania* and the *Moldavia*, have been torpedoed. The *President Lincoln* and the *Antilles* were sunk while returning; the *Finland* was torpedoed but reached port under her own steam, and was repaired and put back into service."

SOFT COAL PRICES REVISED IN CERTAIN KENTUCKY REGION

The United States Fuel Administration issues the following:

Applications having been made to the United States Fuel Administrator for further revision of the prices as to bituminous coal mined in the State of Kentucky west of the eighty-fifth degree of longitude, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined in the State of Kentucky west of the eighty-fifth degree of longitude may be sold at prices not to exceed, f. o. b. cars at the mine, $1.90 per net ton for run of mine, $2.15 per net ton for prepared sizes, $1.60 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., June 29, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

APPLICATION OF RAILROAD GENERAL ORDER NO. 25 IS EXPLAINED AND EFFECTIVE DATE FIXED AS AUGUST 1

The Railroad Administration has issued the following:

F. S. & A. CIRCULAR NO. 9.

Numerous objections have been filed to Order No. 25 and, in consequence, I have held several conferences with shippers and railroad accounting officers with a view to determining the practical questions involved in the enforcement of that order. As a result of these conferences I am not satisfied that any change should be made in the order, but it is apparent that further explanation of the application of the same is necessary.

1. A railroad has a lien upon the property for its freight charges; that is, it may demand payment of the freight money as a condition precedent to the delivery of the property. This right should never be waived if there is a reasonable possibility that the carrier will thereby lose its freight money. This must be read into and considered as a part of whatever is said in this circular. To what extent payment before delivery will be insisted upon is usually a local question and must be left largely to the discretion of the individual carrier.

2. While the carrier must protect itself in cases where such protection is necessary it should also treat shippers or consignees in a business way. The majority of shippers or consignees in the past have paid their freight when they received their goods and that practice should be continued for the future. In many instances with regular customers there is no necessary connection between the delivery of the freight and the presentation and payment of the freight bill; that is, the freight will be delivered to one person at one time and the bill presented to and collected from some other person at some other time. It is not the intent of this order to interrupt reasonable arrangements of that sort which do not involve the granting of a period of credit, but simply to put the transaction upon a cash basis.

NO PERIOD OF CREDIT GIVEN.

Assume, for example, that freight is delivered to such regular customer on Monday, and that the freight bill is mailed or delivered on the same day to the shipper or consignee, being received by him in due course upon the morning of the next day. If, now, the shipper or consignee remits his check for the amount during Tuesday, so that it may be received by the carrier the morning of Wednesday, that is to be treated as a cash transaction. The bill is presented and paid in due course of business and no period of credit in the ordinary acceptation of that term is given.

This might in fact allow one day for the examination and correction of the freight bill but that would not be the purpose of the transaction. In such case no bond will be required.

3. If in a particular case it is in the opinion of the carrier necessary or in the interest of economy that a period of two days in addition to that above prescribed should be allowed, this may be done upon the filing of the necessary bond. The check in this case should be mailed or payment made on Thursday.

4. Any plan may be adopted for the payment of these freight charges which is equivalent to a cash transaction. Take for example the movement of ore from the mine to the dock at the head of the lakes. The ore is weighed at the dock and the consignee has no representative there who can conveniently pay the freight. At the present time, in some instances at least, the railroad agent draws a sight draft upon the consignee, attaching the freight bills. Subsequently these freight bills are checked by the consignee, a statement of alleged errors transmitted to the carrier, which, if found correct, is taken account of in the drawing of subsequent drafts. The draft is always honored. This and similar practices are treated as cash payments. No bond is required in this case, but failure to honor a draft would automatically cancel the arrangement.

5. In many cases at the present time the shipper or consignee corrects his freight bill before paying the same, and pays, not the bill as rendered, but the bill as corrected. There is no objection to a continuance of this practice provided that the shipper or consignee does not abuse it but proceeds in good faith with a revision of the bill both for undercharges and overcharges. The change should be made in red ink and the tariff authority for the change indicated upon the bill. The carrier should at once check the correctness of the change. If found correct, the transaction is ended; if not correct, the bill should be at once returned to the shipper or consignee with a statement of the amount the collection of which will be insisted upon, in which case this amount must be paid.

REFERS ONLY TO RATE QUESTIONS.

It will be understood that all this refers to questions of rates arising out of the interpretation of the tariff. Any question of loss and damage, shortage in shipment, etc., is an entirely different matter which must be settled through the regular channel.

The above will serve as illustrations of the many questions which may arise. In disposing of these questions, railroad officers must remember that we are in fact the servants of the public and that it should be our earnest and honest effort to administer our duty in the public interest. They should attempt in all cases to get at the viewpoint of the shipper or consignee and to work out some cooperative arrangement under which the best results for all parties can be attained. I am satisfied that if shippers or consignees and carriers approach the application of this order in that spirit, it will be found possible to comply with it without undue hardship. All parties must remember that these are abnormal times and allow something on that account.

In order that working arrangements may be fully consummated before the order goes into force, the effective date has been postponed until August 1, 1918. In all doubtful cases the matter should be at once taken up between the carrier and the shipper or consignee. Either party may consult this office where a doubtful principle is involved, but it is my desire that these questions be worked out locally in all cases. Both carrier and shipper or consignee will understand that the mass of detail can not be disposed of here.

C. A. PROUTY,
Director of Division of Public Service and Accounting.

MISSING U. S. NAVAL AVIATOR IS A PRISONER IN GERMANY

The Navy Department authorizes the following:

The Navy Department has been informed that Ensign George Thomas Roe, United States Navy, aviation pilot, of Scituate, Mass., is a prisoner at Camp Landschut, Germany.

On June 4 a dispatch was received from Admiral Sims stating that Ensign Roe had made a forced landing 18 miles from the Dutch coast, due to his engine failing while on a long reconnaissance flight from a British seaplane station, and that he had probably been picked up either by the enemy or by the Dutch. Later a letter of the same date as the dispatch was received, giving the following details:

Landed on Water.

Ensign Roe left a British station as pilot of a British seaplane on a long-distance reconnaissance flight. He was accompanied by another seaplane. The two were sent on a long patrol of the enemy coast. On arriving at a point about 8 or 10 miles offshore Ensign Roe's plane developed engine trouble, and he was forced to land on the water. He made a signal to his comrade machine, which was circling overhead, that he would make temporary repairs and proceed shortly. Shortly thereafter two enemy planes were sighted in the distance and an attempt was made to drive them away. These enemy seaplanes gave battle, and after the exchange of a few shots flew away in the direction of the German coast.

Sent Message by Pigeon.

At the end of this brief engagement the British seaplane returned to stand by Ensign Roe and his machine, but was unable to trace them. Shortage of gasoline compelled the British seaplane to return to its station. At 8 p. m. a pigeon message was received at the Royal Air Force Station as follows: "On the water, attacked by three Huns." This was the last information received from Roe until it was learned that he was in a German prison camp.

Ensign Roe was detailed on January 2, 1918, from the Naval Air Station in Pensacola, Fla., for duty with the Naval Aviation Forces in France. He was born at Boston August 10, 1893. His next of kin is his mother, Mrs. T. P. Roe, Scituate, Mass.

FUEL ADMINISTRATION ORDER FIXING PRICE OF CANNEL COAL

The United States Fuel Administration issues the following:

The President of the United States having by Executive order dated 21 August, 1917, fixed the prices at which bituminous coal produced in the United States should be sold after that date, and said order not having specifically fixed the price at which that kind of bituminous coal known as cannel coal should be sold;

And the United States Fuel Administrator, by paragraph numbered 19 of the order dated October 6, 1917, contained in Publication No. 9, having provided that until further action of the Fuel Administrator, cannel coal might be sold at the market prices prevailing at the time of sale, and it being desirable that the prices of cannel coal shipped after the effective date of this order should be fixed:

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated 23 August, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby makes and establishes the following regulations effective June 29, 1918, until further or other order and subject to modification hereafter from time to time and at any time:

REGULATION FIXING THE PRICE OF CANNEL COAL.

SECTION I.

The prices of cannel coal shipped on and after the effective date of this regulation are hereby fixed f. o. b. cars at the mine per net ton at not to exceed the applicable Government mine prices for bituminous coal at the mine where such cannel coal is produced: *Provided, however*, That if the producer of such cannel coal shall obtain from the United States Fuel Administration a permit therefor, lump cannel coal may be sold for a sum not to exceed $1 per net ton above the applicable Government mine price for run of mine bituminous coal at the mine where such coal is produced.

SECTION II.

Any producer desiring to obtain a permit to make the additional charge for cannel coal provided in Section I of this regulation, may file with the Bureau of Prices of the United States Fuel Administration, Washington, D. C., an application therefor in such form as said Bureau of Prices may from time to time prescribe.

SECTION III.

All invoices for cannel coal for which the additional charge provided in Section I hereof is made must bear the number of the permit of the producer of such coal.

SECTION IV.

When cannel coal is loaded into box cars, a charge of 50 cents per net ton, in addition to the prices fixed in Section I hereof, may be made to cover the cost of labor and material necessary to load such coal into box cars.

H. A. GARFIELD,
United States Fuel Administrator.

Tendency Toward Strikes is on Decrease, Says Conciliation Director, Making Report

The Department of Labor authorizes the following:

The tendency toward strikes is still on the decrease, according to Hugh L. Kerwin, director of Conciliation of the Department of Labor. Thirty-seven different disputes between employer and employees have been adjusted during the past week by the department. While the number of cases is unusually high and is the second largest since the first of the year the number of persons involved is unusually low. Eighteen of the cases involved simple controversies, 10 involved actual strikes, 8 threatened strikes, one walkout, and one lockout. Of the total persons involved in the various disputes adjusted only 11 per cent actually lost any time by reason of strike.

ADJUSTMENTS REPORTED WEEK OF JUNE 24 TO JUNE 29, 1918.

NEW PRICE FOR BEEHIVE COKE AT NEWCASTLE, ALA., OVENS

The United States Fuel Administrator issues the following order:

UNITED STATES FUEL ADMINISTRATION,
Washington, D. C., June 27, 1918.

It appearing to the United States Fuel Administrator that various additional regulations should be put in force for the better control of the distribution of coke, and the prices at which the same may be sold,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other orders of the Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulation additional to those already set forth shall be in effect beginning at 7 a. m., June 28, 1918:

The maximum price f. o. b. cars at ovens, per ton of 2,000 pounds for 72-hour selected foundry coke made in beehive ovens at the plant of the Newcastle Coal Co., at Newcastle, in the county of Jefferson, in the State of Alabama, shall be eight dollars and twenty-five cents ($8.25).

The expression "72-hour selected foundry coke" shall cover only coke selected in accordance with the usual trade practice for foundry use, and the price named for 72-hour selected foundry coke shall in no case be charged for any shipments to blast furnaces for smelting iron or other metal.

GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, JULY 9, 1918. No. 355

MAXIMUM PRICES OF COTTON GOODS AT MILL ESTABLISHED

Represent Reduction from Market Prices of 20 to 30 Per Cent.

The War Industries Board authorizes the following:

At a meeting of the Price Fixing Committee of the War Industries Board with the cotton manufacturers maximum net prices at mill were agreed upon and approved by the President for the following basic products:

36 inches 48 by 48 3-yard sheeting, 60 cents per pound.

36 inches 56 by 60 4-yard sheeting, 70 cents per pound.

38½ inches 65 by 60 5.35-yard print cloth, 83 cents per pound.

38½ inches 80 by 80 4-yard print cloth, 84 cents per pound.

Standard wide and sail duck, 37½ per cent and 5 per cent from list.

Standard Army duck, 33 per cent from list.

These prices represent a reduction from quoted market prices of about 20 per cent to 30 per cent, and apply to all primary civilian purchases as well as to the Government and those Governments associated with us in the war. A committee is at work on a list comprising a full line of staple cotton fabrics for the purpose of establishing prices upon a parity with those herein quoted. It is expected that this list will be published in a few days. These prices are to remain in effect until October 1, of this year, before which date the industry will meet with the Price Fixing Committee for the purpose of agreeing upon prices for a further period of 90 days. Future agreements will be premised on figures to be collected and analyzed by the Federal Trade Commission designed both to show basis of profit and equity of parities.

Considered Fair and Equitable.

Present prices were necessarily based upon inadequate information, but, in the emergency nature of the case and the advisability of a gradual adjustment, are considered fair and equitable by both the manufacturers and the Price Fixing Committee. Prices named are to cover primary sales made since June 8 for delivery after October 1, and all primary sales made since June 21 regardless of the delivery dates.

The President, in approving these prices, has expressed his appreciation of the spirit with which the cotton manufacturers have met the Government's efforts to stabilize an industry which so directly reaches into the life of every citizen. The President calls upon and expects all manufacturers of ready-to-wear goods, as well as all dealers in cotton fabrics, to so regulate their profits as to insure to the consumer the full benefit of this large reduction in price.

POSTMASTERS URGED TO KEEP AMPLE STOCKS OF WAR STAMPS

Many Complaints Received of Exhausted or Depleted Supplies in Post Offices.

POST OFFICE DEPARTMENT,
THIRD ASSISTANT POSTMASTER GENERAL,
Washington, July 9, 1918.

The department has repeatedly published instructions to postmasters to keep themselves amply supplied, by means of timely requisition, with war savings and thrift stamps. Yet many complaints are being received that stocks in post offices are exhausted or depleted. As a patriotic duty postmasters should realize the great importance of the sale of war-savings stamps, and that failure to have them in stock when wanted by the public may seriously impair their sale.

Central-accounting postmasters must see that their district postmasters are kept fully and promptly supplied with stamps, and that the fixed credits of money-order district postmasters are increased when greater stock is needed. The stocks of district postmasters should be liberal, but not in any case excessive. See sections 6, 7, and 9, pages 7 and 8, Instructions Form 3343, with which all postmasters were supplied by the department in November, 1917.

Central-accounting and direct-accounting postmasters must keep themselves fully supplied with war-savings and thrift stamps, by means of timely requisition, upon the Third Assistant Postmaster General, Division of Stamps, on Form 3201. To meet unexpectedly large demands, accounting postmasters may draw requisitions directly upon the postmaster of the nearest city listed in section 4, pages 6 and 7, Form 3343. This method, however, should not be made a practice, but may be resorted to only in emergencies when there is not sufficient time to obtain stamps from the department.

A. M. DOCKERY,
Third Assistant Postmaster General.

WIRE MANAGER NAMED.

The United States Railroad Administration authorizes the following:

Circular No. 14.

Effective this date, Mr. Martin H. Clapp is appointed manager, telegraph section, division of operation, with office in Southern Railway Building, Washington, D. C.

Mr. Clapp will have supervision over telegraph and telephone lines belonging to the railroads under Federal control.

C. R. GRAY,
Director Division of Operation.

SERVICE BUREAU
... OF THE ...
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and location of all Government Departments

WAR COUNCIL IS ABOLISHED BY ORDER OF SECRETARY BAKER

The Room Occupied by It will be Utilized for Meetings of Various Officials.

The following statement is authorized by the Secretary of War:

The War Council, which was created under General Orders, No. 160, War Department, 1917, is abolished.

The room now occupied by the War Council for its meeting place will be turned over to the statistics branch of the General Staff and will be utilized for the Monday meetings of the heads of bureaus as at present; the Wednesday conferences with the representatives of the Shipping Board, Emergency Fleet Corporation, War Industries Board, etc., and for the meetings with the Senate and House Military Committees.

The Wednesday Meetings.

At the Wednesday meetings the War Department will be represented by the Secretary of War, the Assistant Secretary of War, Mr. Crowell, and the Second Assistant Secretary of War, Mr. Stettinius, the Chief of Staff, and the Director of Purchase, Storage, and Traffic.

The meetings with the Senate and House Military Committees will be under the direction of the Assistant Secretary of War, Mr. Crowell, and will be attended when practicable by the Chief of Staff.

All records of the War Council will be filed with the records of the War Plans Division, General Staff.

Maj. Walton Assigned to General Staff.

Maj. B. F. Walton is assigned to the General Staff, coordination section, for the period of the present emergency. He will, in addition, remain in charge of the details of the conferences indicated above.

At these conferences Lieut. Col. Ayres or other representatives of the statistics branch, and Capt. Martin will continue as at present their exposition of the information available pertaining to the conduct of the war.

Red Cross Gives $71,278 to Buy Food for Serbia

The Red Cross issues the following:

An appropriation of $71,278 has been voted by the war council for the purchase of 452 tons of staple foodstuffs, including flour, rice, beans, sugar, fats, and salt, and 30 tons of soap, to be shipped to the American Red Cross commission to Serbia. These amounts, which Dr. Ryan, of the Serbian commission, requested the war council to buy in this country and send to Saloniki, will constitute practically a six months' supply for 10,000 persons.

Fourth of July Celebrations Held in Many Foreign Lands Described in State Department Dispatches

The Department of State has received further telegrams describing Fourth of July celebrations in various places. A telegram from the American chargé d'affaires at London said that Independence Day celebrations in Great Britain were very remarkable. Not only American citizens in England conducted demonstrations to commemorate the day, but the whole country rejoiced with the United States in our great national holiday—British subjects, municipalities, and even the Government taking part cordially and enthusiastically.

Practically every newspaper in England published President Wilson's message to American citizens in full, and it was received almost as a greeting to all English-speaking peoples. The public was deeply impressed by his statement of the purpose of American troops now in France.

Flag Over Buckingham Palace.

The flag of the United States flew with that of Great Britain over Buckingham Palace, the Government offices, and the Houses of Parliament, as well as over great numbers of private buildings. This manifestation was quite general and not typical of London alone. At the Central Hall, Westminster, there was held during the afternoon a large Anglo-Saxon fellowship meeting. The Bishop of London opened the ceremonies, and the speakers included Mr. Winston Churchill, and for the United States Admiral Sims, Gen. Biddle, and Mr. G. H. Putnam.

In the afternoon the King and Queen Alexandra and other members of the royal family, including the Duke of Connaught, attended a baseball game between Army and Navy teams. The game was played at the Chelsea football grounds.

The chargé d'affaires adds that the evidences of cordial friendly understanding between the two countries has raised the spirits of everybody, and that the timely and encouraging comments from America have been very helpful.

Holiday Throughout Italy.

A telegram from Rome stated that the day was proclaimed a public holiday in honor of the United States throughout Italy, and from reports received was enthusiastically celebrated everywhere. The embassy was the recipient of some 500 telegrams and letters of congratulation and memorials from municipalities, public bodies, and individuals.

At Rome the ovation could not have been more universal, enthusiastic, and impressive. Thousands of people waving American flags assembled during the afternoon and evening between the American Embassy and the Victor Emanuel Monument. In the historic Piazza Venetia, before the steps leading up to the Victor Emanuel Monument, notable addresses were made in the presence of a most distinguished gathering of ministers, senators, deputies, and other high civil and military officials. The entire diplomatic corps was present, including the British ambassador and staff. Speeches, cordial and patriotic, were made by the mayor of Rome, Prince Colonna, by Leonida Bissolati, ex-minister and former leader of the Socialists. He spoke at length and with great eloquence, and his speech, which was most eulogistic, attracted great attention. Others who spoke were Senator Cotillo, of New York; ex-Minister Ruffini; Maj. Byrne, of the American Red Cross; and Capt. Deroode. After this ceremony there was a procession of patriotic societies with their banners up the wide Via Nazionale, profusely decorated with American, Italian, and ally flags, to the American Embassy. Here an informal reception was held, many of the highest civil and military authorities being present. Addresses were delivered from the balcony of the chancery of the embassy by Deputy Barzilai and the American ambassador, who spoke in Italian to the immense crowd which packed the square below.

It is generally believed that there has never been at Rome a more enthusiastic or larger popular demonstration. It is estimated that 100,000 people took part in it. Similar ovations occurred in the principal cities of Italy. The small body of wounded soldiers who had come from the front in France attracted great attention.

Ambassador Thomas Nelson Page adds: "No manifestations which I have ever seen in Italy has ever made a deeper impression on me."

Celebration By Belgians.

Following is a report of the celebration of the Fourth of July from Mr. Whitlock at Havre:

Most touching demonstrations were made on the Fourth of July by the Belgian Government and Belgian citizens. A beautiful and affecting ceremony was held in the morning, when Belgian troops, commanded by Gen. Der Utte, saluted our flag with many spontaneous acclamations of the President and the Navy. All the Belgian ministers, members of the diplomatic corps, and the officers commanding the Belgian, French, British, Portuguese, and American bases in Havre were present. I received an eloquent telegram from the minister of war, who is at the front. The President's portrait was displayed in all the schools and Lincoln's Gettysburg address was read to the school children. Addresses were presented at the legation by delegations representing refugees and several Belgian societies.

Tributes in Chile.

A telegram from the American Embassy at Santiago, Chile, said that all the newspapers on July 4 commented enthusiastically on American Independence Day. La Nacion said that the United States to-day was at the height of its greatness, and shows that it continues to increase in the huge proportions characteristic of American enterprise.

Mercurio said that this fourth of July could be appreciated even more keenly in the midst of a war wherein the United States was straining every effort to secure a world peace, a real peace which right and not force will dictate. In the midst of extraordinary times not only can the United States be great in industry, commerce and science but she knows how to take up arms and fight honorably for great ideals of liberty and right. South American nations are proud to-day, the paper said, of their great sister and fervently pray that her glories in war and her economic successes may be great.

The Diario said that if the state of war and conditions of peace are in favor of entente it will be due to the strength of the United States which is being felt in spite of distance. What is most interesting in the rôle of the United States is that they enter a conflict without seeking to satisfy their own ambitions and with ideals, like that of a league of nations, to insure future peace.

FREE VACCINATION AGAINST SMALLPOX AND TYPHOID FEVER

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY.
Washington, June 4, 1918.

To persons in charge of establishments manufacturing war materials:

From the standpoint of health conservation and labor efficiency it is imperative that such communicable diseases as smallpox and typhoid fever be prevented in all establishments manufacturing materials for the Federal Government. This is of special importance at the present time in view of the constant movement of labor from one locality to another, which facilitates so greatly the spread of disease.

The experience of every civilized country shows that complete protection is furnished against smallpox by vaccination, and temporary immunity against typhoid by inoculation with typhoid vaccine.

In order to prevent such diseases, upon the recommendation of the Surgeon General of the United States Public Health Service, persons in charge of plants engaged in the manufacture of war materials are urged to require every person employed under them to be vaccinated against smallpox and inoculated against typhoid fever, as now done in the case of our military forces.

The medical staff should be instructed to take the necessary steps for the enforcement of these measures. The need for them has already been demonstrated by the occurrence of isolated outbreaks of small pox in establishments engaged in the production of war materials through imported labor. These outbreaks not only cause the quarantine of the personnel, but also interfere seriously with the production of materials necessary to the conduct of the war.

The Public Health Service is ready to cooperate in enforcing these measures, and any persons calling at any of the service stations will, on request, be vaccinated against smallpox or typhoid fever free of cost.

J. H. MOYLE,
Acting Secretary.

Special Orders, No. 152:

225. Col. Stephen H. Mould, Coast Artillery Corps, National Army, is relieved from duty as inspector of the 79th Division and will repair to this city and report in person to the Inspector General of the Army for duty in his office.

LIST OF AMERICAN SOLDIERS NOW HELD IN PRISON CAMPS OF GERMANY

The War Department announces the following list of soldiers of the American Expeditionary Forces, whom it has been ascertained are now prisoners of war in Germany, the emergency address in each case following immediately after the name:

Camp Darmstadt.

Damon, Franklin J., corporal. Mrs. A. M. Damon, mother, 43 Stephen Street, Boston, Mass.

Elliott, Norman C., private. Mrs. Mary G. Elliott, mother, 11 River Court, Webster, Mass.

Harney, Ralph, corporal. T. F. Harney, father, 87 Concord Street, Framingham, Mass.

Kluth, William, corporal. Charles Kluth, father, 205 Springside Avenue, New Haven, Conn.

Lacourciere, Royal J., corporal. Joseph Lacourciere, father, 55 Grove Street, Meriden, Conn.

Lee, Eric E., corporal. George Lee, father, 189 Massachusetts Avenue, Providence, R. I.

Newton, George Evans, private. Anna Newton, mother, 65 Capitol Avenue, Hartford, Conn.

Tieman, Carlisle, private. Henry Tieman, father, 414 Sixth Avenue, Dayton, Ky.

Camp Unknown.

Cuzzipoli, Battiste. Antonio Cuzzipoli, brother, R. F. D. No. 55, Springfield, Conn.

Murray, Edward J., private. Elizabeth Murray, mother, 24 Berlin Avenue, Southington, Conn.

Penda, Anthony L., private, first class. Michael Penda, father, 97 South Elm Street, Bristol, Conn.

Camp Giessen.

Nelson, William C., private. Harry Nelson, brother, Wenatchee, Wash.

Camp Hammellburg.

Andrews, Warren G., corporal. A. Andrews, mother, 1188 Harrison Avenue, Roxbury, Mass.

Chitty, Fred W., corporal. George Chitty, father, 146 Foster Street, New Haven, Conn.

Clark, Edward F., private. E. L. Clark, father, Collinsville, Conn.

Darman, Chester, private. Mary Cole, sister, Moundsville, W. Va.

French, Ernest A., private. Martha French, mother, 42 Irvington Street, New Haven, Conn.

Heon, Arthur, private (1st class). Napoleon Heon, father, 10 Railroad Street, Johnsburg, Vt.

Lemiux, William P., private. Joseph Lemiux, father, Middletown, Conn.

Peterson, Paul L., private. John E. Peterson, father, 32 Walnut Street, South Farms, Middletown, Conn.

Pierce, Walter R., private. Mary A. Pierce, wife, 159 Newton Road, Haverhill, Mass.

Sabatini, Joseph, corporal. Charles Sabatini, father, 11½ Sackman Street, Brooklyn, N. Y.

Sachs, John, private. Israel Sachs, brother, 265 Cedar Street, New Haven, Conn., also Mrs. Jack Sachs, 47 Ward Street.

Sweeny, Dennie F., private. Josephine Sweeny, mother, 255 Congress Avenue, New Haven, Conn.

Thompson, Warren E., private (1st class). Katherine Thompson, mother, Marlborough Street, Portland, Conn.

Waters, Nelson F., bugler. Amanda Waters, mother, 1238 Dixwell Avenue, New Haven, Conn.

Webb, Howard N., private. S. Webb, mother, 9 Jackson Street, Ansonia, Conn.

Wolf, Walter S., private. Mrs. Alexander Katstein, sister, 1208 Achusnet Avenue, New Bedford, Mass.

Ziegra, Louis G., private. Mary Ziegra, mother, Deep River, Conn.

Camp Limburg.

Basso, Angelo, private. Josephine Basso, mother, 52 South Elm Street, Bristol, Conn.

Bernard, Leon S., private. J. S. Bernard, mother, Mount Auburn Street, Hopkinton, Mass.

Brennan, James J., private. John J. Brennan, father, 10 Boylston Street, Cambridge, Mass.

Brightman, Richard A., private, first class. Charles Brightman, father, 120 Pine Street, Fall River, Mass.

Butler, Frank, private, first class. Alfred Butler, father, 245 Shelton Avenue, New Haven, Conn.

Buyanoski, Leo H., corporal. John Buyanoski, father, 75 Harrington Street, Terryville, Conn.

Colburn, Leonard, private. Walter Colburn, father, 518 Orchard Street, New Haven, Conn.

Coleman, James F., corporal. Benjamin Robertson, brother, 79 Pine Street, New Haven, Conn.

Collings, Herbert, private. Edith Collings, mother, 18 Hillside Avenue, New Haven, Conn.

Congleton, Leroy E., corporal. Abbey E. Congleton, mother, 922 South Yewdello Street, West Philadelphia, Pa.

Couch, Lory M., private. Harmon G. Couch, father, Bridge Street, New Milford, Conn.

D'Anna, Joseph, private. Frank Onarato, brother, Box 264, New Milford, Conn.

Dolan, Harold F., private. Thomas Dolan, father, 35 Valley Street, New Haven, Conn.

Dunning, Miles S., corporal. Harry G. Dunning, brother, 110 California Street, West Haven, Conn.

Ely, Raymond E., private. Phoebe M. Ely, mother, Hilldale Avenue, Haverhill, Mass.

Garand, Albert, private, first class. J. Paro, sister, 29 Maple Street, St. Johnsbury, Vt.

Gee, Newman S., private, first class. Mrs. Thomas Gee, mother, Caribou, Me.

Goldrick, James C., private. Margaret Goldrick, mother, 58 Arthur Street, New Haven, Conn.

Goodwin, James, private. Henry Goodwin, father, 201 Vine Street, Everett, Mass.

Hager, Fred, private. John Hager, father, R. F. D. No. 2, Prospect, Conn.

Hall, Herbert, private, first class. H. D. Hall, mother, Guilford, Conn., also Miss Mildred Carpenter, 582 Woodward Avenue, New Haven, Conn.

Lufkin, Harry M., private. G. E. Smith, mother, 34 Desota Street, Providence, R. I.

Kenny, Charles B., private. Edgar Kenny, uncle, East Rock Road, Norwalk, Conn.

Lynch, Bernard T., private. Lillian Morse, aunt, 545 Forty-sixth Street, Brooklyn, N. Y.

McCartin, John T., private, first class. Frank McCartin, father, 285 James Street, New Haven, Conn.

McDermot, Michael J., private, first class. Margaret McDermot, 18 Rosette Street, New Haven, Conn.

McNamara, Joseph M., private. Mrs. Mary Conroy, aunt, 389 Grand Avenue, New Haven, Conn.

Markle, Clifford N., private. Frank J. Markle, father, 358 Edgewood Avenue, New Haven, Conn.

Marron, Hugh P., private. Jene Marron, mother, 35 Smith Street, Norwalk, Conn.

Maynard, Albert James, private. C. Maynard, father, 483 Main Street, New Haven, Conn.

Monson, Charles, private. Francis E. Monson, mother, 64 Edge Hill Road, New Haven, Conn.

Moquin, Ernest D., private. Jules Moquin, mother, 36 Roberts Avenue, Bristol, Conn.

Olson, Edward A., private. Edward Olson, father, 20 Pardee Street, Bristol, Conn.

Petochelli, James E., private. Louise Petochelli, mother, 20 Brown Avenue, Pawtucket, R. I.

Quinn, William L., private. Martin L. Quinn, father, 47 Hillside Avenue, Swampscott, Mass.

Ready, Austin M., private (first class). Mary Redfield, sister, 245 Custer Avenue, Jersey City, N. J.

Riedel, Clarence H., private. Mary E. Stone, friend, 210 Divinity Street, Bristol, Conn.

Rowe, Dascomb, private. E. L. Rowe, father, Barnet, Vt.

Samak, John, private. K. Samak, father, Kovel, Russia.

Torok, Stephen L., private. Mary Torok, mother, Darien, Conn.

Wall, Patrick, private (first class). Bessie Wall Soelch, sister, 55 Vernon Street, New Haven, Conn.

Green, Edward, private. Not identified.

Allen, Leslie, private. Not identified.

Ashengen, James C., lieutenant (aviator). E. H. Ashengen, father, 1123 Albion Avenue, Chicago, Ill. [Lieut. Ashengen was forced to land in Switzerland on June 25 because he ran out of gasoline.]

MOTOR CORPS OF RED CROSS TO CARRY CASUALTY REPORTS

Auxiliary Members Enabled to Render Home Service Where Woman's Sympathy Counts.

The following statement is authorized by the American Red Cross:

It has been decided that women of the American Red Cross Motor Corps Service, which includes more than 6,000 women, shall carry the official telegrams containing information regarding overseas casualties to the homes of relatives of the killed and wounded. In performing this work auxiliary members of the corps are in position to render home service of a tender sort as well, at a time when a woman's help and sympathy are most valuable.

In conformity with the request of the War Department, the uniform of khaki and the insignia formerly employed have been discarded. The new regulation uniform of the Motor Corps is to be of the Red Cross Oxford gray. Commanders will wear three silver diamonds, embroidered on their shoulder straps. Captains will wear two silver diamonds, first lieutenants one, and second lieutenants a gilt diamond. Pearl-gray tabs on the collar will indicate staff officers. Service stripes will be worn on the sleeves.

Right of Way for Cars.

The cars of the service are to be distinguished by a white metal penant, bearing the red cross and the words "Motor Corps." This and the driver's identification card will be sufficient to give the cars the right of way when on official business.

As a result of a conference recently held in Washington at the call of the director of the Bureau of Motor Corps Service, the motor service in six of the principal cities of the country which previously had been independent in its organization, was amalgamated with the Red Cross Corps. This makes the Red Cross Motor Corps Service a thoroughly coordinated institution, able to meet the local and interlocal demands for transportation throughout the length and breadth of the land on a nationalized basis.

Independent Services Added.

The organizations which have become parts of the Red Cross Motor Corps Service are the Motor Messenger Service, of Philadelphia; the National Service League Motor Corps, of Atlanta; the National Service League Motor Corps, of New York City and Buffalo; the Emergency Motor Corps, of New Orleans, and the Emergency Drivers of Chicago. All these organizations were represented at the conference by their commanding officers, who now become commanders of the Red Cross Motor Corps Service in their respective cities. The four independent services added more than 600 members to the Motor Corps ranks.

Luxuries as usual means a victorious Germany. Save and buy war-savings stamps.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 10 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions engaged in the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	3.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

UNIVERSAL MILEAGE SCRIP ON SALE ABOUT AUGUST FIRST

The United States Railroad Administration authorizes the following:

Director General McAdoo authorizes the following announcement:

There will be placed on sale on or about August 1 a universal mileage scrip at the basic rate of 3 cents per mile.

Each coupon of the ticket will represent the value of 3 cents and can be used for the payment of sleeping and dining car charges and transportation of excess baggage, as well as transportation charges on all trains on railroads under Government control.

The advantages of this simple form of ticket are obvious, and the change is expected to relieve the pressure on ticket agencies at busy centers.

The war tax will be collected by conductors at the time of the presentation of the mileage scrip.

RED CROSS PARCELS EXEMPT.

OFFICE OF THIRD ASSISTANT POSTMASTER GENERAL,
Washington, July 1, 1918.

Parcels of merchandise mailed at the fourth-class rates of postage by the American Red Cross, which are to be used exclusively in connection with war work for the benefit of the United States, are exempt from the war-stamp tax imposed by the act of October 3, 1917, embodied in paragraphs 7 and 8, amended section 456, Postal Laws and Regulations.

A. M. DOCKERY,
Third Asst. Postmaster General.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 53.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 6, 1918.

Section B. (Paragraph omitted here due to errors in transmission now being corrected.)

Around Belleau, Bonnes, Bois Bonnes, Plaisance, Le Tartre, Givry, Epaux, and other centers of activity in the German rear areas horsemen, cyclists, pedestrians, and all kinds of vehicles circulated continuously in very considerable numbers. During the night fires occurred in the region of Etrepilly and Chateau Belleau. The fire in the latter region is supposed to have resulted from the success of our artillery in finding one of the enemy's ammunition dumps. Our snipers continued to pick off the enemy in notable fashion.

Concerning the capture of German prisoners of our patrol north of Vaux during the afternoon of July 4 the following particulars are now available: Our patrol of three men crawled to a house in Bois des Rochet at 2 o'clock, as stated in the cable of July 5. One man was posted as sentry, while a corporal and the other man entered the house. They found in the house one man belonging to a German outpost, sent for observation and to prepare a position for a machine gun. A second German was found hiding in the house. The corporal in command of our party sent back one of his men to warn our front line that he was bringing in prisoners, and asking for machine-gun protection. The prisoners were brought in safely in spite of German snipers, who fired continually.

The Marne region occupied by our troops was unusually quiet from 8 o'clock in the evening of July 2 to 8 o'clock in the evening of July 3, all activity decreasing except the continuous circulation of troops and traffic, which began on the preceding day. The enemy artillery fire, which consisted of harassing, destructive, and registration fire, with slight use of shrapnel, was very light. An enemy patrol of about 10 men was seen on the bank of the Marne. Our automatics opened fire on them, but the result is unknown. The enemy machine guns were intermittently active, and our troops seem to have located another machine-gun position. The enemy's airplane and balloon acttvity was slight. The number of flares has decreased, but brilliant rockets and flares of different colors continue to light up the region at night.

In Picardy there was little enemy activity on July 2 to July 3, noon to noon. The artillery fire from the enemy's batteries was concentrated on our front lines at about midnight, the shells being of medium caliber. On our positions north of Cantigny he placed a barrage in reply to our fire from that vicinity. Shells of varying caliber also fell in the vicinity of Bois de Gland during the night. The usual machine-gun fire was directed on our lines and on Cantigny. One of our patrolling parties examined the enemy wire and enemy trench at one point. The German air forces were normally active, planes being over our lines yesterday and over Cantigny this morning. One plane flew low over our lines in the region of Grivesnes. Enemy observation balloons were also up. The enemy, on discovering one of our patrolling parties, threw up rockets, which brought a barrage from our batteries, followed by a counter barrage from the batteries of the enemy. During the artillery fighting red and orange rockets were sent up. The circulation in the enemy's rear areas late in the day was distinctly abnormal in the vicinity of Montdidier, Fontaine, and other points, where unusual numbers of lorries, wagons, and motors were observed.

In the Mulhouse sector July 2, 3, and 4 were all uneventful days. The German artillery used an average number of shells on July 2 and 3 and an exceptionally small number on July 4. On July 3 there was a single concentration on our positions in the vicinity of Balschwiller. The German rifle and machine gun fire was very light. The enemy's air forces showed little activity on July 2, less on July 3, and none whatever on July 4. Little circulation was observed in the enemy's rear and his working parties did nothing notable except to cut and carry away hay from the vicinity of their first-line trenches during the night. On July 2 a hostile patrol, discovered in front of our trenches, was driven off by infantry fire.

In the Lorraine sector the days of July 2 and July 3 were uneventful. The artillery fire of the enemy was very light in caliber and amount, and scattered both as to origin and objectives. The use of a few heavy shells was noted, however. The enemy's machine gun and rifle fire was more active than usual, occasioned in part, no doubt, by the unusual activity of our own patrols. The German air forces were moderately active, but were held in check by heavy bombardment from our antiaircraft batteries. In the enemy's rear area there was the usual circulation of troops and traffic movement. Our patrolling parties were successful in their observation work.

In the Woevre region on July 2 and July 3 there was quiet except for heavy artillery fire on one of our subsectors, where shells of medium and small caliber were used, together

(Continued on page 15.)

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

By a vote of 4 to 3 the Interstate Commerce Committee yesterday decided to report the wire control resolution which has passed the House, but without recommendation. Upon the submission of the report by Chairman Smith, of South Carolina, Senator Penrose made a point of order against it on the grounds that the report came to the Senate without the action of a quorum of the committee. After discussion this point was sustained by the Senator temporarily presiding, and it was sent back to the committee.

The Agricultural Committee yesterday afternoon agreed upon a compromise war prohibition amendment to the food stimulation bill, which is now under discussion in the Senate. Under it the sale of distilled liquors, wine, and beer after January 1, 1919, would be prohibited; on and after November 1 of this year the manufacture of wine and beer would be prohibited. The amendment would provide for the export of liquors already produced.

Bills Passed.

Among bills passed by the Senate yesterday afternoon were the following: Providing for the payment of $40,000 to Greece, as an act of international courtesy, for injuries received by Greek citizens at Omaha in the race riots of February 21, 1909. House bill forbidding during the war the sale or charter of American vessels or the sale of ships under construction without the approval of the Shipping Board. Increasing the salary of the collector of customs at Wilmington, N. C., from $2,500 to $5,000 a year. Repealing existing law requiring the United States Treasury to maintain a sinking fund to reduce the public debt, and permitting the Secretary of the Treasury to redeem interest-bearing obligations from any surplus in the Treasury. House resolution returning to former President Roosevelt the $40,000 Nobel peace prize, to be used by him in war relief work.

Christie Benet, the new Senator from South Carolina, appointed by Gov. Manning to succeed to the vacancy caused by the death of the late Senator Tillman, took the oath of office.

HOUSE.

The Ways and Means Committee decided to give a special hearing to platinum dealers and manufacturers of jewelry tomorrow. The first formal meeting of the committee to consider terms of the proposed bill was held this afternoon in executive session.

Practically all of yesterday afternoon was devoted to the consideration of the Keating bill providing for the creation of a minimum wage board to fix wages of women and children employed in the District of Columbia, but without action.

Consideration of the water-power bill began to-day under a unanimous consent arrangement reached yesterday.

Additional funds to the extent of $3,451,000 for the Navy for the new fiscal year were asked by Secretary Daniels. Of this total $2,000,000 is for the Medical Department and $1,250,000 for the naval operating base at Hampton Roads, Va.

NEW LABOR RECRUITING POLICY IS EXPLAINED BY DEPARTMENT

Only Manufacturers Engaged on War Contracts and Employing over 100 Workers are Directly Affected.

The Department of Labor authorizes the following:

"Only manufacturers engaged on war contracts and employing over 100 workers will be required to obtain their unskilled labor through the United States Employment Service of the Department of Labor by the ruling which goes into effect August 1. So much uncertainty as to the scope of the new labor recruiting policy has been shown in inquiries received by the Department of Labor from employers not engaged in war work that the department to-day announced the exceptions under which private recruiting of labor may still be carried on.

Nonwar Industries.

"Nonwar industries are affected only indirectly. But they are one and all affected indirectly from the fact that the war industries of the Nation are now of paramount importance, demanding sacrifice and cooperation from all employers not engaged in war work in order that they may function with maximum efficiency.

"Nonwar industries, therefore, must not offer superior inducements, prevent the transfer of workers urgently needed for war production, or in any way attempt to compete with the Government for labor.

"The following five classes of labor need not at the present time be recruited through the United States Employment Service, although, of course, the machinery of the Employment Service is available to all employers needing these classes.

Five Classes of Labor Needed.

"1. Labor which is not directly or indirectly solicited.

"2. Labor for railroads (except in so far as the Director General of Railroads has already, or may in the future require, that recruiting shall be exclusively through the United States Employment Service).

"3. Farm labor—to be recruited in accordance with existing arrangement with the Department of Agriculture.

"4. Labor for nonwar work.

"5. Labor for establishments the maximum force of which (including the additional number recruited) does not exceed 100 employees."

GROWING DEMAND FOR GASOLINE NECESSITATES RIGID ECONOMY

The United States Fuel Administration authorizes the following:

The constantly growing demand for gasoline to supply airplanes and motor transports now with the American overseas forces in France will necessitate continually increased shipments to the American Expeditionary Forces. Present stocks of gasoline, however, are now ample to supply the war demand and to allow the normal rational consumption in this country to continue.

Waste Must Be Halted.

The abnormal waste which characterizes the use of gasoline in motor-propelled vehicles, however, must be brought to an immediate halt. Legitimate use of gasoline for internal combustion engine fuel does not mean that gasoline may be handled wastefully. The present method of distribution of gasoline is extremely wasteful, the product being handled carelessly and without the slightest regard for conservation in thousands of garages and supply stations throughout the country. The Fuel Administration is urging everyone concerned in the production, distribution, and consumption of gasoline to eliminate every possible point of waste. Unless this is done, the present supply may in a short time become an actual shortage. If this condition develops the Fuel Administration will not hesitate to make effective enforced conservation methods, which, however, up to the present have not been necessary.

NEW NATIONAL BANK CHARTERS AND 1917-18 CAPITAL CHANGES

The Comptroller of the Currency has issued the following:

Charters granted: In the year ending June 30, 1918, 168 charters were granted with capital of $15,435,000, as compared with 163 charters granted with capital of $9,470,000 during the preceding year.

Charters refused: During the past fiscal year the Comptroller of the Currency refused 24 applications for charters for new national banks, while 27 applications were rejected during the year preceding.

Charters applied for: For the fiscal year ending June 30, 1918, this office received 248 applications for charters for new national banks, with capital of $13,685,000, compared with 321 applications received during the fiscal year ending June 30, 1917, with capital of $21,185,000.

Capital increases: In the year ending June 30, 1918, 164 national banks increased their capital stock in the sum of $16,150,000, against 150 banks increasing their capital by $25,507,490 during the year ending June 30, 1917.

Capital reductions: Six national banks reduced their capital during the past year by $277,800. During the preceding year 19 banks reduced their capital by $1,255,500.

Liquidations: Fifty-eight national banks went into voluntary liquidation (exclusive of those consolidating with other national banks) during the year just ended, their aggregate capital being $7,365,000, as compared with 87 such banks liquidating during the year ending June 30, 1917, with an aggregate capital of $8,902,500.

At close of business June 30, 1918, there were 7,718 active national banks. On June 30, 1917, the number was 7,635.

Buy war-savings stamps to the utmost of your financial capacity, and then increase your capacity by saving more.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	14
Died from wounds	10
Died of disease	1
Wounded severely	18
Wounded slightly	2
Missing in action	11
Prisoner	1
Total	57

Killed in Action.

Sergt. William A. Hamilton. Mrs. W. H. Hamilton, Selmer, Tenn.

Corpl. Peter A. Sieberz. Joseph P. Sieberz, 591 First Avenue, Milwaukee, Wis.

PRIVATES.

George A. Brochu. Frank G. Brochu, 453 Clinton Avenue, Newark, N. J.

Albert J. Carron. Frank J. Carron, 66 Main Street, Milford, Mass.

Henry Cumminskey. John Cumminskey, 28 Windsor Street, New Bedford, Mass.

Harvey S. David. Ferdinand David, R. F. D., Conesville, Ohio.

William Deluca. Frank Delgadio, 47 Morgon Street, Hartford, Conn.

Thomas Duncan. Mrs. Rhody Duncan, Moorehead, Ky.

Jack H. Insley. Mrs. J. W. Insley, 111 West Main Street, Carnegie, Pa.

Arthur Kennedy. J. M. Lamare, 1342 Columbus Street, New Orleans, La.

Independence Day Messages Exchanged Between President of the United States and Heads of Various Foreign Countries

The Department of State makes public the following exchanges of telegrams:

FROM THE PRESIDENT OF FRANCE TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

PARIS, *July 3, 1918.*

HIS EXCELLENCY, WOODROW WILSON,
President of the Republic of the United States of America, Washington:

The Government of the Republic, at one with all the national representatives and the whole country, ordained that to-morrow the Independence Day of the United States, shall also be a French holiday. Paris will give your glorious name to one of its handsomest avenues, and acclaim to the skies the parade of the valiant American soldiers. In every department, in every town, large and small, these manifestations of fraternity will be echoed. Two peoples in communion of thought will, one and all, remember the fights of old that won liberty for America and hope for the forthcoming victories which will secure for the world a just and fruitful peace based on the law of nations and fortified by the approval of human conscience. Permit me, Mr. President, cordially to extend to you on the eve of that great day of union and confidence the wishes and felicitations of France for the United States and yourself.

RAYMOND POINCARE.

FROM THE PRESIDENT OF THE UNITED STATES TO THE PRESIDENT OF FRANCE.

THE WHITE HOUSE,
July 6, 1918.

SON EXCELLENCE, RAYMOND POINCARE,
President of the Republic, Paris.

With a full heart I welcome your message of congratulation upon the American Day of Indeepndence. It is fitting that this glorious anniversary should witness the fraternity of free peoples in the cause of national self-determination. The happy fruitage of the ancient association of our lands in the common cause of liberty is to-day fitly seen in the union of our countries in the splendid task of upholding their rights in the face of barbaric aggression. My countrymen are alike gratified and filled with pride at the tribute of brotherly affection which the French people are offering them so generously at every point of intercourse. I most hopefully reciprocate your prayerful wish that this may all presage the ultimate triumph of the rights of France and America not only but also the rights of humanity.

WOODROW WILSON.

Message from Belgium.

FROM THE KING OF THE BELGIANS TO THE PRESIDENT OF THE UNITED STATES:

[Translation.]

Dr. WOODROW WILSON,
President of the United States of America, Washington.

On the occasion of the memorable anniversary occurring on the Fourth of July, I wish to thank once more the great American Nation for its untiring efforts toward ameliorating the unfortunate condition of my fellow countrymen and to express to it my admiration for the bravery displayed by its great Army on the battlefields of France. Be pleased, Mr. President, to accept the ardent wishes I make for the greatness and prosperity of the United States of America.

ALBERT.

FROM THE PRESIDENT OF THE UNITED STATES TO THE KING OF THE BELGIANS:

THE WHITE HOUSE, *July 6, 1918.*

HIS MAJESTY ALBERT,
King of the Belgians.

Your message is very welcome to the American Government and people. It comes at a time when the seeds of nation-wide compassion have yielded the ripe harvest of brotherly union in the common cause of defending the freedom and the right of human communities to live for themselves and shape their own destinies. May the clouds that overshadow our countries soon pass away, and the sun of world-righteousness arise, spreading its healing beams over the enfranchised lands and peoples of the earth. To this the liberty-loving world is dedicating its noblest efforts without stint or reservation, and may God defend the right.

WOODROW WILSON.

Felicitations from Greece.

FROM THE KING OF GREECE TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

ATHENS, *July 4, 1918.*

Mr. WOODROW WILSON,
President of the United States of America, Washington.

On this memorable day in which the great Republic celebrates the anniversary of its independence, I join the Hellenic people in expressing to you, Mr. President, and to the American nation, my cordial felicitations and the ardent wishes I make for the happiness and prosperity of the American people. The Republic's participation in the world war constitutes all the more valuable a factor in the allied struggle, as it has for its sole aim the defense of the imprescriptible rights of the oppressed peoples and the restitution of their spoliated property.

ALEXANDER.

THE PRESIDENT OF THE UNITED STATES TO THE KING OF GREECE.

THE WHITE HOUSE, *July 6, 1918.*

His Majesty ALEXANDER,
King of Greece.

I ask Your Majesty to be so good as to believe that your courteous and friendly Fourth of July greetings are most highly valued by me and the Government and people of the United States, coming as they do from the sovereign of a people whose love of liberty and justice is historic, and with whom the Government and people of the United States are proud to be associated in the present struggle for the preservation of human rights and the equality of nations.

WOODROW WILSON.

Congratulations from Cuba.

FROM THE PRESIDENT OF CUBA TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

HABANA, *July 3, 1918.*

Hon. WOODROW WILSON,
President of the United States, Washington, D. C.

I send to Your Excellency my most cordial congratulations on the occasion of the Fourth of July, always a glorious day for all the free peoples, but now more revered than ever for its significance in the supreme conflict which is to decide the future of liberty and democracy in the world. I take pleasure in informing Your Excellency that it has afforded me patriotic satisfaction to approve the law enacted by the Congress which makes the Fourth of July a holiday in Cuba.

M. G. MENOCAL,
President of the Republic of Cuba.

FROM THE PRESIDENT OF THE UNITED STATES TO THE PRESIDENT OF CUBA:

THE WHITE HOUSE, *July 6, 1918.*

HIS EXCELLENCY M. G. MENOCAL,
President of Cuba, Habana.

I thank Your Excellency most sincerely for your highly appreciated Fourth of July message and ask you to be so good as to make known to the Government and people of Cuba the high appreciation of the Government and people of the United States of Cuba's fraternal and complimentary action in making our Independence Day a holiday in Cuba. I need not assure you that the people and Government of the United States have the welfare and happiness of the people of Cuba deeply at heart.

WOODROW WILSON.

Greetings from Italy.

FROM THE KING OF ITALY TO THE PRESIDENT OF THE UNITED STATES:

[Translation.]

His EXCELLENCY PRESIDENT WILSON,
Washington.

Even in proclaiming their independence, the American people affirmed that their mission in the world was one of liberty and justice; they have nobly kept faith with that supreme ideal, always and more than ever in that ruthless conflict of all the people by spontaneously intervening in the defense of right against violence. Wherefore this anniversary is to-day celebrated by all the free peoples as it were their own gladsome holiday, as a rite portending the victory of liberty and justice.

Allied and Neutral Travelers May Enter Canada Freely, Says Censor

Col. E. J. Chambers, Chief Press Censor for Canada, has requested publication of the following statement:

Hon. G. D. Robertson, chairman of the Canada Registration Board, and a member of the Dominion Government, officially announces that the reports circulated in Canada and the United States to the effect that visitors to Canada from the United States will be compelled to register at a post office before being able to secure hotel accommodation or transportation, that women visiting in Canada will be detained and that Americans traveling in Canada will require passports, are absolutely without the least foundation.

No Authority for Restrictions.

Senator Robertson states that neither in the law, in the regulations for Canadian registration, nor in any instructions issued or contemplated is there anything that would indicate desire or intention to impose restrictions upon Americans or allied or neutral aliens, entering, traveling in or leaving Canada. The registration act applies only to people permanently resident in Canada and does not affect any one living in the United States; no registration at a post office is necessary and no passports are required. On entering Canada visitors give assurances that their usual place of residence is not Canada and are supplied with identification cards by the Canadian immigration officials which enable them to travel freely where they wish without any interference.

No Regulation Whatever.

In the administration of the Canada registration act every effort is being made to cause as little inconvenience to the traveling public as possible and transients visiting Canada need experience no difficulty so far as registration is concerned in obtaining the same accommodation and facilities as heretofore. There is in fact no regulation of any kind in existence or in contemplation which interfares with bona fide tourist travel in Canada.

THE AREA OF COTTON IN CULTIVATION AND CONDITION OF CROP ON JUNE 25

United States Department of Agriculture issues the following:

The Crop Reporting Board of the Bureau of Crop Estimates, of the United States Department of Agriculture, estimates, from the reports of the correspondents and agents of the bureau, that the area of cotton in cultivation this year (1918) in the United States is about 37,073,000 acres, as compared with 34,925,000 acres, the revised estimate of acreage in cultivation a year ago being an increase of 2,148,000 acres, or 6.2 per cent.

The condition of the growing crop on June 25 was 85.8 per cent of a normal condition as compared with 82.3 on May 25, 1918, 70.3 on June 25, 1917, and 79.8, the average condition for the past 10 years on June 25.

A condition of 85.8 on June 25 forecasts a yield per acre of about 200 pounds and a total production (allowing 1 per cent from planted area for abandonment) of about 15,325,000 bales. That is, the final outturn will probably be larger or smaller than this amount according as conditions hereafter are better or worse than average conditions. Last year the production was 11,300,254 bales, two years ago 11,449,930, three years ago 11,191,820, and four years ago 16,134,930 bales.

Railroad Administration Ruling on Per Diem Claims

UNITED STATES
RAILROAD ADMINISTRATION,
DIVISION OF PUBLIC
SERVICE AND ACCOUNTING,
OFFICE OF DIRECTOR,
Washington, D. C., July 3, 1918.

P. S. & A. CIRCULAR No. 13.

In the matter of the reporting, charging, and collection of per diem, as provided for in General Order No. 31:

The question has been asked as to whether per diem reports, charges, credits, and collections which accrued prior to July 1, 1918, should be discontinued.

The order contemplates that per diem reports, charges, credits, collections, reclaims, and all claims in reference to per diem other than those due to arithmetical errors, up to and including June 30, 1918, shall be continued as heretofore, and that the provisions of the order relate only to accruals on and after July 1, 1918.

C. A. PROUTY,
Director.

INDEPENDENCE DAY MESSAGES

(Continued from page 7.)

Italy, unshakable in her resolution to bear and do everything in the great common cause, sends to the people of the United States her expression of brotherly sympathy at the very moment when she enthusiastically and proudly welcomes the sons of America, who have come to fight by the side of her own sons. To you, Mr. President, who with enlightened wisdom and unswerving decision, worthily presides over the destinies of your very great Nation, I am glad to manifest those sentiments, those purposes, and that confidence of the Italian people.

VITTORIO EMANUELE.

FROM THE PRESIDENT OF THE UNITED STATES TO THE KING OF ITALY.

THE WHITE HOUSE, *July 6, 1918.*

HIS MAJESTY VITTORIO EMANUEL II,
King of Italy, Rome.

I was deeply gratified to receive your message of congratulation upon our national Day of Independence. It is fitting that there should be a community of sentiment between the American people, who from the first dedicated themselves and their country to the imperishable cause of human freedom, and the Italian people, in whose veins flows the blood of so many champions of liberty. We are proud that this identity of high resolve brings our sons together on the field of conflict, and we fervently hope and pray and confidently believe that our indomitable common purpose may be achieved.

WOODROW WILSON.

Premier Venizelos Pays Homage.

FROM THE PREMIER OF GREECE TO THE PRESIDENT OF THE UNITED STATES:

[Translation.]

Mr. WOODROW WILSON,
President of the Republic of the United States of America, Washington.

Mr. President, on this day, in which the great American Nation celebrates the proclamation of its independence, I wish to pay homage to the United States of America which, finding in the principle in whose name it had achieved its revolution a command to crush the arrogance of a power that spurned all law and humane sentiments, that aimed to force despotism upon the world, has in a magnificent effort thrown into the world conflict all its physical and moral forces. So the United States nobly took the position of a belligerent and with admirable unanimity and dash succeeded in organizing the valiant troops that are now fighting in defense of the French land. Greece is tensely watching their success, for a peace will spring from the defeat of Germany that will rest on the respect of all rights. It also salutes, with respectful admiration, him who successfully led his country in the path of duty and of sacrifice for the liberties of mankind.

VENIZELOS.

FROM THE PRESIDENT OF THE UNITED STATES TO THE PREMIER OF GREECE.

THE WHITE HOUSE, *July 6, 1918.*

HIS EXCELLENCY
ELEUTARIOS VENIZELOS,
Premier of Greece, Athens.

Your message of congratulation on America's natal day of freedom comes to blend the glorious traditions of our own struggle to conserve for our own land and people the priceless heritage of freedom with the splendid history of the great Greek people, whose indomitable aspirations for national self-government have reawakened and inspired their sons from of old to renewed endeavor in the great work of world-wide regeneration and enfranchisement. It is fitting that Greeks and Americans should stand side by side and strive for the triumph of their common cause to the end that the spirit of freedom shall not perish among men. In the name of the Government and people of America I extend the hand of fellowship to your land and its people.

WOODROW WILSON.

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

RULES PRESCRIBED BY PRESIDENT FIXING ORDER OF DRAFT CALL WITH PROVOST MARSHAL GENERAL'S SCHEDULE AND MASTER LIST

WAR DEPARTMENT,
Washington, 25th day of June, 1918.

Under authority vested in him by the public resolution approved May 20, 1918, and the act approved May 18, 1917, the President of the United States prescribes the following rules and regulations, and directs that they be published for the government of all concerned, and that they be strictly observed.

NEWTON D. BAKER,
Secretary of War.

PART I.

RULES AND REGULATIONS PRESCRIBED BY THE PRESIDENT.

For determining the order in which the persons whose registration cards are within the jurisdiction of the respective local boards and who are registered in accordance with the provisions of the public resolution approved May 20, 1918, and the President's proclamation of the same date promulgated thereunder, and who are liable to be called for military service by the respective local boards, by virtue of the authority vested in him by the terms of said public resolution and the act of Congress to authorize the President to increase temporarily the military establishment of the United States, approved May 18, 1917. These rules and regulations may be modified at any time by the President.

NOMENCLATURE.

In the interpretation and construction of these rules and regulations, the following definitions and instructions shall be observed:

(a) The word "State" shall include any State, Territory, and the District of Columbia.

(b) The word "governor" shall include the governor of any State or Territory and the Commissioners of the District of Columbia.

(c) By the term "adjutant general" is meant the adjutant general of any State, Territory, or the District of Columbia, or person or department performing the duties imposed upon the adjutant general of any State, Territory, or the District of Columbia, in the administration of the act approved May 18, 1917, and the public resolution approved May 20, 1918.

(d) By the term "master list No. 2" is meant the schedule of numbers drawn as prescribed in section 1 hereof.

(e) Words importing the singular number shall be held to include the plural, and vice versa, except where such construction would be unreasonable.

(f) By the term "first registration" is meant the registration of persons in the class of June, 1917, required to register by virtue of the act approved May 18, 1917, and the proclamation by the President of the same date promulgated thereunder.

(g) By the term "second registration" is meant the registration of persons in the class of June, 1918, required to register by virtue of a public resolution approved May 20, 1918, and the proclamation by the President of the same date promulgated thereunder.

(h) By the term "class of June, 1917," is meant the persons required to register by virtue of the act approved May 18, 1917, and the proclamation by the President of the same date promulgated hereunder.

(i) By the term "class of June, 1918," is meant the persons required to register by virtue of the public resolution approved May 20, 1918, and the proclamation by the President of the same date promulgated thereunder.

Drawing By Numbers.

SECTION 1. A drawing of the numbers from 1 to 1,200, both inclusive, shall be made in Washington under the direction of the Secretary of War on a day and at a time to be fixed and determined by the Secretary of War. The numbers from 1 to 1,200, both inclusive, shall be printed or stamped on slips and placed in a receptacle, or receptacles, under the direction of the Secretary of War. A person or persons blindfolded shall draw one number at a time from such receptacle, or receptacles, until all the numbers therein shall have been drawn. Tellers will record as each number is drawn the exact order in which the number was drawn.

A schedule shall then be prepared by the Provost Marshal General containing all such numbers from 1 to 1,200, both inclusive, and such numbers shall all be placed in such schedule in the exact order in which they were drawn from the receptacle, or receptacles, under the direction of the Secretary of War.

The first number drawn shall be placed at the top of the first page of such schedule, and the second number drawn shall be placed next below in such schedule; and this order shall be followed in making such schedule until all the numbers drawn shall be so placed in such schedule in the exact order in which they were drawn.

SEC. 2. Such schedule, hereafter referred to as "Master List No. 2," shall control and determine the exact order in which every person of the class of June, 1918, whose registration card is in the possession of a local board, appointed under the authority of the act approved May 18, 1917, and which has been given a "registration number," in accordance with "Registration Regulations No. 2," or these regulations, is liable to be called by the local board for military service.

The Registration Number.

SEC. 3. In accordance with sections 43 and 44 of "Registration Regulations No. 2," and the directions of the Provost Marshal General, the registration cards of the second registration which are in the possession of the respective local boards on or before the 18th day of June, 1918, have each been given a "registration number" in black ink. Five identical lists of the names of all persons in the class of June, 1918, whose registration cards are in the possession of the respective local boards on or before the 18th day of June, 1918, have been prepared by each local board. The "registration number" of every such person registered on or before the 18th day of June, 1918, is on such lists before the name of each such person. One copy of the list prepared by each local board has been posted in the office of the local board, one copy made accessible to the press, and one copy each mailed to the State adjutant general and to the Provost Marshal General in Washington.

Registration cards of the second registration received after the 18th day of June, 1918, have not been assigned "registration numbers," have been held in the possession of local boards, and no lists of the names of persons whose cards have been received after said day have been made.

SEC. 4. The method of determining the order to be followed by each local board in calling for military service the persons in the class of June, 1918, whose registration cards are in its possession and which have been given "registration numbers" in accordance with sections 43 and 44, Registration Regulations No. 2, on or before the 18th day of June, 1918, is:

A list of the names of the persons in the class of June, 1918, whose registration cards are in its possession and have been so assigned "registration numbers" shall be made by each local board as prescribed in section 6 hereof.

First Name on List.

The first name to be entered on the list prepared by each local board shall be the name of the person in the class of June, 1918, the "registration number" of whose registration card is first placed in such schedule containing the numbers from 1 to 1,200, both inclusive, reading down from the top of the first column of the first page of the schedule and disregarding the numbers in the schedule which do not appear on any registration card so assigned a "registration number" and in the possession of the local board.

Before the name of the first person on each list shall be written the "registration number" of his registration card.

The order number, that is, the "number" designating the order in which he will be called for military service to be

RULES PRESCRIBED BY PRESIDENT FIXING ORDER OF DRAFT CALL

written on the list made by each local board after the name of such first person on each list is No. 1.

The next name to be entered on the list prepared by each local board shall be the name of the person in the class of June, 1918, whose "registration number" is next placed in such schedule containing the numbers from 1 to 1,200, reading down the columns from the top thereof and disregarding the numbers in the schedule which do not appear on any registration card so assigned a "registration number" and in the possession of the local board.

The order number to be written on the list made by each local board after the name of such person on each list is No. 2.

The order in which the names of all such persons in the class of June, 1918, shall be entered on the list prepared by each local board shall be determined in the exact manner above described for determining the names of the first and second persons on each such list, and this method shall be pursued by each local board until the name of every person in the class of June, 1918, whose registration card is in its possession and which has been given a "registration number" in accordance with sections 43 and 44, Registration Regulations No. 2, on or before the 18th day of June, 1918, shall have been entered upon the list as prescribed in section 6 hereof.

Form For Lists.

SEC. 5. The list shall be made by each local board on Form No. 102–a, provided by the Provost Marshal General.

SEC. 6. Immediately after the order in which the persons in the class of June, 1918, whose registration cards are in the possession of the respective boards, are liable to be called for military service, shall have been determined by each local board, in accordance with section 4 of these regulations, the list (Form 102–a) of the names, residences, and race of such persons in the order of their liability to be called for military service, and having the "registration number" of the registration card of each such person before his name, and the "number" designating the order in which he will be called for military service after his name, shall be posted in the office of the respective local board in a place accessible to the public view.

As promptly as practicable thereafter a complete copy of such list shall be made accessible in the office of the respective local board to the press with a request for publication; and one copy each of such list shall be mailed by the clerk of the respective local board to The Adjutant General and to the Provost Marshal General in Washington.

Such list should be, if practicable, completed, posted, made accessible to the press, and mailed as above required within one day after the determination by each local board of the order of liability of the persons within its jurisdiction to be called for military service.

Each such list must contain the names of all persons in the class of June, 1918, whose registration cards are in the possession of the respective local board and have been given "registration numbers" in accordance with sections 43 and 44, Registration Regulations No. 2, on or before the 18th day of June, 1918, and whose names have been copied upon the lists and supplemental lists required by section 47 of Registration Regulations No. 2 on or before the 18th day of June, 1918.

The Classification List.

SEC. 6. The classification list (Form 1000) shall then be prepared in accordance with section 90 of the Selective-Service Regulations promulgated on the 8th day of November, 1917. After the caption "Classification list" shall be written, in bold characters, the words "Second registration," and it shall hereafter be known as the "Classification list for second registration."

SEC. 7. In furnishing the quotas required to be called and furnished by each local board, in accordance with the directions received from the governor, acting for and by direction of the President, every registrant of the second registration to be ordered into military service by a local board in filling any part of its quota under a call for general induction shall be selected in the order of his liability within his respective class as shown on the classification list, except that such registrant shall not be ordered into military service until those who have been placed in the class in which he has been placed under the first registration and who are available for general military service have been ordered into military service.

SEC. 8. The "registration numbers" assigned in the second registration shall be regarded as serial numbers and in the preparation of forms shall be entered in the space provided for serial numbers. The order number assigned to each registrant as herein prescribed shall be entered at the top of his registration card between the words "Serial No. ——" and "Registration No. ——," and exact copies of all cards of the second registration shall thereupon be made as prescribed in section 46, Registration Regulations No. 2.

Errors in Cards.

SEC. 9. All registration cards of the second registration received by any local board after the 18th day of June, 1918, shall be copied and a list of the names of all persons of the class of June, 1918, whose registration cards are so received made by the local board. The original registration card shall be retained by the local board and no "registration number" shall be assigned by such local board to any such registration card, and no "registration numbers" will be placed before the name of any person on the list to be so made. A copy of all such cards and the list of the names of all such persons whose registration cards have been so received shall be daily forwarded to the adjutant general.

SEC. 10. Whenever an examination of a registration card of the second registration in the possession of any local board discloses that it has not been assigned a "registration number," or that it has been improperly, erroneously, or illegibly assigned a "registration number," or has not in some other respect been assigned a "registration number" as required by sections 43 and 44 of Registration Regulations No. 2, it shall be the duty of the local board having jurisdiction thereof to forward such registration card to The Adjutant General without assigning any "registration number" thereto.

SEC. 11. Whenever an examination of a copy of a registration card of the second registration received in the office of The Adjutant General and an examination of the list of the names of all persons in the class of June, 1918, whose registration cards are in the possession of the local board which forwarded such copy, discloses that the registration card has not been assigned a "registration number" or has been improperly, erroneously, or illegibly assigned a "registration number," or has not in some other respect been assigned a "registration number," as required by sections 43 and 44 of Registration Regulations No. 2, it shall be the duty of The Adjutant General, under the direction of the governor, to assign a "registration number" to such registration card and to certify the number assigned thereto to the local board having jurisdiction as hereinafter provided.

SEC. 12. All registration cards of the second registration lacking "registration numbers" or improperly, erroneously, or illegibly assigned "registration numbers" shall be assigned such numbers by the adjutant general as follows:

(a) When any registration card of the second registration is found bearing more than one "registration number" there shall be assigned to such card the lowest in order of the numbers which it bears, provided such number is not borne by any other registration card of the second registration in the possession of the local board having jurisdiction thereof. The remaining number or numbers appearing on any such card shall be disregarded.

Duplicate Card Numbers.

(b) When two or more registration cards of the second registration are found bearing the same "registration number" with fractions added to the number for the purpose of distinguishing the cards, or with letters of the alphabet or other distinguishing marks preceding or following the "registration number," for the same purpose, one card of any such group of cards within the jurisdiction of any local board shall be drawn by lot and shall be assigned the common "registration number" which they all bear. All the other cards of any such group shall be regarded as having no "registration number" and shall be assigned "registration numbers" as hereinafter provided in the case of registration cards of the second registration having no "registration numbers." This rule applies to "registration numbers" only. It does not apply to order numbers which may have a letter attached thereto as provided in section 15 hereof.

(c) When the "registration number" on any registration card of the second

RULES PRESCRIBED BY PRESIDENT FIXING ORDER OF DRAFT CALL

registration is found to be illegible and no unused number in the consecutive numbers from 1 upward on the list furnished by the local board having jurisdiction of any such card can be found to correspond with it, such card shall be regarded as having no "registration number" and shall be assigned a "registration number," as hereinafter provided in the case of cards having no "registration numbers."

SEC. 13. All registration cards of the second registration received by any local board after the 18th day of June, 1918, and copies of which have been forwarded, as hereinbefore required, to the adjutant general; and all other registration cards of the second registration which have been forwarded to the adjutant general, and which have not been assigned a "registration number" by any local board, or by the adjutant general, in accordance with the foregoing provisions, shall each be assigned by lot a "registration number" by such adjutant general, under the direction of the governor.

"Registration numbers" so to be assigned to each such registration card shall be determined by lot for cards within the jurisdiction of one local board as expeditiously as possible, at such times and places and in such manner and under conditions insuring absolute fairness, impartiality, and the necessary publicity as may be prescribed by the governor of the State.

The "registration numbers" so to be assigned by the respective adjutants general to all such registration cards of the second registration within the jurisdiction of one local board shall consist first of all "registration numbers" on the consecutive list of the names of persons in the class of June, 1918, whose registration cards are within the jurisdiction of such local board which have not been assigned to any registration card of the second registration within its jurisdiction. If there are no such "registration numbers" on the consecutive list from 1 upward, or when all such numbers have been assigned to registration cards, the "registration numbers" to be thereafter assigned by the adjutant general to registration cards within the jurisdiction of such local board shall consist of the "registration numbers" in their consecutive order beginning with the next "registration number" following the highest "registration number" on the list of persons in the class of June, 1918, whose registration cards are within the jurisdiction of such local board, filed with the adjutant general by such local board.

Adjutant General's Certificate.

SEC. 14. The adjutant general of the State shall forthwith certify to the local boards having jurisdiction of the respective registration cards, to which "registration numbers" have so been assigned a list showing the "registration numbers" assigned to each such registration card. It shall be the duty of such adjutant general to send exact copies of such cards, so given "registration numbers," to the proper district board.

It shall be the duty of any local board, upon receiving any such list from the adjutant general, forthwith to assign "registration numbers" to the original registration cards in accordance with such list, unless the original registration card has been assigned a "registration number" by the adjutant general as hereinbefore provided, and such local board shall thereupon place the names of all persons whose registration cards have as herein provided been assigned "registration numbers" on the list of the names and residences of persons in the class of June, 1918, in the order they are liable to be called for military service as prescribed in section 6 hereof. Such local board shall also enter upon said card and upon the classification list (Form 1000) the "registration number" and the order number, which order number shall be ascertained as prescribed in section 15 hereof.

SEC. 15. Upon receipt from the adjutant general of "registration numbers" for additional registration cards of the second registration or registration cards of the second registration which have been improperly, erroneously, or illegibly given "registration numbers," the local board shall ascertain the proper order number for any such card by consulting Master List No. 2 (Part II hereof). The order in which such "registration number" appears on Master List No. 2 among other "registration numbers" in the jurisdiction of the local board shall be the order of liability of the registrant. If the number designating such order of liability ("order number") has already been assigned to the cards of registrants within the jurisdiction of the local board, such number shall, nevertheless, be entered on the registration card and on the classification list, but there shall be added to such number the letter "a," "b," or "c," etc., which will insure that the registrant will be called in his proper order of liability next after registrants whose cards already bear such order number with prior letters of the alphabet (if any) attached.

If the registrant is finally placed in class 1 and if the order number so assigned is such that the registrant would have been called for entrainment had it appeared on the classification list at an earlier date, then the local board shall summon the registrant for physical examination, and if qualified, shall forthwith forward him to a mobilization camp.

These rules and regulations shall apply only to persons in the class of June, 1918, who are required to register by virtue of the public resolution approved May 20, 1918, and the President's proclamation of the same date promulgated thereunder. The Selective Service Regulations promulgated on the 8th day of November, 1917, and more particularly sections 64 to section 69 thereof, prescribe the method of procedure to be followed by local boards with respect to registration cards hereafter received of persons in the class of June, 1917.

P. M. G. O. Form No. 102-a.

LOCAL BOARD_____

Address_____

List of names of registrants of the class of June, 1918, whose registration cards are in the possession of this local board, in the order of their liability for military service, as determined by this local board, as required by the rules and regulations.

Registration No.	Name.	Address given on registration card.	Color.	Order No.

Wh.—White.
Col.—Negro.
Ind.—Indian.
Or.—Oriental.

LOCAL BOARD_____

By_____

Chairman.

_____

Clerk.

Dated _____ day of _____, 191__
(Day.) (Month.) (Year.)

PART II.

SCHEDULE PREPARED BY THE PROVOST MARSHAL GENTRAL

Which shall control and determine the exact order in which the persons, whose registration cards are in the possession of the respective local boards and who are registered in accordance with the public resolution approved May 20, 1918, and the proclamation of the President of the same date promulgated thereunder, are liable to be called for military service by the local boards.

IMPORTANT NOTICE FOR LOCAL BOARDS.

Draw a light pencil line through every number which does not at the present time appear on any registration card of the second registration in the possession of your local board. The list as thus prepared controls and determines the order of call for every registrant of the second registration whose registration card is now within your possession. Each such registrant within the respective classes shall be called as prescribed in section 7 of Part I of these Rules and Regulations. If additional registration cards of the second registration are received, or reg-

JUNE 27, 1918.

NEWTON D. BAKER,
Secretary of War.

GEORGE E. CHAMBERLAIN,
Chairman, Committee on Military Affairs, United States Senate.

S. HUBERT DENT,
Chairman, Committee on Military Affairs, House of Representatives.

Enables National Banks to Give to Red Cross

PUBLIC—No. 153—65TH CONGRESS.

S. 3911.

An act authorizing national banks to subscribe to the American National Red Cross.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That during the continuance of the state of war how existing it shall be lawful for any national banking association to contribute to the American National Red Cross, out of any net profits otherwise available under the law for the declaration of dividends, such sum or sums as the directors of said association shall deem expedient. Each association shall report to the Comptroller of the Currency within ten days after the making of any such contribution the amount of such contribution and the amount of net earnings in excess of such contribution. Such report shall be attested by the president or cashier of the association in like manner as the report of the declaration of any dividend.

SEC. 2. That all sums so contributed shall be utilized by the American National Red Cross in furnishing volunteer aid to the sick and wounded of the combatant armies, the voluntary relief of the Army and Navy of the United States, and the relief and mitigation of the suffering caused by the war to the people of the United States and their allied nations.

Approved, May 22, 1918.

REPORT OF COMMITTEE APPOINTED TO INQUIRE INTO OPERATION OF BUREAU CHARGED WITH PAYMENT OF WAR RISK ALLOTMENTS

Expresses Opinion That "Considering Magnitude of the Problem the Service Has Been as Efficient as Could Reasonably Be Expected."

The War Department authorizes the following:

The committee appointed in May by the Secretary of War and the Secretary of the Treasury to inquire into the operation of the bureau in charge of the payment to relatives of soldiers of the money allotments and allowances provided for by law has submitted its report. The findings of the committee reveal the causes for delays, suggest changes in methods and recommend improvements that will result in the saving of 19 days from the receipt of the application to the issuing of the check in payment of the allotment. The outstanding facts of the report are as follows:

Blank Filed by Every Man.

Every enlisted man, whether he has dependents or not, is required to file with the War-Risk Insurance Bureau a blank upon which are scheduled facts relating to class "A" relatives (wife, child, or former wife divorced, in respect to whom the allotment of pay is compulsory) and certain information as to class "B" dependents (mother, father, brother, or sister, in respect to whom the allotment is entirely voluntary), which information must include the amount which the enlisted man had habitually contributed to their support prior to his entrance into the service. The number of such applications on file with the bureau at the end of June 15, 1918, was 2,313,880.

Of the 2,313,880 statements on file there are 1,371,150 in which the enlisted men have declared that they have no dependents, and therefore have allotted no part of their pay. The experience of the bureau has been that in many such cases dependents do exist, and the failure to report them is due either to a misunderstanding on the part of the soldier or his willful intention to misrepresent conditions, so that he may be spared the necessity of allotting part of his pay.

Dependents Sometimes Misled.

In some cases it has developed that although he has reported no dependents the enlisted man has misled the wife or mother by writing to her that he has allotted part of his pay and that she should receive each month a check from the Government. After waiting some time and failing to receive a check the wife or mother either writes to the bureau or complains to her Senator or Congressman. As soon as the bureau is notified of this situation a special application blank is forwarded to the wife, upon which she can lay the basis of her claim, supported by the testimony of witnesses. It is then definitely ascertained whether the man is in the service, and if such is the case an award is made and the commanding officer of the soldier is notified of the facts. The commanding officer then withholds a part of the man's pay each month to reimburse the bureau for the allotment which it forwards each month.

Under the present law nothing can be done in the case of dependent mothers for whom the soldier has not made an allotment, for they come under class "B," and it is entirely voluntary upon the part of the soldier to make allotment for the benefit of dependents within that classification. In these cases a notice is sent to the commanding officer with the suggestion that he bring the situation to the attention of the enlisted man and urge him to make suitable allotment so that the bureau may pay the allowance justified by the facts. In view of the large number of applications alleging no dependents the committee decided to have a more definite warning given to enlisted men, and in the future a warning notice will be printed in large type on each application.

Punishment for Failure.

The notice will call attention to the fact that failure to report the existence of a wife or child or the making of any false statement in such report will render the offender liable to two years' imprisonment, a fine of $5,000, or both. It will also urge the enlisted man having dependents in Class B (mother, minor sister, minor brother, etc.) to allot some portion of his pay for their benefit and to correctly state the amount of the habitual monthly contribution previously made for their support.

Since November 1, 1917, the day the war-risk insurance act became effective, up to June 15, 1918, there have been 23,653 applications filed by enlisted men claiming exemption from making allotments to their wives upon the ground of desertion, unworthiness, or other causes. In many of these cases ignorance is expressed of the wife's whereabouts. When such application is received steps are taken to ascertain the wife's address, and she is then called upon to reply to her husband's charge. The matter is then carefully considered by counsel attached to the Exemption Division of the bureau, and it may be noted that of the 23,653 claims for exemption 8,350 have been allowed, 4,530 have been denied, and 10,773 are still pending.

One of the most common causes of delay, for which the bureau is not responsible, is the giving of an incorrect address of the beneficiary either through carelessness or confusion on the part of the soldier. The application blanks in many cases contain insufficient or incorrect addresses and the checks can not be delivered by the postal authorities. In other cases the allottee has moved without giving the proper forwarding address. Over 6,000 checks are returned each month by the postal authorities to the bureau because the allottees can not be found at the address given. The bureau then attempts in numerous ways to locate them, through the investigating field force and in other ways. The soldier is also communicated with and told of the failure to deliver the check at the address given in his application blank and the check is then indexed and filed away in the hope that some letter of complaint will furnish the clue for a proper delivery.

Delivery of Checks.

The carrying out of rules issued by the Pension Bureau in connection with the delivery of pension checks by the Post Office Department has resulted in troublesome delays for allottees under the War-Risk Insurance Act. Pension checks can not be delivered unless the beneficiary establishes, by the possession of an identification number, to the satisfaction of the carrier or the postmaster that he is entitled to receive the check. No such regulation has been established by the Bureau of War-Risk Insurance, and the enforcement of the rule by the postal authorities has resulted in numerous complaints. Troublesome cases are gradually being cleared up and the Post Office Department is cooperating with the bureau to that end.

A large number of complaints are due to the failure of officers in the field in charge of such matters to forward promptly the application blanks of the men to the bureau. Even at this late date applications are being received from different camps, the blanks having been executed three, four, or five months previous to the date of receipt in the bureau. In one instance the application blanks for the entire enlisted strength of one division of troops, 23,000 men, although executed in this country in November, 1917, were taken to Europe, deposited in the Paris office of the bureau, held there for several months, and were not received in the bureau until April 30, 1918. To prevent the recurrence of such delays the Adjutant General's Office, at the instance of the committee, issued instructions to all department, division, recruit depot, depot brigade, and port of embarkation commanders to give their personal attention to the matter of immediate forwarding of all allotment applications as soon as executed.

Lack of Organization.

While all of the foregoing causes have developed a large number of complaints the committee found that a great number are due to the lack of organization and the inability of the bureau to put in operation the necessary machinery before the applications arrived in overwhelming numbers. The war-risk insurance act was approved October 6, 1917, and became effective November 1, 1917, about three weeks afterward. In those three weeks rules and regulations for the management of the bureau had to be established, instructions for the information and guidance of the regimental officers (who would be expected to explain the provisions of the act to the men serving under them) had to be prepared, quar-

REPORT OF COMMITTEE CONCERNING WAR RISK ALLOTMENTS

ters had to be provided, printing and distribution of the millions of application forms had to be arranged, office furniture, equipment, and supplies had to be purchased. The recruiting and developing of a force of clerks who could handle an administrative proposition of such magnitude was in itself a gigantic task to be accomplished in three weeks.

There were no precedents to guide those in charge, and the necessity for providing methods of administration which had never before existed resulted in blunders and delays. The United States Bureau of Efficiency was invited to assist in outlining an efficient and economical system of operation, and since last December representatives of the Bureau of Efficiency have been systematizing the work. In 7½ months, from November 1, 1917, to June 15, 1918, the Bureau of War-Risk Insurance has sent out 3,321,172 checks in payment of allotments, family allowances, compensation, and insurance claims. At the present time more than 800,000 checks are issued each month, and by the end of July the monthly average will be increased to 1,000,000.

Methods of the Bureau.

In order to obtain a comprehensive idea of the methods in vogue at the bureau so as to ascertain possible causes of delay the committee followed an application from the time of its receipt until the check was deposited in the post office. The application first arrived at the mail division, where mail of all description is received and sorted, the applications being separated from the letters, which in turn are divided into two divisions, those containing checks which have been returned and those without returned checks. No envelope is destroyed unless the letter itself contains a sufficiently complete address to which replies can be sent. Each piece of mail matter is stamped with the date of its receipt, and in this way it is possible to determine if undue delay occurs.

The number of pieces of mail matter received each day averages 11,000, and on Mondays and days after legal holidays 20,000. From the mail division the application goes to the allotment and allowance section where it is stamped with the date of receipt to show the length of time from its receipt in the mail division until its arrival in the allotment and allowance section. It is then sent to an awarder who calculates the amount of the soldier's pay which should be withheld as allotment, either compulsory or voluntary, and the amount of the family allowance shown by the size of the family or the degree of dependency. After the findings of the awarder are reviewed the application is passed to a typist, who prepares the award card, which serves as a basis for the checks drawn by the disbursing office, and the index card which is sent to the index file. The cards and the application are forwarded to the numbering section where a number is stamped upon the application, the award card, and the index card.

After the index card has been numbered it is sent to the index file section where it is filed alphabetically by the soldier's name. At the present time there are approximately 2,300,000 cards in the file and the duplication of cards is a frequent cause of delay. Wives writing about their allotments sometimes fail to give the organizations with which their husbands are connected and in consequence it is frequently impossible to identify the soldier about whom inquiry is being made. There are hundreds of cards of one name, with 110 John J. O'Briens and 189 John Smiths. Even when the organization is given it is impossible in many cases to render the identification because of the frequent transfers which have taken place. These difficulties will disappear when the system of numbering each enlisted man, recently adopted by the Army, is completed, and the records of the bureau contain each man's serial number.

The application when it leaves the mail division goes to the application files, where it is filed numerically. In this way it serves as a cross index to the index files, where the cards are arranged alphabetically. The system installed provides that correspondence pertaining to any particular application is attached thereto, and when it becomes necessary to withdraw an application for the purpose of changing the award or the address or having it serve as the basis for correspondence the application is given to awarders and correspondents who sit immediately in front of the file where the application belongs. An average of 250,000 changes are received each month.

Most Important Function.

Early in the history of the bureau it became necessary to decide which were its most important functions. As a result of careful deliberation it was decided that the payment of checks to the dependents was of primary importance, and in consequence the efforts of the entire force were centered upon the issuing of checks rather than to the answering of letters. This resulted in many thousands of letters remaining unanswered and caused considerable irritation and annoyance. However, the correspondence is now in the hands of the Chief of the United States Bureau of Efficiency and a corps of assistants, and schools are being held to train employees to handle correspondence with the purpose of expediting replies to inquiries.

After the application and the index card have been filed the award card is sent to the audits and records office, where it is placed in a cabinet according to the name. In this section the necessary records are made and controls established to serve as a check upon the disbursing office. The final step, the forwarding of the actual check to the allottee, is taken in the disbursing office. Each day some 45,000 cards are forwarded from the audits and records section to this office, arranged in units of 100 cards. At the present time the checks are written on the typewriter, but this method requires elaborate verification as to the correctness of the names, addresses, and amounts written. Steps are now under way to install a mechanical system whereby the checks will be printed from plates, so there will be no necessity for verification. This change is not only vital in the interest of saving time, but is conducive to greater accuracy.

Committee Favorably Impressed.

The committee was favorably impressed with the system and methods in the disbursing office in providing safeguards against error. With the installation of machinery checks can be printed in advance, arranged by postal zones, and mailed in time to reach all beneficiaries, no matter where located, on the same day, which will be the last day of the month for which the allotment is due. The following schedule shows the different operations performed in the bureau and the opinion of the committee as to the possibility of reducing delays in the various steps:

From—	To—	Time involved.	Possibility of expedition.
1. Enlisted man	Bureau's mail room	Uncertain	Yes; very materially.
2. Mail division	Allotments and allowances section.	2 days	No.
3. Allotments and Allowances.	Audits and Records	14 days	Yes; 3 or 4 days.
4. Audits and Records	Disbursing office	3 days (new cases)	Yes; 2 days.
5. Disbursing office	Outgoing mail	6 days	Yes; 2 days.

Part of the delay in making payments and in answering correspondence is due to the fact that the bureau is not housed under one roof, but is occupying 11 buildings in different parts of Washington, which naturally results in much lost motion. Upon the recommendations of the committee application has been made for 10,000 feet of additional floor space, which will permit the needed expansion of several departments and the employment of additional clerks in anticipation of the needs of the new draft registrants. Wherever possible a night shift is supplementing the work carried on during the day and at the present time there are 776 night workers. At the close of business June 20, 1918, there were 7,988 employees of various kinds in the bureau.

In its summary the committee ascribes the delays to the following causes:

"(a) The short time which elapsed between the approval of the war-risk insurance act and the date when it became effective.

"(b) The necessity for bringing into existence a large bureau and training a large force of employees in a short time.

"(c) The absence of controls and safeguards over vital records which has resulted in many being misfiled and going astray."

The committee states, however, that the training of employees, the increasing familiarity with their duties which experience only gives, and the many improvements constantly being made in methods

with a very little gas. The machine gun and rifle fire of the enemy was frequent in the afternoon and evening. Part of it was apparently the reaction to the operation of one of our patrols. One of our reconnaissance patrols entered a German trench which proved to be abandoned and in bad condition, owing to allied shell fire. There was but slight enemy activity in the construction of new works.

American Official Communique No. 54.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 7, 1918.

Section A. In the Vosges we made a successful raid, killing and wounding a number of the enemy and taking several prisoners. The day passed quietly at other points occupied by our troops.

Section B. In the Chateau Thierry region between July 4 and July 5 the rifle and machine-gun duel on the right of our line continued. Most of the German fire came as before, from Hill No. 204 and the Bois Bouresches. Machine guns were also in operation against Bouresches. The enemy's artillery fire was distinctly lighter. A much smaller number of his shells fell on the right of our advanced positions than during the preceding days, although this part of our lines remained the principal objective. It was also notable that most of the shells were of small and medium caliber and that the proportion of gas shells had diminished. On the other hand, the German airplanes appeared in greater numbers and larger formations, a number of groups of from five to eight planes being observed. In the enemy's rear across the abnormal troop movements which followed our attack on Vaux seemed to have decreased. The enemy is busily engaged creating machine-gun emplacements and constructing other works. There was evidence pointing to the destruction of still another ammunition dump. Several paper balloons containing copies of the "Gazette Des Ardennes" fell in our lines. American patrols, consisting of an officer and 25 men, operating south of Torcy, killed one of the enemy and captured two others, all three being found in shell holes. One of our battalion scouts penetrated the German lines, located machine-gun emplacements, and returned safely. A group of the enemy on duty at the machine-gun positions fled at his approach.

In the Marne sector held by our troops July 3 and July 4 were quiet. The enemy's artillery fire was much less than ours and was of a harassing and destructive nature. Most of the enemy machine-gun and rifle fire was in reply to our fire. There was a further decrease in the enemy's aerial activity. The movement of troops in the German rear areas continues abnormal. The flares and signals behind the German lines have slightly increased. From explosions and fire observed in his rear areas at points on which we were firing at the time it is believed that we struck at least two ammunition dumps and ignited a fire which burned for several hours.

In Picardy from July 3 to July 4 the main event was the capture of prisoners and a machine gun by a party of our men. From the statements of prisoners it was learned that the Germans were told to be on the alert, since the Americans were likely to attempt some operation on Independence Day. Our party started in three groups supported by a box barrage. The Germans opened strong resistance, but were overpowered. Besides suffering heavy losses in killed and wounded, they left three prisoners in our hands. The German artillery showed only average activity. There were concentrations near Cantigny and Grivesnes, with attempts by the enemy to place interdiction fire on our roads around Villers Tournelle and Broyes. There were also attempts at adjustment of the northern part of our advanced positions. There was no really heavy fire at any point. Very few German balloons or planes were in operation. In the German rear areas a fire occurred at Mesnil St. Georges and a heavy explosion between Faverolles and Etelfay during the night.

In the Colmar sector on July 2, 3, and 4, patrolling and raiding activities were very marked on both sides. During the night of July 1 to July 2 no less than four hostile parties of varying strength approached our line. On the right of the sector two German patrols were driven off at 9 o'clock in the morning and at one point at 3 o'clock in the morning. One of our men was wounded and captured. In the same region a raid was attempted by the enemy at 3 o'clock in the morning. A party of 40 men, supported by automatic rifle fire, approached our wire and threw a large number of grenades. None of the grenades reached our trenches. Our machine gun and automatic rifle fire, and particularly the flanking fire of one of our machine guns, forced the party to withdraw. Our Artillery cooperated in forcing the withdrawal. Our own patrols operated this night without incident. On the night of July 2 to July 3 no German patrol approached our lines, but one of his parties, consisting of about 25 men, was encountered and driven back by one of our patrols. Our own patrols, numbering four, carried out a very useful reconnaissance work. On the night of July 3 to July 4 our own patrols were again very successful in investigating the German positions, while a German patrol which approached our trenches and threw grenades was driven off by our rifle and grenade fire. During these days the German Artillery was exceptionally inactive, its fire being very light and scattered. The enemy's machine guns, on the other hand, were decidedly active, especially on the night of July 2 to July 3, when some of his guns fired at intervals during the whole night and others delivered strong bursts from time to time. The German planes showed moderate activity on July 2, but almost none on the two succeeding days. There was nothing unusual in the circulation in the German rear areas nor in the works observed there. Red, green, and white flares, with rockets of the same colors, appeared frequently during the nights.

In Lorraine between July 3 and July 4 our own troops furnished most of whatever activity there was to report. Our batteries heavily shelled the positions of the enemy, while his executed only a light and scattered fire in reply. On the other hand, the German machine-gun fire, which had shown marked increase over the preceding day, again doubled in intensity originating from around Domevre, Montigny, Neuviller, Bois des Haies, Montreux and others of his advanced positions. Patrolling activity was marked on both sides. Our own parties secured much valuable information and returned safely. A hostile patrol which attacked one of our advanced positions at 2 o'clock in the morning was driven off by our rifle and grenade fire. Very few German airplanes and balloons were seen. The enemy working parties were very busily improving their roads and trenches.

(Continued from page 14.)

of procedure, are resulting in greater efficiency with the consequent reduction in delays and errors. With the introduction of the necessary machinery which is being installed as rapidly as it can be procured, and the adoption of the recommendations of the committee, there will be a reduction of 19 days from the receipt of the application to the issuing of the check. This time is exclusive of the days and weeks that will be saved when the instructions from the Adjutant General's office relating to the delay in transmitting applications from the men are put into effect.

Conclusion by Committee.

Following the review of the work of the bureau and the recommendations that it has made to promote the speed and efficiency of its operations, the committee concludes as follows: "Considering the magnitude of the problem and the conditions which surround it, it is the opinion of the committee that the service has been as efficient as could reasonably be expected."

The members of the committee are Col. Herbert M. Lord (president), representing the War Department; Maj. S. H. Wolfe (recorder), representing the Treasury Department; and Herbert D. Brown, who was chosen as the third member of the committee by the other two members. Col. Lord is chief of the Finance and Accounting Division of the Quartermaster Corps, Maj. Wolfe has been since February detailed by the War Department for special duty in connection with the War-Risk Insurance Bureau, and Mr. Brown is chief of the United States Bureau of Efficiency.

VOL. 2 WASHINGTON, WEDNESDAY, JULY 10, 1918. No. 356

DENIES REPORT IN REGARD TO DEFERRED RAILROAD DIVIDENDS

Mr. McAdoo States that Penna. and B. & O. Lines Did Not Delay Action Because of Unsigned Contract.

U. S. RAILROAD ADMINISTRATION,
OFFICE OF DIRECTOR GENERAL,
Washington, July 10, 1918.

Director General McAdoo to-day authorized the following:

In some inexplainable way a report has gained circulation that the Pennsylvania Railroad and the Baltimore and Ohio Railroad have deferred their regular dividends because the contract between the Government and railroads under Federal control has not been signed.

There is no basis for this report.

Pennsylvania R. R. Statement.

The Pennsylvania Railroad, following the last June meeting of its board of directors, issued the following statement:

"At the close of the regular meeting of the board of directors of the Pennsylvania Railroad Company held to-day the following announcement was made:

"'In view of the fact that the board of directors has determined not to adjourn over the summer months, as has been usual heretofore, it was not necessary to declare at the meeting held to-day a dividend on the stock payable August 31. The declaration was deferred until the meeting of the board to be held in July.'"

B. & O. Statement.

The Baltimore & Ohio, after the June meeting of its board of directors, issued the following:

"The question of dividends was not given consideration at the board meeting of the Baltimore & Ohio Railroad Co. held to-day. Ordinarily the meetings of the board have been suspended during the months of July and August, and in view of this suspension action on the dividends has been taken at the June meeting. In view of the present situation, however, it is anticipated that the meeting of the board will be held in July."

The Railroad Administration, upon showing of reasonable necessity, is making advances to railroads on account of just compensation until the contract can be agreed upon and executed. It is my desire and plan to do every reasonable and just thing for railroad security holders pending the execution of the contracts.

A Fourth of July Message From Gen. Diaz, of Italy, and Reply of Gen. March

The War Department authorizes the following delayed cablegram addressed to the American people from the commanding general of the Italian Army:

On this day in which the mighty chivalrous American people celebrate those ideals of independence and justice for which the free nations are to-day fighting on the battle fields of Europe, that noble stand, the most heroic crusade that history ever remembers, the Italian Army tenders to its brethren in arms of the great Republic the confident prophecy of victorious fortunes of war and of resplendent glory.

DIAZ.

JULY 4, 1918.

JULY 9, 1918.

Copy of cablegram sent to Gen. Armando Diaz, commander in chief, Royal Italian Army:

Your Fourth of July greetings to the American people, on behalf of the Royal Italian Army, are deeply appreciated. Please convey to your forces the sincere thanks of the United States Army and its admiration for the splendid achievements of the Italian Army.

MARCH,
General, Chief of Staff,
United States Army.

RAILROAD SECTION CREATED TO AID AGRICULTURAL WORK

UNITED STATES
RAILROAD ADMINISTRATION,
W. G. McADOO, DIRECTOR
GENERAL OF RAILROADS,
Washington, July 9, 1918.

On July 10 there will be established by the Division of Traffic of the United States Railroad Administration a department to be known as the Agricultural Section, whose particular duty will be to look after the relations between the railroads and the Department of Agriculture, in order to give all possible assistance to the general agricultural development of our country.

Mr. J. L. Edwards, of Atlanta, Ga., who has had long experience in agricultural development work, has been appointed manager, and his familiarity with the general agricultural conditions eminently fits him for his new duties. It is expected that through the assignment of Mr. Edwards to this particular work, the encouragement and extension of agriculture, especially throughout the South and West, will be actively stimulated in the relation of transportation to this most important industry.

LABOR DEPARTMENT SPEAKERS BEGIN THREE-DAY CONFERENCE ON GOVERNMENT LABOR POLICIES

PROGRAMS WILL BE REHEARSED

Plans for Recruiting and Supply of Common Labor for War Industries and Other Matters Will Be Discussed at the Meeting.

The Department of Labor to-day authorized the following:

Secretary of Labor Wilson and Felix Frankfurter, chairman of the War Labor Policies Board, will be the speakers to-day at the opening session of a three-day conference of speakers of the Department of Labor. The conference will be held in the Department of Labor Building and is for the benefit of the men who are entrusted with explaining the Government's war labor policies to the wage earners of the country.

Plans to Be Rehearsed.

The work of the United States Employment Service, which, after August 1, will assume exclusive charge of the recruiting and supply of common labor for war industries, and other war labor policies of the Government will be discussed by the Labor Department officials charged with their planning and execution. Plans and programs will be rehearsed in detail in order that there may be perfect understanding between the executive heads of the department and the speakers.

Nathan A. Smyth, chief of the Common Labor Section of the United States Employment Service, will address the conference Thursday morning, explaining the steps which have been taken to put the Federal agency in shape to handle its task of exclusive supply of unskilled labor to all war plants. Other speakers Thursday will be Anthony Caminetti, Commissioner General of Immigration, and Hugh Kerwin, director of labor adjustment of the Department of Labor. Samuel Gompers, president of the American Federation of Labor, will address the Friday meeting.

Representatives Present.

The following traveling representatives of the Department of Labor will be among those present at the conference:

James L. Rodier, Atlanta, Ga.; James H. Dahm, Brooklyn, N. Y.; C. W. Woodman, Fort Worth, Tex.; Charles P. Howard, Portland, Oreg.; Thomas J. Williams, Washington, D. C.; Thomas Barker, Los Angeles, Cal.; Joseph Lord, Peoria, Ill.; James C. Stenlan, Meriden, Conn.; John B. Smith, Kansas City, Mo.; Charles H. Govan, New York City; Jerome Jones, Atlanta, Ga.; James T. Barrett, Ashville, N. C.; William H. Urmer, San Francisco, Cal.; Joseph Poggiani, Indianapolis, Ind.

WAR TRADE BOARD ANNOUNCES NEW PARTIAL SHIPMENT RULES

The War Trade Board issues the following:

The War Trade Board, in a new ruling (W. T. B. R. 162), directs the attention of shippers to the fact that the new procedure covering partial shipments on export licenses, as announced in the Rules and Regulations of the War Trade Board No. 2, May, 1918, will be operative on and after July 10, 1918. This procedure was first announced as being effective June 1, but this date has been changed to July 10, as noted above.

Heretofore partial shipments from interior points or at ports of exit where the license itself could not be readily presented, have been made by means of a special partial shipment certificate sworn to before a notary public or a certificate of transfer drawn by a collector of customs. The use of these forms, EAB–23 and WTB–176, will be discontinued, and on and after July 10 partial shipments against export licenses may be made in the following manner, except in instances when the license itself can be presented at the port of exit:

Method of Procedure.

The shipper will prepare a shipper's export declaration in quadruplicate and will indorse upon the back of the license in the space provided for the purpose the full details of the partial shipment he desires to make. He will then present the declaration (four copies) and the license (with the partial shipment indorsement on the back) to any postmaster of the first or second class or to a collector of customs. The postmaster or collector to whom the papers are presented will compare them and if they agree in fact that official will countersign and date the partial shipment indorsement on the back of the license and will stamp all four copies of the shipper's export declaration with an official partial shipment stamp and sign and place his seal on such stamp. He will then return the license and all four copies of the declaration to the shipper. The collector of customs at port of exit will allow the partial shipment to proceed upon presentation of the declaration so stamped, signed, and sealed.

Information from Postmasters.

Shippers located in cities where there are no collectors of customs, but where the post offices are of the first or second class, may communicate with their postmaster and ascertain at which post-office station, if more than one, and at which window this service will be rendered. The attention of shippers is called to the fact that postmasters in cities wherein are located collectors of customs will not exercise this authority. Shippers in such cities may apply to a collector of customs.

ALASKA FOOD ADMINISTRATOR.

Philip R. Bradley, of Treadwell, Alaska, has been appointed Federal Food Administrator for Alaska to succeed Judge R. A. Gunnison, who died recently. The appointment has been approved by President Wilson, and Mr. Bradley is ready to enter upon his new duties at once.

Additional List of American Prisoners and German Camps Where They Are Held

It has been ascertained by the War Department that the following soldiers of the American Expeditionary Forces are prisoners of war in Germany:

Name and camp.	Rank.	Emergency address.
ALTEN GRABOW.		
Thune, Edward	Private	Fred Thune, 938 Grape Street, Syracuse, N. Y.
CAMP STENDALL.		
Vellacott, Paul Cairn		Not identified.
CAMP LIMPURG.		
Daley, Frank	Private	Mrs. H. E. Daley, 66 Garfield Street, Hyde Park, Mass.
CAMP NOT KNOWN.		
Morton, James E	do	Mrs. Sara Coffery, 116 North Hughson Street, Hamilton, Ontario, Canada.
Pecerrilo, Louis	do	B. Pecerrilo, 15 Auburn Street, New Haven, Conn.
Gile, Harold H	First lieutenant	M. G. Gile, Colorado Springs, Colo.
Hyde, Frederick R	Cerporal	Mrs. E. M. Hyde, Chester, Vt.
Reese, Charles B	Private	William Reese, Spring Hill, Nova Scotia, Canada.
HELD IN LOWER AUSTRIA.		
Young, Clarence M	Lieutenant	John H. Hilmes, Mineral Springs Hotel, Alton, Ill.

CHEMICALS AND EXPLOSIVES DIVISIONS CREATED BY THE WAR INDUSTRIES BOARD

The War Industries Board authorizes the following:

The War Industries Board has created two new divisions—the chemicals division and the explosives division, formerly organized as the chemicals and explosives section in the group of commodity sections.

Charles H. MacDowell, formerly chief of the chemicals section, has been made director of the chemicals division and M. F. Chase, director of the explosives division.

The chemicals division is subdivided into the following sections to handle the various commodities with which it is concerned:

Acids and heavy chemicals.—Albert R. Brunker, chief; Russell S. Hubbard, associate; A. E. Wells, associate.

Artificial and vegetable dye.—Dr. J. F. Schoellkopf, jr., chief.

Alkali and chlorine.—H. G. Carrell, chief.

Asbestos.—(See chemical glass and stoneware section.)

Chemical glass and stoneware.—Robert M. Torrence, chief.

Coal gas products (benzol, toluol, etc., including commandeering and allocation of toluol).—J. M. Morehead, chief; Ira C. Darling, associate.

Rare gases (nitrogen and oxygen).———.

Creosote.—Ira C. Darling, chief.

Electrodes and abrasive.—Henry C. Du Bois, chief.

Ethyl alcohol (molasses and grain).—William G. Woolfolk, chief.

Ferroalloys (chrome, manganese, and tungsten ores).—Hugh W. Sanford, chief; C. D. Tripp, associate; J. H. McKenzie, associate.

Fine chemicals.—A. G. Rosengarten, chief.

Nitrates.—Charles H. MacDowell, chief; J. A. Becker, associate.

Paint and pigment.—Russell S. Hubbard, chief.

Platinum.—C. H. Conner, chief; R. H. Carleton, associate; G. E. De Nike, associate.

Refractories.—Charles Catlett, chief.

Sulphur and pyrites.—William G. Woolfolk, chief; A. E. Wells, associate.

Tanning material (including inedible oils, fats, and waxes).—E. J. Haley, chief; E. A. Prosser, Frank Whitney, and Harold G. Wood, associates.

Technical and consulting.—Dr. E. R. Weidlein, chief; Dr. Herbert E. Moody, Dr. Thomas P. McCutcheon.

Toluol.—(See coal gas products.)

Wood chemicals.—C. H. Conner, chief; A. H. Smith, R. D. Walker, and Frank Whitney, associates.

Statistics, chemical (joint office).—Capt. Willis B. Rice, Army; Lieut. M. R. Gordon, Army; Asst. Paymaster Raymond P. Dunning, Navy; Arthur Minnick, Chemicals Division.

A representative of the Army, the Navy, the Marine Corps, and other departments are assigned to each section and, with the Commodity Chief, constitute the sections' membership.

In the Explosives Division Mr. Chase coordinates with representatives of the Army, the Navy, and other departments concerned, and consults with the various section chiefs of the Chemicals Division.

Mr. Chase was a pioneer in the development of the contact process of manufacturing sulphuric acid, and is known to be one of the world's experts in acid construction. He planned the Avonmouth Smelter of the Swansea Vale Smelter Co. in England and was associated with Quinnan, formerly an American mining engineer now director of the explosives plants of England, in developing plans for acid units in connection with certain explosives plants. Since last December Mr. Chase has been director of the United States explosives plants with D. C. Jackling. He will give his entire time to directing the work of the Explosives Division.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Text of Telegrams Received by President In Commemoration of the Fourth of July

The Department of State makes public the following telegrams received by the President, and certain replies thereto, in commemoration of the Fourth of July:

TO THE PRESIDENT FROM THE PRESIDENT OF BRAZIL.

[Translation.]

RIO, *July 4, 1918.*

To HIS EXCELLENCY,
Mr. WOODROW WILSON,
President of the Republic,
Washington:

Brazil joins in the American people's rejoicing over the glorious date of their political emancipation which Your Excellency greatly enhanced by bringing the United States into this war to decide the destinies of the world. So strong and so suggestive is the expression of its military power exclusively devoted to the moral and political equipoise of the nations and so disinterested are the purposes of its intervention in Europe valuing right higher than peace that this is the day of all the free peoples, who, looking forward to the future in great confidence, pray to God for the happiness of the United States.

May Your Excellency be pleased to accept the enthusiastic congratulations of the Government and people of Brazil.

WENCESLAU BRAZ.

FROM THE PRESIDENT TO THE PRESIDENT OF BRAZIL.

THE WHITE HOUSE,
July 8, 1918.

HIS EXCELLENCY, WENCESLAU BRAZ,
President of Brazil:

Allow me to express my very warm and cordial thanks for your generous message of the Fourth of July. It is a subject of peculiar gratification to the people of the United States that the people of Brazil should have come to their sides in this great and final struggle for the rights of free peoples. They are happy that such additional bonds of friendship and common purpose should unite them with neighbors whom they so highly respect and so sincerely admire, and I am sure that I am speaking for them in assuring Your Excellency of their deep satisfaction at being accounted the close friends and associates of the Brazilian Republic.

WOODROW WILSON.

FROM THE PRESIDENT OF MEXICO TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

MEXICO, *July 4, 1918.*

The Most Excellent WOODROW WILSON,
President of the United States of America,
Washington.

I take great pleasure in sending to Your Excellency and to the American people on the occasion of the glorious anniversary celebrated on this day the most cordial felicitations of the Mexican people and Government. I am glad at the same time to express to Your Excellency my most sincere and fervent wishes for the prosperity of the United States and for the very early advent of the everlasting reign of peace and justice in both continents.

V. CARRANZA.

FROM PRESIDENT WILSON TO THE PRESIDENT OF MEXICO.

THE WHITE HOUSE, *July 8, 1918.*

His Excellency VENUSTIANO CARRANZA,
President of Mexico.

In response to your generous telegram of greeting and good will, may I not express to you the sincere friendship of the people and Government of the United States, their earnest desire that the bonds of association and mutual helpfulness between the two countries may be drawn closer and closer, and their confident hope that as the friendship of the two countries ripens their common championship of political freedom may become more and more effective.

WOODROW WILSON.

FROM THE PRESIDENT OF BOLIVIA TO PRESIDENT WILSON:

[Translation.]

LA PAZ, *July 4, 1918.*

THE MOST EXCELLENT MR. WOODROW WILSON,
President of the United States, Washington.

I have the honor to extend to Your Excellency my most cordial compliments on the occasion of your country's glorious anniversary. The Government over which I preside, expressing the sentiments of the Bolivian people, has desired to demonstrate its special sympathies with the great Nation over whose destinies Your Excellency so wisely presides.

Accept once more the wishes I make for the triumph of the cause so valorously upheld by the United States and its allies together with my earnest wishes for Your Excellency's personal happiness.

JOSE GUTIERREZ GUERRA,
President of Bolivia.

FROM PRESIDENT WILSON TO THE PRESIDENT OF BOLIVIA:

THE WHITE HOUSE,
July 8, 1918.

HIS EXCELLENCY JOSE G. GUERRA,
President of Bolivia, La Paz, Bolivia.

I thank Your Excellency and the Bolivian Government for your cordial felicitations on the anniversary of the independence of the United States of America and assure you that the sympathy expressed by those Governments friendly to the United States and their well wishes for the triumph of the great cause of humanity serves much to lighten the burden and heartens the will to achieve success. I extend my own best wishes for Your Excellency's future happiness and well being and a glorious future for Bolivia.

WOODROW WILSON.

TO THE PRESIDENT FROM THE PRESIDENT OF NICARAGUA.

[Translation.]

MANAGUA, *July 4, 1918.*

President WOODROW WILSON:

Nicaragua celebrates as a national holiday this happy anniversary of the day on which the virile patriots of the United States founded the great Nation which is now fighting to establish democracy throughout the world.

EMILIANO CHAMORRO,
President.

FROM THE PRESIDENT TO THE PRESIDENT OF NICARAGUA:

THE WHITE HOUSE, *July 8, 1918.*

HIS EXCELLENCY EMILIANO CHAMORRO,
President of Nicaragua, Managua.

I beg to express to Your Excellency in my own name and on behalf of my countrymen sincere appreciation of the action of your Government in recognizing Independence Day as a national holiday of Nicaragua, and to express the earnest hope that the goal of an early victory for world democracy will soon be reached.

WOODROW WILSON.

The President has also sent telegrams in acknowledgment of the following messages:

[Translation.]

PARIS, *July 4, 1918.*

THE PRESIDENT:

The Grand Orient of France, which counted among its members Franklin, Lafayette, Rochambeau, joins in the commemoration of American independence by sending its affectionate greetings to the great people who, under the guidance of their eminent President and inspired by high ideals of justice are fighting for the independence of the world.

CORNEAU, *President.*

DIJON, *July 6, 1918.*

PRESIDENT WILSON,
Washington:

Dijon, France, changed name of public square to Park President Wilson.

CHARLES DUMONT, *Mayor.*

LONDON, *July 4, 1918.*

THE PRESIDENT OF THE
UNITED STATES OF AMERICA,
Washington:

The Council of the Entente Peoples Alliance in conference with the representatives of Anglo-Foreign Societies in London send warmest fraternal greetings to their American brethren and respectfully ask you to accept their sincere thanks for the clear exposition of the allied aims which you have given on many occasions. Confident that the cause of right and justice will prevail they pray that the day may not be far distannt when the perpetrators of the outrages which brought the great Republic of the West into the conflict may receive the punishment which is their due and that the present carnage may result in the free nations being drawn together in such a manner as will render war impossible in the future.

W. GREY WILSON,
K. C. M. G. K. B. E, Chairman.
E. T. SCAMMELL,
JAMES E. CAVER,
Honorable Secretaries,
1 City Road, London, E. C.

PLYMOUTH, *July 4, 1918.*

THE PRESIDENT OF THE UNITED STATES,
Washington.

Historic Plymouth on the birthday of America's great Republic offers to her illustrious

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

SULPHUR CONTROL TAKEN OVER BY THE WAR INDUSTRIES BOARD

The War Industries Board authorizes the following:

The War Industries Board has passed a resolution, approved by the President, taking over control of the production and distribution of sulphur materials. This was made necessary by the increased demand from the Government for sulphur in the manufacture of explosives and for other purposes and by the increasing burdens on the rail and water systems in the transportation of materials.

William G. Woolfolk, chief of the section in charge of sulphur and pyrites, has been named to act for the War Industries Board in controlling the production and distribution of sulphur materials, availing himself of such voluntary assistance as he may see fit of individuals or committees representing the producers and consumers.

MESSAGE OF BRITISH LABOR.

President Wilson has received the following telegram:

LEICESTER, *July 4, 1918.*

WOODROW WILSON,
President United States,
Washington:

General Federation of Trade Unions in conference at Leicester offers sincere appreciation of American services to the cause of liberty in this world crisis. Labor welcomes America's intervention and has implicit faith in her determination to see that democracy shall not suffer defeat.

O'GRADY, *President.*
APPLETON, *Secretary.*

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 55.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 8, 1918.

Section A.—There have been no fresh developments at the points occupied by our troops.

Section B.—In the sector occupied by our troops in Picardy there was some brisk artillery fighting on the days of July 4 to July 5. Our own batteries shelled L'Alval wood with gas early in the night and the enemy retaliated by firing on our front lines from the Fontaine wood to Grivesnes and on some of our positions in the rear. The German artillery was particularly active between 10 o'clock in the evening and midnight, but it was noted that their fire slackened or ceased whenever our artillery started counter preparation. Most of the German shells fell on the north of our sector. The enemy's trench mortars frequently came into action just prior to the commencement of concentrated fire by his artillery. His machine guns delivered heavy bursts of fire in the morning on the right of our sector. His airplanes were not usually active except the dropping of bombs, a small number of which fell on our positions before daybreak. At two points in the German rear areas fire, smoke, and explosions indicated the destruction of German ammunition dumps.

In the Marne sector, which our troops are holding, the activity of the German aerial forces was the most significant feature of July 4 to July 5. There was a slight increase in the artillery fire, but it is still much less than ours and not of great volume. Most of the shells used were of small and medium caliber. The fire was for harassing and destructive purposes. About half of the machine-gun fire was directed against our planes. The enemy's air forces were entirely abnormal in their activity, some group flights being observed in which 8 and 10 planes participated. There was an increase in the movement of traffic in the rear areas. During the entire night white and green flares were seen. These and rockets were in larger numbers than usual. Two searchlights played intermittently from one part of the enemy's sector.

In this same sector conditions during the day of July 5 to July 6 were in all respects so normal as to offer nothing of interest.

In the Colmar sector on July 5 the activity of the German artillery showed some increase on portions of our front, but did not become notably heavy at any point. His airplanes also distributed their activity over the sector, dropping a few bombs at one point. More German patrols than usual were observed, one throwing a few grenades at our positions and another cutting some of our wires. During the night the German positions were lighted up to a greater extent than usual, mainly by a liberal use of red and white flares. All along our front our own patrols reconnoitered the hostile positions, but in spite of their number and activity encountered no enemy parties and drew no enemy fire.

In the Mulhouse sector on July 5 the German airplanes showed an activity which is unusual in this region. They circled constantly over their advanced positions and sometimes over ours. Our antiaircraft batteries and a number of allied planes drove them back on numerous occasions. The enemy's artillery fire was slight and widely distributed. Behind the German lines, in addition to the usual movements of pedestrians, horsemen, and vehicles, a considerable number of infantry in a body was observed on the march during the afternoon. A number of small balloons, probably containing propaganda, were sent up.

In Lorraine, from July 4 to July 5, nothing except the activities of our own patrols called for especial mention. Our patrolling parties did much valuable reconnaissance work in inspecting the enemy's defense positions and returned safely, although one of them came under the enemy's fire. Artillery fighting was very moderate, our own batteries showing much greater activity than those of the enemy. Our antiaircraft guns brought down a German plane in the region of La Chapelle. Both pilot and observer were killed. The German machine guns were somewhat more active than usual.

In a sector in the Vosges, recently occupied by our troops, conditions were normal on July 5. During the night preceding German troops made two small attacks, which were easily repulsed. The German artillery scattered its fire over the sector, using guns of small and occasionally of medium caliber. The ordinary number of German airplanes and balloons performed their customary duties. During the day red-message balloons were seen over the German lines and at night flares and rockets of the customary sort. Our own patrols performed their usual duties without incident.

ADDED DUTIES FOR MR. POWELL.

U. S. RAILROAD ADMINISTRATION,
OFFICE OF DIRECTOR GENERAL,
Washington, July 3, 1918.

CIRCULAR No. 40.

Effective this date, Mr. T. C. Powell will, in addition to his duties as manager of inland traffic, War Industries Board, act as special representative of the United States Railroad Administration with that board.

W. G. MCADOO,
Director General of Railroads.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

By a vote of seven to three the Committee on Interstate Commerce, after hearing President Newcomb Carlton, of the Western Union Telegraph Co., for upward of three hours yesterday afternoon, decided to close the hearings on the wire-control resolution and ordered a favorable report to the Senate on the resolution as it passed the House. Chairman Ellison D. Smith, of the committee, expected to report the resolution to-day. After the conclusion of Mr. Carlton's statement the committee voted down every effort to have the hearings continued. Members of the committee who voted to close the hearing and report the resolution favorably were: Chairman Smith, Myers, of Montana; Saulsbury, of Delaware; Thomas, of Kansas; Lewis, of Illinois; Underwood, of Alabama, Democrats; Poindexter, of Washington, Republican. Against reporting the resolution were Pomerene, of Ohio, and Gore, of Oklahoma, Democrats, and Kellogg, of Minnesota, Republican.

Food Production Bill.

Although the emergency agricultural bill appropriating $11,0000,000 to stimulate food production was under discussion yesterday afternoon the war prohibition amendment was not reached. It went over by common consent until the other provisions of the pending bill have been passed upon. Early in the discussion Senator Penrose made a point of order that the prohibition amendment is general legislation attached as a rider to an appropriation bill and therefore out of order. That point is yet to be passed upon by the presiding officer.

A resolution was adopted calling upon the Food Administration for information regarding the control of milk condenseries, including prices paid and received, and profits.

Maj. C. A. Rice, an American aviation officer, recently returned from France, was a witness before the aircraft subcommittee of the Military Committee yesterday. He was questioned particularly about the machines in use by the American Army in France. His testimony was largely technical and was continued to-day.

HOUSE.

The Ways and Means Committee received from the Treasury Department a long list of "luxuries" upon which it is recommended that heavy taxes be levied by the new war revenue bill. The taxes on most of the articles named would be collected on retail sales. In a statement accompanying the memorandum it is said: "Waste and extravagance is akin to treason. The retail sales tax distinctly labels the taxed article as a luxury and serves notice that the Government's ban is honest."

General debate began yesterday on the water-power bill. By a vote of 228 to 7 the House passed Senate bill granting pensions of $12 a month to widows of Spanish war veterans, with an allowance of $2 monthly for each child under 16 years of age. The House took its first three days recess, adjourning over until Friday.

The Judiciary Committee ordered a favorable report on Senate resolution revoking the charter of the German-American Alliance.

Representative Siegel, of New York, introduced a resolution providing for the observance of July 14, the French national holiday, as a public legal holiday.

LABOR DEPARTMENT CABINET HOLDS FIRST WEEKLY MEETING

The Secretary of Labor yesterday made the following statement:

"The first regular meeting of the departmental cabinet of the Department of Labor was held to-day.

"I have long had it in mind that a regular meeting of the division chiefs would be an excellent means of correlating the work of all. The appointment of the new division heads for the war activities of the department afforded a favorable opportunity to launch the undertaking.

"In the future these meetings will be held weekly. All the bureau and division heads will be represented. At the first meeting only administrative problems of the department were considered."

The following were present: W. B. Wilson, Secretary of Labor; Louis F. Post, Assistant Secretary of Labor; John W. Abercrombie, Soliciter; Felix Frankfurter, assistant of the Secretary and chairman of the War Labor Policies Board; Anthony Caminetti, Commissioner General of Immigration; Dr. Royal Meeker, Commissioner of Labor Statistics; Richard K. Campbell, Commissioner of Naturalization; Miss Julia C. Lathrop, Chief of the Children's Bureau; J. B. Densmore, Director General United States Employment Service; Roger W. Babson, Director Division of Education and Information; Hugh L. Kerwin, Director of Labor Adjustment; Dean Herman Schneider, Director Division of Training and Dilution; Ethelbert Stewart, Chief of the Investigation and Inspection Service; Grant Hamilton, Director of Conditions of Labor Service; Miss Mary Van Kleek, Director of Women in Industry Service; Otto M. Eidlitz, Director of Industrial Housing and Transportation; Charles T. Clayton, Director of Civilian Insignia; and S. J. Gompers, chief clerk, Department of Labor.

Red Cross Asks Women to Enroll for Nurses

The Red Cross issues the following address to the women of America:

Training and experience in modern nursing is one of the most valuable gifts you can make to your Nation.

All possessed of this skill must make it directly available either in military hospitals or in home defense nursing. When 32,000 nurses have been withdrawn for service in military hospitals, all of the remaining nursing resources must be mobilized.

Enroll in the Red Cross for assignment to the military forces or for community service, which is the second line of defense.

METHOD OF ACCOUNTING FOR BACK PAY DUE R. R. WORKERS

U. S. Railroad Administration,
Division of Public Service
and Accounting,
Washington, July 9, 1918.

P. S. & A. Circular No. 14.

The amounts due employees for back pay in accordance with General Order No. 27, issued by the Director General under date of May 25, or supplements thereto, for the five months ended May 31, 1918, shall be accounted for in the following manner:

The entire amount of such back pay shall, unless previously taken into the accounts, be included in the accounts for the month of June, 1918, and shall be distributed as follows:

First. There shall be determined the amount chargeable to additions and betterments, and the amount thereof shall be distributed to the appropriate accounts.

Second. There shall be determined the amounts collectible from individuals and companies (except for use of joint facilities by roads under Federal control) and deficiency bills shall be rendered therefor.

Third. The amount representing operating expenses shall be divided among appropriate operating expense subprimary accounts in detail by the use of one of the two following methods:

(a) By distributing the increases shown by the supplemental pay rolls for each month on the basis of the distribution of the original roll for the same month, including in each primary account the amount of the pay-roll increase properly applicable thereto.

(b) By aggregating the operating expense pay-roll charges for the five months ended May 31, 1918, separately by general accounts, and apportioning the wage increases applicable to each general expense account among the appropriate primary accounts for that period on the basis of the distribution determined by the five months' pay-roll compilation.

If deficiency bills for increased pay rendered to individuals and companies can not be collected, the amount thereof shall be charged to an account styled "Back-pay bills due from individuals and companies uncollectible," and the balance therein shall be charged to the income from Federal operations.

In the event that it is not practical to determine the actual figures for inclusion in the accounts for the month of June, 1918, an estimate of the amount chargeable to the various operating expense accounts shall be made and included in the accounts and in the statement of operating expenses for that month. Subsequently, when the actual amounts are determined, adjustment shall be made to the correct figures in the accounts of the month in which the actual figures are determined.

Class I carriers, in rendering the monthly income account statement for June, 1918, shall attach thereto a statement showing the amount of back pay for the months of January to May, 1918, inclusive, included in each of the general operating accounts enumerated on the monthly income account statement.

C. A. Prouty,
Director.

Text of Telegrams Received by President

(Continued from page 3.)

President proud greeting, and rejoices in the present alliance for the world's freedom.

JOSEPH PEARCE BROWN,
Mayor of Plymouth.

STOKE-ON TRENT, *July 4, 1918.*

THE PRESIDENT UNITED STATES OF AMERICA,
Washington.

The corporation and citizens of Stoke-on-Trent beg to offer their sincerest congratulations on the anniversary of the independence of the United States of America and to express their intense satisfaction that in the cause of liberty the States of America stand shoulder to shoulder with this country and its allies on the battlefields of France and Italy. They also profoundly hope that the present happy relations between the two countries may endure for all time.

ROBINSON, *Mayor.*

SCARBOROUGH, *July 4, 1918.*

PRESIDENT WILSON,
White House, Washington, America.

Scarborough sends hearty greetings to America. May close union between the two nations endure for all time and make for peace and prosperity.

GRAHAM,
Mayor Scarborough.

OLDHAM, *July 4, 1918.*

PRESIDENT WILSON,
White House, Washington.

Oldham sends best wishes to American allies on Independence Day and congratulations on speed and success of American forces.

WILLIAM BUCKLEY,
Mayor Oldham.

BATH, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

City of Bath, England, having honor entertaining American troops to-day, sends warmest greetings great American Republic.

KING, *Mayor.*

NOTTINGHAM, *July 4, 1918.*

THE PRESIDENT,
Washington.

On behalf of the City of Nottingham, I desire to express our most cordial sentiments on the anniversary of Independence Day and our gratification at your great efforts in the cause of freedom.

SMALL, *Mayor of Nottingham.*

BOLTON, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

Stars and Stripes now flying on Town Hall, emblematic of union of Britain and America with our Allies in fight for world's freedom.

KNOWLES EDGE, *Mayor, Bolton, England.*

NEWPORT, *July 4, 1918.*

PRESIDENT, U. S. A.,
Washington.

The mayor and citizens of Newport, Monmouthshire, assembled on Liberty Day in service of thanksgiving and prayer to Almighty God, send greetings of friendship and good will to the great American Nation and its President.

DUNDEE, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

On behalf of the citizens of Dundee, who have had a long and close connection with America, I beg to tender heartiest congratulation on this day and the whole-hearted support given by the United States to the allies in vindication of freedom and liberty.

LORD PROVOST DUNDEE.

STOCKPORT, *July 4, 1918.*

PRESIDENT UNITED STATES,
Washington.

People of Stockport send hearty congratulations upon one hundred and forty-second anniversary Declaration of Independence and sincere appreciation of friendship between United States and this country.

ROWBOTHAM, *Mayor.*

OSWESTRY, *July 4, 1918.*

PRESIDENT UNITED STATES.

Greetings from burgesses of Oswestry with confident hopes of speedy victory.

BARLOW, *Mayor.*

YORK, *July 4, 1918.*

PRESIDENT UNITED STATES,
Washington.

Old York sends most hearty greetings.

FORSTER TODD,
Lord Mayor.

BOOTLE, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

Congratulations and good will from Bootle, Lancashire.

MAYOR.

LLANDUDNO, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

Llandudno inhabitants offer President and citizens of United States cordial greetings upon the anniversary of their independence.

SMITH,
Chairman Llandudno Council, Wales.

LONDON, *July 4, 1918.*

The PRESIDENT OF THE UNITED STATES,
Washington.

The corporation of Lloyds, London, in conclave assembled, desire to convey to the President of the United States of America their intense satisfaction that the two great English-speaking races of the world are at the present time fighting side by side in the cause of justice and freedom.

CHARLES IDE ROUGEMONT,
Chairman of Lloyds.

LONDON, *July 4, 1918.*

PRESIDENT WILSON,
Washington.

Hail Columbia. Godspeed from two British deaf-mutes.

DAVES AND SHOTTON,
Overseas Club, London.

LONDON, *July 4, 1918.*

The PRESIDENT OF THE UNITED STATES,
Washington:

The members of the London Commercial Sale Rooms greet their American brothers.

CHAIRMAN.

LONDON, *July 4, 1918.*

The PRESIDENT OF THE
UNITED STATES OF AMERICA,
Washington:

Members Baltic Mercantile and Shipping Exchange assembled here to-day send heartiest greetings and express their cordial feelings to your great Nation on this auspicious day.

GARRARD, *Chairman.*

LONDON, *July 4, 1918.*

PRESIDENT UNITED STATES,
Washington:

The members of British Navy League throughout Empire send you cordial greetings on great anniversary and express profound appreciation of magnificent work of United States Navy.

DUKE OF BUCCLEUCH,
President.

LONDON, *July 4, 1918.*

PRESIDENT WILSON,
Washington:

Officers, committee, and members Eccentric Club send hearty greetings and congratulations on America's day.

HARRISON,
Honorary Secretary.

LONDON, *July 4, 1918.*

PRESIDENT WILSON,
Washington:

Representatives of the London Drug, Chemical, and Allied Trades meeting to-day at the Royal Exchange send hearty congratulation on celebration of Independence Day and pray that the magnificent efforts of yourself and people in support of our allied cause for freedom may soon be crowned with victory and a permanent peace.

J. W. DRYSDALE, *Bilgate, London.*

LONDON, *July 4, 1918.*

THE PRESIDENT OF THE UNITED STATES,
Washington:

The Committee of Lloyds Register of Shipping in general meeting assembled desire on this memorable anniversary of Independence Day respectfully to offer to you their heartiest greetings and the expression of their intense admiration of the skill, courage, and energy which have been displayed by American shipbuilding in the magnificent launching performance which under your inspiring leadership they have achieved to-day and by which all the nations of the world are profoundly moved as an earnest of the determination of the American people to use to the utmost their vast resources in putting an end once for all to military domination and thus secure a lasting peace to the world.

THOMAS L. DEVITT, *Chairman.*

Receiving Bids on Houses at Charleston, W. Va.

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation of the Department of Labor is receiving bids for the construction of some 85 houses in Charleston, W. Va. It is expected that the bids will be opened and an award made before the close of the current week. This is one of the first projects under the general housing program being handled by the department to be gotten under way.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in Action.

Pvt. Adrian J. Michels. Elsie Michels, mother, 639 Jackson Street, Milwaukee, Wis.

Pvt. William J. Walker. Maggie Dewart, aunt, 3608 South Marshfield Avenue, Chicago, Ill.

Died of Wounds.

Gunnery Sergt. Alcide N. St. John. Elias St. John, father, Chicopee Falls, Mass.

Pvt. Donald M. Blankenship. W. L. Blankenship, father, R. F. D. No. 2, Rome, Ga.

Previously Reported Killed in Action, Now Reported Present for Duty.

Pvt. Ivan C. Walker. Charles H. Walker, father, Rockford, Ill.

Previously Reported Killed in Action, Now Reported Seriously Wounded.

Pvt. George E. Michael. Rebecca Michael, mother, Dalmatia, Pa.

NEW WHEAT PRICES ANNOUNCED BY CEREAL DIVISION AT NEW YORK

The Cereal Division of the Food Administration, formerly the United States Grain Corporation, from its headquarters in New York has announced new wheat prices, necessitated by advanced railroad freight rates, as follows:

No. 1 wheat of the northern spring, hard winter, red winter, Durum, and red white grades will be sold in the various markets at the following basic prices:

New York, $2.39½; Philadelphia, $2.39; Baltimore and Newport News, $2.38¾; Duluth, $2.22½; Minneapolis, $2.21½; Chicago, $2.26; St. Louis, $2.24; Kansas City and Omaha, $2.18; New Orleans and Galveston, $2.28; Tacoma, Seattle, Portland, Oreg., Astoria, San Francisco, and Los Angeles, $2.20.

The price basis for No. 2 wheat will be 3 cents below No. 1, and for No. 3, 4 cents below No. 2. Grades below No. 3 will be dealt in on sample.

Special classes of wheat will be sold on the following schedule: Dark hard winter, 2 cents above hard winter; dark northern spring, 2 cents above northern spring; amber Durum, 2 cents above Durum; yellow hard winter, 2 cents under hard winter; red spring, 5 cents under northern spring; red Walla, 7 cents under red winter; red Durum, 7 cents under Durum; soft white, 2 cents under hard white; white club, 4 cents under hard white.

School for Oxyacetylene Welders in Operation

The School for Oxyacetylene Welders at Washington Barracks has now been in operation about two months and is prepared in the regular course of instruction to make all kinds of reasonable sized welding repairs for the various Government departments. About 75 men are receiving instruction at this school, each course lasting one month. The men are taught all kinds of commercial welding and cutting—including the welding of steel, cast iron, brass, copper, aluminum, and monel metal—and lead burning.

Any department wishing repairs made should communicate with the Director of Trade Schools, Washington Barracks, D. C.

$4,176,516,850 the Total of Third Liberty Loan, the Final Figures Show

Secretary McAdoo has made public the final figures of subscriptions to the third Liberty loan by Federal reserve districts as follows:

Boston	$354,537,250
New York	1,115,243,650
Philadelphia	361,963,500
Cleveland	405,051,150
Richmond	186,259,050
Atlanta	137,649,450
Chicago	608,878,600
St. Louis	199,835,900
Minneapolis	180,892,100
Kansas City	204,092,800
Dallas	116,220,650
San Francisco	287,975,000
Treasury	17,917,750
Total	4,176,516,850

In announcing on May 18 that the total subscriptions received and allotted for bonds of the third Liberty loan were $4,170,019,650, the Secretary stated that the figures were subject to modification upon the receipt of final audited returns from the several districts.

Above includes Army subscriptions subject to change.

Every American Heart Thrilled by Valor of U. S. Soldiers, McAdoo Cables Pershing

Secretary McAdoo has sent the following cablegram to General Pershing:

"Absence from Washington has prevented earlier acknowledgment of your highly appreciated cable concerning insurance and family allowances granted by the Government to our soldiers and sailors and their families.

"I rejoice with you and our heroic men on this just and humane provision the generous American people have made for them and I am proud to have the Treasury Department administer this great law. Please congratulate the men of your gallant force for me on the wisdom they have shown in taking the benefits of the insurance law, and congratulate them particularly for me on the glorious work they are doing on the desecrated soil of noble France for suffering humanity and world freedom. Every American heart is thrilled by the valor and achievements of our splendid sons."

More Than Three and a Half Billions Collected in Internal Revenue Taxes, Including Income and Excess Profits

Wall Street District, New York, Leads with Payment of $457,000,000, with Pittsburgh Second—Success Attributed by Commissioner Roper to "Patriotism and Cooperation of the People in Promptly and Cheerfully Meeting War Burdens."

The Bureau of Internal Revenue authorizes the following:

Figures made public by the Bureau of Internal Revenue to-day show that the second district of New York, in which is located the Wall Street section, led the country in the collection of taxes for the fiscal year 1918. The total was $457,058,250.19, of which $414,608,907.24 was in income and excess-profit taxes and $42,449,342.95 in miscellaneous taxes.

The district producing the second largest amount of taxes was the twenty-third Pennsylvania, in which is located the city of Pittsburgh. The total was $332,159,701.43, of which $292,576,362.29 was in income and excess-profit taxes and $39,583,339.14 in miscellaneous taxes.

Total Over Three and a Half Billions.

Collections in the 64 collection districts in the United States, Hawaii, and the Philippines for the fiscal year 1918 amounted to $3,671,918,236.91. For the fiscal year 1917 they amounted to $809,393,640.44.

In 10 collection districts the miscellaneous taxes, in which is included the revenue from distilled spirits and tobacco, exceeded the income and excess-profit taxes.

These included the following:

Fifth Illinois.—Income and excess-profit taxes, $5,734,263.18; miscellaneous, $23,179,720.16.

Second Kentucky.—Income and excess profits, $1,981,606.95; miscellaneous, $9,725,991.09.

Fifth Kentucky.—Income and excess profits, $10,488,025.25; miscellaneous, $42,705,929.32.

Sixth Kentucky.—Income and excess profits, $3,340,394.94; miscellaneous, $8,123,056.84.

Seventh Kentucky.—Income and excess profits, $2,811,429.67; miscellaneous, $11,554,772.46.

Eighth Kentucky.—Income and excess profits, $2,250,482.72; miscellaneous, $5,713,968.20.

Seventh Indiana.—Income and excess profits, $7,448,767.56; miscellaneous, $14,136,386.96.

Fourth North Carolina.—Income and excess profits, $6,882,041.08; miscellaneous, $12,895,622.31.

Fifth North Carolina.—Income and excess profits, $13,369,662.96; miscellaneous, $36,529,177.97.

Second Virginia.—Income and excess profits, $10,195,698.49; miscellaneous, $13,061,238.66.

Aided by Patriotism of Citizens.

The success attained by the Bureau of Internal Revenue in collecting in one year more than three and a half billion dollars is attributed by Commissioner Daniel C. Roper to the patriotism and cooperation of the American people in promptly and cheerfully meeting the war burdens imposed by Congress.

"The way in which taxpayers generally have assisted and cooperated is an incentive and inspiration to every official and employee of the bureau in the administration of the new war revenue bill," said Commissioner Roper. "In the campaign to round up delinquents as well as those who intentionally filed defective returns, the further assistance of all honest taxpayers is requested."

Credit is given by Commissioner Roper to the personnel and to the legal and tax advisors who have given their services to the Government.

The estimate of collections made to Congress a year ago by J. S. McCoy, actuary of the Treasury, and verified by the returns, is evidence, he said, that he is one of the greatest fiscal statisticians in the country. Mr. McCoy's estimate was that the yield would be $3,400,000,000.

Collections by Districts.

An indication of the distributed wealth of the country is shown by the collections by districts which follows:

District.	Income and excess profit tax.	Miscellaneous taxes.	Aggregate collections.
Alabama	$23,174,956.22	$1,294,096.79	$24,469,053.01
Arkansas	5,731,393.25	581,212.77	6,312,611.02
First California	59,482,172.24	26,670,847.44	86,153,019.68
Sixth California	17,798,130.01	6,890,500.72	24,688,630.73
Colorado	25,875,792.26	2,819,330.73	28,695,122.99
Connecticut	78,709,097.01	16,261,084.23	94,970,181.24
Florida	4,639,717.09	3,225,322.13	7,865,539.22
Georgia	16,230,449.09	2,785,250.96	19,015,700.05
Hawaii	8,961,868.17	724,972.47	9,686,840.94
First Illinois	251,576,061.33	52,798,869.00	304,374,930.33
Fifth Illinois	5,734,263.18	23,179,720.16	28,913,983.34
Eighth Illinois	10,097,658.98	8,596,960.82	18,694,619.80
Thirteenth Illinois	8,760,609.59	2,172,315.53	10,932,925.12
Sixth Indiana	21,576,842.13	14,418,379.48	35,995,221.61
Seventh Indiana	7,448,767.56	14,136,386.96	21,585,154.52
Third Iowa	14,634,525.85	2,488,652.14	17,123,177.99
Kansas	26,125,166.10	3,163,671.79	29,288,837.89
Second Kentucky	1,981,606.95	9,725,991.09	11,707,598.04
Fifth Kentucky	10,488,025.25	42,705,929.32	53,193,954.57
Sixth Kentucky	3,340,394.94	8,123,056.84	11,463,451.78
Seventh Kentucky	2,811,429.67	11,554,772.46	14,366,202.13
Eighth Kentucky	2,250,482.72	5,713,968.20	7,964,450.92
Louisiana	21,807,341.85	13,359,076.04	35,166,417.89
Maryland	75,456,805.11	30,911,284.68	106,368,089.79
Third Massachusetts	166,598,752.86	25,215,545.13	191,814,297.99
First Michigan	58,610,263.93	26,691,252.49	85,301,516.42

Washington	17,701,482.10	1,725,564.70	19,427,046.80
West Virginia	45,717,645.16	2,463,534.73	48,181,179.89
First Wisconsin	31,434,390.72	16,105,775.38	47,540,166.10
Second Wisconsin	7,758,180.58	3,519,355.94	11,277,536.52
Philippine Islands, 10 months	Not taxed.	616,778.42	616,778.42
	2,821,340,801.51	850,577,435.40	3,671,918,236.91

The above figures are based on telegraphic reports from the collectors of internal revenue and the difference between the totals and the amounts in the daily Treasury statement represent items in transit to Washington.

Supplements to Railroad Order No. 27 Concerning Pullman Car Employees and Adding Long List of Short Lines

The United States Railroad Administration issues the following:

WASHINGTON, *July 3, 1918.*

SUPPLEMENT No. 2 TO GENERAL ORDER No. 27.

The terms and conditions of the above order will apply to the Pullman Co. operating department, except that on account of the peculiar character of the employment of conductors, porters, and maids, in that provision is made for rest and sleep while actually on duty, it is impracticable to apply a basic eight-hour day to such service. It is therefore ordered that with respect to conductors, porters, and maids, the increases shall be upon the basis shown in section A of article 2 relative to "monthly wages"; but article 3 relative to basic eight-hour day will not be applicable thereto.

W. G. McADOO,
Director General of Railroads.

SUPPLEMENT NO. 3 TO GENERAL ORDER NO. 27.

WASHINGTON, *July 3, 1918.*

The following railroads are hereby added to, and made a part of, Article I, of General Order No. 27:

A.

Abilene & Southern.
Ahnapee & Western Railway.
Akron & Barberton Belt R. R.
Akron, Union Passenger Depot Co.
Albany Railroad Bridge Company.
Allegheny Terminal Co.
Allentown Terminal Railroad.
Alton & Southern Railway.
Arkansas Central Railroad Company.
Arkansas & Memphis Railway Bridge & Terminal Co.
Arkansas Western Railway Co.
Arrowrock Branch.
Asheville & Craggy Mountain Railway.
Asheville & Southern Railway.
Ashland Coal and Iron Railway.
Atchison & Eastern Bridge Company.
Atchison Union Depot & Railroad Co.
Atlantic & Yadkin Railway.

B.

Baltimore & Ohio Chicago Terminal R. R.
Baltimore & Sparrows Point R. R.
Barrington Canal Bridge Company.
Barry & Chelsea Railroad.
Bath & Hammondsport Railroad.
Battle Creek & Sturgis Railroad.
Bay City Belt Line Railroad.
Bay City Terminal Company.
Beaumont & Great Northern R. R.
Beaumont, Sour Lake & Western.
Beaumont Wharf & Terminal Company.
Bellingham & Northern Railway.
Belt Railway of Chicago.
Bethel Granite Railway.
Big Sandy & Cumberland Railway.
Blue Ridge R. R.
Boonville, St. Louis & Southern Railway.
Boston Terminal Company.
Bowling Green Railroad.
Brazos, Texas & Gulf Southern Railway.
Brewster & Perry Bridge Terminal Railroad.
Brownwood North & South Railway Company.
Buffalo Creek Railroad.
Buffalo Union Terminal Railroad.
Butte, Anaconda & Pacific Railway Company.

C.

Cairo & Thebes Railroad.
Calumet Western Railway.
Canton & Akron Railroad.
Canton Bridge Company.
Cape Girardeau Railroad.
Carolina & Northwestern Ry.
Carolina & Tennessee Southern Railway.
Catawba Valley Railroad.
Central Indiana.
Central Terminal Railway.
Central Union Depot of Cincinnati, Ohio.
Cherry Tree & Dixonville Railroad.
Chesapeake & Ohio Northern Railway.
Chesapeake & Ohio Railway of Indiana.
Chicago Heights Terminal Transfer R. R.
Chicago Junction Railway.
Chicago, Kalamazoo & Saginaw Railroad (controlled by M. C. & N. Y. C. R. R.).
Chicago, Kalamazoo & Saginaw Railroad (operated by Grand Trunk R. R.).
Chicago & Kalamazoo Terminal Railway.
Chicago, Milwaukee & Gary Railroad.
Chicago River & Indiana.
Chicago Union Station Co.
Chicago & Western Indiana R. R.
Cincinnati, Burnside & Cumberland River Ry.
Cincinnati & Dayton R. R.
The Cincinnati Inter-Terminal R. R.
Cincinnati, Lebanon & Northern Ry.
Cincinnati, Saginaw & Mackinaw Railroad.
Coal River Railway.
Coeur D'Alene & Pend Oreille Railway.
Colorado Springs & Cripple Creek Dist. Ry.
Columbus, Findlay & Northern R. R.
Connecticut River Railroad.
Connecting Terminal Railroad.
Copper Range Railroad.
The Covington & Cincinnati Elevated R. R. & Transfer & Bridge Co.
Cumberland & Penna Railroad.
Cumberland Railway.

D.

Dallas Terminal Railway & Union Depot Co.
Danville & Western Ry.
Davenport, Rock Island & Northwestern Ry. Co.
Dayton & Union Railroad.
Dayton Union Ry.
Deep Creek Railroad.
Delta Southern Ry.
Denison & Pacific Suburban Railway Company.
Denver Union Terminal Railway.
Des Moines Union Railway.
Des Moines Western Railway.
Detroit, Bay City & Western Railway.
Detroit & Huron Railway.
Detroit Manufacturers Railroad.
Detroit River Tunnel Co.
Detroit Terminal Ry. & Transportation Co.
Detroit Terminal Railroad.
Detroit, Toledo & Milwaukee Railroad.
Direct Navigation Co.
Dover & Rockaway Railroad.
Duluth & Superior Bridge Co. R.
Duluth Terminal Railroad.
Duluth Union Depot & Transfer Company.
Dunleith & Dubuque Bridge Company.

E.

Easton & Western R. R.
E. St. Louis Belt Railroad.
E. St. Louis & Carondelet Railway.
E. St. Louis Connecting Railway.
E. St. Louis National Stock Yards Co.—E. St. Louis.
E. St. Louis & Suburban.
Edgewater Connecting Railway.
Edgewater Terminal Railroad.
Elk Horn & Beaver Valley Railway.
Englewood Connecting Railway.
Exeter Southern Railway.
Erie Terminals R. R. Co.
Escanaba & Lake Superior Railroad.
Evansville & Indianapolis R. R.

F.

Farmer's Grain & Shipping Co.'s Railroad.
Fort Dodge, Des Moines & Southern Railroad.
Fort Smith Suburban Railroad.
Fort Smith & Van Buren Railroad.
Fort Street Union Depot Co.
Fort Worth Belt Railroad.
Fort Worth Union Passenger Station Co.

G.

Gale Co. Valley Railroad.
Galveston, Houston & Henderson R. R.
Gauley & Meadow River Ry.
Gilmore & Pittsburg R. R.
Grand Canyon Railway Co.
Grand Rapids Terminal Company.
Grand Trunk Junction Railway.
Grand Trunk Milwaukee Car Ferry Co.
Granite City & Madison Belt Line R. R.
Grant's Point Terminal Railway.
Great Falls & Teton County Railway.
Great Northern Terminal Company.
Green Bay & Western Railroad.
Greenwich & Johnsonville R. R.

H.

Hamilton Belt Railway.
Hannibal Union Depot Co.
Harriman & Northeastern R. R.
Hartwell Railway.
Hawkinsville & Florida Southern Ry.
Helena Terminal.
Hibernia Mine Railroad.
High Pt. Randleman, Ahseboro & Southern R. R.
Houston Belt & Terminal Railway.
Houston & Brazos Valley Railway.
Houston & Shreveport Railroad.
Huntingdon & Broad Top Mountain R. R.

I.

Iberia & Vermillion Railroad.
Illinois Terminal Railroad.
Illinois Transfer R. R.
Indiana Harbor Belt R. R.
Indianapolis & Frankfort R. R.
Indianapolis Union Ry.
Interstate Car Transfer Co.
Interstate Railroad Co.
Iowa & St. Louis Railway.
Iowa Transfer Railway.
Island Creek R. R.

J.

Jay Street Terminal.
Joliet & Northern Indiana Railroad.
Joplin Union Depot Company.

K.

Kanawha Bridge & Terminal Co.
Kanawha & W. Virginia Ry.
Kankakee & Seneca R. R.
Kansas City, Clinton & Springfield Ry. Co.
Kansas City Connecting R. R.
Kansas City, Shreveport & Gulf Terminal Ry.
Kansas City Stock Yards Co.—Kansas City, Mo.
Kansas City Terminal Co.
Kansas Southwestern Ry. Co.
Keeneys Creek Railroad.
Kentucky & Indiana Terminal R. R.
Keokuk & Des Moines Railway.
Keokuk & Hamilton Bridge Co.
Keokuk Union Depot Company.
Kewaunee, Green Bay & Western R. R.
Kiowa, Hardtner & Pacific Railroad.

L.

Lackawanna & Montrose R. R.
Lake Charles & Northern R. R.
Lake Erie & Eastern R. R.
Lake Erie & Pittsburgh Ry.
Lake Superior & Ishpeming Ry.
Lake Superior Terminal Ry.
Lake Superior Terminal & Transfer Ry. Co.
Lansing Manufacturers Railroad.
Lansing Transit Company.
Lawrenceville Branch R. R.
Leavenworth Depot & R. R. Co.
Leavenworth Terminal Ry. & Bridge Co.
Lehigh & Susquehanna R. R.
Lewiston & Auburn Railroad.
Lima Belt Railway.
Litchfield & Madison Railway.
Little Kanawha R. R.
Little Rock Junction Railway.
Logan & Southern Ry.
Lorain, Ashland & Southern Railroad.
Lorain & W. Virginia Ry.
Louisiana Southern Ry.
Louisville Bridge Co.
Louisville & Jeffersonville Bridge Co.

M.

Mackinac Transportation Co.
Macon, Dublin & Savannah R. R.
Manistique & Lake Superior Railroad.
Marquette & Bessemer Dock & Nav. Co.
Maumee Connecting Railway.
Maywood & Sugar Creek Ry.
Memphis Union Station Co.
Michigan Air Line.
Milwaukee Terminal Ry.—Minneapolis Belt Line Co.
Minneapolis & Eastern Ry.
Minneapolis Western Railway.
Minnesota & International Ry.
Minnesota Northwestern Elec. Ry.
Minnesota Transfer Ry.
Mississippi Central R. R.
Missouri & Illinois Bridge & Belt R. R.
Missouri Pacific Corp. in Illinois.
Missouri Pacific Corp. in Nebraska.
Missouri Valley & Blair Ry. & Bridge Co.
Montana Eastern Ry.
Montpelier & Wells River R. R.
Moreno Southern Ry.
Morris Terminal Ry.
Muncie Belt Railway.

N.

Narragansett Pier Railroad.
Natchez & Louisiana Railway Transfer Co.
Natchez & Southern Railway.

List of the Purchasing Officers for Treasury Department, Panama Canal, and War Industries Board

Following is a list of the purchasing officers for the Treasury Department, the Panama Canal, and the War Industries Board:

Treasury Department.

All contracts for supplies, etc., for use in the Washington offices of the several bureaus and divisions of the Treasury Department are made through the chief clerk of the department, Mr. Paul F. Myers, except contracts of a particular nature, which are made by the following offices:

Bureau of Engraving and Printing.—Purchasing officer, the director, Mr. James L. Wilmeth, Fourteenth and D Streets SW.; contracts for various colors for inks; linseed oil; paper for postage stamps, disbursing officers' checks, and internal-revenue stamps; printing presses, motors, generators, and other machinery; steel plates; muslin and linenette; engravers' tools and supplies; designs for vignettes, etc.

Printing and Stationery Division.—Purchasing officer, the chief of the division, Mr. F. F. Weston, Treasury Building; contracts for emergency purchases of stationery supplies.

Public Moneys Division. — Purchasing officer, the chief of the division, Mr. H. P. Huddleson, Treasury Building; contracts for oak-grain jute board boxes.

Supervising Architect's Office. — Purchasing officer, the Acting Supervising Architect, Mr. James A. Wetmore; contracts for repair of buildings under control of Treasury Department in Washington and for construction of buildings specifically authorized.

Contracts for supplies, etc., for use in the field service are made by the following offices:

Customs Division.—Purchasing officer, the chief of the division, Mr. F. M. Halstead, Bond Building; contracts for fuel, laboratory supplies, general office supplies, except stationery, weighing scales and repairs, and miscellaneous articles used in the Customs Service.

Internal Revenue Bureau.—Purchasing officer, the Commissioner of Internal Revenue, Hon. Daniel C. Roper, Treasury Building; contracts for rental of buildings and for emergency purchases of office supplies.

Loans and Currency Division.—Purchasing officer, the chief of the division, Mr. William S. Broughton, Treasury Building; makes an annual contract for distinctive paper on which to print United States currency and securities.

Mint Bureau.—Purchasing officer, Hon. Raymond T. Baker, Treasury Building; contracts for laboratory supplies, chemicals, graphite goods, machinery, copper, zinc, nickel, silver, gas, and electricity, brass and iron castings, etc.

Printing and Stationery Division.—Purchasing officer, the chief of the division, Mr. F. F. Weston, Treasury Building; contracts for emergency purchases of stationery supplies.

Public Health Service.—Purchasing officer, the Surgeon General, Dr. Rupert Blue, Butler Building; contracts for laboratory, scientific, office, medical, hospital, and household supplies, foods, etc.

Public Moneys Division.—Purchasing officer, the chief of the division, Mr. H. P. Huddleson, Treasury Building; contracts for cloth coin bags.

Supervising Architect's Office. — Purchasing Officer, the Acting Supervising Architect, Mr. James A. Wetmore, Treasury Building, contracts for repair, operation, and maintenance of Federal buildings under control of Treasury Department and for construction of buildings specifically authorized.

The purchasing officer of the Federal Reserve Board is the secretary, Treasury Building, and the purchasing officer of the War Finance Corporation is the chief clerk, Mr. H. E. Dameron, Treasury Building.

The Panama Canal.

The Washington office is the headquarters for the Panama Canal in the United States and handles all purchasing, administrative, and appointment matters (not military) relating to the canal. Assistant purchasing offices are located in New York City, New Orleans, La., and San Francisco, Cal. The addresses follow:

Washington office: 1709 G Street NW. A. L. Flint, general purchasing officer and chief of office.

New York office: 24 State Street. R. E. Rutherford, assistant purchasing agent.

New Orleans office: 606 Common Street. A. S. Perry, assistant purchasing agent.

San Francisco office: Fort Mason, San Francisco, Cal. In charge of depot quartermaster, United States Army.

War Industries Board.

The only purchasing agent for the War Industries Board is Mr. M. D. Crowley, who purchases office supplies, furniture, etc.

Data Concerning Maine's Records as to Volunteers

Gov. Milliken, of Maine, has submitted the following data in reply to inquiries concerning the number of volunteers from Maine in the naval and military service and the strength of the National Guard of that State:

1. The only volunteers for Regular Army on record are those of draft ages.
2. The only volunteers for Navy on record are those of draft ages.
3. No record (Marine Corps volunteers) unless included in Navy record.
4. Maine National Guard, Apr. 1, 1917 [1] ---------- 1,968
   Recruits, Apr. 2–Aug. 5 ---------- 3,506
   Recruits Aug 6 to date ---------- [2] 43
   Total ---------- 5,427

[1] Called into U. S. service Apr. 13.
[2] Incomplete record.

Serve abroad or serve at home. Buy war-savings stamps.

PRESIDENT'S ORDER TRANSFERRING PERSONNEL AND RECORDS OF FEDERAL TRADE COMMISSION

Fuel Administration to Have All Files, Reports, Etc., Relating to Coal or Coke and Services of Certain Persons Employed in Relation Thereto—Order in Force During Period of War and Six Months Thereafter.

EXECUTIVE ORDER.

Whereas, in order to avoid duplication of effort and to promote unity and concentration of control in the administration of the provisions of section 25 of the act of Congress approved August 10, 1917, entitled "An act to provide further for the national security and defense by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," certain activities now being carried on by the Federal Trade Commission relating to the coal industry can, and ought to be carried on by the United States Fuel Administration.

Now, therefore, I, Woodrow Wilson, President of the United States of America, by virtue of the authority vested in me as Chief Executive and, by virtue of the powers conferred on me by the act of Congress, entitled, "An act authorizing the President to coordinate or consolidate executive bureaus, agencies and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government," approved May 20, 1918, do hereby order and direct:

1. That all records, files, reports, copies of contracts, correspondence, papers and proceedings on file or deposited with the Federal Trade Commission relating to coal or coke, and under and in compliance with the provisions of section 25 of said act approved August 10, 1917, or the orders, rules and regulations of the United States Fuel Administrator (excepting such as relate to costs of coal-mine operations and to general research into the coal industry) be transferred forthwith from the Federal Trade Commission to the United States Fuel Administration.

2. That that part of the personnel of the Federal Trade Commission engaged in such activities hereinabove described and now transferred is hereby detailed or assigned to the United States Fuel Administration.

3. That the books, correspondence, records, and papers in any way referring to transactions of any kind relating to the mining, production, sale, or distribution of coal or coke, and not hereby transferred, shall, at all times, be subject to inspection by the United States Fuel Administrator and by his duly authorized agents, examiners, employees, assistants, and subordinates, together constituting the governmental organization called the United States Fuel Administration.

4 That all persons, partnerships, and corporations engaged in the production or distribution of coal or coke shall promptly furnish, whenever called for, to the United States Fuel Administrator, or his duly authorized agents, examiners, employees, assistants, and subordinates, any data or information relating to the business of such persons, partnerships, or corporations engaged in the production or distribution of coal or coke.

5. That the said United States Fuel Administrator is hereby authorized to procure information in reference to the business of coal and coke producers and distributors in the manner provided for in sections 6 and 9 of the act of Congress approved September 26, 1914, entitled, "An act to create a Federal Trade Commission, to define its powers and duties, and for other purposes," and said United States Fuel Administration, acting through the United States Fuel Administrator, or his duly authorized agents, examiners, employees, assistants, and subordinates, is hereby authorized and empowered to exercise all the powers granted to the Federal Trade Commission by said act approved September 26, 1914, for the carrying out of the purposes of this order.

This order shall be, and remain, in full force and effect during the continuance of the present war and for six (6) months after the termination thereof by the proclamation of a treaty of peace or until amended, modified, or rescinded.

WOODROW WILSON.

FOOD CROP ACREAGE THIS YEAR 23,000,000 GREATER THAN 1916

The Department of Agriculture issues the following:

At Dubuque, Iowa, on June 20, in an address to the State Convention of Bankers, Hon. David F. Houston, Secretary of Agriculture, in reviewing the achievements of the farmers of the United States during the preceding year indicated the achievements of the current year. He explained that the farmers planted 23,000,000 acres more of the leading food crops than in 1916, and made largely increased yields of all except wheat, which suffered on account of unprecedented winter kill. At the same time they increased the number of horses, milch cows, and other cattle, sheep, and hogs. The indications at this time are that the farmers will do even better this year.

Calls Upon Business Men.

The Secretary called upon business men "to familiarize themselves with the agencies serving to aid the farmers and to promote wise plans to secure the necessary results," with special reference to the mobilization of men of farm experience in the towns and cities for harvest, and to the financing and marketing of the crops. He declared that the farmers and the agencies assisting them were prepared when we entered the war and had been for years, but that they are not spectacular performers. "They do not furnish sensations and headlines," he said. "They have no fixed labor day. They work in season and out of season—from early morning to dusk; but they do not work in the limelight."

Stimulus to Production.

Describing the operations of the Department of Agriculture, he said:

"It is stimulating production. It is increasingly controlling plant and animal diseases, reducing losses from the cattle tick, hog cholera, predatory animals, and cereal pests. In cooperation with the Department of Labor, it is rendering assistance to the farmers in securing labor. It has safeguarded seed stocks and secured and distributed good seeds to farmers for cash at the lowest possible cost; aided in transporting stock from drought-stricken regions; greatly assisted in the marketing of farm products, and, under enormous difficulties, has helped the farmers to secure a larger supply of fertilizers. It has also placed under license and control the ammonia industry, the fertilizer industry, the farm machinery manufacturers and distributers, and is now developing plans for the regulation of the stockyards."

RESULTS OF WAR SAVINGS STAMPS CAMPAIGN AT A PORT OF EMBARKATION HEADQUARTERS

EDITOR THE OFFICIAL BULLETIN:

A competitive sale of war thrift and war savings stamps, lasting from May 13 to June 15, in which all organizations attached to the headquarters of one of the ports of embarkation participated, has just closed. And, in view of the creditable record attained by the contestants through their untiring efforts to serve their country economically as well as heroically, total sales aggregating $46,868.21 from a personnel not exceeding 3,000 resulted.

Particular attention is directed to the 200 Army field clerks on duty at these headquarters, whose average purchase per capita was $101.55. The 310th Guard & Fire Co., composed of 122 enlisted men, whose purchase was $61.97 per capita, is a case equally deserving of special mention. Other organizations of enlisted men who were close to the top in the contest averaged per capita sales in the neighborhood of $36 to $41.

If you can spare these creditable showings space in THE OFFICIAL BULLETIN, I am inclined to believe it will be entirely worth while and serve as an inducement to other organizations to institute similar campaigns.

J. PERRY MOORE,
Captain, A. G. N. A.,
Asst. Adjutant.

Winners of Campaign.

HEADQUARTERS PORT OF EMBARKATION,
June 17, 1918.

Memorandum: For organization and detachment commanders on duty at these headquarters.

In reference to memorandum issued under date of May 13, 1918, announcing the competitive sale of war-thrift and war-savings stamps of the different organizations and detachments attached to headquarters, port of embarkation, stationed in ———, and at the various piers, the Army field clerks (on duty at these headquarters) are hereby announced the winners of this campaign, having to their credit the largest per capita purchases.

Each and every man having participated in this campaign has reason to be proud of the creditable record this port has attained through your untiring efforts to serve your country, economically as well as heroically.

The following is the final standing of the contestants:

Organization.	Strength of command.	Total sales.	Average amount per capita.
Army Field Clerks	200	$20,310.30	$101.55
310th Guard & Fire Co.	122	7,561.33	61.97
438th Depot Engineers	139	5,738.76	41.28
Ordnance Detachment	145	5,262.75	36.29
306th Guard & Fire Co.	144	903.23	6.22
363d Guard & Fire Co.	111	612.28	5.60
301st Guard & Fire Co.	134	680.61	5.08
305th Guard & Fire Co.	104	515.01	4.95
22d Service Co., Signal Corps	218	870.18	3.99
342d Fire, Truck & Hose Co	18	62.43	3.47
Hospital, Port of Embarkation	102	249.60	2.44
Detachment, Q. M. C., N. A	606	961.95	1.58
Detachment, Medical Department	151	148.63	.98
304th Guard & Fire Co.	142	74.60	.52
307th Guard & Fire Co.	138	13.16	.09
302d Guard & Fire Co	143	4.00	.02
Total		43,968.82	
Honorary Associates: Naval Communication Office	60	464.90	7.75
Grand total		$44,433.72	

It is the desire of the commanding general that the excellent showing made by the various organizations and detachments be further enhanced and that organization commanders continue to encourage the purchase of war thrift and war-savings stamps, both as a means of promoting thrift and financially aiding our country.

Stamps, as heretofore, can be purchased at these headquarters, Room 321, Pier 2.

J. PERRY MOORE,
Captain, A. G. N. A., Asst. Adjutant.

Additional Purchasers.

HEADQUARTERS
PORT OF EMBARKATION,
June 17, 1918.

MEMORANDUM.

In compliance with paragraph 10, memorandum under date May 13, 1918, these headquarters, the following-named officers and civilian employees, in addition to those heretofore mentioned, have purchased 32 or more war thrift stamps (25 cents each) or the equivalent thereof in war-savings stamps:

Capt. E. Martin Larson, Medical Reserve Corps	$667.20
First Lieut. Joseph R. McCrary, Medical Reserve Corps	562.40
Capt. Thos. McCrossin, 310th Guard and Fire Company	83.40
Capt. Hindman, Medical Reserve Corps	83.40
First Lieut. James Lynch, Medical Reserve Corps	83.40
Capt. Charles Wright, Medical Reserve Corps	71.98
Maj. Simon Strauss, Medical Reserve Corps	50.04
Maj. John T. Axton (chaplain)	25.02
Capt. O. H. Heffter, Medical Reserve Corps	41.16
Lieut. Louis W. Severy, 304th Guard and Fire Company	16.91
Capt. Geo. B. Bowers, 304th Guard and Fire Company	16.68

Capt. J. J. Wayland, National Army	8.34
Second Lieut. L. J. Mullin, Infantry Reserve Corps	8.34
Lieut. Arthur O'Neill, 304th Guard and Fire Company	8.34
Capt. W. T. King, Quartermaster Reserve Corps	8.00
Total	1,803.95
CIVILIAN EMPLOYEES.	
Manuel Periera, A. T. S	100.08
Miss R. Dimique	83.40
Miss Eleanor R. Cox	8.32
Grand total	1,995.75

Attention is invited to memorandum of even date citing purchases of organizations and detachments having participated in this campaign, aggregate total, including all sales, amount to $46,868.21.

J. PERRY MOORE,
Captain, A. G. N. A., Asst. Adjutant.

COMMISSION TO SWITZERLAND IS APPOINTED BY RED CROSS

The American Red Cross authorizes the following:

The American Red Cross has appointed a special commission to Switzerland, the personnel of which was to-day announced by Henry P. Davison, chairman of the war council. This step was taken because of the increased activities of the Red Cross in that country.

Charge of Relief Work.

The commission will have charge of the relief work of American prisoners of war and American civilian prisoners in the hands of the central powers, including the handling of communications between these prisoners and their relatives in this country. It will also be the duty of the commission to extend relief to the many citizens of the allied powers now living in destitute circumstances in Switzerland, to aid the Swiss in their efforts to relieve the suffering occasioned by the great war, and to take up any other activities of a similar nature, need for which may from time to time arise.

Joseph B. Dimmick, of Scranton, Pa., has been appointed chairman of the commission. Mr. Dimmick was at one time mayor of the city and was prominently identified there with works of a public character. He has in the past resided in Switzerland for a considerable period and is thoroughly familiar with the Swiss people.

Serve Without Pay.

He will be assisted by Carl P. Dennett, Boston; Atholl McBean, San Francisco, Cal.; Ralph S. Stewart, Boston, Mass.; and Dr. Alfred Worcester, Waltham, Mass., as deputies, all of whom will serve without pay.

The general organization of the commission at the Berne headquarters will include Elton G. Clark, Brookline; Prof. Henry Rushton Fairclough, Palo Alto, Cal.; Henry Reese Roberts, Walter G. Smith, Francis Hardy Duvere, Leon G. Levy, Harry Edwin Heath, Louis Detoy, Miss Florence Brown, Miss Annie Windsor, all of San Francisco.

EXECUTIVE ORDER.

Mrs. Laura E. Langley and Miss Elizabeth M. Bowling may be appointed to the positions of telephone operator in the Department of State without reference to civil-service rules and requirements.

Mrs. Langley and Miss Bowling have been employed temporarily upon the State Department switchboard for the periods of nine and five months, respectively.

They have thus acquired technical proficiency and necessary knowledge of the department and its personnel, and to replace them at this time with inexperienced operators would seriously effect the efficiency of the department telephone service.

WOODROW WILSON.

THE WHITE HOUSE,
June 12, 1918.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE ARMY QUARTERMASTER'S DEPARTMENT

The following contracts have been placed by the Quartermaster's Department:

HARDWARE AND METALS DIVISION—CONTRACTS.

June 22, 1918.

United States Steel Products Co., Wilkins Building, Washington, D. C., wire fencing.

PURCHASE ORDERS.

June 24, 1918.

United States Handle Export Co., Piqua, Ohio, [illegible].

New York Stamping Co., New York City, can covers.

P. Lowentraut Manufacturing Co., 113 Chambers Street, New York City, box hooks.

American Stove Co., St. Louis, Mo., bake ovens.

Salles Bros., Pocahontas, Ark., ax helves.

June 26, 1918.

Enterprise Manufacturing Co., Philadelphia, Pa., [illegible].

Davenport Manufacturing Co., Davenport, Iowa, paper baling presses.

Townsend Co., New Brighton, Pa., rivets.

Minnich Machine Works, Landisville, Pa., paper baling press.

Singer Sewing Machine Co., Singer Building, New York City, sewing machines.

American Oil & Disinfectant Co., 196 Water Street, New York City, crefenol.

A. Kramer (Inc.), 307 Kent Avenue, Brooklyn, N. Y., boilers.

Singer Sewing Machine Co., Singer Building, New York City, darning machines.

Westinghouse Electric & Manufacturing Co., Hibbs Building, Washington, D. C., electric irons.

June 27, 1918.

A. H. Leathers Handle Co., Dickson, Tenn., ax helves.

National Enameling & Stamping Co., Milwaukee, Wis., can covers.

Transit Sales Co., Marietta, Ohio, oil thief.

Transit Sales Co., Marietta, Ohio, oil thief.

John B. Black Co. (Inc.), Chester, Pa., broadaxes.

Richmond Foundry Manufacturing Co., Richmond, Va., grates.

Roberts Brass Manufacturing Co., hose bibbs.

Bradley Stencil Machine Co., St. Louis, Mo., [illegible].

Cleveland Metal Products Co., Cleveland, Ohio, oil heaters.

Richmond Foundry & Manufacturing Co., Richmond, Va., grates.

Barstow Stove Co., Providence, R. I., grates.

Detroit Stove Works, Detroit, Mich., grates.

Arcade Manufacturing Co., Freeport, Ill., [illegible].

American Stove Co., St. Louis, Mo., field bake [illegible].

Edwards Manufacturing Co., Cincinnati, Ohio, 4-inch elbows.

MOTOR TRANSPORT SERVICE.

Awards for parts for the new series model B 3-ton standard Army motor trucks have been made as follows:

June 21, 1918.

The Vichek Tool Co., Cleveland, Ohio, sets tool-bag equipment.

Fairmount Tool & Forging Co., Cleveland, Ohio, [illegible] equipment.

The Hinkley Motors Corporation, Detroit, Mich., motors.

June 27, 1918.

American Brass & Iron Works, Detroit, Mich., gasoline feed pipe shut-off cocks.

Duff Manufacturing Co., Pittsburgh, Pa., jacks.

Templeton Kenly Co., Chicago, Ill., jacks.

June 26, 1918.

Kales Stamping Co., Detroit, Mich., gasoline feed pipe [illegible].

The Hayes Manufacturing Co., Detroit, Mich., air cleaner assemblies, air cleaner clamp assemblies.

General Motors Co., Flint, Mich., transmission front hangers.

Sterling Motor Truck Co., Milwaukee, Wis., pedal pads.

Peters Machine Co., Cleveland, Ohio, universal joints.

June 24, 1918.

Perry-Fay Co., Elyria, Ohio, rear axle worm shaft thrust bearing cover stud, rear axle worm shaft thrust bearing retaining nut, rear axle worm shaft radial bearing lock nut, differential carrier to rear axle housing stud, rear axle worm shaft thrust bearing cover stud nut, rear axle worm shaft radial bearing cover screw, differential carrier to rear axle housing stud nut, rear axle worm shaft nut, rear axle worm shaft radial bearing spacer (narrow), rear axle worm shaft radial bearing spacer (wide), rear axle worm shaft thrust bearing retaining nut washer, rear axle worm shaft thrust bearing sleeve, rear axle worm shaft thrust bearing spacer.

Globe Machine & Stamping Co., Cleveland, Ohio, rear axle worm shaft oil thrower (front), rear axle worm shaft oil thrower (rear), rear axle worm shaft thrust bearing retainer nut lock, rear axle worm shaft radial bearing lock nut lock.

National Malleable Castings Co., Toledo, Ohio, malleable iron castings, No. 1909–Y, rear axle differential carrier; malleable iron castings, No. 1906–W, rear axle worm shaft radial bearing cover; malleable iron castings, No. 1911–V, rear axle worm shaft thrust bearing cover; metal pattern equipment for No. 1909–Y, rear axle differential carrier; aluminum vibrator plate pattern for No. 1911–V, rear axle worm shaft thrust bearing cover; aluminum vibrator plate pattern for No. 1906–W, rear axle worm shaft radial bearing cover.

Cleveland Worm Gear Co., Cleveland, Ohio, No. 1910–Y, axle worm shaft.

Lincoln Brass Works, Detroit, Mich., gasoline shutoff cocks.

United States Ball Bearing Manufacturing Co., Chicago, Ill., radial bearings complete with bronze retainer; special thrust bearings, complete with bronze retainer.

The Prudden Wheel Co., Lansing, Mich., sets wheels.

Breeze Manufacturing Co., Newark, N. J., pieces air cleaner to carbureter tube, with paper packing.

July 3, 1918.

Rear axle worm shaft radial bearing cover gaskets, Garlock Packing Co., Cleveland, Ohio.

Body seat assemblies, Hayes Mfg. Co., Detroit, Mich.

Body seat assemblies, C. R. Wilson Body Co., Detroit, Mich.

Air cleaner assemblies, Orem Motor Protector Co., Baltimore, Md.

SUBSISTENCE DIVISION.

June 27, 1918.

LARD SUBSTITUTE.

Morris & Co., Chicago, Ill., 36½-pound net weight square tins.

Swift & Co., Chicago, Ill., 33-pound net weight square tins.

Swift & Co., New York City, 33-pound net weight square tins.

Florida Cotton Oil Co., Chattanooga, Tenn.

Swift & Co., U. S. Yards, Chicago, Ill., 45-pound tins or tubes.

Capitol Refining Co., Washington, D. C.

Wilson & Co., Chicago, Ill.

Morris & Co., Chicago, Ill.

Southern Cotton Oil Co., New York City.

Armour & Co., Chicago, Ill.

Dixie Refining Co., Memphis, Tenn.

LARD SALES, NO. 5 PAILS.

North Packing Co., Boston, Mass.

Swift & Co., Chicago, Ill.

Kingan & Co., Indianapolis, Ind.

LARD ISSUE IN TUBS.

Swift & Co., Chicago, Ill.

Rath Packing Co., Waterloo, Iowa.

Jones & Lamb, Baltimore, Md.

North Packing Co., Boston, Mass.

Morris & Co., Chicago, Ill.

Kingan & Co., Indianapolis, Ind.

LARD ISSUE, NO. 5 PAILS.

Swift & Co., Chicago, Ill.

North Packing Co., Boston, Mass.

Morris & Co., Chicago, Ill.

LARD SUBSTITUTE, NO. 5 PAILS.

Swift & Co., Chicago, Ill.

COOKING OIL.

Swift & Co., Chicago, Ill.

Armour & Co., Chicago, Ill.

MILK—EVAPORATED.

Allotments from June 17 to June 22, none.

SUGAR.

Pennsylvania Sugar Co., Philadelphia, Pa.

Union Sugar Co., San Francisco, Cal.

Spreckles Sugar Co., San Francisco, Cal.

American Sugar Refining Co., New York City, 3½ bags.

Great Western Sugar Co., Denver, Colo.

Pennsylvania Sugar Co., Philadelphia.

FLOUR.

Pillsbury Flour Mills, Minneapolis, Minn.

June 29, 1918.

MILK—EVAPORATED.

Oatman Condensed Milk Co., Dundee, Ill.

Helvetia Milk Condensing Co., Highland, Ill.

Oatman Condensed Milk Co., Dundee, Ill.

Waterloo Creamery Co., Omaha, Nebr.

Waterloo Creamery Co., Omaha, Nebr.

Carnation Milk Products Co., Chicago, Ill.

Carnation Milk Products Co., Chicago, Ill.

Van Camp Products Co., Indianapolis, Ind.

SUGAR—GRANULATED.

Revere Sugar Refinery, Boston, Mass.

American Sugar Refining Co., New Orleans, La.

American Sugar Refining Co., New York, N. Y.

Warner Sugar Refining Co., New York, N. Y.

Arbuckle Bros., New York, N. Y.

American Sugar Refining Co., New Orleans, La.

Spreckles Sugar Co., San Francisco, Cal.

B. H. Howell Son & Co., New York, N. Y.

American Sugar Refining Co., New York, N. Y.

American Sugar Refining Co., New York, N. Y.

Federal Sugar Refining Co., New York, N. Y.

Arbuckle Bros., New York, N. Y.

B. H. Howell Son & Co., New York, N. Y.

Warner Sugar Refining Co., New York, N. Y.

FLOUR.

Sperry Flour Co., Tacoma, Wash.

Kaw Mfg. Co., Topeka, Kans.

Kaw Mfg. Co., Topeka, Kans.

Hecker-Jones-Jewell Mfg. Co., New York, N. Y.

REPLY COUPONS TO CHINA.

OFFICE OF THIRD ASSISTANT POSTMASTER GENERAL,
Washington, June 21, 1918.

Postmasters are notified that the administration of China has arranged to participate in the exchange of international reply coupons, effective July 1, 1918 (see sections 131, 334, and 345, P. L. and R., and 1917 Postal Guide, pp. 33, 105).

The Chinese administration is not willing to exchange reply coupons which do not bear the date stamp of the issuing office, and will not accept in final settlement as valid coupons which do not bear the imprint of the date stamp of the Chinese office of issue.

A. M. DOCKERY,
Third Assistant Postmaster General.

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

June 26, 1918.

No. 39319. Carborundum Co., Niagara Falls, N. Y., abrasive wheels.
No. 39320. B. F. Sturtevant & Co., Hyde Park, Mass., draft blower.
No. 39321. Cambria Coke Co., Camden, N. J., stove coke.
No. 39322. Porteimon Coal & Coke Co., Brooklyn, N. Y., coke, grade No. 3.
No. 39323. The Whitman & Barnes Co., Chicago, Ill., drop forgings.
No. 39324. Benton Harbor Wall Co., Benton Harbor, Mich., forgings.
No. 39325. Hubbard & Co., Pittsburgh, Pa., drop forgings.
No. 39326. Urschel Drop Forging Co., Bowling Green, Ohio, drop forgings.
No. 39327. Michigan Bolt & Nut Works, Detroit, Mich., drop forgings.
No. 39328. Alvord Reamer & Tool Co., Millersburg, Pa., drop forgings.
No. 39329. Endicott Forging & Manufacturing Co., Endicott, N. Y., drop forgings.
No. 39330. Aumen Machinery Co., Baltimore, Md., drilling machines.
No. 39331. Pratt & Whitney Co., Hartford, Conn., engine lathe.
No. 39332. General Electric Co., Schenectady, N. Y., ventilating sets.
No. 39333. National Acme Co., Cleveland, Ohio, automatic locker.
No. 39334. International Boiler Works, Stroudsburg, Pa., boiler tubes.
No. 39335. Mount Nickel Co., Bayonne, N. J., monel metal.
No. 39336. Michelin Tire Co., tires.
No. 39337. Russia Cement Co., Gloucester, Mass., glue.
No. 39346. R. D. Wood & Co., Philadelphia, Pa., pipes and fittings.
No. 39347. Taylor Instrument Cos., Washington, D. C., thermometers.
No. 39348. C. J. Tagliabue Manufacturing Co., Brooklyn, N. Y., thermometers.
No. 39352. Keller Pneumatic Tool Co., Grand Haven, Mich., chyspring hammers.
No. 39353. E. P. Burton Lumber Co., Charleston, S. C., North Carolina pine.
No. 39354. B. F. Goodrich Co., Akron, Ohio, balloons.
No. 39355. Gleason Tiebout Glass Co., New York City, N. Y., spare globes.
No. 39356. General Electric Co. (Ivanhoe Regent Works), Cleveland, Ohio., spare globes.
No. 39357. Rome Holland Wire & Tube Co., Rome, N. Y., brass tubing.
No. 39358. E. W. Bond Co., Lake Helen, Fla., yellow pine.
No. 39362. Whitcomb-Blaisdell Machine Tool Co., Worcester, Mass., engine lathe.
No. 39363. Kemp Machinery Co., Baltimore, Md., motor-driven drill.
No. 39364. Sherritt & Stoer Co., Philadelphia, Pa., engine lathe.
No. 39365. Parker, Wilder & Co., New York City, N. Y., unbleached muslin.
No. 39366. Universal Portland Cement Co., Chicago, Ill., cement.
No. 39367. Tidewater Portland Cement Co., Baltimore, Md., cement.
No. 39368. American Chain Co., Bridgeport, Conn., skid chains.
No. 39369. St. Joe Lead Co., New York City, N. Y., pig lead.
No. 39371. Carnegie Steel Co., Washington, D. C., steel bolt material.
No. 39372. Lackawanna Steel Co., Buffalo, N. Y., extra-soft steel.
No. 39373. Westinghouse Electric Co., Washington, D. C., fans.
No. 39374. Brown & Sharpe Manufacturing Co., Providence, R. I., machinery.
No. 39375. Plymouth Cordage Co., Plymouth, Mass., lead lines.
No. 39376. Wall Rope Works (Inc.), New York City, N. Y., lead lines.
No. 39377. H. C. Kelley Co., New York City, N. Y., lead lines.
No. 39379. Harold M. Twiner, agent U. S. Bunting Co., New York City, N. Y., wool bunting.
No. 39380. Col. Steel & Shafting Co., Washington, D. C., steel, etc.
No. 39381. Monoanto Chemical Works, St. Louis, Mo., carbolic acid.
No. 39382. Slocum, Avram & Slocum, New York City, N. Y., tension motors.
No. 39386. Wingate Lumber Co., Georgetown, S. C., North Carolina pine.
No. 39387. John L. Roper Lumber Co., Norfolk, Va., North Carolina pine.
No. 39388. Foreman Blades Lumber Co., Elizabeth City, N. C., North Carolina pine.
No. 39390. Swind Machinery Co., Philadelphia, Pa., bench milling machines.
No. 39391. Harbinson-Walker Refrigerator Co., Pittsburgh, Pa., electric-arc material.
No. 39392. Sudworth Printing Co., Washington, D. C., stationery.
No. 39395. Hill Pump Co., Anderson, Ind., centrifugal pumps.

June 27, 1918.

No. 39397. Meilink Manufacturing Co., Toledo, Ohio, steel boxes.
No. 39398. Page Detroit Motor Car Co., Detroit, Mich., special, MLF.
No. 39410. Albany Boat Co., flying boat surfaces.
No. 39411. National Costume Co., New York City, N. Y., hammocks.

No. 39569.—Hall-Scott Motor Car Co., Berkeley, Cal., motor.

Conduct of Officers and Men on the President Lincoln, Sunk by U-Boat, Reflected Credit on Navy, Court Holds

The Navy Department authorizes the following:

-Secretary Daniels has received the report of the court of inquiry into the sinking of the U. S. S. *President Lincoln*, which was torpedoed by an enemy submarine May 31, with the loss of three officers and 23 enlisted men, one officer, Lieut. Edouard V. M. Isaacs, having been taken prisoner by the submarine.

The court rendered the opinion that the sinking of the *President Lincoln* was "caused by an act of war on the part of a German submarine, identity unknown, and that no responsibility therefor attaches to any officer or man belonging to the U. S. S. *President Lincoln*," and, further, "that the conduct of all officers and men of the U. S. S. *President Lincoln* and of the two destroyers which went to the rescue reflected credit on the United States Navy."

Relates Incidents of Sinking.

Commander Percy W. Foote, commanding officer of the *President Lincoln*, called on Secretary Daniels Saturday, July 6, 1918, and at the suggestion of the Secretary related for publication some of the most striking incidents in the sinking of the transport.

"Three torpedoes were sighted approaching the ship on the port side at a distance of from three to four hundred yards away," said Commander Foote. "Efforts were made to turn the ship to avoid the torpedoes, but there was not sufficient time to do so, and two torpedoes struck together practically in the same place, about 120 feet from the bow, and one torpedo struck about 120 feet from the stern.

"The call to battle stations was instantly sounded when the torpedoes were sighted, and everyone went quickly but quietly to his proper post.

715 Persons on Board.

"There were 715 people on board, including the officers and crew of the ship and a few Army officers and soldiers returning from France. Among the latter were two soldiers who were paralyzed.

"Preparations were made for launching the boats and life rafts, and the guns were manned and made ready for fire. Inspections were made below decks, and it was found that the bulkheads were holding the water in the forward hold, but aft the engine-room bulkhead was ruptured and the water entered the engine room. There was plenty of time, however, for the men to escape from the engine and fire rooms, and no casualties occurred therein. Seven men at work in the forward end of the ship were killed by the force of the explosion or the inrush of water."

"Fifteen minutes after the ship was struck it appeared quite evident that she would sink. The boats and rafts were placed in the water and the order was given all hands to abandon ship. This order did not include the guns' crews, however, who remained at their guns awaiting further orders. A few minutes later fire was opened from the bow gun, firing in the general direction in which it was thought the submarine might be, this being done with the idea that it might prevent another possible attack.

"Four or five minutes before the ship finally sank, half the vessel being then under water, the chief master-at-arms reported that his inspection below decks showed all hands to be out of the ship. The order was then given for everyone, including the gun crews, to leave the ship, and the master-at-arms and I then went into the water and swam to a life raft.

"Due to the difficulties which generally exist when boats are filled with people and lowered quickly in emergency, it had been previously arranged for everyone to go in the water and get on the rafts. Only five men and an officer were assigned to the boats to lower them; the boats then to go among the life rafts and pick up the people. This proved to be a very satisfactory arrangement, as the boats were lowered and got clear of the ship without difficulty. One boat, however, was loaded with the sick before lowering, and all the sick, including the two paralyzed soldiers, were saved.

"After the ship sank the work of loading the boats to their capacity and securing the rafts together was begun, and while this work was under way, about half an hour after the ship sank, the submarine appeared and came near the boats and rafts.

Took Officer Captive.

"The submarine first took one of the sailors, Seaman Anderson, on board, and then a little later took one of the officers, Lieut. Isaacs, after which it returned the seaman to the boat. Anderson stated that the submarine commander treated him kindly and gave him coffee and cognac.

"The submarine remained in the vicinity of the boats for about an hour and a half. It returned in the afternoon about 2 o'clock, remained near at hand for about an hour, and then left the vicinity and did not reappear.

"The work of collecting the boats and rafts together was continued, and by dark we had the rafts tied together and the boats secured to the rafts and to each other; the boats being loaded practically to their carrying capacity, there being about 500 men in the boats and about 200 on the rafts.

"Lighted lanterns were hoisted on the oars in the boats and Coston flare lights were burned at frequent intervals. Watches were set, and those not on watch were told to go to sleep.

"Water and rations were in the boats, but were not used, as it was considered advisable to save them until they were absolutely required, this being in preparation for a possible stay of several days in the boats.

"At about 11 p. m., when it was quite dark, a blinking white light was sighted and very soon it was found that one of the American destroyers had arrived to our rescue. A rousing cheer was given by the men and the work of embarking on board the destroyer was begun. About an hour afterwards another destroyed arrived, and by 2 a. m. all the survivors were embarked aboard the destroyers. After waiting till daylight, when a final search was made for any persons who might still be adrift, the return trip to France was begun, where we arrived in due course of time, and very shortly afterwards embarked for America on another ship.

"Due to the previous preparation and drills which had been conducted, it was not necessary to give many orders when the *Lincoln* was torpedoed, and the men went about their duties in a cool and intelligent manner. In fact, the entire lack of fear for personal safety on the part of everyone was quite evident.

Examples of Coolness.

"At one time it was decided to stop lowering the boats, as there appeared to be some possibility of the ship remaining afloat. Due to the noise of the escaping steam from the boiler safety valves, it was difficult to make verbal orders understood, but a motion of the hand from the commanding officer on the bridge was all that was necessary to stop the boats in mid-air, and a little bit later, at further motion of the hand, the boats were dropped into the water.

Sings "Where Do We Go From Here?"

"I was afterwards somewhat amused by a description given me by Chief Petty Officer Oulette of some of the things that occurred during the day on the raft. There were a number of officers with the men on the rafts, among whom was the chaplain, and Oulette told me that the chaplain very properly said prayers for the rescue of the men. But Oulette feared the men would become somewhat despondent so he decided to tell some jokes and sing a song, and the song he sang was: 'Where Do We Go From Here?'

"Out of a total of 715 persons aboard, three officers and 23 men lost their lives. Two of the officers, Surgeon Whiteside and Paymaster Mowat, apparently remained on the after deck too long and were caught in the ship as she sank. Paymaster Johnson got on a raft near the ship, but was also caught by the vessel as it went down. Seven of the enlisted men were caught below decks and killed either by the explosion or the inrush of water. The other men got lost on the rafts near the ship, but were caught in some way, which I am unable to explain, probably in the rigging of the ship, and carried down, this being due possibly to the rafts being drawn in toward the vessel by the current of water rushing through the hole in the ship's side made by the torpedo.

"All the survivors who were taken aboard the two destroyers were landed uninjured, after a voyage of a day and a half to port."

Pledge yourself to save to the utmost and to buy a definite amount of war-savings stamps each month.

VOL. 2 WASHINGTON, THURSDAY, JULY 11, 1918. No. 357

NEW WARNING TO BREWERIES CONCERNING THE CURTAILMENT IN COAL ALLOTMENTS TO THEM

CAN SEND MORE TO NEW ENGLAND

The Brewers Can Count on Only Enough Fuel to Utilize Materials in the Process of Manufacture, Dr. Garfield States.

The Fuel Administration issues the following:

Referring to the order of July 3, cutting down fuel going to breweries, Mr. Garfield states that in view of the present coal transportation and other shortages, and until the prospect of larger service is assured, breweries will not be able to count upon a supply of coal beyond that needed to utilize the materials in the process of manufacture, including malt already manufactured.

This is merely another step in the program of curtailment of nonwar industries begun several months ago, and is necessary in order that coal may be immediately delivered to war industries and to sections of the country remote from the mines.

More Coal for New England.

At the present time, for example, the railroads report that 200 more cars can be passed daily through the New England gateways, provided the coal can be furnished. It is imperative that advantage be taken of this opportunity, because two-thirds of New England's coal supply goes in by water and after winter sets in shipments are greatly reduced. Moreover, the delivery of the New England allotment by water is seriously behind schedule, but coal for 200 additional cars can be had only by diverting it from other industries, and obviously it should be taken from nonwar industries.

Before issuing the order of July 3 the Fuel Administrator conferred with a special committee appointed by the President, composed of Mr. Baruch, Mr. Hoover, Mr. McCormick, and Mr. Garfield, to consider the reduction of activities in nonwar industries to save the consumption of raw materials, food, labor, and transportation, and that the order had their approval.

This committee has recommended the appointment of a special committee, composed of Messrs. Clarence M. Woolley, Edward Chambers, P. B. Noyes, Theodore F. Whitmarsh, and Edwin B. Parker, of the priorities board, and Prof. Edwin F. Gay, statistician, to study each industry with a view to ascertaining what curtailment can be made, and to report to the priorities board from time to time, the priorities board in turn advising the various administrative departments to take such action as will effectuate its recommendation.

All Ships and Stations of Navy Are Ordered to Observe "Bastile Day"

Secretary Daniels has sent the following telegram to all ships and stations of the Navy:

"July 14, Bastile Day, shall be observed by all United States naval vessels and stations as a special day of allied tribute to France.

"Ships shall be dressed and salutes fired to French colors in the same manner as prescribed for July 4.

"Commanders of forces, stations, and districts will assist in every way to insure hearty cooperation of the Navy in connection with local celebrations of Bastile Day. "JOSEPHUS DANIELS."

GEN. PERSHING DENIES ALLEGED STATEMENTS BY U. S. SERGEANT

Soldier Reported as Making Charges Against Enemy Contrary to Facts.

The War Department authorizes publication of the following cablegram from the commanding general of the American Expeditionary Forces:

A St. Louis, Mo., paper recently received here states that a sergeant, one of 50 men sent back in connection with the Liberty loan campaign, is making speeches in which he states:

"The Germans give poisoned candy to the children to eat and hand grenades for them to play with. They show glee at the children's dying writhings and laugh aloud when the grenades explode. I saw one American boy, about 17 years old, who had been captured by the Germans, come back to our trenches. He had cotton in and about his ears. I asked some one what the cotton was for.

"'The Germans cut off his ears and sent him back to tell us they want to fight men,' was the answer. They feed Americans tuberculosis germs."

As there is no foundation whatever, in fact, for such statements based on any experience we have had, I recommend that this sergeant, if the statements quoted above were made by him, be immediately returned for duty here, and that the statements be contradicted. PERSHING.

ORDERS INSURANCE OF SEAMEN ON ALL MERCHANT SHIPS SAILING FROM ATLANTIC AND GULF PORTS

RULING BY MR. M'ADOO ANNOUNCED

Reduction in the Rates of Insurance on Fishing Vessels, Both as to Cargoes and Craft, Also is Made Public.

The Treasury Department authorizes the following:

Secretary McAdoo has announced an order in regard to the protection offered by the Bureau of War-Risk Insurance to the masters, officers, and crews of American merchant vessels, and also a reduction in the rates of insurance on fishing vessels, both as to cargoes and vessels.

The new order makes it obligatory for the owners of all American merchant vessels leaving Atlantic and Gulf ports in the United States for any ports whatsoever, and vice versa, including vessels engaged in coastwise traffic, to insure the masters, officers, and crews against the loss of life or personal injury, or capture caused by the risks of war.

Heretofore this insurance has been compulsory only for vessels trading between the United States and various European ports and certain designated parts of Africa.

Boats on Fishing Trips Excepted.

All American merchant vessels leaving Atlantic and Gulf ports come under the new rule, except fishing vessels while on trips simply for the purpose of catching fish. Vessels engaged in the transportation of fish are not excepted.

The rates charged by the Bureau of War-Risk Insurance for protection of masters, officers, and crews of steamers range from one-half a cent per $100 of insurance for Atlantic coastwise trips and three-fourths of a cent per $100 for trips to Gulf ports, up to 15 cents per $100 for steamers crossing the war zone.

The rates charged for the protection of the officers and crews of sailing vessels engaged in coastwise trade are double those charged for steamers. The new order goes into effect on July 13 for vessels sailing from the United States and on July 28 for vessels sailing from foreign ports.

More Than 70,000 Now Insured.

More than 70,000 officers, masters, and seamen on American merchant vessels have already been protected by policies issued by the Bureau of War-Risk Insurance. The liberal terms and the broad protection of this insurance are spurring on recruiting for America's merchant marine.

With regard to fishing vessels. The Secretary announced that the monthly

rate, both as to cargoes and vessels, had been reduced from three-fourths of 1 cent per $100 of insurance to one-half of 1 cent.

In response to inquiries, it was stated that no increase had been made in any of the war-risk rates.

SAYS NAVY IS AMPLY PROVIDED WITH NEEDED MEDICAL SUPPLIES

The Navy Department authorizes the following:

Secretary Daniels states, in connection with rumors to the effect that there was a lack of medical supplies on some ships, that the Navy has an abundance of all needed medical supplies and that all requests for supplies have been promptly met.

The medical supply depot of the Navy in Brooklyn is packed with supplies, sufficient for months to come, and day and night shifs of men are constantly filling every need for all ships.

It is requested that private individuals refrain from efforts to supply ships unless requested to do so by proper authority. The collecting of funds for this purpose is not desired or authorized.

Statements of a lack of supplies of this kind should be reported immediately to the district commandant of the Navy, who will always have these reports investigated at once by his medical officer.

GOVERNOR OF PANAMA CANAL GIVEN ESPIONAGE ACT POWERS

Executive Order.

Whereas a national emergency exists of the character contemplated in section 1 under Title II of the act of Congress approved June 15, 1917, commonly known as the espionage act:

Therefore I, Woodrow Wilson, President of the United States of America, by virtue of the powers conferred upon me by the said act of Congress, do hereby authorize the governor of the Panama Canal to exercise, within the territory and waters of the Canal Zone, all the powers mentioned in said section 1, Title II, of said act, to the same extent as is conferred therein on the Secretary of the Treasury with regard to the territorial waters of the United States, and all acts heretofore done by the governor of the Panama Canal or under his authority pursuant to said section of said act are hereby ratified and confirmed.

This order supersedes Executive Order No. 2867, dated May 28, 1918.

WOODROW WILSON.

THE WHITE HOUSE,
July 9, 1918.

MARINE CORPS NOTICE.

The Office of the Adjutant and Inspector's Department, United States Marine Corps, in a letter to the editor of THE OFFICIAL BULLETIN, calls attention to the fact that in a directory of the Government offices in Washington, which was published in THE OFFICIAL BULLETIN on July 1, 1918, the Marine Corps was incorrectly listed under the head of "Miscellaneous Bodies" instead of under the Navy Department, of which it is a part. The head of the Marine Corps is Maj. Gen. George Barnett, commandant, and its headquarters are in the Navy Annex, 1734 New York Avenue NW. Brig. Gen. C. O. McCawley, who was given in the directory as the presiding officer, is the quartermaster of the corps.

21. Maj. Curran S. Benton, Signal Corps, is designated as an acting quartermaster for the purpose of issuing transportation requests covering the travel of civilian employees and enlisted men traveling as individuals on orders issued by authority of the director of military aeronautics.

STATEMENT ON AIRPLANE MAIL SERVICE FOR THE MONTH OF JUNE

The Post Office Department authorizes the following figures concerning the airplane mail service between New York, Philadelphia, and Washington during the month of June:

Performance of Aviators.

Total possible number of flights	100
Total possible mileage	11,250
Total perfect (uninterrupted) flights made	88
Total interrupted flights made	8
Total flights defaulted on account of weather	4

29	450	6 39	30½	571	100	5.15	3.25

NOTE.—Number hours dead flying for month, 8 hours 38 minutes.

EXPLANATION OF TABULATION.

1. Miles flown.—Leg from Washington to Philadelphia, 135 miles; leg from Philadelphia to New York, 90 miles. Miles flown for the day, whether one, two, three, or four legs of the trip have been made. The aim is to get exactly the number of miles flown in connection with the mail service each day. Therefore mileage of partial trips should be indicated.

2. Hours of flying.—To include the actual hours and minutes machine is in the air with mail.

3. Mail carried.—In this column, under A give pounds of airplane mail, and under O give pounds of ordinary mail.

4. Per cent of performance.—Round trip Washington-New York consists of four legs, each leg valued at 25 per cent if completed by airplane and not by train before close of day.

5. Arrivals.—Time plane reaches Washington and New York, or, if train carrier, the scheduled time.

Record of the Industrial Controversies Adjusted During Week Ending July 6

Imports of Cocoa Beans Now on Restricted List

The War Trade Board issues the following:

Cacao (cocoa beans) has been placed by the War Trade Board upon the list of restricted imports (as announced in a new ruling, W. T. B. R. 163). The importation of an amount not to exceed 30,000 tons during the remainder of the calendar year will be permitted. Out of the amount so licensed the requirements of the Army and Navy will be met in full, and the remainder will be allocated by the Bureau of Imports of the War Trade Board. In addition, shipments from Mexico may be licensed when brought forward by other than ocean transportation.

To effect this regulation, all outstanding licenses for the importation of cacao (cocoa beans) have been revoked as to ocean shipments after July 20, 1918.

An investigation of cocoa stocks in this country, conducted by the War Trade Board as a preliminary to this regulation of imports, showed stocks on hand sufficient, together with the 30,000 tons of permitted imports, to last until June, 1919, so that the restriction will not interfere with the normal consumption of cacao in this country.

POSTAL FRAUD ORDER.

OFFICE OF THE POSTMASTER GENERAL,
WASHINGTON, *June 26, 1918.*

Order No. 1624 has this day been issued against Landon C. Johnson, Landon Johnson, C. L. Johnson, L. C. Johnson, L. Johnson, L. E. Johnson, and J. C. Johnson, at Ayden, N. C.

A. S. BURLESON,
Postmaster General.

Graphite Crucibles on Restricted Import List

The War Trade Board authorizes the following:

The War Trade Board have by a new ruling (W. T. B. R. 164) placed graphite crucibles upon the List of Restricted Imports. All outstanding licenses for the importation of graphite crucibles have been revoked as to ocean shipments after July 15, 1918, and no licenses for the importation of this commodity for shipment after that date will be granted for the rest of the calendar year.

Imports of graphite are already prohibited, the result of this restriction having been to develop an adequate supply of graphite within the country. The action of the War Trade Board in restricting the importation of graphite crucibles is complementary to the restriction upon the importation of graphite.

Big Decrease in Exports from Paris to the U. S.

Consul General A. M. Thackara, Paris, France, reports by cablegram as follows:

The total value of the declared exports from the Paris consular district to the United States for the first six months of 1918 was $16,492,283, against $28,546,225 for the same period in 1917. The principal decreases were in cigarette papers, cotton, feathers, furs, mushrooms, perfumery, pearls, precious stones, seeds, silk, and wool.

ECONOMY IN SWEATER INDUSTRY DISCUSSED AT CONFERENCE

The War Industries Board authorizes the following:

Representatives of the sweater industry met yesterday with representatives of the knit goods and woolens sections and the conservation division of the War Industries Board. The conference resolved itself into a discussion of various methods of conservation of equipment, materials, and labor in the sweater manufacturing industry. Several suggestions formulated will be taken up by the war service committee of the industry, and a report made as soon as possible. Questionnaires will be sent out to the industry as soon as this report is made. Conservation in this industry will follow the plan carried out in other industries.

Representatives of the industry who were present were: Sidney Warren, chairman, and S. Rottenberg of the Sweater and Fancy Knit Goods Manufacturers' Association; Fred Mayer and H. Bachrach of the Philadelphia Sweater Manufacturers' Association; M. Reinthal of the Cleveland Knit Goods Manufacturers' Association; Richard Lorenz and I. G. Strauss of the Sweater Manufacturers' Association of the Middle West.

PLANTS FOR DRYING FOOD PRESENT EMERGENCY NEED

The United States Department of Agriculture authorizes the following:

The United States Department of Agriculture and the United States Food Administration agree that establishment of more commercial plants for the drying of fruits and vegetables is highly desirable in the present emergency. Warning is given, however, against poor products and stock-selling schemes. Many inquiries regarding the extension of the drying industry, which is in its infancy in this country, are being received.

It is essential from the beginning to assure products of excellent quality, Government officials point out. Processes that do not give such products will lead to loss of capital and local discouragement, and will retard the general movement.

The public is advised to beware of irresponsible and unscrupulous stock-selling schemes. Establishment of drying plants and manufacture of high-grade products require skill and experience, absence of which may damage the industry through flooding the market with inferior products.

Drying when properly done is recognized as an efficient means of conserving food. It requires no sugar. It is reported that the German Government has fostered the drying industry in that country.

APPOINTED ORDNANCE MAJOR.

Special Orders, No. 134:

164. The appointment of Willis D. Ballard as major in the Ordnance Reserve Corps, to rank from June 8, 1918, is announced. He is placed on active duty and will proceed to Washington, D. C., and report in person to the Chief of Ordnance, 1330 F Street NW., for assignment to duty.

The Mothers of Italy Sends Greetings to Those of U. S.

The following message, transmitted through the Italian ambassador, is released for publication by reason of the President's belief "that it will be received with the deepest interest and appreciation by the mothers of our soldiers":

ROME, *July 2, 1918.*

In the day in which Rome, all Italy, exultant, welcomes and acclaims your generous sons, mothers of the Italian combatants send a fraternal auspicious greeting to the American mothers, and, united with them by the same throb of patriotic and maternal love, they hail the valor of their sons, the final victory, the triumph of civilization.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 56.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES, *July 9, 1918.*

Section A.—There is nothing of importance to report.

Section B.—In the Chateau Thierry region conditions were practically normal on July 5 to July 6, the outstanding exception being the activity of the German air forces. The enemy's intermittent artillery fire was heavier in the vicinity of Vaux than usual, but the total number of shells which he used on this day was considerably less than on the days immediately preceding. The majority of the shells were of small and medium caliber. An enemy attempt to raid one of our advanced positions was driven off by our rifle and machine-gun fire with losses. There was much movement of troops in the German rear areas, where as many as four companies were seen at one time.

The traffic was also excessive. Our observers reported buildings on fire at the Souillard farm and the explosion by our batteries of what is believed to have been a trench-mortar ammunition dump. Our troops were continuously active in ambush and reconnoissance patrols, and our batteries were active. During the bombardment of Vaux we replied with counter-offensive preparation fire.

This sector on July 6 to July 7 experienced an increase in enemy artillery activity on the right half of our line, where there was considerable use of gas, shrapnel, and high-explosive shells. Most of the shells were of small or medium caliber. Barrage fire was put down in the vicinity of Vaux and Hill 204. The German air forces were still very active. The planes flew in groups of varying size. At about noon a German patrol of five machines was attacked and driven off by five of our planes. The movement of troops and traffic in the German rear areas continued abnormal. Our own troops continued their activity in patrolling. Our batteries were also active.

In the Marne sector between July 6 and July 7 conditions were quiet. The enemy's artillery fire was light and scattered, and his airplanes made less than the customary number of flights. His infantry, while not aggressive, was on the alert. Machine guns fired intermittently from several points on the north bank of the river and some rifle and hand grenades were thrown at our patrols. In the German rear areas more traffic than usual was observed.

In the Colmar sector the patrolling of the enemy troops and our own troops were the only incidents of particular interest on July 6. An enemy patrol of about 20 men was seen at about midnight outside of our wires at one point. Rifle grenade fire was immediately put down from our lines and the enemy withdrew. At about 2.30 o'clock in the morning another patrol of eight men was heard by our troops. Flares revealed the fact that the patrol was attempting to reconnoiter our positions. Our troops fired on them and they scattered into the brush. At daylight several of the enemy were discovered in shell holes. Five small red balloons were sent up at various intervals. Our own reconnoissance patrols were active.

Our troops in Lorraine experienced a quiet day on July 5 to July 6. There was little of interest except increased machine-gun fire and abnormal train movement in the German rear areas. Our antiaircraft batteries were active against the German air forces. Three German propaganda balloons were released.

FUEL DIRECTOR FOR DISTRICT.

Mr. Frank G. Jones, Former Business Partner of C. K. G. Billings, Named.

The United States Fuel Administration authorizes the following:

The United States Fuel Administration announces the appointment of Frank G. Jones as fuel director for the District of Columbia.

Mr. Jones, who is a New Yorker by birth, was for 20 years a partner of C. K. G. Billings in the ownership of the street railway company of Memphis, Tenn., and was interested in the street railway business in other cities.

The resignation of Mr. John L. Weaver, formerly fuel administrator for the District of Columbia, was recently announced.

June Live Stock Receipts Show Gain in all Classes

The Department of Agriculture authorizes the following:

Receipts of cattle, hogs, and sheep at 36 cities in June show increases over receipts in June, 1917, according to the monthly report just issued by the Bureau of Markets. The June totals for the two years covering all the larger cities, with 1918 figures given first, are: Cattle, 1,580,920—1,544,299; hogs, 2,596,619—2,472,090; and sheep, 1,247,115—1,042,[illegible]35. Although previous monthly reports have shown increases in one or two classes of live stock, it is pointed out that this is the first time increased receipts are reported for all three classes of live stock—cattle, hogs, and sheep—in the same month.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

Chairman Ellison D. Smith, of the Interstate Commerce Committee, yesterday formally reported the House resolution granting the President authority to take over the telegraph, telephone, radio, and cable systems of communication for the period of the war. Immediate consideration was asked, but on objection of Senator Penrose the resolution was sent to the calendar. It can be called up at any time and Chairman Smith intimated that he would so move at a very early day, expressing the conviction that it would be passed without undue delay. Several Senators read into the Record telegrams from employees of the Western Union Telegraph Co. opposing a strike or Government operation of the telegraph lines.

By a vote of 36 to 33 the Senate yesterday afternoon overruled a decision of the presiding officer holding the war prohibition amendment to the food stimulation bill not in order. The point of order was raised against the prohibition amendment by Senator Penrose on the ground that it was new legislation attached as a rider to an appropriation bill and not in order under the rules. After brief discussion President pro tempore Senator Saulsbury, in the chair, sustained the point of order. Senator Jones, of Washington, appealed from this decision. On the Democratic side of the chamber 18 Senators voted to sustain the ruling and 21 voted against it. On the Republican side there were 15 voting each way. The vote was cast as follows:

To sustain the ruling of the chair:
Democrats—Gerry, Gore, Hitchcock, Jones (New Mexico), King, Lewis, Martin, Phelan, Pomerene, Ransdell Reed, Simmons, Smith (Arizona), Smith (Georgia), Smith (Maryland), Swanson, Underwood, Wolcott—18.
Republicans—Baird, Brandegee, Calder, France, Frelinghuysen, Harding Johnson (California), Kellogg, Knox, New, Penrose, Smoot, Wadsworth, Warren, Watson—15.
Against the ruling of the chair:
Democrats—Ashurst, Bankhead Beckham, Benet, Chamberlain, Fletcher, Henderson, Kendrick, McKellar, Myers, Nugent, Overman, Pittman, Shafroth Sheppard, Shields, Smith (South Carolina), Thompson, Trammell, Vardaman, Walsh—21.
Republicans—Borah, Colt, Curtis, Fernald, Hale, Jones (Washington), Kenyon, Lenroot, Nelson, Norris, Poindexter, Sherman, Smith (Michigan), Sterling, Sutherland—15.

Every effort is being made to give better mail service between the United States and American troops in France and already much improvement has been shown, Secretary Baker reported to the Senate yesterday in response to a Senate resolution. The Secretary called attention to the large number of men now being sent across and the constant movement of units from one point to another as presenting unusual difficulties. He said that expert post-office employees have been constantly engaged upon the problem and the cooperation between them and Army officials has been complete and constant. The Secretary said that Gen. Pershing had been asked for a complete report regarding the mail service which would be transmitted to the Senate when received.

HOUSE.

Indignant denials of the charge that they had profiteered in the sale of platinum and had defeated the Government's attempt to conserve the supply for strictly war needs were made by representatives of manufacturing jewelers before the Ways and Means Committee yesterday. Meyer D. Rothschild, chairman of the jeweler's revenue tax committee, charged that the Government had taken no adequate steps to get a sufficient supply of platinum for war purposes. The committee was told that the luxury tax on jewelry proposed by the Treasury Department would not yield any revenue, as it would drive all jewelers out of business. A suggestion was made to the committee by one of the witnesses that a tax be imposed on every retail sale of every kind of goods or merchandise sold at retail, in the form of a stamp to be placed on the sales tag or receipt by the retailer when the sale is made.

The House was not in session yesterday nor to-day.

DISCUSS WAYS OF INCREASING THE OUTPUT OF MACHINE TOOLS

The War Industries Board authorizes the following:

Methods of increasing the output of plate-working machine tools to meet the unusual demands, principally of the Navy and the Emergency Fleet Corporation, were discussed at a meeting of such tool builders with representatives of the War Industries Board, Army and Navy engineers, the Emergency Fleet Corporation, and some of its subcontractors. Probably 95 per cent of the manufacturers of punching and shearing machinery, bending rolls, plate planers, spacing tables, etc., were represented.

Suggestions for Increasing Output.

Suggestions for increasing the output included: More intensive manufacturing by eliminating from certain shops the building of the usual large variety of tools and concentrating on the production of a limited variety, and the distribution of contracts to concerns that have no urgent war contracts, but which, with the aid of patterns, drawings, and the cooperation of regular manufacturers, could produce standard equipment. It is hoped in this way to advance the general war program.

Committee Is Appointed.

To carry out the suggestions adopted by the meeting a committee of manufacturers was appointed to work in conjunction with G. E. Merryweather, chief of the Machine Tool Section of the War Industries Board. This committee includes: H. J. Bailey, of Hilles & Jones, Wilmington, Del., as chairman; W. R. Beatty, of the Beatty Machine & Manufacturing Co., Hammond, Ind.; W. H. Harman, of the Southwark Machine Co., Philadelphia; Walter D. Sayle, of the Cleveland Punch & Shear Works, Cleveland, Ohio; Fred C. Avery, of the Long & Allstater Co., Hamilton, Ohio.

Make thrift your buy-word.

WOMEN'S DIVISION CREATED IN THE DEPARTMENT OF LABOR

The Secretary of Labor makes the following statement announcing the establishment of a Women's Division in the Department of Labor:

In recognition of the great importance to the Nation of the work of women in industry and the urgent necessity for a national policy in determining the conditions of their employment I have urged, and Congress has now granted, the necessary authority to establish a Women's Division in the Department of Labor. Its immediate task will be to develop in the industries of the country policies and methods which will result in the most effective use of women's services in production for the war, while at the same time preventing their employment under injurious conditions. Its large and very necessary aim will be to focus attention on the national importance of the conditions of women's work as influencing national standards and as affecting the welfare of the entire Nation.

Miss Van Kleeck as Chief.

I have been fortunate to secure as the chief of this new division Miss Mary Van Kleeck. She brings to her new work the tested training of a thinker on the various problems of women in industry as well as unusual administrative experience gained during the war as chief of the Women's Division in the Ordnance Bureau of the War Department. Associated with Miss Van Kleeck will be Miss Mary Anderson, one of the best-known leaders of American women workers. She has long been influential as a national spokesman for the trade-union women.

The Women's Division will be charged primarily with determining policies rather than carrying on detailed administration. Because of this policy-making function of the Women's Division Miss Van Kleeck will serve as a member of the War Labor Policies Board. It will coordinate work for women in other divisions of the Department of Labor and in industrial service sections of other departments of the Federal Government. It will cooperate with State departments of labor, working with and through them, in order to bring about united action by the States in national problems of women's work.

NEW YORK MAIL INVESTIGATION.

Alien Property Custodian Will Not Act Until Inquiries are Concluded.

The Alien Property Custodian issues the following statement:

Pending the completion of the examination of the books of the Mail and Express Co., of New York, by certified public accountants, appointed by the Alien Property Custodian, and other investigations now proceeding, the Alien Property Custodian withholds decision as to the course which will be pursued relative to the stock of that company held in the name of Edward Rumely, and said to be enemy-owned. In the meantime Henry L. Stoddard and Paul Block, representing the bondholders, for the protection of their own interests, are conducting the paper.

GEN. CROWDER ACKNOWLEDGES HELP BY CENSUS EXPERTS

WAR DEPARTMENT,
OFFICE OF THE
PROVOST MARSHAL GENERAL,
Washington, D. C., June 26, 1918.

Mr. S. L. ROGERS,
Director of the Census,
Commerce Building,
Washington, D. C.

DEAR SIR: The time approaches when Mr. Hunt and the census employees under his direction, who have been assisting this office in the great task of making an industrial index of registrants under the selective service act, will finish their work. It is hoped that by July 1 the undertaking will have reached a stage that will enable us to take over the clerical force, or such part of it as may be needed, and to permit your experts to return to their accustomed duties.

Under the circumstances I am moved to break through the usual formalities of official intercourse and express to you personally my deep appreciation of the valuable service rendered this office. Lieut. Col. Wigmore and the officers associated with him in the Industrial Index Division testify to the very great ability and energy with which Mr. Hunt and his assistants have carried on the work. Mr. Cragg, Mr. Koch, and Miss Riddleberger, who have been in daily contact with the officers, have been uniformly courteous, patient and helpful. Their subordinates have been equally faithful. Indeed, the whole undertaking has been carried out in a spirit of generous cooperation which not only reflects the highest credit upon your organization but evidences a patriotic determination, on the part of everyone concerned, to make his best effort to support the Army in France.

Please accept, for yourself and for all who have been engaged in the work, my sincere gratitude.

Yours, very truly,

E. H. CROWDER,
Provost Marshal General.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1001, opening of July 19, 1918.—400 cold, octagon tool steel chisels, ¾-inch cut by 5½ inches long; 400 cold, octagon tool steel chisels, ½ inch by 6 inches; 400 cold, octagon tool steel chisels, ⅝-inch by 8 inches; 6⅜-inch top fullers; 6⅜-inch, with shank fullers; 6 square 2½-inch handled flatters; 100 hand striking hammers; 35 ball pein oil finish hammers; 20 ball pein 2-pound hammers; 20 ball pein 3-pound hammers; 100 10-pound blacksmith's sledge hammers; 50 8-pound striking hammers; 50 3-pound ball pein hammers; 50 3-pound cross pein hammers; 50 2-pound straight pein hammers; 50 10-ounce octagon poll farrier's hammers; 50 12-ounce riveting hammers; 50 1-inch oval eye handled hammers; 50 2-pound turning hammers; 100 1-pound tinner's riveting hammers; 100 1⅝-inch cutting edge toe knives; 100 12-inch shoeing nippers; 75, 12 inches long, ⅝-inch octagon tool steel pritchels; 75 ⅞-inch farrier's creasers; 100 ⅝-inch body hand punches; 125 rivet busters; 150 18-inch rivet tongs; 65 straight hardies; 50 14-inch shoeing tongs; 50 ⅝ inch tongs; 50 1-inch tongs; 50 14-inch straight tongs; 100 18-inch double pick-up tongs; 750 14-inch half hatchet handles; 50 14-inch tinner's riveting hammer handles; 1,200 ball pein hammer handles; 500 1½-inch brass padlocks with 8-inch galvanized chain; 25 blacksmith's anvils; 650 ½-pint oil cans; 250 1-pint oil cans; 200 3-gallon galvanized steel oil cans; 12 rivet sets; ¼-inch rivet; 12 rivet sets for 7/16-inch rivets; 12 button head rivet sets for ⅜-inch rivets; 12 button head rivet sets for 9/16-inch rivets; 12 rivet sets for ⅝-inch rivets 12 button head rivet sets for 11/16-inch rivets; 12 button head rivet sets for ½-inch rivets; 12 button head rivet sets for ⅝-inch rivets; 12 button head rivet sets for ¾-inch rivets; 12 straight rivet dollies for ½-inch rivets; 12 do rivet dollies for 7/16-inch rivets; 12 do for ⅝-inch rivets; 12 do for 7/16-inch rivets; 12 do for ½-inch rivets; 12 do for 9/16-inch rivets; 12 do for ⅝-inch rivets; 12 do for ¾-inch rivets.

Proposal No. 1002, opening of July 16, 1918.—14 000 pinch dogs, 1 inch long; 14,000 pinch dogs, 1½ inches long; 14,000 pinch dogs, 2 inches long; 14,000 pinch dogs, 2½ inches long; 14,000 pinch dogs, 3½ inches long.

PURCHASES AND CONTRACTS TO BE MADE BY HARDWARE AND METALS DIVISION

Following is a list of purchases and contracts to be made during the coming week by the Hardware and Metals Division of the Quartermaster General's office, War Department.

The Hardware and Metals Division of the Quartermaster Corps was made a division on June 1, 1918, and the following are the executive officers thereof:

Mr. William A. Graham, Chief.

Mr. H. L. Arnold, Assistant to Chief on Outside Relations.

Maj. H. P. Hill, Assistant to Chief on Inside Relations.

Mr. George W. Welles, Chief of Procurement Branch No. 1 (metals and heavy hardware).

Mr. William F. Fusting, Chief of Procurement Branch No. 2 (tools and hardware sundries).

Mr. W. J. Peck, Chief of Procurement Branch No. 3 (kitchen and camp equipment).

Mr. Thomas M. Lynch, Chief of Methods and Service Branch.

Unless otherwise stipulated, formal contract will be made and bids must be submitted within one week.

PROCUREMENT BRANCH, NO. 1.

Article.	Quantity.	Unit.	Name of buyer.	Bid to be submitted by—
Jacks, Brooklyn No. 4	100	Only	A. S. Rogers	Within 10 days.

The Sick and Wounded U. S. Soldiers Returned to This Country Last Week

The War Department authorizes the following statement from the office of the Surgeon General on the number of sick and wounded landed in the United States from the American Expeditionary Forces:

Week ending June 28	153
Week ending July 5	76

These men are sent to the various Army hospitals where treatment and facilities for physical reconstruction have been provided.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	5
Died from wounds	10
Died of disease	2
Died from accident and other causes	1
Wounded severely	26
Wounded slightly	1
Missing in action	23
Total	68

Killed in Action.

Corpl. William O. Gorner. Mrs. Lorena Gorner, 1916 Penn Street, Harrisburg, Pa.

Corpl. Richard Haugh. Robert Haugh, 1812 Ashmund Street, Sault Ste. Marie, Mich.

Wagoner Tipton J. Brewer. Mrs. Vick Branden, R. F. D. 4, Finley, Tenn.

PRIVATES.

Ralph H. Lasser. Mrs. M. Lasser, 18 Longfellow Street, Dorchester, Mass.

Joseph P. Socia. Miss Margaret Eckenrode, 325 South Washington Street, Gettysburg, Pa.

Died from Wounds.

Lieut Jouett Fitch Singleton. J. P. Singleton, 123 Williams Street, Niagara Fire Ins. Co., New York, N. Y.

Corpl. Charles Ralph Maler. Mrs. Mildred Maler, East Patchogue, N. Y.

PRIVATES.

Ralph J. Carpenter. Mrs. Alice Carpenter, R. F. D. 22, Freedom Station, Ohio.

Ernest Carter. Mrs. Edna Carter, Seminole, Okla.

Tadency Cihocki. Stanley Cihocki, 184 Seventh Street, Jersey City, N. J.

David Gorcister. Abraham Gorcister, 111 North Beendry Street, Los Angeles, Cal.; Mrs. Fannie Sherman, 128 West Forty-second Place, Los Angeles, Cal.

Gordon K. MacKenzie. Herbert A. Bass, Concord, Mass.

Tom Marallo. Mrs. Andoloro Steforia, Proval Signa, Messina, Italy.

Troy F. Rhymes. C. A. Rhymes, Silsbee, Tex.

Gustave Stankus. Frank Stankus, 4612 Western Avenue, Chicago, Ill.

Died of Disease.

Cook E. W. Rupert. Miss Anna K. Rupert, Saltsburg, Pa.

Pvt. Charles H. Setchel. Mrs. L. R. Setchel, 1249 West Sixth Street, Los Angeles, Cal.

Died from Accident and Other Causes.

Pvt. Frank Levine. Sam Levine, 128 Amboy Street, Brooklyn, N. Y.

Wounded Severely.

Lieut. Irvin R. Johnston. Mrs. Vira Johnston, 817 High Street, Montgomery, Ala.

Corpl. Homer W. Bennett. George Bennett, R. F. D. No. 1, Ladonia, Tex.

Corpl. Thomas P. Conroy. Mrs. Jessie A. Saucier, Cornish, Me.

Corpl. John Kokolich. Mrs. Amelia Montoney, Wayne, Mich.; Arthur E. Whipple, County Building, Detroit, Mich.

Wagoner Harry Green. Mrs. Anna Green, 319 Brandson Avenue, Detroit, Mich.

PRIVATES.

Charles E. Birk. Mrs. Catherine Birk, 404 Woodlawn Avenue, Jersey City, N. J.

Charles A. Chandler. Mrs. Lula Helsey, Haubstadt, Ind.

Antonio Cipriano. Mrs. Egidio Cipriano, 23 East Green Street, Nanticoke, Pa.

Martin J. Fahey. Michael Bowan, 2520 South Fifth Street, Philadelphia, Pa.

Albert Finocchio. Ignazio Finocchio, 635 Main Street, Clifton, N. J.

William C. Fox. Mrs. F. Moore, 1 Summer Street, Auburn, Mass.

George Geiss. Mrs. Lizzie Geiss, 429 East Ninth Street, New York, N. Y.

Alex E. Grenier. Mrs. Blanche Gragoir, 126 Green Street, Lynn, Mass.

Claude L. Hibdon. Mrs. S. A. Hibdon, R. F. D. No. 40, Linn Creek, Mo.

James J. Kelly. Arthur T. Noonan, 2 Elton Street, Dorchester, Mass.

Steve K. Kenololos. James Aleko, 346 Martin Avenue, East Hammond, Ind.

William Legeres. Sam Legeres, 2400 West Sixteenth Street, Chicago, Ill.

Parker Massingil. C. W. Massingil, Kirkland, Ala.

Noah M. Milliken. Mrs. Kate Milliken, Enville, Okla.

James C. Peterson. Mrs. Mary A. Peterson, 368 Meridian Street, East Boston, Mass.

PRIVATES.

Robert R. Pilcher, R. R. Pilcher, Ozark, Ala.

Antonio J. Poirier. Leo N. Poirier, Van Buren, Me.

Martin John Ryan. Mrs. Julia Ryan, Coolbawn, Castle Comer, County Kilkenny, Ireland.

Ralph L. Stratton. Mrs. Martha J. Crill, Thirty-second and Douglas Avenue, Des Moines, Iowa.

Walter E. Vann. Mrs. Minnie Vann, Hazel Green, Wis.

Wounded Slightly.

Lieut. Vivian B. Mayo. Ernest A. Mayo, 910 Dempster Street, Evanston, Ill.

Missing in Action.

Corpl. Chester Zientarski. Mrs. Valentine Zientarski, 74 Brownell Street, Buffalo, N. Y.

PRIVATES.

Sterling Bias. John H. Bias, Sheridan, W. Va.

Sidney Glenn Braman. Eugene F. Braman, Rosalia, Kans.

Carl Raymond Burgess. George E. Burgess, Arnold, Kans.

Charles Edgar Dysart. Mrs. Laura Dysart, 322 North Main Street, Senia, N. C.

Joseph Albert Edelin. Mrs. Catherine Schmiedel, 2220 Fulton Road, Cleveland, Ohio.

Felix Albert Elliott. Robert L. Elliott, Crutchfield, Ky.

Helmeth Albert Goetz. Mrs. W. Goetz, Renville, Minn.

James W. Hope. Eugene M. Hope, 1052 State Street, Bridgeport, Conn.

Harry K. James. Mrs. S. C. Dimond, 123 High Street, Bristol, R. I.

Charles C. Jatho. Charles L. Jatho, 10 Bonheim Street, Albany, N. Y.

John Mann Jones. Mrs. Gertrude Anna Jones, 356 Bleecker Street, Utica, N. Y.

Josef Mazurcak. J. Mazurcak, 158 Third Street, Detroit, Mich.

Elmer Rehberger. Conrad Rehberger, Glenmore Avenue, Cheviot, Ohio.

John David Sears. Ely Sears, Swartwood, N. Y.

Dewey Lee Simmons. Mrs. Alva Simmons, Newalla, Okla.

Frederick Steinmiller. Mrs. Louisa Steinmiller, 595 Delaware Avenue, Kingston, N. Y.

Clyde Summerfield. Mrs. Mary Summerfield, Gatewood, W. Va.

Fred Sweetland. Charles Sweetland, 8 Pond Street, Pawtucket, R. I.

Alex Swiecki. Felix Swiecki, 125 Buttonwood Street, Philadelphia, Pa.

Don Crandle Wade. James Wade, Ogden, Utah.

John Leonard Walter. Banhart Walter, Selden, Kans.

William J. Wright. Minturn T. Wright, Chestnut Avenue, Chestnut Hill, Pa.

Prisoner (previously reported missing).

Pvt. Frank H. Daly. Mrs. Daniel F. Daly, 66 Garfield Avenue, Hyde Park, Mass.

Correction.

NOTE.—The following, previously listed as "wounded severely" should be listed as "missing in action":

Capt. Joseph F. Williamson. Frederick F. Williamson, Sebastopol, Cal.

PRIVATES.

Michael Bayer. John Bayer, 2521 Erine Street SW., Cleveland, Ohio.

Luther Bradley. Charles F. Bradley, Morrilton, Ark.

Christ W. Zarnescu. Mrs. Anna Pricap, Dysart, Saskatchewan, Canada.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	13
Died of wounds received in action	4
Wounded in action (severely)	18
Total	35

Killed in Action.

Second Lieut. Joseph A. Synnott. Mrs. Mollie S. Reiley, sister, 117 South Fullerton Avenue, Montclair, N. J.

Harry A. Wendel. Peter H. Wendel, father, 25 North Mayfield Avenue, Chicago, Ill.

(Continued on page 8.)

Conference of Colored Editors and Leaders on Methods by Which Negro May Best Aid in Winning the War

By the authority and direction of the War Department and the Committee on Public Information, Emmett J. Scott, special assistant to the Secretary of War, called to Washington recently for a conference 30 or 40 representatives of important colored newspapers of the country, together with a number of the leaders of thought and opinion among the negro people, to consider methods by which the millions of colored people of the Nation may best assist in the winning of the war.

The conference formally opened Wednesday morning, June 19, in the main auditorium of the new building of the Department of the Interior, Eighteenth and F Streets NW., at 10.30 o'clock, and continued throughout Thursday and Friday, June 20 and 21.

Wide Range of Discussion.

The discussion covered a wide range, and the conferees were given an opportunity to present their views, reflecting the state of mind of the colored people of the country, with the utmost freedom and frankness, unhampered by parliamentary restrictions or any effort to direct opinion in any particular channel—save that of utilizing in the most effective manner every resource at the command of the race to bring victory to the American arms in its present struggle for liberty and world-wide democracy.

Dignity of statement, harmony of thought and unity of action were the predominating features of the three days' session. The document, reported by the special committee appointed to summarize the expression of the conference as to the best plans for the mobilization of the resources of the 12,000,000 negroes of the Republic in support of the war aims of the Government, was adopted by a unanimous vote, given heartily and enthusiastically. "America" was sung with fervor as final adjournment was taken.

Addresses by Officials.

The conference was addressed in sympathetic vein during the sessions by the following officials:

Hon. Newton D. Baker, Secretary of War.

Mr. George Creel, chairman of the Committee on Public Information.

Hon. Franklin D. Roosevelt, Assistant Secretary of the Navy.

Mr. Edward N. Hurley, chairman of the United States Shipping Board.

Maj. Joel E. Spingarn, attached to the General Staff, United States Army.

Capt. Arthur S. Spingarn, of the Medical Reserve Corps, National Army.

Gen. Paul Vignal, military attache of the French Embassy.

Maj. Edouard Requin and Maj. L. P. De Montalon of the French high commission.

Personnel of the Conference.

The following gentlemen were invited to be present at the conference:

Dr. Robert E. Jones, editor Southwestern Christian Advocate, New Orleans, La.

John H. Murphy, editor the Afro-American, Baltimore, Md.

W. T. Andrews, editor Daily Herald, Baltimore, Md.

Chris J. Perry, editor the Tribune, Philadelphia, Pa.

[illegible] Mitchell, editor the Planet, Richmond, Va.

Charles W. Anderson, former collector internal revenue second district of New York City, now assistant commissioner of agriculture for State of New York, at present serving on exemption board, New York City.

Robert L. Vann, editor the Courier and assistant city solicitor, Pittsburgh, Pa.

R. S. Abbott, editor the Defender, Chicago, Ill.

George L. Knox, proprietor and publisher, the Freeman, Indianapolis, Ind.

Dr. H. M. Minton, 1130 South Eighteenth Street, Philadelphia, Pa.

A. E. Manning, publisher the World, Indianapolis, Ind.

Rev. Ernest Lyon, chairman colored branch of Maryland council of defense and consul general of the Republic of Liberia to the United States, Baltimore, Md.

Ralph W. Tyler, former Auditor for the Navy Department, contributing editor the Cleveland Advocate.

W. E. King, editor Dallas Express, Dallas, Tex.

George W. Harris, editor the News, New York City.

Edward A. Warren, editor the Amsterdam News, New York City.

P. B. Young, editor Journal and Guide, Norfolk, Va.

W. E. B. Du Bois, editor the Crisis, New York City.

Fred R. Moore, editor the New York Age, New York City.

H. C. Smith, editor the Gazette, Cleveland, Ohio.

J. E. Mitchell, editor the Argus, St. Louis, Mo.

C. K. Robinson, editor the Clarion, St. Louis, Mo.

Nelson C. Crews, editor the Sun, Kansas City, Mo.

Benj. J. Davis, editor the Independent, Atlanta, Ga.

George E. Haynes, director negro economics, Department of Labor, Washington, D. C.

J. Finley Wilson, editor the Eagle, Washington, D. C.

W. Calvin Chase, editor the Bee, Washington, D. C.

William H. Steward, editor American Baptist, Louisville, Ky.

Robert R. Moton, principal Tuskegee N. and I. Institute, Tuskegee Institute, Ala.

Maj. Allen W. Washington, president Virginia Organization Society, Hampton Institute, Hampton, Va.

Charles N. Love, editor the Texas Freeman, Houston, Tex.

Dr. Sumner A. Furniss, member of city council, representing the Ledger, Indianapolis, Ind.

Henry Allen Boyd publisher of the Nashville Globe, Nashville, Tenn.

Dr. A. M. Curtis, former president National Medical Association, Washington, D. C.

A. H. Grimke, president Washington Branch National Association for the Advancement of Colored People, Washington, D. C.

John R. Hawkins, financial secretary, A. M. E. Church, Washington, D. C.

Dr. Walter H. Brooks, pastor Nineteenth Street Baptist Church, Washington, D. C.

James A. Cobb, former assistant United States district attorney, Washington, D. C.

Robert H. Terrell, judge municipal court, District of Columbia, Washington, D. C.

George W. Cook, secretary of Howard University, Washington, D. C.

Roscoe Conkling Bruce, assistant superintendent public schools, Washington, D. C.

P. B. S. Pinchback, former governor of the State of Louisiana, Washington, D. C.

John C. Dancy, secretary church extension board of A. M. E. Zion Church, Washington, D. C.

The following gentlemen were invited, but were unable to be present:

Kelly Miller, dean of academy of arts and sciences, Howard University, Washington, D. C.

William H. Lewis, former Assistant Attorney General of the United States, now attorney at law Boston, Mass.

William Monroe Trotter, editor the Guardian, Boston, Mass.

C. E. Bush, publisher the Mosaic Guide, Little Rock, Ark.

An extract of the resolutions adopted by the conference was published in THE OFFICIAL BULLETIN on June 29, page 5.

MARINE CORPS CASUALTIES

(Continued from page 7.)

Wounded Severely.

Second Lieut. Aaron J. Ferch. Charles J. Ferch, father, Correll, Minn.

Sergt. Claude S. Corson. Mrs. L. S. Corson, mother, 60 South Main Street, Doylestown, Pa.

Sergt. John H. Kelly. Agnes Martin, aunt, 329 Kramer Avenue, Philadelphia, Pa.

Corpl. Frank J. Endicott. Ellen Endicott, mother, 26 Union Road, Walthouston, London, England.

Corpl. Odom P. Martin. John Martin, father, Ringling, Okla.

Corpl. Jerry Vucic. Mary Vucic, mother, 5233 South Albany Avenue, Chicago, Ill.

PRIVATES.

Robert A. Caughey. Doreas Caughey, mother, 15337 Vine Avenue, Harvey, Ill.

Paul W. Chantler. George W. Chantler, father, Box 415, Greene, N. Y.

Patrick J. Doyle. Margaret Cary, sister, 7 Bartley Street, Wakefield, Mass.

George A. Harney. Charles Harney, father, Woodson, Ill.

Richard M. Henneberger. Anna Henneberger, mother, 3622 Lierman Avenue, St. Louis, Mo.

Brady T. Leveridge. John P. Leveridge, father, Scranton, Tex.

James A. McCloskey. Susie McCloskey, mother, Box 62, Texas City, Tex.

William J. Manda. Joseph A. Manda, father, 191 Valley Road, West Orange, N. J.

John D. Quan. John Quan, father, 7158 Aberdeen Street, Chicago, Ill.

Louis Schoenlaub. Albert Schoenlaub, father, 5332 Easton Avenue, St. Louis, Mo.

Sam Spalter. Joseph Spalter, father, 928 Richmond Street, Cincinnati, Ohio.

Drue C. Wilson. James A. Wilson, father, Frenchcamp, Miss.

[Weeden E. Osborne, dental surgeon, United States Navy, attached to marines, killed in action June 6.]

Naval Casualties

The Navy Department reports the following casualties:

Charles Edward Nelson, chief machinist's mate, United States Naval Reserve Force, attached to U. S. sub chaser 193, drowned July 8 at Norfolk, Va. Father, Peter Nelson, 466 Prospect Place, Brooklyn, N. Y.

Evan W. Burton, fireman, second class, United States Navy, killed in automobile accident in France July 6. Mother, Margaret Frederick, 653 North Forty-sixth Street, Philadelphia, Pa.

Hopper Benson Parrott, fireman, first class, United States Navy, drowned from the U. S. S. *Louisiana* July 7. Enlisted at Baltimore. Father, George Parrott, 1206 Cleveland Street, Baltimore, Md.

FOOD LICENSE REVOKED.

Harriman, Tenn., Grain Company Guilty of Violating Rules.

The Food Administration authorizes the following:

The license of the Farmers' Hay & Grain Co., of Harriman, Tenn., has been revoked until further notice by the United States Food Administration, effective July 9. The company was found guilty of the unjustifiable rejection of two carloads of potatoes, also with failing to comply with directions of the food administrator.

The Ayres Mercantile Co., of Denver, Colo., will lose its license for 30 days, and has agreed to give $200 to the Red Cross, for collecting excess profits on mill feeds and flour. The firm admitted the facts as charged, and in addition to the other penalties will make a refund of the excess charges on the sales of mill feed. The suspension of its license will become effective July 15.

TRAINING CAMPS FOR INSTRUCTORS INTENDED TO PREPARE COLLEGE MEN FOR EFFICIENT MILITARY SERVICE

Colleges, Providing an Enrollment of 100 or More Able-Bodied Students Over 18 Years of Age, Will Be Entitled to Benefits of Course Soon to Be Established.

The War Department authorizes the following statement from the Adjutant General's office:

Training camps to fit men to act as assistant instructors in the new Students' Training Corps will be held at Plattsburg, N. Y., Fort Sheridan, and Presidio, Cal., from July 18 to September 16. Colleges have been invited to send a limited number of picked students and members of the faculties to these camps.

The camps will be conducted with a view to teaching the attendants to give military instruction to students, and it is believed that satisfactory results can be obtained from an intensive 60-day course.

Further instructions relative to the new corps have just been issued. These are being sent to all colleges that have signified their willingness to establish corps among their students.

The purpose of the new plan, as shown in the new instructions, is to develop as a great military asset the large body of young men in the colleges. This will be accomplished by providing efficient military instruction under the supervision of the War Department for students in all colleges enrolling the required minimum of students. In order to receive this instruction, all students over 18 years of age must volunteer and enlist in the Army of the United States.

Requirements for Colleges.

Only colleges which can provide an enrollment of 100 or more able-bodied students over 18 years will be entitled to the course. The intention is to extend the system of instruction for college students to the largest practicable extent in view of the available supply of officers and equipment. To be classified as one of the institutions of college grade to which the privilege of maintaining a Students' Army Training Corps unit is extended, an institution must require for admission to its regular curricula graduation from a standard secondary school or an equivalent; must provide general collegiate or professional curricula covering at least two years of not less than 33 weeks each; and must be carried in the lists of higher institutions prepared by the United States Commissioner of Education.

Institutions of college grade will include, providing all other conditions are met: Colleges of arts and sciences; engineering schools; schools of mines; agricultural colleges; colleges of pharmacy, veterinary, medicine; teachers' colleges; and law, medical, dental, graduate, and normal schools; junior colleges and technical institutions. Students enrolled in preparatory departments of these schools and colleges can not at present be considered eligible for enlistment in the units, and such students can not be counted by college authorities in reckoning the 100 able-bodied students enrolled for a military training unit.

Organization of Units.

The units will be organized in the colleges in the various branches of the service in accordance with the needs of the Army as determined by the War Department, taking into account the character of the institution. The majority of the training units will be for instruction in the line branches of the service. Most of the units will be infantry; others will be field artillery, heavy artillery, and possibly one or more cavalry units. A limited number of units for training in the staff departments of the service will be organized in technical schools.

All qualified students in the selected colleges will be encouraged to enlist. The enlistment contract of all students will constitute them members of the Army of the United States, and they will become thereby subject to active service at the call of the President. The enlisted students will be on furlough status until called to the colors, but will not receive pay or allowance except when attending summer training camp, in which case they will be entitled to transportation and rations. All enlistments will be in the grade of private.

It will be the policy of the Government not to call members of the Students' Army Training Corps units to active duty until they reach draft age, unless urgent military reasons compel an earlier call. A system will be devised whereby the military instructors of the colleges will keep the military authorities informed of the status of the students as to their coming of draft age, and they will be called after they have finished the current instruction year. The student body is not to be made a deferred or favored class under the selective-service act. Arrangements are made for the discharge of students from the units in appropriate cases.

Summer Camps a Feature.

The character of the training will depend on the kind of training unit which is organized in the particular institution. The standard time to be allotted to military work will be 10 hours per week during the college year supplemented by six weeks of intensive training in a summer camp. The 10 hours a week will not involve the hours of outdoor work in drill.

The summer camps will be an important feature of the system. These will be active for six weeks, and there will be an intensive and rigid course of instruction under experienced officers.

The plan will provide approximately 650 hours of military work per annum. It is expected that this will qualify a considerable percentage of the students to enter officers' training camps on being called to the colors, and a large percentage of the remainder to serve as noncommissioned officers.

Officer instructors and noncommissioned officer instructors will be provided by the War Department when available. Officers returning from overseas and unfit for further field service will be utilized. The Government will supply the uniforms and equipment whenever available.

The Students' Army Training Corps will be supervised and controlled by the training and instruction branch, war plans division of the General Staff, in accordance with the instructions of the Chief of Staff. An advisory board to this committee, representing educational interests, has already been appointed by the Secretary of War. This will insure the closest cooperation between the War Department and the colleges.

GUARDING SOLDIERS' CAMPS AGAINST FLIES AND MOSQUITOES

The following statement is authorized by the War Department from the Surgeon General's office:

To guard troops stationed in camps and cantonments from disease carried by mosquitoes and flies, the medical department of the Army has installed a system of prevention which is safeguarding not only the soldiers but also civilians living in the neighborhood of training camps.

There is attached to each camp a division surgeon who is responsible for the health of the camp. Assisting him is a sanitary inspector who has the assistance of a sanitary engineer and from 100 to 200 enlisted men who are continually employed in work designed to protect the health of the soldiers.

Special attention is now being given in all camps to cleaning up spots where mosquitoes and flies breed. In some cases it has been necessary to dig channels in streams, drain swamps, and put in elaborate ditching systems in order to clean up stagnant pools and streams. In those cases where it has been found impossible or impracticable to drain swamps and to do other work of a similar nature, there has been installed a system for keeping these slow-moving streams and still bodies of water covered with oil. At all points within the camp where there is the slightest possibility of mosquitoes or flies breeding daily spraying of oil is done.

Arrangements have been completed with the Federal Public Health Service to carry out a similar program in the territories adjacent to the camps. The Health Service has agreed to fill bogs, open streams, and drain swamps and continue the oil spraying for a distance of 1 mile around all camps.

Special precautions have been taken to prevent the spread of disease by flies. With the approach of the fly season a general order was sent to all division surgeons and other health officers to take all necessary steps to prevent the breeding of flies. Instructions were given on the disposal of materials that were likely to become breeding spots. Arrangements were made to protect all food from flies. With this end in view all buildings in which food is prepared or stored were screened. The entrance to the buildings have been vestibuled. An added guard is the placing of flytraps in all buildings. An average of 6,000 such traps have been placed in each camp. More than 22,700,000 square feet of screening has been placed in all camps.

Fuel Consumption in Breweries Cut One Half by Administrator's Order

New Regulation in Effect from July 1, 1918, to June 1, 1919—Text of Rule.

The Fuel Administration issues the following:

The United States Fuel Administration after consultation with the War Industries Board has issued a regulation curtailing the consumption of fuel in breweries to 50 per cent of the average annual amount of fuel consumed at such brewery during the period from January 1, 1915, to December 31, 1917.

Text of the Order.

The order reads:

U. S. FUEL ADMINISTRATION,
Washington, D. C., July 3, 1918.

REGULATION RESTRICTING FUEL CONSUMPTION BY BREWERS.

It appearing to the United States Fuel Administrator, after consultation with the chairman of the War Industries Board, in view of the necessity for conserving the country's resources for the prosecution of the war and in consideration of the increased demand for fuel for industries engaged in the production of munitions and commodities required in the conduct of the war, and the fact that owing to the limitations upon transportation facilities and other causes resulting from the war, there is an insufficient supply of fuel for these purposes, and also for all the other purposes existing in normal times, that it is essential to the national security and defense for the successful prosecution of the war, and for the support and maintenance of the Army and Navy, to restrict the consumption of fuel in certain lines of industry; and that among such industries is that of the brewing of beer, ale, porter, and other cereal beverages, as defined in the regulation hereinafter prescribed; and the United States Fuel Administrator hereby finding that the restriction of fuel consumption to the extent specified in said regulation is reasonable, and that such restriction will contribute to the successful outcome of the war through the releasing of fuel and other resources for war purposes, and will result, with other limitations upon the use of fuel in various other lines of industry through the establishing of similar regulations, in an equitable distribution and apportionment of fuel among consumers, in accordance with the relatively essential nature of their product to the prosecution of the war;

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby makes and establishes the following regulation effective until further or other order, and subject to general or specific modification hereafter from time to time, and at any time:

REGULATION RESTRICTING FUEL CONSUMPTION BY BREWERS.

1. That the term "brewer" in this regulation shall be construed to include any person, firm, association, or corporation, engaged in the brewing of alcoholic or nonalcoholic beer, ale, porter, or other cereal beverages.

2. That the term "brewery" shall be construed to mean any building, private or public, in which artificial heat is used to aid in the production of alcoholic or nonalcoholic beer, ale, porter, or other cereal beverages.

3. That no brewer, as defined above, shall at any of his breweries consume, burn, or use fuel of any description, including coal, coke, natural gas, fuel oil, or other petroleum products, or use power derived from any such fuel, for or in connection with the brewing of either alcoholic or nonalcoholic cereal beverages, including beer, ale, porter, and beer substitutes, as above defined, during the year beginning July 1, 1918, and ending June 30, 1919, to an amount in excess of 50 per cent of the average annual amount of the fuel consumed at such brewery during the period from January 1, 1915, to December 31, 1917.

4. That where it appears that any particular brewery was not in existence on January 1, 1915, then and in such case the period during which it has been in existence prior to January 1, 1918, shall be considered and used as a basis in determining the quantity of fuel that may be consumed under this regulation during the year beginning July 1, 1918.

5. That any brewer as above defined owning and operating more than one brewery for the brewing of alcoholic or nonalcoholic beer, ale, porter, or other cereal beverages, may combine such breweries and use in such combined brewery the fuel allotted to each of such breweries by this regulation, provided the total amount of fuel so used at such combined brewery shall not be in excess of the amount of fuel permitted to be used by all of such breweries when operated separately.

6. That whenever two or more brewers find that a further fuel economy would result from using in one brewery the allotments of fuel as provided for by this regulation to two or more breweries then, upon application to the United States Fuel Administration and upon receipt of a permit therefor, such brewers may use the aggregate allotments of fuel to their respective breweries at one or more breweries operated jointly by them, provided the amount of fuel so used shall not exceed the amount of fuel permitted to be used by all such breweries when operated separately.

7. That any such brewer violating or refusing to conform to the above regulation shall be liable to the penalty prescribed in the aforesaid act of Congress.

H. A. GARFIELD,
United States Fuel Administrator.

Primary Purpose of the War Finance Corporation

The Treasury Department authorizes the following:

The War Finance Corporation was designed primarily to extend credit through the banks of the country, and not directly to borrowers, to industries which are necessary or contributory to winning the war. Only in exceptional cases, in rare instances, will loans be made directly to industries.

War conditions have brought to bear a very heavy burden on the banks of the country. They are called upon to assist largely in financing the Government, as well as to meet the increased legitimate financial demands of the industries of the country. The War Finance Corporation was created to enable them to continue to furnish essential credits for war industries and enterprises necessary or contributory to the prosecution of the war.

The corporation, therefore, is an instrumentality to which the banks can resort to obtain assistance to finance war industries and is not intended to be a direct lender to corporations or individuals.

"MODIFIED RUN OF MINE" COAL PRICES ESTABLISHED

The Fuel Administrator issues the following:

An order of the United States Fuel Administration, effective to-day (July 5), provides regulations fixing the prices of "modified mine run" coal f. o. b. the mines. "Run of mine" coal describes the product as it comes from the mine without going through the process of separation into sizes. "Modified mine run" coal is described as "run of the mine from which a certain portion of lump has been screened."

The regulation fixes the prices for "modified mine run" at not to exceed the applicable Government mine prices for screenings at the mine where such "modified mine run" coal is produced plus the following percentages of the margin or difference between the applicable Government mine prices for mine run and screenings at such mines:

Run of mine passed through 2-inch openings, 40 per cent of such margin.

Run of mine passed through 3-inch openings, 75 per cent of such margin.

Run of mine passed through 4-inch openings, 90 per cent of such margin.

Run of mine passed through 5-inch openings, 95 per cent of such margin.

Run of mine passed through 6-inch or larger openings shall take the applicable Government price for run of mine.

GIVES $1,000 TO RED CROSS.

The Food Administration authorizes the following:

The Savannah (Ga.) Chapter of the Red Cross has been given $1,000 by the Schroeder-Schnaars Co., wholesale grocers. This contribution, in addition to suspension of business for one week, was made in lieu of other action by the Food Administration, on a charge of profiteering in flour and sugar.

COAL PRODUCTION FOR WEEK ENDED JUNE 29 NEAR RECORD

The United States Fuel Administration authorizes the following:

The second highest weekly bituminous coal production in history is shown for the week ended June 29 by reports furnished to the United States Fuel Administration by the Geological Survey. The total estimate for the week (including lignite and coal made into coke) is estimated at 12,458,000 net tons as against 12,003,000 net tons during the week of June 22, and as against 11,583,000 net tons for the corresponding week of 1917. The record week was that ending June 15, when the production was 12,606,000 tons.

Production Per Day.

The average production per working day is estimated at 2,076,000 net tons, for the week ending June 29, an increase of 75,000 net tons over the preceding week, or 3.8 per cent; over the corresponding week of 1917 the increase per diem is 145,000 tons, or 7.5 per cent.

During the week all coal districts showed increased shipments save central Pennsylvania and Alabama. The decrease from Alabama was 2.4 per cent, and that from central Pennsylvania amounted to 1.8 per cent. Material increases in shipments from northeastern Kentucky, the high volatile fields of West Virginia, and the smokeless fields of West Virginia amounted to 13 per cent; from southwest Virginia, 11.8 per cent; from Ohio, 10 per cent; and from the Fairmont district, 5.7 per cent.

Anthracite shipments increased 471 cars during the week ending June 29, the total movement amounting to 41,641 carloads.

Working Conditions.

A reflection of the early ordering movement is to be seen in the fact that the percentage of production lost on account of no market fell to 0.2 per cent, the lowest point of the year.

Transportation showed a slight improvement during the week as did market conditions; there was a slight increase in the losses attributed to labor shortage.

During the week ended June 22 mines operated to 79.6 per cent of their full-time output. The percentages of full time lost are accounted for as follows: Car shortage, 10.6; labor shortage including strikes, 4.6; mine disability, 3.2; no market, 0.2; all other causes, 1.8.

PENNSYLVANIA COAL PRICES REVISED IN CERTAIN COUNTIES

The United States Fuel Administration issues the following:

Applications having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined in the Counties of Allegheny, Westmoreland, Fayette, Greene, and Washington, in the State of Pennsylvania, except (1) that portion of Allegheny County from the lower end of Tarentum Borough north to the county line, (2) the territory in Westmoreland County from a point opposite the lower end of Tarentum Borough north along the Allegheny River to the Kiskiminitas River and along the Kiskiminitas River eastward to the Conemaugh River and continuing along the Conemaugh River to the county line of Cambria County, (3) operations on Indian Creek in Westmoreland County, and (4) operations in the Ohio Pyle district of Fayette County, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917.

Hereby orders and directs that bituminous coal mined in the counties of Allegheny, Westmoreland, Fayette, Greene, and Washington, in the State of Pennsylvania, except (1) that portion of Allegheny County from the lower end of Tarentum Borough north to the county line; (2) the territory in Westmoreland County from a point opposite the lower end of Tarentum Borough north along the Allegheny River to the Kiskiminitas River and along the Kiskiminitas River eastward to the Conemaugh River, and continuing along the Conemaugh River to the county line of Cambria County; (3) operations on Indian Creek in Westmoreland County; and (4) operations in the Ohio Pyle District of Fayette County, in the State of Pennsylvania, may be sold at prices f. o. b. cars at the mine not to exceed $1.90 per net ton for run of mine, $2.15 per net ton for prepared sizes, $1.90 per net ton for slack or screenings, plus the 45-cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., June 29, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Revised Prices Announced for Soft Coal on Cars at Mines in the State of Ohio

The United States Fuel Administration issues the following:

Applications having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined in the State of Ohio, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined in the various districts of the State of Ohio may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton, viz:

	Run of mine.	Prepared sizes.	Slack or screening.
District No. 1, to wit:			
The county of Meigs and the townships of Cheshire and Addison in the county of Gallia	$2.35	$2.60	$2.10
District No. 2, to wit:			
The counties of Vinton, Jackson, Lawrence, Sciota, Pike, and the county of Gallia except the townships of Cheshire and Addison	3.00	3.25	2.85
District No. 3, to wit:			
The counties of Hocking and Athens, and the township of Coal and the south half of the township of Monroe in the county of Perry	2.10	2.35	1.85
The Bailey Run or No. 7 seam	2.50	2.75	2.25
District No. 4, to wit:			
The counties of Washington and Noble, the county of Morgan except the township of Homer, and the county of Perry except	.....	.....	.....
District No. 5, to wit:			
The counties of Guernsey and Muskingum	2.25	2.50	2.00
District No. 6, to wit:			
The counties of Holmes, Tuscarawas, Carroll, Coshocton, and the townships of Monroe, Franklin, Washington, and Freeport in the county of Harrison, and the townships of Washington and Yellow Creek in the county of Columbiana, and the townships of Brush Creek, Saline, Springfield, Ross, and Knox in the county of Jefferson	2.50	2.75	2.25
District No. 7, to wit:			
The counties of Trumbull, Portage, Summit, Mahoning, Medina, Wayne, and Stark, and the county of Columbiana except the townships of Washington and Yellow Creek	3.00	3.25	2.85
District No. 8, to wit:			
The county of Monroe, the county of Belmont except the township of Warren, the county of Harrison except the townships of Monroe, Franklin, Washington, and Freeport, and the county of Jefferson except the townships of Brush Creek, Saline, Ross, Knox, and Springfield	1.90	2.15	1.90

To the above prices there may be added the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., June 29, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

TO MANAGE FIELD FORCE.

The Fuel Administration issues the following:

The United States Fuel Administration announces the appointment of Henderson W. Knott to manage the field force of engineers and inspectors which is at work among the 250,000 power plants of the country, carrying out a campaign of instruction and inspection designed to bring the use of fuel for the production of power to the highest possible efficiency and economy. Mr. Knott has been the general manager of the Morgan Crucible Co., of New York City.

Analysis of Coal Production Based on Reports by U. S. Geological Survey

The Fuel Administration issues the following:

While the reports of bituminous coal production for the week ended June 22, furnished the Fuel Administration by the United States Geological Survey, indicate a sharp decline compared with the preceding week, they still indicate that the mines have adjusted their stride to a basis of 12,000,000 tons a week. This weekly output is not far below the average necessary to provide the tonnage to meet the estimated requirements of the country.

Credit Given the Miners.

The significant fact is disclosed in the report of working conditions for the week ended June 15 that the record coal production registered during that week was accomplished without any enlargement of the working forces at the mines. That is to say, the output of the mines was materially enlarged by the individual efforts of the men at work, and while the tipples worked approximately 3 per cent less hours in the week the men were doing more to keep the tipples busy. In view of the efforts being made to enlarge production by appeal to the men to do their best, this indication of their response is gratifying to the Fuel Administration.

Output of Soft Coal.

The output of soft coal (including lignite and coal made into coke) for the week ended June 22 is estimated at 12,016,000 net tons, a decrease compared with the preceding week of 610,000 net tons, or 5 per cent and an increase over the corresponding week of 1917 of 701,000 net tons, or slightly over 6 per cent. Revised figures upon the output for the week of June 15 place the production at 12,626,000 net tons. Former reports showed 12,571,000 net tons.

The average production per working day during the week of June 22 is estimated at 2,003,000 net tons, as against 2,104,000 net tons during the previous week and 1,888,000 net tons during the corresponding week of 1917.

Falling Off in All Districts.

The falling off in production is reported from all producing districts. Shipments from Ohio and Alabama decreased the most, amounting to 7 and 12 per cent, respectively. Central and western Pennsylvania shipments decreased 4 per cent.

Anthracite shipments for the week of June 22 amounted to 41,170 cars, being a decrease of 790 cars, or 1.9 per cent.

A compilation of the bituminous coal production during the present coal year, showing the output by weeks, the percentage of full-time capacity of the mines, and the percentage of full time lost on account of car shortage, is as follows:

Week of—	Tons.	Full-time output.	Full time lost on account of car shortage.
		Per cent.	*Per cent.*
Apr. 6 (Mitchell Day)	9,317,000	61.9	12.5
Apr. 13	10,864,000	70.1	18.1
Apr. 20	11,039,000	72.2	16.2
Apr. 27	11,803,000	74.7	14.4
May 4	11,554,000	75.6	13.1
May 11	11,825,000	76.6	11.2
May 18	11,712,000	77.2	11.9
May 25	11,801,000	75.8	12.1
June 1 (Decoration Day)	10,747,000	70.6	8.4
June 8	12,401,000	82.3	7.8
June 15	12,626,000	79.7	10.9
June 22	12,016,000	.....	.....
Total for 12 weeks	137,705,000		

Working Conditions Week of June 15.

During the week of June 15, during which week coal production reached its highest mark, the mines operated up to 79.7 per cent of their full-time output. The percentages of full time lost are accounted for as follows: Car shortage, 10.9 per cent; labor shortage including strikes, 4.7 per cent; mine disability 3 per cent; "no market," 0.3 per cent; all other causes, 1.4 per cent. Compared with the previous week, the mines produced a smaller percentage of their full-time output, though the total production was enlarged. This is attributed to no other cause than actual increase in capacity due to more regular working by individual men. That is to say, although the tipples worked approximately 3 per cent less hours in the week, more men were in the mines producing coal.

Insufficient Car Supply.

Insufficient car supply hampered production in many of the important coal producing fields, notably Illinois, Ohio, western Pennsylvania, Somerset County, high volatile district of West Virginia, Cumberland-Piedmont district, northeastern Kentucky and in the Western States. Illinois also reported labor shortage. Car shortage based upon full time capacity in some of the districts ranged as high as 28 per cent.

NEW ENGLAND COAL DEALERS WARNED TO MAKE REPORTS

The Fuel Administration issues the following:

Telegrams were sent by the United States Fuel Administration to 750 retail coal dealers in New England, notifying them that unless they furnished to the Fuel Administration by July 10 the weekly reports required of them by a recent order their supply of coal will be cut off. The State administrators within the States affected have been notified of the action of the Fuel Administration, and have been furnished with a list of the dealers who have failed to comply with the orders.

Importance of Reports.

The reports in question furnish each State fuel administrator in New England and the Federal Administration in Washington with information as to the receipts of each dealer and his deliveries to domestic users and to industrial plants, together with his stocks at the end of each week. It is only by means of these reports that the Fuel Administration will be able to effect an equitable distribution of coal and to properly take care of the domestic consumer. The Fuel Administration authorities in Washington are determined that a sufficient supply of coal shall be provided for domestic consumption and that it shall go to domestic consumers and not be dissipated among industrial plants. This program can only be carried out through the regular receipt of the reports called for.

Purpose Fully Explained.

The purpose of the reports has been fully explained to the dealers and letters have been written to those who have failed to respond. If it is their notion that the Fuel Administration did not mean what it said when it ordered these reports made, the telegrams that went out left no doubt that several hundred dealers in New England will either begin making these reports promptly and send them in regularly, or go out of business.

System to be Extended.

The system of reports required by the Fuel Administration of dealers in New England will be extended to other parts of the country and letters will go out to them the first of next week, calling on them for similar reports beginning with the first week in July. The plan was first put into effect in New England because of the difficulties surrounding coal distribution in that section.

The consequences of failure of dealers to act promptly, indicated in the telegrams to New England dealers, will be followed in like cases elsewhere.

Increase in Limit of Postal Saving Deposits

OFFICE OF THIRD ASSISTANT POSTMASTER GENERAL,
Washington, July 2, 1918.

To Postmasters at Postal-Savings Depository Offices:

The limit on the amount that a postal-savings depositor may have to his credit at interest has been increased from $1,000 to $2,500. Noninterest-bearing deposits can not be accepted. It is requested that postmasters notify depositors who have $1,000 to their credit that $2,500 may now be accepted. The authority for accepting larger deposits is contained in the Postal Service Appropriation Act for 1919, approved July 2, 1918.

A. M. DOCKERY,
Third Assistant Postmaster General.

Naval Fireman Killed by Fall.

The Navy Department is informed that Guy Casey, fireman, first class, United States Navy, died July 5 from a fractured skull, caused by a fall down a hatch aboard the U. S. S. *Pittsburgh*. On listment on December 23, 1914, at St. Louis, Casey gave as his next of kin his mother, Mrs. Menerva Menke, 925 North Sixteenth Street, St. Louis.

FINED UNDER FOOD CONTROL ACT.

The Food Administration issues the following:

The United States District Court of Portland, Oreg., has imposed fines of $500 and $250 respectively on Fred Kebbe, sr., and Fred Kebbe, jr., of Mohler, Oreg., for flour hoarding, after an investigation had been made and evidence secured by operatives of the United States Secret Service. The prosecution and conviction were based on the Food Control Act.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

The Federal Reserve Board authorizes the following:

Aggregate gains of over 10 millions in gold reserves, combined with substantial declines in net deposits and considerable increases in reserve note circulation, are indicated in the Federal Reserve Board's weekly bank statement issued as at close of business on July 5, 1918.

Investments.—Following large withdrawals of funds by the Government from depositary institutions, discounted bills on hand at the Federal reserve banks show an increase for the week of 207.6 millions, all the banks, notably New York, Chicago, Cleveland, Boston, and Philadelphia, reporting largely increased holdings of discounted paper. Of the total shown, 52.3 per cent as against 50 per cent the week before, is represented by war paper, i. e., members' collateral notes and customers' paper secured by United States war obligations. Acceptances on hand show a further decrease of 4.9 millions, the largest decreases being shown for the New York, Philadelphia, and Cleveland banks. United States bond holdings went up about 2.5 millions, the Boston bank reporting an even larger increase. Short-term securities of the Government show a decline of 201.5 millions following the redemption by the Government of the 195 millions of Treasury certificates reported last week among the investments of the New York bank. Total earning assets show an increase for the week of 3.7 millions.

Increase In Deposits.

Deposits.—Government deposits increased 43.9 millions, member banks' reserve deposits decreased 187.9 millions, and net deposits decreased 55.9 millions. The New York banks report decreases of 6.7 millions in Government deposits and 156.8 millions in member banks' deposits.

Reserves.—Total cash reserves show a gain of about 9 millions, Chicago and Cleveland showing the largest gains in reserves. The ratio of cash reserves to aggregate net deposit and Federal reserve note liabilities remains unchanged at 61.7 per cent.

Federal reserve circulation.—Federal reserve agents report additional issues of 68.3 millions of notes. The banks increased their outstanding circulation of Federal reserve notes by 69.4 millions, and slightly increased their liability on outstanding Federal reserve bank notes.

Capital.—A total increase of $305,000 in paid-in capital, reported by eight banks, is due largely to payment for reserve bank stock by newly admitted members, the New York, Richmond, and Chicago banks reporting the largest gains for the week.

Condition of Member Banks.

Large increases in Government deposits, accompanied by substantial decreases in other demand deposits, also in holdings of Government securities, are shown in the board's weekly statement of condition on June 28 of 681 member banks in leading cities.

United States bonds other than circulation bonds show a decrease of about 19.3 millions, largely at the banks outside the 3 central reserve cities. Holdings of certificates of indebtedness declined about 100 millions, the banks in the central reserve cities alone showing a decrease under this head of 159.5 millions. But little change is shown in the amounts of loans supported by United States war obligations. All other loans and investments of the banks outside the central reserve cities show a smaller total than the week before, while for the central reserve city banks an increase of 162.3 millions in this item is noted. The ratio of United States war securities and loans protected by such securities to total investments shows a further decline for the week from 13.9 to 13.6 per cent. For the central reserve city banks this ratio declined from 18.4 to 15.8 per cent.

Net Demand Deposits.

Aggregate net demand deposits show an apparent decrease of 174.8 millions, of which 46.8 millions represent the decrease for the banks in the three central reserve cities. But little change is shown in the aggregate volume of time deposits, while reported Government deposits, largely redeposits of tax funds, show an increase of 318.5 millions. Reserves gained 123.5 millions, while cash in vault shows some loss.

For all reporting banks the ratio of investments to total net, including Government, deposits shows a decline from 121.3 to 118.7 per cent. For the central reserve city banks, owing to the relatively larger increase in total deposits, this ratio shows a larger decline from 113.5 to 109.2 per cent. The ratio of combined reserve and cash to net deposits rose from 14.9 to 15.6 per cent for all reporting banks, and from 15.6 to 17.8 per cent for the banks in the three central reserve cities. Excess reserves show a total increase of 142.5 millions. For the central reserve city banks an increase of excess reserves from 46.7 to 210.5 millions is noted.

BRITISH EMBARGO ON COCAINE.

Importation of Opium into the United Kingdom Also is Prohibited.

The consul general at London reported by cable of June 26 that the British restrictions on the importation of cocaine and opium have been amended to read as follows:

The importation into the United Kingdom of cocaine and opium is prohibited. The word "cocaine" includes ecgonine and any substance, whether a preparation, admixture, extract, or otherwise, containing one-tenth of 1 per cent or more of cocaine or ecgonine or of any salt or derivative thereof. The word "opium" means raw opium, powdered or granulated opium, or opium prepared for smoking, and includes any solid or semisolid mixture containing opium.—Commerce Reports.

ORDERED TO SAN FRANCISCO.

Special orders, No. 133.

429. The following-named officers of the Medical Corps are relieved from duty in the Hawaiian Department and will proceed to San Francisco, Cal., and report by telegraph to The Adjutant General of the Army and the Surgeon General of the Army for instructions: Lieut. Col. Herbert C. Gibner, Maj. Charles M. Walson. [210.321, Med.]

WAR DEMAND FOR ATHLETIC SPORTING GOODS IN ENGLAND

Vice Consul Hayes, at London, reports:

The extent to which the war has diminished the demand for athletic goods in England has been estimated by the head of a prominent firm, manufacturing and importing sporting goods, as being about 60 per cent on all goods except footballs, boxing gloves, and baseball equipment. In these lines this particular firm has experienced an increased trade, due to orders from the Army far in excess of the prewar Army requirements. In this increase, however, it is believed that this firm has shared to a greater extent than the average sporting-goods house, because it was in a peculiarly advantageous position to supply large quantities.

The demand for baseball equipment has at all times during the war far exceeded the supply. This is directly attributable to the coming of the Canadian expeditionary forces, and the limited supply of baseball paraphernalia obtainable. From time to time the leading firms have imported large quantities of baseball goods, but, unable to gauge the market for the coming year, continued to underestimate the demand until the restriction of imports made the obtaining of a sufficient stock extremely difficult.

American and Canadian Teams.

During the summers of 1915 and 1916 various leagues were formed, composed of teams representing Canadian hospitals and teams of young American college men employed in the London branches of American firms. Games were played at summer resorts in England and Ireland, for charity, to exceptionally large crowds, and the interest displayed by the British public encouraged other hospitals to place teams in the field. In 1917 there were in the Canadian Army 101 organized ball teams, and probably another 600 or 700 that were not members of any league or officially recognized.

At present, when the American Army and the American Navy have forces in England, stocks of baseball goods are almost exhausted, and it is impossible to satisfy a constantly increasing demand from camps and stations for balls, bats, gloves, masks, shoes, protectors, etc. It is estimated that there will be a demand for baseball gear during the present season to outfit 2,000 teams, and all of it must be brought over from New York.

The books of a large London sports store indicate the increased demand for baseball equipment since 1914. In 1915 the approximate value of its imports was $10,000; in 1916, $30.000; in 1917, $40,000; and in 1918, to date, $57,500. On the other hand, in some lines, such as cricket, tennis rackets, and golf clubs, the demand has decreased by approximately 70 per cent.

In studying the foregoing statistics it is well to bear in mind that the age limit for the British Army was 41, which applied to all who had not reached the age of 41 years in April, 1916, and that the raising of this limit to 50 is now certain. In short, every able-bodied man is either in the Army or engaged in some work of such national importance that he is unable to take the time to pursue the ordinary sports.—Commerce Reports.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE ORDNANCE DEPARTMENT OF THE U. S. ARMY

Contracts with the following firms have been placed by the Army Ordnance Department:

Russell Manufacturing Co., Middletown, Conn.
The Hershaw Fuller & Goodwin Co., Cleveland, Ohio.
Chatham Machine & Tool Works (Inc.), New York, N. Y.
Allison Experimental Co., Indianapolis, Ind.
Carlson-Wenstrom Co., Philadelphia, Pa.
Wagner Electric Manufacturing Co., St. Louis, Mo.
Root & Vandervoort Engineering Co., East Moline, Ill.
Pan-American Munitions Corporation, New York, N. Y.
Remington Arms, U. M. C. Co., Bridgeport, Conn.
Frankford Arsenal, Philadelphia, Pa.
Morris & Co., Chicago, Ill.
The Stanley Works, New Britain, Conn.
Pyrene Manufacturing Co., New York, N. Y.
Empire Tire & Rubber Co., Trenton, N. J.
United States Tire Co., Washington, D. C.
Padgitt Bros. Co., Dallas, Tex.
The Nash Motors Co., Kenosha, Wis.
J. Fegeley & Son, Pottstown, Pa.
Lamson Co., Washington, D. C.
H. C. Berry, Philadelphia, Pa.
H. Keppers Co., Pittsburgh, Pa.
Frankford Arsenal, Philadelphia, Pa.
Messrs. Leonard & Son, London, Ontario, Canada.
Buffalo-Pitts Co., Buffalo, N. Y.
C. Keck Manufacturing Co., Cincinnati, Ohio.
Universal Rolling Mills Co., Bridgeville, Pa.
Remington Arms, U. M. C. Co., New York, N. Y.
Aluminum Goods Manufacturing Co., Manitowoc, Wis.
American Asbestos Co., Norristown, Pa.
Mount Vernon-Woodberry Mills (Inc.), New York, N. Y.
The American Mills Co., Waterbury, Conn.
John F. Betz & Son (Ltd.), Philadelphia, Pa.
Receivers Federal Dyestuff & Chemical Corporation, New York, N. Y.
Winchester Repeating Arms Corporation, New Haven, Conn.
The Stanley Works, New Britain, Conn.
Aluminum Goods Manufacturing Co., Manitowoc, Wis.
Krasberg Manufacturing Co., Chicago, Ill.
L. C. Chase & Co., Boston, Mass.
Canvas Products Co., St. Louis, Mo.
Carr Fastener Co., Cambridge, Mass.
Smity & Dove Manufacturing Co., Andover, Mass.
Mount Vernon-Woodberry Mills (Inc.), New York, N. Y.
Glendale Elastic Fabrics Co., New York, N. Y.
The American Mills Co., Waterbury, Conn.
Mount Vernon-Woodberry Mills (Inc.), New York, N. Y.
Keller Engineering & Sales Service, Philadelphia, Pa.
R. T. Rugg & Co., Newark, Ohio.
F. H. Noble & Co., Chicago, Ill.
Charles B. Parker Co., Meriden, Conn.
Central Stamping Co., New York, N. Y.
R. Wallace & Sons Co., Wallingford, Conn.
Eberhard Manufacturing Co., Cleveland, Ohio.
United States Horseshoe Co., Erie, Pa.
Plant Bros. & Co., Manchester, N. H.
Wyoming Shovel Works, Wyoming, Pa.
United States Horseshoe Co., Erie, Pa.
The M. S. Little Manufacturing Co., Hartford, Conn.
Watertown Arsenal, Watertown, Mass.
John A. Roebling's Sons Co., Trenton, N. J.
E. I. Du Pont de Nemours & Co., Wilmington, Del.
R. H. Long, Framingham, Mass.
Liberty-Durgin (Inc.), Haverhill, Mass.
L. C. Chase & Co., Boston, Mass.
R. H. Long, Framingham, Mass.
McIntyre Burrall Co., Green Bay, Wis.
Marshall-Wells Co., Duluth, Minn.
Sears Saddlery Co., Davenport, Iowa.
J. C. Nichols Co., Sheboygan, Wis.
Marshall-Wells Co., Duluth, Minn.
The Raybestos Co., Bridgeport, Conn.
The Raybestos Co., Bridgeport, Conn.
The Ansonia O. & C. Co., Ansonia, Conn.
Empire Weaving & Belting Co., East Rochester, N. Y.
Wood Shovel & Tool Co., Piqua, Ohio.
Clinton Saddlery Co., Clinton, Iowa.
Marshall-Wells Co., Duluth, Minn.
Universal Rolling Mill Co., Bridgeville, Pa.
Dodge Bros., Detroit, Mich.
McIntyre Burrall Co., Green Bay, Wis.
L. Frank Saddlery Co., San Antonio, Tex.
The Gould-Mersereau Co., New York, N. Y.
Strauss Saddlery Co., St. Louis, Mo.
American Brass Co., Waterbury, Conn.
Remington Arms, U. M. C. Co., Bridgeport, Conn.
Philadelphia Roll & Machine Co., Philadelphia, Pa.
Slocum, Avram & Slocum Laboratories, New York, N. Y.
J. N. La Pointe Co., New London, Conn.
R. H. Long, Framingham, Mass.
W. H. Evans, New York, N. Y.
H. W. Cooper Saddlery Hardware Manufacturing Co., Moline, Ill.
R. H. Long, Framingham, Mass.
Koken Barber Supply Co., St. Louis, Mo.
F. Burkart Manufacturing Co., St. Louis, Mo.
Nicholson File Works, Providence, R. I.
O. B. North & Co., New Haven, Conn.
Marshall-Wells Co., Duluth, Minn.
International Nickel Co., New York, N. Y.
Springfield Armory, United States Army, Springfield, Mass.
North & Judd Manufacturing Co., New Britain, Conn.
Koken Barber Supply Co., St. Louis, Mo.
Sears Saddlery Co., Davenport, Iowa.
The Raybestos Co., Bridgeport, Conn.
Western Manufacturing Co., San Francisco, Cal.
Sears Saddlery Co., Davenport, Iowa.
Remington Arms, U. M. C. Co., Bridgeport, Conn.

Marine Corps Contracts

Contracts have been placed by the Quartermaster, United States Marine Corps, as follows:

June 26, 1918.

No. 213-19. Alart & McGuire, Brooklyn, N. Y., pickles.
No. 201-19. Best Clymer Manufacturing Co., St. Louis, Mo., jam.
No. 263-19. The Linen Thread Co., New York, N. Y., thread.
No. 264-19. Austin Nichols & Co. (Inc.), Brooklyn, N. Y., subsistence.
No. 1178. Phillip Levy & Co., Norfolk, Va., furniture.
No. 270-19. The Art Metal Works, Newark, N. J., medals.
No. 153-19. Wm. H. Devitt, Philadelphia, Pa., soap and stove polish.
No. 153-19. The Penn Chemical Works, Philadelphia, Pa., lye.
No. 1180. Manhattan Card & Paper Co., New York, N. Y., paper.
No. 1184. Standard Oil Co. (N. J.), Baltimore, Md., oil, etc.
No. 174-19. Federal Sugar Refining Co., New York, N. Y., sugar.
No. 153-19. The R. M. Hollingshead Co., Camden, N. J., soap and polish.
No. 153-19. Larkin Co., Buffalo, N. Y., sapolio.
No. 153-19. J. B. Rodgers, Washington, D. C., leather polish.

June 27, 1918.

No. 1183. Henry Lindenmeyr, New York, N. Y., paper.
No. 182-19. United States Stamping Co., Moundsville, W. Va., soup tureens.
No. 269-19. Wm. H. Devitt, Philadelphia, Pa., gilling line.
No. 72-19. Ellis A. Gimbel, Philadelphia, Pa., stationery.
No. 221-19. The Stanley Works, New York, N. Y., hardware.
No. 1182. Hogshire Hudgins & Co. (Inc.), Norfolk, Va., awnings.
No. 153-19. The N. K. Fairbanks Co., Chicago, Ill., soap.
No. 153-19. Fels & Co., Philadelphia, Pa., soap powder.
No. 153-19. Armour & Co., Chicago, Ill., toilet soap.
No. 141-19. The Arobol Manufacturing Co., New York, N. Y., target paste.
No. 1181. Manhattan Card & Paper Co., New York, N. Y., paper.
No. 1191. The Studebaker Corporation of America, New York, N. Y., truck.
No. 262-19. Moloney & Carter Co., Charleston, S. C., forage.
No. 153-19. Universal Trading Co., New York, N. Y., leather preservative.
No. 203-19. The Wm. Miller Range & Furnace Co., Cincinnati, Ohio, Army ranges.
No. 189-19. Richard W. Geldart, New York, N. Y., door mats.
No. 189-19. Acme Steel Goods Co., New York, N. Y., door mats.

June 28, 1918.

No. 265-19. Drake Produce Co., Miami, Fla., subsistence.
No. 265-19. Brown & Avery, Miami, Fla. subsistence.
No. 265-19. P. Ullendorff Co., Miami, Fla., subsistence.
No. 265-19. John Seybold, Miami, Fla., bread.
No. 265-19. Baker and Holmes, Miami, Fla., subsistence.
No. 265-19. C. D. Kenny Co., Miami, Fla., subsistence.
No. 265-19. Ferguson Produce Co., Miami, Fla., potatoes.
No. 265-19. Romfh Wholesale Grocery Co., Miami, Fla., subsistence.
No. 265-19. Armour & Co., Miami, Fla., subsistence.
No. 1272-19. J. W. Fitzgerald, Savannah, Ga., building sand.
No. 272. William M. Bird & Co. (Inc.), Charleston, S. C., plaster.
No. 280-19. Joseph N. Snellenburg, Philadelphia, Pa., mattress covers.
No. 1188. Manhattan Card & Paper Co., New York, N. Y., paper.
No. 252-19. Westinghouse Electric & Manufacuring Co., Philadelphia, Pa., 1-10 kilowatt turbo generator.
No. 1187. Georgia Supply Co., Savannah, Ga., aluminum ware and enamel ware.
No. 275-19. Springfield Fuel Co., Savannah, Ga., wood, cord.
No. 278-19. Thomas Parry's Sons Co., Camden, N. J., letters and figures.
No. 153-19. Madison Trading Co. (Inc.), New York, N. Y., soap, castile.
No. 153-19. William H. Devitt, Philadelphia, Pa., Sapolio.
No. 1185. Whitehead & Alliger Co., New York, N. Y., paper.

DETAILED TO STAFF CORPS.

Special Orders, No. 136:

347. By direction of the President, the following-named officers are detailed as members of the General Staff Corps: Col. Harry G. Bishop, 11th Field Artillery; Col. S. J. Bayard Schindel, Infantry, National Army; Col. Frank J. Morrow, Infantry, National Army; Col. Roger D. Black, 13th Engineers; Col. Clarence H. McNeil, 66th Artillery (Coast Artillery Corps); Lieut. Col. Fred E. Buchan, Infantry, National Army; Lieut. Col. Hu B. Myers, 308th Ammunition Train; Lieut. Col. Robert Whitfield, 22d Infantry; Lieut. Col. Francis W. Honeycutt, Field Artillery, National Army; Lieut. Col. Samuel G. Shartle, inspector general; Maj. Charles Telford, 8th Cavalry; Maj. Homer M. Groninger, 5th Cavalry; Maj. Donald H. Connolly, Corps of Engineers. [210.61, Gen. Staff Corps.]

U. S. WAR BADGES TO BE GIVEN GOVERNMENT CONTRACT WORKERS

The Department of Labor authorizes the following:

On the recommendation of the War Labor Policies Board, Secretary of Labor Wilson has authorized the issuance of a war badge as an insignia of distinction for industrial workers.

The plan was worked out by Hugh Frayne, labor representative on the War Industries Board; Carl Byoir, of the Committee on Public Information; L. Howland, of the Shipping Board; Louis McH. Howe, of the Navy Department; Maj. F. W. Tully, of the War Department; and Roger W. Babson, of the Department of Labor. It was approved by the war-production departments of the Government.

For Civilian Workers.

War badges will be awarded to civilian workers employed for at least four consecutive months in Government war industry (i. e., industries where work is sufficient in volume and importance to require the supervision of a Government official, or a plant certified by the chief of a Government department as of sufficient importance in war production to have badges issued).

Service bars will be given for employment beyond four months.

The right to issue badges is accorded only to such plants as make the National War Labor Board program a part of their Government contract.

So far as is possible the manufacture and issue of other than the governmental war industry insignia will be restrained.

Board to Supervise Issue.

A United States war badge board will be created to supervise the issuance of war badges. Charles T. Clayton, Assistant Director General of the United States Employment Service, has been designated Chief of the War Badge Board by Secretary Wilson.

Head of Hotel Section of Fuel Administration

The Fuel Administration authorizes the following:

Eugene C. Eppley, of Sioux City, Iowa, president of the Hotel Men's Mutual Benefit Association, has been appointed head of the hotel section of the Conservation Bureau, United States Fuel Administration. Regulations for the conservation of heat, light, and power in hotels, in keeping with plans laid down at a recent conference between the hotel men's war service committee and the Conservation Bureau are under consideration.

These regulations involve drastic reductions in the lighting and heating of hotels and in the elevator service. The conservation work will extend also into the boiler room, laundry, and kitchen.

ASSIGNED TO DEPOT BRIGADE.

273. Col. Edward C. Carey, Infantry, National Army, is relieved from his present duties at Camp Travis, Fort Sam Houston, Tex., and will proceed to Camp Dix, Wrightstown, N. J., reporting upon his arrival to the commanding general for assignment to duty with the One hundred and fifty-third Depot Brigade.

BRICK PRODUCTS FOR WAR USE WILL CURTAIL OTHER DELIVERIES

The War Industries Board authorizes the following:

Representatives of approximately 15 of the 18 zones into which the 7,000 manufacturers of the fire brick, paving brick, and common brick have divided in the United States, met with the Priorities Commissioner and other representatives of the War Industries Board and outlined the following industrial conditions and agreements:

(1) That, with the exception of the zones in the district north of the Potomac River and east of the Allegheny Mountains, including New England and the zone which includes the Birmingham district, the shortages in coal and disturbances in deliveries have not been sufficiently serious, generally speaking, to disturb manufacturing.

(2) In the greater number of the zones manufactured output was materially less in 1917 than in 1916, and materially less during the first six months of 1918 than during the first six months of 1916. This result was attributed in part to diminishing demand for general peace-time uses and in part to labor shortage, which in many zones have been quite noticeable.

(3) The necessity of curtailing all uses which could be deferred without interference with the war program or are vitally essential for the civilian welfare was unanimously recognized as being unavoidable. The manufacturers present pledged themselves to exercise such oversight of the uses to which their products were to be put as to guard against its being consumed in any deferable uses.

(4) The priorities commissioner undertook to give applications of individual brick manufacturers for places on the preference list favorable consideration, upon condition that such individuals and the industry would devote their output to vital war needs, direct and indirect, and to indispensable and nondeferable uses.

ORDER RESTRICTING GAS COAL TO GAS MANUFACTURE USES

The Fuel Administration issues the following:

By an order of the United States Fuel Administration made public to-day (July 3), owners and operators of docks on Lake Michigan or Lake Superior are prohibited from distributing gas coal, except to persons engaged in the manufacture of gas or in the operation of by-product coke plants, unless under special permit issued by the distribution division of the United States Fuel Administration.

Permits Necessary.

The order further stipulates that no gas coal shipped or distributed from Lake Michigan or Lake Superior docks shall be used for the purpose of generating steam without a similar special permit.

At present there is a tremendous demand for gas coal. By-product coke plants, which supply raw material for many explosives and other necessary war manufactures, must have every possible ton of coal suitable for by-product conversion. Artificial gas plants which supply domestic consumers in many large cities throughout the country are also working on a very narrow coal margin. The Fuel Administration intends to assure both by-product plants and domestic gas plants of their coal supply so far as possible.

Purpose of Prohibitions.

The prohibitions contained in this order are intended to restrict to the special purposes for which gas coal is suited all gas coal going into this zone whether consigned under the zone orders of the administration or under zone permits.

WOULD REDUCE QUANTITY OF METAL USED IN MAKING BEDS

The War Industries Board authorizes the following:

A committee representing the manufacturers of metal beds and supplies met in conference with the Priorities Commissioner and representatives of other divisions of the War Industries Board Friday, when the following conclusions were reached:

1. That the quantity of steel used in the manufacture of metal beds can and should be substantially reduced as a war measure by cutting down the height of the frames both head and foot; by standardizing the sizes of tubes, eliminating odd sizes; by limiting the diameter of tubes to 2 inches; and by the standardization of models.

2. That the manufacture of brass beds should be discontinued during the war, as they are a luxury, and as the brass is needed to meet war requirements.

3. That the demand by the Government for beds for cantonments, mobilization camps, transports, for use on the west front, for use in connection with housing programs, must be met, and a reasonable supply provided to meet the requirements due to the shifting of labor to war industrial centers.

4. That not a bed should be manufactured during the war to replace one that can be made to last until after the war, and that the civilian population generally must come to realize that they must get along with the beds and other furniture which they now have, drawing upon the supplies which have been discarded and stored in attics and elsewhere, as well as spare articles not in use.

5. That regional and local representatives of the War Industries Board throughout the United States, representatives of the Council of National Defense, the war-savings organizations, and other Government agencies should urge all patriotic citizens everywhere to draw from their attics and other hiding places stocks of surplus furniture which can, through second-hand dealers or otherwise, be made available to meet the essential requirements of the civilian population during the war.

ORDERED TO CAPE MAY.

Special Orders, No. 145.

313. Maj. Norval H. Pierce, Medical Reserve Corps, is relieved from duty at Camp Grant, Rockford, Ill., and will proceed to Cape May, N. J., and report in person to the commanding officer, United States Army General Hospital No. 11, that place, for duty with Base Hospital No. 115.

FOOD ADMINISTRATION FORMS SUGAR EQUALIZATION BOARD

Capital of $5,000,000 to be Supplied by President — Plans to Stabilize Prices.

The Food Administration authorizes the following:

The President has approved the formation of a sugar-equalization board by the Food Administration. The board is to be composed of: Herbert Hoover, chairman; George Rolph, president; directors, Prof. F. W. Taussig, of the United States Tariff Commission; Theodore F. Whitmarsh, George Zabriskie, of the Food Administration; Clarence Woolley, of the War Trade Board; William A. Glasgow, jr., Chief Counsel of the Food Administration.

The office of the board will be in Washington.

Hopes to Equalize Cost.

The purposes of the board are to equalize the cost of various sugars and secure the better distribution. The arrangements will facilitate joint dealing with the allies in foreign sugars and the adjustments of differentials in overseas freight rates.

Under certain circumstances it may be advisable to acquire the production of some beet-sugar factories that can not under the present price of beets be sold to the public at a reasonable price.

The board will take charge of the distribution plan initiated on July 1, and will conduct this plan at the expense of the board.

$5,000,000 Capital Stock.

The Board will be incorporated to the extent of $5,000,000 of capital which will be supplied by the President from his special funds, in order to enable it to deal with facility in foreign sugars and otherwise, and the whole stock will be held by the President for the United States Government. The object is to absorb the high peaks of cost in sugar production and to make a small margin on the low cost of certain foreign sugars which may be purchased and thus secure an equalization of the price to the public on a lower level than will otherwise be possible. The arrangements will further secure an even distribution of the sugar throughout the United States. It is expected that any profits will be equalized to the consumer over the year's operations.

It is expected that the price of sugar will need to increase in the latter part of the year in view of the increased costs of overseas and internal railway rates and in view of the higher cost of production and manufacture of sugar, particularly in the increased costs of beets, bags, and labor and transportation.

By the creation of this Board, however, it will be possible to work out a price for the public upward of 1 cent per pound less than would be the case if the price of sugar were advanced to a price that will cover the high peaks in costs from all quarters.

The full plan will be developed in the course of the next 30 days.

Application for a charter was filed yesterday in the State of New Jersey.

55,185 MARINE CORPS STRENGTH AT CLOSE OF BUSINESS JULY 10

The Marine Corps authorizes the following:

Marine Corps recruiting is proceeding briskly, 2,260 actual enlistment papers having been received at headquarters since July 1, and more than that number—estimated at 3,000—are pending at recruit depots and not yet received.

The strength of the Marine Corps at close of business July 10, follows:

Enlisted, Marine Corps		47,467
Enrolled, reserve		4,996
Enrolled, reserve, class 5 (Aviation)		251
Enrolled, Fleet Marine Corps Reserve		87
Enrolled, National Naval Volunteers		791
		53,592
Commissioned officers (permanent, probationary, and temporary)	1,167	
Commissioned officers, reserve	179	
Commissioned officers, reserve, Aviation	100	
Commissioned officers, National Naval Volunteers	8	
Warrant officers (permanent, temporary, and reserve)	130	
		1,593
Total		55,185

U. S. HOUSING CORPORATION CREATED BY LABOR DEPARTMENT

The Department of Labor authorizes the following:

The Department of Labor announces the creation of the United States Housing Corporation, which will, in a large measure, take over the functions that are now being performed by the Bureau of Industrial Housing and Transportation. It is expected that this new vehicle will afford more facility in operation than would be possible under the usual governmental agency.

The charter was taken out under the laws of the State of New York, and the articles of incorporation provide for the issuance of 1,000 shares of stock without par value.

The executive officers of the corporation are: President, Otto M. Eidlitz; vice president, Joseph D. Leland; treasurer, George G. Box; secretary, Burt L. Fenner. They, in conjunction with Albert B. Kerr, John W. Alvord, and William E. Shannon, serve as directors.

The stock is held on behalf of the Government by the Secretary of Labor, who is credited with 998 shares, and Otto M. Eidlitz and George G. Box, with one share apiece.

SHIPMENTS TO MEXICO OF CERTAIN ARTICLES TO BE LICENSED FREELY IN TOKEN OF FRIENDSHIP

30,000 TONS OF CORN

List of Commodities Given Not Intended to Be Exclusive, as Requests by Mexican Government for Other Commodities Will Receive Careful Consideration.

In giving concrete expression to the friendly sentiments expressed in behalf of the Government of the United States by President Wilson in his address to the Mexican journalists at the White House on June 7 last, the Department of State has arranged that export licenses will be freely granted for shipments to Mexico of the commodities hereinafter enumerated, subject only to the restrictions imposed by the laws and regulations of the United States respecting trading with the enemy.

1. Corn, 1,500,000 bushels, approximately 30,000 tons, between now and November. If purchases are in considerable quantities they should be made through United States Food Administration.

2. Coke will be licensed if drawn from certain specified districts.

Ammonia for Ice Making.

3. Ammonia will be supplied to Mexico for ice making, refrigerating, and foodstuffs, but not for beer making. In other words, Mexico will be treated in exactly the same way as all other South and Central American countries.

4. Agricultural machinery licenses will be granted liberally. Mining machinery licenses, where required for production of metals, will be granted liberally.

5. Articles of iron and steel manufacture. Generally speaking, this country will license freely all articles of steel and iron manufacture which are to be used for the purpose of producing war material for this country. In other cases this country, on account of the necessity for conservation, restricts the exportation of iron and steel to all countries.

6. Articles for the exploitation of mines, especially cyanide, dynamite caps, and fuses. Mexico is now getting cyanide for their gold products. All countries have been rationed with respect to cyanide, since there is not enough to go around. Export licenses are granted for dynamite to Mexico as required for mining purposes. The same applies to caps and fuses.

7. Common soap. License will be granted for 2,000 tons.

8. Licenses will be granted for copper in manufactured form to as great an extent as the conservation measures of the United States will permit. The same applies to zinc. United States is short of ferromanganese and, accordingly, will not be able to grant export licenses for this commodity to any great extent.

9. Licenses will freely be granted for the following foodstuffs to Mexico: Canned herring, canned sardines, butter, cocoa, condensed milk, corn, corn meal, corn flour, confectionery (including chocolate candy), barreled beef, dried fruit, lard, mutton oil, oats, pork, pork products, oleo oil, peas (not seed), tea. Purchases in considerable quantities to be made through Food Administration. The United States will freely license all pork products to Mexico.

The United States is also prepared to license for export to Mexico a considerable amount of railway equipment the character of which has been communicated to the Mexican Government.

List Not Exclusive.

The above list of articles is not meant to be exclusive. The Government of the United States will be glad to consider carefully and in the most friendly spirit any requests which the Mexican Government may make for the inclusion of other articles in this list. The United States has been compelled to conserve certain commodities indispensably required for its own use and for the use of the governments associated with it in the war which in normal times would be permitted to be freely exported from the United States to Mexico; but as a result of the efforts of the United States Government to stimulate production, the list of such conserved articles will gradually contract and conditions of trade and intercourse between the two countries will, it is hoped, soon become normalized. In taking this friendly position toward Mexico, the United States Government has no doubt that the Mexican Government will continue to allow commodities not imperatively needed in Mexico to be exported to the United States, and will not permit the commodities and food received from the United States nor similar commodities and food to be exported to other countries.

Y. M. C. A. to Get Tobacco, Cigars, and Cigarettes at Cost from Army in France

The War Department authorizes the following:

Brig. Gen. R. E. Wood, Acting Quartermaster General, has authorized the Chief Quartermaster of the American Expeditionary Forces to sell to the Young Men's Christian Association tobacco, cigarettes and cigars from the subsistence stores at the same prices as those charged by the Quartermaster Corps to the men in the Army abroad.

This action has been taken so as to place the Y. M. C. A. in a position to resell to the men in the Army tobacco, cigarettes and cigars at the same prices as charged the men by the Quartermaster Corps. Smoking materials are sold to the men by the Quartermaster Corps at cost without the addition of freight charges.

REDUCTION IN DAVENPORT AND METAL BED STYLES IS AGREED UPON AT MEETINGS HELD HERE

Manufacturers Asked to Discontinue Use of Larger Tubes—Text of Letter Sent Out by Conservation Division of War Industries Board.

The War Industries Board authorizes the following:

At meetings of representatives of the davenport and metal-bed industries with the conservation division to discuss economies that might be carried out during the war period, tentative plans were made to reduce the number of styles and varieties in order to conserve labor and materials. The materials involve steel, genuine and artificial leather, woolen, cotton, and silk fabrics, and lumber.

One manufacturer's line was found to include about 100 designs. It was tentatively agreed that each manufacturer should reduce his line of bedsteads and cribs to 30 designs, that the number of brass-bedstead designs should be reduced to 15, and the number of styles of woven, spiral, and link fabric springs to 6.

Reduction in Size of Tubes.

It was recommended that manufacturers discontinue the use of round tubes larger than 2 inches in diameter, square tubes larger than 2½ inches, and substitute light-wall tubing for heavy wherever practicable.

Manufacturers of bed davenports have been making from 25 to 75 patterns. They will probably be requested to reduce their lines to not more than 20 patterns. Steel can be saved by discontinuing the use of springs for the backs of davenports and the use of band-iron supports or slats for all springs. Either wood or wire could be substituted.

According to the present plans, the manufacturers will also be requested to restrict the use of material for covering to one grade of split leather and two grades of artificial leather, both to include only shades of black and brown Spanish. The use of wool or mohair fabrics is to be discontinued. The use of tapestries, damasks, and velours will be confined to those made of cotton or silk in not more than four grades of three patterns each. Many other unnecessary features are to be eliminated in order to conserve materials and reduce stocks.

Manufacturers have been requested to aid in conserving shipping space by adopting most careful methods of packing and by shipping all goods "knocked down."

Letter from Conservation Division.

Following is a letter from the Conservation Division:

"In the present emergency it is a primary necessity that the country's resources be used to full advantage for carrying on the war and that we carefully husband our supplies of materials, equipment, and capital. The Conservation Division is making an inquiry to learn what savings in materials, labor, and equipment manufacturers of metal bedsteads can effect and to what extent the amount of capital invested in manufacturers' and merchants' stocks can be reduced.

"The division has been told that a greater variety of steel and brass bedsteads, cribs, and springs is now being offered than is necessary to meet the essential needs of the civilian population in time of war. It is also pointed out that some manufacturers are using larger and heavier tubing than is necessary and that the heights of the head and foot ends and the number of fillers can be substantially reduced. It is believed that by these modifications and through other economies, important savings in materials and labor can be effected, and the amount of capital tied up in manufacurers' and merchants' stocks substantially reduced.

Saving of Enamel.

"The division furthermore requests manufacturers to discontinue the use of Damar white enamel. The Damar gum required in the manufacture of this enamel is imported overseas from the Far East. It is necessary at the present time to utilize this shipping space for importing other raw materials of more vital importance to our war program. It is believed that it is entirely practicable to use a substitute for finishing all steel bedsteads, either in the form of electro galvanizing or Japan. Where white is required, a gloss paint enamel can be made from a zinc oxide or lithopone pigment with a varnish vehicle composed of China wood oil and American rosin. The conservation division, with the assistance of the Bureau of Standards, will gladly aid manufacturers in finding a satisfactory substitute for the Damar enamel, should there be any difficulty in this direction.

"The division wishes to have the benefit of your experience as a manufacturer in order to learn, before definite recommendations are issued, how these economies can best be effected. The attached schedule is drawn up in accordance with the plans that are being put into effect in numerous industries in order that the country's resources and facilities may be used to full advantage in carrying on the war. Will you, therefore, kindly fill in the enclosed blank form and return it to us promptly, with any additional information or suggestions that you care to give us. Any information that you send us regarding your own business will, of course, be kept strictly confidential."

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, July 10, 1918.

RECEIPTS.

Customs receipts	$553,679.64
Internal-revenue receipts:	
Income and excess-profits tax	40,979,968.92

LIST OF HEARINGS TO BE GIVEN IN STREET RAILWAY DISPUTES

The following schedule of hearings by examiners is announced by the National War Labor Board:

July 12.—Examiners W. L. Stoddard, Lee McClung, and Arthur Sturgess will sit in the Federal Building, New York City, to hear evidence in the controversies between the employing street railway corporations and their employees in the cities of Buffalo, Albany, Schenectady, Rochester, Newark, and Trenton.

July 13.—Examiners John A. Henderson, Joseph Chiesa, and C. W. Smith will sit in the Federal Building, Chicago, to hear evidence in the controversies between the employing surface and elevated railway companies and their employees in the city of Chicago and vicinity.

July 13.—Examiners Raymond E. Swing, Edwin Newdick, and Alpheus Winter will sit in the Federal Building, East St. Louis, Ill., to hear evidence in the controversies between the employing electric railway corporations in Galesburg and East St. Louis, Ill.

July 17.—Examiners W. L. Stoddard, Lee McClung, and Arthur Sturgess will sit in the Capitol Building, Columbus, Ohio, to hear evidence in the controversies between the Elyria and Cleveland Railway Company and the Columbus Street Railway Company and their employees.

Hearings in the street-railway controversies in Portland, Oreg.; New Orleans, La.; and Jacksonville, Fla., will be had in Washington late next week, the exact date not having been fixed.

Purpose of Hearings.

The purpose of these hearings by examiners is to supplement the evidence so far adduced in the street-railway situation before the joint chairmen, Messrs. Taft and Walsh. The street-railway cases before the two chairmen number 28. With the conclusion of the hearings scheduled above, all of the evidence will be turned over to Messrs. Taft and Walsh, whose decision on the questions involved, principally concerning wages, will be rendered as soon thereafter as possible.

The hearings in the case at Bridgeport, Conn., where all of the employers—56 in number—have agreed to be bound by the board's decision involving every class of worker in every plant will be resumed on Monday, before the chief examiner, H. S. Hanna. Investigators have also been sent to Bridgeport. More than 50,000 workers are affected in this matter.

Agricultural Section of Traffic Division Created

U. S. Railroad Administration,
Division of Traffic,
Washington, July 10, 1918.

Circular No. 3.

The agricultural section of the division of traffic is hereby created, and Mr. J. L. Edwards is appointed manager, with office in the Interstate Commerce Building, Washington, D. C.

The agricultural section will give its attention to the transportation needs of agricultural interests and their encouragement.

Edward Chambers,
Director, Division of Traffic.

Serious Shortage of Baggage Cars Prompts the War Industries Board to Urge Fewer Trunks for Salesmen

The War Industries Board authorizes the following:

The conservation division of the War Industries Board has requested all dry goods wholesalers to reduce the quantity of baggage carried by their traveling salesmen in order to meet the shortage of baggage cars. There are only 9,700 baggage cars in the country. On these cars, it is estimated, 24,000,000 sample trunks were checked last year. This was equivalent to 30 per cent of the total baggage carried free by the railroads.

During the last few months many baggage cars have been converted into dining cars for the movement of troops to cantonments and embarkation points. The shortage of baggage cars has become so serious that it has been necessary in some instances to attach freight cars to troop trains to take care of troop equipment. Freight cars, however, are not made to travel over 20 or 25 miles an hour, and their use on troop trains has resulted in delays caused by hot boxes. Consequently a reduction in the number of salesmen's trunks handled will facilitate the movement of troops.

The baggage of the traveling salesman employed by dry goods wholesalers makes up so large a part of the whole movement of salesmen's trunks that attention has first been directed to that trade. The conservation division has made a careful investigation of the number of trunks carried by these traveling salesmen and of the means whereby their baggage can be reduced.

Sampling Devices Helpful.

The division has found that photographs, lithographs, catalogues, and other sampling devices are being utilized so successfully that their use should be widely extended. One firm has reported, for example, that each of its salesmen carried 22 trunks in 1915. By the use of these sampling devices each salesman carrying the same lines now uses from 12 to 15 trunks. In another case the reduction has been from 10 trunks to 3 trunks per salesman. In general, the wholesalers who are using sampling devices have cut in half the number of their sample trunks.

The conservation division further recommends that one full-size model only should be used for each style of merchandise shown and that all articles sold in pairs, such as garters, hosiery, and gloves, should be sampled one-half pair for each model.

The reduction in the quantity of baggage carried by traveling salesmen is also being reduced by other means. The plans that the conservation division has put into effect for reducing the number of styles and sizes of many kinds of merchandise result in a material decrease in salesmen's sample baggage. One shoe manufacturer, for instance, reports that as a result of the decrease in the number of styles of shoes that he manufactures each of his salesmen now carries one trunk instead of three. This is typical of the saving that is being made by manufacturers and wholesalers as an incidental result of the reduction in the variety of their production.

Letter to Dry Goods Wholesalers.

Following is the conservation division's letter to dry goods wholesalers:

Replies to the inquiry as to the practical means for reducing the number of trunks carried by your salesmen show that, while the saving has been noteworthy, there is still opportunity for substantial savings by almost every dry goods wholesaler. It is apparent that a more general reduction can be effected and transportation conditions make this imperative.

It appears to be unfair, in fact impossible, to apply uniform reductions. It is, however, clearly the duty of every dry goods wholesaler to make all the savings that he can in order to facilitate the execution of the war program.

The successful use of photographs, lithographs, and catalogues is reported by many, with the consequent reduction of trunks carried from 9 or 10 to each salesman to 3 or 4. It is very apparent that these sampling devices should be much more widely used.

It further appears that in most instances one full-size model only is necessary for each style of merchandise shown. All articles sold in pairs, such as garters, hosiery, and gloves, should be sampled one-half pair for each model, using swatches of fabrics and colors in connection with photographs, where necessary for other styles.

As a majority reported that they are using trunks 40 inches or less extreme measurement, it would seem practical for each dry goods wholesaler to limit his salesmen's trunks to 40 inches extreme measurement.

With the contemplated general reduction in the number of styles, not only of fabrics but of knit goods and other merchandise, it should be possible for salesmen ordinarily to carry not more than one trunk only during the "filling in" season.

There is a marked shortage of baggage cars because of the necessity of using them on troop trains. Under the circumstances every dry goods wholesaler should make all possible reductions in the amount of baggage carried by his salesmen. Will you take time to satisfy yourself that you have made a generous contribution to the reduction of the travelers' trunks?

SERVICE BUREAU
. . . OF THE . . .
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

NEW WAR TRADE BOARD RULING ON THE IMPORTATION OF WOOL

The War Trade Board authorizes the following:

The supply of wool in the United States has been gradually decreasing owing to the enormous demands for military requirements, and because of the shortage in ocean tonnage for transporting wool to this country, and it is evident there will not be sufficient wool to take care of both civilian and military needs unless some comprehensive plan is adopted for purchasing and importing the necessary supply.

It is apparent that under the present system of private transactions in wool it is difficult to insure the utilization thereof in the best interests of the country, and likewise difficult for individuals to secure the necessary tonnage because of lack of assurance to the Shipping Board that the wools imported will be used for the national interests.

The War Trade Board after consultation with the War Industries Board and the War Department have therefore adopted the following ruling (W. T. B. R. 166):

1. All outstanding licenses for the importation of wool from Uruguay, Argentina, and South Africa are revoked as to ocean shipments from abroad after July 28, 1918.

2. Hereafter no licenses for the importation of wool from the countries above referred to for shipment from abroad after July 28, 1918, will be issued for the remainder of the present calendar year, except to the Quartermaster General of the United States Army.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 57.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 10, 1918.

Section A.—The day again passed quietly at points occupied by our troops.

Section B.—For our troops in the Chateau Thierry region the day of July 7 to 8 was uneventful. The enemy continued to direct much rifle and machine-gun fire on our new lines in the vicinity of Vaux and north of Vaux, and also on Bouresches. The activity of the German artillery was not abnormal for so active a sector and consisted mainly of harassing fire on our front lines. Gas was, as usual, employed in the shelling of the Marette, the Belleau, and other woods. The number of German airplanes in operation again decreased. In the German rear areas the movements observed were mainly those of men in groups of small or moderate size. Our own troops were active in patrolling and in artillery fire.

In the Marne sector from July 7 to 8 the day passed almost without incident. The enemy's artillery fire was lighter than on the preceding day and only a few of his planes were seen. His trench mortars were active for a time during the evening. There was little activity on our side. Our batteries exploded one of the enemy's ammunition dumps.

In the Woevre there were no notable events between July 3 and July 6 except the attempts of parties of the enemy to penetrate our lines, especially in the region of Xivray. On the night of July 3 a German patrol was driven back in this region by one of our patrols after an exchange of fire. On the night of July 4 one of our outposts in this region was fired on by a German patrol but sustained no casualties. On the night of July 5 a strong German patrol attacked a weak outpost at Xivray with the intention of taking prisoners. Our outpost exchanged hand grenade fire with the assaulters. The Germans, having failed in their purpose, withdrew from the outpost, which was then reoccupied. On the same night there was an exchange of grenade fire between another of our outposts and a German patrol, and at another point a patrol encounter. During all three days the enemy's artillery maintained a rate of fire which is normal for a quiet sector, distributing his shells over our front and rear areas and our lines of communication. Only a small amount of gas was used. His airplanes and balloons did little work between July 3 and July 4, but were moderately active between July 4 and 6. Our own forces were active mainly in artillery work. The German lines were heavily shelled with gas on the morning of July 5.

In the Lorraine sector the outstanding incidents of July 6 and 7 were the activities of the enemy patrolling parties and of our own. During the night three German patrols approached our lines, two coming under our fire. One of them used light machine guns, but was thrown back by our rifle and grenade fire after a fight lasting 20 minutes.

In the Altkirch sector on July 6 and 7 no unusual acts of any description were reported.

The Commander in Chief has awarded distinguished-service crosses to the following officers and enlisted men for the acts of gallantry set forth after their names:

PVT. WILLIAM R. DAVIS, Infantry: "For exceptional courage and devotion to duty in action, remaining at his post and continuing to fire his rifle and grenades at the enemy after being severely wounded in action April 12, 1918."

PVT. JOSEPH J. CANNON, Infantry: "For courage and self-sacrificing devotion to duty in action against the enemy on April 12, 1918, voluntarily going with one comrade to an advanced post in a communication trench and with an automatic rifle holding back the advance of the enemy through the trench until his comrade was killed and himself severely wounded."

PVT. ELMER L. LANE, Infantry: "For coolness and gallantry in action April 13, 1918. Standing on the parapet of a trench in order to see the advancing enemy through a heavy fog, he continued, under heavy fire, to throw hand grenades at the enemy until severely wounded, thus preventing the enemy from penetrating the line in the vicinity of his post."

SERGT. JOHN J. COURTNEY, Infantry: "During the action of April 10, 1918, displayed courage, coolness, and the spirit of self-sacrifice in voluntarily going through a shell-swept area to bring back wounded to a place of safety, carrying one wounded man more than 50 yards under heavy shell fire."

SERGT. LEE P. T. JACQUES, Infantry: "During the action of April 10, 1918, displayed courage, coolness, and the spirit of self-sacrifice in voluntarily going through a shell-swept area to bring back wounded to a place of safety, carrying one wounded man more than 50 yards under heavy shell fire."

PVT. ALFRED P. LEE, Infantry: "During the action of April 10, 1918, displayed courage, coolness, and the spirit of self-sacrifice in voluntarily going through a shell-swept area to bring back wounded to a place of safety, carrying one wounded man more than 50 yards under heavy shell fire."

(Continued on page 7.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

The President yesterday afternoon sent to Congress a veto of the resolution passed late last week extending until January 1 next the time within which the Railroad Administration might relinquish control of lines not needed in the Federal system. The veto message was as follows:

I regret to be obliged to return without my signature Senate joint resolution 159.

I do so because I very respectfully but very earnestly dissent from the policy which it embodies. Under its terms the Government would be obliged to assume the control and administration of all short-line railroads without discrimination. I respectfully submit that this is not in the public interest. There are terminal short lines at many centers of freight shipment, and some 1,700 short lines which were built and are controlled by manufacturing, mining, lumbering, and other companies and which are operated merely for the convenience of those companies, which would be included under the language of this resolution, very few of which it seems to me, if any, ought to be taken over and administered by the Government.

The remaining short roads are feeders to the main trunk lines, and more than mere feeders most of them, for they have in most instances played a very important part in building up the industries of the communities through which they run and have become essential to the prosperity of hundreds of towns and neighborhoods all over the Union. I quite agree that practically all of these should be retained and that they should not only be retained but that they should be accorded a fair division of joint rates—a fairer division than some of them have been accorded hitherto—an equitable allotment of cars and motive power, and fair routing arrangements. Some of them constitute connecting links between two or more trunk line systems. Those who play this part in the system of railways ought to be accorded as full a share in through shipments as is consistent with the general interests of the shipper and the public.

This is the policy which the Railroad Administration will pursue toward these roads. They will not be put at an unfair or ruinous disadvantage. The Government owes a recognized obligation to the communities which they serve, but it is not in my judgment wise to oblige the Government to deal in the same way with all of them regardless of a very great variety of circumstances which affect their facilities and their administration. I beg that the Congress will leave the Government free to enter into arrangements with them which will in each case be to the interest alike of the road dealt with and of the local public.

WOODROW WILSON.

Wire Control Resolution.

By general consent the emergency Agricultural bill providing for food-production stimulation, with its war prohibition amendment, was temporarily laid aside yesterday afternoon, and consideration of the wire-control resolution recently passed by the House proceeded with. Chairman Smith, of the Interstate Commerce Committee, which reported the resolution, expressed the hope that the resolution would be finally adopted by the end of the week. The debate that ensued disclosed considerable opposition to the resolution. Senator Watson, of Indiana, introduced an amendment to exclude from Federal control all telephone lines and to prevent interference with press association wires and press dispatches to the newspapers of the country. The charge was made that if the wires of the country were placed under the jurisdiction of the Postmaster General news matter would be censored and the facilities of the press curtailed. This was denied by Senator Lewis, who defended the Postmaster General against these intimations and charges, and declared that he had personal knowledge of the fact that absolutely no interference with the press was contemplated by any officer of the Government. Senator Underwood strongly urged prompt adoption of the resolution as a war measure because the President had expressed a desire for prompt action, and based his request on the existing war-emergency situation. Senator Smith, of South Carolina, also spoke for the resolution. It was attacked by Senators Borah, Smith of Michigan, and Kellogg of Minnesota, Republicans.

Senator Lenroot introduced a bill imposing a tax of 5 per cent in addition to any other tax paid on the net profits of mines, quarries, canneries, workshops, and factories where child labor is employed, if they are employed more than eight hours a day and six days a week.

Tribute to the late Maj. John Purroy Mitchel, former mayor of New York, who recently lost his life on a southern aviation field, was paid in the Senate yesterday afternoon by Senator Calder.

A bill already passed by the House establishing customs ports of entry at Bar Harbor, Me., and Oswego, N. Y., was passed yesterday.

HOUSE.

After further hearings evidence tending to show the shortage in platinum in this country, which is greatly needed for war purposes, the Ways and Means Committee yesterday afternoon decided to recommend for passage a special emergency bill to give the Government control over all platinum in the United States. Chairman Kitchin expressed the belief to the committee that such a measure should be adopted at once without awaiting final action on the war-revenue bill, which the committee is considering. Testimony submitted showed that recent commandeering orders had not extended to all wholesale or manufacturing jewelers, that shipments of the metal from Colombia, one important source of supply, have been interfered with through pro-German influences, and that the supply available to meet Government demands is rapidly diminishing. The Ways and Means Committee also acted favorably on a bill to admit free of duty all articles donated by people of foreign countries to the American Red Cross. It was stated that sweaters, bandages, and other articles needed for Red Cross work are held up at various American ports of entry pending authority to admit them free of duty.

DRAFTING OF NEUTRALS WHO HAVE DECLARED INTENTIONS TO BECOME U. S. CITIZENS HALTED

NEW REGULATIONS TO BE ISSUED

Relief from Military Service Conditioned Upon Withdrawal by Alien of Declaration of Intention to Become American.

The Provost Marshal General's office authorizes the following:

The Army appropriation bill carries an amendment to the selective service act which reads as follows:

The second sentence of section 2 of the act entitled "An act to authorize the President to increase temporarily the Military Establishment of the United States," approved May 18, 1917, be and is hereby amended to read as follows:

That such draft as herein provided shall be based upon liability to military service of all male citizens or male persons not alien enemies who have declared their intention to become citizens between the ages of 21 and 30 years, both inclusive, and shall take place and be maintained under such regulations as the President may prescribe not inconsistent with the terms of this act: *Provided*, That a citizen or subject of a country neutral in the present war who has declared his intention to become a citizen of the United States shall be relieved from liability to military service upon his making a declaration, in accordance with such regulations as the President may prescribe, withdrawing his intention to become a citizen of the United States, which shall operate and be held to cancel his declaration of intention to become an American citizen and he shall forever be debarred from becoming a citizen of the United States.

Suspension of Induction.

A telegram has been sent from this office suspending the induction of all registrants who are subjects or citizens of a country neutral in the present war and who have declared their intention to become citizens of the United States, but who have not completed final naturalization. This suspension is merely temporary until the President prescribes regulations putting into effect the act of Congress whereby the relief from military service will be conditioned upon the withdrawal by the registrant of his intention to become a citizen of the United States, which operates as a permanent bar to ever becoming a citizen of the United States.

List of Un-Neutral Countries.

For the guidance of local boards the following countries have been designated as not neutral in the present war:

Belgium, Brazil, Bulgaria, China, Costa Rica, Cuba, France, Great Britain, Greece, Guatemala, Italy, Japan, Liberia, Monaco, Montenegro, Nicaragua, Panama, Portugal, Roumania, Russia, San Marino, Servia, Siam, Turkey. Austria-Hungary and Germany being enemies of this country, of course are not neutral in the present war.

Fourth of July Messages to President From the Heads of Foreign Countries

The Department of State makes public the following exchange of telegrams:

FROM THE PRESIDENT OF HONDURAS TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

TEGUCIGALPA, *July 6, 1918.*

To His Excellency WOODROW WILSON,
President of the United States of America, Washington, D. C.

Will Your Excellency deign to accept on this one hundred and forty-second anniversary of the independence of your country my most respectful and cordial greetings and the sincere congratulations which on this immortal date it is both my honor and pleasure to send to the Government and people of the United States in the name of the people and Government of Honduras, making the most fervent wishes that the present world conflict may end in the most happy crowning of the noble efforts of the great American Nation in the defense of right and humanity.

F. BERTRAND.

FROM PRESIDENT WILSON TO THE PRESIDENT OF HONDURAS.

THE WHITE HOUSE, *July 10, 1918.*

HIS EXCELLENCY,
The President of Honduras,
Tegucigalpa.

I have been deeply pleased to receive Your Excellency's cordial telegram on the occasion of the anniversary of the independence of the United States. Fighting as the United States is to preserve those principles of right and justice upon which all American Republics are founded and are governed, I thank Your Excellency most reartily for the gratifying assurances you give me of the sympathy and best wishes of the Government and people of Honduras, whose happiness and prosperity I greatly desire.

WOODROW WILSON.

FROM THE PRESIDENT OF PERU TO PRESIDENT WILSON.

[Translation.]

LIMA, *July 4, 1918.*

The Most Excellent MR. WOODROW WILSON,
President of the United States of America, Washington, D. C.

On this glorious day which my Government, heeding the sentiments of the Peruvian people, has proclaimed to be a national holiday, I send to your excellency my cordial felicitations and sincere wishes that the great American Republic may bring into being for the good of humanity its generous ideals by establishing in the world the reign of peace founded in justice.

JOSE PARDO.

FROM THE PRESIDENT TO THE PRESIDENT OF PERU.

His Excellency JOSE PARDO,
President of Peru.

I thank your excellency for your courteous telegram of felicitations sent to me on July 4. Your excellency's sympathetic good wishes for the success of the cause for which the United States is fighting, and which is of vital importance to all free governments, is most highly appreciated, as is the fraternal and complimentary action of the Government of Peru in proclaiming the 4th of July a national holiday. I am sure that I am expressing the feeling of the people of the United States in assuring you of the sincere and active friendship for the people and the Government of Peru.

WOODROW WILSON.

FROM THE PRESIDENT OF HAITI TO PRESIDENT WILSON.

[Translation.]

PORT AU PRINCE, *July 7, 1918.*

PRESIDENT WILSON,
Washington.

On the occasion of the anniversary of the independence of the United States, I take the greatest pleasure in addressing to you my cordial felicitations, and expressing to you in my name and in that of the Haitian Government and people my sincere wishes for your happiness and for the prosperity of the American people.

PRESIDENT DARTIGUENAVE.

TO THE PRESIDENT OF HAITI FROM PRESIDENT WILSON.

THE WHITE HOUSE, *July 9, 1918.*

His Excellency President DARTIGUENAVE,
Port au Prince, Haiti.

I thank your excellency for your highly appreciated message of felicitations sent to me on the occasion of the anniversary of the independence of the United States, and extend to you and to the Government and people of Haiti sincere good wishes.

WOODROW WILSON.

FROM THE PRESIDENT OF PORTUGAL TO THE PRESIDENT OF THE UNITED STATES.

[Translation.]

LISBON, *July 4, 1918.*

To His Excellency the PRESIDENT OF THE UNITED STATES OF AMERICA, *Washington.*

I take pleasure in sending to Your Excellency on this day my greetings and those of the Portuguese people, and to assure Your Excellency that we in Portugal all make wishes for the happiness and prosperity of the United States of America.. We salute Your Excellency, the true spokesman of the great American nation, so admirable for its virtues of order, liberty, and industry, as well as for its ideal of justice and right, in whose defense and for whose triumph it has taken its place by the side of the allies. Those are the virtues on which Portugal wishes to establish her future and that is the ideal which guides the Portuguese people, and for that reason they will maintain their union with their allies up to the day of assured victory.

These sentiments will bring to Your Excellency the best assurances of the sincerity with which the Portuguese Republic salutes the great American democracy on the occasion of its national holiday.

SIDONIO PAES,
President of the Portuguese Republic.

FROM PRESIDENT WILSON TO THE PRESIDENT OF PORTUGAL.

THE WHITE HOUSE, *July 8, 1918.*

HIS EXCELLENCY, SIDONIO PAES,
President of Portugal,
Lisbon:

I have received with great pleasure Your Excellency's courteous telegram of July 4 in which you are so good as to embody sentiments of so friendly a character to the United States as to deeply touch our Government and people and to receive their grateful thanks. It is encouraging and comforting to be assured directly by Your Excellency of what I had no doubt, that the valorous people of Portgual, inspired by the same unselfish motives, are, like the people of the United States, determined to continue in the present struggle until those eternal prinicples which govern free people are secured and recognized for all governments, great and small.

WOODROW WILSON.

FROM THE KING OF MONTENEGRO TO PRESIDENT WILSON.

[Translation.]

PAU, *July 4, 1918.*

Mr. PRESIDENT WILSON,
Washington:

On the day in which your great country celebrates its National holiday I wish in my own and the Montenegrin people's behalf to have my voice heard with those which unanimously acclaim the nobleness, greatness, disinterestedness of the United States led by its illustrious Chief Magistrate. On this memorable day from our heart crushed by the foreign invader, but comforted by the indissoluble union of all our allies, we enthusiastically and gratefully hail your heroic soldiers who day after day bring us in increasing numbers the help of their bravery. We can see, we can feel them coming inspired by your high moral authority and high sense of justice, eager to contribute to the triumph of liberty, and the safeguard of States, large or small, with their decisive and glorious cooperation. Asserting at this grave and solemn hour my faith in the future, I extend to you, Mr. President, my ardent wishes together with the sincere tribute of my profound admiration.

NICHOLAS R.

FROM PRESIDENT WILSON TO THE KING OF MONTENEGRO:

THE WHITE HOUSE,
July 9, 1918.

HIS MAJESTY NICHOLAS,
King of Montenegro, Pau, France.

I thank Your Majesty sincerely for the courteous greetings you so kindly despatched to me on July 4, which I value highly. I deeply sympathize with Your Majesty in the calamity which has overtaken Montenegro by the invasion of a ruthless foe. I trust that Your Majesty and the noble and heroic people of Montenegro will not be cast down, but will have confidence in the determination of the United States to see to it that in the final victory that will come, the integrity and rights of Montenegro shall be secured and recognized. I send Your Majesty my best wishes.

WOODROW WILSON.

TO PRESIDENT WILSON FROM THE SULTAN OF PERSIA;

TEHERAN, *July 4, 1918.*

HIS EXCELLENCY THE PRESIDENT OF THE REPUBLIC OF THE U. S. OF AMERICA,
Washington.

I take the keenest pleasure in availing myself of the auspicious occasion of Independence Day to express to the noble nation of the United States of America and to its illustrious chief, my warm felicitations, and wish that this new year now beginning for the distinguished people of Your Excellency may be fruitful in happiness and prosperity.

SULTAN AHMAD KADJAR.

TO THE SULTAN OF PERSIA FROM PRESIDENT WILSON.

THE WHITE HOUSE,
July 9, 1918.

His Majesty AHMED KADJAR,
Sultan of Persia, Teheran:

I thank Your Majesty most sincerely for the courteous and valued telegram of felicitation

(Continued on page 7.)

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties are reported by the Commanding General of the American Expeditionary Forces, the emergency address following immediately after the name:

Killed in Action.

Lieut. Wilmarth Brown. Mrs. D. W. Brown, Wardman Courts, South, Washington, D. C.
Lieut. Harry M. Coppinger. Charles H. Coppinger, Oklahoma City, Okla.; Miss Margaret Coppinger, 924 Michigan Avenue, Chickasha, Okla.
Lieut. John Cannon Paisley. John W. Paisley, Gibsonville, N. C.
Lieut. Augustus M. Trotter. T. K. Trotter, Camden, S. C.
Sergt. Peter G. Miller. Mrs. Barbara Miller, 219 North Queen Street, Lancaster, Pa.

PRIVATES.

Sherman L. Conklin. Mrs. John W. Conklin, 247 Belleville Avenue, Newark, N. J.
Steve Dusannki. Joe Rititeskic, 1 Dover Avenue, Schenectady, N. Y.
Harry Frank Jones. Robert L. Phillips, Roanoke, Va.
Walter Santimaw. Mrs. Melissa Santimaw, 23 Swan Street, Potsdam, N. Y.

Died from Wounds.

Capt. George R. Spalding. Luther P. Spalding, Columbus, Ky.
Lieut. Robert Elijah Ball. Mrs. Clare A. Ball, 136 Marlboro Street, Wollaston, Mass.

PRIVATES.

John W. Bresnihan. Miss Katie Bresnihan, St. Bernard Seminary, Lake Avenue, Rochester, N. Y.
Harry L. Erisman. Mrs. Annie Erisman, 502 Fifth Avenue, Sterling, Ill.
John V. Fennessy. Richard J. Fennessy, 339 Frost Avenue, Rochester, N. Y.
Hyman Klein. Mrs. Fanny Baron, 153 Ludlow Street, New York, N. Y.
Walter F. Ryan. James Ryan, R. F. D. 6, Portage, Wis.

Died from Disease.

Lieut. George G. Macnish. Mrs. C. G. Macnish, 402 Church Avenue, Stevens Point, Wis.
Lieut. Goodwin Warner. W. P. Warner, 920 Center Street, Jamaica Plains, Mass.
Sergt. Frank Allen Browne. Mrs. Olna Rachel Browne, R. F. D. No. 2, Petersburg, Va.
Sergt. Walter R. Lux. Mrs. J. C. Jankin, Fort Shaw, Mont.
Fireman Constance Hendricks. Mme. Jean Louise Hendricks, 27 Rue Racine, Havre, France.

PRIVATES.

James H. Ensley. Joseph R. Ensley, Ainsworth, Nebr.
Ray U. Nicholson. J. M. Nicholson, Scott's Mills, Oreg.

Died of Aeroplane Accident.

Lieut. William D. Robbins. Mrs. Susie M. Robbins, 1115 Hillsboro Street, Raleigh, N. C.
Lieut. John C. Wilford. Mrs. C. W. Baird, 73 Cumberland Avenue, Asheville, N. C.

Died from Accident and Other Causes.

Capt. Karl H. Dauber. Mrs. Karl H. Dauber, Benicia, Cal.
Sergt. Arnold J. Peterson. Anton Peterson, 1025 Eighth Street, Beloit, Wis.
Corpl. Guy M. Cox. Mrs. H. H. Foreman, 815 Owings Street, Denison, Tex.
Cook Harry E. Hollingsworth. Mrs. Sallie A. Hollingsworth, La Harpe, Kans.

Wounded Severely.

Lieut. Charles Harrold Cook. W. F. Cook, sr., Cusseta, Ga.
Lieut. William H. Osborne. William C. Osborne, 40 East Thirty-sixth Street, New York, N. Y.
Lieut. Harold H. Tittman, jr. H. H. Tittman, sr., 5024 Westminster Boulevard, St. Louis, Mo.
Lieut. Manton W. Williams. J. D. Williams, Sinton, Tex.
Corpl. Thomas Brace. Mrs. Emma Brace, 240 Chene Street, Detroit, Mich.

PRIVATES.

Louis J. Allen. Mrs. Dora Allen, Good Hope, Ill.
Frank J. Blanchard. Mrs. Mary Blanchard, 243 Prospect Street, South Manchester, Conn.
Jake L. Dyer. John Dyer, Novice, Tex.
Conrad D. Ekblom. Mrs. Karin Ekblom, 60 Midland Avenue, Yonkers, N. Y.
Nikolas Geanaris. Miss Mary Geanaris, Cania, Crete, Greece.
Clyde W. Hall. Mrs. Hilda H. Hall, 1924 West Echo Street, Lafayette, Ind.
Samuel T. Johnson. Shermand Johnson, Dot, Va.
Clinton Lamphere. Julia Butler, Main Street, Dolgeville, N. Y.
Blair L. Renand. Fred Renand, Keewaydin, Pa.
Max Arthur Seltz. Mrs. Leonard Romey, 24 Thirty-fifth Street, Detroit, Mich.

Wounded Slightly.

Pvt. Joseph Leaon Eastland. Mrs. Annie Snow, 46 Westminster Street, Pittsfield, Mass.

Wounded (Degree Undetermined).

Lieut. Edward A. Ogle. A. M. Ogle, Terre-Haute, Ind.
Lieut. Charles J. Riley. James Riley, Pleasant Hill, Ill.

Missing in Action.

PRIVATES.

Harry Christian. Mrs. Aley Christian, Filbert, W. Va.
Harry Clohessy. Katherine Black, 111 North Ninth Street, Brooklyn, N. Y.
Theodore Grimes. John William Grimes, 712 West Jefferson Street, Springfield, Ohio.
John William James. Dan Clinton James, Oil Trough, Ark.
Charles W. Preston. Charles W. Preston, sr., 51 Manor Road, Wynnewood, Pa.

FOURTH OF JULY MESSAGES

(Continued from page 6.)

which you did me the honor to send me on July 4, the friendly sentiments of which I heartily reciprocate both with respect to Your Majesty and the people over whom Your Majesty reigns—a people for whom the people of the United States entertain the sincerest friendship.

WOODROW WILSON.

FROM THE PRINCE DE MONACO TO PRESIDENT WILSON.

PARIS, *July 6, 1918.*

President WILSON,
Washington:

From all peoples, small and great, thanks come to you for your utterances of the Fourth of July, which open to the world's life a horizon of justice and truth.

PRINCE DE MONACO.

FROM THE PRESIDENT TO THE PRINCE OF MONACO.

THE WHITE HOUSE,
July 9, 1918.

HIS ROYAL HIGHNESS
THE PRINCE OF MONACO,
Paris, France:

Be so good as to accept my sincere thanks for the courteous and highly appreciated telegram which I received from you on July 6.

WOODROW WILSON.

American Official Communique

(Continued from page 4.)

PVT. CHARLES MARINO, Infantry: "Displayed coolness, courage, and the spirit of self-sacrifice during the action of April 10, 1918, in voluntarily going through a shell-swept area to bring back a wounded noncommissioned officer to dressing station."

PVT. (FIRST CLASS) KENNETH B. PAGE, Infantry, and Pvt. (first class) Charlie M. Dodge, Infantry: "Displayed conspicuous gallantry during action of April 10, 1918, in running through a heavily shelled area to rescue an officer who had fallen mortally wounded, and, at great personal risk, carrying him to dressing station."

PVT. (FIRST CLASS) WALTER J. McCANN, Infantry: "During action of April 10, 1918, displayed conspicuous gallantry in running through a heavily shelled area to pick up a wounded soldier and carry him unaided and at great personal risk to dressing station."

SECOND LIEUT. ALLEN K. DEXTER, Infantry: "While acting as battalion scout officer during action of April 12 and 13, 1918, displayed conspicuous courage and devotion to duty by exposing himself constantly under heavy shell fire to secure information; continuing his work for 24 hours after being wounded, and until he collapsed at dressing station, where he had been sent for treatment."

PVT. GLEN HILL, Infantry: "For coolness and gallantry in action April 12, 13, 1918. Having recently been assigned to a regiment and hearing an order for a counter attack being given in an adjoining detachment, he joined the latter, and himself killed two of the enemy with his bayonet."

The Commander in Chief has also awarded distinguished service crosses posthumously to the following enlisted men:

PRIVATE JOSEPH R. BLAIR, Infantry: "During the action of April 12, 1918, displayed exceptional coolness and devotion to duty in declining to seek cover during a bombardment and continuing at his post in an exposed position awaiting the attack of the enemy. Killed in action."

CORPORAL RUSSEL A. HOYT, Infantry: "During action of April 12, 1918, displayed courage and self-sacrificing devotion to duty in going to a communication trench with one comrade and holding back the advance of the enemy through the trench until killed at his post."

PRIVATE HOWARD P. FITZGERALD, Infantry: "Displayed coolness, courage, and the spirit of self-sacrifice in the action of April 10, 1918, digging out a buried comrade while himself under heavy fire, persisting in this work until he himself received a mortal wound."

FUEL ADMINISTRATION FIXES CARLOAD CHARCOAL PRICES

The United States Fuel Administration authorizes the following:

To provide for the better distribution of charcoal the United States Fuel Administration has promulgated regulations covering the distribution of carload lots, together with the maximum prices which may be charged by the producer therefor.

Under the regulations the maximum prices of charcoal in car lots shall be: Lump in bulk, 20 cents per bushel; lump in bags, 22 cents per bushel; screenings in bags, 20 cents per bushel. All the maximum prices apply to car lots sold to consumers or to dealers for wagon delivery. Any commission paid to selling agencies or margins allowed to jobbers shall be paid by the vendors and shall not be added to the established prices. Where wagon deliveries are made by the producer to the purchaser a reasonable charge for such handling may be added subject to the approval of the Federal fuel administrator for the State in which such deliveries are made.

Where charcoal is shipped in bags the actual cost of the bags may be added to the prices given. The purchaser may return bags suitable for refilling to the point of shipment within 60 days after date of shipment, in which case the price charged for the bags shall be refunded.

FEDERAL MANAGER FOR NEW YORK AND NEW JERSEY CANALS

UNITED STATES RAILROAD ADMINISTRATION,
Washington, July 10, 1918.

GENERAL ORDER NO. 33.

Mr. G. A. Tomlinson, general manager of the New York canal section of the United States Railroad Administration, is appointed Federal manager of New York and New Jersey canals, effective July 15, 1918, and as such will perform the functions heretofore performed by him as general manager of New York canal section of the United States Railroad Administration, and in addition will operate for the Director General upon the Delaware & Raritan Canal and connecting waters such equipment as the United States Railroad Administration now has in its possession and control engaged in such operation, and such additional equipment as may be assigned for that purpose. He is authorized to enforce and collect such toll charges as are or may hereafter be established for the use of the Delaware & Raritan Canal by boats operated by others and empowered to enter into contracts, either in his own name as such Federal manager or in the name of the Director General of Railroads, for the purchase of supplies needed in such operation, and for the transportation of property upon such canal and other waters.

W. G. McADOO,
Director General of Railroads.

The food YOU waste today may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

NOTICE OF PROPOSED PURCHASES FOR THE NAVY.

WASHINGTON, *July 3, 1918.*

The Bureau of Supplies and Accounts of the Navy Department has issued notice of proposed purchases of the following materials.

Bidders desiring to submit proposals should request the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., to send schedules covering the material which they propose to offer, giving schedule numbers.

Heat Insulating Material.

Article.	Quantity.	Delivery at navy yard.	Schedule.
Blocks, insulating, high-pressure	70,000 square feet	Various	1866
Blocks, magnesia	Miscellaneous	do	1866
Cement, plastic, magnesia	175,000 pounds	do	1866
Covering, pipe, magnesia	Miscellaneous	do	1866
Felting, asbestos, fiber	do	do	1866
Millboard, asbestos	do	do	1866
Packing, asbestos, wick or rope	38,725 pounds	do	1866
Paper, asbestos	47,750 pounds	do	1866
Plaster, asbestos	271,000 pounds	do	1866

Lumber.

Ash, white	Miscellaneous	Various	1869
Basswood, live, firsts and seconds	680,000 feet	do	1868
Beech, birch, or maple, or mixed	246,000 feet	do	1876
Butternut, firsts and seconds	344,000 feet	do	1868
Cedar, white; juniper, selects; Southern; Port Orford.	Miscellaneous	do	1873
Cherry, firsts and seconds	170,000 feet	do	1868
Cypress	Miscellaneous	do	1873
Iron bark, for dry-dock blocks and fenders on tugs	6,000 feet	Mare Island, Cal	1875
Knees, hackmatack; fletches, oak; tamarack; California oak or laurel.	Miscellaneous	Various	1877
Lignum vitæ	427,000 pounds	do	1868
Lumber, box and crate	709,000 feet	do	1879
Maple, hard, No. 1 common; first and seconds	315,500 feet	do	1868
Oak, white; red	Miscellaneous	do	1867
Pine, sugar	do	do	1875
Pine, white, California	20,000 feet	Mare Island, Cal	1875

Pine, white, New England	do	do	1871
Poles, hickory	500	Brooklyn, N. Y.	1868
Poles, juniper	1,990	Various	1868
Poles, spruce, spar, bark peeled off	820	Norfolk, Va	1878
Poplar, firsts and seconds; selects	Miscellaneous	Various	1868
Redwood, shingles; ties	do	do	1874
Spruce, New England; Southern	do	do	1878
Ties; track; switch; cross	do	do	1870

Sales of War Savings Certificates and Thrift Stamps at 50 Post Offices

OFFICE THIRD ASST. POSTMASTER GENERAL,
Washington, D. C., July 10, 1918.

The following is a statement showing the sales of war savings certificates and thrift stamps for 24 consecutive weeks (January 19 to June 29, 1918, inclusive) at the 50 post offices having the largest postal receipts, together with the per capita sales based on the population as estimated by the United States Census Bureau as of July 1, 1916 (latest published estimates):

Post offices.	Amount of sales.	Per capita sales.
Omaha, Nebr.	$1,787,942	$10.83
Syracuse, N. Y.	1,130,826	7.25
Pittsburgh, Pa.	3,857,169	6.66
Dayton, Ohio	844,120	6.65
Indianapolis, Ind.	1,721,642	6.33
Hartford, Conn.	701,232	6.32
Nashville, Tenn.	713,630	6.10
Memphis, Tenn.	903,648	6.06
St. Louis, Mo.	3,468,353	5.90
New Haven, Conn.	848,829	5.66
Salt Lake City, Utah	661,651	5.65
Milwaukee, Wis.	2,438,133	5.58
Albany, N. Y.	563,193	5.41
Baltimore, Md.	3,149,167	5.31
Columbus, Ohio	1,143,332	5.32
Seattle, Wash.	1,806,005	5.17
Toledo, Ohio	978,968	5.10
Kansas City, Mo.	1,478,032	4.96
Cincinnati, Ohio	1,957,584	4.77
St. Paul, Minn.	1,174,087	4.75
Buffalo, N. Y.	2,199,931	4.69
Portland, [illegible]	1,348,826	4.55
Houston, Tex.	490,816	4.38
Des Moines, Iowa	443,715	4.35
Minneapolis, Minn.	1,570,316	4.33
Dallas, Tex.	530,629	4.24
Jacksonville, Fla.	299,963	3.95
Worcester, Mass.	$633,721	$3.89
Akron, Ohio	331,811	3.86
Providence, R. I.	981,274	3.85
Cleveland, Ohio	2,550,218	3.78
Los Angeles, Cal.	1,882,741	3.74
Louisville, Ky.	878,267	3.67
Boston, Mass. (Postal District)	5,147,703	3.67
Detroit, Mich.	1,986,522	3.47
San Francisco, Cal.	1,588,191	3.42
New York, N. Y. (1)	10,772,103	3.36
Washington, D. C.	1,198,161	3.29
Richmond, Va.	512,574	3.26
Chicago, Ill.	7,858,661	3.15
Newark, N. J.	1,142,981	2.79
Jersey City, N. J.	791,472	2.59
Springfield, Mass.	274,689	2.59
Philadelphia, Pa.	4,193,464	2.45
Brooklyn, N. Y. (2)	4,241,796	2.20
Denver, Colo.	564,680	2.16
Atlanta, Ga.	391,968	2.05
Rochester, N. Y.	497,370	1.94
Grand Rapids, Mich.	239,256	1.87
New Orleans, La.	625,847	1.68
Total	87,492,119	3.75

(1) Based on population of Boroughs of Bronx and Manhattan.

(2) Base on population of Borough of Brooklyn.

The foregoing statement tells a story of patriotic activity by the postmasters and postal employees at these offices. While commendable results have already been accomplished, intensive and continuous efforts to sell the stamps will surely result in still larger sales, which will be shown in our next statement.

VOL. 2 WASHINGTON, SATURDAY, JULY 13, 1918. No. 259

INCREASED FREIGHT TRAFFIC IN APRIL OVER SAME MONTH LAST YEAR SHOWN IN REPORTS

DUE TO COOPERATION OF SHIPPERS

Better Performance Made Possible by More Complete Utilization of Cars and More Scientific Loading of Trains.

The Railroad Administration authorizes the following:

In a report to Director General McAdoo the Operating Statistics Section of the Railroad Administration has compiled a statement which shows some gratifying tendencies in freight train operation. The complete returns for approximately 94 per cent of the mileage of roads whose annual operating revenues are in excess of $1,000,000 show that in the month of April, 1918, as compared with the corresponding month last year, the freight traffic, measured in tons of revenue freight moved 1 mile, increased 8.9 per cent. The transportation of this extra traffic was accomplished with an increase of only 1.3 per cent in freight train miles, and with an actual decrease (of 0.3 per cent) in freight car miles. The better performance was made possible by the more complete utilization of freight cars, and the more scientific loading of freight trains.

Heavier Car Loads.

The average loaded freight car in April of this year carried 29.4 tons. The corresponding figure for last year was 25.7 tons. Each loaded car this year, therefore, contained 3.7 tons (or 14.4 per cent) more than last year.

The number of tons of freight in the average train of April this year was 696, as compared with 651 last April, a gain of 45 tons per train, or an increase of 6.9 per cent in freight loading efficiency.

If the greater volume of freight traffic in April, 1918, had been handled with the average train load of April, 1917, it would have required 3,690,179 more freight trains one mile than were actually required in 1918 with the better supervision of car and train loading. If it is assumed that each freight train ran 100 miles, then the better performance in April, 1918, was equivalent to a saving of 36,902 trains during the month, or a saving of 1,230 trains every day.

A large part of the saving is due to the cheerful cooperation of the shipping public in making it possible more fully to utilize the carrying capacity of freight cars.

The statements above referred to show also the freight operation results for the

(Continued on page 9.)

President Orders French National Flag Displayed

Executive Order.

In recognition of the valor, courage, and heroism with which the people of France have, for nearly four years, defended the liberties of the world, it is hereby ordered that the National Flag of France be displayed on all public buildings and vessels of the United States, at home and abroad, on July 14, 1918, in honor of the French National Holiday—Bastile Day.

WOODROW WILSON.

THE WHITE HOUSE,
July 13, 1918.

REPORT ON THE INVESTIGATION INTO DEATH OF MAJ. MITCHEL

Witnesses Believe Aviator Killed in Louisiana Failed to Buckle Safety Belt.

The following statement is authorized by the Secretary of War:

The Director of Military Aeronautics has received from the Commander of Gerstner Field, Lake Charles, La., the following official report:

"The Board found that Maj. J. P. Mitchell, R. C. A. S., while flying a scout airplane, Signal Corps, No. 41,372, at Gerstner Field, Lake Charles, La., at about 8 a. m. on July 6, 1918, fell out of said airplane at an altitude of about 500 feet when said airplane nosed down sharply and was killed instantaneously. Said airplane was found about half mile south of hangar No. 24, a total wreck and Maj. Mitchel's body was found about 500 yards nearer hangar No. 24. The Board also finds that death occurred in line of duty and not the cause of his own misconduct. The accident investigation officer reports that safety belt was found unbuckled and intact with no evidence of any strain having been placed upon it. The fire extinguisher was found 70 yards from body on line with ship. Body bounded 10 feet in opposite direction to ship on line with it. The consensus of opinion of witnesses is that he failed to buckle safety belt and upon nosing over for glide was thrown out by the peculiar quick snap of the scout when the stick pushed too far forward.

"KIRBY."

Give up your luxuries that the Kaiser may be made to give up his ambitions.

ORGANIZATION OF THREE AMERICAN ARMY CORPS IN FRANCE ANNOUNCED BY THE CHIEF OF STAFF

NO LET-UP IN TROOP MOVEMENT OVERSEAS

Advance of Italian and French Forces in Albania Described by Gen. March. Not Informed as to Reason for Delay in Renewal of German Offensive.

Press statement by Gen. Peyton C. March, Chief of Staff, July 13, 1918:

The activities along the various fronts have been of a minor character during the last week. Small raids along the French line have been continued with practically unvarying success for the allied arms.

The only striking advance during the week is that on the Macedonian front, which has not heretofore come into these weekly talks. By shelling from the sea by British and Italian monitors, the Austrian line was forced to withdraw and a general advance was made over this entire sector. At the farthest point the Italians advanced 22 miles. The advance in Albania was made largely by Italians, but on the right flank the French assisted, and on the coast, as I have said before, the Italian infantry acted in conjunction with monitors. This advance was over a crescent about 80 miles long and was in the Balkan Mountains, which in this region rise to a height of from 2,700 to 4,000 feet. The greatest advance which, as I have indicated, is 22 miles, reached Berat. Farther in from seacoast the French and Italians are pushing westward down the valleys making a gain there of some 6 miles.

First American Corps.

With reference to our own troops in France, the first American corps in France includes two Regular divisions and four National Guard divisions. These divisions are as follows:

The First Division, Regulars, commanded by Maj. Gen. Robert L. Bullard.

Second Division, Regulars, which also includes Marines, under the command of Maj. Gen. Omar Bundy.

Twenty-sixth Division, National Guard, composed of troops from the New England States, was the first National Guard division to go across. This division was composed of units many of whom were in

service along our Mexican border. This division is commanded by Maj. Gen. Clarence R. Edwards.

Forty-second Division, which is a National Guard division, known in the United States as the Rainbow Division, is commanded by Maj. Gen. Charles T. Menoher.

Forty-first Division, National Guard division, known as the Sunset Division, is composed of National Guard troops from the Pacific Coast States. The division was at Camp Green for some time and was commanded by Maj. Gen. Hunter Liggett, who is now in command of the First Corps.

The remaining division of this corps is the Thirty-second Division, which is a National Guard division composed of troops from Michigan and Wisconsin. They came from Camp MacArthur, Tex., and were commanded by Maj. Gen. William G. Haan.

The Second Corps.

This corps includes two National Army divisions, one Regular division, and three National Guard divisions, as follows: Seventy-seventh Division, which I have referred to before in these talks, trained at Camp Upton, N. Y., and is a New York division, the first of the National Army to be sent to France and first to get on the firing line. Commanded by Maj. Gen. George B. Duncan, who went over as a brigadier general and was recently promoted to major general for efficient service in France.

(2) Thirty-fifth Division—National Guard Division—composed of National Guard troops from Kansas and Missouri, which I have referred to before, trained at Camp Doniphan, Okla., is commanded by Maj. Gen. W. M. Wright.

(3) Eighty-second Division, composed of National Army troops, largely from Alabama, Georgia, and Tennessee, trained at Camp Gordon, Ga., commanded by Maj. Gen. William P. Burnham.

(4) Thirtieth Division, composed of National Guard units from Tennessee, North Carolina, South Carolina, and the District of Columbia, trained at Camp Sevier, commanded by Maj. Gen. George W. Read.

(5) Twenty-eighth Division, composed of National Guard troops from Pennsylvania, trained at Camp Hancock, Ga., commanded by Maj. Gen. C. H. Muir.

(6) Fourth Division—Regulars—which was assembled at Camp Greene, N. C., commanded by Maj. Gen. George H. Cameron.

The Third Corps.

This corps is composed of six divisions, two of which are Regular Army, two National Army, and two National Guard.

(1) Third Division, Regulars, who were in camp largely at Camp Greene, N. C., commanded by Maj. Gen. Joseph T. Dickman.

(2) Fifth Division, Regulars, consists of different units which were assembled from various Army posts, commanded by Maj. Gen. John E. McMahon.

(3) Seventy-eighth Division was the third division of the National Army to go to France. It was trained at Camp Dix, N. J., and includes largely drafted men from Delaware and part of New York. Commanded by Maj. Gen. J. N. McRae.

(4) Eightieth Division was the fourth of the National Army divisions to embark. Was trained at Camp Lee, Va. Commanded by Maj. Gen. Adelbert Cronkhite.

(5) Thirty-third Division embraces the Illinois National Guard, trained at Camp Logan, Tex., and commanded by Maj. Gen. George Bell.

(6) Twenty-seventh Division, National Guard, trained at Camp Wadsworth, S. C., commanded by Maj. Gen. John F. O'Ryan.

These 18 divisons make up the 3 corps, including 5 Regular Army, 9 National Guard, and 4 National Army divisions. As other corps organize I will announce them.

With reference to our own troops: The shipment of our troops is proceeding without any let-up whatever, in exactly the same manner as in previous months. We are keeping up the same rate.

In answer to a question regarding the delay in the German offensive, Gen. March said:

I am not informed by official cablegrams of any reason which is supposed by the nations on the other side to account for this delay. It would be necessary before embarking upon an offensive of such magnitude for them to completely refit, and fill up their divisions from their depots to get everything in readiness for an attack. That must be done by any nation in case of an offensive of that size. The delay in the German offensive obviously permits large increase in the number of American troops in France.

In regard to a change in the command of the 77th Division, Gen. March said:

The 77th Division was organized and trained by Maj. Gen. J. Franklin Bell, jr., at that time Commanding General, Eastern Department, New York, and when Gen. Bell was taken off the list of generals for overseas duty, the senior general of the division happened to be Brig. Gen. Evan M. Johnson, who took the division across. Gen. Bell's relief took place just before going across and Gen. Duncan stepped into that vacancy.

In regard to how many men constitute an army corps, Gen. March said:

"You can say that an army corps, as I have described it, contains from 225,000 to 250,000 men. A field army in round numbers is 1,000,000 men.

"The policy of the War Department about corps commanders is to wait until major generals get the experience necessary in handling such a large number of men. When they have demonstrated that they can handle an army of that number the appointments of lieutenant generals will be made."

Additional List of American Prisoners and the Camps Where They Are Held

The following additional list of American prisoners of war is made public by the War Department:

Name.	Rank.	Emergency address.
CAMP KARLSRUHE.		
Williamson, Joseph Frederick.	Captain.....	Frederick F. Williamson, Sebastopol, Cal.
Battle, Blanchard B.....	Lieutenant..	Charleton E. Battle, Columbus, Ga.
CAMP SALZERBAD, LOWER AUSTRIA.		
Young, Clarence M.....	Lieutenant..	John H. Hilmes, Mineral Springs Hotel, Alton, Ill.
CAMP RASTATT.		
Leyson, Burr W.....	Lieutenant..	Burr W. Leyson, 114 State Street, Boston, Mass.
CAMP MEWE.		
Baer, Paul F.....	Lieutenant..	Mrs. Emma Baer Dwyer, 1304 Maud St., Fort Wayne, Ind.

Summary of Fatalities on Flying Fields in This Country for Three Weeks

The War Department authorizes the following:

Herewith is a summary of deaths in aviation accidents at flying fields in this country for three weeks ending respectively June 22, 29, and July 6, 1918.

Place at which fatality occured.	Number of fatalities.
Brooks Field, San Antonio, Tex	2
Carruthers Field, Benbrook, Tex	2
Chanute Field, Rantoul, Ill	1
Ellington Field, Houston, Tex	1
Gerstner Field, Lake Charles, La	2
Park Field, Millington, Tenn	1
Payne Field, West Point, Miss	3
Post Field, Fort Sill, Okla	1
Scott Field, Belleville, Ill	1
Selfridge Field, Mt. Clemens, Mich	3
Taliaferro Field, Fort Worth, Tex	5
Taylor Field, Montgomery, Ala	1
Wilbur Wright Field, Fairfield, Ohio	1
Total	24

NEW DIRECTOR OF OPERATIONS.

Chairman Hurley, of the Shipping Board, has announced the appointment of J. H. Rosseter as director of the department of operations to succeed Edward F. Carry, who resigns to become chairman of the port and harbor commission.

MAXIMUM PRICES ESTABLISHED FOR STANDARD SIZES OF COKE

The United States Fuel Administration issues the following:

It appearing to the United States Fuel Administrator that various regulations should be put in force for the better control of the distribution of coke made in beehive ovens and of the prices at which the same may be sold,

The United States Fuel Administrator, acting under an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that until further or other orders of said Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulations shall be in effect beginning at 7 a. m., July 9, 1918:

(1) The price of coke shall be understood as the price per ton of 2,000 pounds, f. o. b. cars at the plant where the coke is manufactured.

(2) All the maximum prices mentioned herein shall apply to car lots sold to consumers or to dealers for wagon delivery; any commissions paid to selling agencies or margins allowed to jobbers shall be paid by the vendors, and shall not be added to the prices established hereby.

(3) In all cases where wagon deliveries are made by the coke producer, a reasonable charge for such handling and delivery may be made, subject to the approval of the Federal fuel administrator for the State to which such delivery is made.

(4) The maximum price per ton of 2,000 pounds, f. o. b. cars at ovens for crushed coke over three-fourths inch size, produced at any beehive coke-oven plant, shall be the maximum price for 72-hour select foundry coke plus 30 cents.

(5) The expression "crushed over three-fourths inch size" shall include all prepared sizes of the clean hard coke over three-fourths inch size whether crushed and screened mechanically or screened by hand.

(6) The maximum price per ton of 2,000 pounds, f. o. b. cars at ovens for all prepared sizes of clean dry screened coke under three-fourths inch size shall be $1 less than the price established by the United States Fuel Administrator for blast furnace coke made at beehive ovens where such coke is produced.

(7) The maximum price per ton of 2,000 pounds, f. o. b. cars at ovens for breeze shall be one-half the price established for blast-furnace coke made in beehive ovens where such breeze is produced. The term "breeze" shall be understood to include: (*a*) All the small coke that is left after loading coke into cars by means of forks if shipped without further screening or sizing; (*b*) any portion of this coke that remains after removing the prepared sizes; (*c*) any undersized coke that is left after removing the metallurgical coke, the foundry coke, or the prepared sizes by screening.

H. A. GARFIELD,
United States Fuel Administrator.

Government's Position Concerning Child Labor and Prison Labor is Outlined

The War Labor Policies Board authorizes the following statement of the position of the production departments of the Government concerning child labor and prison labor:

All work required in carrying out this contract shall be performed in full compliance with the laws of the State, Territory, or District of Columbia where such labor is performed. A contractor shall not directly or indirectly employ in the performance of this contract any minor under the age of 14 years, or permit any minor between the age of 14 and 16 years to work more than 8 hours in any one day, more than 6 days in any one week, or before 6 a. m. or after 7 p. m. Nor shall the contractor directly or indirectly employ any person undergoing sentence of imprisonment at hard labor which may have been imposed by a court of any State, Territory, or municipality having criminal jurisdiction.

GERMAN SHORE BATTERIES DESTROY U. S. MOTOR LAUNCH

Three Men Saved, Two Unaccounted for, and Two Are Taken Prisoners by Enemy.

The Navy Department has been advised that motor launch *No. 3429*, after assisting a French destroyer to tow an American seaplane, came within range of German shore batteries and was immediately fired upon and sunk. Men of the crew, with life conveyances, began swimming toward shore. Three were picked up on the allied shore unhurt but exhausted. Asst. Surg. Albert Mason Stevens, United States Naval Reserve Force, and Philip Goldman, quartermaster, second class, were only able to make shore on the German side, and they were seen to have been taken prisoners by German soldiers. The other two members of the crew, Charles Joe Tatulinski, seaman, second class, United States Navy, and John Peter Vogt, seaman, second class, United States Navy, are unaccounted for.

Albert Mason Stevens, assistant surgeon, United States Naval Reserve Force. Mrs. Katherine S. Stevens, wife, 2226 Loring Place, New York City.

Philip Goldman, quartermaster, second class, United States Navy. Julius Goldman, father, 234 East One hundred and sixteenth Street, New York City.

Charles J. Tatulinski, seaman, second class, United States Navy. John Tatulinski, father, 6215 Fullerton Avenue, Cleveland, Ohio.

John Peter Vogt, seaman, second class, United States Navy. Mrs. Albertine Brown Vogt, mother, 3042 North Rampart Street, New Orleans, La.

WAR CREDITS BOARD.

A letter from the War Credits Board to the editor of THE OFFICIAL BULLETIN calls attention to the fact that in a directory of the various Government offices in Washington, published in THE BULLETIN on July 1, 1918, the War Credits Board was listed as a branch of the War Department, whereas it is a separate, distinct board, acting under the Secretary of War, and should have appeared under the head of "Miscellaneous Bodies." The board consists of Lieut. Col. M. W. Thompson, Sig. Corps, U. S. A., President; Lieut. Col. Charles Elliot Warren, Ord. Dept., N. A., and Mr. Fernando P. Neal.

U. S. MASKS PROTECT SOLDIERS AGAINST ANY GERMAN GASES

Fighting Men Also Provided with Neutralizing Ointment for Rubbing on Body.

The following statement from the chemical warfare section is authorized by the War Department:

Protection against any of the gases now in use by the Germans is given to American soldiers by the masks now being worn. Statements that American masks do not protect soldiers from the effects of mustard gas are not warranted.

—The masks now worn will protect soldiers as long as they are required to remain in areas drenched by gas. The clothing worn by the soldiers will resist the effects of the gas for a normal period.

Neutralizing Ointment.

As an added precaution the soldiers are now provided with a neutralizing ointment to be rubbed on those parts of the body where mustard gas is likely to penetrate through the clothes.

This ointment is being prepared in quantities greater than the demand for it. The first month's shipment consisted of 800,000 tubes. It is a new preparation made after a formula prepared by chemists connected with the Chemical Welfare Section. Rubbed on the body before a gas attack, it has the power to neutralize the poisonous effects of mustard gas.

For the protection of the special men whose duty is to clear trenches of all traces of the gases, special underwear is new being provided. These suits are chemically treated and neutralize poisonous gases.

Men are being thoroughly trained in gas defense, so that every soldier who enters the zone of fire thoroughly understands the measures of gas defense. Every man is drilled in the adjustment of his gas mask before he is subjected to a gas test, either here or overseas.

Great Britain is Given New $175,000,000 Credit

The Treasury Department has granted an additional credit of $175,000,000 to Great Britain, making the total of loans to that country to date $3,345,000,000 and the total credits to the allies $6,226,590,000.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 10 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions engaged in the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

PAYMENTS OF WAR INSURANCE COVER A PERIOD OF 20 YEARS

The War Department authorizes the following:

Numerous inquiries have been received by the finance division of the Quartermaster Corps from relatives of enlisted men as to the method of payment of insurance benefits to the beneficiaries of those men who have become insured under the provisions of the war-risk insurance act.

Under the provisions of the act the beneficiary named does not secure the amount of the policy in a lump sum on the death of the insured, but receives a monthly payment from the Government as proceeds from the insurance. The payments cover a period of 20 years, or 240 months.

For an insurance of $1,000 the beneficiary would receive a monthly payment of $5.75 for 20 years. For the maximum insurance of $10,000 the beneficiary would receive a payment of $57.50 per month for 20 years. Insurance may be had in any amount from $1,000 to $10,000 in multiples of $500, and the policy is payable on the basis of $5.75 per month for each $1,000 of insurance for 240 monthly installments.

Proceeds from insurance of soldiers under the war-risk insurance act can not be attached, assigned, or otherwise taken by creditors.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 53.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES.
July 11, 1918.

* * * * * *

Section A.—In the Vosges a raid, attempted by the enemy, broke down with losses before our lines had been reached. The day passed quietly at other points.

As the result of a bombing expedition last evening, five of our machines are missing.

Section B.—In Picardy the enemy was very quiet on July 5 to 6. His artillery fire was considerably below the average. The vicinity of Coullemelle was his principal objective. The German air forces engaged in but little activity. One of our planes brought down an enemy observation balloon. An ammunition dump was exploded in the German rear areas.

Our troops in the Marne sector experienced a quiet day July 8 to 9. The enemy's artillery activity was slightly less than on the days preceding. Most of the shells were of small and medium caliber, some of them containing shrapnel. Our artillery was very active and drew considerable fire from the enemy batteries. The balance of his fire was harassing and destructive. The heaviest fire continues to come from the Brasles sector in the rear areas which movement continues active. There was an increase in the enemy's machine gun fire. Our batteries destroyed two ammunition dumps and a dump containing skyrockets and flares.

In Lorraine our forces were particularly active on July 7 to 8. We easily dispersed two enemy patrols; our artillery fire was in excess of the enemy's; our antiaircraft batteries were active against his normal aerial activity and we sent out successful patrols. One of our patrolling parties penetrated the third German line. Another of our patrols penetrated the enemy's entanglements and reconnoitered his advanced positions.

In the Munster section the enemy's patrols and our own continued active on July 7. Three enemy patrols, two of which were wire-cutting parties, were driven off by our troops. The enemy's trench mortar fire was heavier than usual both in caliber and number of shells. The only hostile plane which made an afternoon flight was driven back by our fire. Our patrols were active all along the sector.

The Munster sector was again quiet on July 8. The enemy artillery fire decreased to a very small number of medium caliber shells. The total trench motor fire was in excess of the preceding day, but was widely scattered and of medium caliber. The German air forces showed a slight increase in reconnaissance and observation flights. Our own wire and ambush water holes continued active in all sectors. One of our reconnaissance patrols penetrated the enemy's second line trench and reconnoitered his position there.

On July 8 the Altkirch sector was quiet. There was a decided increase over the two preceding days in the enemy's artillery fire which comprised shells of light, medium, and heavy caliber. His airplanes were increasingly active. One of them was attacked by an allied plane over no man's land, and after machine-gun fire had been exchanged the enemy plane was seen to burst into flames. A man fell from it and a few seconds later the gasoline tank exploded and the machine fell to the ground in the enemy's rear area. Our troops continued their patrol activity all along the sector.

The Thann sector was very quiet on July 6 to 8. Several patrols attempting to raid our lines were driven back. The enemy's air forces were not particularly active on July 6, but his activity was marked on July 8. On this date we drove back two planes over Muhlbach.

In the Woevre the day July 6 to 7 was exceptionally quiet.

The Commander in Chief has awarded distinguished service crosses to the following enlisted men for the acts of gallantry set forth after their names:

CORPL. JAMES R. THORNLEY, Infantry: "Wounded early in the Seicheprey engagement on the morning of April 20, 1918, he displayed great gallantry and devotion to duty in continuing to urge his men to defend their positions, aiding greatly in the defense of the same by climbing a tree and from there shouting out directions as to the enemy's location."

PVT. H. R. JOHNSON, Field Artillery: "For exceptional bravery and devotion to duty on April 20, 1918, when, although wounded in the arm and leg, he continued, while under heavy shell fire, to repair the telephone lines and succeeded in reestablishing communication."

PVT. J. C. PARENT, Field Artillery: "For faithfulness and great coolness in the execution of his duty on April 20, 1918, when, although severely wounded in the head and left leg, he continued, under heavy shell fire, to repair the telephone lines and succeeded in reestablishing communication."

PVT. EDWARD L. DION, Infantry: "Displayed extraordinary heroism in defending his post during the Seicheprey engagement on the morning of April 20, 1918. Although completely surrounded by the enemy on

(Continued on page 6.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

When the Senate adjourned last night a practical agreement had been reached by which after final action on the wire-control bill has been had no further business of importance shall be considered until August 20 or 26. Pending that time the Senate will take three-day recesses. The agreement includes the bringing up of the food stimulation bill with its war prohibition amendment immediately upon the expiration of this period of recesses and its continuous consideration until the vote is taken. It was hoped that the wire-control bill might be passed before adjournment to-day and the recesses begin at once, but a delay may result to afford time to repass the agricultural bill, which was vetoed yesterday. The wire-control bill was under consideration all of yesterday, the chief attack upon it being based upon the prediction that it would be used to censor the press of the country. This was vigorously denied by several Senators who gave personal assurances on information they said had been given them by Government officials that nothing of this sort was contemplated or would be tolerated.

Charges Irregularities.

A subcommittee of the Military Committee had before it yesterday Fred E. Farnham, of Chicago, a former lieutenant in the Quartermaster's Corps, who charged there were certain irregularities in the letting of concessions for the officers mess at Camp Joseph E. Johnson, at Jacksonville, Fla. He charged that the contract had been let to board officers at $1.17 a day, and that the contractor had sublet it at 90 cents. Members of the committee said the matter would be inquired into further.

A resolution containing a message of greeting to the French people and urging the American people to join in the observance of July 14, the French national holiday, was adopted by the Senate as a "mark of special regard for our allies."

The resolution (S. Res. 282) is as follows:

Whereas the people and Government of France have expressed their friendship for the United States by celebrating our national holiday, the Fourth of July; and

Whereas the 14th of July, France's national holiday, is similar in meaning to our Fourth of July; and

Whereas it is fitting that the American people should express their appreciation for the celebration in France of our Independence Day and their admiration for the sublime courage with which the people of France have for nearly four years defended the liberties of the world, and give voice to the unalterable determination of America to support the common cause of free nations to the utmost limits of our resources: Now, therefore be it

Resolved, That the Senate of the United States of America hereby tenders the fraternal greetings of the American people to the people and Government of France, and urges all citizens of the United States to observe the national holiday of France, the 14th of July, as a mark of special regard for our ally.

Resolved further, That the Secretary of State be directed to transmit a copy of this resolution to the Government of the French Republic.

HOUSE.

The President yesterday vetoed the agricultural appropriation bill containing a provision increasing the minimum guaranteed price of wheat to $2.40 a bushel. The text of the veto message is as follows:

To the House of Representatives:

I regret to return without my signature so important a measure as H. R. 9054, entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1919," but I feel constrained to do so because of my very earnest dissent from the point of view of principle as well as of wise expediency from the provision of that part of section 14 which prescribes a uniform minimum price for No. 2 northern spring wheat of $2.40 per bushel.

I dissent upon principle because I believe that such inelastic legislative price provisions are insusceptible of being administered in a way that will be advantageous either to the producer or to the consumer, establishing as they do arbitrary levels which are quite independent of the normal market conditions, and because I believe that the present method of regulating by conference with all concerned has resulted in the most satisfactory manner, considering the complexity and variety of the subject matter dealt with.

It is evident that the present method of determining the price to be paid for wheat has had the most stimulating effect upon production, the estimated crop of spring wheat for this year exceeding all high records in a very remarkable and gratifying way. By an overwhelming majority of the farmers of the United States the price administratively fixed has been regarded as fair and liberal, and objections to it have come only from those sections of the country where, unfortunately, it has in recent years proved impossible to depend upon climatic conditions to produce a full crop of wheat and where, therefore, many disappointments to the farmer have proved to be unavoidable.

Personally, I do not believe that the farmers of the country depend upon the stimulation of price to do their utmost to serve the Nation and the world at this time of crisis by exerting themselves to an extraordinary degree to produce the largest and best crops possible. Their patriotic spirit in this matter has been worthy of all praise and has shown them playing a most admirable and gratifying part in the full mobilization of the resources of the country. To a very greatly increased production of wheat they have added an increased production of almost every other important grain, so that our granaries are likely to overflow, and the anxiety of the nations arrayed against Germany with regard to their food supplies has been relieved.

[illegible] upon a [illegible] advantage [illegible] would in large [illegible] advantage of flexibility, of rendering possible at every stage and in the view of every change of experience a readjustment which will be fair alike to producer and consumer.

A fixed minimum price of $2.40 per bushel would, it is estimated, add $2 per barrel to the price of flour; in other words, raise the price of flour from the present price of $10.50 at the mill to $12.50 at the mill, and inasmuch as we are anticipating a crop of approximately 900,000,000 bushels of wheat, this increase would be equivalent to the immense sum of $387,000,000.

Such an increase of the price of wheat in the United States would force a corresponding increase in the price of Canadian wheat. The allied Governments would, of course, be obliged to make all of their purchases at the increased figure, and the whole scale of their financial operations in this country, in which the Government of the United States is directly assisting, would be thereby correspondingly enlarged. The increase would also add very materially to the cost of living, and there would inevitably ensue an increase in the wages paid in practically every industry in the country. These added financial and economic difficulties, affecting practically the whole world, can not, I assume, have been in contemplation by the Congress in passing this legislation.

WOODROW WILSON.

Revenue Bill Hearings End.

Hearings on the war-revenue bill before the Ways and Means Committee closed yesterday and Chairman Kitchin announced that the committee would meet on Monday in executive session to begin consideration of the measure. Representatives of periodical publishers appeared yesterday and argued in support of their plea to suspend, modify or repeal the zone system of second-class rates in the existing law.

The President transmitted to the House reports from various boards having charge of exports and imports and their transportation bearing upon the liquor question. It was in response to a resolution asking for the information and showed that an absolute embargo on the importation of malt liquor from Europe has been established by the War Trade Board. The report showed that the War Trade Board and the Railroad Administration have taken steps to restrict the manufacture of liquors. The chairman of the War Industries Board said his board had ruled that no license shall be granted for the export of alcohol for the manufacture of beverages. Alcohol may be exported only for war uses.

Responding to the Madden resolution the Shipping Board reported that it had obtained deferred classification for 500 men. The Interior Department informed the House that 308 men in that department had been given deferred classification.

In response to a resolution of inquiry Secretary Baker reported to the House that contracts for the exhibition of war films were awarded after competitive bidding to the highest bidder and that the amount received is divided with the allied nations.

AMERICAN OFFICIAL COMMUNIQUE

(Continued from page 4.)

several occasions, he fought them off with grenades and rifle fire, finally succeeding in driving them away, after which he carried a wounded comrade through a rain of shrapnel to a first-aid station and returned to his post."

PVT. JEREMIAH TRYON, Infantry: "Displayed unusual daring and courage during the Seicheprey engagement on the morning of April 20, 1918, when, under heavy artillery fire, he climbed out of his trench in the front line onto the top and killed a sniper who was pouring destructive fire into our trenches."

The Commander in Chief has also awarded distinguished service crosses posthumously to the following enlisted men for the following acts of gallantry:

SERGT. JOSHUA H. BROADHEAD, Field Artillery: "Displayed exceptional bravery and devotion to duty during the action of April 20, 1918, when, although wounded early in the engagement, he refused to leave his section, remaining on duty and keeping his gun in action until killed later in the day."

PVT. (FIRST CLASS) FRANK P. GORDON: "Displayed conspicuous courage on April 20, 1918, in voluntarily going to the aid of a wounded comrade, during which action he and the man he was assisting were killed."

The Commander in Chief has awarded distinguished service crosses to the following officers and men of the American Expeditionary Force for the acts of gallantry set forth after their names:

LIEUT. COL. LOGAN FELAND, Marines: "During the operations at Bois de Belleau, from June 6 to June 14, 1918, distinguished himself by his energy, courage, and disregard for personal safety in voluntarily leading troops into action through heavy artillery and machine-gun fire. His efforts contributed largely to our successes at this point."

MAJ. J. S. TURRILL, Marines: "At Bois de Belleau, on June 6, 1918, displayed extraordinary heroism when, in leading his men to the attack, he constantly exposed himself to danger, ever setting a splendid example to his men."

FIRST SERGT. BENJAMIN JAMES, Field Artillery: "During the action of April 21, 1918, when shell struck the gun pit of a battery, although seriously wounded in the chest and legs by fragments, he immediately obtained stretchers for the other men, doing everything possible for their comfort until he fell. He declined medical attention until all others had been looked after, setting a splendid example of self-sacrifice."

PVT. WILLARD S. PAULEY, Machine Gun Battalion: "Showed the greatest determination and courage at Bois de Belleau, on June 2, 1918, when he maintained communication between the firing line and his headquarters by visual signaling. Knocked down twice, he remained at his post in the open for several hours under heavy shell fire."

The following are extracts from a German document recently captured. It is the formal report of a German intelligence officer at the headquarters of the Seventh German Army and is dated June 17, 1918:

"Intelligence Officer of the Supreme Command at Army Headquarters, No. 7. J. Number. 3528.

"Army headquarters, June 17, 1918.

"Second American Infantry Division.

"Examination of prisoners from the Fifth, Sixth, Ninth, and Twenty-third Regiments captured from June 5 to 14, in the Bouresches sector.

"Principal points of information.

"Purpose of the attacks.

"The prisoners were not informed of the purpose of the attacks. The orders for the attacks on Belleau Woods were made known only a few hours before the attacks took place.

"Arrival in line and relief.

"The Marine Brigade went into sector from June 2 to June 4, and elements of the other two regiments from June 5 to 6 in the area Torcy-Vaux (4 km. west of Chateau Thierry), one battalion from each unit being in the front line. There they relieved French troops of various divisions whose identity they did not know. They had no information concerning their relief. Only the prisoners from the Marine Brigade considered that on account of heavy losses their relief was imminent.

"Organization:

"Paragraph one: The third Marine Brigade belongs to the Marine Corps which was already in existence in the United States during peace time. The First and Second Marine Brigades are said to be still at home.

"Paragraph two: Regarding the distribution of machine guns the prisoners made contradictory statements. They claim that, in the Third Marine Brigade for instance, each regiment, in addition to the Infantry Battalion, has one machine gun battalion of four platoons, each platoon having 12 machine guns. Furthermore, each brigade is said to have one brigade machine gun battalion.

"According to a captured order of battle of the Twenty-sixth American Division (intelligence officer seven; number Thirty-two hundred twenty-eight, June 8, 1918) that Division has only one machine gun company to a battalion in each regiment. In case the vague statements of the prisoners are correct the discrepancy can perhaps be explained by the fact that the Marine Corps was part of the United States peace army and was therefore equipped according to principles other than in the case of the Twenty-sixth American Division which has been formed from National Guard troops since the war began.

"History of the division:

"Elements of the Second American Division were put into the Moulanville (Verdon) sector from the middle of March to the middle of May for training and were relieved by unknown French troops.

"The division was then moved by rail to the vicinity of Vitry-Le-Francois, where it remained about five days. From there the division was transferred by rail, via Coulommiersit, Denis-Pontoise, into the regions west of Beauvais. The Fifth Regiment of Marines was in the vicinity of Gisors, 30 kilometers southwest of Beauvais. The Sixth Regiment of Marines was at Chars, 7 kilometers northwest of the Marines along the Pontoise to Beauvais railway.

"The Ninth and Twenty-third Regiments were quartered with and near the Marines.

"The division rested eight days in this region. Maneuvers on a large scale or with large units were not held; only exercises in minor tactics, hand-grenade throwing, and target practice were carried out. A few long practice marches (hikes) were made.

"On May 31 the Third Marine Brigade was ordered to move and were put into French motor trucks (20 men or 10 officers in each truck). The Fifth Regiment of the Marines was the first to leave and traveled via Beaumont, Lucarches, Ermenonville (west of Nanteuil), Les Flessis-Belleville and Meaux to Lizy-Sur-Ourcq, where they were unloaded after a journey of 18 hours. The next regiment to leave was the Sixth Regiment of Marines, which followed the same route, while the Ninth and Twenty-third Regiments apparently moved via Beaumont, Ecouen, Gonesse, Aulnay (environs of Paris), Clave, Meaum and were unloaded in the neighborhood of La-Ferte-Sous-Jouarre. The Fifth Regiment of Marines was put into line during the night of June 2–3 as the First Regiment of the division, the other elements taking up their position in the sector en echelon.

"Fighting value:

"The Second American Division may be classified as a very good division, perhaps even as assault troops. The various attacks of both regiments on Belleau Woods were carried out with dash and recklessness. The moral effect of our firearms did not materially check the advance of the infantry. The nerves of the Americans are still unshaken.

"Value of the individual:

"The individual soldiers are very good. They are healthy, vigorous, and physically well-developed men of ages ranging from 18 to 28, who at present lack only necessary training to make them redoubtable opponents. The troops are fresh and full of straightforward confidence. A remark of one of the prisoners is in-

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the Commanding General of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	14
Died from wounds	1
Died from accident and other causes	2
Wounded severely	46
Missing in action	8
Total	71

Killed in Action.

Lieut. Herbert A. Buermeyer. Mrs. P. H. Buermeyer, 193 St. Johns Place, Brooklyn, N. Y.

Corpl. Edward Hayek. Frank Hayek, 370 Duke Street, St. Paul, Minn.

Teamster Victor J. Geisert. Charles Geisert, 714 West Fifty-ninth Street, Chicago, Ill.

PRIVATES.

Walter W. Cole. Alpha Cole, Rapid River, Mich.

Arthur M. Duffy. Patrick Duffy, 316 Hudson Street, Hoboken, N. J.

Raymond Howard. Mrs. Anna B. Howard, Grant Street, Newell, W. Va.

Zachory Kryvoy. Mrs. Solomonka Kryvoy, Stufchinoy, Russia.

Delbert Murray. Mrs. Katherine Stoneman, Forestville, Wis.

Fred W. Nenneman. Ferdinand Nenneman, Noble, Ohio.

Walter Orwick. Mrs. Sara Orwick, R. F. D. 1, Steubenville, Ohio.

Yerkes Plowman. James Plowman, Glomawr, Ky.

Max R. Roshon. Mrs. Claude Stover, 128 Mill Street, Wadsworth, Ohio.

Abe Rosen. Samuel Rosen, 425 Victor Street, Los Angeles, Cal.

Rayburn E. Williams. Mrs. J. A. Williams, 70 Rose Avenue, Clifton Forge, Va.

Died from Wounds.

Musician Arthur J. Stowell. John Stowell, Freeport, Me.

Died from Accident and Other Causes.

Capt. James G. Ellis, jr. Dr. J. G. Ellis, sr., 417½ Main Street, Denison, Tex.

Pvt. Malachi McGee. Patrick Delaney, Heckscherville, Pa.

Wounded Severely.

Capt. Charles J. Smith. Mrs. Charles J. Smith, Choteau, Mont.

Lieut. William H. Comrie. William H. Comrie, Fargo, N. Dak.

Sergt. John L. Shiflett. Mrs. Mary Shiflett, Basic City, Va.

Corpl. Roger Fleury, jr. Mrs. Alice Fleury, Auburn Street, Stanville, Mass.

Corpl. Elmer Iverson. Andrew Iverson, R. F. D. No. 1, Duluth, Minn.

Corpl. Earl D. McVey. Mrs. Prudence McVey, Mansfield, Ohio.

Corpl. John D. Mathews. J. D. Mathews, Utica, Miss.

Corpl. Harry Rogers. Frank Rogers, General Delivery, Cushing, Okla.

Corpl. Albert Wathersten. Mrs. Daisy Coyne, 55 Stevens Street, New Haven, Conn.

PRIVATES.

Melvin Balke. Miss Amelia Balke, North Main Street, Edgerton, Wis.

Rufus E. Beggs. Mrs. Emma Beggs, R. F. D. No. 1, Canon, Ga.

Charles D. Behrsing. Hanns. Behrsing, 1595 Beacon Street, Brookline, Mass.

Clarence A. Bishop. Mrs. V. A. Bishop, Ebensburg, Pa.

Harry Boyle. Mrs. Chris Lorenson, 40 Oak Avenue, Carbondale, Pa.

Joseph Brescia. James Budine, 162 Melody Avenue, Jersey City, N. J.

Baste Castello. Thomas Castello, 44 Jackson Street, New York, N. Y.

Joseph C. Chase. Mrs. Ellen Chase, 184 Philip Avenue, New Bedford, Mass.

Richard Denton. Ike Denton, Houlka, Miss.

Francis DiVito. John Melora, 333 First Street, Jersey City, N. J.

Henry Dix. Mrs. Stella Dix, 1219 Denver Avenue, Cincinnati, Ohio.

William Doukas. George Doukas, 523 State Street, Schenectady, N. Y.

George J. Dunn. Mrs. Ella Dunn, 516 Graham Avenue, Astoria, N. Y.

Lionel Dusablon. Idola Dusablon, 299 Cass Avenue, Woonsocket, R. I.

Theophile L. Fontaine. Mrs. Cora Fitzpatrick, Belmont Park, Norwood, R. I.

Wilbert M. Gregory. Mrs. Millicent McGady, 19 Union Road, Roselle Park, N. J.

Hobart G. Hallman. William H. Hallman, R. F. D. No. 1, Grampian, Pa.

John Heine. John Heine, 1011 Washington Avenue, New York, N. Y.

Roy Hogoboom. George A. Hogoboom, R. F. D. No. 2, Albion, Pa.

Stephen Korda. William Korda, 161 Oakland Avenue, Jersey City, N. J.

Harry Leventhal. Miss Jennie Leventhal, 836 Whitlock Avenue, New York, N. Y.

Earl F. Lewis. Mrs. Martin Lewis, 348 Howard Avenue, Lancaster, Pa.

Joe Lucz. Louis Tekalovich, 1522 Missouri Avenue, East St. Louis, Ill.

Frank McShane. Mrs. Sophie Tryon, 807 Park Avenue, Hoboken, N. J.

William A. Marrion. Mrs. Harriet J. Marrion, 1041 Southgate Street, Victoria, British Columbia, Canada.

James J. O'Donnell. Mrs. Mary McElvy, 407 East Diamond Avenue, Hazleton, Pa.

Dan E. Pasko. Mrs. Marion Pasko, 4267 North Hanore Street, Chicago, Ill.

Leon Robertson. Howell Robertson, Black Hawk, Miss.

Clarence D. Shelton. Mrs. Lena Holtz, 918 Fourner Street, Fort Worth, Tex.

Fred W. Sinner. William Sinner, General Delivery, St. Paul, Minn.

Orville Smith. Mrs. Sena Smith, Palatine Bridge, N. Y.

Laslovico Tasoni. Mrs. Elizabeth Larencine, 214 South Street, East Mauch Chunk, Pa.

Edward L. Teague. Mrs. Lilly M. Teague, 33 K Street NE., Washington, D. C.

Albert L. Thrush. Arthur R. Thrush, Van Ettan Avenue, Sheffield, Pa.

Nicholar Wager. Olaf Clauson, 318 Van Brunt Street, Brooklyn, N. Y.

Dock White. Miss Rose White, Bald Knob, Ark.

Cesare Zunnio. Mrs. Angeline Zunnio Geno, Giovo, Legro, Italy.

Missing in Action.

Lieut. James F. Ashenden. E. H. Asbenden, 1123 Albion Avenue, Chicago, Ill.

Lieut. Blanchard B. Battle. Charleton E. Battle, Columbus, Ga.

PRIVATES.

Peter Kochanowski. John Waselesky, 1304 Farren Street, Shamokin, Pa.

Jesse R. Miller. Clayton H. Miller, Ava, N. Y.

Don C. Murphy. Mrs. Clara Murphy, 406 Keokuk Street, Lincoln, Ill.

Cornelious Pauley. Mrs. Lucinda Pauley, McCorkle, W. Va.

Ernest Rouch. Mrs. Mary L. Rouch, 452 Dumiper Street, York, Pa.

Bolestown Senkewiss. Mrs. Mary Senkewiss, 926 Water Street, New Bedford, Mass.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces:

Killed in action	11
Died of wounds	5
Severely wounded in action	17
Total	33

Killed in Action.

Sergt. David A. Moskovich. Sadie Moskovich, mother, 212 Beacon Avenue, Jersey City, N. J.

Sergt. Benj. T. Strain. Anna T. Strain, mother, 629 West Main Street, Greensburg, Ind.

Corpl. Elijah H. Coldwell. Jessie Coldwell, mother, Medway, Mass.

PRIVATES.

Frank A. Cummings. Anna Brown, sister, California, Washington County, Pa.

Raymond Ehrhardt. Charles Scherrer, uncle, 3300 Walworth Avenue, Cincinnati, Ohio.

Hiram G. Luhman. Metmora Luhman, mother, Oakfield, N. Y.

Solon A. Nelson. Mrs. Della Haskans, aunt, Fife Lake, Mich.

Fred E. Prosser. William Benyard, uncle, R. F. D. Box 232, Fresno, Cal.

James F. Reynolds. Napoleon B. Reynolds, father, R. F. D. No. 10, Clare, Ohio.

Lowell F. Richardson. Margarete Quinlan, mother, 124 West Apricot Avenue, Salt Lake City, Utah.

Raleigh Waldran. Eliza Bradley, mother, Drummonds, Tenn.

Died from Wounds.

Gy. Sergt. Carl H. Horton. Jennie Horton, mother, Macy, Ind.

Corpl. Daniel W. Keffer. Martha Keffer, mother, 112 Shaw Avenue, Clairton, Pa.

PRIVATES.

Raymond R. Eames. Mary Eames, mother, 237 Burr Oak Avenue, Blue Island, Ill.

William B. Flanagan. Nancy Tannehill, mother, Conception Junction, Mo.

Earl W. Mattimore. Patrick Mattimore, father, Classon, Mich.

Severely Wounded.

Sergt. Edwin Runquist. Jacob Runquist, father, 517 Prospect Street, Warren, Pa.

Gunnery Sergt. Sethie A. Henson. William F. Henson, stepbrother, Huntsville, Ala.

Sergt. William F. Croal. Mary Croal, mother, 53 Spring Street, South Norwalk, Conn.

CORPORALS.

Robert C. Scheer. Jeanette Emery, mother, R. F. D. 7, Mayfield, Ky.

Roland C. Heslop. W. J. Heslop, father, P. O. Box 183, Cristobal, Panama.

Hans H. Thode. Mrs. M. Thode, mother, General Delivery, Orland, Cal.

PRIVATES.

Emile Blais. Alfred Blais, father, 109 West Third Street, Duluth, Minn.

Homer W. Bonney. Henry Bonney, father, New Gloucester, Me.

Arthur Card. Anna Card, mother, 40 Alexandra Avenue, Madison, N. J.

Charles P. DeGrange. Ella Peterson, mother, Berkeley Springs, W. Va.

Arthur G. Giles. Daniel Giles, father, 820 Clinton Avenue, Oak Park, Ill.

Orville Harris. (No emergency address.) Born Grantsville, W. Va.

James L. Whited. William C. Whited, father, Gay, Jackson County, W. Va.

Laura Schmidt. Lizzie Schmidt, 4159A Ashland Avenue, St. Louis, Mo.

Eugene G. Strubbe. John Strubbe, brother, 601 East McMillan Street, Cincinnati, Ohio.

Robert W. Wentz. Robert A. Wentz, father, General Delivery, Rockton, Ill.

Louis Zak. Mary Zak, mother, 2626 East One hundred and twentieth Street, Cleveland, Ohio.

Previously Reported Severely Wounded Now Reported Sick.

Pvt. Paul W. Gordon. James W. Gordon, father, Oquawka, Ill.

Previously Reported Severely Wounded Now Reported Present for Duty.

Pvt. Vergil V. Ingham. Glen Ingham, father, R. F. D. 1, Hopkins, Mich.

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

The Vocational Rehabilitation Law Establishes National Program

The vocational rehabilitation law as enacted by Congress and approved by the President on June 27, 1918, establishes the national program for the rehabilitation of disabled solders, allocating responsibility to the military medical authorities previous to discharge, and to a civil department of the Government, the Federal Board for Vocational Education, subsequent to discharge. The law recognizes to the fullest extent the principle that the restoration of disabled soldiers to a satisfactory economic as well as physical basis is a national responsibility to be discharged under the sole direction and control of the appropriate agencies of the Federal Government. In general, the law is clearly based upon the acceptance of the theory that the making of a civilian out of a soldier is a task which should be intrusted to and controlled by civilian agencies.

The law provides in section 6 "that all medical and surgical work or other treatment necessary to give functional and mental restoration to disabled persons prior to their discharge from the military or naval forces of the United States shall be under the control of the War Department and Navy Department, respectively." This means that in addition to the full range of usual measures for medical and surgical treatment work may be utilized by the Surgeon General in military hospitals for its curative value. What is known as bedside or ward occupation, as well as the later utilization of curative workshops in connection with the hospitals, will therefore be primarily under the direction of the military medical authorities.

As bearing upon the practical operation of the new law, especially in regard to the work done while the man is still in the Army and under treatment it should be remembered that upon the recommendation of the Surgeon General of the Army, approved by the Secretary of War in May, 1918, it is now the policy of the Army to retain in the service every man disabled in line of duty (even though not expected to return to duty) until he has attained complete recovery or as complete recovery as is to be expected that he will attain when the nature of the disability is considered.

When medical treatment is completed and the man is discharged from the Army the new law offers to his free choice the privilege of taking vocational training courses provided by the Federal Board for Vocational Education. No compulsion, military or economic, will be exercised except that the law authorizes the withholding of compensation from a man who neglects or willfully fails to follow a course of vocational training which he has once selected and embarked upon.

Section 4 of the law authorizes the Federal Board for Vocational Education "to provide for the placement of rehabilitated persons in suitable or gainful occupations," and to this end authorizes and directs the said board "to utilize with the approval of the Secretary of Labor the facilities of the Department of Labor in so far as may be practicable in the placement of rehabilitated persons in suitable or gainful occupations."

The law provides that every person so following a course of vocational rehabilitation under the provisions of section 2 of the law shall "receive monthly compensation equal to the amount of his monthly pay for the last month of his active service or equal to the amount to which he would be entitled under article 3 of said act" (meaning the war-risk insurance law), "whichever amount is the greater." In the case of enlisted men the family is entitled to compulsory allotment and allowance under the war-risk insurance law in the same manner as if the man were still in the service and "for the purpose of computing and paying compulsory allotment and family allowance, his compensation shall be treated as his monthly pay." The Federal board has the power to pay the expense of travel, lodging, subsistence, and other necessary expenses of persons following its courses of vocational education.

In order that there may be effected a continuous process of vocational training the law directs that the Federal board shall, in establishing its plans and rules and regulations for vocational training, cooperate with the War Department and the Navy Department to this end. It is specifically required that "whenever training is employed as a therapeutic measure by the War Department or Navy Department a plan may be established between those agencies and the board acting in an advisory capacity to insure in so far as medical requirements permit a proper process of training and the proper preparation of instructors for such training." Reciprocally, it is further provided that the medical authorities of the Army and Navy may act in an advisory capacity with the Federal Board for Vocational Education in the care of the disabled soldier or sailor after his discharge.

The foregoing summary of the main provisions of the vocational rehabilitation law will serve to indicate the general limits of the program of the Red Cross. This will have little to do with the technical phases of treatment, training, or even placement. So far as the after care of disabled soldiers is a community problem, the responsibility will fall upon the home service sections, and their chief duty will be to continue the helpful relations to the man and his family already established during the period of active service. In the forthcoming special pamphlet to be issued by the department of civilian relief, entitled "Home Service and the Disabled Soldier" (ARC 210), the duties of home service have been summarized as follows:

(1) To bring solidly behind the disabled soldier at all stages of the reconstruction process the moral support of his family, making them realize that he is at this time just as much in the service of his country as when in the trenches.

(2) To assist the men, through the competent legal service at the command of the home service section, to secure the benefits of the war-risk insurance law, and especially the provisions for compensation and insurance.

(3) To urge upon disabled men as opportunity presents the wisdom and necessity of taking full advantage of the Government's plans for their care and training.

(4) To encourage them in the early and critical stages of their return to employment when the struggle to overcome the mental and physical handicap is most acute.

(5) To help bring about a reasonable and sympathetic attitude on the part of employers which shall give every handicapped man more than an average chance, while avoiding the danger of tempting him to forego the necessary training for the specious attraction of an immediate but perhaps unsuitable job.

(6) To mold public opinion so that it will discountenance trivial and demoralizing entertainment and hero worship and substitute a constructive attitude which, while demanding a square deal for the returned soldier, shall require of him every reasonable effort to insure his economic independence.

(7) To supply information, encouragement, legal, medical, and business advice, and other service, and even material relief when necessary, in like manner as is now being done for the families of men at the front—such service to continue from the time the man ceases to be an active member of the fighting forces to the time when neither he nor his family shall longer need or desire assistance.

Message of the Red Cross to Disabled Soldiers of the United States Army

The following message from the Red Cross will be published in The Way Out, a "cheer-up" pamphlet soon to be issued by the office of the Surgeon General of the United States Army to all disabled soldiers:

To the men who come back:

Let me say this one thing to every fighting man—the Red Cross is for you and with you.

It is the aim of Red Cross home service to keep their homes safe for those who fight to make the world safe for our homes.

To an equal extent—and that extent means to our utmost—it shall be our aim to make for you who are returning, bearing the marks of camp life, trench life, or battle, a world at home wherein you may live as full and useful and happy a life as ever before.

Those marks of battle are sacred symbols of your service to a high cause. More than chevrons, bars, or any insignia, they have given you a rank among your fellows.

That rank makes you forever one of those to whom the Nation shall always look for future sacrifices as noble as those you have already made and for future achievements worthy of your past.

No matter what has befallen you, you are still a soldier. Although you have returned from the front, you still have to fight foes more worthy of your steel than the Germans. Those foes are discouragement, the letting down of ambition, readiness to accept the easiest way, reluctance to play one's part in the peace world. We know you will conquer all these enemies. Your country needs you yet to fight the battles of peace.

And you are still one of the world's workers. In spite of your handicap, you

(Continued on page 16.)

FLY TO NEW YORK WITH MAIL IN TWO AND A HALF HOURS

The Post Office Department authorizes the following:

Airplane mail was carried from Washington to New York July 10 in 2½ hours, including the stop at Philadelphia.

The average rate of speed for the entire trip was over 90 miles per hour, and that between Philadelphia and New York was 108 miles per hour. Lieut. Dodge left Washington at 11.28 a. m. with 211 pounds of mail, arriving in Philadelphia at 1 p. m., making the distance of 135 miles in 1 hour and 32 minutes. Lieut. Miller left Philadelphia at 1.08 p. m. with 134 pounds of mail, arriving in New York (distance 90 miles) at 1.58 p. m.

The mail from New York arrived at Washington at 3.30 p. m., flying through the storm.

Record for June.

During the month of June the Airplane Mail Service made the remarkable record of falling below 100 per cent only six times. Since June 12 it has fallen below 100 per cent only once.

Increasing familiarity of the fliers with conditions attending the flights has resulted in a considerable shortening of the average time. The direction of the compass is compared with the chart every 10 minutes during the flight and at each of the larger towns on the route. In this way the route through the air has been accurately charted.

American Communique

(Continued from page 6.)

dicative of their spirit: 'We kill or get killed.'

"Method of attack:

"In both attacks on Belleau Woods, which were carried out by one or two battalions, the following method of attack was adopted:

"Three or four lines of skirmishers at about 30 to 50 paces distance; rather close behind these, isolated assault parties in platoon column. Abundant equipment of automatic rifles and hand grenades. The assault parties carried forward machine guns and were ordered to penetrate the German position at a weak point, to swing laterally and to attack the strong points from the rear.

"Particulars on the American position:

"No details are available. The prisoners are hardly able to state where they were in position. According to their statements, it may be assumed that the front line consists only of rifle pits 1 meter deep, up to the present not provided with wire entanglements. The oragnization of the positions in rear is unknown.

"General:

"Morale:

"The prisoners in general make an alert and pleasing impression; regarding military matters, however, they do not show the slightest interest. Their superiors keep them purposely without knowledge of military subjects; for example, most of them have never seen a map. They are no longer able to describe the villages and roads through which they marched. Their ideas on the organization of their unit is entirely confused. For example, one of them claimed that his brigade has 6 regiments, his division 24. They still regard the war from the point of view of the 'big brother,' who comes to help his hard-pressed brethren, and is therefore welcomed everywhere. A certain moral background is not lacking; the majority of the prisoners simply took as a matter of course that they had come to Europe in order to defend their country.

"Only a few of the troops are of pure American origin; the majority is of German, Dutch, and Italian parentage, but these semi-Americans—almost all of whom were born in America and never have been in Europe—fully feel themselves to be true-born sons of their country.

"VON BERG,
"Lieutenant and Intelligence Officer."

Coke and Breeze Prices Established by United States Fuel Administration

The United States Fuel Administration issues the following:

By orders of the United States Fuel Administration, effective July 9, price regulations have been established on crushed and screened coke and breeze produced in by-product ovens, on crushed and screened coke and breeze made in beehive ovens, on beehive coke in the State of Utah, and on gas coke.

As anthracite coal is not obtainable in certain districts where gas coke is produced, and as there are no published railroad freight rates on anthracite coal to such districts, the base price for such coke at the plant plus the lowest published coke freight rate to such point shall be: Run of retorts, $5.50; run of retorts screened above three-fourth inch size, $6.; screened and sized about three-fourth inch, $6.50; screened and sized between one-half and three-fourth inch, $4.50.

Prices of Gas Coke.

The prices of gas coke, at the plant in districts where anthracite coal is obtainable, sold to dealers for distribution in less-than-car lots, or delivered direct to consumers for household purposes, are fixed as follows: Screened and sized above three-fourth inch, the same price established for stove anthracite in the same locality; run of retorts screened about three-fourth inch, 25 cents less than the price of stove anthracite; run of retorts not screened, 75 cents less than the price of stove anthracite. Coke sold for purposes other than those just mentioned will take same price as gas coke in localities where anthracite is not obtainable.

The maximum price for breeze shall be one-half the price established for run of retorts coke unscreened made in gas retorts where such breeze is produced.

The order relating to coke made in beehive ovens provide that the price per ton f. o. b. the ovens for crushed coke over three-fourth inch size shall be the maximum price for 72-hour selected foundry coke, plus 30 cents. All prepared sizes of clean dry-screened coke under three-fourth inch size shall be $1 less than the price for blast furnace coke made at beehive ovens where such coke is produced. The maximum price for breeze shall be one-half the price established for blast-furnace coke made in beehive ovens where such breeze is produced.

Prices for Prepared Sizes.

The maximum price for coke per ton f. o. b. cars at ovens for crushed coke over three-fourth inch size produced at any by-product oven plant shall be the maximum price for run-of-ovens coke, plus 50 cents. This shall include all prepared sizes of clean hard coke over three-fourth inch size, whether crushed or screened mechanically or screened by hand. The maximum price per ton f. o. b. cars at ovens for all prepared sizes of clean dry-screened coke under three-fourth inch size shall be $1 per ton less than the price for run-of-ovens made in by-product ovens where such coke is produced. The price per ton for breeze shall be one-half the price of run-of-oven coke made in by-product ovens where such breeze is produced.

Prices for coke produced in the State of Utah were established as follows: $8.50 per ton for smelting or furnace coke; $9.50 per ton for 72-hour selected foundry coke.

INCREASE IN FREIGHT TRAFFIC

(Continued from page 1.)

first four months of 1918. Notwithstanding the extremely unfavorable weather conditions of January and February, with the resultant traffic congestion during those two months, the four months' figures compare favorably with the same four months of 1917. The railroads managed to move an increase of nearly 1 per cent in revenue freight tons 1 mile, with a decrease of 3.2 per cent in freight trains run 1 mile, and a decrease of 7.4 per cent in freight cars moved 1 mile. The improvement was due to the increase of 3.9 per cent in the tons per train, and an increase of 10 per cent in the tons per loaded car.

Had the train load of the first four months of this year been the same as the train load of the first four months in 1917, the 1918 traffic would have required nearly 8 millions of train miles more than actually were run during the first four months of this year. On the basis of 100 miles per train, the performance of this year meant a saving of approximately 661 freight trains every day during the four months.

U. S. WILL DISPLAY EXHIBITS ON CIRCUITS OF LARGER FAIRS

The United States Department of Agriculture authorizes the following:

The Joint Committee on Government Exhibits, representing the Departments of Agriculture, War, Navy, Interior, and Commerce, the Food Administration, and the Committee on Public Information, has adopted a revised itinerary for the display of exhibits representing the war-time and other activities of the Federal agencies.

Five circuits of larger fairs and expositions throughout the country have been planned, according to an announcement by F. Lamson-Scribner, of the Department of Agriculture, who is chairman of the joint committee. Following are the itineraries:

Circuit No. 1.

Sedalia, Mo., August 10 to 17; Des Moines, Iowa, August 21 to 30; Hamlin, Minn., September 2 to 7; Milwaukee, Wis., September 9 to 14; Oklahoma City, Okla., September 21 to 28; Wichita, Kans., September 30 to October 12; Dallas, Tex., October 15 to 27; Waco, Tex., November 2 to 17.

Circuit No. 2.

Erie, Pa., August 19 to 24; Rochester, N. Y., September 2 to 7; Syracuse, N. Y., September 9 to 14; Trenton, N. J., September 30 to October 4; Richmond, Va., October 7 to 12; Petersburg, Va., October 15 to 19.

Circuit No. 3.

Springfield, Ill., August 9 to 24; Detroit, Mich., August 30 to September 8; Nashville, Tenn., September 16 to 21; Memphis, Tenn., September 21 to 28; Knoxville, Tenn., October 7 to 12; Atlanta, Ga., October 14 to 19; Macon, Ga., October 30 to November 9; Jacksonville, Fla., November 27 to December 6.

Circuit No. 4.

Columbus, Ohio, August 26 to 31; Indianapolis, Ind., September 3 to 7; Topeka, Kans., September 9 to 14; Hutchinson, Kans., September 16 to 21; Muskogee, Okla., September 30 to October 5; Kansas City, Mo., October 16 to 26; Shreveport, La., October 30 to November 4.

Circuit No. 5.

Lincoln, Nebr., September 1 to 6; Douglas, Wyo., September 10 to 14; Pueblo, Colo., September 23 to 28; Salt Lake City, Utah, September 28 to October 5; Los Angeles, Cal., October 12 to 26; Phoenix, Ariz., November 11 to 16.

Huron, S. Dak. (Sept. 9 to 14), is to be provided for in a sixth circuit which has been approved by the joint committee.

RELIEVED FROM DETAIL.

Special Orders, No. 145:

291. By direction of the President, Maj. John R. Musgrave (now lieutenant colonel, National Army), Quartermaster Corps, is relieved from detail in the Quartermaster Corps. He is assigned to the 48th Artillery (Coast Artillery Corps) and will proceed to join that regiment at Camp Eustis, Va.

LISTS OF ADDITIONAL RAILROADS INCLUDED IN THE VARIOUS REGIONS

The United States Railroad Administration has made public the following circulars and supplements to circulars dated July 10, 1918:

SUPPLEMENT NO. 1 TO CIRCULAR NO. 28.

In addition to the railroads named in Circular No. 28 the following railroads are included in the Allegheny region:

Buffalo & Susquehanna Railroad Corporation.
Cherry Tree & Dixonville Railroad.
Cumberland & Pennsylvania Railroad.
Huntingdon & Broad Top Mountain R. R.
Long Island Railroad.
Monongahela Railway.
Philadelphia Belt Line.
Pittsburg, Chartiers & Youghiogheny R. R.
Staten Island Rapid Transit Ry.
Union Railroad (Pennsylvania).
Washington Terminal Railroad.

SUPPLEMENT NO. 1 TO CIRCULAR NO. 30.

In addition to the railroads named in Circular No. 30 the following railroad is included in the Pocahontas region:

Ashland Coal & Iron Railway.

SUPPLEMENT NO. 1 TO CIRCULAR NO. 33.

In addition to the railroads named in Circular No. 33, the following railroads are included in the Northwestern region:

Baltimore & Ohio Chicago Terminal R. R.
Belt Railway of Chicago.
Butte, Anaconda & Pacific Ry. Co.
Calumet Western Railway.
Camas Prairie Railroad.
Chicago Heights Terminal Transfer R. R.
Chicago Junction Railway.
Chicago, Milwaukee & Gary R. R.
Chicago River & Indiana R. R.
Chicago Union Station Company.
Chicago & Western Indiana R. R.
Copper Range Railroad.
Des Moines Union Railway.
Des Moines Western Railway.
Duluth & Iron Range Railroad.
Duluth, Missabe & Northern Ry.
Duluth, South Shore & Atlantic Ry.
Elgin, Joliet & Eastern Railway.
Englewood Connecting Railway.
Escanaba & Lake Superior R. R.
Ft. Dodge, Des Moines & Southern R. R.
Green Bay & Western Railroad.
Indiana Harbor Belt Railroad.
Iowa Transfer Railway.
Lake Superior Terminal & Transfer Ry. Co.
Mineral Range Railroad.
Minneapolis Belt Line Co.
Minneapolis & Eastern Ry.
Minnesota Transfer Railway.
Ontonagon Railroad.
Oregon Electric Railway.
Pacific Coast Railroad.
Port Townsend & Puget Sound Railway.
St. Charles Air Line.
St. Paul Bridge & Terminal Ry.
St. Paul Union Depot Co.
Sioux City Terminal Ry.
South Chicago & Southern R. R.
Stock Yards Terminal Ry. Co. of St. Paul.
Union Stock Yards Co. of Omaha.
Waterloo, Cedar Falls & Northern Ry.
Waupaca-Green Bay Railway.

SUPPLEMENT NO. 1 TO CIRCULAR NO. 35.

In addition to the railroads named in Circular No. 35, the following railroads are included in the southwestern region:

Abilene & Southern Railway.
Alton & Southern Railway.
East St. Louis National Stock Yards Co.
East St. Louis & Suburban Railway.
Fort Worth Belt R. R.
Fort Worth Union Passenger Station Co.
Galveston, Houston & Henderson R. R.
Houston Belt & Terminal Ry.
Houston & Brazos Valley Ry.
Illinois Terminal Railroad.
Joplin Union Depot Company.
Kansas City, Mexico & Orient Lines.
Litchfield & Madison Railway.
Missouri & Illinois Bridge & Belt Ry.
Oklahoma Belt Railway.
St. Joseph Belt Railway.
St. Joseph Union Depot Company.
St. Louis & Belleville Electric Railway.
St. Louis Merchants Bridge Terminal Ry.
St. Louis National Stock Yard Company.
St. Louis & O'Fallon Railway.
St. Louis, Troy & Eastern R. R.
San Antonio, Uvalde & Gulf R. R.
Southern Illinois & Missouri Bridge Co.
Terminal Railroad Association of St. Louis.
Texas Midland Railroad.
Trans-Mississippi Terminal R. R.
Union Terminal Co. of Dallas.
Vicksburg, Shreveport & Pacific Ry.
West Tulsa Belt Railway.
Wiggins Ferry Company.

The following railway is transferred from the central western region to the southwestern region:

Chicago, Rock Island & Pacific Railway (Tucumcari, N. M., to El Reno, Okla.; south of Herington, Kansas, to Chickasha, Okla., including branches).

CIRCULAR NO. 41.

The following railroads are added to the eastern region:

Akron & Barberton Belt Railroad.
Akron Union Passenger Depot Co.
Boston Terminal Co.
Brooklyn Eastern District Terminal R. R.
Buffalo Creek Railroad.
Central Union Depot of Cincinnati.
Dayton & Union Railroad.
Dayton Union Railway.
Detroit, Bay City & Western Ry.
Detroit Terminal Railroad.
Indianapolis Union Railway.
Jay Street Terminal (New York).
Kentucky & Indiana Terminal R. R.
New York Dock Company R. R.
Toledo Terminal Railroad.
Troy Union Railroad.
Zanesville Terminal Railroad.

CIRCULAR NO. 42.

The following railroads are added to the southern region:

Alabama & Vicksburg Railway.
Birmingham & Northwestern Ry.
Memphis Union Station Company.
Mississippi Central Railroad.
New Orleans Great Northern Railroad.
Winston-Salem Southbound Railway Co.

The following railway is transferred from the southwestern to the southern region:

St. Louis-San Francisco Ry. (between Memphis and Birmingham).

COTTON-MILL RESTRICTIONS.

British Regulations Forbid Operations Without Control Board License.

Consul General Skinner, at London, cables as follows:

From June 10 no spindles or looms in cotton mills shall run without license from Cotton Control Board. Spinning mills will be licensed when engaged entirely on Egyptian, sea island, or Surat cotton and waste up to 80 per cent of total spindles 55½ hours per week; when engaged on American cotton and on other growths up to 50 per cent of total spindles 40 hours per week. Mixed mills will run 40 hours per week, percentage of spindles varying with individual case. American spinners who have not already started spindles on Egyptian cotton will not be permitted to do so after May 18. No weaving shed, unless entirely engaged on waste, clothes, or Government orders, can run more than 40 hours per week.—Commerce Reports.

ENEMY TRADING LIST ADDITIONS AND REMOVALS MADE AS OF JULY 12

The following changes will be made in the enemy trading list as of July 12, 1918:

Additions.

Argentina.—Torta, Jose B., Calle Salta 231, Buenos Aires; Ullman, H. & Co., Buenos Aires; Wulff, Otto, Buenos Aires.

Bolivia.—Frank, Jacob, & Co., Oruro; Gottowski, Max, Oruro; Lehman, Waldemar, La Paz.

Brazil.—Andrade, Marcelino de, Rua Dr. Cochrane 36, Santos; Bercht, Adolfo, Rio Grande do Sul; Bloch, Eugen, Sao Paulo; Blohm, F., Blumenau; Bojunga, H. C., Pelotas; Jurghens, John & Co., Rio de Janeiro; Pinatel, Luis, Sao Paulo; Schumann & Co., Para and Porto Alegre.

Colombia.—Friederich, Arthur, Cartagena.

Costa Rica.—Chavez, Maximo, San Jose; Debo Ruin, Francisco (see Ruin, Francisco Debo); Kopper, Eusebio Otto & Co., Grecia; Luthmer, Frederico, San Jose; Reimers, Ferdinand (or Fritz), San Jose; Ruin, Francisco Debo (or Francisco B. Ruin), San Jose; Wille, Carlos, San Jose.

Cuba.—Holz, Alfredo, Habana; Ibern & Co., Habana; Ibern, Jose A., Habana; Kirberg, Adolph G., Habana; Orenstein y Koppel—Arthur Koppel, S. A., Habana.

Denmark.—Hansen, Peter, Copenhagen; Kohl, Louis von, Copenhagen; Nordiske, Forfatteres Forlag Akties Elskab, Copenhagen; Rasmussen, Einar, Fredensborg.

Ecuador.—Brandes, Alfredo, Quito.

Greece.—Stoltenhof, Hermann, Patras.

Guatemala.—Kirsch, B., & Co., Guatemala City; Pateau, Max, Guatemala City.

Honduras.—Davidson, Adolfo, Tegucigalpa.

Morocco.—Martinez, Claudio, Tangier.

Netherlands.—Bakker & P. Dijksen, S. A., Ijmuiden; Dietrich, O. A., Amsterdam and Apeldoorn; Gimborn, Svan Arnhem Zevenaar, Suthertenberg and Emmerich; Gitsels Aton, G. M. B. H., Ijmuiden; Kehding, F. Handelsvereeniging (C. H. Siegmund), Amsterdam; Kocks, Herman, Kinstwolffabrieka, Valkenburg; Leeuw Hoornstra, S. de, Amsterdam; Metal Handelsvereeniging N. V., Amsterdam; Metens & Co., Amsterdam; Nederlandsche Mij Voor Handels Cultoor and Mijn Bovwzaken Nutv, Amsterdam; Ostwald, E. M., & Co., Amsterdam; Ostwald, Ernst, Amsterdam; Prins, N., Amsterdam and Ymuiden; Steenkolengroot Handel Nutv, Oostsingel, Venlo; Wanders, Remaer A., Arnhem.

Netherlands, East Indies.—Ayer Moelik estate, Sumatra; Bloeme, J. A. S., Medan; Boerma, B. F., Jr., Batavia; Braun, P., Sibolga; Busselaar, Mac, Samarang; Cramer, P. C. M. (or Pierre), Sourabaya and Medan; Djie Hon Swie, Sourabaya; Djokjasche Machine Handel (R. Glied), Djocjakarta; Gading estate, Sumatra; Gosewisch, W. H., Ch., Gorontalo; Indragiri Cultuur Mij, Sumatra; International Auto Garage, Batavia; Kasinder Estate, Sumatra; Kerkhoff and Com Handel Miji, Medan; Marihat Boris estate, Sumatra; Merckelbach & Co., Batavia; Quitner, S., Padang; Sago estate, Sumatra; Smets, Mrs. A., Sourabaya; Soenger Soetekouw, Lieut. H. A., Djambi, Sumatra; Steffens, H. F., Batavia; Stubbe, F. (alian Stibbe), Sumatra; Tjin, the Tan Menado Toe Laer, & Co., Medan; Tjo Toen Swie, Sourabaya.

Nicaragua.—Lehmann, Otto, Cabo Gracias.

Norway.—Braadlands Conservefabrik, A/S., Hilleraag; Elecktrisk Union, A/S., Christiania; Elektrohm, A/S., Christiania; Kristiania Saltlager, A/S., Christiania; Lombardbanken, A/S., Christiania; Private Banking House Rieber & Co,. A/S., Stavanger.

Panama.—Gebert, Otto, Bocas del Toro; Neuman, Ernst, Panama.

Peru.—Agencia Maritima de Casa Grande, Salaverry; Cockburn, M. S., Ica.; Ledgard (Legard), Carlos E. B., Lima; Cerveceria Aleman, Arequipa.

Salvador.—Rosenblum Hermanos, San Salvador.

Spain.—Baldes, Otto, Calle Maderuelas, Antiquera; Baquera Segalerva, Vincente, Granada; Bernal, Tomas Pose, Valencia; Bottelo, Angel & Son (Bottelo Feu Angel & Son), Ayamonte; Camp, Hijos de Natish del, Cabeza del Buez, Badajoz; Centro de Instalaciones Electrias, Calle Mayor 71, Madrid; Charola y Antiua Ebar (Flemming, Ernest), Hartaleza 9, Madrid; Flemming, Ernest, Nartaleza 9, Madrid; Gabanach, Francisco, Barcelona; Gast, H. F., Calle Barbieril, Madrid; Hafner, Enrest (Hafner & Wienken), Calle Almos 492, Malaga; Huber, Hugo, Calle Saragossa 440, Barcelona; Industria Electrica de Dornella Kruger, Alfredo, Calle Py Margall, Vigo; Krammer, W. O., Calle Luis, Tiboada 30, Vigo; Moyana y Esteban, Augustin Barquillo 28, Madrid; Ramos y Montilla, Malaga; Royal ta Jam Factories, Carcagente and Silla; Wienken, Eduardo (Hafner & Wienken), Calle Alfonso XII 14, Malaga. (See below for Sweden.)

Uruguay.—Borras, Pedro, Montevideo; Carreras y Bach, Montevideo.

Sweden.—Ehnimo, G. A. E., Stockholm.

Removals.

Brazil.—Demarchi & Co., Uruguayana; Demarchi, Joao, Uruguayana; Schmitt, Abdo, & Co., Rio de Janeiro.

Mexico.—Valdes Hermanos, Vera Cruz.

Netherlands East Indies.—Lio Oe Kiong Menado Tjia Kwie Tek, Medan; Molenkamp, G., Pajakombo, Sumatra.

Spain.—Jimenez Davila Hijos, Puerta de Santa Maria, near Cadiz; Jimpez Mateos, Jose, Puerta de Santa Maria; Mateos Hermanos, Puerto de Santa Maria; Ugarte Viuda y Sobrinos, Colegiata 13, Madrid.

Sweden.—Lagamills A/B., Timsfors; Nya Bank, Stockholm.

Amends Act Providing for Chaplains in Army

PUBLIC—No. 158—65TH CONGRESS.

S. 4409.

An act to amend section fifteen of the act approved June third, nineteen hundred and sixteen, entitled "An act for making further and more effectual provision for the national defense, and for other purposes," as amended by the act approved May twelfth, nineteen hundred and seventeen, entitled "An act making appropriations for the support of the Army for the fiscal year ending June thirtieth, nineteen hundred and eighteen, and for other purposes."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section fifteen of the act approved June third, nineteen hundred and sixteen, entitled "An act for making further and more effectual provision for the national defense, and for other purposes," as amended by the act approved May twelfth, nineteen hundred and seventeen, entitled "An act making appropriations for the support of the Army for the fiscal year ending June thirtieth, nineteen hundred and eighteen, and for other purposes," be, and the same is hereby, amended to read as follows:

"SEC. 15. CHAPLAINS.—The President is authorized to appoint, by and with the advice and consent of the Senate, chaplains in the Army at the rate of not to exceed, including chaplains now in the service, one for each one thousand two hundred officers and men in all branches of the Military Establishment, with rank, pay, and allowances as now authorized by law: *Provided*, That there shall be assigned at least one chaplain for each regiment of Cavalry, Infantry, Field Artillery, and Engineers: *Provided further*, That the persons appointed under this act shall be duly accredited by some religious denomination or organization and of good standing therein, under such regulations as may be prescribed by the Secretary of War: *And provided further*, That no person shall be appointed chaplain in the Army who on the date of appointment is more than forty-five years of age."

Approved, May 25, 1918.

MEASURES TO PREVENT EXCESS PROFITS IN FLOUR MILLING

The Food Administration issues the following:

The Food Administration has made public the measures that were taken earlier in the season to prevent profiteering in the flour-milling industry. The millers, under the original regulations, were allowed a maximum gross profit of 25 cents a barrel, based on their annual business. The business is a seasonal one and can not be determined upon a few months' operations. The milling year ends on July 1, and as some differences of opinion had arisen between the millers and the Food Administration as to the basis upon which profits were to be calculated, the question was referred to a committee comprising the chairman of the United States Tariff Commission, a member of the Federal Trade Commission, a member of the Agricultural Advisory Board, with Mr. Charles Espenschied, a retired miller, and a representative of the Food Administration.

Chief Points of Difference.

The chief differences with respect to the conduct of the millers under the regulations, to date, revolve upon whether they should include excess profits taxes as a part of their expenses. Based on the decision which was sent out to the millers on June 17, neither excess profits tax nor income taxes should be recognized as items of expense for the purposes of the mills' accounting.

Remedy for Excess Profit.

With regard to millers finding themselves at the end of the fiscal year with an amount in excess of 25 cents a barrel profit, it was suggested that they could release themselves from the difficulty by selling a sufficient amount of flour at a nominal price to the Food Administration or the Army or Navy to liquidate any such surplus profit. The accounts of millers will be, and are, audited by the representatives of the Enforcement Division of the Food Administration.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE GENERAL ENGINEER DEPOT OF THE ARMY

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

July 2, 1918.

Black Steel & Wire Co., Kansas City, Mo., steel hoisting rope.

The Bonney Supply Co. (Inc.), Rochester, N. Y., unloaders, car.

The Moseley Lathe Co., Elgin, Ill., jewelers' lathes.

Henry W. Peabody & Co., New York City, shellac gum.

W. & L. E. Gurley, Troy, N. Y., drawing boards, canvas cases.

South Bend Foundry Co., South Bend, Ind., swage blocks.

Star Electric Motor Co., Newark, N. J., spares for lathes, shaper, and drill presses.

Safety Emery Wheel Co., Springfield, Ohio, [illegible].

SURGEON GENERAL OF ARMY

The following contracts and purchases have been approved by the Surgeon General of the Army:

June 29, 1918.

Worthington & Raymond, New York City, dental equipment.
Leach & Garner Co., Attleboro, Mass., sutures.
C. R. Bard, New York City, catheters.
General Laboratories, Madison, Wis., drugs.
Einer & Amend, New York City, burette supports.
Park Davis & Co., Detroit, drugs.
Mallinkrodt Chemical Works, St. Louis, drugs.
John Wyeth & Bro., Philadelphia, drugs.
De Zeng Standard Co., Camden, N. J., laboratory equipment.
Powers Weightman Rosengarten Co., Philadelphia, drugs.
Cooper & Cooper, New York City, drugs.
Gerrard Wire Tying Machines Co., Philadelphia, packing supplies.
Chase & Sanborn, Boston, Mass., provisions.
Underwood Typewriter Co., Hartford, Conn., ribbons.
Yawman & Erbe Mfg. Co., Rochester, cabinets.
Larkin Co., Buffalo, drugs.
Victor Electric Co., Chicago, X-ray equipment.
Christian Becker (Inc.), Jersey City, N. J., balances.
Hope Webbing Co., Providence, R. I., webbing.
Johnson & Johnson, New Brunswick, N. J., dental supplies.
Tyer Rubber Co., Andover, Mass., rubber bags.
The Vulcanized Rubber Co., New York City, rubber castings.
A. C. Gilbert Co., New Haven, Conn., flutter valve guards.
General Motor Truck Co., Pontiac, Mich., spare parts for chassis.
Meredith Linen Mills, Meredith, N. H., towels.
The Millers Falls Co., Millers Falls, Mass., tools.
Hamilton Mfg. Co., Two Rivers, Wis., dental supplies.
J. Bird Moyer Co., Philadelphia, laboratory supplies.
H. H. Babcock Co., Watertown, N. Y., ambulance spare parts.
W. V. Ames Co., Fremont, Ohio, drugs.
Spatz Tablet & Book Co., New York City, stationery.
Kny Scheerer Corp., New York City, surgical tables.
Chas. Pfizer & Co. (Inc.), New York City, drugs.
H. K. Mulford Co., Philadelphia, drugs.
[illegible] New York City, drugs.
Pacific Coast Borax Co., New York City, drugs.
McCambridge & McCambridge Co., Washington, D. C., drugs.
Paramount Knitting Co., Chicago, gauze.
H. J. Baker & Bro., New York City, drugs.
Herman Chemical Co., Brooklyn, drugs.
Merck & Co., New York City, drugs.
Sharp & Dohme, Baltimore, drugs.
Magnus Mabee & Raynold (Inc.), New York City, drugs.
Pennsylvania Salt Manufacturing Co., Philadelphia, chemicals.
Hooker Electrochemical Co., New York City, chemicals.

July 1, 1918.

Isidor Blickman, New York City, incubators.
Waterbury Buckle Co., Waterbury, Conn., buckles.
John A. Casey Co., New York City, drugs.
Worthington & Raymond, New York City, blowers.
Henry Troemner, Philadelphia, balances.
Schaar & Co., Chicago, laboratory equipment.
Peck, Stow & Wilcox Co., Southington, Conn., wire cutters.
Wm. H. Otto Metal Goods Co., Jersey City, N. J., kerosene burners.
Meyer Camera & Instrument Co., New York City, laboratory equipment.
Hard Manufacturing Co., Buffalo, N. Y., cot covers.
Eddystone Manufacturing Co., Eddystone, Pa., duck.
Wm. Boekel & Co., Philadelphia, laboratory equipment.

NAVY SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed the following contracts:

July 3, 1918.

No. 39585—American Laundry Machinery Co., New York, N. Y., laundry equipment.
No. 39586.—N. S. Hoffman Machinery Co., New York, N. Y., laundry equipment.
No. 39587.—Troy Laundry Machinery Co., New York, N. Y., laundry equipment.
No. 39588.—Sherritt & Stoer Co., Philadelphia, Pa., machinery.
No. 39589.—Stowell Co., Milwaukee, Wis., metal blocks.
No. 39590.—H. H. Erickson, Chicago, Ill., metal blocks.
No. 39591.—Deering Milliken, New York, N. Y., woolen cloth.
No. 39592.—Dixie Portland Cement Co., Chattanooga, Tenn., cement.
No. 39593.—W. H. Allen Son & Co., Bedford, England, services.
No. 39594.—Gardner Machine Co., Beloit, Wis., spiral grinder.
No. 39595.—American Can Co., New York, N. Y., gas masks.
No. 39596.—The Billings & Spencer Co., Hartford, Conn., studs, chain.
No. 39597.—Pacific Mutual Lumber Co., Tacoma, Wash., spar timber.
No. 39598.—International Nickel Co., Bayonne, N. J., monel metal.
No. 39600.—Niles-Bement-Pond Co., New York, N. Y., planers.
No. 39601.—Becker Milling Machine Co., Boston, Mass., milling machine.
No. 39602.—Vulcan Engineering Sales Co., Chicago, Ill., spruce cutter.
No. 39603.—Beamen & Smith Co., Providence, R. I., milling machine.
No. 39,604.—James Clarke, jr., Electric Co., Louisville, Ky., drills.
No. 39610.—Carlisle & Finch Co., Washington, D. C., searchlights.
No. 39611.—General Electric Co., Schenectady, N. Y., searchlights.
No. 39612.—W. F. Davis Machine Tool Co., Washington, D. C., bench latches.

July 8, 1918.

No. 39576.—Federal Telegraph Co., radio sets.
No. 39577.—Pratt & Whitney Co., Hartford, Conn., taps and dies.
No. 39578.—Angle Window & Door Co., Buffalo, N. Y., steel cases.
No. 39579.—Elliot Frog & Switch Co., East St. Louis, Mo., frogs and switches.
No. 39582.—Winther Motor Tire Co., Winthrop Harbor, Ill., truck.
No. 39584.—National Brass & Copper Tube Co., New York City, N. Y., brass wire.

Health Conditions at the National Guard, National Army, and Regular Army Camps as Reported for the Week Ending July 5

Herewith is a detailed report on the health conditions of troops in the United States (including Porto Rico) for the week ending July 5. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General.—Health conditions continue very satisfactory. The admission rate for disease is slightly lower than last week, while the noneffective rate remains practically the same. The death rate continues low, though it is slightly higher than the exceptionally low rate of last week. Measles and venereal diseases show a higher incidence as compared with last week due to the recent influx of new men in camp. The number of new cases of pneumonia and other of the more serious camp diseases shows a decline as compared with last week.

2. Divisional camps.—Camp Cody has the lowest (18.6), and Camp Sevier the highest (45.9) noneffective rates of all larger camps of this group. The number of new cases of various diseases reported as compared with last week follows:

	This week.	Last week.
Pneumonia	56	75
Measles	218	131
Venereal diseases	1,206	933
Malaria	55	80
Dysentery	1	8

Of the 55 cases of malaria reported from camps of this group, 20 were from Camp Beauregard and 21 from Camp Shelby.

3. Cantonments.—Camps Meade and Grant have the best health records of the week for all large camps. Camp Meade reports the lowest admission rate (402.7) and Camp Grant the lowest noneffective rate (13.6). Camps Custer and Devens have sick rates much below the average. The highest sick rates are reported from Camps Travis, Sherman, Taylor, and Pike. Measles is prevalent in all camps. Camp Pike leads in the number of new cases, 54, Camp Lee is second with 48, and Camp Dodge third with 39. There were 94 new cases of pneumonia as compared with 113 last week. Nine new cases were reported from each of the following camps: Camps Custer, Devens, Dix, and Upton. Camp Pike reported 38 new cases of malaria out of a total of 74 of all camps of this group. Ninety-eight cases of dengue fever are reported from Camp Las Casas.

4. Departmental and other troops.—The Eastern Department has the highest (admission 3,010, noneffective 85.8) and the Northeastern Department the lowest (admission 652, noneffective 21.9) sick rates of all departments. The unusually high rates in the Eastern Department are due not to actual increase in sickness but to a reduction in strength of command upon which the rates are based. The strength of the command reported this week is about one-fourth of that reported last week. There is no prevalence of diseases at other stations of this group calling for comment.

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate. All causes.		Death rate. Disease only.	
	This week.	Last week.	This week.	Last week.	This week.	Last week.	This week.	Last week.
Divisional camps	36.5	38.0	20.2	24.8	2.7	2.6	2.3	1.7
Cantonments	37.7	41.3	18.3	18.4	4.0	2.9	3.8	2.4
Departmental, etc.	38.9	32.6	20.2	19.0	4.9	3.2	2.7	2.0

Health conditions for the week ending July 5.

Upton	21.2	9	.....	1	454 (?)	5	.....	.....	39.1

[1] Nine cases of typhoid fever also reported from Camps Stuart, Jackson, Johnston, Lee; two cases at Sherman.

[2] First figure in this column for each camp gives the total number of new cases during the week; the figure in parentheses is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease. The difference, therefore, is the number of cases first reported during the week, which were either (a) cases brought from civilian life by recruits, or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

[3] Per 1,000.

Causes of deaths, by camps.

Camp or department.	No. of deaths.	Causes.
Merritt	2	1 pneumonia; 1 heart disease.
Stuart	2	1 pneumonia; 1 mastoiditis.
Eastern	0	
Northeastern	1	1 peritonitis.
Southeastern	2	1 traumatism; 1 cerebrospinal meningitis.
Southern	3	1 pneumonia; 2 fracture of skull.
Central	3	1 pneumonia 1 appendicitis; 1 nephritis.
Western	6	1 emphima; 1 peritonitis; 1 heart disease; 1 traumatism; 1 cerebral absass syphitis.
Beauregard	2	1 pneumonia; 1 pneumococcaic meningitis.
Bowie	0	
Cody	2	2 pneumonia.
Greenleaf	2	2 alcoholism.
Fremont	1	1 peritonitis.
Hancock	0	
Kearney	2	1 suicide; 1 pneumouia
Logan	0	
McArthur	2	1 meningitis; 1 pneumonia.
McClellan	0	
Sevier	1	1 appendicitis.
Shelby	0	
Sheridan	1	1 suicide.
Wadsworth	0	
Wheeler	3	3 pneumonia.
Custer	1	1 pneumonia.
Devens	2	Cause not reported.
Dix	6	2 pneumonia; 2 meningitis; 1 necrosis of brain; 1 abscess of brain.
Dodge	8	2 pneumonia; 2 traumatism; 1 suicide; 3 judicial hangings.
Funston	3	2 empyema; 1 nephritis.
Gordon	3	3 pneumonia.
Grant	1	1 pneumonia.
Jackson	7	4 pneumonia; 1 cerebrospinal peva; 1 delirium tremens; 1 heart disease.
Johnston	2	1 typhoid; 1 epilepsy.
Lee	3	2 pneumonia; 1 delirium tremens.
Lewis	4	2 pneumonia; 1 drowning; 1 dementia.
Meade	2	1 alcoholic psychosis; 1 endothelioma.
Pike	6	4 pneumonia; 1 abscess of brain; 1 ulcer of duodenum.
Sherman	2	1 alcoholic; 1 typhoid.
Taylor	1	1 malaria.
Travis	4	2 pneumonia; 1 septicemia; 1 sunstroke.
Upton	1	1 tuberculosis.

NAMES OF SOLDIERS WHO DIED IN CAMPS WEEK ENDING JULY 5

List of names of soldiers reported to The Adjutant General's Office as having died in the United States and its possessions during the week ending July 5, 1918. (Included in this list are the names of soldiers, not previously published, who died in the United States and its possessions prior to the week mentioned and subsequently to March 8, 1918. These names are indicated by an asterisk.)

Camp Beauregard, La.—Pvt. Claude I. Conerly, Sunnyhill, La.; Pvt. Robert E. Rethwisch, 1518 Christie Avenue, Louisville, Ky.

Camp Custer, Mich.—Pvt. Richard Jones, 408 East West Street, Sturgis, Mich.

Camp Devens, Mass.—Rct. Frank Cassidy, 139 North Avenue, Burlington, Vt.; Pvt. Ben Merrill, Portage, Me.

Camp Dix, N. J.—Pvt. Campbell Fairly, Jacksonville, Fla.; Pvt. Frank Fortiner, 303 Linden Street, Moorestown, N. J.; Pvt. John Scott, 627 Fort Stall Street, New Orleans, La.; Pvt. Adam Tapacy, 65 Grand Street, Brooklyn, N. Y.

Camp Dodge, Iowa.—Pvt. Fred Allen, R. F. D. 4, Box 45, Georgina, Ala.; Pvt. Milton Henry, R. F. D. 3, Box 37, Anniston, Ala.; Pvt. Robert Johnson, Tuscanbia, Ala.; Second Lieut. Grant A. McDonald, Grafton, N. Dak.; Pvt. Arthur B. Thomas, 1103 South Oak Street, Fergus Falls, Minn.; Pvt. Stanley G. Tramble, care of John Lee, R. F. D. 1, Roanoke, Ala.

Camp Gordon, Ga.—Pvt. Levy Green, Renfraes, Ga.; Pvt. Carl G. Johnson, 821 Division Street, Kewanee, Ill.; Pvt. Lon G. Wells, 402 Thirty-eighth Avenue, Meridian, Miss.

Camp Grant, Ill.—Corpl. Elmer Edward Lind, 336 West Twenty-ninth Street, Chicago, Ill.

Camp Jackson, S. C.—Registrant Henry Ackerberg, 903 Newport Avenue, Chicago, Ill.; Pvt. Douglass B. Bunton, R. F. D. No. 1, Whitehall, S. C.; Pvt. Thomas Duncan, Whitmire, S. C.; Pvt. Joseph M. Harzog, Summit, Ill.; Pvt. John W. Walker, Reidville, N. C.

Camp Johnston, Fla.—Pvt. James A. Cottingham, 307 Tinsley Street, Griffin, Ga.; First Class Pvt. Lonnie L. Sheffield, Ragland, Ala.; Sergt. Earle C. Stanley, 160 North Main Street, Rochester, N. H.

Camp Kearney, Cal.—Pvt. Kenneth E. Brittain, St. Helens, Oreg.; Recruit Clarence Cole, Onyx, Cal.

Camp Lee, Va.—Pvt. Ollie Knott, Fayetteville, Tenn.; Pvt. Ernest E. Zimmerman, Arlington, Va.

Camp Lewis, Wash.—Pvt. George D. Laberge, Butte, Mont.; Pvt. William A. C. Schleicher, Albany, Stearns County, Minn.

Camp Logan, Tex.—Pvt. William Halfin, 307 Convent Street, Victoria, Tex.*

Camp McArthur, Tex.—Pvt. George Ambrose, Cate, Tex.; Pvt. Ben H. Meyers, Kenney, Tex.; Pvt. George N. Nelson, 346 East Seventh Street, Salt Lake City, Utah; Pvt. Nelse Robinson, Bedras, Tex.

Camp McClellan, Ala.—Corpl. John Rowland, 149 Monroe Street, Passaic, N. J.;* Pvt. George D. Sibley, Ishpeming, Mich.*

Camp Meade, Md.—Pvt. Frank Vollrath, 24 Luzerne Street, Wilkes-Barre, Pa.

Camp Merritt, N. J.—Pvt. Charles McClure, Hendersonville, N. C.

Camp Pike, Ark.—Pvt. Roy Bennett, Box 23, R. F. D. No. 1, Atkins, Ark.;* Pvt. James N. Brewer, 1106 Taylor Street, Bloomville, Ohio; Pvt. John Cobb, Madison, Ark.; Pvt. Jordan C. Griffin, Phoenix, Miss.; Sergt. James H. Gwyn, 300 Union Avenue, Memphis, Tenn.; Pvt. Arthur Martin, Box 136, Wilmot, Ark.; Pvt. Everett Philpott, Martin, Tenn.; Pvt. Dillard Richardson, Arkansas City, Ark.

Camp Sevier, S. C.—Pvt. Phocan M. Bodine, R. F. D. No. 1, Guntersville, Ala.; Pvt. Earl A. Hall, Route 2, Donalds, S. C.

Camp Sheridan, Ala.—Pvt. Moses Elias Levine, 1363 East Ninety-third Street, Cleveland, Ohio.

Camp Sherman, Ohio.—Pvt. William Brown, 217 Warren Street, Greenville, Ohio;* Recruit Joseph Ducett, R. F. D. No. 1, Box 28, Sawyersville, Ala.

Camp Stuart, Va.—Pvt. Harrison Curry, Morriltown, Ark.*

Camp Travis, Tex.—Pvt. William L. Ackley, Negley, Tex.; Pvt. Irving O. Bleibaum, Mexico City, Mexico; Pvt. James W. Varner, Clarksville, Tex.

Camp Upton, N. Y.—Pvt. James McCullough, Route 3, Greenville, S. C.;* Pvt. Caesar Scarbelle, 245 East Fortieth Street, New York City, N. Y.

Camp Wheeler, Ga.—Pvt. Joseph H. Benfield, Hubberl, Mich.; Pvt. Willie Jackson, Hardway, Ala.

Camp Wadsworth, S. C.—Pvt. William E. Belde, 574 Edmund Street, St. Paul, Minn.; Pvt. John H. Degraw, Minetto, N. Y; Pvt. Maurice Fonseca, 72 West Church Street, Jacksonville, Fla.

Fort Bayard, N. Mex.—Corpl. Dock Smelly, Blockton, Ala.; Sergt. James Bates, 2142 St. Clair Avenue, Cleveland, Ohio; Pvt. Arthur Pasley, R. F. D. No. 2, Mt. Sterling, Ky.

Fort Caswell, N. C.—Rct. Albert Holly, R. F. D. No. 1, East Brady, Pa.

Fort Sam Houston, Tex.—Second Lieut. Vinson Runyan Boardman, Hoopeston, Ill.; Second Lieut. Oliver D. Forbes, 1408 Fifty-first Street, Philadelphia, Pa.; Rct. Abner R. Turner, 517 Mills Street, Raymond, Wash.*

Fort Lawton, Wash.—Sergt. Edgar O. Williams, R. R. No. 7, Nashville, Tenn.

Fort Leavenworth, Kans.—Pvt. Joseph C. Marsh, 211 Park Avenue, Marshfield, Wis.

Fort Logan, Colo.—Rct. Carman E. Hayes, 12 Kendall Square, Salt Lake City, Utah.

Fort Oglethorpe, Ga.—Ind. Rct. James J. Gorman, 2527 East Lehigh Street, Philadelphia, Pa.; Pvt. Andrew B. James, Gray, Pa.

Fort McHenry, Md.—Pvt. Alfred J. Airey, 1131 Light Street, Baltimore, Md.

Fort William McKinley, Luzon.—Pvt. Bartolo Blancapler, Barotac, Iloilo Province, Luzon; Pvt. Rafael Pena, Cyyapo, Nueva Ecija, Luzon.

Fort Mills, Luzon.—Pvt. Luis Kabanzag, San Raymundo, Sulu(Jolo) Island.

Fort Riley, Kans.—Pvt. Montie Brooks, R. R. No. 9, Fulton, Mo.; Pvt. Henry B. Burma, Lenox, S. Dak.; Pvt. Joe Oprone, Box 201, Lake Forest, Ill.; Pvt. Jesse Willis, Tuscalolla, La.

Fort Slocum, N. Y.—Recruit Joseph F. Desanto, 302 First Street, Brooklyn, N. Y.

Fort Stellacoom, Wash.—Pvt. Benjamin F. Landis, Lancaster, Pa.

Fort Wadsworth, N. Y.—Pvt. (first class) Alva Nestor, R. F. D. No. 3, St. George, W. Va.

Columbus Barracks, Ohio.—Recruit William L. Miller, Fortville, Ind.

Jefferson Barracks, Mo.—Recruit Roy C. Hallerman, Moberly, Mo.

Vancouver Barracks, Wash.—Recruit Sidney Jamison, Richland, Wash.; Pvt. Harry I. Leighton, Newbury, Vt.*

Callfield, Tex.—Pvt. William Hunter Lees, 1819 Bernard Street, Boise, Idaho.

Chanute Field, Ill.—Pvt. Harry Carruthers Noble, 23 Carlisle Avenue, York, Pa.*

Ellington Field, Houston, Tex.—Second Lieut. Edmund L. Cone, 532 Bergen Avenue, Jersey City, N. J.*

Gerstner Field, La.—Pvt. Paul O. Hanson, Levan, Utah.

Selfridge Field, Mich.—Pvt. Edward G. Sawyer, R. F. D., Waterford, Conn.

Taliaferro Field, Tex.—First Lieut. Frederic P. Clement, jr., Brush Hill Road, Readville, Mass.; Second Lieut. Arthur M. Parsons, 65 Mount Pleasant Avenue, Gloucester, Mass.

Aberdeen, Wash.—Pvt. Fred Tremayne, 301 Hoffman Avenue, Monterey, Cal.

Brownsville, Tex.—Pvt. Dayis L. Millican, 1306 Eighth Street, Wichita Falls, Tex.; Corpl. Joseph H. Hoeken, Hillsboro, Mo.

Charleston, S. C.—Pvt. John Ross Kennedy, Page, Nebr.

Chattanooga, Tenn.—Pvt. (first class) Frank L. Sweeney, North Grafton, Mass.

Chicago, Ill.—Capt. Fred Skoning, Illinois Park, Elgin, Ill.; Lieut. Col. Frank C. Todd, 411 Groveland Avenue, Minneapolis, Minn.

Columbus, N. Mex.—Sergt. Peter Jensen, 310 West Erie Street, Chicago, Ill.*

Deming, N. Mex.—Pvt. William C. Graham, Ozona, Tex.

Des Moines, Iowa.—Warren M. Mitchell, 307 Hanover Street, Mankato, Minn.

Hoboken, N. J.—Pvt. Anthony Esposito, 220 South Eighth Avenue, Mount Vernon, N. Y.

Key West, Fla.—Pvt. Frank John Hunt, Yeager, Okla.

Laredo, Tex.—Pvt. John Lee Leo, 694 Bergen Street, Brooklyn, N. Y.

Logansport, Ind.—Pvt. Jay Spillman, Logansport, Ind.

Manila, P. I.—Capt. Paul Clements, Fort William McKinley, Luzon.

Lawton, Okla.—Pvt. (first class) Charles J. Lenz, 508 Avon Avenue, Newark, N. J.

Mineola, N. Y.—Second Lieut. James J. Penny, 3805 Review Place, New York City, N. Y.

Newport, R. I.—Pvt. Horace A. Brotzman, Marengo, Ill.*

Newport News, Va.—Pvt. Charlie Moore, Route 2, Box 34, Butts, Ga.

New York, N. Y.—Pvt. Eimar Samuelson, Cypress Avenue, Bronx, N. Y.; First Lieut. Harry Arthur Datteltaum, 345 Stone Avenue, Brooklyn, N. Y.

Petersburg, Va.—Pvt. Webster W. Thompson, R. F. D. No. 2, McKenney, Va.*

Raymond, Wash.—Pvt. Ernest B. Gillman, Greenbrier, Tenn.*

San Francisco, Cal.—Pvt. George E. Fisher, Cavespring, Ga.; Col. James W. Clinton, care of Boykin, Carmer & Co., 11 and 13 North Liberty Street, Baltimore, Md.

Steeles Bridge, Ga.—Pvt. Abe L. Marquisee, 329 Jackson Street, Syracuse, N. Y.

St. Paul, Minn.—Pvt. Herman M. Hartford, 715 Monroe Street, Santa Clara, Cal.

Waco, Tex.—Pvt. Ellsworth Eppenstein, 1230 Muhlenberg Street, Reading, Pa.

Washington, D. C.—Lieut. Col. Rufus B. Clark, Gainesville, Ga.

Willimantic, Conn. Corpl. John Webber, 606 Main Street, Bridgeport, Conn.

York, Pa.—First Lieut. G. E. Evans, 325 West Market Street, York, Pa.

INDEPENDENCE DAY CELEBRATED BY SERBIAN PEOPLE AT CORFU

The official Serbian press bureau in Washington has received the following cablegram from Corfu, the present seat of the Serbian Government:

CORFU, *July 5.*

The national festival of the United States was celebrated at Corfu with great solemnity.

In the morning a religious service was held in the Serbian Church, at which were present the members of the Government, the Skupshtina, the representatives of the allied armies, and a large attendance of the public.

Tribute by Metropolitan.

After the mass the metropolitan dimitriye delivered a sermon in which he pointed out that the great American nation had only entered the war on the side of the allies after a conscientious investigation by the most conscientious man of our time, into the war aims of the two groups of belligerents. As soon as President Wilson had acquired the conviction that right and justice were on the side of the allies he threw the powerful weight of his country into the scale in defense of the weaker nations, who were only justified in basing their confidence in him in virtue of the principle of human solidarity.

"We have seen powerful nations completely despise this great human ideal," continued the metropolitan, "which seemed destined to perish. But we draw our greatest confidence in the future from seeing the continual increase in the number of the great nations which have taken up the defense of this ideal. It is on account of the greatness of the soul of the American people and of its President that we celebrate to-day with special emotion, made up of admiration and gratitude, the national festival of the great American Republic."

Serbian Journals Pay Homage.

All the Serbian journals of Corfu and Salonica give an account of the vents which led the United States to declare war on the central powers. They place on record that "the war aims of the allies are, beyond, all doubt, inspired by considerations of the noblest idealism," but add that it was President Wilson who, "by his calm but implacable policy, reached that ideal of justice which exposed in all their nakedness and horror the aims of conquest and violence of the central powers. He thus raised to a prodicious degree the moral forces of the allies' armies even before the arrival of the American forces on the battle field, an arrival which is now the sure gauge of victory."

Comment of Official Journal.

The official journal, Srpske Novine, writes: "At the moment when the blind German militarism believed that the moment of the realization of its schemes of conquest was at hand, schemes which called for the destruction of the rights and liberties of the other peoples, the great American Republic took up the defense of the sacred principles of humanity and its President did not hesitate to declare that the era of conquest and violence was closed. But what is sublime in the action of the United States is their solicitude for the weaker peoples which aspire to liberty and independence. All the Serbs, Croats, and Slovenes hail joyously the national festival of the great Nation whose Government has just confirmed their right to liberate themselves from the yoke of foreign oppression. We are grateful to the United States, which knows the price of independence and which, by contributing generously to the common victory, will cause the light of liberty to shine throughout the world and upon us who will see our independence and our national aspirations realized."

UNITED STATES FUEL ADMINISTRATION FIXES MAXIMUM PRICES FOR GAS COKE

The United States Fuel Administration [illegible]:

It appearing to the United States Fuel Administrator that anthracite coal is not obtainable in certain districts where gas coke is produced, and that there are no published railroad freight rates on [illegible] to such districts, therefore certain additional regulations should be put in force for the better control of distribution of gas coke, and of the prices at which it should be sold.

The United States Fuel Administrator, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other orders of said Fuel Administrator, subject to modification by him at any time and from time to time hereafter, the following regulations shall be in effect beginning at 7 a. m., July 9, 1918:

(1) The price of coke shall be understood as the price per ton of 2,000 pounds, f. o. b. cars at the plant where the coke is manufactured.

(2) All the maximum prices mentioned herein shall apply to car lots sold to consumers or to dealers for wagon delivery; any commissions paid to selling agencies or margins allowed to jobbers shall be paid by the vendors, and shall not be added to the prices established hereby.

(3) In all cases where wagon deliveries are made by the coke producer a reasonable charge for such handling and delivery may be made subject to approval of the Federal fuel administrator for the State in which such delivery is made.

(4) In those localities where anthracite coal is not obtainable the maximum price of each grade of gas coke, per ton of 2,000 pounds f. o. b. cars at the plant where such coke is produced, shall be the base price for such grade, plus the lowest published coke freight rate to such point from any beehive coke district. The base price shall be as follows:

Run of [illegible]	$5.50
Run of [illegible] screened above ¾ inch size	6.00
[illegible] and sized above ¾ inch size	6.50
[illegible] and sized between ½ and ¾ inch	4.50

(5) Where anthracite coal is obtainable the maximum prices of various grades of gas coke per ton of 2,000 pounds, f. o. b. cars at the plant at which it is produced, sold to dealers for distribution in less-than-carload lots, or delivered direct to consumers for household purposes, shall be as follows: Screened and sized above three-fourth inch, the same price as that established by the United States Fuel Administrator for stove anthracite in the same locality; run of retorts screened about three-fourth inch, 25 cents less than the price of above anthracite; run of retorts not screened, 75 cents less than price of stove anthracite. The maximum price of gas coke sold for other purposes than those heretofore mentioned in this paragraph shall be the prices established in paragraph (4) of this order.

(6) The maximum price, per ton of 2,000 pounds, f. o. b. cars at plant at which it is produced, for breeze shall be one-half the price established by the United States Fuel Administrator for run of retorts coke unscreened made in gas retorts where such breeze is produced. The term breeze shall be understood to include: (a) All small coke that is left after loading coke into cars by means of forks, if shipped without further screening or sizing; (b) any portion of this coke that is left after removing the prepared sizes; (c) any undersized coke that is left after removing the metallurgical coke, the foundry coke, or the prepared sizes by screening.

H. A. GARFIELD,
United States Fuel Administrator.

MAXIMUM PRICES ARE FIXED ON "MODIFIED MINE-RUN" COAL

The United States Fuel Administration issues the following:

The President of the United States having by Executive order dated August 21, 1917, fixed the prices at which bituminous coal produced in the United States should be sold after that date, and said order not having specifically fixed the price at which that kind of bituminous coal known as "modified mine-run" coal, which is run of the mine from which a certain portion of lump has been screened, should be sold, and it being desirable that prices of such "modified mine-run" bituminous coal should be fixed, the United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby makes and establishes the following regulation fixing the price of modified mine-run coal, effective July 5, 1918, until further or other order and subject to modification hereafter from time to time and at any time:

The prices of "modified mine-run" coal shipped on and after the effective date of this regulation are hereby fixed f. o. b. cars at the mine per net ton at not to exceed the applicable Government mine prices for screenings at the mine where such "modified mine-run" coal is produced plus the following percentages of the margin or difference between the applicable Government mine prices for mine run and screenings at such mines, viz:

	Per cent of such margin.
Run of mine passed through—	
2-inch openings	40
3-inch openings	75
4-inch openings	90
5-inch openings	95

Run of mine passed through 6-inch or larger openings shall take the applicable Government price for run of mine.

H. A. GARFIELD,
United States Fuel Administrator.

MESSAGE OF THE RED CROSS TO DISABLED U. S. SOLDIERS

(Continued from page 8.)

can produce with hand or with brain just as much as the next man. Your country needs soldiers in the great army of workers.

You will not have to go it alone. The Government and the Red Cross will see you through. The Government will make you well; it will restore to you the use of injured members; it will teach you a trade; it will find for you an opportunity to earn a living just as you did before—perhaps better than you did before. It will make you a skilled producer.

And all along the line the Red Cross will be with you and your family—your ally and the Government's in this greater warfare in which you as a soldier of peace are fighting to make the world better because of your being in it. The Red Cross will come to you whenever you ask—when courage is at low ebb—in any hour of distress; it will go to your family if there is any information, counsel, service, or aid they need; it will stand by you in the new job and believe in you and sustain you if it be found that the job doesn't fit. It will see you through if you want to go through.

After a while there will come to you this thought: "What I have lost—arms, legs, sight, physical strength—is insignificant by comparison with what I have saved and what I have gained. I still have my friends, old and new; my family; my brain; my courage; my will to succeed; my soul, which must be the only thing really worth saving, because it is that alone which God has deemed worthy to make eternal. And if I take what is offered, I shall have skill to produce and earn, and I shall have opportunity to do a man's work in the world and to receive a man's need. I can still laugh and love and serve."

All you want is the equipment to do the task before you and an opportunity to take your place in the ranks of the world's indispensable producers. You will not get more than you earn; but you will earn what every other man who can look the world in the face earns—a competent, independent livelihood.

You can do it. It has been done by many. Their stories are in this book. It will be done in the future by all who will. Never before has the Government and the public given a guaranty such as this—physical and mental rehabilitation, vocational reeducation, replacement in industry, and constant encouragement to those who have suffered and sacrificed.

You can do it. We have pledged our faith in you. We are for you and with you—always.

This is the message of the Red Cross.

W. FRANK PERSONS,
Director General, Department of Civilian Relief, American Red Cross.

Business as usual now may mean no business later.

SYSTEM FOR GIVING FREE LEGAL AND BUSINESS ADVICE TO MEN IN ARMED SERVICE ARRANGED

FOUR AGENCIES ARE COOPERATING

Judge Advocate of Army, Council of National Defense, Red Cross, and American Bar Association Assisting Soldiers and Sailors.

The following statement is authorized by the War Department:

The Judge Advocate General of the Army, the Council of National Defense, the American Red Cross, and the American Bar Association are working together to establish a complete system for giving free legal and business advice to men of the armed service and their families.

Advice for Men About to Enter Service.

In a majority of States lawyers are being organized in legal committees by the State councils of defense with the aid of the State bar associations. These legal committees are making special efforts to see each man about to enter service for the purpose of helping him to set his affairs in order. The personnel of the legal advisory boards established at the time the draft questionnaire was inaugurated are forming the nucleus of this organization. In several States legal committees are using the legal handbooks prepared for them by the State legal committees, presenting not only Federal but State law affecting the rights of soldiers, sailors, and their dependents.

In States which have not yet organized local legal committees the legal advisory boards and the local bar associations are offering their services free to soldiers, sailors, and their dependents.

Legal Advice for Men in Service.

Legal advice for men who are in the camps is to be obtained through the division or camp judge advocate. If the problem must be settled at the man's home, the Red Cross representative in charge of home service at the camp will refer the case to the home service section in the man's home town. There the case will be handled by the local home service section with the assistance of the local legal committee or such other legal advisory machinery as is established there.

Legal Advice and Relief.

The American Red Cross provides financial aid and whatever other forms of assistance needed, including information and guidance respecting allotments, allowances, compensation, and insurance under the war-risk insurance act, and in respect to other matters which make for the welfare of the men in service and their families.

(Continued on page 4.)

TEN PERSONS ARE SELECTED BY PRESIDENT TO ACT AS UMPIRES IN CONTROVERSIES WHICH WAR LABOR BOARD CAN NOT SETTLE

NO NEED FOR ONE TO DATE

Action Taken Is in Accordance With Recommendations of War Labor Conference Board, on Whose Report the Establishment of Taft-Walsh Commission Was Based.

The National War Labor Board authorizes the following:

The President has advised the National War Labor Board of his selection of ten distinguished citizens to act as umpires in controversies which can not be settled by agreement of the membership of the War Labor Board. The President's action is in accordance with the report of the War Labor Conference Board, upon which the establishment of the War Labor Board was based.

Following is the President's letter:

THE WHITE HOUSE,
Washington, July 12, 1918.

Hon. WILLIAM H. TAFT,
Hon. FRANK P. WALSH,
Chairmen National War Labor Board,
Department of Labor Building,
Washington, D. C.

GENTLEMEN: In accordance with paragraph (d) of the report of the War Labor Conference Board, I hereby nominate ten disinterested persons suitable to act as umpire when drawn by lot as provided in said paragraph:

Henry Ford, Detroit, Mich.,
Matthew Hale, Boston, Mass.,
James Harry Covington, Washington, D. C.,
Charles Caldwell McChord, Washington, D. C.
V. Everit Macy, New York City,
Julian William Mack, Chicago, Ill.,
Henry Suzzallo, Seattle, Wash.,
John Lind, Minneapolis, Minn.,
William R. Willcox, New York City,
Walter Clark, Raleigh, N. C.

Cordially yours,

WOODROW WILSON.

Decisions Hitherto Unanimous.

Up to this time there has been no final decision of the National War Labor Board upon which the entire membership has not been in complete agreement, and the necessity for the selection of one of the President's nominee to act as umpire is not immediately in view. However, as the President's letter indicates, the report of the War Labor Conference Board, anticipating the possibility of a failure of the 12 members of the War Labor Board to come to agreement in one or more of the controversies which may come before it for settlement, provided:

(c) If the sincere and determined effort of the National Board shall fail to bring about a voluntary settlement, and the members of the board shall be unable unanimously to agree upon a decision, then, and in that case and only as a last resort, an umpire appointed in the manner provided in the next paragraph shall

"Present Bastile Fast Nearing Its Doom"

By NEWTON D. BAKER,
Secretary of War.

Comrades at the beginning of their democratic careers, France and the United States are again brothers in arms in democracy's defense. Our present bastile has yet to fall; but the spirit of 1776 and of 1789, aflame to-day in the hearts of both armies and peoples, insures that it is fast nearing its doom. And when it topples there will be established a new historic date marking the liberation not of a people only, but of mankind—an anniversary in the commemoration of which all free nations will delight to join.

Bastile Day Message to Head of French Navy

Secretary Daniels on Saturday sent the following dispatch to the French minister of marine, Paris:

Every ship and station of the United States Navy will celebrate the 14th of July in the same manner as we do our own national anniversary. I rejoice that our two Republics join in the celebration of the Fourth and the Fourteenth of July—two days that opened new doors to men seeking for liberty. This mutual recognition of national holidays will bind more closely together the peoples of both Republics.

JOSEPHUS DANIELS.

PROPOSALS TO BE RECEIVED.

Bids for Making Improvements at St. Elizabeths Hospital Invited.

DEPARTMENT OF THE INTERIOR,
Washington June 20, 1918.

Sealed proposals in duplicate will be received at the department until 2 o'clock p. m., Tuesday, July 23, 1918, and then opened, for furnishing and erecting boiler, the necessary piping, and stoker at the St. Elizabeths Hospital, Washington, D. C., in accordance with specifications, copies of which may be obtained upon application to the chief clerk of the department.

S. G. HOPKINS,
Assistant Secretary.

hear and finally decide the controversy under simple rules of procedure prescribed by the National Board.

(d) The members of the National Board shall choose the umpire by unanimous vote. Failing such choice, the name of the umpire shall be drawn by lot from a list of 10 suitable and disinterested persons to be nominated for the purpose by the President of the United States.

The President's Nominees.

Henry Ford is the largest manufacturer of automobiles in the country. He was once a machinist and later chief engineer of the Edison Illuminating Co. In January, 1914, he set a new precedent for industrial relations when he established a plan of profit sharing involving the annual distribution of $10,000,000 among his employees and fixing a minimum wage based upon the cost of living.

Matthew Hale, of Boston, is a distinguished lawyer and newspaper publisher. He has been an alderman and a member of the city council of Boston, chairman of the Progressive Party State Committee of Massachusetts, and a member of the Progressive National Committee from that State.

James Harry Covington, now an attorney at law, was formerly Chief Justice of the Supreme Court of the District of Columbia and a Member of Congress from the State of Maryland. He was a member of the Railway Wage Adjustment Board.

Charles Caldwell McChord is a member of the Interstate Commerce Commission and of the Railway Wage Adjustment Board. He has been a member of the Kentucky Senate and chairman of the Railroad Commission of the State of Kentucky.

V. Everit Macy, of New York, is chairman of the Labor Wage Adjustment Board of the Emergency Fleet Corporation, treasurer of the National Child Labor Committee, and a member of the executive committee of the National Civic Federation. He is a director in numerous banks and industrial institutions.

Julian Williams Mack, of Chicago, is a judge of the United States Circuit Court and a prominent educator. He has been professor of law at Northwestern University, and now holds the chair of law at the University of Chicago. He was judge of the Circuit Court of Cook County, Ill., from 1903 to 1911; assigned as judge of the juvenile court from 1904 to 1907.

Henry Suzzallo is president of the University of Washington; is a publisher, lecturer, author, and contributor to educational magazines. Recently Dr. Suzzallo was chairman of the board of arbitration which settled the street railway controversy in the city of Seattle.

John Lind was formerly governor of the State of Minnesota; is a lawyer; former Member of Congress; was envoy and personal representative of President Wilson to Mexico in 1913.

William R. Willcox, of New York, is a lawyer; former chairman of the Republican National Committee; former chairman (for New York City) of the Public Utilities Commission of New York State.

Walter Clark is chief justice of the supreme court of North Carolina; is a historian, author, and translator. Was lieutenant colonel in the Confederate Army at 17 years of age, being the youngest officer of this rank in either Army during the Civil War.

WAR INDUSTRIAL PLANTS GIVEN INSTRUCTIONS ON METHODS FOR CENTRAL RECRUITING OF LABOR

RESULT OF A CONFERENCE HERE

National Employment Service Will Supervise All Labor Recruiting Organizations After August 1—Cooperation Asked.

The Department of Labor authorizes the following:

At the close of a three days' conference of employment managers, State employment agents, and officials of the United States Employment Service instructions were sent out to war-industrial plants concerning methods by which the central recruiting of labor will be put into effect. The conference, in which both State and Federal agents as well as industrial management were represented, devoted itself to a consideration of methods by which the national system may be made most useful. The instructions which were sent out authorize under certain conditions war industries with field forces for recruiting labor to continue their use after August 1, when recruiting and distributing unskilled labor will, in accordance with the President's statement, be unified in the national service. The labor recruiting organzations of private industry will, however, after that date operate only under the supervision of the national service.

The full instructions are as follows:

Recruiting of Unskilled Labor.

1. Order blanks are inclosed which you are requested to fill out and return, in accordance with the printed instructions thereon, within 24 hours after receipt, to the man in charge of the work in the State where your plant is located. The information sought is necessary to ascertain the total requirements of industry for unskilled labor and the requirements by States for your particular industry as well as for your plant. Filling out and forwarding the blank does not imply at this time a promise that your labor requirements can or will be supplied promptly—that is the goal aimed at.

2. Shortly after the filing of your order you will be notified by the United States Employment Service of the office and agent assigned to cooperate with you in getting your unskilled labor. You should promptly get in touch with him.

3. The total of the present needs of the country's war industries for unskilled labor is to be divided into quotas among the States and subdivided among communities. Vigorous efforts will be made in every community to secure the allotted quota of competent men in such a way as not to take labor from other war industries or from the farms, or needlessly to cripple less essential industries. So far as possible recruiting for your plant will be centered in certain definite States and localities.

4. If you have a field force for recruiting labor, you may on request be authorized to continue using your own force, under the direction of and subject to the regulations of the United States Employment Service.

Apply for authorization to the man in charge of the work of the United States Employment Service for your State. (See list inclosed.)

While this authorization is subject to withdrawal at any time, it is the intention to continue it as long as it works satisfactorily.

Community Labor Boards.

5. In order to stabilize labor recruiting and distribution as far as possible, a community labor board will be organized in each community. This board will be made up of a representative of the United States Employment Service, a representative of the workers, and a representative of employers. It will assist in recruiting local labor, but its principal work will be to decide on the relative needs of local establishments and prorate labor supply when the supply is less than needed.

6. Nonwar industries should not offer superior inducements or in any other way undertake to compete with the Government for labor.

7. The requirement that unskilled labor must be recruited through the sole agency of the United States Employment Service does not at present apply in the following five cases:

(1) Labor which is not directly or indirectly solicited.

(2) Labor for the railroads.

(3) Farm labor to be recruited in accordance with existing arrangement with the Department of Agriculture.

(4) Labor for nonwar work.

(5) Labor for establishments whose maximum force does not exceed 100.

The plan as outlined is the result of the universal demand of industry that the Government regulate the distribution of labor.

It is apparent that the plan is based very largely on the cooperation which employers are in a position to give.

The success which the plan will have depends upon the measure of cooperation it receives from employers.

U. S. EMPLOYMENT SERVICE.
J. B. DENSMORE,
Director General.

Receipts From Sales of War Savings and Thrift Stamps Grow

The Treasury Department authorizes the following:

From July 1 to 11 inclusive, the Treasury Department receipts from the sale of war-savings and thrift stamps totaled $60,789,657.59, this amount exceeding the Treasury receipts from this source for the entire month of June.

Additional concrete evidence of the progressive success of the war savings campaign is found in the fact that the Treasury receipts from this source for the week of June 24 made a new weekly record, which was in turn surpassed by the record for the week of July 1. It is to-day certain that the receipts for the current week from the sale of these securities will represent the best weekly record since the inauguration of the war savings campaign.

GREETINGS TO FRANCE ON BASTILE DAY SENT BY PRESIDENT WILSON

The President sent to American Ambassador Sharp at Paris, for transmission by him to President Poincare, the following message to the French people on the anniversary of Bastile Day, Sunday, July 14.

America greets France on this day of stirring memories with a heart full of warm friendship and of devotion to the great cause in which the two peoples are now so happily united. July 14th, like like our own July 4th, has taken a new significance not only for France, but for the world. As France celebrated our Fourth of July, so do we celebrate her Fourteenth, keenly conscious of a comradeship of arms and of purpose of which we are deeply proud. The sea seems very narrow to-day, France is so close neighbor to our hearts. The war is being fought to save ourselves from intolerable things, but it is also being fought to save mankind. We extend our hands to each other, to the great peoples with whom we are associated; and to the peoples everywhere who love right and prize justice as a thing beyond price, and consecrate ourselves once more to the noble enterprise of peace and justice, realizing the great conceptions that have lifted France and America high among the free peoples of the world. The French flag flies to-day from the staff of the White House, and America is happy to do honor to that flag.

WOODROW WILSON.

The President's greeting to France was read at meetings held Sunday in observance of the French holiday by the Committee on Allied Tribute to France, in New York; the National Security League, of Chicago; and the Societe Francaise de St. Louis, in St. Louis.

NEW DUTY FOR CAPT. MANN.

Special Orders, No. 157:

126. Capt. Ransford V. Mann, Ordnance, National Army, is relieved from duty at the plat of Midvale Steel & Ordnance Co., Eddystone, Pa., and will proceed at once to Washington, D. C., and report to the Chief of Ordnance, 451 Pennsylvania Avenue, for duty.

Message to France From American People on Bastile Day Anniversary

Following is a message from the American people which the Four-Minute Men of the Committee on Public Information transmitted through the Ambassador of the French Republic at Washington, M. Jusserand, to the French people on the anniversary of Bastile Day.

Before being dispatched the message was presented for indorsement by the Four-Minute Men to all audiences throughout the country which the members of that organization addressed. The audiences which the Four-Minute Men had facilities to reach approximated 25,000,000, and this large number of Americans was asked to subscribe by resolution to the sentiments set forth in the communication.

The message, which was translated for transmission by Comte de Chambrun, a great grandson of Lafayette, follows:

Liberty has two birthdays, one in the New World and one in the Old. One is marked by the anniversary of our Declaration of Independence on July 4, 1776. It is the birthday of a Nation in the new western world dedicated to the proposition that all men are created free and equal. Its cradle was Independence Hall in Philadelphia.

That Nation has become a great people, which has gathered to its ideals the self-governing nations of the two Americas, and now fights for the preservation of its life, that governments of the people, for the people, and by the people shall not perish from the face of the earth.

The second cradle of liberty was amid the ruins of the Bastile in Paris. On July 14, 1789, the people of Paris destroyed this great medieval prison, the emblem to them of tyranny and oppression and autocratic government. They lighted the torch of liberty at its smouldering ruins and sent their armies forth from the first great European Republic to carry this torch into a Europe governed by absolutism and cursed with privilege and inequality and injustice.

These two great Republics are children of the same spirit. Their essential union from the days of Lafayette and Washington to the days of Wilson and Clemenceau, of Pershing and Foch has been unbroken.

French blood and treasure were given so that we might found the first great experiment of self-government.

America to-day sends her millions in men and her billions in gold that the home of Joan of Arc and the tomb of Lafayette may remain inviolate.

France stands erect to-day, unconquered and unconquerable. America stands beside her. Our boys in khaki stand shoulder to shoulder with the horizon blue of France's brave men. Our Stars and Stripes over the trenches beside the tricolor of France proclaim to the military masters of Germany a union which shall carry the cause of democracy to triumph and form the basis of greater world federation in the days of peace.

To-day we ask of France nothing but the privilege of repaying the debt we owe. We, too, celebrate the fall of the Bastile, the first stronghold of absolutism to go down before the rising power of freemen. We shall stand beside her till the last strong hold of autocracy falls in ruins about the Hohenzollern dynasty.

You, sister Republic, are giving everything, keeping only the imperishable hope, that spirit of self-sacrifice for things greater than the lives of men and nations, which is the crown and glory of France through all the ages.

Accept from America, on the one hundred and twenty-ninth anniversary of your dedication to self-government, the tribute not of our sentiment alone, but of ourselves.

The voice of America proclaims to-day with one accord "Long live, long live—France."

To each audience to which the message was read the Four-Minute Men presented the following resolution for adoption:

"Resolved that the 14th of July message you have just heard be the sentiment of America's millions; that it be delivered through Four-Minute Men of the Committee on Public Information to the French ambassador for transmission to the people of France; and that this audience (or congregation) with thousands of others, this day (or evening) salute and honor our noble ally, the Republic of France."

SERVICE BUREAU
... OF THE ...
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

ASSIGNED TO WAR INDUSTRIES BOARD.

The War Industries Board authorizes the following:

T. C. Powell, manager of inland traffic for the War Industries Board, announces that the United States Railway Administration has assigned for services to the board H. B. Faroat, former district passenger agent of the B. & O. Railroad at Washington. Mr. Faroat will conduct a railroad information bureau for the convenience of the War Industries Board and its personnel.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news. —EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

SHOE RETAILERS ASKED TO AID IN THE CONSERVATION PROGRAM

The War Industries Board authorizes the following:

C. F. C. Stout, chief of the Hide, Leather, and Tanning Materials Section of the War Industries Board, has sent to the shoe retailers of the United States a letter requesting them to assist in carrying out the program of conservation in the manufacture and distribution of shoes for the spring season of 1919, as recently outlined to shoe manufacturers and jobbers.

The purpose of the program is to eliminate needless use of materials, equipment, and capital in order to meet war requirements. Mr. Stout explains that excessive multiplicity of styles of shoes involves needless work and ties up large amounts of capital and materials. He asks that in the general plan for conservation in the industry the retailers of shoes give wholehearted cooperation in reducing the variety and amount of stock which they have heretofore carried. There is no intention, of course, to interfere with the disposal of stocks now on hand or with those that have been ordered for the fall season in accordance with the recommendations of the Commercial Economy Board. Such stocks may be sold in the ordinary course of business.

RESIGNATION OF CAPT. HORNER.

Special Orders, No. 157:

166. The resignation by Capt. Albert Horner, Quartermaster Reserve Corps, of his commission as an officer in that corps is accepted by the President, to take effect this date.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War.

American Official Communique,

No. 59.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,

July 12, 1918.

Section A—In the Chateau Thierry region a trench raid attempted by the enemy broke down with losses under our fire.

Yesterday our aviators shot down a hostile machine in the region of Thiaucourt.

Section B—In the Chateau Thierry region conditions on the day of July 8 to 9 were normal. A German patrol was driven back with losses by an American patrol in the Belleau region. There was much other patrolling activity on both sides but there were no incidents except fire directed from the German front lines on an American patrol. There was more German artillery fire for adjustment than usual, with the customary harassing fire. Some shrapnel was used. Considerable circulation was noted in the Tercy region.

In the Chateau Thierry region from July 9 to 10, the German artillery was more than usually active and his infantry nervously alert. His alertness resulted in the use of many flares during the night. His batteries were active in counter battery fire and in harassing fire on our positions in the front and rear. There was short concentration during the evening in the Voie du Chatel region. Some gas, mainly of the sneezing and lachrymatory variety was used. There was continued intermittent rifle and machine-gun fire on our positions in the Vaux area. German airplane and balloon activity was moderate. Patrols on both sides were active without particular incident.

Along the Marne, July 9 to 10, the activity of our artillery was the only feature of interest. We shelled the enemy positions heavily, drawing only feeble response from his batteries in counter battery harassing and registration fire. German hand grenades, thrown from the north bank, fell into the river. A moderate number of German air patrols and a large number of German balloons were used in observation. An ammunition dump near Jaulgonne was exploded by our artillery.

In Lorraine, July 8 to 9, the enemy showed no particular activity except in machine-gun fire. Besides a large number of bursts his machine guns on several occasions fired continuously on our positions for periods of from 10 minutes to half an hour. His artillery fire was light. His airplanes and balloons were constantly in observation. Our anti-aircraft was successful in driving back his airplanes. Our reconnaissance patrols operated successfully.

The Munster sector was very quiet on July 9. There was no fire from the enemy's artillery. We drove off four of the enemy's planes. Our patrols were active.

In the Woevre, July 7 to 8, conditions remained normal. An American patrol bombed a German outpost during the night.

In the Thann sector, July 9, there was no unusual occurrence except an increase in the German machine gun and rifle fire.

The German airplane reported shot down in the American Official Communique number 59, Section A, was brought down July 11 near Thiaucourt by Lieuts. Jones and Tobin. As result of their fire the German plane fell in flames.

LEGAL AND BUSINESS ADVICE FOR MEN IN U. S. UNIFORM

(Continued from page 1.)

Legal committees, legal advisory boards, and individual lawyers refer to the home service sections cases requiring the services of the Red Cross.

In doing its work the Red Cross necessarily encounters a large number of cases requiring legal advice or the institution of legal proceedings. To attend to these matters the home service sections of the American Red Cross are calling upon the lawyers as organized in a legal committee of the State council of defense, a legal advisory board, or otherwise to furnish the necessary assistance. Where the State councils have organized legal committees, the home service sections are, wherever consistent with existing arrangements, providing legal assistance through these legal committees.

As many of the matters handled by the home service sections relate to allotments, allowances, compensation, and insurance, and as these problems are the subject of frequent rulings and decisions by administrative authorities in Washington, the American Red Cross maintains an information service by means of which decisions and rulings made in Washington are promptly communicated to all home service sections. These rulings are available at the home service sections for legal committees, legal advisory boards, and other lawyers cooperating with the Red Cross.

DISTRICT MANAGER APPOINTED.

The appointment of Harry Penton as manager of the ninth district is announced by Vice President Charles Piez, of the Shipping Board, in a general order, under date of July 2. No change is made in the jurisdiction of the district.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

After voting down all proposed amendments, the Senate late Saturday evening passed the House resolution granting the President full authority to take over and operate for the period of the war all telegraph, telephone, cable, and radio lines or systems. The vote was 46 to 16. As the resolution was not changed in any respect it was not required to go to conference. Speaker Clark and the Presiding Officer of the Senate signed the resolution to-day and it was sent at once to the President for his approval. The 16 votes against the measure were cast by Republicans. The roll call was as follows:

For the resolution:

Senators Ashurst, Bankhead, Benet, Colt, Curtis, Fletcher, Henderson, Hitchcock, Johnson of California, Jones of New Mexico, Jones of Washington, Kendrick, Kenyon, King, Knox, Lenroot, Lewis, McKellar, Martin, Myers, Nelson, Norris, Nugent, Overman, Owen, Phelan, Pittman, Poindexter, Pomerene, Ransdell, Reed, Saulsbury, Shaforth, Sheppard, Shields, Simmons, Smith of Arizona, Smith of Georgia, Smith of South Carolina, Sterling, Swanson, Thomas, Thompson, Trammell, Underwood, and Vardaman. Total, 46.

Against the resolution:

Borah, Brandegee, Fernald, France, Frelinghuysen, Hale, Harding, Kellogg, McCumber, New, Penrose, Sherman, Smith of Michigan, Smoot, Wadsworth, and Watson. Total, 16.

Vacation Until August 24.

A unanimous-consent agreement having been reached late Saturday afternoon for a vote on war-time prohibition late in August, an arrangement was made under which by a series of three-day recesses the Senate will take a vacation until Saturday, August 24. It was arranged that if at any time a quorum of the Senate was present and urgent business was presented that it might be proceeded with. The consent agreement provides, however, that upon the reassembling of the Senate on Monday, August 26, the food stimulation bill with its war-time "bone-dry" prohibition amendment shall be taken up for consideration and proceeded with to the exclusion of everything else, except by unanimous consent, until the measure is finally voted upon.

The Russian situation was the subject of a general discussion in the Senate Saturday afternoon. Senator Borah, of Idaho, precipitated the debate in a speech in which he urged military and political friendly intervention in Russia to bring about a stable government and overthrow German influence in that country.

Soft Drink Resolution.

Senator Frelinghuysen, of New Jersey, introduced a joint resolution proposing an investigation of soft drinks containing caffeine or opiates. The President would be authorized to appoint a commission to conduct the inquiry and an appropriation of $50,000 would be authorized.

Saturday afternoon the President nominated Maj. Gen. William Crozier and Maj. Gen. Henry G. Sharpe to be major generals of the line of the Army; Brig. Gen. Harry L. Rogers to be quartermaster general with the rank of major general for a four-year term; Brig. Gen. Clarence C. Williams to be chief of ordnance with the rank of major general for a four-year term. Saturday evening the Senate confirmed all these appointments with the exception of that of Gen. Rogers, which went over temporarily for a day.

A resolution was adopted directing the Secretary of War to furnish the Senate with the names of all National Guard officers dismissed from the service since the war began, together with reasons for their dismissal.

HOUSE.

The veto of the Agricultural appropriation bill by the President was sustained when the House refused to pass the bill over the veto by a vote of 172 to 72. The measure was then referred to the Committee on Agriculture which arranged to report it back to the House promptly with the objectionable item increasing the guaranteed price of wheat to $2.40 eliminated.

A resolution was adopted calling upon the American people to celebrate July 14, the French national holiday. It was worded to conform to the Senate resolution. Senate resolution revoking the charter of the German-American Alliance was passed.

Secretary Baker reported to the House in response to a resolution that between 400 and 500 men in the War Department of draft age have been given deferred classification or exemption. Many of these he said were draftsmen.

A tour of inspection of the American fleet in European waters having been approved by Secretary Daniels, members of the House Naval Committee will shortly start upon that mission. In the party will be Chairman Padgett of the Naval Committee and Members Riordan of New York, Hensley of Missouri, Connelly of Kansas, Oliver of Alabama, Venable of Mississippi, Littlepage of West Virginia, Wilson of Texas, Butler of Pennsylvania, Browning of New Jersey, Farr of Pennsylvania, Mudd of Maryland, Peters of Maine, and Hicks of New York.

MORE GERMAN SHIPS COMING UNDER THE AMERICAN FLAG

The Shipping Board authorizes the following:

The American flag has been raised over the first of eight former German steamers which were seized some time ago by the Uruguyan Government. This is the *Artigas*, once known as the *Wiegand*, a vessel of 8,800 deadweight tons. The other German ships that will shortly follow the *Artigas* into the merchant marine of the United States increases the new tonnage thereof by 62,000.

By the terms of the contract entered into with the Uruguyan Government, the United States Shipping Board Emergency Fleet Corporation has agreed to allocate all eight ships or their tonnage equivalent to war trade with that country. The agreement also provides that the United States Shipping Board Emergency Fleet Corporation, as head charterer, may subcharter four of the steamers to the British Government.

Officials of the Shipping Board express satisfaction at the cooperation of the Uruguyan Government in the steps which have resulted in bringing the former German steamers under the American flag.

WORKING AGREEMENT REACHED AT WOOL INDUSTRY CONFERENCE

The War Industries Board authorizes the following:

After conferring on Friday with representatives of the War Industries Board and other government representatives, the subcommittee of the War Service Committee of the Wool Manufacturing Industry returned to New York and will issue from there a statement to the trade covering all phases of the subject of woolen manufacture, together with recommendations to be followed by the industry until further notice.

The committee representing the wool manufacturers consisted of George B. Sanford, Frederick S. Clark, and J. J. Nevins. The government representatives were George N. Peek, director of Finished Products of the War Industries Board; John W. Scott, director of the Textiles Division; H. E. Peabody, chief of the Woolen Section; Louis Penwell, chief of the Wool Section; A. M. Patterson, chief of the Foreign Wool Section; A. W. Shaw, chairman of the Conservation Division; John Cutter, of the Conservation Division; and Dean Gay, representative of the Shipping Board.

The Subjects Discussed.

Subjects discussed at the conference with decisions to be made the basis of recommendations to the wool manufacturing industry included detailed figures as to stocks on hand and where and how held; questions of distribution of stocks and working plans for mills and factories; plans for stabilization of fabrics under observation of a fabrics committee, which the war service committee is to reestablish and facts and statistics concerning the present status of the rag situation. Leading rag dealers are protesting against a possible embargo on all woolen rags.

Practical working agreements were reached at the conference on all the issues presented. These agreements will be developed under the recommendations to the industry to be worked out by the war service committee of the manufacturers.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 12, 1918.

RECEIPTS.

Customs receipts	$774,500.57
Internal-revenue receipts:

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

JULY 14, 1918.

The following casualties are reported by the Commanding General of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	13
Died from wounds	11
Died of disease	2
Died from accident and other causes	4
Wounded severely	38
Wounded slightly	2
Missing in action	2
Total	72

Killed in Action.

Lieut. Presley R. Brown. Mrs. P. R. Brown, Morganton, N. C.

PRIVATES.

Walter A. Barben. Walter A. Barben, Watertown, N. Y.

Walter S. Bass. Mrs. Fanny Bass, Luter, La.

Tony Cimino. Mrs. Filomeno Cimino, 401 West Mount Pleasant Avenue, Philadelphia, Pa.

Louis Cohen. Isador Cohen, 124 South Third Street, Brooklyn, N. Y.

Edward W. Fant. D. L. Fant, 3 Donwood Street, Greenville, S. C.

Blaz Kapich. William Kapich, 1215 East Park Avenue, Butte, Mont.

Thomas F. McCarthy. Miss Nora McCarthy, Valentine, Mont.

Harry B. Pendleton. Mrs. Emma Pendleton, 2514 Champa Street, Denver, Colo.

Deonice W. Ragsdale. James Ragsdale, Maxwelton, Tax.

Alpio Souppo. John Souppo, Catania, Sicily, Italy.

Solomon Watin. Mrs. Anna Watin, 538 East One hundred and seventy-fifth Street, Brooklyn, N. Y.

Antonio Wolpi. Mrs. Tofiglio Mariglianno, Fiano, Province Di Salerno, Italy.

Died from Wounds.

Lieut. Edward L. Garrett. George L. Garrett, Paoli Star Route, New Albany, Ind.

Lieut. Andrew P. Peterson. Andrew Peterson, Lamberton, Minn.

Sergt. Dennis A. Sullivan. Mrs. Ellen Sullivan, 69 Lansing Street, Auburn, N. Y.

Corpl. Julius Bruskin. Abraham Bruskin, 271 Franklin Avenue, Nutley, N. J.

Corpl. Clarence S. Dunlap. Fred C. Dunlap, Skowhegan, Me.

Corpl. Floyd W. Gilliland. Mrs. Lena Kidding, 849 Butler Street, Chicago, Ill.

Corpl. Edward E. Gray. B. Gray, 5600 Spalding Avenue, St. Louis, Mo.

Wagoner William L. Crystal. Mrs. Mary E. Crystal, Rigby, Idaho.

PRIVATES.

Harry M. Gipson. Mrs. Alice Gipson, Newport, Me.

Andrew Lynch. Miss Catherine Lynch, 441 Franklin Street, Cambridge, Mass.

Samuel Packer. Joseph Packer, 354 Powell Street, Brooklyn, N. Y.

Died of Disease.

PRIVATES.

Charles R. Kelley. Mrs. Mary Kelley, Cove, Oreg.

Edwin H. Raub. Andrew G. Raub, 370 Main Street, Luzerne, Pa.

Died from Accident and Other Causes.

Lieut. Drew Selby Webster. Mrs. M. S. Webster, Pomeroy, Ohio.

Bugler Earl M. Chase. Mrs. Minnie P. Chase, West Harwich, Mass.

PRIVATES.

Harry Dunn. Miss Mamie Rohrs, 246 Ninth Street, Brooklyn, N. Y.

Jim Peyton. Tom Peyton, R. F. D. 1, Bloc-ton, Ala.

Total Army and Marine Corps Casualties

The following weekly statement is authorized by the War Department:

The total number of casualties in the American Expeditionary Forces to date, including those reported Sunday (July 14), is as follows:

Killed in action (including 291 at sea)	1,656
Died of wounds	599
Died of disease	1,333
Died of accident and other causes	507
Wounded in action	5,431
Missing in action (including prisoners)	519
Total to date	10,050

The Marine Corps casualties are as follows:

Officers:	
Deaths	24
Wounded	29
Missing	2
Enlisted men:	
Deaths	549
Wounded	1,016
In hands of enemy	2
Missing	61
Total to date	1,683

Wounded Severely.

Maj. Harry Eugene Cheney. Mrs. Mellissa Cheney, 329 Lansing Street, Charlotte, Mich.

Lieut. George Winslow Furbush, jr. George W. Furbush, Pumping Station, Waltham, Mass.

Lieut. Victor A. Hoersch. William Hoersch, 402 West Seventh Street, Davenport, Iowa.

Lieut. John Frederick Luden. Mrs. M. B. Luden, Ivanhoe, Los Angeles, Cal.

Lieut. Raymond Kipfer Mitchell. Charles H. Mitchell, Benton Harbor, Mich.

Lieut. Edward N. Wigton. Mrs. L. W. Wigton, School Lane, Germantown, Philadelphia, Pa.; R. W. Wigton, 808 Real Estate Trust Building, Philadelphia, Pa.

Sergt. Lyman Dunlap. Mrs. A. Malberg, 142 Park Avenue, Dubois, Pa.

Corpl. Louis Liberman. M. Kline, 712 Ashland Building, Chicago, Ill.

Corpl. Jay J. Swarthout. Mrs. W. T. Wheeler, 103 Chestnut Street, Saginaw, Mich.

PRIVATES.

Joseph Adams. Miss Mary Page, 120 Pond Street, Leedsburg, N. J.

Charles Ayers. Joseph Ayers, 409 Broadway, Watervliet, N. Y.

Harry Banker. Mrs. Homer Day, 309 South Academy Street, Janesville, Wis.

Herbert C. Barker. Mrs. Mary Barker, 27 Linden Street, Exeter, N. H.

DEPT. OF AGRICULTURE PURCHASES.

The Department of Agriculture authorizes the following statement in response to the recommendation of the Attorney General that the various departments of the Government make public all invitations for bids on needed materials and all contracts awarded:

All requests for copies of proposals and for information in regard thereto should be addressed to R. M. Reese, chairman, Board of Awards, Department of Agriculture, Washington, D. C.

TWO DECISIONS BY NATIONAL WAR LABOR BOARD ANNOUNCED

The National War Labor Board authorizes the following:

The National War Labor Board has arrived at two important decisions affecting the questions of the living wage and the basic 8-hour day.

In the first decision the board readjusted the existing wage schedules in eight plants, employing 3,000 men, at Waynesboro, Pa., fixing 40 cents per hour as the minimum rate to be paid any class of workers, including common laborers, and announced that it now has under consideration the question of determining the living wage which, under its principles, must be the minimum rate of wage to permit the worker and his family to subsist in health and reasonable comfort. Final determination of the question was made a special order of business for Tuesday, July 23.

Waynesboro Award.

In the Waynesboro case the award of the board gives many of the workers wage increases greatly in excess of their demands, to gain which they were recently on strike. For instance, the minimum rate is fixed at 40 cents per hour, while minimum rate demanded was 30 cents per hour. Until now common laborers at Waynesboro have been receiving as little as 22 cents per hour. The increase to the lowest paid men, therefore, will be 81 per cent. Skilled workers were awarded the increases they demanded.

The second decision was made in the controversy between the Worthington Pump & Machinery Co. and its employees in the Blake-Knowles plant at East Cambridge, Mass., and in the Snow plant at Buffalo, N. Y. The East Cambridge plant has been tied up for several days by a strike of 1,000 workmen. At both places the paramount issue was the application of the basic eight-hour day. A wage dispute formed a part of the controversy at East Cambridge. The section of the board assigned to the case, composed of Loyal A. Osborne and Fred Hewitt, representing, respectively, capital and labor, readily came to agreement on the question of wages, but disagreed on the question of the application of the basic eight-hour day, Mr. Hewitt holding that the basic eight-hour day should be applied, Mr. Osborne taking the opposite position.

Section's Decision Approved.

The controversy was referred by the section back to the entire board, which approved the section's award as to wages at the plant at East Cambridge, and decided upon a resolution offered by Frank P. Walsh, one of the two joint chairmen, that the basic eight-hour day be installed at once at both plants, at the same time announcing that the board is considering the matter of the determination of what should be fixed as the proper working day. As in the matter of the living wage, final consideration of the question of the basic workday was fixed as a special order of business for Tuesday, July 23.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

Resources and Liabilities of the Entente Allies and Those of the Central Powers

The Treasury Department has made public the following:

The entente allies—excluding Russia and including only those British dominions which are self-governing and only the United States proper—have 11,000,000 square miles of territory, 303,000,000 people, and $495,000,000,000 of national wealth.

The central powers have 1,250,000 square miles of territory, 147,000,000 people, and $134,000,000,000 of national wealth.

The entente owe an aggregate debt of $69,000,000,000, which is about 14 per cent of their total assets. The central powers owe $37,000,000,000, or 28 per cent of their national wealth.

BANK CHANGES ANNOUNCED BY COMPTROLLER OF CURRENCY

The Comptroller of the Currency authorizes the following:

Applications to the Comptroller of the Currency during the period from July 8 to July 12, 1918, for authority to organize national banks and to convert State banks into national banks; charters issued; charters extended and reextended; increases and reductions of capital approved; changes of title approved; and national banks placed in voluntary liquidation were as follows:

Applications for Charter.

	Capital.
For organization of national banks:	
The First National Bank of Nilands, Cal	$25,000
The First National Bank of Conyers, Ga	75,000
For conversion of State banks:	
The American National Bank of Longmont, Colo.; conversion of the Emerson & Buckingham Bank & Trust Co. of Longmont	50,000
The First National Bank of College Springs, Iowa; conversion of the Farquhar Savings Bank of College Springs	50,000
Total	200,000

Charters Issued.

Original organizations:	
The Vallejo Commercial National Bank, Vallejo, Cal.; succeeds commercial department of Vallejo Commercial Bank, Vallejo, Cal	100,000
The First National Bank of Timblin, Pa	25,000
The Farmers National Bank of Appomattox, Va	50,000
Conversion of State bank:	
National Central Bank of Baltimore, Md.; conversion of the German Bank of Baltimore City, Baltimore, Md	400,000
Total	575,000

Charter Extended.

The First National Bank of New Bloomfield, Pa.; until close of business July 11, 1938.

Increase of Capital Approved.

The First National Bank of Claremont, Cal.; increased from $25,0000 to $50,000.

Change of Title Approved.

The German-American National Bank of Shawano, Wis., to "The Wisconsin National Bank of Shawano."

Voluntary Liquidations.

For consolidation with other national banks: The Claremont National Bank, Claremont, Cal. (liquidating agent, J. T. Brooks, Claremont; consolidated with the First National Bank of Claremont)	30,000

ALL WOUNDED ARE CARED FOR BY THE AMERICAN RED CROSS

State Department Denies Reports Circulated Through Newspapers of Germany.

Early in June the Department of State was informed by the American minister at Berne that the International Red Cross at Geneva had received a letter from the central committee of the German Red Cross at Berlin which stated that it was understood from press news that Mr. Davison, chairman of the American Red Cross, had made the proposition that the American Red Cross should not assist the wounded and helpless Germans but should leave them to their miserable fate.

In response to this the Department of State sent to the American minister at Berne as from the American Red Cross the following:

"The American Red Cross knows no such thing as the nationality of a wounded man. Any wounded enemy turned over to the care of the American Red Cross will receive as kindly treatment as any friend."

Supplementing the foregoing Mr. Davison said:

"These sentiments are exactly those which I have publicly expressed throughout the United States. I have never entertained nor expressed any thought to the contrary. The fact that we are today caring for German wounded in our Red Cross hospitals should dispose of the frequently recurring statements that we do not care for such of the enemy wounded as fall within our lines."

Further advices from Switzerland indicate that there has been no circulation of the above denial in the German press, although the original calumny was circulated.

Early in June the Department of State requested the Spanish ambassador at Berlin to ask the German Government the bases for the allegations which were made. No reply has been received.

Summary.

	No. of banks.	Capital.
Applications for charter	4	$200,000
Charters issued	4	575,000
Charters extended	1	----------
Increases of capital approved	1	25,000
Changes of title approved	1	----------
Voluntary liquidations for consolidation with other national banks	1	30,000

GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, JULY 16, 1918. No. 361

U. S. Troops Holding Their Advanced Positions, Gained by Counter Attack, on the Marne, War Department States

The War Department authorizes the following:

Dispatches received from Gen. Pershing and Gen. Bliss confirm the press accounts of yesterday's fighting. American troops west of Surmelin counter attacked, captured prisoners, established and are holding their advanced position. Germany's barrage was met by counter barrage which in many places prevented the advance of their infantry. Full reports covering the entire fronts are, of course, not yet available. The general situation this morning is regarded as satisfactory.

The first day in such a battle is, of course, merely general advance-guard action. The great pressure of reserves and concentrated masses is still to be looked for.

ALLOTMENT OF $6,000,000 FOR IRON ORE FROM SWEDEN

EXECUTIVE ORDER.

By virtue of the authority vested in me by "An act making appropriations to supply deficiencies in appropriations for the fiscal year ending June thirtieth, nineteen hundred and seventeen, and prior fiscal years, and for other purposes," approved April 17, 1917, appropriating the sum of $100,000,000, "for the national security and defense, and for each and every purpose connected therewith" (and which appropriation was by act of Congress approved December 15, 1917, "continued and made available until June thirtieth, nineteen hundred and eighteen"), I hereby order, that out of said sum so appropriated there be allotted six million dollars ($6,000,000) to be expended by the Secretary of Commerce in payment to the proper authorities of the Government of Great Britain of one-third part of the purchase price (together with the storage and transportation charges and any other expenses incurred in connection with the purchase, storage, and/or transportation to the United States) of 2,000,000 tons of Swedish iron ore, the purchase of which is provided for in the agreement of May 29th, 1918, between the Governments of Great Britain, France, and Italy, and the Government of Sweden.

WOODROW WILSON.

THE WHITE HOUSE, *June 29, 1918.*

ENGINEER EXAMINATIONS.

The War Department announces that the board to examine candidates for commissions in the Engineering Reserve Corps will meet in the Allegheny General Hospital, Pittsburgh, on Thursday and Friday, July 18 and 19, and in the Lake Side Hospital, Cleveland, July 20 and 22.

HOLLAND SAILORS GO HOME AFTER WAIT OF FOUR MONTHS

The United States Shipping Board authorizes the following:

After a wait in this country of nearly four months, 3,000 Holland officers and seamen who manned the Dutch ships taken over by the United States last March have been sent home, transportation for them being finally available. These seafarers were guests of the Nation during their long wait. Chairman Edward N. Hurley of the United States Shipping Board, has written Netherlands Consul General Spakler thanking him for his assistance in helping care for and repatriate his countrymen, and also speaking in terms of praise of the Holland sailors.

"We have been much impressed with the high character and admirable conduct of the Netherland officers and seamen during their sojourn in the United States," says Mr. Hurley in his letter to the Dutch consul general. "Under peculiarly trying circumstances they have made us appreciate vividly how valuable an asset to a great commercial nation is the existence of a class of stalwart, sober and self-reliant seafaring men."

CONTRACTS FOR 30 STEEL CARGO SHIPS AWARDED TO JAPANESE YARDS BY U. S. SHIPPING BOARD

380,000 TONS THE TOTAL TO DATE

Board Had Already Chartered 150,000 Tons of Shipping and Purchased Another 127,000 Tons—Will Provide Steel Necessary.

The Shipping Board authorizes the following:

Following the conclusion of an arrangement with the Kiangnan Dock & Engine Co. of Shanghai, whereby that company is to build 120,000 tons of steel steamships for the United States Shipping Board, it was announced yesterday that contracts for 30 additional steel cargo steamships had been awarded to Japanese shipyards.

The yards which have been awarded the contracts and the number of ships which they are to build is as follows:

One cargo ship, Asahi, Osaka, Japan.
One cargo ship, Fujinigata, Osaka, Japan.
Two cargo ships, Harima Co., Aici, Japan.
Two cargo vessels, Ishikawajima, Tokio, Japan.
Five cargo ships, Kawasaki, Kobe, Japan.
One cargo ship, Ritta, Osaka, Japan.
Three cargo vessels, Yokohama, Japan.
Two cargo vessels, Asano, Tsurumi, Japan.
Three cargo vessels, Uraga, Japan.
Two cargo vessels, Mitsue Bussan, Uno, Okayama, Japan.
Two cargo vessels, Mitsubishi, Nagasaki, Japan.
Two cargo vessels, Uchida, Kawasaki, Japan.
Four cargo vessels, Osaka, Japan.

150,000 Tons Already Chartered.

The Shipping Board had already chartered 150,000 tons of shipping from Japan and purchased another 127,000 tons. Some of the ships will be equipped with guns and gun crews and put immediately into the over-seas service to carry men and supplies to France. Others will be used in the coastwise and South American trades.

Total contracts now let to Japanese shipbuilders provide for 380,000 tons of shipping, including 50 cargo carriers. These will cost approximately $78,000,000, of which about $20,000,000 has been expended. The estimate of the Shipping Board, which was submitted to the Appropriations Committee of the House, asked for an additional $55,000,000 for this purpose. The Shipping Board had also permitted Japan to obtain 100,000 tons of steel plates, and will now provide 35,000 tons for this new construction.

CAPT. LIPSNER LEAVES ARMY TO HEAD AERIAL MAIL SERVICE

The Post Office Department authorizes the following:

Capt. B. B. Lipsner, United States Army, has resigned his commission in the Army to accept the appointment as Superintendent, Aerial Mail Service, in charge of operation and maintenance, effective July 15. Capt. Lipsner has been recognized as an authority on transportation and mechanical maintenance. He has assisted the Post Office Department in the installation of its Aerial Mail Service. He was appointed to the Army May 15, 1917, from Chicago, which has been his home. Capt. Lipsner's headquarters as Superintendent of the Aerial Mail Service will be in Washington.

Statement by Capt. Lipsner.

Capt. Lipsner makes the following statement:

I have accepted the honor of being appointed the first Superintendent of the Aerial Mail Service because I feel confident of its future results as a speedier mode of mail delivery. The extension of the service is sure to follow when the personnel becomes fully established.

"The position of Superintendent, Aerial Mail Service, was tendered Capt. Lipsner," said Second Assistant Postmaster General Praeger, "in anticipation of the ultimate taking over of this service by the department, with its own equipment and personnel. Capt. Lipsner is thoroughly conversant with the administration of aerial service, and is one of the best authorities on motor transportation in this country. Through the kindness of the military authorities he has already been able to render the department valuable assistance in developing the Aerial Mail Service."

PLAN TO CONSERVE MATERIALS IN MAKING REFRIGERATORS

The War Industries Board authorizes the following:

On account of the shortage in the supply of sheet steel and in order to meet increased needs of the Government for certain other materials, the war service committee of the refrigerator manufacturers of the United States has been in conference with representatives of the War Industries Board to work out a program of conservation and substitution of materials. The committee's report of a plan to eliminate various sizes and styles of refrigerators for the purpose of saving not only materials, but labor and capital as well, will be submitted within a few days to the Conservation Division of the War Industries Board.

It is expected that the industry will concentrate production on certain standardized sizes and styles to be agreed upon and eliminate surplus styles that consume material the Government requires. This will make it possible to provide the refrigerators that are required for the preservation of food, with the maximum economy of materials.

The war service committee of the refrigerator manufacturers expressed the desire of the industry to comply with the requirements of the Government in its conservation program.

ADDITIONS AND MODIFICATIONS TO EXPORT CONSERVATION LIST

The War Trade Board authorizes the following:

The War Trade Board announces, in a new ruling (W. T. B. R. 167), the addition of the following commodities to the export conservation list, effective July 16, 1918:

Beverages, nonalcoholic, containing sugar.

Films, as follows: Moving-picture and other photographic films, unexposed, exposed but undevoloped, and exposed and developed. (Individual licenses not required to Canada and Newfoundland for exposed and developed films.)

Moving-picture and other photographic films, unexposed, exposed but not undeveloped, and exposed and developed. (Individual licenses not required to Canada and Newfoundland for exposed and developed films.)

Nonalcoholic beverages containing sugar.

Phosphorous sesquisulphide, X–2.

Photographic films, including moving-picture films, unexposed, exposed but undeveloped, and exposed and developed. (Individual licenses not required to Canada and Newfoundland for exposed and developed films.)

Photographic plates, unexposed, exposed but undeveloped, and exposed and developed. (Individual licenses not required to Canada and Newfoundland for exposed and developed plates.)

Plates, photographic, unexposed, exposed but undeveloped, and exposed and developed. (Individual licenses not required to Canada and Newfoundland for exposed and developed plates.)

Sesquisulphide, phosphorous, X–2.

Stearin, X–1.

The modifications to the export conservation list, as shown below, have been adopted, also effective July 16, 1918. Items listed in column 1 include the new modifications and should be substituted for the corresponding items in column 2:

Column 1. [Effective July 16, 1918.]	*Column 2.* [Export conservation list, May 17, 1918.]
Medicines, patent or otherwise, if containing any ingredient on export conservation list other than alcohol.	Medicines, patent.
Patent medicines, if containing any ingredient on export conservation list other than alcohol.	Patent medicines.
Proprietary compounds, if containing any ingredient on export conservation list other than alcohol.	Proprietary compounds.

OCEAN FREIGHT RATE ON RAW COTTON SHIPPED TO PORTUGAL

The War Trade Board issues the following:

The attention of shippers and others concerned is called to a ruling of the War Trade Board (W. T. B. R. 165), effective immediately, which provides that hereafter all licenses for the exportation of raw cotton to Portugal shall be issued only upon the condition that the cotton shall be carried from the United States to Portugal at a freight rate not exceeding $9.25 per 100 pounds gross weight, including primage, on standard bales, and $6.25 per 100 pounds gross weight, including primage, on high density bales. Shippers of cotton to Portugal must, therefore, conform to the following procedure:

On every shipment of raw cotton to Portugal the Shipper's Export Declaration which accompanies the goods to the customs inspector on the dock, shall have attached thereto the original dock permit or a true copy of the same, bearing an indorsement signed by the steamship company to the effect that the rate of freight to be paid on that particular shipment will not exceed the rates as stated above.

Customs inspectors will not allow any raw cotton destined to Portugal to be delivered at any dock against license dated July 13, 1918, or later, unless a dock permit, indorsed as prescribed above, is presented to them. Such indorsed dock permits thereafter are to be made a part of the records of the War Trade Board.

Hereafter all licenses for the exportation of all raw cotton to Portugal shall be issued upon the condition that the cotton shall be carried from the United States to Portugal on steamship.

8-HOUR LAW SUSPENDED TO RUSH ALASKAN RAILROAD

EXECUTIVE ORDER.

Under authority contained in act of Congress approved March 4, 1917 (39 Stat., 1192), wherein it is provided:

That in case of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours' labor in any one day of persons engaged upon work covered by contracts with the United States: Provided, further, that the wages of persons employed upon such contracts shall be computed on a basic day rate of eight hours' work, with overtime rates to be paid for at not less than time and one-half for all hours of work in excess of eight hours, it is hereby ordered that during the present national emergency the provisions of law limiting the hours of daily service of mechanics and laborers to eight hours in any one day, on work under contracts to which the United States is a party, are suspended with respect to contracts in connection with the construction and maintenance of the Alaskan Railroad now being built and operated by the United States under the act of Congress approved March 12, 1914 (38 Stat., 305), wages and overtime rates to be computed and paid in the manner provided by said act of March 4, 1917, supra.

WOODROW WILSON.

THE WHITE HOUSE, *July 10, 1918.*

MAJ. HOYT TRANSFERRED.

Special Orders, No. 156:

361. Maj. Charles S. Hoyt is relieved from his present duties and will report in person to the commanding general, 8th Field Artillery Brigade, for assignment to duty as brigade adjutant.

ALIEN PROPERTY CUSTODIAN CREATES A SELLING ORGANIZATION TO DISPOSE OF ALL GERMAN-OWNED CORPORATIONS

Will Have Complete Control Over 140 Concerns Taken Over by Mr. Palmer Under "Trading With the Enemy Act"—Forty Now Ready for Sale—Advisory Committee.

A. Mitchell Palmer, Alien Property Custodian, yesterday announced the formation of a selling organization, which as a part of the Alien Property Custodian's office will sell all German-owned corporations, etc., taken over by him under the "trading with the enemy act." This selling organization will have complete control over the sale of the 140 German-owned corporations now in the custody of the Alien Property Custodian, the value of which is approximately $250,000,000. Forty of these German-owned corporations, with a capitalization of over $100,000,000, are now ready for sale. The remaining 100 and all other corporations hereafter taken over will be sold as soon as the new organization can make them ready for sale.

The Selling Organization.

In addition to the Alien Property Custodian the new selling organization will consist of a Washington committee, an advisory committee in New York, a sales manager in New York, representatives of the Alien Property Custodian in charge of each property to be sold (called local representatives), and an attorney representing the Alien Property Custodian in respect of each property to be sold (called local attorney).

The advisory committee named by Mr. Palmer consists of the following:

Chairman, Otto T. Bannard, chairman of the board of directors of the New York Trust Co., president of the Yale Club, and a member of the Yale Corporation.

George L. Ingraham, former presiding justice of the appellate division of the New York State supreme court.

Cleveland H. Dodge, well known New York banker and business man; classmate of President Wilson at Princeton; and prominent in civic and philanthropic work in New York City.

Benjamin H. Griswold, jr., head of the banking firm of Alexander Brown & Sons, of Baltimore.

Ralph Stone, president of the Detroit Trust Co. Mr. Stone was formerly director of the Bureau of Trusts of the Alien Property Custodian's office, the work of the bureau having been organized under his supervision.

The Washington Committee.

The Washington committee consists of members of the Alien Property Custodian's organization as follows:

Chairman, Lee C. Bradley, general counsel.

Bradley W. Palmer, associate general counsel.

Homer A. Dunn, director of bureau of audits.

J. Davis Brodhead, chief of department of corporation management.

Jos. A. Bower, chief of general business department.

George P. Wagner will act as secretary of the Washington committee, whose office will be at Sixteenth and P Streets NW., Washington.

The Sales Manager.

The sales manager of the selling corporation will be Jos. F. Guffey, of Pittsburgh, formerly general manager of the Philadelphia company and a prominent oil operator. Mr. Guffey is now president of the Natural Gas Association of America, and was formerly on the petroleum committee of the Council of National Defense. Mr. Guffey's headquarters will be in the New York office of the Alien Property Custodian at 110 West Forty-second Street.

Ralph J. Baker, of Harrisburg, Pa., and Spier Whitaker, of Birmingham, Ala., assistants general counsel to the Alien Property Custodian, have been assigned as counsel for the sales manager and Washington committee, respectively, with headquarters at Washington.

The Washington committee will prepare the German-owned property for sale.

Purpose of Advisory Committee.

The purpose of the advisory committee is to give the Alien Property Custodian appropriate and adequate advice and recommendations with regard especially to—

(1) The advisability or propriety in the public interest of selling any specific property.

(2) The manner of selling any specific property, with recommendations as to any special conditions or details respecting the same.

(3) The minimum or upset price, and whether or not the same should be announced either before or at the sale.

(4) The manner of advertising, and any special class of purchasers to be invited to bid.

(5) The acceptance of the highest bid, or recommendations to reject all bids, with the reasons therefor. Under the act of Congress the Alien Property Custodian may reject all bids, but only on the order of the President, stating the reasons therefor. The reasons must be sufficient to justify the President in making such order.

The two principal considerations for the advisory committee concern—

(1) The possibility of favoritism or unfairness in the sale.

(2) The qualifications of the purchaser.

The sales manager shall have charge of the actual sale of the German-owned corporations and will supervise all the details. He will work in cooperation with the advisory committee and with the Washington committee in all things connected with the sale and in all matters that may arise before the property is actually turned over to the purchaser.

Sales at Public Auction.

Sales will be made at public auction whenever it is possible to do so and unless the advisory committee recommend different procedure. This applies not only to sales by the Alien Property Custodian, but also to sales by and in the name of corporations controlled by him.

Under no circumstances will any person in the employ or connected with the organization of the Alien Property Custodian be permitted to bid for or purchase any property, or be interested directly or indirectly in any such purchase, or in any corporation or syndicate interested therein. This provision also applies to local representatives and local attorneys in the sales of properties in respect of which they have represented or acted for the Alien Property Custodian.

The expenses of each sale, which shall include all expenses and costs of every kind, shall be paid out of the funds of the specific property sold, or out of the purchase money received from such sale, or deducted from the purchase price.

WALNUT NEEDED FOR AIRPLANE PROPELLERS AND GUNSTOCKS

The War Department authorizes the following statement from the Bureau of Aircraft Production:

More American walnut is needed for airplane propellers and gunstocks. During the four years' test in the present war this wood has proven to be the best material for the manufacture of the above articles.

The Government needs all the walnut that can be secured during the continuance of the war, but it does not buy the wood direct, as not all of it can be used for the above purposes. Mills holding Government contracts for gunstocks or propellers are anxious to purchase walnut trees and logs, and the Government urges the owners of trees or logs to sell them to the sawmills. Owing to their inability to purchase sufficient walnut logs, the sawmill proprietors have not been able to supply the present requirements of this Government and the allies.

Every Tree Counts.

"Fight with your walnut trees," is the new slogan of the Hardwood Section, Bureau of Aircraft Production, and the Small Arms Section, Ordnance Department. Half a dozen trees will provide lumber for a propeller and supply gunstocks for a platoon of infantry. The lack of one plane in the air or a platoon in the front line might lose a battle. Every tree counts.

If you have walnut trees 12 inches or more in diameter, write to Capt. R. L. Oakley, Production Division, Small Arms Section, Ordnance Department, Sixth and B Streets, Washington, D. C. He will advise you where you can sell your walnut at a fair price.

20 TROOPSHIPS TO BE BUILT ON THE CALIFORNIA COAST

The Shipping Board authorizes the following:

During the week ending July 5 contracts for 20 troopships were awarded to the Bethlehem Shipbuilding Corporation, of Alameda, Cal. During the same period the Shipping Board contracted for the building of three barges, the award going to the Union Bridge & Construction Co., of Morgan City, La.

Official U. S. Bulletin

Published Every Week Day, Except [illegible], by the Committee on Public Information.

Office, No. 10 Jackson Place, Washington, D. C. Tel. Main 3000.

Copies of the Official Bulletin will be furnished without charge to all newspapers and periodicals desiring to print it. Application should be made to any post office in the United States or to the publication office daily, for the benefit of the public, under order of the Postmaster General, to exhibits of the United States Government and all governmental institutions engaged in the dissemination of official news.—EDWARD S. BELLAMY, *Editor.*

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Food Price Increased 63 Per Cent in Five Years

The Department of Labor authorizes the following:

The retail price of food for the United States on May 15, 1918, showed an increase of 3 per cent over the price of April 15, 1918, according to a report of the Bureau of Labor Statistics to be published in the forthcoming Monthly Labor Review.

A comparison of prices as between May 15, 1918, and May 15, 1917, shows that food as a whole increased 5 per cent. Seven of the 25 articles recorded showed a decline in the retail price. Potatoes declined 64 per cent; onions, 35 per cent; flour, 24 per cent; sugar, 9 per cent; beans, 7 per cent; cheese, 1 per cent; and coffee, less than 1 per cent.

Ten articles show an increase of 20 per cent or more. Plate boiling beef increased 32 per cent; corn meal, 30 per cent; hens, 29 per cent; milk, 26 per cent; and pork chops, 20 per cent.

A comparison for the five-year period shows that food was 63 per cent higher in May, 1918, than in the same month of 1913. Every article increased 38 per cent or over. The least increase, of 38 per cent, was shown in potatoes. Three articles show an increase of 100 per cent or more.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique,
No. 60.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 13, 1918.

Section A.—There is nothing of importance to report.

Section B.—In the Chateau Thierry region, July 10 to 11, there was activity on both sides, mostly that of infantry. A German patrol numbering 40 and equipped with light machine guns opened fire on the American lines near Torcy, and was driven back leaving at least 3 killed. Our own patrols were very active. German artillery fire was much lighter than on the previous day. Few German airplanes were in operation. A patrol of 8 German planes attacked an American photographic mission at 8 o'clock in the morning 7 kilometers behind the German lines.

The Marne sector experienced a decrease in enemy artillery fire and aerial activity and a slight increase in transport movement July 10 to 11. Our artillery fire continues very much in excess of hostile fire. Fires and explosions in the vicinity of Jaulginne were evidently caused by our artillery. An enemy patrol of 6 men was fired on by our troops and disappeared.

The Lorraine sector was unusually quiet, July 9 to 10, with a decrease in enemy's rifle and machine-gun fire and aerial activity. There was an abnormal movement of men and indications of work in his rear areas.

In the Woevre, July 8 to 9, enemy machine gun and rifle fire were very active along the entire sector. The enemy's antiaircraft batteries heavily shelled the allied planes which persistently patrolled the enemy's lines all day. German aerial activity was slightly increased.

In the Munster sector, July 10, German machine-gun fire was above normal, artillery and trench mortar fire being exceptionally light. There was no aerial activity. Our patrols were very active in reconnoissance.

The Altkirch sector was very quiet July 9 and 10.

American Official Communique,
No. 61.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 14, 1918.

Section A.—Aside from artillery fighting of moderate intensity in the Vosges there is nothing of importance to report.

Section B.—In the Chateau Thierry region July 11 to 12 there was moderate activity, but no marked developments. The German artillery fire somewhat increased, especially on the American front lines. There was increased circulation of men and trucks in the German rear areas. There was very little aerial activity. There was a patrol encounter, with an exchange of shots between an American patrol and German ambush patrol. Our artillery was active on moving groups in the German rear areas and in reprisal fire.

In the Marne sector, July 11 to 12, moderate activity continued. The enemy's artillery fire again was greatly exceeded by our own. Some of his patrols, which attempted to cross the river, were driven back. German airplanes were fairly active, but balloons were very quiet.

In the Munster sector on July 11 no unusual developments occurred. Two German patrols which approached our trenches were driven off. The German machine-gun and trench-mortar fire was somewhat above the average.

In the Thann sector, on July 11, the Germans attempted a raid in the Hilsenfurst area at 3 o'clock in the morning after artillery preparation. They were driven off with losses, failing to reach even our wire. German artillery fire was otherwise light. It included some sneezing gas. German airplanes were unusually active for this sector. Our patrols were active, without incident.

In the Altkirch sector, on July 11, there was no unusual activity except numerous hostile airplanes. Of these, two attacked an American balloon, but were driven off by two French planes. Patrols were active on both sides, without incident.

In the Woevre, on July 9 to 10, everything was quiet. American artillery scattered a German working party.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 13, 1918.

RECEIPTS.

Customs receipts	$671,717.85
Internal-revenue receipts:	
Income and excess-profits tax	5,984,731.64

Total	1,555,704,855.45

Are you "doing your bit" in saving food for our allies and our soldiers and sailors?

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

Both Houses of Congress yesterday began their midsummer vacation. Under an agreement reached by each House independent of the other three-day recesses will be taken, a so-called "gentlemen's agreement" providing that no business shall be transacted other than the merest routine and the reading and approval of the journal. Adjournments will be taken each Monday and Thursday on the part of the Senate until August 26 and by the House until August 19. The President pro tempore of the Senate and Speaker Clark yesterday signed the resolution giving the President authority to take over the telegraph, telephone, cable, and radio lines or systems, and it was immediately sent to the President for his approval.

Senator Gore undertook to make a speech by way of criticism of the veto of the agricultural appropriation bill on account of the amendment increasing the guaranteed price of wheat to $2.40 a bushel, but after he had been speaking a short time Senator Ashurst made the point that the delivery of the speech was business and violated the agreement under which the Senate bound itself to proceed when the unanimous-consent arrangement was reached Saturday night. The presiding officer so held, and the discussion ended.

Madame Bochkarova, who was in command of the woman's "Battalion of Death" in the Russian Army, yesterday afternoon addressed a considerable number of Senators in the marble room through the medium of an interpreter. She made a plea for military aid for Russia and urged that at least 100,000 American troops be sent into that country by way of Vladivostock.

HOUSE.

Prof. W. F. Taussig, chairman of the Tariff Commission, conferred with the Ways and Means Committee yesterday, which is now meeting in executive session for consideration of the war-revenue bill. Prof. Taussig recommended a "padlock clause" in the new bill which would be designed to prevent escape of revenue while the measure is under consideration and the withdrawal of large quantities of merchandise ahead of the date when new legislation goes into effect for the express purpose of avoiding the payment of the taxes that the committee may recommend. Under the system proposed by the head of the Tariff Commission the taxes or duties proposed in the new bill would become effective as soon as the bill is introduced by the committee. Taxes, of course, can not be collected until the bill becomes law, but dealers and importers would be required to give bond for payment of taxes on all goods moved from the moment the bill is introduced. This system is in effect in some European countries, and the argument was made before the committee that it prevents the loss of large sums of taxes and revenues.

Representative McClintic, of Oklahoma, and Knutson, of Minnesota, read letters in the House from families of soldiers killed in the war, tending to show that certain Washington lawyers had offered to collect the amounts due for allowances and back pay that may be due for 20 per cent of the amount collected. A demand was made for a resolution of investigation, but no action was taken yesterday.

BETHLEHEM STEEL TO GET $20,000,000 FEDERAL LOAN

The Treasury Department authorizes the following:

Upon the request of the Director of Steel Supply of the War Industries Board, the War Finance Corporation, in order to assist in meeting the urgent requirements of the country for steel and certain other war products, has agreed to make an advance to the Bethlehem Steel Corporation of approximately $20,000,000.

Will Complete Extensions.

The proceeds of this advance will be used for the completion of certain contemplated extensions for coke ovens, blast furnaces, plate mills, etc., at the Sparrows Point plant of the Steel Corporation. These extensions will round out and materially increase the production of this plant. It is expected that the work will be completed within one year. The War Finance Corporation will receive for this advance serial notes of one to five year maturities, part of a total authorized issue of $50,000,000.

Notes Secured by Steel Bonds.

The remainder of this issue is to be underwritten by a syndicate to be formed by bankers for the Bethlehem Steel Corporation. The notes will be ultimately secured by bonds of Bethlehem Steel Corporation of a par value equal to 140 per cent of the notes. These bonds are in turn to be secured by direct mortgage upon the principal steel properties controlled by the Bethlehem Steel Corporation through its subsidiaries, and also indirectly, through the pledge of securities, upon other properties controlled by the Bethlehem Steel Corporation.

Belgium Gets Additional U. S. Credit of $1,680,000; Grand Total, $6,268,270,000

The Treasury Department to-day announced the extension of an additional credit of $1,680,000 to Belgium.

The totals to date are:

Belgium	$133,480,000
Cuba	15,000,000
France	1,765,000,000
Great Britain	3,345,000,000
Greece	15,790,000
Italy	660,000,000
Russia	325,000,000
Serbia	9,000,000
Grand total	6,268,270,000

MAJ. NORTH TRANSFERRED.

Special Orders, No. 155:

332. Maj. Clarence L. North, Quartermaster Corps, National Army, is relieved from his present duty and will proceed to Washington, D. C., and report to the Acting Quartermaster General of the Army for assignment to duty with the motor transport service.

WARNING TO MANUFACTURERS WHO COMPETE FOR LABOR

The War Industries Board authorizes the following:

At its meeting July 11 the War Industries Board adopted the following resolution:

Be it resolved by the War Industries Board:

First. That the practice of manufacturers using competitive peace-time methods in the procurement of labor, resulting in the withdrawal of labor from war industries, is strongly disapproved, and henceforth this board, through its Priorities Division, will in proper cases withhold priority assistance from employers who persist in pursuing such methods.

Second. That a copy of this resolution be certified to the chairman of the War Labor Policies Board and to all other governmental agencies employing or dealing with labor and that it be given general publicity.

HONOR RED CROSS WORKERS FOR SERVICES TO SERBIANS

The Red Cross makes public the following:

The State Department has transmitted to the War Council of the American Red Cross a communication received from the Serbian Legation in Washington, advising the department that by a decree of His Royal Highness the Prince Regent of Serbia, Alexander, decorations had been bestowed on several Red Cross officials, for services rendered to Serbians in the war during 1917.

On the following the royal order St. Sava of the Third Class has been bestowed: H. C. Beatty, Russel Greeley, and Rev. Dr. Watson.

The Royal Order St. Sava of the Fourth Class has been bestowed on Horace Stanton, American delegate at the Mission de Coordination des Secours aux Armees d'Orient, and Geoffrey Dodge, secretary of the division of help to hospitals at the American Red Cross.

The courtesy displayed by the Serbian Government, as above stated, has been made a matter of formal record in the minutes of the Red Cross War Council.

RED CROSS GAINS $1,000.

The United States Food Administration issues the following:

The National Mercantile Co., of Philadelphia, has been ordered to close its branch store at Daisytown, Pa., for a period of 30 days and to suspend all sales of wheat flour for 30 days in all of its stores in Washington County, Pa., for violation of the United States Food Administration regulations. The company has also agreed to contribute $1,000 to the Red Cross as a part of its penalty. The order becomes effective July 15.

Violations, which officers of the company admitted, consisted of repeated sales of flour at a figure in advance of the market price, selling excessive quantities of flour and without the required amount of substitutes. The company is said to do a business of about $500,000 a year.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Joseph Marion Griffitts. Mrs. Landora Griffitts, 724 Penn Avenue, Charleston, W. Va.

Orrin H. Jones. Orrin A. Jones, R. F. D. No. 28, Lyons, Mich.

Clarence M. Law. Mrs. Emma I. Law, Rolette, N. Dak.

Harry M. Leonard. Miss Katherine Leonard, 199 Pearl Street, Paterson, N. J.

Fred W. McEnany. Mrs. A. V. McEnany, Station A, Vancouver, Wash.

John A. McInnis. Mrs. Mary McInnis, R. F. D. No. 5, Eau Claire, Wis.

Thurston McSwain. Walter S. McSwain, R. F. D. No. 1, Blacksburg, S. C.

James D. Matchett. Mrs. Maggie Strop, Glenwood, Iowa.

H. G. Niehaus. Mrs. L. Niehaus, 34 Sweet Street, Grand Rapids, Mich.

Howard Pferdeort. Mrs. Elizabeth Pferdeort, 228 Forty-second Street, Pittsburgh, Pa.

Leny Sabatinno. Mrs. Anna Sabatinno, 206 Chestnut Street, Ambler, Pa.

Conway Skillicorn. J. T. Jones, 1418 North Central Park Avenue, Chicago, Ill.

Wadislow Skrouwski. Mrs. Stella Ragalaska, 2601 Market Street, Wheeling, W. Va.

Homer Steele. Will Steele, Chanute, Kans.

Prisoner.

Lieut. Herbert A. Wardle. Mrs. J. Wardle, 1364 Vinton Avenue, Memphis, Tenn.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	42
Died of wounds received in action	10
Wounded in action (severely)	17
Missing in action	18
Total	87

Killed in Action.

Sergt. Maj. William J. Geary. Claudia E. Geary, mother, 47 T Street NW., Washington, D. C.

SERGEANTS.

Daniel E. Donahue. John F. Donahue, brother, 7-A Vinton Street, South Boston, Mass.

Rex W. Ish. Rosa Ish, mother (present address unknown).

Clement C. Kite. Frances V. Kite, wife, 7426 Boyer Street, Mount Airy, Philadelphia, Pa.

CORPORALS.

Herman Grollman. Marie Grollman, mother, 179 Madison Avenue, Newark, N. J.

Harry Hillix. Jeannette Branson, mother, 522 Harrison Street, Fredonia, Kans.

Joseph G. W. Klapp. Katherine Klapp, mother, 199 Chadwick Avenue, Newark, N. J.

Joseph W. Korskey. Mike Korskey, brother, 1227 Hamilton Street, Grand Rapids, Mich.

Jack Napp. Rebecca Napp, mother, 424 Reed Street, Philadelphia, Pa.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. MARINES OVERSEAS

Ernest A. Neil. Munsel Neil, mother, 306 Berkshire Avenue, San Antonio, Tex.
John Semian. Anna Semian, mother, 538 Thomas Court, Taylor, Pa.
Frank Sidders. Samuel Sidders, father, Yardville, N. J.
Benjamin F. Turner. Lizzie Turner, mother, Waco, Tex.
Drummer John A. Overland. Albert G. Overland, father, 423 Steven Street, Camden, N. J.

PRIVATES.

Henry Bemberg. William Bemberg, father, 2046 Howe Street, Chicago, Ill.
Paul G. Glandin. Harvey C. Glandin, father, R. F. D., Amherst, N. H.
Joseph B. Brown. George D. Brown, father, 813 Forest Street, Lynchburg, Va.
Ernest L. Buchheister. Oscar Buchheister, father, 910 Fullerton Avenue, Chicago, Ill.
William E. Burton. Emma Burton, mother, 4807 East Seventh Street, Kansas City, Mo.
George E. Cleveland. Mary C. Cleveland, mother, East Greenwich, R. I.
James D. Dougherty. Mary D. Dougherty, mother, 934 Beach Avenue, St. Louis, Mo.
George E. Duclo. John Duclo, father, Cascade, Colo.
Hugh Fackrell. Eliza Fackrell, mother, Alridge, Idaho.
Herman E. Fischer. George A. Fischer, father, O'Fallon, Ill.
Harvey J. Hagan. Christina Hagan, mother, 3432 North Ninth Street, St. Louis, Mo.
Andrew J. Higgins. Bettie Higgins, mother, Ennice, N. C.
Donald C. Horton. Gilbert L. Horton, father, Litchfield, Minn.
Thomas H. Joyce. John J. Joyce, father, 208 F Street, South Boston, Mass.
Realis C. Kiestler. Dona Eudy, mother, Cypress, Ill.
Carl E. Marcus. Thomas Lay, friend, Tyrone, Mo.
George E. Minerd. Armanda Lingelbaugh, aunt, 428 Eleanor Street, Pitcairn, Pa.
Lyndon C. Nelson. Chalmer Nelson, father, 103 French Avenue, Brockton, Mass.
Eric D. Quinn. Elizabeth C. Quinn, mother, 124 Glenwood Avenue, Buffalo, N. Y.
Walter Rosenspire. Anna Rosenspire, mother, 168 Macy Avenue, Brooklyn, N. Y.
Harry Rubinson. Sarah Rubinson, mother, 105 Diamond Street, Philadelphia, Pa.
Van Rensselear Skidmore. Mrs. Van Rensselear Skidmore, wife, 1055 Lincoln Place, Brooklyn, N. Y.
Clyde H. Slider. Thornt Slider, father, Davis, W. Va.
Henry C. Snider. Ira C. Snider, father, 413 Stealy Avenue, Clarksburg, W. Va.
Walter J. Spearing. Ellen Spearing, mother, 1532 North Fifty-fourth Street, Philadelphia, Pa.
Robert S. Spencer. Julia Spencer, mother, 133 Ross Street, Batavia, N. Y.
Eugene Wallace. Anna Wallace, mother, Fremont, Wis.
Sidney Weller. Abe Weller, brother, 1195 Twenty-eighth Street, Milwaukee, Wis.

Died of Wounds.

First Sergt. Simon D. Barber. Margaret Barber, mother, Rockport, Tex.
Sergt. Fred Belcher. Minerva Belcher, mother, General Delivery, Pe Ell, Wash.
Corpl. Bert E. Ames. Louis H. Ames, father, Americus, Kans.

PRIVATES.

John D. Fehr. Florin Fehr, brother, 6741 Palatin Avenue, Seattle, Wash.
Harry F. Hathaway. Seth Hathaway, father, 90 Pembroke Street, Rochester, N. Y.
Lewis G. Humphries. Ida Keller, sister, 1426 Madison Avenue, Indianapolis, Ind.
Frank W. Kemble. Allen Messler, uncle, Rutherford, N. J.
Charles Kryszewski. Stefania Kryszewski, mother, 20 Germania Avenue, Jersey City, N. J.
Benjamin R. Tyson. Anna Swenson, cousin, 434 Forty-seventh Street, Brooklyn, N. Y.
George E. Williams. Eva Williams, mother, 1381 Trumbull Avenue, Detroit, Mich.

Wounded Severely.

Sergt. Claude C. Edwards. Myrtle I. Olighine, sister, Sallisaw, Okla.

CORPORALS.

Henry H. Kelley. Annie E. Kelley, mother, Kerrville, Tenn.
George Fleischer. Bettie P. Winant, mother, Port Richmond, Staten Island, N. Y.
Arlynn M. Price. Mary E. Price, mother, 307 West Pearl Street, Abdingdon, Ill.
Edward R. Anderson. Mollie Anderson, mother, R. No. 6, Cedartown, Ga.
Lyle G. Stephenson. Frank Stephenson, brother, Lebanon, Ind.
Odin A. Thomasen. Emanuel C. Thomasen, father, 2155 Summerdale Avenue, Chicago, Ill.
Stanley R. Williams. George W. Williams, father, Osawatomie, Kans.

PRIVATES.

George W. Barker. Anna Brosman, aunt, 2805 Warren Avenue, Chicago, Ill.
Joseph M. Beach. Zora Ruggierro, sister, 1420 Arden Avenue, Los Angeles, Cal.
Edward K. Hopkins. Octavy Hopkins, mother, Crescent, Ohio.
John A. Maxfield. Nancy J. Maxfield, mother, Palmyra, Ill.
Chauncey F. Morrison. Anna R. Morrison, mother, 1102 Johnson Street, Keokuk, Iowa.
Russell J. Mullins. Emma A. Mullins, mother, Farmington, Mo.
Harry B. Scott. Harry B. Scott, father, 10500 Aberdeen Street, Chicago, Ill.
Irvin W. Sokoll. Clara G. Sokoll, sister, 714 Michigan Avenue, Detroit, Mich.
Herbert C. Tuttle. Myra W. Tuttle, mother, Kingfisher College, Kingfisher, Okla.
Mark W. Wade. James A. Sharp, friend, Parsons, Kans.

Missing in Action.

CORPORALS.

Anthony S. Kowalak. Mary Gielda, sister, 1124 Twenty-fourth Street, Bay City, Mich.
Joseph C. Toulson. Margaret Toulson, mother, 88 Fifth Street, Salem, N. J.
Herbert McK. Vest. Henrietta Vest, mother, Kerrs-Creek, Va.

PRIVATES.

Arthur G. Colvin. Rose Colvin, mother, 649 Baden Avenue, St. Louis, Mo.
James T. Cotter. Mary Cotter, mother, 1822 Elston Avenue, Chicago, Ill.
Karl A. Dupes. D. W. Dupes, father, 3446 Fur Street, Indiana Harbor, Ind.
William F. Elderson. Mary Metzger, mother, 9515 Fuller Avenue, Cleveland, Ohio.
Robert L. Ely. J. D. Ely, father, 1005 Kirby Avenue, Chattanooga, Tenn.
George D. Gaddis. Esther Gaddis, mother, R. F. D. No. 5, Dahlonega, Ga.
Benjamin E. Henderson. Charles Henderson, father, 6400 Parnell Avenue, Chicago, Ill.
Jewell T. Hill. Mrs. M. V. Hill, mother, Jefferson, Ga.
Livingstone Latham. Olga Latham, mother, 723 Thayer Street, Ann Arbor, Mich.
Alban B. Lewis. Clara Lewis, mother, 6546 Germantown Avenue, Philadelphia, Pa.
William J. Obrien. John Obrien, father, 6701 East Ledge Street, Cincinnati, Ohio.
David E. Proctor. Catherine Proctor, mother, 36 Third Street, East Cambridge, Mass.
Alvin H. Schlumpberger. Alfred A. Schlumpberger, father, 100 South Franklin Street, New Ulm, Minn.
Charles W. Steinkamp. Henry Steinkamp, father, 829 Columbus Avenue, New York, N. Y.
John W. Winston. Ada E. Winston, mother, Hollyford Road, Memphis, Tenn.

FIRST HOUSING CONTRACT LET.

New York Concern to Build 85 Houses at Charleston, W. Va., for Labor Department.

The Department of Labor authorizes the following:

The Wills-Egelhof Co., of New York City, has been awarded the contract for the construction of eighty-five houses at Charleston, W. Va., by the Bureau of Industrial Housing and Transportation of the Department of Labor. This is the first contract for the erection of houses to be authorized under the general housing program which is being administered by the Department of Labor.

300 ENLISTED MEN IN MARINE CORPS BECOME LIEUTENANTS

The Navy Department authorizes the following:

Three hundred enlisted men of the Marine Corps were commissioned as second lieutenants at the graduating exercises of the Marine Corps officers' training camp at Quantico, Va., on July 15.

Gen. George Barnett, commandant of the corps, reviewed the student battalion. Gen. Charles H. Lauchheimer, adjutant and inspector, and Capts. Barrett and McConnell, aids-de-camp, were present at the exercises.

The new officers have completed a three months' course of intensive training. French and English instructors have given them first-hand information of the art of modern fighting. Military texts and lectures have been supplemented by mimic warfare.

The camp is the first of its kind held by the Marine Corps. The students were picked from the enlisted personnel as promising officer material by selection boards. Another class of 125 will graduate next month.

Of the total sent to Quantico 150 were college graduates, more than 200 had attended college from one to three years, and many others had had the experience of foreign service in the Marines. All had served as enlisted men and won promotion on merit.

The camp has been a model of its kind, a resort to discipline having been practically unnecessary from the beginning. It was opened April 24, and has been superintended by Maj. Presley M. Rixley, jr. It is the first of a series of similar camps required to fill the demand for 1,800 new commissioned officers in the corps.

SECRETARY OF NAVY COMMENDS TWO MEN FOR BRAVE CONDUCT

Secretary Daniels has commended Thomas Olsen, chief boatswain's mate, formerly on board the U. S. S. *Wakiva*, for the coolness, initiative and resourcefulness he displayed at the time of the collision which resulted in the sinking of the *Wakiva*, May 22.

The commanding officer reported that Olsen took a prominent part in rigging out the motor boats, getting men out from below, getting boats lowered and cleared, and that he stayed on board until everyone else was off the ship. Olsen enlisted at New York, N. Y., December 11, 1915; wife, Mrs. Matilda Olsen, Brooklyn, N. Y.

Secretary Daniels also has commended Ensign Elwood L. Houtz, United States Naval Reserve Force, for his presence of mind and bravery while serving on the U. S. S. *Corsair* as a coxswain, December 17, 1917.

During a heavy storm on that day two depth charges were washed overboard. Houtz discovered a depth-charge cable leading down into the lazaretto. Knowing that if a charge was rolling around below deck it might explode any moment, he gripped the cable and followed it until he found the explosive.

Houtz enlisted at New York, April 3, 1917, giving as his next of kin, father, Daniel Daily Houtz, Salt Lake City, Utah.

CHANGES IN MARGINS ALLOWED ON STORAGE BUTTER AND CHEESE

The Food Administration authorizes the following:

A number of changes have been made by the Food Administration in the maximum margins allowed over cost on cold-storage butter and on American or Cheddar cheese. The revised rules allow a little larger margins on small sales to take care of the small wholesale dealer.

According to the amended rules on cold-storage butter the maximum margin that may be taken on car lots is 1 cent a pound; on sales of 7,000 pounds or more, 1½ cents; on quantities between 3,500 and 7,000 pounds, 2 cents a pound; 700 to 3,500 pounds, 2½ cents a pound; 100 to 700 pounds, 3 cents a pound, and on sales less than 100 pounds, 3¾ cents a pound if conditions justify it.

Changes in Cheese Margins.

Similar changes have been made in the cheese margins. As the rules now stand a dealer may, if conditions warrant, add the following margins over his cost: Three-fourths of a cent a pound on carlot sales, 1¼ cents on sales of 7,000 pounds up to a carload, 1¾ cents on 4,000 to 7,000 pound sales, 2½ cents on sales of 1,000 to 4,000 pounds, 3 cents on sales between 100 and 1,000 pounds, and 3½ cents on sales less than 100 pounds.

These are the maximum margins that may be added. They are made wide to provide for exceptional cases where the cost of doing business is high. A dealer can not charge the limit given here if by doing so he makes an excessive profit.

Ordnance Chief Named for District of New York

The War Department authorizes the following statement from the Acting Chief of Ordnance:

George J. Roberts, of Richmond, Va., vice president and general manager of the Public Service Corporation of New Jersey, has been appointed ordnance district chief of the New York district. His offices in New York will be in the Albemarle Building, Broadway, at Twenty-fourth Street.

The appointment completes the list of 10 district chiefs who have general administrative charge of the 10 district offices and supervision of production of ordnance material by all contractors in each of the 10 districts into which the country has been divided.

DEATH OF MINISTER O'REAR.

The Department of State is informed by the American Legation at La Plaz, Bolivia, of the death of John D. O'Rear at 10 a. m., July 14.

Mr. O'Rear was born in Audrain County, Mo., March 21, 1870. His home was in Mexico, Mo., where he practiced law until 1913. He served as city counsel and prosecuting attorney of Audrain County. He was appointed envoy extraordinary and minister plenipotentiary to Bolivia June 26, 1913.

Thrive by thrift.

OPERATORS TO MAKE OPTICAL GLASS INSTRUMENTS NEEDED

School Established at Rochester, N. Y., by Ordnance Department to Train Workers.

The War Industries Board authorizes lzes the following:

Some of the fundamental items required by the Army and Navy in war times are technical in nature and would ordinarily not be thought of by the casual observer. Such an item is optical glass, which is used in telescopes and instruments that serve in the direction and control of firing large and small guns and in engineering and surveying operations. The artilleryman without fire-control instruments can accomplish little; the submarine without its periscope is of small value; the airplane without a camera can make no maps of the enemy's country. Therefore, optical glass is very essential in military instruments of different types.

Training School for Operatives.

The optical glass problem in this country has been solved and there is now available manufacturing capacity for optical glass sufficient to supply the Army and Navy; but the skilled labor necessary to work up this glass into lenses and prisms, and to assemble these into finished instruments is not adequate. This situation is so serious that unless steps are taken to provide this labor the soldiers and sailors will be only partially equipped with necessary fire-control instruments.

To meet this situation the Ordnance Department of the Army is establishing in Rochester, N. Y., a training school for operatives on precision optics. The school is to be located at the Mechanics Institute, in Rochester, and the large optical manufacturing firms in Rochester are providing instructors and aiding in the installation of the necessary grinding, polishing, and centering apparatus.

Courses in the different branches of this industry will be given and extended over a period of six weeks. A living wage will be paid to those who take these courses. On completion of the course the student will be in a position to enter one of the optical munition factories and be competent to perform certain of the operations required.

Work Suited for Young Women.

Work of this kind on the grinding, polishing, centering, assembly, and inspection of lenses and prisms for optical systems is not heavy, and is well suited for young women who desire to do their share in war-munitions work. Many young women in this country have been knitting and doing such other work as they are able to do to aid our soldiers and sailors, but have desired an opportunity for more responsible work. Not every woman can become a nurse, and there are still great numbers of young women whose energies are not fully utilized and who are not doing their bit toward winning the war. A good opportunity to do this is afforded by the optical training school at Rochester. Work in optical munitions is most urgent and is of highly responsible character. Optical munition workers are well paid and are contributing directly to American success in this war.

Two Schools In England.

In England two training schools of this nature were established some time ago and have proved most successful. As a result, the manufacture of optical munitions in England is well in hand, and many of the responsible positions are held by young women, not formerly employed, who are serving their country most effectively in this capacity.

Details regarding the courses of instruction can be obtained from Dr. Barker, president of the Mechanics Institute, Rochester, N. Y. The largest factories are located in Rochester, Buffalo, and New York, N. Y.; Boston and Southbridge, Mass.; Pittsburgh, Pa., and Dayton, Ohio.

CERTAIN DECISIONS CONCERNING LUMBER PRICES ANNOUNCED

The War Industries Board authorizes the following:

After conferences between some of the representatives of the Southern Pine Association and a subcommittee of the War Industries Board, certain decisions as to the interpretation of the price-fixing order made effective June 15 are announced.

One question raised concerned the price on Government orders placed prior to midnight on June 14, when the old schedule expired. It has been decided that on such orders the old price shall govern. On all future business, however, it has been agreed that whatever price rules at the time of shipment shall be applied.

Cash Discount Clause.

Another point raised was as to the interpretation of the cash discount clause in the new ruling. That has been interpreted to mean 2 per cent off for cash in 10 days.

On the question of a subcommittee to represent the manufacturers in the territory covered by the Southern Pine Association, the subcommittee of the War Industries Board expressed the opinion that a committee of five should be chosen to represent all the manufacturers of the district and not any association, group of mills, or any faction of the industry.

Large Railroad Orders.

On the question of placing large railroad orders through the bureaus, the subcommittee decided that such large orders as that recently placed for cars should pass through the regular channels of the War Industries Board and the bureaus, and that ordinary orders for railroad maintenance should go direct to the vendor.

Aside from the explanations here made, all the rules and regulations as to Southern pine lumber will remain unchanged until further notice.

APPOINTED TO BOARD.

Special Orders, No. 157:

190. Lieut. Col. William R. Taylor, Infantry, National Army, is detailed as a member of the board of officers appointed by paragraph 182, Special Orders, No. 150, June 27, 1918, War Department, vice Lieut. Col. William Taylor, judge advocate, National Army.

FOOD STORES ON LISTS OF SHIPS IN NEW YORK HARBOR REDUCED 250,000 POUNDS JUNE 1 TO 24

HAD EXCEEDED STANDARD RATION

Vessels Clearing for Certain Countries Permitted to Take Aboard Supplies of Some Articles for the Outward Voyage Only.

The Food Administration authorizes the following:

Because they had requisitioned a greater quantity of essential foodstuffs than those allowed under the Food Administration standard ration for ships, vessels in New York Harbor had 250,000 pounds of food cut from their lists from June 1 to 24 through action of the War Trade Board. In many cases these supplies had been actually taken aboard, and had to be sent ashore again when the slashing began.

Striking reductions were made in wheat, beef, pork, sugar, and butter. On the other hand, the amount of wheat substitutes was increased by 85,000 pounds.

Flour for Outward Voyage.

In order to conserve the national food supply by encouraging purchase abroad, ships clearing for Uruguay, Argentina, Chile, India, and Australia are permitted to take aboard only enough wheat flour for the initial outward voyage and must supply themselves for the return and the next voyage to foreign destination from the markets of the above-named countries.

Exceptions are made only in special cases where unforeseen difficulties present themselves. Cargo ships clearing for Brazil, Uruguay, Argentina, Chile, and Peru may take aboard stores for only one way in beef, pork, mutton, veal, lamb, poultry, lard, and eggs. All passenger ships are urged to buy in foreign ports as much as possible, and more is expected of steamers with refrigeration plants than of others that carry only ice to preserve their stores.

On Man-Per-Day Basis.

The Food Administration ration is on a man-per-day basis. Three ounces of sugar per man per day are allowed crews and passengers on salt-water vessels and for crews on lake ships. On the latter passengers are limited to 3 pounds for every 90 meals served, the same regulation governing public-eating places and households ashore. Most of the trans-Atlantic passengers nowadays are soldiers, whose ration is larger than the civilians ashore.

The standard ration recommended by the Food Administration to the War Trade Board in determining stores ships shall be allowed to take aboard is as follows, per man per day, in ounces: Butter and its substitutes, 2; beef, 16; pork, 6; lard, ¾; wheat products, 10; wheat substitutes, 8; sugar, 3; groceries, 10. In addition, applicants may ask for veal; mutton and lamb; fish, fresh, canned, and salted; poultry and game; milk and eggs—but the total of these commodities, added to those listed above, must not be more than 5 pounds per man per day. Potatoes and fresh vegetables and fruits may swell the allowance to not more than 9 pounds.

Reductions made in ship stores at New York, June 1 to 24, were as follows:

Article.	Original amount asked for.	Amount granted.	Reduction.	Increase.
	Pounds.	*Pounds.*	*Pounds.*	*Pounds.*
Butter and substitutes	38,482	20,755	17,727	.....
Wheat products	453,038	307,310	145,728	.....
Wheat substitutes	54,335	139,364	.....	85,039
Lard	3,840	1,450	2,390	.....
Sugar	33,188	23,920	9,268	.....
Coffee	6,888	1,200	5,688	.....

FREIGHT TARIFFS AMENDED.

Certain Commodities Not Subject to Minimum Carload Charge.

The United States Railroad Administration issues the following:

Instructions are being issued to regional traffic committees to promptly amend tariffs to provide in addition to articles named in General Order No. 28 of the Director General that the following commodities will not be subject to the rule which provides that the minimum charge for a carload of freight will be $15.

Chert.

Forest products, viz: Bark; billets; bolts; logs; waste, consisting of slabs, sawdust, shavings, boughs, edgings, listings, hog product, shingle tow, broken lumber of miscellaneous widths and lengths, but none as long as 10 feet; cordwood; fuel wood; and pulp wood (not wood pulp).

Slag.

Sugar cane.

The instructions will require that tariffs containing these changes be made effective upon one day's notice after filing with the Interstate Commerce Commission.

LABOR DEPARTMENT CABINET EMBRACES ALL BUREAU HEADS

The Department of Labor authorizes the following:

The last step in the organization of the war labor administration has been taken by the Secretary of Labor in the formation of a departmental cabinet embracing the executives of all labor branches. This cabinet includes the chiefs of all bureaus now in the Department of Labor, together with others in process of organization. The new organizations are as follows:

A woman in industry bureau, which will deal with all industrial problems involving women.

A conditions of labor bureau, which will set up and administer conditions of labor within business plants, such as safety, sanitation, working conditions, etc.

A training and dilution bureau, which will have charge of the training of workers for war occupations requiring particular skill. This organization will have jurisdiction in those industries where the number of skilled workers in the country is not sufficient to provide for present production and where it becomes necessary to dilute the already existing supply of workers with men of lesser skill especially trained for that purpose.

To Adjust Labor Disputes.

A bureau of labor adjustments, which will supervise essentially the same work which is now conducted by the division of conciliation in the department and will have jurisdiction over the settlement of strikes, lockouts, and other labor disputes.

A civilian insignia service, which will deal with the problems of rewards for war workers and will set up a system by which badges or other rewards are given for continuous and satisfactory service in war production.

An investigation and inspection service, which will make investigations, other than statistical, into labor conditions for the purpose of keeping the department informed continuously upon labor problems as they arise.

The War and Navy Departments and the Shipping Board, as well as other production departments of the Government, will be represented through the chairman of the War Policies Board, which embraces representatives from all production and distribution departments.

Labor Department Cabinet.

The full membership of the departmental cabinet follows: W. B. Wilson, Secretary of Labor; Louis F. Post, Assistant Secretary of Labor; John W. Abercrombie, Solicitor; Felix Frankfurter, assistant to the secretary and chairman of the War Labor Policies Board; Anthony Caminetti, Commissioner General of Immigration; Dr. Royal Meeker, Commissioner of Labor Statistics; Richard K. Campbell, Commissioner of Naturalization; Miss Julia C. Lathrop, Chief of the Children's Bureau; J. B. Densmore, Director General of the United States Employment Service; Roger W. Babson, Director of the Division of Education and Information; Hugh L. Kerwin, Director of Labor Adjustment; Dean Herman Schneider, Director of the Bureau of Training and Dilution; Ethelbert Stewart, Chief of the Investigation and

(Continued on page 10.)

TOBACCO NEEDS OF THE ALLIED COUNTRIES ARE ESTIMATED

United Kingdom Will Require 177,000,000 Pounds and France 135,000,000, It Is Stated.

The War Industries Board authorizes the following:

Investigations have been carried on under the direction of the tobacco section of the War Industries Board into the tobacco requirements of the allied nations to find how much tobacco must be conserved in this country to supply their needs.

Comparisons have been made of the tobacco rations issued by Great Britain, France, Italy, and Belgium with the proposed ration for the United States forces.

In the United Kingdom the British War Mission reports the manufactured output of tobacco products for 1917 was 177,000,000 pounds—29 per cent tobacco and 70 per cent cigarettes. The military forces consumed 40 per cent of this output. It is essential that shipments from the United States keep pace with the present estimated consumption. Taxes on tobacco in Great Britain have been materially increased.

France's Estimate.

The French minister of finance has estimated that in 1918 the manufactured output of tobacco would be approximately 135,000,000 pounds, providing shipments of raw materials go forward from the United States in sufficient quantities. Of this output, approximately 40 per cent is allocated to the military forces. There have been large increases in the prices of tobacco products in France.

The Italian minister of finance reports that the total consumption in Italy in 1918 will be about 75,000,000 pounds of leaf tobacco. Of this quantity about 75 per cent is American grown. Consumption by the Army and Navy is about 45 per cent of the total. Of this amount probably one-third is issued free to the men either in the form of tobacco, cigarettes, or cigars, but only those actually at the front or under fire are allowed free rations of tobacco. Soldiers and sailors in the zone of operation but not actually at the front, or those on leave, pay for their tobacco.

Supply for Belgium.

The Belgian commission for the purchase of war supplies is buying tobacco, cigarettes, and cigars from manufacturers in this country for shipment to Belgian [illegible].

The per capita consumption of tobacco products in the United States is 7½ pounds per annum, in Great Britain 4 pounds, in France 3½, and in Italy 2 pounds.

In 1917 the United States raised 1,196,000,000 pounds of leaf tobacco.

Figures show an increase of 50 per cent in the prices of leaf tobacco in the United States between 1914 and 1917. The 1912–1915 crops averaged 10.6 cents per pound; the 1916 crop 14.7 cents and the 1917 crop 24.9 cents.

The estimate of the amount of tobacco available for 1918 for United States manufacturers from the 1917 crop is 850,000,000 pounds.

Call for 12,143 Additional Draft Men Issued by Provost Marshal

The office of the Provost Marshal General has issued a call for 12,143 registrants to be inducted into the military service, the period of entrainment being from August 1 to August 28. The men must be grammar-school graduates and they will be required to report at the schools specified below on the dates indicated. The quotas from each State and the schools designated are as follows:

Arkansas	300	University of Texas, August 22.
Colorado	500	University of Nebraska, Lincoln, August 15.
Connecticut	288	Newton School Board, Newton, Mass., August 15.
District of Columbia	268	Virginia Polytechnic Institute, Blacksburg, Va., August 1.

DEVELOPMENT OF ITALIAN MOTOR CARS AND TRUCKS

Consul Haven, at Turin, reports:

The Italian automobile industry is centered in Turin, the seven most prominent Italian cars being manufactured in this city. Of these, the F. I. A. T. is perhaps the most widely known, since practically 80 per cent of Italian cars are of this make.

Interesting data in regard to the automobile industry in Italy has recently appeared in a publication issued by the Italian ministry of finance, from which it appears that the export of Italian motor vehicles has practically tripled in the past six years, and the estimate of the value of automobile exports for 1917 is over 100,000,000 lire.

All the Italian automobile factories are working for the Government. The number of touring cars manufactured has considerably decreased, and in proportion the number of motor trucks augmented, these latter being mostly of the 1½ and 3 ton type, although such a concern as the F. I. A. T. manufactures very heavy tractors. Nowhere more than in Italy has been demonstrated the very important part played by motor-driven vehicles in this war.

The Italian-made motor truck, because of its rugged construction and simplicity of engine, is especially adapted to war work, which fact is substantiated by the automobile export figures for the past seven years, it being remembered that practically the entire export of Italian motor driven vehicles since 1914 has been taken by the allied armies. The following table shows the exports of trucks and cars from Italy, the value being in lire:

Year.	Trucks.	Cars.	Total.
	Lire.	*Lire.*	*Lire.*
1911	2,236,072	29,127,875	31,363,947
1912	2,929,580	35,786,180	38,715,760
1913	2,305,470	31,875,467	34,180,937
1914	4,037,325	36,634,670	40,671,995
1915	35,830,400	27,550,575	63,380,975
1916	71,663,100	9,515,150	81,178,250
1917 [1]	45,171,140	1,515,915	46,687,055

[1] For the 4 months ended Apr. 30, 1917.

NOTE.—The conversion of the above figures from lire to dollars has not been attempted, since the exchange rate has varied to such an extent that any conversion at a fixed rate would create a wrong impression. (The normal value of the lira is 19.3 cents.)—Commerce Reports.

LABOR DEPARTMENT CABINET.

(Continued from page 9.)

Inspection Service; Grant Hamilton, Director of Conditions of Labor Bureau; Miss Mary Van Kleeck, Director of Women in Industry Bureau; Otto M. Eidlitz, Director of Industrial Housing and Transportation; Charles T. Clayton, Director of Civilian Insignia; and S. J. Gompers, Chief Clerk, Department of Labor.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

Substantial gains in earning assets, largely discounts and Treasury certificates, accompanied by increases in Government and members' reserve deposits, also in Federal reserve note circulation, are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business on July 12, 1918.

Investments.—Discounted bills on hand show an increase for the week of 83.1 millions, largely at the New York, Boston, Cleveland, and Chicago banks. Of the total discounts, 606.6 millions, as against 563.5 millions the week before, is represented by war paper, i. e., member banks' collateral notes and customers' paper secured by United States war obligations. Acceptances on hand gained about 6.5 millions, largely at the Boston and San Francisco banks. Boston reports the liquidation of 2.3 millions of United States bonds, while New York reports an increase of about 15 millions in Treasury certificates, the equivalent of an amount temporarily advanced to the Government. Total earning assets increased 101.8 millions during the week.

Deposits. — Government deposits increased about 41 millions, the Cleveland, Chicago, Kansas City, and San Francisco banks reporting considerable concentration during the week of Governments funds. Members' reserve deposits increased by 69.6 millions and net deposits by 79.7 millions.

Reserves.—No appreciable changes in aggregate gold or cash reserves are noted, though the week saw considerable movement of reserves away from New York and Chicago.

Federal reserve circulation.—During the week the agents issued 46.6 millions net of Federal reserve notes. The banks report an increase of 21.9 millions of Federal reserve notes in actual circulation, besides a slight increase in their liability on Federal reserve bank notes in circulation.

Capital.—An increase of $161,000 in paid-in capital, largely of the Atlanta and Chicago banks, is due primarily to payment by newly admitted members for Federal reserve bank stock.

Condition of Member Banks.

Withdrawals in some volume of Government deposits accompanied by increases in investments and reductions in reserves are indicated by the board's weekly statement showing condition on July 5 of 696 member banks in leading cities.

Government securities on hand show a slight decline since the last Friday in June, though a decrease of 138.4 millions since June 21, when the number of reporting banks was about the same as shown in the present statement. Treasury certificates show by far the larger decrease, especially at the Greater New York member banks, notwithstanding the taking by the banks about the end of June of 750 millions of Treasury certificates. Loans secured by United States war obligations likewise show some decrease, mainly at the New York banks. Total loans and investments increased since June 21 by 37.1 millions, notwithstanding a reduction under this head of 34.6 mil-

Additional List of American Prisoners and the Camps Where They Are Held

The War Department authorizes the publication of this additional list of American prisoners of war, interned at various prison camps in Germany, as reported by the Royal Prussian War Ministry, Central Information Bureau, which list was forwarded to the American Legation at Berne by the Royal Spanish Embassy at Berlin:

Name.	Rank.	Date and place of capture.	Emergency address.
CAMP DARMSTADT.			
Akers, Homer	Private	Apr. 14, 1918; Verdun.	Mrs. Leone Akers, R. 3, Norwood, Mo.
Bennett, Edward	do	do	Mrs. Julia Wallace, sister, Harrisburg, Ill.
Bergeron, Arsene	do	Apr. 8, 1918, Bois Brule.	Michael Bergeron, brother, One hundred and forty-seventh Street, Turner Falls, Mass.
Bretschneider, Frank	do	Apr. 14, 1918; Verdun.	Anton Bretschneider, brother, 1612 Loomis Street, Chicago.
Daniels, Fillipo	do	do	Joseph Daniels, 313 Union Street, Lynn, Mass.
Dodson, Russell	Private, first class	do	Mrs. Samuel Duncan, Vinton-Dale, Cambria County, Pa.
Doherty, Edward J	do	Apr. 7, 1918, Ramacourt.	Mrs. J. Doherty, mother, 1253 Cenert Street, Newton Center, Mass.
Dougherty, Owen	do	Apr. 14, 1918; Verdun.	Roger Dougherty, 1420 Twelfth Street, Eddystone, Pa.
Harger, Melville S	Private	do	Mrs. Bertha Harger, mother, 47½ East Main Street, Battle Creek, Mich.
Holst, Carl	do	Apr. 7, 1918, Ramacourt.	Mrs. M. Holst, mother, 1258 Commonwealth Avenue, Allston, Mass.
Korman, George	Private, first class	Apr. 14, 1918; Verdun.	Mrs. Eva Korman, mother, 56 Barclay Street, Newark, N. J.
Kraukuszeski, Aleksander.	Private	do	Magdaliena Sowierka, 216 South Ferry Avenue, Schenectady, N. Y.
Lehane, Jeremiah	do	do	Mrs. J. Lehane, wife, 230 Riverside Drive, New York City.
Marquies, Wilfred	do	do	Mrs. Elida Marquies, mother, 1069 Lavaue Street, Fall River, Mass.
Mason, Roy R	do	do	H. D. Mason, Gainesville, Fla.
Meehan, Patrick F	Corporal	Apr. 8, 1918; Bois Brule.	Mrs. Bessy Meehan, mother, 20 Genesee Street, Springfield, Mass.
Meyer, Frank John	Private	Apr. 14, 1918; Verdun.	John Meyer, father, 321 Douwalter Street, Reading, Ohio.
Muldoon, James N	do	Apr. 7, 1918, Ramacourt.	J. Muldoon, 17 Upland Road, Brighton, Mass.
Newton, Clarence Edward.	do	Apr. 14, 1918, Verdun.	Mrs. Barbara Newton, mother, 226 Sixty-ninth Street, Cincinnati, Ohio.
Prosser, Emmit John	Private, first class	do	Martha Prosser, 209 North Sheridan Street, Minneapolis, Kans.
Puntillo, James	Private	do	Joseph Bangenajo, 103 High Street, Newark, N. J.
Puopolo, Carmenile	do	do	Mrs. Jennie Puopolo, Box 388, Page Street, Avon, Mass.
Summa, Rocco	do	do	John Ferro, 93 South Elm Street, Woodbury, Conn.
Svitak, Harry	do	do	Mrs. Carrie Svitak, 2744 East Pacific Street, Philadelphia, Pa.
Sweeny, William C	do	do	Mrs. Mary Sweeny, mother, 376 Athens Street, South Boston, Mass.
Walker, Robert	Sergeant	do	Mrs. Bridgett Walker, mother, 212 Grand Street, Jersey City, N. J.
Watkins, David L	Private	do	S. J. Watkins, Sonora, Ky.
Whitehead, Lee H	Corporal	do	F. W. Whitehead, father, Jeffrey, Ky.
CAMP BAD STUER.			
Willis, Harold	Sublieutenant	Aug. 18, 1917, Duer sur Meuse.	Mme. G. Audenreid, 49 Rue Gablee, Paris.
CAMP HEIDELBERG.			
Mackenzie, A. Eneas	Second lieutenant	July 9, 1917; Ypres	William Mackenzie, 354 Twelfth Street, Portland, Oreg.
CAMP LIMBURG.			
Hickman, Fred	Private	Apr. 13, 1918; front.	James B. Hickman, Loogootee, Ind.
CAMP LANGENSALZA.			
Dow, Julien N	First lieutenant	Mar. 24, 1918; Ypres	E. E. Dow, father, Neoga, Ill.
Miller, Frank K	Lieutenant	Mar. 23, 1918; Mauchis.	Dr. S. J. Miller, father, Madera, Pa.
Miller, Samuel	First lieutenant	Mar. 21, 1918; St. Quentin.	Mrs. Ida Miller, mother, Lakeville, Pa.
CAMP KARLSRUHE.			
Crawford, James Frank	First lieutenant	Apr. 10, 1918; Lasoutre.	Eliza H. Crawford, wife, Warsaw, N. Y.
Edens, Louis M.[1]	Lieutenant	Apr. 10, 1918; Messines.	Mrs. Claire Belle Edens, wife, Cabool, Mo.
Meredith, John Joseph	Lieutenant aviator	Apr. 1, 1918.	1509 Swain Street, Philadelphia, Pa.
Redmond, Maurice Snowden.[1]	First lieutenant	Apr. 11, 1918; Ploegsteert.	Mr. and Mrs. C. B. Redmond, 331 South Pacific Street, Pittsburgh, Pa.

[1] American minister at Berne states has been reported transferred to camp at Villingen.

PLAN OF WHEAT AND FLOUR CONTROL FOR THE 1918 CROP STATED BY CEREAL DIVISION OF FOOD ADMINISTRATION

Fair Price Bases, Classes, and Grades on Which United States Grain Corporation Will Buy Wheat in Elevators, at Various Points, Announced.

The following has been issued by the cereal division of the United States Food Administration:

It is of course generally known that the value of wheat of various grades and varieties depends upon three factors: First, the relative distance from the consuming markets, because of the differences in freight rates to the points named below; second, the variety of the wheat and its relative value for flour production; third, the grade of the wheat as to quality and impurities within the various varieties.

These differences have been established by years of custom and experience, and it is the object of the Food Administration, in giving effect to the law, to equably reflect these differences in value as far as physically possible.

Grain Corporation.

In order to simplify accounting and to avoid "red tape," the President authorized the creation of the United States Food Administration Grain Corporation as an instrument of the Food Administration to carry out the financial details of buying and selling wheat and various cereal commodities. Therefore contracts and payments are made in the name of the United States Food Administration Grain Corporation, which operates without profit, charging such differentials as will cover risks, storage, and insurance.

Likewise the United States Department of Agriculture, acting under the Grain Standards Act, has endeavored to establish wheat grade definitions according to relative merits of various qualities and varieties of wheats.

Prices, Classes, and Grades.

The following are the fair price bases and wheat classes and grades on which the Food Administration Grain Corporation will buy wheat in elevators at the points named:

1. The wheat grades are those adopted by the United States Department of Agriculture under the Grain Standards Act. (Revised grades effective July 15, 1918.)

2. The Food Administration "fair prices" are named below for "basic" wheats, and the market relations fixed as follows:

New York	$2.39½
Philadelphia	2.39
Baltimore	2.38½
Newport News	2.38½
Duluth	2.22½
Minneapolis	2.21½
Chicago	2.26
St. Louis	2.24
Kansas City	2.18
Omaha	2.18
New Orleans	2.28
Galveston	2.28
Tacoma	2.20
Seattle	2.20
Portland	2.20
Astoria	2.20
San Francisco	2.20
Los Angeles	2.20

BASIC WHEATS.—No. 1 Northern Spring, No. 1 Hard Winter, No. 1 Red Winter, No. 1 Durum, No. 1 Hard White.

Intermountain basis f. o. b outgoing car $2. The above are for "basic" wheats. Certain other classes and varieties of wheats will be dealt in at premiums over, and others at discounts under the above prices.

The "premium" wheats are as follows:

	Premium.
No. 1 dark hard winter	$0.02
No. 1 dark northern spring	.02
No. 1 amber Durum	.02

The "discount" wheats are as follows:

	Discount.
No. 1 yellow hard winter	$0.02
No. 1 red spring	.05
No. 1 red Walla	.07
No. 1 red Durum	.07
No. 1 soft white	.02
No. 1 white club	.04

Discounts for other grades than No. 1:

No. 2 wheat, 3 cents under No. 1.
No. 3 wheat, 7 cents under No. 1.
Grade below No. 3 will be dealt in on sample on merit.

NOTE.—The grade discounts for No. 2 and No. 3 are made with the expectation that mills and dealers will absorb the better qualities of these grades at a premium over these fixed differences at which the Government will buy, and with the expectation that the qualities tendered to the Government will approach the minimum of the grade. It is also expected that the character of the wheat going into No. 4 and No. 5 grades will be of such wide range that it would not be fair to the producer to name a fixed price at which the Government will buy. It has therefore been left to the discretion of the Government representatives to buy the wheat which is represented by the No. 4 and No. 5 grades, as well as wheat which is represented by "sample," on the basis of their judgment as to its proper value.

Where the term "primary markets" is used in this statement it refers to points at which the Grain Corporation maintains buying agencies, as named above.

Details of Buying Plan.

The Food Administration Grain Corporation will buy on the above fair-price bases at the principal primary markets as named.

The Food Administration Grain Corporation will buy warehouse receipts in approved elevators at the principal primary markets as named above. In the intermountain territory, where there are no public storage facilities available, an adjustment will be made to make effective the $2 minimum for the No. 1 grade f. o. b. outgoing car, available for transportation to a public terminal elevator. The intermountain region comprises southern Idaho, western Montana, western Wyoming, Nevada, Utah, western Colorado, New Mexico, and Arizona. Further details can be obtained at grain corporation offices.

At all these principal primary markets there is an open market where all classes of buyers are well represented, and the producer and the consumer will be amply protected through the competitive activities of the several interests, the Food Administration Grain Corporation being prepared to buy and protect the "fair price" basis.

As the miller is restricted to a "fair price" basis for his flour, he can not pay more for wheat than the expense of milling and a reasonable profit will allow.

Farmer Can Protect Himself.

The farmer can protect himself by the study of the primary prices, deducting intermediate charges, or he can ship to the Food Administration grain corporation, or he may ship to a commission merchant at a terminal market and through him secure the benefit of competitive buying.

There is nothing in the "1918 plan" which prevents a buyer at point of origin from placing his own grade upon the wheat which he purchases. If by the buyer's act the grade is raised, it is equivalent to an increase in the price. If the buyer lowers the grade, the producer or dealer's protection is to ship to the Food Administration grain corporation.

Marketing Direct to Grain Corporation.

Producers or dealers have the right to bill cars of wheat direct to the Food Administration grain corporation at any of the principal primary markets named above. When the wheat is unloaded in the elevator and weight and grade returns are made to the Food Administration grain corporation remittance will be made on the basis of weight and grades so reported, and on the basis of the Government price less 1 per cent administration charge for the service.

Transportation.

The Government does not discriminate between shippers in matters of transportation.

Traffic Bureau.

The Food Administration maintains a traffic bureau for the purpose of assisting shippers of grain and flour in securing their car supply and also in expediting the movement of shipments to destination. Application for assistance can be made to Food Administration Grain Corporation offices in each primary market.

Charges for Handling.

Country elevators and buyers are entitled to receive fair compensation for their services in the handling and marketing of wheat, and the charges for such service are necessarily a deduction from the terminal price of wheat. These charges or margins are well established by custom and vary in different sections of the country according to local conditions.

Insurance.

The Government carries no insurance on the property which it owns. It does, however, require that the elevator operators shall exercise due diligence in protecting grain stored in their warehouses from ordinary hazards. Owners of grain stored in warehouses or elevators should therefore protect their grain so stored which has not been delivered to or paid for by the Food Administration Grain Corporation.

Inspection.

Shippers to any of the principal primary markets should insist that their grain be inspected and graded by inspectors licensed by the Secretary of Agriculture.

Producers and dealers, in shipping

(Continued on page 16.)

SCHEDULE OF TYPES AND SIZES OF FARM IMPLEMENTS AND OPERATING EQUIPMENT ADOPTED BY THE WAR INDUSTRIES BOARD

The War Industries Board authorizes the following:

The Conservation Division of the War Industries Board has completed a comprehensive investigation of the general farm implement and farm operating equipment industry and, after numerous preparatory meetings, a detailed schedule of types and sizes of the principal class of farm implements and farm operating equipment to be manufactured during the war period has been formally adopted by all the interests involved.

Under the elimination program, approximately 3,000 surplus types of plows and tillage implements have been discontinued. For example, out of 303 types of plows only 65 will be manufactured after December 31, 1918. Of over 300 types of corn planters and drills only 10 will be manufactured, and 107 types of harrows have been reduced to 44.

Members of the industry prepared the initial program of conservation at the request of the War Industries Board. The final schedule was completed only after carefully taking into consideration the actual needs of the farmer as well as various styles of farm equipment that might be termed "lesser essentials."

Will Reduce Stocks.

The eliminations made effective by this program will materially reduce the size of stocks carried and the capital invested as well as volume of transportation necessary to carry the agricultural implements to the farmer. Production of the remaining types of implements will also be materially increased as a matter of course. A large amount of steel and iron will be released automatically for war purposes and other necessary industries by the reduction of stocks carried by factories, jobbers, and other distributors.

In addition to the reduction in styles and, consequently, of stocks carried, concentrating efforts on fewer types is expected to work toward stabilizing the cost to the farmer without hardship on the producer.

Further elimination of unnecessary types and additional standardization is being worked out by various committees representing different branches of the industry in connection with the War Industries Board. This plan is similar to those that are being put into effect in numerous other industries by the Conservation Division. The savings in labor, capital, and material thus effected with the wholehearted support of all parties interested will contribute largely to promoting the general war program.

Schedule for the Manufacturers of Grain Drills, Seeding Machines, etc.

This schedule is to become effective November 1, 1918, no eliminated machinery to be manufactured after this date, and no additional material for eliminated lines to be ordered after July 15, 1918, except such as may be necessary to even up stocks on hand for the 1918 fall trade.

1. Drills.—Each manufacturer to restrict his output of the following drills to the sizes noted:

(a) Plain 6-inch drills to 12-6, 16-6, 20-6, and 24-6.
(b) Plain 7-inch drills to 10-7, 11-7, 12-7, 14-7, and 18-7.
(c) Plain 8-inch drills to 8-8, 10-8, 12-8, and 16-8.
(d) Low-down press drills in 6-inch to 20-6.
(e) Low-down press drills in 7-inch to 12-7 and 16-7.
(f) Low-down press drills in 8-inch, all sizes to be eliminated.
(g) Fertilizer drills in 6-inch, all sizes to be eliminated
(h) Fertilizer drills in 7-inch to 9-7, 10-7, 11-7, and 12-7.
(i) Fertilizer drills in 8-inch to 6-8, 8-8, and 10-8.

2. Seeders.—Each manufacturer to restrict his output of these seeders to 3 sizes, viz, 12-bar, 16-bar, and 24-bar.

3. Sowers.—Each manufacturer to restrict his output of these sowers to two styles, viz, 11-foot wide track and 11-foot narrow track.

4. One-horse drills.—Each manufacturer to restrict his output of these drills to 5-disk and 5-disk fertilizer types.

5. Agitator wheel seeders.—The manufacture of agitator wheel seeders to be discontinued.

6. 5-inch drills.—The manufacture of 5-inch drills to be discontinued.

7. Broadcast fertilizer distributors.—Each manufacturer to restrict his output of these distributors to one size, viz, 8-foot.

8. Land measures.—Land measures to be eliminated from all sowers.

9. Concavity of disks.—The following description of disks to be recognized as standard and all disks manufactured after July 15, 1918, to conform to this standard, viz, size 13-inch, gauge No. 13, concavity $\frac{3}{4}$ inch.

10. Polishing concave disks.—The polishing of concave disks to be optional with each manufacturer.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

(Continued from page 11.)

lions shown for the New York banks. The share of war loans and war paper in loans and investments given by all reporting banks shows a decline from 13.9 per cent on June 21 to 13.6 on June 28 and to 13.3 per cent on July 5. For the New York banks this ratio declined during the two weeks from 20.5 to 15.7 per cent.

Further reductions during the week in total net demand deposits are practically offset by increases in time deposits. For the central reserve city banks, notwithstanding the increase in the number of New York City member banks, net demand deposits show a decline for the week of about 112 millions and time deposits a decline of 11.5 millions. During the week net withdrawals of Government deposits totaled 290.3 millions, of which 168.5 millions represents the net amount withdrawn from banks in the three central reserve cities. Reserves show a decline during the week of 164.5 millions, nearly all for the New York banks, while cash in vault shows some gain.

RED CROSS ADOPTS NEW PLAN IN SENDING LETTERS TO GERMANY

Messages Sent Through Division Offices to be Rewritten and Made Spy Proof.

The American Red Cross issues the following:

To prevent the possibility of valuable information getting into Germany, the American Red Cross, in sending letters behind the enemy lines at the request of persons in this country, is following carefully a plan worked out by the State Department to do away with code.

Americans, Germans, or others in the United States wishing to communicate with relatives in Germany must now write out their messages in Red Cross chapters throughout the country. These are sent through the division offices of the organization to national headquarters. Here they are rewritten and the wording absolutely changed to prevent the sending of any diagram or secret code. The messages are then given to the censorship board and are passed or refused by them, as the case may be. When they reach a neutral country they are translated on other paper and in most cases delivered by the Red Cross of the place to which they go. The plan is considered as spy proof as it is possible to devise.

Welfare Messages Permitted.

During the last 25 years the practice has grown up that welfare inquiries and messages shall be permitted between civilians in countries which are at war with each other. The promiscuous sending of letters through organizations in neutral countries could not be permitted because of the large number of enemies in the country. To prohibit entirely the sending of messages would, for example, prevent a loyal American from finding out whether his sister, unfortunately married to a German, was alive or dead. Prohibition was in force for a time and pitiful appeals were received by the Red Cross from French, Belgians, and Italians begging the society to get word for them as to whether their people in the occupied districts were still alive.

Is Humanitarian Work.

The State Department presented to the Red Cross the present plan in detail, and asked that the Red Cross put it into effect. As it was a purely humanitarian work, the Government could do no more than supervise the work.

To-day the American Red Cross is sending an average of 1,300 letters a day to persons living behind the enemy lines. This work is done through Washington headquarters of the American Red Cross by the bureau of communication, of which Edward M. Day is acting director.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE GENERAL ENGINEER DEPOT OF THE ARMY

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

July 8, 1918.

Diamond Forging & Manufacturing Co., Pittsburgh, Pa., whiffletrees.
Beall Tool Co., East Alton, Ill., blacksmiths' flatters, swages, and punches.
Stanley Rule & Level Co., New Britain, Conn., chisels and punches.
Warren Tool & Forge Co., Warren, Ohio, fullers, hardies, tongs.
F. W. McIntosh Co., Chicago, Ill., fountain pens.
American Lubricator Co., Detroit, Mich., steam lubricators.
Hay-Budden Manufacturing Co., Brooklyn, N. Y., anvils.
M. B. Skinner Co., Chicago, Ill., valve reseating tools.
Frank A. Weeks Manufacturing Co., New York City, erasers, steel.
Columbian Hardware Co., Cleveland, Ohio, blacksmiths' vises and anvils.
Oliver Iron & Steel Co., Pittsburgh, Pa., hot-pressed steel nuts.
Ohio Brass Co., Mansfield, Ohio, valves.
Crane Co., Washington, D. C., check valves.
J. K. Larkin Co., New York City, galvanized barb wire.
Mabie, Todd & Co., New York City, fountain pens.
Fay & Egan Co., Cincinnati, Ohio, motor head, complete.
A. F. Mitchell, assignee, Toledo, Ohio, fountain pens.
American Handle Co., Jonesboro, Ark., railroad pick handles.
Eastman Kodak Co., Rochester, N. Y., kodak tanks, glasses, trays, paper, acids.
Trimont Manufacturing Co., Roxbury, Mass., pipe wrench.
Diamond Chain & Manufacturing Co., Indianapolis, Ind., links, motor chains.
Carnegie Steel Co., Washington, D. C., I-beams.
Cutter Electric Co., Philadelphia, Pa., single pole circuit breakers.
H. A. Rogers Co., New York City, Scotch gauge glasses.
F. H. Lovell & Co., Arlington, N. J., junction boxes.
Whiting-Patterson Co. (Inc.), New York City, paper, typewriting.
Sperry Gyroscope Co., Brooklyn, N. Y., spares for high intensity searchlights.
U. S. Electrical Tool Co., Cincinnati, Ohio, spares for type KM motor.
Gray Motor Co., Detroit, Mich., gasoline engines.

July 9, 1918.

Globe-Wernicke Co., Washington, D. C., office decks.
Gilbert & Barker Manufacturing Co., Springfield, Mass., gasoline storage tanks.
Eugene Dietzgen Co., New York City, scales.
E. C. Atkins & Co., Indianapolis, Ind., handles for hand saws.
Gray Motor Co., Detroit, Mich., spare parts for gasoline engines.
Allis-Chalmers Manufacturing Co., Washington, D. C., centrifugal pumps.
Quaker Tool Co., Newark, N. J., blacksmith's fire rakes.
Victor Brass Manufacturing Co., Cleveland, Ohio, brass valves.
Plymouth Cordage Co., North Plymouth, Mass., manila rope.
Keuffel & Esser Co., Hoboken, N. J., protractors.
P. B. Yates Machine Co., Beloit, Wis., swing saws.
Union Brass & Metal Manufacturing Co., St. Paul, Minn., bibb cocks.
American Woodworking Machine Co., Rochester, N. Y., swing saws.
W. & L. E. Gurley, Troy, N. Y., diagonal prisms.
Warren Axe & Tool Co., Warren, Pa., steel falling wedges.
Miller Bros. Cutlery Co., Meriden, Conn., knife grinder.
Goodyear Tire & Rubber Co., Philadelphia, Pa., hose, suction.
Emery Candle Co., Cincinnati, Ohio, candles.
Quaker City Rubber Co., Philadelphia, Pa., hose.
Midwest Manufacturing Corporation, St. Paul, Minn., railroad picks.
Watson & McDaniel Co., Philadelphia, Pa., improved steam trap.
Humphreys Manufacturing Co., Mansfield, Ohio, pumps.
E. C. Atkins & Co., Indianapolis, Ind., compass sawsets.
Cooper-Hewitt Electric Co., Hoboken, N. J., mercury vapor lamps.
Pennsylvania Smelting Co., Pittsburgh, Pa., pig lead.
Cardinell-Vellum Manufacturing Co., Montclair, N. J., pads, tracing.
Nelson Rivet Co., Taunton, Mass., buttonhead rivets.
Joseph Dixon Crucible Co., Jersey City, N. J., pencils.
Rudolph & West Co., Washington, D. C., roofing paper.
Chicago Car Seal Co., Chicago, Ill., car seals.
Roanoke Spoke & Handle Co., Roanoke, Va., adze handles.
Mattatuck Manufacturing Co., Waterbury, Conn., thumb tacks, German silver.
Brown Company, Portland, Me., paper, wrapping.
H. W. Johns-Manville Co., Washington, D. C., asbestos-felted insulation.
Walter W. Woodruff & Sons Co., Mount Carmel, Conn., boat clamp screw.
Tempelton, Kenly & Co. (Ltd.), Chicago, Ill., jacks, automobile.
American Pulley Co., Philadelphia, Pa., split-steel pulleys.
Anthony Carlin Co., Cleveland, Ohio, buttonhead rivets.
National Belt & Nut Co., Pittsburgh, Pa., boiler rivets.
Studebaker Corporation of America, Detroit, Mich., automobile spare parts.
New York Mallett & Handle Co., New York City, standing and hand fids.
W. D. Campbell Co., Washington, D. C., tables.
Fred S. Lincoln Co., Washington, D. C., file cabinets.
E. I. du Pont de Nemours & Co., Wilmington, Del., dynamite, blasting powder.
Waterbury Buckle Co., Waterbury, Conn., double-end hooks.
O. M. Edwards Co., Washington, D. C., steel file cabinets.
Vane-Calvert Paint Co., St. Louis, Mo., paint, battleship gray.
Remington Typewriter Co., Washington, D. C., typewriters.

July 10, 1918.

P. B. Yates Machine Co., Beloit, Wis., band saw tables.
Ames Shovel & Tool Co., North Easton, Mass., shovels.
Standard Oil Cloth Co., New York City, duck.
Walworth Manufacturing Co., Boston, Mass., malleable tees.
Collins & Co., New York City, machetes.
Rudolph & West Co., Washington, D. C., solder, bolts, funnels, ax handles, hammers.
Bemis Bros. Bag Co., St. Louis, Mo., coated flexoid tubing.
W. H. Peden Excelsior Co., Fredericksburg, Va., excelsior.
Remington Typewriter Co., Washington, D. C., typewriters.
Baum Paper & Stationery Co., Washington, D. C., envelopes.
Carroll Electric Co., Washington, D. C., cone shades, fuse plugs, porcelain cleats, cutouts.
Stark Tool Co. (Inc.), Waltham, Mass., jackshaft.
W. L. Barrell Co., New York City, gray duck.
General Electric Co., Schenectady, N. Y., searchlight lamp cartridge.
Sweets Steel Co., Williamsport, Pa., rails.
The Warwood Tool Co., Wheeling, W. Va., railroad picks.
Niagara Machine & Tool Works, Buffalo, N. Y., crimpers and beaders.
Thomas Somerville Co., Washington, D. C., valves, couplings, elbows.
Peck, Stow & Wilcox Co., New York City, mandrels, stove pipe.
M. Ruehlmann, Philadelphia, Pa., barometer cases.
Crane Co., Washington, D. C., bushings, tees, unions.
Star Electric Motor Co., Newark, N. J. spares for lathes, drill presses, tube expanders.
United States Rubber Co., New York City, rubber gloves with gauntlets.
American Wood Working Machinery Co., Rochester, N. Y., band saw tables.
Theodore Altenedер & Sons, Philadelphia, Pa., boxwood scales.
Davis-Bourneville Co., Washington, D. C., cabinet trucks.
W. L. Barrell Co., New York City, gray duck.
The Miami Paper Co., West Carrollton, Ohio, paper, mimeograph.
Roanoke Spoke & Handle Co., Roanoke, Va., railroad picks.
Marvin Casler Co., Canastota, N. Y., geophones.
Edwin C. Burt Co., Brooklyn, N. Y., leather machete sheaths.
The Stowell Co., South Milwaukee, Wis., blocks, malleable.
American Sheet & Tin Plate Co., Washington, D. C., annealed steel.
The Graton & Knight Manufacturing Co., Worcester, Mass., leather carrying cases.
Tophams, Washington, D. C., marching compass cases.
Schlueter Manufacturing Co., St. Louis, Mo., galvanized iron buckets.
Southern Pine Emergency Bureau, Washington, D. C., long yellow pine.
Heller Bros. Co., Newark, N. J., farrier knives.

July 11, 1918.

The Oldham New York Saw Works, Brooklyn, N. Y., spares for saw bands to fit wheels.
Klein-Logan Co., Pittsburgh, Pa., pick mattocks.
Champion Blower & Forge Co., Lancaster, Pa., forges.
Ohio Brass Co., Mansfield, Ohio, valves.
Illinois Iron & Bolt Co., Carpentersville, Ill., screw jacks.
Iron City Tool Works (Ltd.), Pittsburgh, Pa., drift pins.
Wiebusch & Hilger (Ltd.), New York City, cold chisels.
Morse Twist Drill & Machine Co., New Bedford, Mass., center keys.
Keystone Manufacturing Co., Buffalo, N. Y., drilling posts.
Charles Hyass & Co. (Inc.), New York City, sweeper brooms.
Standard Horse Nail Co., New Brighton, Pa., horseshoe nails.
G. L. Stuebner, Long Island City, N. Y., buckets.
Sasgen Derrick Co., Chicago, Ill., toggle hooks or tongs.
P. Wall Manufacturing & Supply Co., Pittsburgh, Pa., steel oilers.
W. G. LeCount, South Norwalk, Conn., steel bridge clamps.
Oliver Iron & Steel Co., Pittsburgh, Pa., drift bolts.
North Carolina Mica Co., Boston, Mass., sheets of mica.
United States Rubber Co., New York City, rubber gloves.
Crane Co., Washington, D. C., globe valves.
Universal Drafting Machine Co., Cleveland, Ohio, drafting supplies.
Hewitt Rubber Co., Buffalo, N. Y., hose.
Kelly Axe Manufacturing Co., Charleston, W. Va., hammers, claw.
Duane H. Nash (Inc.), Millington, N. J., I-beams.
Republic Rubber Co., Washington, D. C., tire castings.
Garford Motor Truck Co., magneto batteries, breakers, and low-tension wire.
Thermoid Rubber Co., Trenton, N. J., radiator hose, brake lining.
The Warwood Tool Co., West Virginia, pick mattocks.
W. H. Anderson Tool & Supply Co., Detroit, Mich., molders.
Marvin & Gasler Co., Canastota, N. Y., geophones.
Baldwin Tool Works, Parkersburg, W. Va., shovels.
The Graton & Knight Manufacturing Co., Worcester, Mass., leather carrying cases for geophones.
Keuffel & Esser Co., Hoboken, N. J., compasses.
Taylor Instrument Co's., Rochester, N. Y., compasses.
The National Brass & Copper Tube Co. (Inc.), New York City, wire, firing.
Chicago Pump Co., Chicago, Ill., vertical pump.
James H. Channon Manufacturing Co., Chicago, Ill., club and rivet dollies.
Milwaukee Flush Valve Co., Milwaukee, Wis., brass gauge cocks.
The Seiss Manufacturing Co., Toledo, Ohio, horns.

AWARDS BY PURCHASING DEPARTMENT OF THE GENERAL ENGINEERING DEPOT

George L. Lyon, Milford, N. Y., tire measuring wheels.

The Shaw-Walker Co., Washington, D. C., guides, pressboard, Manila folders.

Vacuum Oil Co., Philadelphia, Pa., oil in barrels.

Buffalo Forge Co., Buffalo, N. Y., post drill.

Sieber Products Manufacturing Co., Washington, D. C., binders, leather.

July 12, 1918.

Ohio Canvas Goods Manufacturing Co., Toledo, Ohio, tarpaulins.

National Electrical Supply Co., Washington, D. C., Pre-I-O-Lite gas tanks.

Best Light Co., Canton, Ohio, hand lanterns.

Manufacturers' Belt Hook Co., Chicago, Ill., rivets.

Keystone Lantern Co., Philadelphia, Pa., railroad lanterns.

Stanley Rule & Level Co., New Britain, Conn., rules

Harold McCalla Co., Philadelphia, Pa., flat soft steel.

American Stove Co., St. Louis, Mo., fire pots.

Oliver Iron & Steel Co., Pittsburgh, Pa., bolts.

Otto Bernz, Newark, N. J., ladles.

Austin Manufacturing Co., Chicago, Ill., spares for road rollers.

James H. Channon Manufacturing Co., Chicago, Ill., rivet dollies.

Joseph Gillott & Sons, New York City (Alfred Field & Co., sole agents), Gillott's pens.

Klein-Logan Co., Pittsburgh, Pa., miners' drills.

George L. Lyon, Milford, N. Y., tire-measuring wheels.

George Russell Reed Co., San Francisco, Cal., Reed wooden baths.

Heller Bros. Co., Newark, N. J., blacksmiths' hardies.

General Electric Co., Washington, D. C., motors, 5 and 3 horsepower.

Georgia-Florida Yellow Pine Emergency Bureau, Washington, D. C., long-leaf yellow pine.

Russia Cement Co., Gloucester, Mass., photo-engraving glue.

Lea-Courtenay Co., Newark, N. J., centrifugal pumps and fittings.

Repro-Art Machinery Co., Philadelphia, Pa., vacuum printing frames.

The Winton Co., Cleveland, Ohio, parts of power plants for searchlights.

Eastman Kodak Co., Rochester, N. Y., kodak supplies.

Bethlehem Steel Corporation, Washington, D. C., switch stands.

The Browning Co., Cleveland, Ohio., locomotive cranes for storage division.

Donner Steel Co., Buffalo, N. Y., rail.

Lackawanna Steel Co., Buffalo, N. Y. rail.

C. A. Turner Co. (Inc.), Pittsburgh, Pa., track spikes.

Henry Disston & Sons, Philadelphia, Pa., files.

Rudolph & West Co., Washington, D. C., ship materials.

General Electric Co., Schenectady, N. Y., flood lighting projectors.

Hubbard & Co., Pittsburgh, Pa., bars.

Fuchs & Lang Manufacturing Co., New York City, aluminum upper beams.

George D. Whitcomb Co., Rochelle, Ill., gasoline locomotives.

Orton & Steinbrenner Co., Chicago, Ill., locomotive cranes.

Ramapo Iron Works, Hillburn, N. Y., ship materials.

Robbins & Myers Co., Philadelphia, Pa., spares for motors for grinders.

Dayton Pump & Manufacturing Co., Dayton, Ohio, galvanized iron tanks.

International Harvester Co., Chicago, Ill., tractors.

E. C. Atkins & Co., Indianapolis, Ind., compass saws.

Smith & Hood, Newark, N. J., clinch irons.

Pennsylvania Railroad Co., Altoona, Pa., box cars less trucks.

The Kilbourne & Jacobe Manufacturing Co., Columbus, Ohio, rocker dump.

Dodge Bros., Detroit, Mich., parts for Dodge cars.

C. E. Jennings & Co., New York City, bits.

Studebaker Corporation of America, Detroit, Mich., rims for Studebaker cars.

Hugh Reilly Co., Washington, D. C., orange shellac.

Garford Motor Truck Co., Lima, Ohio, hub odometers.

Bufum Tool Co., Louisiana, Mo., carbon scrapers.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1008, opening of July 19, 1918.—Cotter pins as per specifications.

Proposal No. 1009, opening of July 19, 1918.—80 cable reels as per specifications.

Proposal No. 1010, opening of July 19, 1918.—840,000 pounds poultry netting, 1½-inch mesh, No. 16 wire, 48 inches wide, galvanized before weaving, or 840,000 pounds, same, galvanized after weaving.

Proposal No. 1011, opening of July 23, 1918.—48,000 pairs men's lumbermen's overs, with leather tops, as per specifications.

Proposal No. 1012, opening of July 23, 1918.—150,000 joints 6-inch stovepipe, 27 gauge each joint, to be 2 feet long; 45,000 one-piece 6-inch stovepipe ells, 27 gauge; 15,000 one-piece stovepipe ells, 6-inch, 45°, 27 gauge; 30,000 stovepipe collars or flanges for 6-inch pipe.

Proposal No. 1013, opening of July 19, 1918.—7,550 corrugated steel shelters, as per specifications.

Proposal No. 1014, opening of July 19, 1918.—14,500 pounds hot-pressed hexagon nuts for ⅝-inch bolts; 14,500 pounds, same, for ¾-inch bolts; 14,500 pounds, same, for ⅞-inch bolts; 14,500 pounds, same, for 1-inch bolts.

Proposal No. 1015, opening of July 19, 1918.—28,000 pounds No. 6, regular pattern horseshoe nails; 26,000 pounds No. 7, same; 2,000 pounds 8d. common wire nails, flat head; 2,000 pounds 10d., same; 1 ton common wire nails, flat head, 4d.; 492 tons, same, 16d.; 132 tons, same, 20d.; 324 tons 30d. common wire spikes, flat head; 120 tons 40d., same; 300 tons 60d., same; 125 tons 1½-inch, No. 9 wire, plain wire staples, ungalvanized.

Proposal No. 1016, opening of July 19, 1918.—288,000 ½-inch by 10-inch drift bolts; 230,000 ¾-inch by 18-inch drift bolts.

Proposal No. 1017, opening of July 19, 1918.—2,880 rolls electrician's rubber insulating tape packed for export shipment; 2,880 rolls, same, packed for domestic shipment.

Proposal No. 1018, opening of July 19, 1918.—3,600 spools of pure soft copper wire on wooden spools for export shipment; 3,600 spools, same, for domestic shipment.

Proposal No. 1019, opening of July 23, 1918.—1,480 dozen carpenter's claw hammers; 250 dozen carpenter's 24-inch levels; 280 dozen carpenter's 3½-inch round-face mallets.

Proposal No. 1020, opening of July 23, 1918.—180 gross white carpenter's chalk; 14,880 pieces white braided cotton chalk line.

Proposal No. 1021, opening of July 23, 1918.—720 gross flathead bright iron screws, 1-inch, No. 6, in packages; 720 gross, same, 1½-inch, No. 8, in packages; 720 gross, same, 1¾-inch, No. 10, in packages; 720 gross, same, 1¾-inch, No. 12, in packages; 4,320 gross, same, ⅞-inch, No. 6, in packages; 4,320 gross, same, 1½-inch, No. 10, in packages; 4,320 gross, same, 1¾-inch, No. 9, in packages; 4,320 gross, same, 2¾-inch, No. 14, in packages.

Proposal No. 1022, opening of July 23, 1918.—350 dozen ratchet braces, 10-inch sweep; 80 dozen ratchet drill braces, 10-inch sweep; 4,320 sets handled framing chisels, in sets of three; 30 dozen, 3-inch socket firmer chisels; 30 dozen, same, 1-inch; 250 dozen, 10-inch draw knives, with folding handles; 10 dozen 5-inch screw drivers; 250 dozen 8-inch screw drivers; 320 dozen steel squares; 280 dozen try 9-inch blade squares; 250 dozen T bevels; 30 dozen 8-inch carpenter's screw drivers.

Proposal No. 1023, opening of July 23, 1918.—3,750 corrugated steel shelters (small) as per specifications.

Proposal No. 1024, opening of July 30, 1918.—Lighting fixtures as per specifications.

Proposal No. 1025, opening of July 26, 1918.—Armored and lead-covered cable as per specifications.

Proposal No. 1026, opening of July 26, 1918.—Sixteen hundred handled bark spuds with maple handles.

Proposal No. 1027, opening of July 26, 1918.—One hundred and fifty center punches 4 inches long; 10 belt lacing cutters, cutting $\frac{3}{16}$-inch to ¾-inch wide; 150 four-tube revolving spring-belt punches.

Proposal No. 1028, opening of July 26, 1918.—Fourteen hundred and forty small ¾-inch pinch bars, approximate weight 3½ pounds; 22,680 large 4-foot 8-inch long pinch bars, weight about 12 pounds.

Proposal No. 1029, opening of July 26, 1918.—Forty-three pounds soldering paste in 1-pound cans, packed for export; 720 cans soldering paste in 4-ounce cans; 720 pounds bar solder, 50 per cent tin, 50 per cent lead.

Proposal No. 1030, opening of July 26, 1918.—Five hundred 9-inch-blade mortar hoes; 50 nine-inch-blade mortar hoes; 500 six-foot-handle 10-inch-blade mortar hoes.

Proposal No. 1031, opening of July 26, 1918.—Three hundred and sixty pipe cutters for ½-inch to 2-inch pipe; 3,600 monkey wrenches, 18-inch steel handle; 1,440 twelve-inch-knife-handle monkey wrenches; 3,360 18-inch pipe wrenches; 3,360 extra jaws for above wrenches.

Proposal No. 1032, opening of July 26, 1918.—Six hundred and sixty field desks "A" complete with folding support; 660 field desks "B" complete with folding support. As per specifications.

Proposal No. 1033, opening of July 26, 1918.—Technical books as per specifications.

Proposal No. 1034, opening of July 19, 1918.—Electrical supplies as per specifications.

How a Ship's Tonnage is Figured Four Ways

The Shipping Board authorizes the following:

To many persons who are not experienced shipbuilders the various uses of the term "tonnage" in relation to the size of a ship may be confusing. The following article from the "Pusey & Jones Shipbuilder" explains the terms well and makes a clean distinction between the various ways in which they are used:

There are four kinds of tonnage in use in shipping circles. They are gross tonnage, net registered tonnage, dead-weight carrying capacity, and displacement.

Dead-weight tonnage is what the vessel actually can carry in tons of lading, cargo, plus stores and bunker coal.

Gross tonnage is based on the cubical contents of the hull, with certain arbitrary spaces deducted, and has little bearing on the cargo-carrying capacity of the vessel.

Net registered tonnage is gross tonnage, with certain allowances for crew space and machinery space deducted, and has little bearing on the dead-weight carrying capacity of the vessel.

Displacement is the total weight of the vessel when full of cargo—that is, the weight of her hull plus her dead-weight tonnage.

In round numbers a ship of 9,000 tons dead-weight would stand about as follows:

Dead-weight carrying capacity	9,000
Gross tonnage	5,000
Net registered	3,000
Displacement	12,000

NEWS-PRINT PAPER PRICES AND TERMS OF SALE FIXED BY TRADE COMMISSION

Taken Action In Accordance With An Agreement Between Attorney General Gregory and Three United States and Seven Canadian Companies.

The Federal Trade Commission has issued the following:

The Federal Trade Commission has had before it as a reference, the agreement made on November 26, 1917, between Thomas W. Gregory, the Attorney General of the United States, as trustee, and certain persons and corporations engaged in the manufacture and sale of news-print paper.

The manufacturers, parties to this agreement, comprise three United States companies and seven Canadian companies as follows:

UNITED STATES COMPANIES.

International Paper Co.; Minnesota & Ontario Power Co.; Gould Paper Co.

CANADIAN COMPANIES.

Spanish River Pulp & Paper Mills (Ltd.); Abitibi Power & Paper Co. (Ltd.); Laurentide Co. (Ltd.); Belgo-Canadian Pulp & Paper Co. (Ltd.); Price Bros. & Co. (Ltd.); Donnacona Paper Co. (Ltd.); Brompton Pulp & Paper Co. (Ltd.).

These ten companies produced in 1917 about 950,000 tons of news-print paper or nearly 50 per cent of the total output of all mills on the North American continent. The bulk of this tonnage was consumed by newspaper publishers in the United States.

Provisions of Agreement.

The agreement provides briefly that the Federal Trade Commission shall fix the maximum prices and terms of sale of the output of the news-print paper of these ten companies sold to purchasers in the United States for the duration of the war and three months thereafter. In the case of the Minnesota & Ontario Power Co. and its subsidiary, the Fort Frances Pulp & Paper Co. (Ltd.), the agreement provides that the prices shall be fixed as of January 1, 1918. The commission is also directed to determine the just and reasonable maximum prices and terms of resale of all paper merchants, sales agents or other middlemen selling the product of these ten companies to customers in the United States.

All parties at interest were invited to lay before the commission any pertinent data, and counsel were diligent and helpful to the commission in securing a complete knowledge of the circumstances surrounding production and distribution. Extensive hearings were held and a mass of evidence taken.

Cost figures were drawn from books of original entry, and the vouchers and accounts of the several manufacturers were scrutinized by expert accountants. Complete appraisals of various plants were also presented.

The commission has heard the evidence and examined the data presented to it and finds the following maximum prices as of April 1, 1918, to be fair and reasonable for each of the 10 signatory companies for sales of standard news-print paper to customers in the United States:

Roll news in car lots, $3.10 per 100 pounds, f. o. b. mill.

Roll news in less than car lots, $3.22½ per 100 pounds, f. o. b. mill.

Sheet news in car lots, $3.50 per 100 pounds, f. o. b. mill.

Sheet news in less than car lots, $3.62½ per 100 pounds, f. o. b. mill.

The cost of the Brompton Pulp & Paper Co. (Ltd.), which is an incomplete mill of small news-print tonnage and which buys its sulphite, was not allowed to control in the determination of the above prices.

The Minnesota & Ontario Power Co. is directed to adjust its settlements for the months of January, February, and March, 1918, on a basis of 10 cents per 100 pounds above these maximum prices; thereafter the said maximum prices shall apply.

Terms of Sale.

The commission directs that the so-called standard form of contract be used at this time with changes in terms that shall provide: (a) A definite tonnage specification and passage of full and unrestricted title to the customer upon delivery, and (b) that the signatory manufacturers shall credit customers for overweight above the 32-pound basis, computed by taking the annual average of the total tonnage delivered on contract, provided that the customer gives such prompt notice as to overweights from time to time as will enable the manufacturer, if he desires, to verify the claims currently and to make correction in weights of subsequent deliveries.

Certain other changes in the terms of contract urged by the publishers contain merit, but this does not appear to be a proper time for introducing avoidable changes.

Jobbers' Prices and Terms of Resale.

The maximum commissions for jobbers or other middle men selling news print obtained from any of the signatory manufacturers to customers in the United States shall be:

15 cents per 100 pounds on carload lots.

40 cents per 100 pounds on less than car lots.

60 cents per 100 pounds on less than ton lots.

The commissions shall be added to the actual cost of paper at the mill or at the warehouse. The cost at the warehouse will be the net mill price plus freight, cartage, and other reasonably necessary expenses incurred in getting the paper to the warehouse. In billing customers these items and the commission shall be stated separately.

Basis of Findings.

In determining the maximum prices to be effective after April 1, 1918, the Federal Trade Commission considered all pertinent conditions, including those prevailing during the months of January, February, and March, 1918, so that the maximum prices herein announced cover the facts as of the time of the effective date of the new prices.

The commission in reaching its conclusions did not take into consideration income or excess-profits taxes, whether individual or corporate.

Since this is not a condemnation proceeding, and there is no taking of property, in the sense of a sale of the plants, there is no alienation of going value, and full costs of manufacture and a just and reasonable profit being allowed, the result is the same as though fixed by the seller.

Given the plant and its output, the commission has reached its result by a full consideration of the cost of manufacture, with depreciation, and a just and reasonable profit on the operation, based upon the value of the property employed and the circumstances surrounding the industry. In making the computations, the operation of the mills, as agreed by counsel, has been considered as 300 days per year.

PLAN OF WHEAT AND FLOUR CONTROL FOR 1918 CROP

(Continued from page 12.)

grain to said primary markets, should advise their commission man to see that their grain is correctly inspected and graded, and that if in his judgment the grain has been improperly graded, an appeal should be taken to the Federal Supervisor.

It is the policy of the Food Administration and of its agents and representatives to work in entire harmony with the Department of Agriculture in maintaining the integrity of grades named and defined by them under the grain standards act, in order that the producer, the consumer, and all interests handling grain may be properly protected.

The producer or dealer should always keep in mind that if he is not satisfied with the prices paid by individual buyers or with the grading of wheat, his protection lies in his being able to ship to the Food Administration Grain Corporation at the various terminal markets named above.

Flour Milling Profit Control.

The plan for the profit control of flour milling for the 1918 crop is formulated on the basis of naming a maximum "fair price" at which any miller may sell flour and feed.

This maximum "fair price" is based upon a reasonable allowance, above the fair price for basic wheat, for handling, milling and marketing expenses, freight charges on products, and profit. It is anticipated that competition will eventually reflect reductions from these prices.

A temporary plan has been published along these lines, which will be supplemented in the near future by the naming of detailed maximum prices, at which it will be considered fair for each mill of the country to sell its flour and feed.

This plan, as soon as completed, will be given general publicity.

The "1918–19 plan of control" and this statement have been prepared with the approval of the Agricultural Advisory Committee and with their cooperation.

VOL. 2 WASHINGTON, WEDNESDAY, JULY 17, 1918. No. 362

NEW SYSTEM TO PROTECT GOVERNMENT IN BUYING OF ALL WAR MATERIAL IS NEARLY COMPLETED

REVIEW BOARDS NAMED

Study of Every Contract, Centralization of Purchases, Standardization of Contract Clauses, and Daily Fiscal Survey Among Objects in View.

The War Department authorizes the following statement:

With the cooperation of the Department of Justice the War Department has nearly completed a system of control designed to protect the Government in the procurement of all war materials. This system, in part, was put in operation under the direction of the General Staff about six weeks ago.

The new system provides for a review of every contract by boards of control, the centralizing of purchases, the standardization of contract clauses, a daily fiscal survey, and provisions for public information on War Department needs.

About May 1, 1918, under instructions of the Secretary of War, a new division of the General Staff began to supervise the policy and practice of War Department purchases.

Competition Among Bureaus Eliminated.

The new division has arranged to centralize the purchase of commodities falling within the same classification in the hands of one bureau so that now, for instance, one bureau instead of five, as heretofore, purchases all leather goods for the whole Army, and similarly for cotton, hardware, and all the usual trade classification of materials. This single step has eliminated competition among the bureaus, centered technical purchase among expert purchasers in each commodity, reduced the personnel engaged in specialized purchase, simplified the control of purchase methods, and resulted in the saving of a great deal of money to the Government.

Investigations were made to determine which of the five bureaus was best qualified to act as the sole War Department purchasing agency for each commodity. Decision has been made in nearly all cases of conflict.

There has been set up in each bureau boards of awards which are the ultimate authority on the awards of all important contracts. These boards are composed of

PRESIDENT OF FRANCE PRAISES U. S. TROOPS

The White House makes public the following cablegram from the President of France replying to President Wilson's Fourteenth of July message:

The French national holiday following the American Independence Day has afforded the two peoples another occasion to combine their sentiments and hopes. The message you were pleased to send me in honor of the 14th of July has reached the heart of France. Once more Paris has acclaimed General Pershing's magnificent troops which are already giving on the battlefields such striking evidence of their grand military quality. The great memories that united our two countries are drawing from the war we are waging together a strength and vividness that nothing can impair. Right and Liberty have obliterated space and the ocean to bring even nearer together our two beloved Nations in the splendor of the same ideal.

RAYMOND POINCARE.

Carlisle Indian School to Be Used as Hospital

Secretary Lane, of the Interior Department, yesterday announced that the Indian school plant at Carlisle, Pa., has been turned over to the War Department for hospital purposes and for the rehabilitation and reeducation of sick and wounded soldiers.

CONTROL OF CHLORINE TAKEN OVER FOR THE GOVERNMENT

War Industries Board for Present Doing No More Than Allocate the Product.

The War Industries Board authorizes the following:

Owing to the shortage of chlorine in the United States, the War Industries Board, with the approval of the President, has passed a resolution taking over control of its production and distribution. For the present, however, the board is doing no more than allocate the product, and this is being done under the direction of H. G. Carrell, Chief of the Alkali and Chlorine Section of the War Industries Board.

Chlorine has a wide range of uses, the most important from the present Government point of view being in the manufacture of gas shells and in carbon tetrachloride, which is the basis of one of the most effective smoke screens and also of the best fire extinguishers.

One of the most important commercial uses of chlorine is in the bleaching of paper and various cloth fabrics.

MANUFACTURERS ARE WARNED AGAINST RESELLING OF STEEL

The War Industries Board authorizes the following:

The attention of the War Industries Board has been called to the fact that certain manufacturers, now on the preference list for steel supply, are reselling steel that has been delivered to them as a result of Government priority assistance.

In order to prevent abuses of this priority privilege the board has passed a resolution that, if any such resales are made hereafter without the approval of J. Leonard Replogle, director of steel supply of the War Industries Board, the manufacturer who is responsible for those resales will be dropped from the preference list and will not receive further priority assistance.

FUEL ADMINISTRATION CHANGE.

Evans Woollen Succeeds Walter E. Hope as Bureau Director.

The United States Fuel Administration authorizes the following:

Walter E. Hope, who has been director of the bureau of State organizations of the United States Fuel Administration since its formation, has been compelled to return temporarily to his office in New York.

During his absence the bureau will be directed by Evans Woollen, Federal fuel administrator for Indiana.

NEW RULING ON IMPORTATION OF CONCENTRATES OF COPPER

The War Trade Board has issued the following:

Owing to some uncertainty regarding the application of the restriction imposed by the War Trade Board upon the importation of copper ore, the board has, by a new ruling No. 169, altered the original ruling to read that hereafter no licenses will be issued for the importation of copper concentrates containing less than 60 per cent of copper, except for shipments from Cuba, Canada, and Mexico. All outstanding licenses for the importation of copper concentrates containing less than 60 per cent of copper have been revoked as to shipments from abroad after July 20, 1918, except for shipments from the three countries above specified, from which copper ore may be imported.

This restriction is not to be construed as affecting the importation from any nonenemy country of copper matte or blister copper, or copper concentrates containing 60 per cent or more of copper.

The purpose of the new ruling, as of the former one, is to bring about the ocean transportation of copper in a concentrated form rather than as the bulkier ore.

RESTRICTIONS ON IMPORTATION OF COPRA HAVE BEEN RESCINDED

The War Trade Board issues the following:

The limitations imposed by the War Trade Board (W. T. B. R. 148, published June 25, 1918), upon the importation of copra (coconut meat broken, but not shredded, desiccated, or prepared) have now been rescinded. Licenses which were then revoked have now been reinstated and new applications for licenses to import copra will be considered.

On the other hand the restriction then imposed upon the importation of shredded, desiccated, or prepared coconut meat (otherwise known as "Ceylon copra") remains in force and (according to this new ruling, W. T. B. R. 168) none will be admitted except such ocean shipments as were made on or before June 30, 1918.

Two American Aviators Are Prisoners in Germany

The War Department authorizes the following:

The War Department is in receipt of information that Aviator William Plyler is a prisoner at Camp Karlsruhe, Germany. This is believed to refer to Second Lieut. William H. Plyler, Signal Corps, who gave his emergency address as Mrs. Loula Plyler, mother, Kershaw, S. C.

The War Department is also in receipt of information that Aviator Clarence Shoninger is a prisoner of war and is slightly wounded. The name of the prison camp where he is interned is as yet unknown to the department. From information obtained from unofficial sources, it would appear that this prisoner was a sergeant in the Lafayette Escadrille.

U. S. FUEL ADMINISTRATION RESTRICTS THE USE OF COAL BY PRIVATE COUNTRY CLUBS

WOOD AND PEAT ARE NOT BARRED

Applies to Associations Organized for Participation in Outdoor Sports and Depending Upon Membership Dues for Maintenance.

The United States Fuel Administration has issued the following:

It appearing to the United States Fuel Administrator, in view of the necessity for conserving the country's resources for the prosecution of the war, the increased demand for fuel for industries engaged in the production of munitions and commodities required in the conduct of the war, and the fact that owing to the limitations upon transportation facilities and other causes resulting from the war there is an insufficient supply of fuel for those purposes, and also for all the other purposes for which it was used in normal times, that it is essential to the national security and defense, for the efficient and successful prosecution of the war, and for the support and maintenance of the Army and Navy to restrict the consumption of fuel in certain of its uses, and among such uses is that of furnishing heat for private country clubs, and the United States Fuel Administrator hereby finding that is is reasonable and just to deny the use of fuel to private country clubs, and that such order will contribute to the successful outcome of the war through the release of fuel for war purposes, and will result, with other limitations upon the use of fuel in various lines of industry, in an equitable distribution and apportionment of fuel among consumers, in accordance with the relatively essential nature of their products in the prosecution of the war:

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917,

Text of Regulation.

Hereby makes and establishes the following regulation, effective until further or other order and subject to general or specific modification hereafter from time to time and at any time:

REGULATION RESTRICTING FUEL CONSUMPTION BY PRIVATE COUNTRY CLUBS.

The term "private country club" in this regulation shall be construed to include any club or association organized wholly or in part for participation in outdoor sports and depending for its maintenance upon dues of individual members.

During the period from December 1, 1918, to April 1, 1919, no private country club shall burn or use fuel of any description, including coal, coke, natural gas, fuel oil or other petroleum products, or use power derived from any such fuel for purposes of heating or cooking, excepting:

First. This regulation shall not be construed to prevent or restrict the use of wood or peat for heating or cooking purposes by any country club when such wood or peat is available without the use of railroad transportation.

Second. Any private country club may use or burn fuel other than wood or peat for heating or cooking purposes on receiving a permit for such use from the United States Fuel Administration. Such permit may be granted upon receipt of a certificate from the fuel administrator for the State within which the country club applying therefor is located that the fuel to be used can be spared for such purpose and that it is not against the public interest to grant such permit, or that the use of fuel for heating or cooking purposes is necessary for the maintenance of the regular employees of such club, provided that in case a permit shall be granted for the reason last above mentioned such a permit shall authorize the use of only so much fuel as shall be necessary to furnish heat and cook food for the regular employees of the club.

Any person, firm, or corporation who shall violate or refuse to conform to this regulation will be liable to the penalties prescribed in the aforesaid act of Congress approved August 10, 1917.

H. A. GARFIELD,
United States Fuel Administrator.

CAMOUFLAGING OF MERCHANT SHIPS TO BE DIRECTED BY NAVY

Department and Shipping Board Come to Agreement as to Course to Be Followed.

The United States Shipping Board authorizes the following:

All camouflaging of ships built for the Shipping Board will hereafter be prescribed and supervised by the Navy Department. A decision to this effect has been reached at a conference held between representatives of the Navy Department and the Shipping Board. It was mutually agreed that camouflaging the ships for war service constituted a military requirement, and therefore the Navy should say how it is to be done.

The agreement provides as follows:

"The Navy Department will prepare the types and designs of camouflage painting for general use, and, where practicable, design of camouflage painting applicable to particular ships.

"These designs will be furnished the district camoufleurs through the camouflage section, division of steel-ship construction of the Emergency Fleet Corporation. The district camoufleur will use the design most applicable to the form and type of ship to be camouflage painted.

"The district camoufleur shall not change the principle of the design furnished by the Navy Department, but may adopt such design to suit the particular ship which is being camouflage painted."

The food YOU waste to-day may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

TWO HOUSING DIVISIONS OF GOVERNMENT IN FULL ACCORD

The Department of Labor authorizes the following:

A. Merritt Taylor, director of passenger transportation and housing, Emergency Fleet Corporation, called on O. M. Eidlitz, director of housing and transportation of the Department of Labor, in Washington yesterday, and at a protracted interview Messrs. Eidlitz and Taylor gave the following general statement:

"We have adopted policies whereunder our respective activities will be carried on in complete cooperation and accord to the end that duplication of effort will be avoided and maximum results will thereby be obtained for the Government at a minimum cost with maximum efficiency.

"We have a complete understanding whereby the activities of the United States Housing Corporation of the Department of Labor and the passenger transportation-housing division of the Emergency Fleet Corporation will at all times be fully informed with relation to their respective projects, procedures, and all matters relating thereto; and that all other information of the one department will be available for the use of the other at all times.

"One matter that has been causing us a great deal of concern in solving the problem of promptly supplying workers to the plants is inadequate passenger transportation facilities on electric railways.

"An investigation proves that there are difficulties inherent in this connection which make an immediate and complete investigation not only desirable but imperative.

"This investigation will be taken up by the two organizations jointly without delay."

NEW SYSTEM TO PROTECT GOVERNMENT IN BUYING

(Continued from page 1.)

officers other than those who have conducted the actual negotiations.

A superior board of awards, composed of one officer from each of the bureau boards, sits in the General Staff and passes on and presents to the Secretary of War for decision all questions of general policy, receives the instructions of the Secretary of War concerning such policies, and thus makes uniform throughout the War Department the execution of policies of purchase.

Over six weeks ago a committee composed of officers and civilians, whose duty has been to prepare the tens of thousands of contracts of the War Department, began an intensive study of every contrtct War Department in an endeavor to prescribe in the light of over a year's experience with war conditions the form of contract clauses that would best safeguard the interests of the Government, with a view to prescribing for instant use well-considered and practice-proved forms for every conceivable circumstance of purchase. This committee is about ready to make its report.

On June 1 the General Staff ordered that, except in cases of immediate necessity, no contracts should be made with sales agents, and that all War Department procurements should be negotiated either with the manufacturer or with clause and policy in every agency of the recognized jobbers carrying the stocks on hand from which they proposed to supply the Army.

In addition to this precaution steps have been taken in conjunction with similar steps in the War Industries Board to mobilize the industries of the Nation behind the needs of the War Department.

In order to regulate purchases in accordance with the appropriations of the department, an improvement in fiscal accounting has just been introduced. On July 1, an analysis of all War Department appropriations was reported to the Secretary of War in such a way as to show the precise status of each congressional appropriation on the close of the preceding day's business. These reports are now made daily.

Reports Every Night.

A bureau has been created which receives the reports from each department at the end of the day's work. A force of clerks works at night on these reports and has ready by the following morning the totals for the Secretary of War and the General Staff.

In addition to the review boards, a mechanical system for the analysis, comparison, and administrative scrutiny of every procurement transaction, great or small, is being set up in the General Staff. By this system the essential details of every contract are tabulated and checks made to determine the cause of any variation of price or standard.

There is also operating a single real estate office which is handling all real estate transactions.

The function of commandeering, requisitioning, and issuing compulsory orders to the whole war machine has been centralized and intrusted to the General Staff as has also the determining of just compensation for all property commandeered and requisitioned for the War Department. Agencies for these purposes have been fully organized and have passed the stage of routine accomplishment.

Record of Industrial Controversies Adjusted During Week Ending July 13

The Department of Labor authorizes the following report of the Division of Conciliation, Department of Labor, for the week ending July 13, 1918:

Adjustments Reported.

EXECUTIVE ORDER.

Mr. Samuel Myer may be reinstated to an appropriate position in the Government Printing Office, without regard to the length of time that he has been separated from the service.

This order is issued upon the recommendation of the Public Printer, who states that he concurs in the opinion of his predecessor that an injustice had been done, and that in his judgment Mr. Myer deserves an appointment to an appropriate position in the Government Printing Office.

WOODROW WILSON.

THE WHITE HOUSE,
July 5, 1918.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily—
- One year $5.00
- Six months 3.00
- One year, postage prepaid to foreign countries 8.00
- Six months, postage prepaid to foreign countries 4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

EXPECT TO PLACE DISABLED SOLDIERS AT USEFUL WORK

The War Department authorizes the following statement from the office of the Surgeon General:

Many well-intentioned individuals have offered to take crippled soldiers into their service as watchmen, messengers, and in positions of similar character. While the spirit in which these offers are made is appreciated, they conflict with the policy of the Medical Department of the Army.

From the time a wounded soldier is taken to the field hospital he is encouraged to understand that the seriousness of his wounds will not render him worthless for useful work. The work of reconstructing him both physically and mentally is carried on simultaneously.

At the present time there are many soldiers in the Army hospitals in this country who have been crippled in the course of duty. In many cases these men are receiving the preliminary training which will be finished by civil boards authorized to continue the work begun by the Surgeon General. It is hoped that business men in general will accept these trained men on an equal footing with men who have not been crippled. These men will receive a training which will make them competent in the trade or profession which they elect to follow.

Special Orders, No. 159:

15. Col. Charles S. Wallace, Signal Corps, is relieved from his present duties and will report in person to the Chief Signal Officer of the Army for duty in his office.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 62.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 15, 1918.

Section A.—East of Chateau Thierry, where the enemy succeeded this morning in crossing the Marne on our front and gaining some ground, our troops counterattacked and drove the enemy back to the Marne, taking 500 prisoners. In the Vosges, five trench raids attempted by the enemy broke down under our fire.

Section B.—Nothing for this section.

Saving in Tonnage Space by Dried Fruit Shipments

The War Department authorizes the following:

Another saving in tonnage space has been effected by the Quartermaster Corps in the shipment of dried fruits for the use of the American Expeditionary Forces. Fruits will be shipped thoroughly dried instead of in the semidried condition in which they are found in commercial markets.

Considerable tonnage will be saved, as prunes, dried apples, and dried peaches are largely consumed by our troops overseas. The new practice of shipping the fruits thoroughly dried will also act as a preventive against spoilage and worms.

Nominations Sent to Senate

Nominations sent to the Senate July 12, 1918:

Capt. George R. Clark, to be Judge Advocate General of the Navy, with rank of rear admiral, for a term of four years.

Andrew C. Witherspoon, of Pennsylvania, to be junior hydrographic and geodetic engineer, Coast and Geodetic Survey.

Henry W. Hemple, of Illinois, to be aid in Coast and Geodetic Survey.

Lieut. Col. Kenneth Morton, to be colonel, Ordnance Department.

Also a number of appointments in the Medical Corps of Army.

SENDING WOMEN TO ITALY.

The division on woman's war work, Committee on Public Information, issues the following:

American women who speak Italian fluently and who are trained in social-service work are being sent to Italy by the American Red Cross to help with the refugees and children, to conduct soup kitchens and nurseries, and to organize and carry on other forms of relief work, according to the statement of the American Red Cross.

For service with the American Red Cross Commission to Italy, a small number of women is being supplied as stenographers and warehouse clerks. Passport regulations which affect women sent to France apply also to workers going to Italy.

LATEST BRITISH REGULATIONS RELATING TO WAR-TIME BOOTS

Consul Franklin D. Hale, Huddersfield, England, transmits the following:

The Yorkshire Post publishes the latest Government regulations relating to war-time boots, a recent issue stating:

The list of Government war-time boots [see Commerce Reports for Jan. 22 and Feb. 6, 1918] has again been increased, and there are now 79 varieties on the market. To meet the demands of manufacturers the whole of these have been recently revised, and to cover additional cost of leather and the extra wages paid in the form of war bonuses to operatives an all-round advance of 5 per cent is quoted. The lowest price at which a child's stout split laced boot can now be obtained is 8s. 6d. [$2.06] per pair, and the maximum chargeable is 29s. 6d. [$7.18] for a man's waxed kip walking boot of medium substance and fair stitched. Both of these classes represent an advance of considerably over 100 per cent compared with pre-war prices, yet it is claimed that they are lowest at which thoroughly reliable boots can now be provided.

[Samples of British war-time shoes are available for inspection at the New York and Boston offices of the Bureau of Foreign and Domestic Commerce under file No. 20076.]—Commerce Reports.

Pay Rate for Temporary Postal Service Duty

OFFICE OF FIRST ASSISTANT POSTMASTER GENERAL,
Washington, July 3, 1918.

The appropriation bill for the fiscal year ending June 30, 1919, which has just been passed by Congress, provides that all auxiliary and temporary clerical and carrier service, and substitute service in place of clerical employees, laborers, and city carriers on vacation shall be paid for at the rate of 40 cents an hour.

On account of the delay in passing the appropriation bill it was impossible to issue allowances for such service prior to July 1. These allowances, based on estimates submitted by postmasters at first and second class post offices, will be issued at the earliest date practicable.

J. C. KOONS,
First Asst. Postmaster General.

WORK OF CONGRESS BRIEFLY TOLD

Senate and House conferees on the oil-land leasing bill which was passed by both Houses before the recess and is now in conference, have decided to lay the whole matter aside during the recess. The decision was reached yesterday to defer all further conferences until August 26. This bill, among other things, involves the disposition of the California naval reserve lands.

Neither House of Congress was in session yesterday. They will meet briefly under their respective agreements tomorrow and adjourn at once until next Monday.

Navy Men Not Affected by Overseas Parcel Ban

OFFICE OF THIRD ASST. P. M. GEN.,
Washington, July 12, 1918.

Referring to departmental order No. 1259 of March 28, 1918, and the instructions of this office pertaining thereto dated April 8 and May 31, 1918, prohibiting the acceptance for mailing to members of the American Expeditionary Forces in Europe of parcels containing articles which are not being sent at the written request of the addressee, approved by his regimental or higher commander or an executive officer of the organization with which he is connected, postmasters are advised that such restrictions do not apply to parcels addressed in care of the postmaster at New York, N. Y., to the officers and men on board United States naval vessels or attached to naval bases and not addressed to the American Expeditionary Forces in France.

A. M. DOCKERY,
Third Asst. Postmaster General.

Next Liberty Loan Bonds Being Rapidly Engraved

The Treasury Department makes public the following:

Bonds of the fourth Liberty loan are now being turned out by the thousands daily by the Treasury's Bureau of Engraving and Printing. The bonds are similar in form and design to those of the third loan, and space has been left on each bond for insertion of the exact terms of the bonds.

It is believed that a sufficient number of the bonds will be ready to make possible immediate delivery of all bonds of the fourth loan as they are purchased.

NO CHANGES IN PERSONNEL.

The Railroad Administration has issued the following:

CIRCULAR NO. 11.

In several instances railroad systems have been divided or combined for purposes of operation. This will produce no effect upon the accounting organization or personnel of those railroads, which will remain and act exactly as in the past until instructions are issued from this office.

C. A. PROUTY,
Director, Division of Public Service and Accounting.

Notice on "Prevention of Waste of Food" Sent Naval Commanders

Rear Admiral Samuel McGowan, Paymaster General of the Navy, has sent the following, on "Prevention of Waste of Food," to all commanders in chief, commanding officers and commandants:

1. One of the principal purposes for creation of the United States Food Administration was to insure an adequate and always dependable supply for the fighting forces—a recent official circular giving as one of Food Administration's four aims:

"To feed our own sailors at sea and our soldiers overseas, that they may want for nothing."

2. This includes, of course, not only the stimulation of production so as to effect the necessary increase, but also the conservation of the visible supply, wherever it may be.

3. In so far as the Navy is concerned, this means not any reduction at all in the quantity, quality or variety of the subsistence furnished (for that should and shall be the very last extreme of conservation, by no means necessary thus far), but the practice of careful economy at all times and the elimination of all avoidable waste; in particular, that nothing be thrown overboard or otherwise destroyed that can properly be used.

4. In this way the Navy can best render the most appreciative and helpful cooperation in the Food Administration's great work.

5. The service has responded whole-heartedly to previous letters on this subject and the conservation work already done and being done in the Navy is realized and appreciated; but, with the immense increase in personnel, it is deemed desirable to once more point out the necessity for the greatest care and the most complete cooperation along the established lines of conservation.

6. This letter will, accordingly, be given the widest possible service publicity—especially among officers and others who have recently come into the Navy; and it is requested that any special measures successfully tried out ashore or afloat in pursuance of the Department's wishes in this matter may be reported promptly and in detail so that the same may be distributed for information and, if practicable, for general adoption.

Reduction in Rates for Airplane Mail

OFFICE OF POSTMASTER GENERAL,
Washington, June 26, 1918.

ORDER NO. 1617.

Effective July 15, 1918, the Postal Laws and Regulations are amended so that paragraph 2 of section 399½ shall read as follows:

Mail carried by aeroplane shall be charged with postage at the rate of 16 cents for the first ounce or fraction thereof and 6 cents for each additional ounce or fraction thereof, of which 10 cents shall be for special-delivery service. Such mail shall consist of matter of the first class, including sealed parcels not exceeding 30 inches in length and girth combined. The postage on aeroplane mail shall be fully prepaid with special aeroplane postage stamps or with ordinary postage stamps. When the latter are used the mail should be indorsed "By aeroplane."

A. S. BURLESON,
Postmaster General.

Prohibition of Imports in the Windward Islands

The British Embassy has notified the Department of State of the publication of a list of articles prohibited from importation by steamer into the Windward Islands (Grenada, St. Vincent, and St. Lucia), effective July 19.

The articles prohibited are the following: Arms and ammunition of all kinds; traveling bags, trunks and valises; baskets of all kinds; carriages, carts, and wagons, bicycles and tricycles of all kinds, motor cars and motor vehicles; chinaware or porcelain; earthenware and pottery; clocks and watches; furniture of all kinds; glass, glassware of all kinds; jewelry; musical instruments of all kinds, including phonographs; perfumery of all kinds, including perfumed spirits; plate, plated ware; toys and games of all kinds.

Auctioning of Refused or Unclaimed Freight

U. S. RAILROAD ADMINISTRATION,
Washington, July 10, 1918.

GENERAL ORDER NO. 34.

Carriers subject to Federal control shall sell at public auction to the highest bidder, without advertisement, carload and less than carload nonperishable freight that has been refused or is unclaimed by consignee and has been on hand for a period of 60 days. The consignee, as described in the waybilling, shall be given due notice by mail of the proposed sale.

Perishable freight shall be sold whenever in the judgment of the agent or other representative of the carrier it is necessary to do so, such reasonable effort being made to notify the consignee as described in the waybilling as the circumstances will permit.

The place of sale of both nonperishable and perishable freight shall be determined by the carrier. The net proceeds, if any, after deducting freight and other legitimate expenses, will be paid over to the owner on proof of ownership.

W. G. MCADOO,
Director General of Railroads.

NAVAL COMMANDER AWARDED MEDAL FOR RESCUING FIREMAN

The Navy Department authorizes the following:

Commander Henry C. Mustin, United States Navy, has been awarded a gold life-saving medal on the recommendation of the Secretary of the Navy, for his heroic action in jumping overboard in a heavy sea and rescuing a fireman from drowning. The medal has been received from the Treasury Department and forwarded to him.

Bore Fireman's Whole Weight.

On January 15, 1918, Commander Mustin rescued Fireman H. L. Le Gette. An exceptionally heavy sea was running at the time and the vessels of the fleet were rolling heavily. Commander Mustin put a bowline around his body, jumped overboard, seized Le Gette with one arm, wrapped both legs around him, and they were both hauled to the main deck. He bore the whole weight of Le Gette, a heavy man, when seas receded from under them. His action entailed the risk of being crushed against the ship's side or under a 5-inch gun, and was done skillfully, at exactly the right time, and in the right manner. Secretary Daniels commended Commander Mustin for his coolness, courage, and readiness to meet an emergency, and recommended that a gold medal be awarded him.

Commended for Maneuvering of Ship.

The commander was also commended for his prompt and efficient maneuvering of the ship during his temporary command on the bridge, so as to bring it into position in the quickest possible time.

Commander Mustin was born in Pennsylvania on February 6, 1874, and was appointed to the Naval Academy on September 6, 1892, from the first congressional district of Tennessee. On May 6, 1898, he was appointed an ensign; on May 6, 1901, promoted to lieutenant (junior grade); on March 21, 1903, to lieutenant; on June 24, 1909, to lieutenant commander; and on July 1, 1917, to commander.

His wife, Mrs. Henry C. Mustin, resides at 233 Harvey Street, Germantown, Philadelphia, Pa.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 15, 1918.

RECEIPTS.

Customs receipts	$522,506.89

Additional List of American Prisoners and the Camps Where They Are Held

The following additional list of American prisoners of war is made public by the War Department:

Name.	Rank.	Emergency address.
CAMP DARMSTADT.		
McWhirk, Harry F	Corporal	Mrs. Catherine L. McWhirk, 227 Talbot Avenue, Dorchester, Mass.
Curtin, Edward J	do	Jerome Curtin, 12 Conant Street, Roxbury, Mass.
Riley, Michael E	Private first class	Geo. L. Jones, 18 Pittsburg, Boston, Mass.
Carlson, Harold	Sergenat	Mrs. E. C. Carlson, 83 Lansdale Street, Dorchester, Mass.
McDonald, George J	Private	Mrs. Rachael McDonald, 2558 Washington Street, Roxbury, Mass.
Daley, Frank	do	Mrs. H. E. Daley, 66 Garfield Street, Hyde Park, Mass.
Kirk, Thomas J	Sergeant	Mrs. Mary Kirk, 229 Spring Street, Medford, Mass.
Nelson, George	do	Mrs. Constance Nelson, 157 Church Street, Bristol, Conn.
Cropper, Charles	Private first class	Walter Cropper, 76 Dagget Street, New Haven, Conn.
Sturgeon, Charles F	Private	Mrs. Bertha Sturgeon, 2 Mill Street, Bristol, Conn.
Carione, Tony	do	Patsy Carione, 13 George Street, Norwalk, Conn.
Mulfitano, Francesco	do	Alasanto Mulfitano, State Street, Port Chester, N. Y.
Ready, Austin M	Private first class	Mrs. Mary Redfield, 245 Custer Avenue, Jersey City, N. J.
Prunier, Edward W	do	Albert E. Prunier, 248 W. Hazel Street, New Haven, Conn.
Owen, Harold	Private	Mrs. Owen, 48 Elliott Street, New Haven, Conn.
Johnson, Frank L	Private first class	Ira C. Johnson, 12 Huntinghill Avenue, Middletown, Conn,
Robinson, Lionel S	do	Mrs. Mary E. Robinson, R. F. D. Box 104, East Hampton, Conn.
Cuzzipoli, Battiste	Private	Antonio Cuzzipoli, R. F. D. 55, Springdale, Conn.
Murray, Edward J	do	Mrs. Elizabeth Murray, 24 Berlin Avenue, Southington, Conn.
Minor, John A	do	Mrs. Ellen Minor, 1190 Whalley Avenue, New Haven, Conn.
Narowski, Frank	do	Ludvika Kapusta, 8 Water Street, Derby, Conn.
Turning, Ejnar J	do	Ernest Turning, 83 Prospect Street, Middletown, Conn.
Pope, Edward M	do	Frank E. Pope, Hardwick, Vt.
Chappa, William J	do	John Chappa, Box 33, Saugatuck, Conn.
Sexton, James	do	Mrs. M. F. Burks, 31 Fairview Street, Brattleboro, Vt.
Fortin, George N	do	William O. Fortin, 433 Dexter Street, Central Falls, R. I.
Ouellette, Oliver J	Private, 1st cl.	Alfred Ouellette, Lyndonville, Vt.
Moreau, Hermand F	Private	Mrs. C. Moreau, 34 Cabet Street, Providence, R. I
CAMP GIESSEN.		
Preston, Charles W	Private	Charles W. Preston, sr., 51 Manor Road, Wynnewood, Pa.
Thorpe, Harry F	do	Mrs. Harriet B. Thorpe, 224 Hillside Avenue, Waterbury, Conn.
Wright, William J	Private, 1st cl.	Minturn T. Wright, Chestnut Avenue, Chestnut Hill, Pa.
CAMP LIMBURG.		
Eaton, Paul W	Lieutenant	Mr. Eaton, 712 First Street, Jackson, Mich.
CAMP NOT KNOWN.		
Morris, John W	Lieutenant	George Morris, care Senator Shields, Washington, D. C.
Tibbetts, Guy D	do	Mrs. Guy D. Tibbetts, Bennington, N. H.
White, John A	do	Mrs. John A. White, Duncan, Okla.

Emergency Addresses of Officers and Men Awarded Distinguished Service Crosses

The War Department authorizes the following list of emergency addresses of officers and men mentioned in the American Official Communique, No. 57, as having received distinguished service crosses:

Pvt. Joseph R. Blair, Company H, 104th Infantry, slightly wounded March 18. Albert Blair, father, 82 State Road, North Adams, Mass.

Pvt. Joseph J. Cannon (files show Pvt. Joseph J. Gannon), Company E, 104th Infantry, slightly wounded Apr. 12. Mrs. James T. Gannon, mother, 8 Winship Street, Brighton, Mass.

Sergt. John J. Courtnay (files show Sergt. John T. Courtnay), Company L., 104th Infantry. Mrs. George Banforth, sister, 22 Bolton Street, Waltham, Mass.

Pvt. William R. Davis, Company E, 104th Infantry, severely wounded April 12. May Taylor, friend, 566 North Main Street, Brockton, Mass.

Second Lieut. Allen K. Dexter (files show Second Lieut. Allan F. Dexter), Company H, 104th Infantry. Wallace D. Dexter, father, 50 Congress Street, Boston, Mass.

Pvt. Charley M. Dodge, Sanitary Detachment, 104th Infantry. Mrs. August W. Dodge, mother, 53 Buckingham Street, Springfield, Mass.

Pvt. Howard P. Fitzgerald, Co. F, 104th Infantry, severely wounded April 9, died April 11 from wounds received in action. Mrs. Michael Fitzgerald, mother, 47 Moreland Avenue, Springfield, Mass.

Pvt. Glen Hill, Infantry, Camp Custer, Replacement Detachment, First Company. Gladys Lewis, sister, Cedar Springs, Mich.

Corpl. Russell A. Hoyt, Company E, 104th Infantry, killed in action April 12, 1918. William Hoyt, father, 232 Putnam Avenue, Cambridge, Mass.

Sergt. Lee P. T. Jacques, Company L, 104th Infantry. L. W. Jacques, father, 32 Lincoln Street, Greenfield, Mass.

Pvt. Elmer L. Lane, Company F, 104th Infantry, severely wounded, April 12, 1918. Fletcher S. Hyde, friend, 91 Barrister Hall, Boston, Mass.

Pvt. Alfred P. Lee [files show Cook Alfred P. Lee], Company L, 104th Infantry. Mrs. P. J. Lee, mother, 27 Highland Avenue, North Hampton, Mass.

Pvt. Walter J. McCann, Sanitary Detachment, 104th Infantry. T. T. McCann, father, 48 Sheldon Street, Springfield, Mass.

Pvt. Chas. Merino [files show Corpl. Chas. Merino], Company K, 132d Infantry. Mrs. Hattie Merino, mother, 2207 Iowa Street, Chicago, Ill.

Pvt. Chas. Merino, Company L, 104th Infantry. Mrs. Elizabeth Merino, mother, 38 Fleet Street, Boston, Mass.

Pvt. Kenneth B. Page, Sanitary Detachment, 104th Infantry. Frank K. Page, father, 116 Ingersoll Avenue, Springfield, Mass.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

The following casualties are reported by the Commanding General of the American Expeditionary Forces, the emergency address following immediately after the names:

Killed in action	38
Died from wounds	16
Died of disease	4
Died of aeroplane accidents	2
Died from accident and other causes	6
Severely wounded	96
Missing in action	9
Prisoner	1
Total	172

Killed in Action.

SERGEANTS.

Ralph Cox. John N. Cox, Sharpsville, Ind.
Charley Davis. Mark Davis, Washington, N. C.

CORPORALS.

Dave Davis. A. J. Connor, Soddy, Tenn.
Claude Roy Harper. Mrs. Hattie P. Harper, Social Circle, Ga.
Samuel M. Krafft. Mrs. Effie Krafft, 215 Curgohogo Street, Akron, Ohio.
Luke Napodano. James Napodano, 203 First Street, Brooklyn, N. Y.
Harry Peters. Peter Peters, 1342 Page Street, Toledo, Ohio.
William Henry Salvador. Mrs. A. M. Salvador, 1227 North Forty-second Street, Philadelphia, Pa.
Cook Joseph Wallace Hoce. Mrs. Pearl Hoce, Salisbury, N. C.

PRIVATES.

Charles Afremoff. A. Schafter, 1778 Park Place, Brooklyn, N. Y.
Alonzo P. Baldwin. William D. Baldwin, 1445 Dean Avenue, Des Moines, Iowa.
Samuel Belinski. M. Belinski, 275 Lexington Avenue, Bridgeport, Conn.
Joseph Bucior. Miss Michaelina Bucior, 168 Marion Avenue, Buffalo, N. Y.
Bradley Burkhart. Isaac Burkhart, McRoberts, Ky.
George H. Downing. Charles H. Downing, R. F. D. No. 1, Natural Bridge, N. Y.
James A. Dunham. Miss Hazel Havener, Whiting, Kans.
William Ellison. Mrs. Laura Ellison, 206½ West Twelfth Street, Elmira Heights, N. Y.
Roy Lee Finney. A. L. Finney, Cambridge, Kans.
Edwin Lewis Frank. G. Frank, Constableville, N. Y.
Frank Bernard Huddleston. Mrs. A. B. Myles, Melbourne, Fla.
Morris Krupot. Max Rabinowitz, 620 Stone Avenue, Brooklyn, N. Y.
Samuel Lemma. Mrs. Mary Lemma, Canandaigua, N. Y.
Nick Mainus. Miss S. Mainus, Ageia Cania, Greece.
Joe Patrick Meagher. Mrs. Sarah Meagher, Lillis, Kans.
Robert E. Mitchell. Miss Ruth Mitchell, 26 South Water Street, New Haven, Conn.
Charles Ernest Montague. Charles Montague, 619 Willow Street, Hoboken, N. J.
William Newsbaum. Mrs. William H. Newsbaum, 406 South Fifth Street, Fulton, N. Y.
Samuel Roscoe Nicholas. Mrs. Ester Nicholas, Tullahoma, Tenn.
Earl Conrad O'Brien. Mrs. Martin O'Brien, Ronceverte, W. Va.
John O'Connor. Mrs. Ruby O'Connor, 211 O'Gorman Street, Elmira, N. Y.
Charles E. Patterson. James Patterson, Paola, Kans.
James H. Poe. John W. Poe, Laurel Bloomery, Tenn.
Joe D. Pulliam. James R. Pulliam, Round Bottom, Va.
Charles A. Schiavone. Alphonse Schiavone, 20 West Clay Street, Waterbury, Conn.
William Seibert. Mrs. Celia Figley, 649 Forest Drive, Hagerstown, Md.
Donald C. Stough. Charles Stough, Lander, Wyo.
John Joseph Tesoro. J. Tesoro, 738 Freemont Avenue, New York, N. Y.
Milton E. Van Pelt. E. W. Van Pelt, 430 East One hundred and fifty-fourth Street, Bronx, New York, N. Y.

Died from Wounds.

LIEUTENANTS.

Scott L. Lennen. F. W. Lennen, Soldier, Kans.
Harold Cotthurt Mills. Rev. S. A. Mills, 1 Winslow Avenue, Troy, N. Y.

SERGEANTS.

John J. Hogan. Thomas D. Hogan, 205 Boar Street, Syracuse, N. Y.
Newton Louden. Mrs. Arttie Offutt, Humansville, Mo.

CORPORALS.

Ernest Benedict. George Benedict, McLean, Ill.
Gerald D. Fitgerald. James J. Fitzgerald, 3141 Kingsbridge Terrace, New York, N. Y.
Nathaniel McConahy. Mrs. William Rouse, 833 Franklin Avenue, New Castle, Pa.
William H. Parsons. Robert T. Parsons, Sandy Hook, Ky.

PRIVATES.

Joseph J. Butler. Peter J. Butler, 45 King Street, Burlington, Vt.
Max Feinsod. Mrs. Lena Feinsod, 402 Hunterdon Street, Newark, N. J.
Raymond Harrison. George T. Harrison, 21 Winthrop Street, Torrington, Conn.
Frank W. Manning. Mrs. William G. Manning, 43 Riverdale Avenue, Newton, Mass.
Edward A. Nelson. Mrs. Sadie Nelson, 506 Middlesex Street, Lowell, Mass.
Ernest Paeschke. Robert Paeschke, R. F. D. No. 2, Junction City, Oreg.
John Oscar Pearson. Mrs. Anna Lind, 238 Harrison Street, Elyria, Ohio.
Van R. Tolford. J. C. Tolford, Sand Creek, Mich.

Died of Disease.

Sergt. Gordon Bentley. G. H. Bentley, Pontiac, Ill.

PRIVATES.

Norman H. Hawkinson. Emanuel Hawkinson, R. F. D. No. 2, Weiser, Idaho.
Paul William Hornaday. Henderson Hiram Hornaday, R. F. D. No. 3, Royal Oak, Mich.
Nicola Piccoli. Mrs. Mary Tati, 205 Simpson Road, Ardmore, Pa.

Died from Aeroplane Accident.

Lieut. Abram R. Frye. Mrs. Martha Frye, 462 Riverside Drive, New York, N. Y.
Sergt. Robert Dunn. Martin Dunn, 2 Hubbard Avenue, Norwich, N. Y.

Died from Accident and Other Causes.

Wagoner Edwin H. Gray. Mrs. Sadie Christensen, General Delivery, Elsinore, Utah.

PRIVATES.

Harold A. Bracken. Mrs. Annie Bracken, 431 Rush Street, Chicago, Ill.
Francis J. Buckley. Mrs. Kate Buckley, 207 Ralph Avenue, Brooklyn, N. Y.
Lewis A. Burger. Mrs. Leona Burger, 1606 Eleventh Avenue N., Birmingham, Ala.
Donald L. Figenbaum. Christopher Figenbaum, 15146 Myrtle Avenue, Harvey, Ill.
William Laidlaw. W. A. Laidlaw, 419 Beacon Street, St. Paul, Minn.

Wounded Severely.

SERGEANTS.

Harper Clyde Burns. John S. Burns, Perkins, W. Va.
Joe Charles Collins. Mrs. Mary Collins, Winnebago, Minn.
Steward Fatland, Local 458, Northwestern Cooks Union, 45 Fourth Street South, Minneapolis, Minn.
Weldon Giles. Mrs. Dollie Giles, Leonard, Tex.
Joseph Hibbert. Thomas Hibbert, sr., 6240 Reedland Street, Philadelphia, Pa.
Elmer Charles Lindquist. Mrs. Matilda E. Lindquist, 413 Park Street, Hartford, Conn.
Robert A. Roper. Mrs. R. A. Roper, R. F. D. No. 6, Macon Road, Memphis, Tenn.
Albert S. Samples. Mrs. Mollie Rigsby, Richwood, W. Va.
Robert Sweed. Mrs. L. Ogden, 1713 Vine Street, Cincinnati, Ohio.

CORPORALS.

Noah Akers. Henry C. Akers, Beaver, Ky.
Steve Bajewicz. M. Ostapch, 4718 Steele Street, Frankfurt, Pa.
Harry N. Hall. Mrs. Isabelle Hall, 704 South Fifty-first Street, Philadelphia, Pa.
James M. Jones. J. L. Jones, R. F. D. No. 3, box 17, Williamston, N. C.
Robert E. McDonough. John McDonough, Soldiers' Home, Marshalltown, Iowa.
Edvige Mezzanotte. Gerolamo Mezzanotte, 185 West Lohan Street, Philadelphia, Pa.
Benjamin Napier. Elijah Napier, Toliver, Ky.
Bruce E. Neubig. Mrs. M. B. Merritt, R. F. D. No. 5, Oswego, N. Y.
Fred A. Rankin. Mrs. Mary E. Rankin, Estherville, Iowa.
Joseph W. Rice. Henry Rice, R. F. D. No. 6, Hornell, N. Y.
Morris Schuchman. Mrs. Sarah Schuchman, 2 East One hundred and twelfth Street, New York, N. Y.
Clarence E. Scott. Mrs. Julia E. Willes, 720 Madison Street, Wilmington, Del.
Willie Singleton. Samuel Singleton, Ritchie, Ky.
Musician John Branca. Mrs. Maria Branca, 225 Boss Street, Harrisburg, Pa.
Mechanic James Anthony Esposete. Mrs. Mary Esposete, 68 Wright Avenue, Jersey City, N. J.
Wagoner Abraham Zung. Morris Thea, 503 Bushwick Avenue, Brooklyn, N. Y.

COOKS.

Thomas J. Doherty. Mrs. Annie Doherty, Lower Campsie, County Derry, Ireland.
Arthur L. Kramer. E. C. Kramer, 2515 Court Street, Sioux City, Iowa.

PRIVATES.

Zachary Bailey. C. A. Bailey, Berwind, W. Va.
Joseph Beck. Mrs. Mary Hanikos, 2902 West Forest Street, Chicago, Ill.
Elisha Bedell. Benjamin Sargis, 12 Maple Street, New Britain, Conn.
Harry Berry. William Berry, Ogdensburg, N. J.
Ivan D. Berry. W. T. Berry, 608 West Washington Avenue, Council Bluffs, Iowa.
David V. Binkley. H. R. Warner, 708 Northwestern Avenue, Ames, Iowa.
Hubert Blayney. Gilbert Blayney, Olin, Iowa.
William F. Borchardt. Mrs. Martha Johnson, 304 West One hundred and fiftieth Street, New York, N. Y.
Robert O. Borgert. Barney Borgert, Brady, Mont.
Joseph Borowski. John Wyaaske, P. O. Box 614, Bessemer, Mich.
Paul L. Brady. Mrs. C. D. Brady, Whitesboro, N. Y.
Silas Delaney Branham. Mrs. Pollie Adcox, R. F. D. 3, Amherst, Va.
Lawrence E. Brooks. Mrs. Laura Brooks, 2701 South Eighth Street, Council Bluffs, Iowa.
Ray S. Brooks. Mrs. Mary Brooks, Radcliffe, Colo.
John Capuziello. Frank Capuziello, 86 Elm Street, Lawrence, Mass.
Sol B. Cohn. Miss Rose B. Cohn, 832 Eighteenth Street, Oakland, Cal.
John Rufus Coolidge. Joel Bigelow Coolidge, 1214 Hemphill Street, Fort Worth Tex.
Royal Crook. Mrs. Nellie Crook, 429 Turin Street, Rome, N. Y.
Andrew Cushie. Mrs. Annie Cushie, Gilberton, Pa.
Paulo Dibotanica. Cammillo Dibotanica, High Street, Rochester, N. Y.
Archie Donaldson. Mrs. Nora Donaldson, Dexter City, Ohio.
Floyd Washington Donathan. Mrs. Icie Donathan, Falls Mills, Va.
Horace England. John England, Glasgow, Ky.
Robert Pressley Falls. Ebb Rhodes, Kings Mountain, N. C.
Inke G. Franklin. Mrs. Sally Franklin, Golden Pond, Ky.
Joseph H. Goodman. Mrs. Sara Goodman, 44 Church Street, Springfield, Mass.
Jesse Simpson Gustin. M. C. Gustin, Hanover, Kans.
Charles P. Hammer. Mrs. W. Case, Kingsley, Iowa.
Theodore Hargins. Mrs. Catherine McCarthy, 534 Penn Avenue, Irwin, Pa.

(Continued on page 8.)

RULING AS TO BONDS COVERING CREDIT FOR SHIPPING CHARGES

Instructions to Railroads Given in Circular on Accommodations to Patrons.

U. S. RAILROAD ADMINISTRATION,
DIVISION OF PUBLIC
SERVICE AND ACCOUNTING,
Washington, D. C., July 11, 1918.

P. S. & A. CIRCULAR No. 16.

As to the matter of bonds to be required in connection with the extension of credit for transportation charges as prescribed in paragraph (2) of General Order No. 25:

It should be carefully noted that the giving of a bond will only be permitted or required in certain cases. It is not open to the shipper or consignee to obtain credit by the mere giving of a bond; the cash rule, as explained in P. S. & A. Circular No. 9, must be observed unless the circumstances of each case are such that this can not properly be done. All bonds given for credit accommodations shall be taken in the name of W. G. McAdoo, Director General of Railroads, _____ (Name of Railroad).

Bonds of Two Classes.

Bonds covering the extension of credit will be of two classes, i. e.:

(1) To cover patrons transacting business at one or more points with one carrier: In such cases, applications for credit accommodations shall be filed with an agent of the carrier from which the credit is desired. Such applications shall show the station or stations at which the accommodation is desired and the maximum amount of credit applying to each station; such applications shall be transmitted to the treasurer having jurisdiction by such agent with his recommendations. If, in the judgment of the treasurer, credit should be granted he shall prepare a bond to cover the maximum credit desired and proceed to have it executed. When executed, he shall authorize the agent or agents at the stations at which the accommodation is desired to extend credit to the extent of the amount applicable to each station. Treasurers shall be the custodians of such bonds.

(2) To cover patrons transacting business at one point with two or more carriers: In such cases applications for credit may be filed with an agent of either of such carriers. Such applications shall state the carriers from which the credit is desired and the maximum amount of credit appliable to each carrier. Upon receipt of such applications by an individual agent, he shall proceed to obtain the joint recommendations of the agent of each carrier interested, after which the application with such recommendations shall be transmitted to the treasurer of the carrier with which the application was originally filed. Such treasurer shall thereupon act as provided in paragraph (1) hereof, and if the accommodation be granted or declined, he shall immediately notify the treasurer of each interested carrier of such action. If the accommodation be granted, treasurers of each individual carrier interested shall, upon receipt of notice thereof, authorize their respective agents to extend the credit.

(3) Failure to pay for transportation service within the prescribed credit period shall, as prescribed in General Order No. 25, automatically cancel the accommodation. Advice of such failure shall be promptly given by the agent with which the default occurs to the treasurer of the carrier he represents. If the bond covering such accommodation be in favor of two or more carriers, the treasurers of all such carriers shall be immediately advised of the default by the treasurer first receiving the information.

(4) In the event of default in payment of transportation charges within the credit period, and unless settlement is promptly made thereafter, the treasurer, having jurisdiction, shall take immediate steps to realize upon the bond applicable.

(5) The treasurer of each carrier shall, as often as once each year, review each credit authority and the bond in connection therewith in order to determine whether or not the conditions under which the authority was granted still exist and that the financial standing of the principals and sureties has not been impaired.

Bonds for Each Transaction.

(6) Bonds given to cover credit accommodations shall not include liability for the delivery of freights consigned to order notify prior to surrender of original bills of lading; bonds for each bill of lading transaction must be given as provided for in paragraph (5) of General Order No. 25.

(7) Premiums on all bonds taken under the provisions of General Order No. 25, and all expenses incident thereto, shall be borne by the applicant to whom the accommodation is granted.

(8) It is realized that the instructions contained in this circular do not cover the many contingencies that may arise in connection with these credit matters, and agents and treasurers are therefore expected and are hereby directed to take whatever steps in their judgment may be necessary to properly and adequately protect the interests of the Director General and to prevent money losses.

C. A. PROUTY,
Director.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

(Continued from page 7.)

Henry J. Hartman. Harvey R. Hartman, 648 North Fourth Street, Allentown, Pa.
Robert E. Lee Hickey. Mrs. A. J. Vickus, Denton, Tex.
Charles Higgins. Simon Higgins, Ticonderoga, N. Y.
Elmer Horning. Mrs. Norah Horning, Chaumont, N. Y.
John E. Howe. Herbert W. Howe, Glenburn, Pa.
Vincent Hreben. Jerry Hreben, 5333 Winchester Avenue, Chicago, Ill.
Tony Jochumson. Fred Jochumson, 1503 Walnut Street, Cedar Falls, Iowa.
William L. Johnson. Frank Johnson, 204 West Third Street, Sioux City, Iowa.
Thomas J. Kilty. Mrs. Minnie Kilty, 6 Carter Street, Charlestown, Mass.
George Joseph Lang. Mrs. Anna Lang, Ottawa, Minn.
Charles Laquzza. Michael Maltono, 172 Canal Street, Cavastota, N. Y.
Jabez Crockett Laverty. H. Laverty, Dry Creek, W. Va.
Leroy Lawrence. C. A. Lawrence, Camden, N. Y.
William Legg. J. R. Legg, Grimms Landing, W. Va.
George E. Lewis. Mrs. Tompy Parks, Clifty, Tenn.
John Long Tail. Philip Long Tail, Winnebago, Nebr.
Eugene McCarthy. James McCarthy, 316 West Dominick Street, Rome, N. Y.
Howard Hutchinson McGee. J. W. McGee, Olathe, Kans.
Muir M. McKelvey. C. W. McKelvey, 1646 Magnolia Avenue, Los Angeles, Cal.
LeRue E. Martin. Mrs. D. R. Martin, Malvern, Iowa.
Albert E. Mayer. Emil Mayer, Westmoreland, Kans.
Ottaviano Pettineo. Miss Antonia Pettineo 42 Jefferson Street, Newark, N. J.
George Samuel Pinfold. James Pinfold, 7 Pendrell Street, London, England.
Harrison F. Rachow. George Rachow, Round Lake, Minn.
William C. Ramm. Carl Ramm, sr., Battle Creek, Iowa.
Ollis Guy Raworth. Ebenezi Raworth, Dorchester, Nebr.
George Francis Roberts. Mrs. Mary Roberts, 144 Delaware Avenue, Kingston, N. Y.
Anthony C. Rupp. Joceff Rupp, Catherine, Kans.
Clarence A. Schmidt. Mrs. J. P. A. Schmidt, 505 Howard Street, Le Mars, Iowa.
Max C. Shaw. Mrs. A. T. Perrson, 1513 Grove Street, Cedar Falls, Iowa.
Glenn Sheets. Mrs. Charles K. Sheets, R. F. D. No. 2, Holton, Ind.
James F. Silhanek. John Silhanek, 1307 South 57 Court, Cicero, Ill.
W. B. Spears. Mrs. Edwin Wilkinson, 178 South Spencer Street, Aurora, Ill.
Amos M. Tippins. Mrs. M. M. Tippins, 32 Fulton Terrace, Atlanta, Ga.
Dominik Tomkin. John Tomkin, 1720 Duschon Street, South Bend, Ind.
L. Troutman. J. W. Troutman, Lewis, Kans.
Earl M. Ward. Mrs. Eva Ward, Atlanta, Ind.
James Othnal Williams. Mrs. Ida Williams, 623 West Frisco Street, Oklahoma City, Okla.
Kenna James Williams. William R. Williams, Liverpool, W. Va.
Timothy W. Williamson. R. J. Williamson, Van Zant, Ky.

Missing in Action.

Sergt. Carl Samuel McKee. Charles D. McKee, Sibley, Iowa.

CORPORALS.

Charles Herschel Doane. Mrs. Mollie Doane, 1325 South Fifteenth Street, Terre Haute, Ind.
Earle E. Murphy. John E. Murphy, Homestead Avenue, Hartford, Conn.

PRIVATES.

E. E. Brunkow. August Brunkow, Wamego, Kans.
Robert E. McEnany. W. H. McEnany, Vancouver, Wash.
Mike Orestean. John Fleserin, Tenth Street, East Youngstown, Ohio.
John E. Sciullo. Mathew Sciullo, 74 South Elm Street, Waterbury, Conn.
James Joseph Shea. Mrs. Josephine Shea, 62 East Auburn Avenue, Cincinnati, Ohio.
James Whriteneur. Mrs. David Whriteneur, general delivery, Smiths Mills, N. J.

Prisoners.

Pvt. Effim Lehukey. Jacob Rach, 936 North Franklin Street, Philadelphia, Pa.

Naval Casualties

The Navy Department reports the following casualties:

Ensign Junius F. Andrews, United States Naval Reserve Force, died as the result of burns received in a seaplane accident at Chatham, Mass., July 13. Ensign Andrews was born in Chatham County, N. C., January 19, 1893. He enrolled in the United States Naval Reserve Force as seaman, second class, August 8, 1917, and was promoted to ensign February 22, 1918. His mother, Mrs. Augusta L. Andrews, resides at 913 Angier Avenue, Durham, N. C.

William J. Behan, chief quartermaster, United States Naval Reserve Force, was killed in a seaplane accident at Bay Shore, L. I., July 12. His mother, Mrs. Ellen Behan, resides at 489 Tenth Street, Brooklyn, N. Y.

U. S. Railroad Administration Issues Instructions Anent Revenues Derived from Interstate Passenger Traffic

P. S. & A. Circular No. 12.

Carriers Under Federal Control:

Pursuant to General Order No. 32, dated June 29, 1918, prescribing rules and regulations for the apportionment of revenues derived from interline passenger traffic, effective with the accounts for the month of June, 1918, and continuing during the period of Federal control, all carriers under Federal control will also be governed by the folowing:

Distance Tables.

1. For the present the mileages used in determining the passengers carried 1 mile shall be obtained from the Official Railway Guide or such other tables as may be published by the individual carriers covering points not shown in the Guide. As soon as it can be arranged the carriers under Federal control shall publish tables of distances from their junction points with other carriers to all points on their lines alphabetically arranged. The tables should show water transfer, bridge toll, and omnibus and baggage transfer arbitraries heretofore considered in the division of the fares, denoting where incurred.

2. Where roads under the General Order are to be allowed constructive mileage their distance tables should show both the regular and constructive mileage, with information as to the territory to and from which the latter should be applied.

3. Constructive mileage will not be placed in effect until all carriers so affected have published distance tables and placed same in the hands of other carriers with whom they interchange passenger traffic. Pending the distribution of distance tables of constructive mileage, two or more carriers directly concerned may arrange to apportion separately on this basis between their respective lines the passenger revenue derived from the sale of tickets at rates in excess of the standard three-cent per mile rate of fare as provided in the General Order.

4. Half distances should be used for half tickets and double the distance for round-trip tickets when routed both ways over the same line.

Apportionment Sheets.

5. Passengers carried one mile for the various roads need not be extended opposite each item on the apportionment sheets, but should be accumulated to a total at the bottom.

Arbitraries.

6. Arbitraries should not be considered separately in connection with each item, but should be drawn off on separate sheets showing a list of the roads alphabetically arranged with columns opposite in which to enter, under appropriate heading, the number of arbitraries at the various rates, these to be extended in the aggregate for each classified section of the apportionment to find the revenue as represented by such arbitraries to be allotted to each road. This should be done after the distances have been inserted on the apportionment sheets.

Division Slips.

7. Carriers should prepare division slips or cards covering their printed forms of tickets, as illustrated in Exhibits A, B, and C.

"A."—The distances from the junction point of the terminal carrier to destinations alphabetically arranged.

"B."—The distances for the intermediate carriers opposite the route in the heading with the distances from the junction point of the terminal carrier to destinations alphabetically arranged.

"C."—The distances to the selling stations from the points of interchange of the initial carrier.

Segregation of Sales by Classes.

8. When necessary to segregate the various classes of tickets agents should be required to use separate sheets in rendering reports of such items.

Prepaid Orders.

9. The value of prepaid orders, including war tax, shall be reported by the issuing carrier to the road on which drawn.

Exchange Orders and Tickets Issued in Exchange.

10. The revenue on account of exchange orders should be apportioned in the same manner as that for passage tickets, allowing the entire mileage beyond the point of exchange to the exchanging carrier. A separate apportionment should be made on account of tickets issued in exchange, the revenue allowed by the initial carriers on all exchange orders for lifted tickets to form the basis of such apportionment; such revenue should then be apportioned between carriers interested in the tickets issued in exchange on a passengers-carried-one-mile basis.

Redeemed Tickets.

11. The value of redeemed tickets, regardless of date of sale, shall be deducted currently from the total ticket sales and the passengers carried one mile accruing to interested carriers shall be reduced correspondingly before establishing the average revenue per passenger per mile.

Settlements for Tickets Honored Under Optional Route Interchange Arrangements.

12. A—The carrier over whose line the tickets read will settle with the honoring carriers.

B—Local tickets should be settled for at the rate at which such tickets were sold.

C—Home and foreign interline tickets should be settled for on a basis of the passengers carried 1 mile compiled for such tickets and extended by the average revenue per passenger per mile that was derived by the settling carriers from interline tickets of like class during the corresponding month.

D—Separate statements of the local and interline tickets should be sent to the carriers concerned on or before the 15th of the following month and the amount of revenue added to interline passenger traffic report to the honoring carriers for the current month.

Apportionment of Revenue on Account of Excess Baggage Collections.

13. Excess baggage revenue, including C. O. D. collections, shall be divided between all carriers under Federal control on basis of the miles in the aggregate compiled via the routes of the shipments. Storage and transfer charges included in C. O. D. checks shall be set up as arbitraries before arriving at the average revenue per mile and allowed to the carriers concerned. Roads not under Federal control should be allowed regular proportions on basis heretofore applicable.

Reports of Interline Passenger Traffic.

14. A—Monthly reports of interline tickets to carriers shall show description of all tickets issued, i. e., selling station, destination, form, consecutive numbers, and number of tickets sold in columns to denote the class. Distances for the honoring carrier should be shown opposite each item, omitting the individual extensions of the passengers carried 1 mile. At the close of the report the total passengers carried 1 mile applying to the sales that are divided on this basis shall be shown, the average revenue per passenger per mile, and the amount of revenue accruing to the carrier. To this should be added the amount of arbitraries, prepaid orders, correction account, etc. For the present standard Form 1, prescribed by the Railway Accounting Officers' Association, may be used. Later this blank should be revised, so that four columns will be provided for the distances to permit of making reports to two or more carriers in one writing by the use of carbon.

B—Monthly reports of excess baggage collections shall show the description of the checks, i. e., forwarding station, destination, form, number of check, and excess weight; the distances used in the apportionment will be inserted in columns to the right, opposite each item; the total miles in column at the bottom shall be extended by the average revenue per mile. Storage and transfer charges treated as arbitraries should be added. For the present standard Form 2, prescribed by the Railway Accounting Officers' Association, may be used. Later blank should be revised to permit of making report to two or more carriers in one writing.

C—The report of interline tickets issued in exchange for tickets of other companies' issues should show the particulars of the lifted tickets or exchange orders together with the description of tickets issued in exchange, using association standard Form No. 9.

D—Until otherwise ordered the arrangement for rendering advance report of interline exchange orders issued shall be discontinued, which carries with it the abolition of association standard Form No. 5.

E—The statement of corrections made by the initial carrier in subsequent

ITALY REQUISITIONS CHEESE IN CERTAIN OF THE PROVINCES

Consul General Wilber, at Genoa, reports:

The Gazzetta Ufficiale published at Rome, March 26, 1918, contains a new ministerial decree in regard to the requisition of cheese, reading, in part, as follows:

"ARTICLE 1. Dating from the day following the publication of the present decree there shall be effected for the commissariat-general for food supply and consumption the general requisition of cheese in the Provinces of Turin, Cuneo, Novara, Pavia, Milan, Brescia, Bergamo, Cremona, Mantua, Piacenza, Reggio, Emilia, Modena, and Bologna.

Qualities and Types.

"ART. 2. The qualities and types of cheese subject to requisition are: Grana reggiano-parmigiano; grana lodigiano; grana similar to reggiano; of Swiss type (Emmenthal, Sbrinz, Gruyère) and similar types; Provolone and cacio cavallo, fat, and half fat; Fontina, Branzi; half butter, lagazzo, similar to Monte, similar to Asiago, similar to Fontina; Bra; similar to Pecorino; of skimmed milk, fatted in any way, with butter, margarine; without fat.

"ART. 3. Dating from the day following the publication of the present decree, the making of any other type of cheese whatsoever than those indicated in the preceding article is prohibited.

"ART. 4. For the requisition of cheeses of any kind whatsoever which are produced in Provinces other than those indicated in the first article of the present decree, the commissary general for food supply and consumption will provide by delegations to the prefects.

"ART. 6. The general requisition applies to all goods produced up to the day following the publication of the present decree and to all that which shall be produced afterwards, whether by national or by foreign firms.

"ART. 9. Dating from the day following the publication of the present decree the sale of curd is prohibited."

Maximum Prices for Certain Varieties.

The same issue of the Official Gazette contains a decree fixing maximum prices for various types of cheese, as follows:

"Article 1. The following maximum base prices are established for the various types of cheese indicated below per quintal [220.46 pounds] and for goods on car station of departure:

"Cheeses grana reggiano-parmigiano, lodigiano, similar to reggiano of the production of 1916 and the preceding years, 450 lire. [At normal exchange the Italian lira is worth 19.3 cents United States currency.]

"Grana lodigiano and similar to reggiano vernengo of the production of 1917–18, 325 lire.

"Grana reggiano-parmigiano of production of the cheese year 1918–19, 500 lire.

"Grana similar to reggiano of production of the cheese year 1918–19, 460 lire.

"Grana lodigiano of production of the cheese year 1918–19, 460 lire.

"Caciocavallo and provolone half fat of production of the cheese year 1918–19, 450 lire.

"Caciocavallo and provolone fat of production of the cheese year 1918–19, 485 lire.

Table Cheese of Swiss Type.

"Table cheeses of the Swiss type (Emmenthal, Fribourg, Sbrinz, Gruyère) of production of the cheese year 1918–19, 495 lire.

"Gorgonzola, fresh, of production of the cheese year 1918–19, 325 lire.

"Gorgonzola, mature, of production of the cheese year 1918–19, 405 lire.

"Quartirolo, fresh, of production of the cheese year 1918–19, 300 lire.

"Quartirolo, mature, of production of the cheese year 1918–19, 360 lire.

"Cheese of the Alps (Asiago, Fontina, Bitto, Branzi, half butter, Bagozzo, of Monte and similar types) of production of the cheese year 1918–19, 440 lire.

"Bra cheese, half fat, of production of the cheese year 1918–19, 485 lire.

"Pecorino type of production of the cheese year 1918–19, 495 lire.

"Cheese from skimmed milk of production of the cheese year 1918–19, 345 lire.

"Cheese from skimmed milk, fatted in any way, of production of the cheese year 1918–19, 380 lire.

"Art. 2. As cheeses of production of the cheese year 1918–19, as ruled in the preceding article, are understood all those made later than April 30, 1918, except grana reggiano, for which the cheese year is considered as running from April 1, 1918."—Commerce Reports.

GOVERNMENT'S ATTITUDE ON EMPLOYMENT OF WOMEN IN WAR INDUSTRIES OUTLINED BY THE WAR LABOR POLICIES BOARD

The War Labor Policies Board authorizes the following:

The War Labor Policies Board has adopted a resolution setting forth the Government's attitude toward the employment of women in war industry. Its principles have been approved by all the production and distribution agencies of the Government. The policy adopted will govern the work of the Division of Women in Industry of the Department of Labor, of which Miss Mary Van Kleek is chief.

The resolution is as follows:

The existing shortage of labor, aggravated daily by the military and naval demands of the Government, which require a greatly increased production of war materials and at the same time the withdrawal from civilian occupations of about a quarter of a million additional recruits each month, necessitates widespread recourse to the labor of women in the United States.

In order that their services may be fully utilized and their working power conserved, a clearly defined policy is needed which shall determine what kinds of work women should perform, how they should best be introduced, under what conditions they should be employed, and what work should be prohibited.

Standards as to hours, night work, wages, and conditions of labor have already been provided by the Government in orders issued by the Chief of Ordnance and the Quartermaster General, and in the recommendations made by the War Labor Board, which should be observed by all employers.

First: The shortage of labor in essential war industries should be met in part by further introducing women into occupations easily filled by them, such as clerical and cashier service and accounting in manufacturing, mercantile, and financial establishments and in the offices of transportation companies and other public utilities, such as sales clerks and floor walkers in mercantile establishments, including among others department stores, specialty stores, shoe stores, men's furnishing stores, florists' shops, jewelry stores, drug stores, soda-water fountains, etc.

Second. Women should not be employed to replace men in occupations or places of employment clearly unfit for women owing to physical or moral conditions, as, for instance, in barrooms and saloons, in pool rooms, in or about mines, smelters, and quarries, on furnace work in glass works, etc. In addition, girls under 21 years of age should not be employed in occupations or places of employment clearly unfit for them owing to their youth, as for instance in the public messenger service, in street car, elevated, and subway transportation service, as elevator operators, as bell boys in hotels and clubs, etc.

Special Hazards.

Third. 1. The introduction of women into war industries or into employments involving special hazards such as the use of industrial poisons should be guided by the standards as to health, comfort, and safety set up from time to time by the War Labor Policies Board, in addition to the standards already defined by the Federal Government and by State labor departments.

2. The introduction of women into new occupations such as street railway service, public messenger service, etc., should be guided by regulations concerning hours of labor, night work, etc. Such, for instance, as those adopted by the Industrial Commission of Wisconsin for street railway service and by the legislature of New York State for messenger service.

3. The recruiting of mothers of young children for war industries should be discouraged.

4. The introduction of women into positions hitherto filled by men should not be made a pretext for unnecessarily displacing men.

Services of the Division of Women in Industry should be sought by employers to advise on best methods of introducing women, and the working conditions which should be established.

Fourth. Older men should be more generally employed. They constitute a largely unused labor reserve. In the past they have been considered superannuated at early ages. It is estimated that since the war began the maximum age of engaging men has advanced 10 to 12

(Continued on page 13.)

CANADA EXTENDS REGULATIONS ON SUGAR AND FLOUR STORAGE

Consul Johnson, at Kingston, reports:

A Canadian order in council provides that no person, with the exception of manufacturers of flour, bakers, confectioners, wholesale or retail dealers, or persons living at a greater distance than 2 miles from a licensed dealer, shall hold or have in his possession or under his control more flour, made wholly or in part from wheat, than is sufficient for his ordinary requirements for a period not exceeding 15 days.

Varied According to Distance.

Anyone living at a distance greater than 2 miles and less than 5 miles from a licensed dealer may hold or control flour made wholly or in part from wheat up to an amount sufficient for his ordinary requirements for a period not exceeding 30 days. Anyone living more than 5 and less than 10 miles from a licensed dealer may have sufficient for his ordinary requirements up to 60 days, while a person living more than 10 miles from such a dealer may have sufficient for his ordinary requirements for a period up to 120 days.

Any wholesale or any retail dealer licensed by the Canada food board may not hold flour made wholly or in part from wheat in excess of a quantity sufficient for his ordinary trade requirements for a period exceeding 60 days.

The regulation regarding sugar parallels this save in the last clause. Manufacturers, wholesalers, or retailers may not have more sugar than is required for a period exceeding 45 days.

Further Provisions of Flour Order.

The flour regulations go on to state that:

"On and after May 1 it will be illegal to feed or permit feeding of milling wheat or any other product thereof except bran and shorts to live stock or poultry, or to permit such feeding. It will be illegal, moreover, knowingly to sell the same to be used for such prohibited purposes. It is provided, however, that where wheat has been grown with other grain and can not be separated from it for milling purposes without undue cost such mixture may be purchased or sold or used for the feeding of poultry if it does not contain more than 25 per cent of wheat. No person shall grind any milling wheat or mixture of milling wheat with other grain for the purpose of making feed for live stock.

"Any person holding or having under his control flour made wholly or in part from wheat in quantities greater than are provided in the order, must forthwith return such flour to the miller or dealer from whom it was purchased, and such miller or dealer must accept if it be in good condition and pay for it at the purchase price or the market price on April 20, 1918, whichever be the lower.

Dealers Required to Report.

"Every dealer in wheat flour must report forthwith to the Millers' Committee, 178 Queen Street, Ottawa, the quantities of flour held in excess of his requirements for 60 days, and must give the name of the miller manufacturing such flour, the brand, date of purchase, price paid, and the dealer's requirements for the months of May, June, and July. Upon receipt of this information the Millers' Committee is required to notify the miller who manufactured such product, and the latter shall then be required to purchase such flour at the price paid by the dealer or the market price on April 20, 1918, f. o. b. dealer's station, whichever price be the lower, or to dispose of it in such manner as the Canada food board may direct."

The violation of any of the provisions of the order makes the offender liable to a fine of $100 to $1,000 or imprisonment for a period up to three months, or both fine and imprisonment.—Commerce Reports.

List of Numbers of U. S. Liberty Bonds Lost or Stolen and Those Recovered

The Federal Reserve Board authorizes the following:

In the following list will be found the numbers of United States Liberty bonds that have been lost or stolen; also a list of the bonds that have been recovered and returned to the proper owners.

FIRST 3½ PER CENT BONDS, DUE 1947.

Number.	Amount.	Number.	Amount.
78749	$500	961103	$50
892879	50	380058	100
380057	100		

SECOND 4 PER CENT BONDS, DUE 1942.

5446712	50	5446721	50
5446713	50		

THIRD 4¼ PER CENT BONDS, DUE 1928.

4620	$500	385331	$100
385330	100	385353	100

If any of these bonds or coupons are presented, kindly write, telephone, or telegraph, collect, to L. W. Gammon, manager protective department, American Bankers' Association, 5 Nassau Street, New York City.

FACTS ABOUT THE RED CROSS SUPPLY SERVICE IN FRANCE

The Red Cross authorizes the following:

Four thousand three hundred and sixty-one hospitals, situated in 1,509 cities, now are being provided for by the hospital supply service of the American Red Cross in France. To these hospitals is sent whatever is needed—surgical instruments or appliances, equipment, drugs, bedding, clothing, and even games of cards and dominoes.

Paris Distribution Station.

More than 12,614,000 articles have been packed and shipped from the distribution station in Paris since January, 1915.

There are 166 employees at the distributing headquarters in the Rue Troyon. The second floor of the building is devoted to the storing of merchandise. There are stacks of clothing, socks, gloves, slippers and shirts. There are shelves filled with sealed packages of gauze and absorbent cotton, elastic bandages, and surgical dressings of all kinds. Drugs, clinical thermometers, and sundry glass appliances also are stored on this floor. Two other floors above are used for the storage of goods.

Opened Soon After War Began.

The hospital supply service of the American Red Cross was founded by Mrs. Robert Woods Bliss, wife of the councilor of the American Embassy in Paris, and was called the American Distributing Service. It was begun a few days after the declaration of war in 1914 and coordinated with the Red Cross in 1917.

HOLD TO PRESENT STANDARDS URGES LABOR POLICIES BOARD

The chairman of the War Labor Policies Board authorizes the publication of the following amended resolution concerning the stabilizing of wages:

Whereas the War Labor Policies Board was appointed to establish harmony in those industrial matters on which the governmental departments were agreed that there should be unity of action; and

Whereas the War Labor Policies Board has now under advisement methods of standardizing of wages, hours, and conditions of labor in establishments engaged on war work, and is now, with that dispatch compatible with the importance of the interests involved, conferring on war labor policies with representatives of organized labor, of industrial management, and of governmental departments, and other agencies: Therefore, be it

Resolved, That the War Labor Policies Board urgently requests the departments and boards represented to refrain from making changes in present standards pending the standardization now under consideration.

MAXIMUM PRICE ESTABLISHED FOR CHARCOAL IN CAR LOTS

The United States Fuel Administration has issued the following:

It appearing to the United States Fuel Administrator that various regulations should be put in force for the better control of the distribution of charcoal and the prices at which same should be sold, the United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that until further or other orders of said Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulations shall be in effect beginning at 7 a. m. July 9, 1918:

(1) The price of charcoal shall be understood as the price per bushel, 20 pounds to constitute a bushel, f. o. b. cars at the point from which the charcoal is shipped.

(2) All the maximum prices mentioned herein shall apply to car lots sold to consumers or to dealers for wagon delivery; any commission paid to selling agencies or margins allowed to jobbers shall be paid by the vendors, and shall not be added to the prices established hereby.

(3) The maximum prices of charcoal in cents per bushel shall be—

[illegible] in bulk	20
Lump in bags	22
[illegible] in bags	25

(4) In all cases where wagon deliveries are made by the producer to the purchaser, a reasonable charge for such handling and delivery may be made in addition to the maximum prices stated above, subject to the approval of the Federal fuel administrator for the State in which such delivery is made.

(5) If charcoal is shipped in bags the actual cost of such bags may be added to the above prices. The purchaser may return all bags that are suitable for refilling to the point of shipment within 60 days after date of shipment, in which case the price charged for such bags shall be refunded.

H. A. GARFIELD,
United States Fuel Administrator.

SECRETARY OF NAVY COMMENDS TWO U. S. AVIATORS FOR HEROISM IN RESCUE OF TWO OTHERS AT SEA

Secretary Daniels has officially commended two officers of the United States Naval Aviation Forces in service abroad for their part in the rescue of American aviators who were caught in the wreck of a French dirigible balloon in which they were operating.

In a letter to Lieut. Commander Louis H. Maxfield, commandant of a naval air station, who was making a flight in the dirigible to inspect the airship and its crew, the Secretary wrote:

"The courage and resource displayed by you after the wreck of the dirigible, particularly in the rescue of two of your men, are worthy of the gallant traditions of the service to which you belong."

Secretary Daniels has made recommendation to the Secretary of the Treasury that a life-saving medal be awarded Lieut. Commander Maxfield.

Lieut. Frederick P. Culbert was highly commended for the courage and initiative he displayed in aiding in saving the lives of the two men who were in danger of drowning after the dirigible was wrecked.

The dirigible on which the American aviation officers and men were serving was escorting a convoy in the war zone when it got into difficulties. Efforts to right it were unavailing. The dirigible soon hit the water, nose downward. As it struck, Chief Gunner's Mate L. E. Allely and Quartermaster H. A. Elliott, who were in the forward part of the balloon car, jumped.

Carried Toward Land.

A landward breeze began to carry the dirigible and the nacelle (or car), to which the others were sticking, swiftly toward land. The shore was not more than a mile and a half distant. Allely and Elliott, both of whom were incumbered with heavy flying clothes, called for help. Allely was heard to say: "Oh, these Teddy Bears; I can't swim," referring to his heavy suit.

The nacelle remained afloat, and there was consequently no immediate danger to those who remained there. But the two men in the water were rapidly being left behind. Lieut. Commander Maxfield kicked off his khaki trousers and jumped into the water and swam to their assistance.

Before doing so he ordered Lieut. Culbert to break the anchor in an effort to keep the wreck near the men in the water. But the anchor line was jammed in the smash up and could not be gotten clear. Two of the men emptied 5-liter gasoline tins and threw them overboard to serve as life preservers. Lieut. Culbert ordered all remaining sacks of sand and other weights thrown over to keep the nacelle afloat.

In the meantime, Maxfield had gotten near Elliott, who was weighed down by his wet clothes and getting very tired. "Stick to it, I'll come and get you!" he called out encouragingly to the man. Reaching Elliott, Maxfield told him to hold on to his shoulders and take off his shoes. Elliott did so and had gotten off his left shoe and was loosening his right one when Allely, who was about to give in, called out for aid.

Maxfield thereupon asked Elliott if he thought he could keep up. Elliott said he thought he could. Maxfield then swam to Allely, who was about 50 feet away. Elliott struck out toward two oil tins between him and the wreck. He had not gone far, however, when he felt himself giving way. He called for help again. "Keep up, Elliott, there's a boat coming!" Maxfield called out as he started to his aid once more.

But at the moment of starting, he saw Allely about to go down, and went back to him. He called for Lieut. Culbert, who had started to the aid of the men after getting off his leather trousers, coat, and flying boots to "hurry up." Lieut. Culbert had gone into the water about two minutes after Maxfield.

Launch to the Rescue.

In the meantime a little launch had put out from a point of land about 2 miles distant. Elliott says the first thing he knew it was right on him. A man threw a line, but Elliott missed it and was drawn aboard by the shoulders. As he got into the boat he heard Maxfield calling out "This is the man," to attract attention to the man he was holding up.

In a few minutes both Maxfield and Allely were pulled ino the launch and then Lieut. Culbert was picked up. The launch then went by the nacelle of the dirigible and picked off the wettest of the men and took the party ashore. By this time the wreck had been blown almost on the beach, so that all danger to those left aboard was over.

The other Americans, members of the naval aviation forces abroad, who were on the dirigible acted coolly and calmly, according to the report of Lieut. Culbert, and "with entire disregard of an extremely dangerous predicament."

Lieut. Commander Maxfield was born in St. Paul, Minn., November 19, 1883, and was appointed to the Naval Academy in 1904. He was made ensign in 1908; lieutenant (junior grade) in 1911, promoted to lieutenant July 1, 1914, and to lieutenant commander (temporary) August 31, 1917. He was designated as a naval aviator October 31, 1917, and has been for some time in service abroad. His wife, Mrs. Harriett Page Maxfield, resides in Norfolk, Va.

Lieut. Culbert was born in Bellevue, Pittsburgh, Pa., June 20, 1893; appointed to the Naval Academy from New Jersey in 1911, appointed ensign in 1915; lieutenant (junior grade) July 1, 1917; lieutenant (temporary) October 5, 1917. His father, W. H. Culbert, resides at 301 William Street, Orange, N. J.

Summary of Nation's Business Conditions on June 23 as Outlined in Reports to the Federal Reserve Board

The following has been issued by the Federal Reserve Board:

Summary of business conditions, June 23, 1918.

District.	General business.	Crop condition.	Industries of the district.	Construction, building, and engineering.	Foreign trade.	Money rates.	Railroad, post office, and other receipts.	Labor conditions.
No. 1—Boston	Active	Average, promising.	Busy	Decreased	Increased	Steady and strong	Mixed	Scarce; wages high.
No. 2—New York	Very active.	Good	Engaged to full capacity; widespread adaption of production to war essentials.	Dull, except for construction of Army warehouses, shipyards, housing for Government labor and factory construction.	Many restrictions, but large aggregate.	Firm and steady.	Post office increase, 19.28 per cent over last year; railroads show increase in gross and decrease in net earnings.	Scarcity and high competitive wage rates, resulting in large turnover.
No. 3—Philadelphia.	Very good	Excellent	Very busy	Very little new building.	Large	Firm; no change.	Gross receipts increasing.	Shortage acute in all lines.
No. 4—Cleveland	Good	Satisfactory and promising.	Busy	Very dull		Increasingly firm.	Increase	Unsatisfactory; scarcity.
No. 5—Richmond	Active, limited only by labor and supplies.	Excellent	Active, profitably employed.	Private building negligible; Government work active.	Limited by freight room.	6 per cent; heavy demand and increasing.	Railroad irregular; post office, volume large; reflects increased rates.	Inadequate; unsatisfactory.
No. 6—Atlanta	Good	Very satisfactory	Busy	Inactive	Unsatisfactory	Firm		Unsettled.
No. 7—Chicago	Very active.	Excellent	Generally at capacity.	Dull		do	Post-office receipts decrease over last month.	Very scarce.
No. 8—St. Louis	Good	do	Active	do		do	Increase in postal receipts.	Nearing settlement.
No. 9—Minneapolis	do	do	do	Fair		Very firm	Not much change.	Good.
No. 10—Kansas City.	do	Good to excellent.	do	Slightly improved.		Firm		Equalization of firm demand and supply.

No. 12—San Francisco.	Active	Good	do	Operations generally curtailed.	Increase	Firm	Increasing	More settled.

REPORT ON HYDROELECTRIC POWER AT NIAGARA FALLS

The War Department authorizes the following:

Acting under orders from the Secretary of War, Robert J. Bulkley and Brig. Gen. Charles Keller, of the Corps of Engineers, have been exercising a general supervision over the supply of electrical power in that portion of western New York in which Niagara Falls hydroelectric power is used. This supervision has been in effect since November, 1917, and its first result was to cause the Secretary of War to requisition for the United States all power generated or imported by the Hydraulic Power Co. and the Niagara Falls Power Co., both of Niagara Falls, N. Y., and to distribute it to war industries.

Companies Following Orders.

Both companies affected obeyed loyally the orders issued December 28, 1917, and since then have been disposing of all the electric power under their control in exact accordance with the instructions of the representatives of the Secretary of War. Other power companies not requisitioned have been cooperating in the plans, and this has resulted in the curtailment of the supply of power to many minor and nonwar-essential industries and the assignment of the power so saved to plants producing war essentials. During the past winter difficulties caused by ice or shortage of coal were met by cutting off all but the essential industries and by supplying the latter with power in order of preference indicated in the schedules accompanying the requisition orders.

As a result of supervision accurate knowledge has been obtained of the uses of power generated in this country in the Niagara Falls district and that imported from Canada. This information shows that practically all the power available is used to aid the prosecution of the war, direct war industries securing an average of 85.29 per cent of the total power of the two requisitioned companies and an average of 54.29 per cent of the total power of the cooperating companies. Under war conditions the power supply falls short of the demand by about 200,000 horsepower, which amount is not based on new industries but is determined as the amount of power which could be absorbed by the industries now operating, were such a supply available.

Proposed Enlargements.

Some of this shortage will be relieved by the proposed enlargements of the steam plants of the Buffalo General Electric Co. and the Niagara, Lockport & Ontario Power Co. Additions to these two plants will aggregate 62,000 horsepower. By means of a further development by the American hydropower companies at Niagara Falls their existing supply of power, amounting to about 250,000 horsepower, will be increased by about 160,000 horsepower. In order to make certain that the fuel supply of the important steam-power plants in this territory will be maintained arrangements have been made to secure the early cooperation of the Fuel Administration to that end.

The increased allotments of power to the essential electrochemical industries in the Niagara district and to the plants devoted to the production of such essentials as ferrosilicon, electrodes, phosphorus, chlorine, and abrasives have conclusively demonstrated the beneficial results of regulating and controlling the distribution of power.

ATTITUDE ON EMPLOYMENT OF WOMEN IN WAR INDUSTRIES.

(Continued from page 10.)

years—that is, from about 38 to 50. It has been found that tasks can be graded for these workers according to their strength, and that work unsuitable for women, especially at night, can be performed by them. In many trades their experience is an asset which offsets less physical strength. Thus the productive power of this large class, now wasted, can be utilized.

The needs of the country require the united efforts of all classes of workers, in accordance with their capacities; and to maintain the standards and conditions of labor set up by the Government is, in the words of President Wilson, "indispensable to the Nation's full productive efficiency."

PROMOTIONS IN FIRST AND SECOND CLASS POST OFFICES

Provisions in Appropriation Act Relating to Increase of Employees' Salaries.

The Post Office Department issues the following:

OFFICE OF FIRST ASSISTANT
POSTMASTER GENERAL.

Washington, July 3, 1918.

The act making appropriations for the service of the Post Office Department for the fiscal year ending June 30, 1919, and for other purposes, contains the following provisions regarding increases in salaries for employees at first and second class offices under the jurisdiction of this bureau.

"That during the fiscal year ending June 30, 1919, the annual salaries fixed by law for assistant postmasters at first and second class post offices, and supervisory officials, whose compensation is $2,200 and less per annum, shall be increased $200, and those whose compensation is in excess of $2,200 shall be increased 5 per cent; that clerks in first and second class post offices and letter carriers in the City Delivery Service shall be divided into six grades as follows: First grade, salary $1,000; second grade, salary $1,100; third grade, salary $1,200; fourth grade, salary $1,300; fifth grade, salary $1,400; sixth grade, salary $1,500. Clerks and carriers shall be promoted successively to the sixth grade: *Provided*, That on July 1, 1918, clerks in first and second class post offices and letter carriers in the City Delivery Service who are in grades 2, 3, 4, 5, and 6, under the act of March 2, 1907, as amended, shall pass automatically from such grades and the salaries they receive thereunder to the new grades, 1, 2, 3, 4, and 5, respectively, with the salaries provided for such grades in this act: * * * *Provided further*, That the salary of clerks, carriers * * * shall be increased during the fiscal year 1919 not more than $200: *Provided further*, That the classifications herein provided for shall not become effective until July 1, 1918: *Provided further*, That the salaries of such other employees, fixed by law or paid from lump-sum appropriations provided for in this act, * * * who receive $800 per annum or less shall be increased 20 per cent per annum; those who receive in excess of $800 and not more than $1,500 shall be increased 15 per cent per annum; and those who receive in excess of $1,500 and not more than $2,200 shall be increased 10 per cent per annum. * * * *And provided further*, That the increased compensation, at the rate of 5 per cent and 10 per cent for the fiscal year ending June 30, 1918, shall not be computed as salary in construing this section."

Authority to Postmasters.

Postmasters at first and second class post offices are authorized to make the promotions as specified above, effective from July 1, 1918, and assign them to the class indicated under the new classification, and are instructed to immediately report to this bureau, on Form 1533, in quadruplicate, the promotion of every employee in their offices (other than those in the motor-vehicle service) under the jurisdiction of this bureau, grouping them in the following order, each group to be arranged alphabetically: (1) Assistant postmaster; (2) supervisory employees; (3) special clerks; (4) watchmen, messengers, and laborers; (5) printers, mechanics, and skilled laborers, and (6) clerks. A separate set of forms should be submitted covering the city letter carriers.

Your reports on the forms above mentioned should be promptly submitted in order that the auditor may be authorized to pass your accounts covering the promotions.

For the guidance of postmasters the following summary is given of the increases provided herein: All watchmen, messengers, laborers, printers, mechanics, and skilled laborers will receive an increase of 15 per cent. All other employees—assistant postmasters, supervisory employees, including special clerks, clerks, and carriers—who on June 30, 1918, are receiving a salary of $2,200 or less, will be given an increase of $200. All assistant postmasters and supervisory employees receiving on June 30, 1918, salaries of more than $2,200 will be given an increase of 5 per cent. Attention is especially directed to the fact that in computing these increases consideration shall not be given to the percentage increases contained in the appropriation act for the current fiscal year, i. e., an assistant postmaster, clerk, or city carrier who is now receiving $880 shall be considered as in the $800 grade and shall be promoted to $1,000; a laborer who is now receiving $990 shall be considered as in the $900 grade and shall be given the 15 per cent increase, which amounts to $1,035.

Automatic Promotions.

The automatic, 85 per cent and 15 per cent, promotions will not be made during the current fiscal year as the law above quoted provides that the compensation of clerks and carriers shall not be increased more than $200 during the year.

Vacancies in the grades above $1,200 occurring prior to July 1, 1918, should be reported and recommendations for the promotion of employees to fill such vacancies forwarded so as to reach the department by August 1, otherwise the vacancies in these grades will revert and recommendations for filling them will not be approved.

Postmasters at offices where the Government-owned automobile service is in operation will be advised under separate communication regarding the increased compensation for employees in the motor-vehicle service.

J. C. KOONS,
First Asst. Postmaster General.

DENTAL SURGEON W. E. OSBORNE KILLED IN ACTION IN FRANCE

The Navy Department has been advised of the death of Dental Surg. Weeden Edward Osborne, United States Navy, who was killed in action in France June 6, while attached to the marines serving with the American Expeditionary Force.

The distinguished service cross was posthumously awarded Dental Surg. Osborne by the commander in chief of the Expeditionary Forces with the following notation in official orders:

Dental Surg. Weeden E. Osborne, United States Navy, during the advance on Bouresches, France, on June 6, 1918, at great risk of his life, performed heroic deeds in aiding the wounded. He was struck by a shell while carrying an officer to a place of safety.

Osborne, who had been with the marines at the front only a few days when the action at Bouresches took place, went into the zone of fire time and again to rescue wounded. He went to the aid of a wounded officer and had succeeded in carrying him almost out of the range of fire when a shell struck, killing both Osborne and the officer. In reporting his death, his commanding officer wrote:

Having joined this regiment but a few days before, and new to the service, he displayed heroism worthy of its best traditions.

Dental Surg. Osborne was born in Chicago, November 13, 1892. On May 8, 1917, he was appointed a dental surgeon in the Navy, and served at the navy yard, Boston, from June 5, 1917, to December 13, 1917, when he was detached and assigned to duty on the *Alabama*. On March 30, 1918, he was ordered to report to the commanding officer of a regiment of marines, with the American Expeditionary Force in France, and was serving with this regiment at the time of his death. Next of kin, Elizabeth Osborne, sister, 4427 Racine Avenue, Chicago, Ill.

IMPORTANT ITEMS ARE ADDED TO ITALIAN EMBARGO LIST

Additions to the Italian export embargo list are rarely made, as the list adopted in 1916 contains many general headings which authorize the prohibition of large classes of articles. It is customary for the authorities to announce temporary suspension of prohibitions, in effect until notice is given of withdrawal, or to permit the exportation of limited quantities of certain articles. Such concessions are usually given out as instructions to customs officials.

From reports by the consul general at Genoa and from official publications it is learned that the following items have been added to the 1916 embargo list within the past few months: Silkworm eggs; rough marble in slabs or otherwise worked; precious stones of all kinds.

The consul general has also furnished a translation of the decree recently issued regarding the sending to foreign countries of printed matter containing advertisements. These regulations are to remain in force for the duration of the war, and the significant provisions are as follows:

The sending to foreign countries of any periodical or printed matter whatsoever containing advertisements is prohibited. Directors and editors of newspapers or of periodicals and editors of publications who intend to continue sending to foreign countries must prepare special editions in which the advertisements are suppressed.

The periodicals and publications to be sent abroad must be submitted at the offices of the respective editors to the examination of a censor and of a postal official, to whom are consigned the copies certified for forwarding. Private persons are forbidden to send to foreign countries copies of newspapers, periodicals, and other publications containing advertisements.—Commerce Reports.

United States Fuel Administrator Modifies Provisions of Coal Orders Affecting Zone E and G Producers

The United States Fuel Administration authorizes the following modification No. 3 of order of March 27, 1918, relative to bituminous coal zone E, modifying the provisions of said coal zone E with respect to the sale, shipment, distribution, and apportionment by the producers of bituminous coal operating in the producing districts of western Kentucky to certain points in northern Alabama.

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal located in the western Kentucky producing districts be permitted to make shipments of bituminous coal to points outside of zone E, as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called "zoning system" covered by his order relative to bituminous coal zone E of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war, the United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in western Kentucky on the Illinois Central; Louisville & Nashville; and Louisville, Henderson & St. Louis Railways and their short-line connections may, in addition to the territory to which they are permitted to ship under zone E as described in the order of March 27, 1918, sell, ship, and distribute such coal to dealers and consumers and for use and consumption within the following-described sections of the United States, viz:

(1) To all points in the State of Alabama located on the Nashville & Decatur division of the Louisville & Nashville Railroad to and including Albany, Ala.

(2) To all points in the State of Alabama located on the Lewisburg division of the Louisville & Nashville Railroad to and including Athens, Ala.

(3) To all points in the State of Alabama located on the Nashville, Florence & Sheffield division of the Louisville & Nashville Railroad to and including Sheffield and Tuscumbia, Ala.

This order shall be effective on and after July 8, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

The United States Fuel Administration issues the following modification No. 1 of order of March 27, 1918, relative to bituminous coal zone G, modifying the provisions of said coal zone G with respect to the sale, shipment, distribution, and apportionment by all producers of bituminous coal operating in the coal producing districts of Tennessee to certain points in Alabama located on the Nashville, Chattanooga & St. Louis Railway.

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal in Tennessee be permitted to make shipments to points outside of zone G, as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called "zoning system" covered by his "order relative to bituminous coal zone G" of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war, the United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Tennessee may, in addition to the territory to which they are permitted to ship under zone G, sell, ship, and distribute such coal to dealers and consumers and for use and consumption within the following-described section of the United States, viz, all stations and points of delivery in the State of Alabama which are located along the Huntsville & Gadsden Branch of the Nashville, Chattanooga & St. Louis Railway between Guntersville and Boaz, including all points of delivery within switching limits on other railway lines connecting therewith.

This order shall be effective on and after July 8, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

RANGE FOR PAST THREE MONTHS OF FOREIGN EXCHANGE RATES

The Federal Reserve Board authorizes the following:

Monthly ranges of exchange rates on leading foreign money centers quoted in New York during the three months ending June, 1918.

	Exchange at par.	April.		May.		June.	
		Low.	High.	Low.	High.	Low.	High
London:

[5] Average for April, $0.953; for May, $0.995; and for June, $0.995.

NEW MAJORS AND CAPTAINS.

Special Orders, No. 138:

410. The appointment of the following-named officers in the National Guard in the service of the United States, with date of rank as indicated after their names, is announced:

To be majors:

Capt. LeRoy J. Linn, National Guard, June 10, 1918.

Capt. Marcus R. Limb, National Guard, June 8, 1918.

To be captains:

First Lieut. Harry D. Churchill, National Guard, June 5, 1918.

First Lieut. Robert E. Kennedy, National Guard, June 9, 1918.

First Lieut. Frederick W. Marcolin, National Guard, June 10, 1918.

First Lieut. Albert L. Allen, National Guard, June 8, 1918.

VOLUNTEER MEDICAL SERVICE CORPS IS BEING ORGANIZED FOR DOCTORS INELIGIBLE TO MEDICAL RESERVE UNIT

Insignia Adopted and Comprehensive Questionnaire Sent to Executive Committees Now Being Appointed in the Several States.

DR. FRANKLIN MARTIN, member of the Advisory Commission of the Council of National Defense and chairman of the Council's General Medical Board, authorizes the following:

(INSIGNIA ADOPTED.)

Questions likely to arise in the minds of doctors seeking membership in the Volunteer Medical Service Corps are answered in a questionnaire, which is being sent in quantity to the executive committees of the corps in the several States. These executive committees are now being appointed.

The central governing board of the corps, which is a committee of the General Medical Board of the Council of National Defense, makes it plain that the information in the questionnaire is not complete, as cases relating to eligibility are constantly arising. As previously announced, this corps is for the doctors not eligible to enrollment in the Medical Reserve Corps because of physical disability, age (over 55), essential public or institutional need, or dependents.

The insignia for the corps has been designed and passed upon by the Council of National Defense, and the buttons will shortly be ready for distribution. The design is an openwork shield with the medical caduceus and wings, surmounted by the letters V. M. S. C.

The executive committees in each State will be furnished lists of the applicants for membership. The questions and answers are as follows:

Information on the Volunteer Medical Service Corps.

1. How should I apply for membership?

Write to the Medical Section, Council of National Defense, and application blanks and circulars of information will be sent. When received, fill out the application form in full, being guided by instructions contained in the rules of organization and the circulars of information.

2. What shall I do with application [illegible]?

Forward to the Medical Section, Council of National Defense, Washington, D. C.

3. What is to be gained by the creation of this organization?

A classification as to the availability of all physicians not eligible for military service.

4. What is meant by classification?

Our record of information furnished by the physician himself, so that if the future demands each one could be used to the best advantage.

5. What is meant by availability for service?

Information of record, so as to determine where, when, and how physicians can be requested to render service.

6. Who are eligible?

All physicians who would be accepted by the Medical Reserve Corps were it not for physical disability, age (over 55), essential public need (boards of health and the medical care of isolated communities), essential institutional need (medical schools and hospitals), or dependents. Women physicians are eligible.

7. How will eligibility to this corps be determined?

Information obtained from application blanks, three personal references, and the executive committee in your State will be considered by the central governing board, which shall determine final action.

8. How do I become a member of this corps?

By vote of the central governing board.

9. How will physical disability be determined?

If you have applied for a commission in the Medical Reserve Corps and are rejected because of physical disability, that information will be of record. If a physical disability is obvious, a statement by the executive committee to that effect is all that is necessary; otherwise apply for commission in the Medical Reserve Corps, and if rejected physically that rejection will be of record in this office.

10. Does membership in the corps carry with it rank and pay?

This corps is not authorized to give rank. Arrangements shall be made between a member and the agency requesting service. The question of compensation and place of service, whether with or without rank, must be determined at that time.

11. Can any member of this corps be ordered to active duty?

No member will be ordered to render any service. Requests to accept service according to qualifications and availability will be made, such service to interfere as little as possible with already existing duties.

12. What will be the probable character of this service?

Question 22 of the application blank is as follows:

Are you available for any of the following services:

a. Consultant (medical service, surgical service, public-health service, special service—what?)

b. Institutional (laboratory, administrative, medical service, surgical service, special service—what?)

c. Local or medical advisory boards.

d. Reclamation of registrants rejected for physical unfitness.

e. Services to needy families and dependents of enlisted men.

f. Sanitation.

g. Miscellaneous service.

13. Can I be admitted to the Medical Reserve Corps if I become eligible after election in the Volunteer Medical Service Corps?

Yes; but notify the central governing board that you have accepted a commission in the Medical Reserve Corps.

14. How is essential public or institutional need determined?

By the central governing board, which will be guided by information obtained from application blanks, personal references, executive committee of the State, Surgeon General's Office, and officials of colleges, hospitals, boards of health, and community.

15. How is eligibility of physicians because of dependents determined?

By the central governing board, being guided by information secured.

16. Do I receive insignia to show membership in this corps?

A small badge has been authorized by the Council of National Defense. This will be issued to each member of the corps.

ORDER CONCERNING PHYSICAL EXAMINATION OF DRAFT MEN

The Provost Marshal General has issued the following order to draft executives in all States, except Alaska, Hawaii and Porto Rico:

JULY 2, 1918.

Number E—1726.

Paragraph 1. In accordance with section 122, selective service regulations, as amended by the standards of physical examination form 75, direct local boards that immediately upon mailing notice of final classification to registrants of the second registration who have been finally classified in class 1, notices to appear for physical examination shall be sent to all such registrants and local boards shall proceed to physical examination without delay and continue to examine all such registrants as soon as they have finally been placed in class 1 until all registrants of the second registration in class 1 have been physically examined.

Paragraph 2. Direct attention of local boards to sections 9 to 15 of Rules and Regulations form 74, which prescribe method and manner of determining order numbers of registration cards of second registration received after June 18. These sections should be literally observed, and any registration numbers erroneously assigned to cards received after June 18 should have an ink line drawn through them, but not erased, and correct numbers assigned thereto as prescribed in said sections.

Paragraph 3. Reference my telegram E—1236. Advise this office at once the approximate number to be added to class 1 from the rectification of classification for your State.

Paragraph 4. The classification and physical examination of class 1 men should be given immediate attention. Local, district, and medical advisory boards should be directed to have class 1 available for August calls. Acknowledge.

CROWDER.

Handling of Mail for the Soldiers, Both in This Country and Overseas, a Vast Service Incidental to War

Problems Gradually Overcome by Close Cooperation of Post Office and War Departments—Over 100 Branch Offices Established at Camps—Some of Them Doing Business Exceeding That of a City of 100,000 Population.

The Committee on Public Information issues the following statement based upon reports from the Post Office and War Departments:

Development of the mail service at home and abroad to form a prompt means of communication between American soldiers and their relatives and friends has been one of the problems incidental to the war. In this country the service is handled by the Post Office Department with the cooperation of the War Department. On the other side the War Department now is in control.

Mail in This Country.

The handling of soldiers' mail at the camps and cantonments in this country is under the supervision of J. C. Koons, First Assistant Postmaster General. There have been established 105 branch post offices, one at each of the camps, each office fully equipped to transact postal business of all kinds. About 1,200 experienced postal clerks from the larger post offices throughout the country have been detailed to this work.

The business transacted at many of these military branch post offices exceeds that of post offices in cities having more than 100,000 population. Reports show that in many of the larger camps approximately 150,000 letters and about 15 tons of parcel-post and second-class matter are handled daily.

Close Cooperation of Departments.

Close cooperation between the Post Office and the War Department officials has facilitated the efficient handling of this mail. With the rapid expansion of Army plans the post-office buildings at some camps have been too small to accommodate the business, especially in holiday seasons, but emergency tents have been thrown up and soldiers detailed to help, and the mails have been handled with dispatch.

Unusual movement of soldiers to or from the camps greatly increases the volume of the mails. When all is quiet at the camp mails run regularly, but when there is an early movement to an embarkation point or when new details of recruits arrive the volume grows enormously.

Return of Civilian Clothing.

The return by the recruits of their civilian clothes after entering the camps forms an important part of the Postal Service. The care exercised in handling this matter is evidenced by the few complaints of lost packages.

Immediately on its receipt the mail is separated by the camp post-office clerks, according to the addresses, for the various military units, such as divisional headquarters, hospitals, battalions, companies. In some camps these units number 76.

The mail is then turned over to the military mail orderlies who deliver it to the headquarters of the various units. Each chaplain superintends the mail service within his respective command, and in units having no chaplains this duty is performed by some officer designated by the unit commander.

The mail orderlies call at the branch post office at stated times during the day for all mail for their organizations. Delivery is made by the regimental or separate battalion mail orderlies to company mail orderlies, who in turn deliver each piece of mail to addressee except in case of registered and collect on delivery mail, where the addressee is sent a notice and calls at the regimental post office in person with proper identification.

Collection of Outgoing Mails.

Outgoing mail at the various military branch post offices is collected by the War Department from the Y. M. C. A., Knights of Columbus, and like organizations from regimental headquarters, and brought to the military branch post office. Here it is distributed by post-office clerks to the different States and large cities and for railway post offices. The transportation of mail between railroad stations and the branch post offices is performed by the Post Office Department, in most cases either by government-owned or rented vehicles. In nearly all camps as many as four dispatches are made daily to the railroad and a like number received.

Complaints as to loss, delay, or nondelivery of mail addressed to soldiers are investigated by unit commanders and the result reported to the postmaster. The responsibility of the Post Office Department ceases upon delivery of mail to the military mail orderlies.

Importance of Correct Address.

The Post Office Department endeavors to impress upon the public the importance of properly addressing mail for soldiers at military camps. Where the address is imperfect or deficient delays necessarily occur. At every divisional headquarters and in each military branch post office a card index containing in some instances more than 100,000 cards is maintained showing the name and assignment of each individual officer and soldier in the camp. Where mail is not properly addressed to regiment, company, battalion, or other distinct unit it becomes necessary to consult this index in order that the proper assignment may be determined and delivery effected. This results in delay in delivery and in many instances, due to similarity in names, it is necessary to return letters to senders as nondeliverable. Another cause for delay is the frequent changing of the military personnel from one unit to another within a camp and from one camp to another. In one camp alone more than 42,000 such changes were made within one month.

Sending of Perishable Articles.

Many parents and friends send the soldiers fruit and other edibles of a perishable nature. The fruit may not keep the length of time required for its transportation and delivery and its condition becomes such that it must be destroyed before it can be delivered. The disappointment of the soldier is unavoidable as the Post Office Department is sparing neither money nor effort to give the most efficient and satisfactory postal service at the camps.

The Post Office Department handles all soldiers' mails in the United States to and aboard the ship at the port of embarkation. One ship recently carried 2,080,000 letters for the Expeditionary Forces and for Americans serving in other capacities in France.

Special regulations had to be made to take care of the mails of military units transferred from a camp to a port of embarkation. All letter mail arriving at a camp after the unit has left is forwarded immediately for delivery to the military personnel before sailing.

Packages for Overseas.

The Postmaster General, at the request of the War Department, has ordered that no package may be sent to a soldier in the American Expeditionary Forces without having received first a request for it from that soldier indorsed by an officer not below the rank of major or some officer connected with the military unit authorized by the major to indorse such request.

Control of the mail service for members of the American Expeditionary Forces recently has been taken over by the War Department. A military postal express service has been established in France by order of Gen. Pershing. This service receives all mail arriving in France for the American Expeditionary Forces and distributes it. The same service is responsible for the collection, dispatch, and delivery of all mail emanating from and destined for the Expeditionary Forces. Mail destined for the United States from the Expeditionary Forces is collected and delivered to the civil authorities.

For the convenience of troops attached to the British and French, offices of the military postal express service are being established at or near their main statistical sections of the Expeditionary Forces serving with such troops.

The director of the military postal express service, which handles express as well as mail, is Lieut. Col. Thorndike D. Howe.

NAVAL ELECTRICIAN KILLED.

The Navy Department is informed that Jerome Cohen, electrician, first class, radio, United States Naval Reserve Force, was killed in an automobile accident between Belmar and Asbury Park, N. J., on July 5. At the date of enlistment, December 22, 1917, at Chicago, Cohen gave as his next of kin, wife, Myrtle Cohen, 5049 St. Lawrence Avenue, Chicago, Ill.

When you buy war-savings stamps you do not give—you receive.

FUEL ADMINISTRATION ORDER MODIFYING "ZONE A" RULING

The United States Fuel Administration issues the following order:

WASHINGTON, D. C., *June 28, 1918.*

MODIFICATION No. 2, OF ORDER OF MARCH 27, 1918, RELATIVE TO BITUMINOUS COAL "ZONE A," MODIFYING THE PROVISIONS OF SAID COAL "ZONE A" WITH RESPECT TO THE SALE, SHIPMENT, DISTRIBUTION, AND APPORTIONMENT BY ALL PRODUCERS OF BITUMINOUS COAL OPERATING IN THE COAL PRODUCING DISTRICTS OF THE STATE OF IOWA OF BITUMINOUS COAL SLACK OR SCREENINGS TO POINTS IN THE SOUTHERN PORTION OF MINNESOTA AND THE SOUTHEASTERN PORTION OF SOUTH DAKOTA FOR A PERIOD OF 30 DAYS FROM THE EFFECTIVE DATE OF THIS ORDER.

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal located in the producing districts of Iowa be permitted to make shipments of bituminous coal slack or screenings for a period of 30 days to points outside of "Zone A," as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called "zoning system" covered by his "order relative to bituminous coal Zone A" of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Iowa may, in addition to the territory to which they are permitted to ship under "Zone A," sell, ship, and distribute for a period of 30 days from the effective date of this order, bituminous coal slack or screenings to dealers and consumers and for use and consumption within the following-described section of the United States, viz:

(1) That portion of the States of Minnesota and South Dakota on and south and east of a line coincident with the Minneapolis, St. Paul & Sault Ste Marie Railway from Carmen Junction, Minn., to Minneapolis, Minn.; thence coincident with the Minneapolis & St. Louis Railway to Norwood, Minn.; thence coincident with the Chicago, Milwaukee & St. Paul Railway through Ortonville, Minn., and Aberdeen, S. Dak., to the Missouri River; thence coincident with said river to Sioux City, Iowa.

This order shall be effective on and after July 1, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Gold Imports and Exports of the U. S. Compiled by the Federal Reserve Board

The Federal Reserve Board issues the following:

Gold imports and exports into and from the United States.

[In thousands of dollars; i. e., 000 omitted.]

	Week ending—				Total since Jan. 1, 1918.	Total for corresponding period in 1917.
	May 24, 1918.	May 31, 1918.	June 7, 1918.	June 14, 1918.		
IMPORTS.						
Ore and base bullion	602	503	417	90	5,635	7,097
United States Mint or assay office bars						19
Bullion refined	71	62	100	17,061	23,412	252,115
United States coin	2,000	2,137	1		6,629	52,356
Foreign coin					142	77,222
Total	2,673	2,702	518	17,151	35,818	388,839
EXPORTS.						
Domestic:						
Ore and base bullion			6	2	50	106
United States Mint or assay office bars	90	90	30		361	18,441
Bullion refined	2	5	5	2	3,388	2,895
Coin	1,328	580	872	596	15,899	127,160
Total	1,420	675	913	600	19,698	148,602
Foreign:						
Bullion refined						31
Coin			27		346	5,177
Total			27		346	5,208
Total exports	1,420	675	940	600	20,044	153,810

Excess of gold imports over exports since Jan. 1, 1918, $15,774; excess of gold imports over exports since Aug. 1, 1914, $1,066,078.

CORRECTED DIRECTORY OF THE STATE DEPARTMENT

Following is a corrected directory of the State Department:

SHORT TIME IN SCOTCH MILLS.

Five Eight-Hour Days a Week Rule Adopted at Arbroath.

Consul Johnson, at Dundee, reports:

Because of the impending inauguration of short time at the Arbroath mills and factories, a special general meeting of the Arbroath Mill, Factory, and Bleachfield Workers' Union was recently held in order to consider the best methods of carrying on short-time work. The total number of working hours per week is to be reduced to 40, for which wages will be accorded equivalent to a 50-hour week. The manufacturers proposed that the week's work be made up of five days of eight hours, and after a rather long and animated discussion this method was adopted.

The meeting unanimously agreed that the union become a regularly registered society. A code of rules was drawn up, which the executive was authorized to submit to the registrar general.—Commerce Reports.

WAR WORK OF FEDERAL BOARD FOR VOCATIONAL EDUCATION

The following statement is authorized by the Federal Board for Vocational Education:

Since coming into existence last July this board, in addition to organizing vocational education work in 48 States, has accomplished a vast amount of essential assistance to the war-making branches in training men for special duties.

Classes for Conscripted.

Under supervision of the board war-emergency training classes for conscripted men have been organized in public schools throughout the country. A series of war-emergency training courses for Army occupations has been prepared, and these are extensively in use, not only for training under direct supervision of this board but in classes organized by the War Department among enlisted men and for classes conducted on a commercial basis under private civilian control.

The emergency war-training bulletins of the Federal board include emergency training courses in shipbuilding for shipyard workers; mechanical and technical training for conscripted men (Air Division, United States Signal Corps); training for motor-truck drivers and chauffeurs; for machine-shop occupations, blacksmithing, sheet-metal working, and pipe fitting; for electricians, telephone repair men, linemen, and cable splicers; for gas-engine, motor-car, and motorcycle repair men; for oxyacetylene welders; and for airplane mechanics, engine repair men, woodworkers, riggers, and sheet-metal workers.

Preparation of Courses.

The preparation of these courses and the organization of training classes has been undertaken at the request of and in cooperation with the Signal Corps and the Quartermaster Corps in the War Department and the United States Shipping Board.

This work has continued, and the war training division of the Federal Board reports that on June 13, 1917, 12,000 men had been trained through the Federal Board and State authorities for vocational education and turned over to services—6,000 in mechanical lines, 5,000 in radio work, for the Army, Navy, and mercantile marine, and 1,000 in clerical occupations for Quartermaster Corps work. It estimates that an additional 3,000 men have been trained by private agencies through impetus given to the work by the Federal Board, using Federal Board courses of instructions. Incomplete reports from State vocational authorities for May returned over 6,000 men in training—3,370 in radio classes and 2,508 in mechanical classes—and it is estimated, on the basis of April returns, that the complete reports for May will show the number in training to be at least 7,500. On June 13 the May reports showed 165 radio classes operated in 38 States and 172 mechanical classes in 49 communities in 14 States.

Reports of New Classes.

Almost daily reports of additional classes being formed were coming in from California, Wisconsin, Missouri, New York, and Pennsylvania. Since the May letters were sent out, urging the establishment of new classes and the continuance of those in operation, renewed activity has been reported in at least 20 States.

Emergency Training Bulletins.

The Federal Board war emergency training bulletins have become standard courses in corps schools, such as the Quartermaster Corps at Camp Joseph E. Johnston, Jacksonville, Fla.

Of these bulletins or course outlines some 25,000 copies have been furnished directly or indirectly to the War Department committee on education and special training for use in its classes, in which the number reported in training was 7,086 in April, 10,685 in May, and 26,666 in June. Contracts in force provided for the training of 100,000 men during the current year. This training under military control has been found necessary to provide for the needs of the Army in addition to the training in voluntary classes under the Federal Board.

Highest Type Propellers for U. S. Airplanes Being Made at Rate of About 400 a Day

The following statement is authorized by the War Department:

Twenty-five experienced American manufacturers are now producing a total of 350 to 400 highest quality airplane propellers per day for the air service. Ample stock of propeller timber is already purchased or available and the present supply of propellers in this country is more than equal to the demand.

Fewer Spare Propellers.

The number of spare propellers required for each fighting unit was reduced by the air service recently. Hence it has been possible to cut down the original program for the production of propellers.

After the declaration of war the Signal Corps was forced to build up the existing propeller industry and encourage the manufacture of propellers as a new enterprise.

In April, 1917, there were only four airplane companies making their own propellers. Since that time a great development has taken place, especially since December, 1917. The older companies have expanded and new concerns have sprung up, due chiefly to the increased demand for propellers and the requests of the Signal Corps.

How They Are Made.

American double-bladed airplane propellers are built up from boards about 1 inch in thickness, cut out to the rough shape of the laminations. These boards or laminations are cut out from carefully selected lumber which has previously been kiln-dried to a uniform moisture content of from 6 to 8 per cent, great care being taken to avoid case-hardening and too rapid drying, which may diminish the strength of the lumber. The laminations when cut for use in the propeller must be clear pieces, free of all defects, and with straight grain running along the length of the piece. After cutting to shape, the boards are balanced individually and selected according to this balance for grouping together for the complete propeller.

Following this selection, the completed groups of laminations are assembled and placed in a hot box to prepare for gluing. With correct temperatures of material and room gluing is done as rapidly as possible and the glued-up blocks left in presses or clamps to set for 24 hours. The blocks are then cut down by carving machines, lathes, shapers, etc., to within about one-fourth inch of the final finished size and shape, and in this state are hung for two weeks in a conditioning room before being worked to the final finish.

Careful Finishing Work.

The final finish is done on the bench and completes the propeller to the point of being ready for varnish or covering. The bench work is done with great accuracy so as to conform exactly to the desired pitch and shape and to have the two blades in exact alignment and track. The propeller, acting as a flywheel for the air motor, must be perfectly balanced. When the propeller is finished in the "white" it is ready for inspection of glue joints, dimensions, and balance, after which it is finished with five coats of spar varnish and rebalanced.

Existing opinion is somewhat divided as to the best wood for propeller purposes, but the past practice of French and English Governments greatly favors walnut and mahogany for combat blades, the former being considered better. Other woods have been used for training-type propellers, principally quarter-sawed white oak, birch, cherry, and poplar.

It is believed that quarter-sawed white oak will come to be used more generally on account of its greater strength and the necessity for getting maximum strength in the propellers used on the newer high-powered, high-speed engines.

The four-bladed propeller is generally used instead of the three, because of its simpler and stronger construction features. The two-bladed propeller is more efficient than the three or four, and would always be used if the arrangement of planes and engine permitted.

RECORD FOR KEEL LAYING.

In Place 90 Seconds After Preceding Ship Left Launching Ways.

The Shipping Board issues the following:

One minute and a half is now the pace set for laying a new keel after its predecessor has slid into the water.

In reporting to the Shipping Board the launching of the *Quinnesec*, the Terry Shipping Company of Savannah, Ga., stated that within 90 seconds after the ship left the ways another keel had been placed in position on the vacated blocks. This feat drew from Chairman Hurley of the Shipping Board the following telegram:

"I beg to congratulate you upon the launching of the ship *Quinnesec* at your yard and Mr. Schwab joins with me in offering your company, your organization, and your employees hearty thanks for patriotic speeding of our shipbuilding program. We are particularly gratified at the spirit shown in laying a keel in 90 seconds after the way was vacated."

PUBLIC LAND DESIGNATIONS DURING THE MONTH OF APRIL

The Department of the Interior authorizes the following:

Secretary of the Interior Lane announces that the principal activities of April in connection with land classifications appear in the administration of the enlarged-homestead act and the stock-raising homestead act. Under the former act nearly 435,000 acres were designated for entry. These lands, practically all of which were included in individual applications for entry, were distributed through the States as follows:

Colorado, 100,192 acres; Idaho, 79,762; Kansas, 22,961; Montana, 79,862; Oregon, 69,785; Washington, 81,917; Wyoming, 80; total, 434,559 acres.

Designated as Nonirrigable.

The total area thus far designated as nonirrigible for entry under the enlarged-homestead act and its amendments in tracts of 320 acres each is now nearly 280,000,000 acres.

The results of the field examinations made during the past eight or nine months in the administration of the stock-raising homestead act of December 29, 1916, are rapidly becoming available so that classifications under this act are now being made at a substantial rate. Favorable classifications made during April and resulting in designations for entry in tracts of 640 acres each amounted to 1,615,586 acres.

States and Acreage.

The States affected and the acreages in each are indicated below:

Colorado, 447,620 acres; Kansas, 15,384; South Dakota, 185,750; Wyoming, 966,832; total, 1,615,586 acres.

There had been previously designated 1,301,504 acres, so that at the end of April nearly 3,000,000 acres were available for entry under this law. These designations will permit of favorable action upon about 4,500 applications for these greater homesteads.

Field Examiners Transferred.

The field examiners who have been occupied during the winter months in examining lands applied for in the southern States, principally New Mexico, Arizona, and California, are now being transferred to the north and work now is or soon will be under way in the States of Colorado, Utah, Nevada, California, Oregon, Washington, Wyoming, Montana, and Idaho.

U. S. R. R. ADMINISTRATION ISSUES REVENUE INSTRUCTIONS

(Continued from page 9.)

months for errors and unreported tickets should be made on standard Form No. 6 as prescribed by the Railway Accounting Officers' Association.

Claims for Correct Proportions.

15. Claims for errors developed in interline passenger traffic reports should be made in accordance with paragraph 7 of General Order No. 32. For the present standard Form No. 3 of the Railway Accounting Officers' Association may be used.

Tracers for Unreported Interline Passenger Traffic Items.

16. When rendering tracers for unreported tickets, including those reported without revenue on account of exchange, also for unreported excess baggage checks, standard Form No. 4, prescribed by the Railway Accounting Officers' Association, should be used.

Settlements for Interchangeable Mileage and Scrip Coupons Honored.

17. Honoring carriers should use Association Standard Form No. 7 and forward to the issuing carriers on or before the 15th of the following month, the issuing carriers to add the amount of such statements as a separate item to their interline passenger traffic reports to the honoring carriers for the current month. These statements should be accepted by the issuing carriers without verification as to the number of coupons in each detachment inclosed, but claims may be made covering other discrepancies of a substantial amount, in accordance with paragraph 7 of General Order No. 32.

Absorption of Omnibus and Baggage Transfer Charges.

18. Where roads under Federal control pay transfer charges that are not considered in the division of interline fares and claim on connecting carriers for a proportion of the charges, such arrangements shall be discontinued effective as of June 1, 1918.

19. All of the rules and regulations heretofore prescribed by the Railway Accounting Officers' Association governing interroad passenger accounting shall be complied with except in so far as they may be in conflict with the foregoing. Where the standard forms are continued in use appropriate notations should be made thereon, as may be necessary, in order to have the spaces as now provided fit the new conditions.

C. A. Prouty, *Director.*

Sugar Consumed in U. S. and by Allies Last Year and Comparative Prices

The Food Administration authorizes the following:

The United States consumed in the first year of the war, April, 1917, to April, 1918, 4,109,291 tons of sugar (8,218,582,000 pounds).

The wholesale price of refined sugar in the United States at the present time is $7.30 per 100 pounds. An increase of 1 cent per pound in the price of sugar would take from the pockets of the consumers at least $82,185,820.

Prices in Other Countries.

The regulated wholesale price in Canada is $8.07 per 100 pounds; in the United Kingdom, $12.59; in France, $12.28; and in Italy, $26.30.

Canada's consumption of sugar for the year ending March 31 was 352,200 tons. The consumption of France for 1916 was 570,621 tons; the consumption of the United Kingdom was 1,565,599 tons, and the consumption of Italy was 276,953 tons.

The total consumption of sugar for the four countries was 2,765,373 tons, the total cost of which was $736,884,703, or an average cost per ton for all sugar consumed in the four allied countries of $266.47 per ton. Had the sugar consumption of the United States for the past year been paid for at that price, the total would have been $1,095,002,772. The cost of the sugar consumption for the United States for one year at the prevailing price of $146 per ton will amount to $599,956,486.

Half Billion Saving This Year.

If sugar consumption in the United States for the coming year remains at the same figure as that for last year, the saving, as compared with prices prevailing in the four allied countries named, will total $495,046,286.

The wholesale price of sugar in the United States is now $7.45 per 100 pounds less 2 per cent at seaboard points, or about $7.30 net. In August of 1917, the price reached $9.15 per 100 pounds. The refiners now receive $1.30 per 100 pounds for refining as against a difference between raw and refined sugar up to October 1, 1917, ranging from $1.60 to $2.65.

PATRIOTISM OF MINE WORKERS GRATIFIES FUEL ADMINISTRATION

The United States Fuel Administration authorizes the following:

The United States Fuel Administration finds cause for gratification in the production reports that have come in from various coal fields, both anthracite and bituminous, all over the country. These reports indicate that the mine workers paid patriotic heed to Fuel Administrator Garfield's appeal that the Fourth of July celebration be not unduly extended, and as a result the days immediately following the Fourth will, it is believed, show a much larger output than in any previous year.

Letters from some of the district representatives show that even on July 4 itself the output was about 60 per cent of the present normal rate of daily production. In several of the districts the mines were worked on the national holiday, and instead of the day being a blank, so far as mining was concerned, a considerable tonnage was produced.

Prior to the issuance of the Fuel Administration's appeal, arrangements had been made by the miners in many coal fields for picnics and outings and meetings that should extend over the 5th and the 6th, after the national holiday. In a great many instances these programs were called off as soon as the Fuel Administration's appeal made the need of the Nation known. The reports that have already come in indicate that the "great service army" of mine workers has awakened to its increased opportunity and its duty of sustained service.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

MANAGER FOR "MISSISSIPPI AND WARRIOR WATERWAYS"

The United States Railroad Administration authorizes the following:

The much discussed question of developing a system of transportation on the inland waterways provided by the Mississippi and Black Warrior Rivers has been settled by Director General McAdoo through the appointment of M. J. Sanders, of New Orleans, as "Federal manager of the Mississippi and Warrior waterways."

The Director General has received full reports on this subject from the committee on inland waterways from the western and southern regional directors and from Director Prouty and Interstate Commerce Commissioner Meyer, all of whom have investigated the matter at the Director General's request.

Mr. Sanders, the newly appointed Federal manager, will have general direction of the development of the necessary facilities and the construction of requisite barges, tugs, etc., that will be used on the Mississippi River south of St. Louis and on the Black Warrier River route between the Birmingham district in north Alabama and Mobile and New Orleans, the latter city being reached via the Black Warrior River, Mobile Bay, the Gulf of Mexico, and Lakes Borgne or Ponchartrain, with their connecting canals.

Mr. Sanders has been manager of the Leyland Steamship Lines for the ports of New Orleans, Mobile, and Pensacola for the last 30 years. This steamship service is the most important traversing the Gulf of Mexico. It includes some of the largest freight steamers in the Gulf trade, with as many as 100 sailings annually from the ports named.

Mr. Sanders has had extensive business connections with all the railroads serving the Gulf ports, as well as with the existing river transportation service. He was president for several years of the City Bank & Trust Co., of New Orleans, and president of the Mobile Liners (Inc.). He is director of the Lake Borgne Canal Co., of the New Orleans Shipwright Co., and of the Louisiana Southern Railway.

Member of Waterways Committee.

In March last he became a member of the inland waterways committee, above referred to. This committee was appointed by the Director General to "make a prompt investigation and report as soon as practicable a definite plan describing the extent and the manner in which additional use may be made of the internal waterways for the economical and expeditious movement of traffic of the country, so as to relieve or supplement the railways under existing war conditions."

Mr. Sanders strongly believes that the time has come when the enormous expenditure of the Government in the development and improvement of the Mississippi and the Black Warrior Rivers should be made to yield some return through the application of progressive methods, modernized facilities, equitable freight rates, and fair differentials, and that the pressure upon the railway facilities of the Nation will be sensibly reduced by the adoption of such a policy. He will have the opportunity in the position to which he has been appointed to make a thoroughgoing test of the possibilities of these waterways under favorable conditions.

Bills Approved by President

THE WHITE HOUSE,
July 11, 1918.

The President has approved bills and joint resolution of the following number and title:

July 8, 1918.

S. 3929. An act for the construction of a private conduit across Michigan Avenue NE., in the District of Columbia.

H. R. 12541. An act making appropriations for fortifications and other works of defense, for the armament thereof, for the procurement of heavy ordnance for trial and service, and for other purposes.

H. R. 12600. An act making appropriations to supply deficiencies in appropriations for the fiscal year ending June 30, 1918, and prior fiscal years, on account of war expenses, and for other purposes.

H. R. 11247. An act providing for the protection of the uniform of friendly nations, and for other purposes.

H. J. Res. 311. Joint resolution making appropriations for certain necessary operations of the Government and of the District of Columbia for the months of July and August, 1918, and for other purposes.

July 9, 1918.

H. R. 12580. An act to authorize an additional issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend additional credit to foreign Governments, and for other purposes.

H. R. 12281. An act making appropriations for the support of the Army for the fiscal year ending June 30, 1919.

July 10, 1918.

H. R. 8938. An act to equip the United States penitentiary, Atlanta, Ga., for the manufacture of supplies for the use of the Government, for the compensation of prisoners for their labor, and for other purposes.

July 11, 1918.

H. R. 11048. An act to amend the war-risk insurance act.

S. 3798. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy and of wars other than the Civil War, and to certain widows and dependent relatives of such soldiers and sailors.

S. 4193. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy and of wars other than the Civil War, and to certain widows and dependent relatives of such soldiers and sailors.

S. 4542. An act granting pensions and increase of pensions to certain soldiers and sailors of the Regular Army and Navy and of wars other than the Civil War, and to certain widows and dependent relatives of such soldiers and sailors.

MAJ. FLEMING TRANSFERRED.

Special orders, No. 146:

250. Maj. Philip B. Fleming, Corps of Engineers, is relieved from duty with and assignment to the 5th Engineers, and is assigned to the 605th Engineers. He will proceed without delay to Camp Forrest, Ga., and report in person to the commanding officer for duty with his regiment.

81,000 TONS OF COAL SAVED BY PLANTS AT PITTSBURGH

One Large Concern Rated Only 59 Per Cent of Efficiency in Use of Fuel.

The Fuel Administration authorizes the following:

Thomas R. Brown, administrative engineer of the United States Fuel Administration for the Pittsburgh district, in a report just received in Washington, says that through the inspection of industrial steam plants, which was begun there only a few weeks ago, a saving of 81,000 tons of coal per year has been effected in the Pittsburgh district. This saving represents a little more than one week of actual inspection under the general program recently announced by the Fuel Administration.

Improvements Effected.

In five manufacturing plants using coal for production of power an annual saving of 53,942 tons of coal have been made by improved methods of firing, stopping leaks around boiler settings, and other factors which make for economy in the general conditions of boiler plant operation.

Mr. Brown's report discloses the startling fact that one great plant operated in his district was rated only 59 per cent of efficiency in the use of coal. If this ratio, or anything like it, should hold good for the industrial plants in other districts where the efficiency is recognized as not being nearly so high as in the Pittsburgh district, then the Fuel Administration feels assured that it will be an easy matter to save from 25,000,000 to 30,000,000 tons in the 250,000 industrial plants in the United States without in any way reducing the quantity or quality of the output. However, in fairness to the Pittsburgh district it may be said that the report shows an average efficiency of almost 80 per cent.

Extent of Program.

The national program of the Fuel Administration for the conservation of coal in power plants will extend into all of the principal coal-burning States of the country.

Announcement of the appointment of these State administrative engineers was made July 12:

Hans J. Meyer, consulting engineer, Minneapolis, Minn., for the State of Minnesota.

Henry Adams, consulting engineer, Baltimore, Md., for the State of Maryland.

Horace S. Hunt, consulting engineer, Jackson, Mich., for the State of Michigan.

PROMOTION OF MAJ. POOLE.

Special Orders, No. 157:

97. The appointment of Maj. John H. Poole, Engineer Reserve Corps, to the grade of lieutenant colonel, National Army, with rank from June 26, 1918, is announced.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

AWARDS BY HARDWARE AND METALS DIVISION, QUARTERMASTER DEPARTMENT

The Hardware and Metals Division, Quartermaster Department, has made awards as follows:

July 3, 1918.

PURCHASE ORDERS.

Gurney Heater Manufacturing Co., Boston, Mass., heaters.
American Fork & Hoe Co., Cleveland, Ohio, hoes.
Rennous, Kleinle & Co., Baltimore, Md., brushes.
Davenport Manufacturing Co., Davenport, Iowa, paper baler.
Arcade Manufacturing Co., 96 Warren Street, New York City, mop handles.
Bailey Electric Supply Co., 18 Warren Street, New York City, motor.
Singer Sewing Machine Co., Singer Building, New York City, sewing machines.

CONTRACTS.

United States Steel Products Co., Wilkins Building, Washington, D. C., wire.
Peoria Cordage Co., Peoria, Ill., manila rope.
American Chain Co., Grand Central Terminal, New York City, chains.
American Chain Co., Grand Central Terminal, New York City, wagon chains.
The Miller Lock Co., Philadelphia, Pa., brass drawer locks.
Eagle Lock Co., New York City, brass drawer locks.

July 8, 1918.

PURCHASE ORDERS.

Singer Sewing Machine Co., Singer Building, New York City, motors and sewing machines.
Singer Sewing Machine Co., Singer Building, New York City, sewing machine and equipment.
Peerless Light Co., 483 Broadway, New York City, bulbs.
Beacon Electric Works of National Carbon Co., 132 King Street, New York City, flashlights.
Odoriess Refrigerator Co., Chattanooga, Tenn., refrigerator.
Midvale Steel & Ordnance Co., Washington, D. C., steel.
Cary Manufacturing Co., New York City, strap iron.
National Enameling & Stamping Co., Milwaukee, Wis., dippers, graters, skimmers.
Silver & Co., 304 Hewes Street, Brooklyn, N. Y., food containers.

CONTRACTS.

T. E. Conklin & Co., Duane Street, New York, brass wire.
The Fox Furnace Co., Elyria, Ohio, tinner's stakes.
John T. Lewis & Bros. Co., Baltimore, Md., metal babbitt.
American Brass Co., Waterbury, Conn., solder brass.
A. H. Leathers Handle Co., Dickson, Tenn., ax helves.
The Fox Furnace Co., Elyria, Ohio, stake holders.
Mesker Bros. Iron Co., St. Louis, Mo., field ranges.

July 9, 1918.

PURCHASE ORDERS.

Midvale Steel & Ordnance Co., Washington, D. C., bar round steel.
Midvale Steel & Ordnance Co., Washington, D. C., bar flat steel.
The Turner Seymour Manufacturing Co., Torrington, Conn., brass escutcheon pins.

CONTRACTS.

A. H. Leathers Handle Co., Dickson, Tenn., ax helves.

July 11, 1918.

PURCHASE ORDERS.

Hubbard & Co., Pittsburgh, Pa., shovels, coal scoop.
Hubbard & Co., Pittsburgh, Pa., scoops.
Henry Disston & Sons, Philadelphia, Pa., cross-cut saws.

CONTRACTS.

North Bros. Manufacturing Co., Philadelphia, Pa., screw drivers.
North Bros. Manufacturing Co., Philadelphia, Pa., screw drivers.
Henry Disston & Sons, Philadelphia, Pa., saws.

SURGEON GENERAL OF ARMY

The following contracts and purchases have been approved by the Surgeon General of the Army:

July 8, 1918.

H. J. Baker & Bro., New York City, drugs.
W. D. Young & Co., Boston, laboratory equipment.
Hollister Wilson Laboratories, Chicago, sutures.
Messrs. Gimbel Bros., New York City, pillowcases.
E. A. Lovett Co., East Orange, N. J., stoves.
Norwood Calep & Co., Keene, N. H., chairs.
Reading Hardware Co., Reading, Pa., lawn mowers.
American Cabinet Co., Two Rivers, Wis., dental equipment.
Waite & Bartlett Manufacturing Co., New York City, X-ray equipment.
West Lafayette Manufacturing Co., West Lafayette, Ohio, pans.
Wright Wire Co., Worcester, Mass., splints.
Arthur H. Thomas Co., Philadelphia, polygraphs.
F. A. Koch & Co., New York City, catheters.
Madison Trading Co. (Inc.), New York City, drugs.
American Stay Co., East Boston, Mass., leather for litter slings.
The Manufacturers Can Co., Harrison, N. J., tins.
Warren Leather Goods Co., Worcester, bedding cases.
Armour & Co., Chicago, beef exract.
General Motors Truck Co., Pontiac, Mich., motor ambulance parts.
Parke Davis & Co., Detroit, drugs.
J. Sklar Manufacturing Co., Brooklyn, applicators.
Kny Scheerer Corporation, New York City, catheters.
Tuttle Silver Co., Boston, laboratory equipment.
Watters Laboratory, New York City, catheters.
Fred Haslam & Co., Brooklyn, catheters.
Tate Manufacturing Co., Boston, mop heads.
Seabury & Johnson, New York City, adhesive plaster.
Campbell Electric Light Co., Lynn, Mass., X-ray apparatus.
Huron Chemical Co., Brooklyn, drugs.
National Biscuit Co., New York City, hard bread.
Cahn-Ament Co., New York City., tin boxes.
S. Stroock & Co., New York City, blankets.
The Consolidated Dental Manufacturing Co., New York City, dental equipment.
J. L. Mott Iron Works, Trenton, N. J., surgical stands.
Frank S. Betz Co., Hammond, Ind., operating stools.
Kelley-Koett Manufacturing Co., Covington, Ky., X-ray equipment.
Sharp & Dohme, Baltimore, drugs.
Lodi Corporation, Lodi, N. J., dental supplies.
Eastman Kodak Co., Rochester, X-ray supplies.
Williamburg Flint Glass Co., New York City, lamp chimneys.
F. A. Kock & Co., New York City, head mirrors.
Northwestern Steel & Iron Works, Eau Claire, Wis., laboratory supplies.
L. Stern, Baltimore, litter covers.

SUBSISTENCE DIVISION

The Subsistence Division, Quartermaster Department, has made purchases and contracts as follows:

July 6, 1918.

MILK, EVAPORATED.

AEM 122:
Borden's Condensed Milk Co., New York City.
Oatman Condensed Milk Co., Dundee, Ill.
AEM 116:
Mohawk Condensed Milk Co., New York City.
Carnation Milk Products Co., Chicago, Ill.
AEM 121:
Borden's Condensed Milk Co., New York City.
Highland Condensed Milk Co., Elkland, Pa.
Oatman Condensed Milk Co., Dundee, Ill.
Highland Condensed Milk Co., Elkland, Pa.
AEM 128:
Oatman Condensed Milk Co., Dundee, Ill.
AEM 127:
Armour & Co., Chicago, Ill.
Helvetia Condensed Milk Co., Highland, Ill.
AEM 126:
Oatman Condensed Milk Co., Dundee, Ill.
Denmark Condensed Milk Co., Denmark, Wis.
Helvetia Condensed Milk Co., Highland, Ill.
AEM 125:
Sturtevant, Wright & Wagner, Beloit, Wis.
Tiffany Milk Products Co., Beloit, Wis.
AEM 124:
Litchfield Creamery Co., Litchfield, Ill.
Helvetia Condensed Milk Co., Highland, Ill.
AEM 88:
Carnation Milk Products Co., Chicago, Ill.
AEM 129:
Borden's Condensed Milk Co., New York City.
Helvetia Condensed Milk Co., Highlands, Ill.
Van Camp Packing Co., Indianapolis, Ind.
Libby, McNeil & Libby, Chicago, Ill.
Valecia Evaporated Milk Co., Madison, Wis.
Denmark Condensed Milk Co., Denmark, Wis.
Libby, McNeil & Libby, Chicago, Ill.
Helvetia Condensed Milk Co., Highland, Ill.
Mohawk Condensed Milk Co., New York City.
Wisconsin Dairy Products Co., Stoughton, Wis.
Wisconsin Butter & Cheese Co., Elkhorn, Wis.
Wisconsin Condensed Milk Co., Burlington, Wis.
Hillsboro Condensed Milk Co., Hillsboro, Wis.
Carnation Milk Products Co., Chicago, Ill.
AEM 168:
Helvetia Milk Condensing Co., Highland, Ill.
AEM 112:
Libby, McNeil & Libby, Chicago, Ill.
AEM 34:
Libby, McNeil & Libby, Chicago, Ill.
AEM 118:
Alpine Evaporated Cream Co., San Francisco, Cal.
AEM 114:
Carnation Milk Products Co., Chicago, Ill.
AEM 107:
Carnation Milk Products Co., Chicago, Ill.
AEM 117:
Indiana Condensed Milk Co., Indianapolis, Ind.
Waterloo Creamery Co., Omaha, Nebr.
Carnation Milk Products Co., Chicago, Ill.
AEM 123:
Colorado Condensed Milk Co., Fort Lupton, Colo.
Larimer County Cooperative Co., Loveland, Colo.
AEM 115:
Helvetia Milk Condensing Co., Highland, Ill.
AEM 111:
Borden's Condensed Milk Co., New York City.
Highland Condensed Milk Co., Elkland, Pa.

SUGAR.

American Sugar Refining Co., New Orleans, La.
American Sugar Refining Co., New York City.
B. H. Howell Son & Co., New York City.

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

July 6, 1918.

Jones & Laughlin Steel Co., Washington, D. C., steel pipe.
Pulaski Iron Co., Philadelphia, Pa., pig iron.
Easton Steel Co., Pottstown, Pa., pig iron.
Case Crane & Engineering Co., Columbus, Ohio, electric traveling crane.
American Brass Co., Ansonia, Conn., copper sheet.
General Electric Co., Schenectady, N. Y., planer equipment.
Davis-Watkins Dairymen, Jersey City, N. J., packing cans (ice cream).
Bramhall-Deane Co., New York City, N. Y., cabinets.
North Bros. Manufacturing Co., Philadelphia, Pa., freezers (ice cream).
Vulcanite P. C. Co., Vulcanite, N. J., cement.
Richmond Cedar Works, Richmond, Va., tubs.
Ingersoll Rand Co., New York City, air compressors.
Western Electric Co., New York City, telephone switchboards.
James Clarke Electric Co., Louisville, Ky., drills.
Swind Machinery Co., Philadelphia, Pa., key-setting machines.
Landis Tool Co., Waynesboro, Pa., grinding machines.
Electric Tachometer Corporation, Philadelphia, Pa., transmitters.
Triumph Ice Machine Co., Cincinnati, Ohio, tanks.
Russell & Stoll Co., New York City, lighting fixtures.
Baltimore Tube Co. (Inc.), Baltimore, Md., copper tubing.
Wyatt Prock Lumber Co., Philadelphia, Pa., white pine.
Meadow River Lumber Co., Rainelle, W. Va., white oak.
Haverhill Box Board Co., Haverhill, Mass., wall board.
Athens Shipbuilding Corporation, District follows:
of Columbia, tubular life floats.
Landis Machine Co., Waynesboro, Pa., bolt machines.
Singer Sewing Machine Co., New York City, sewing machines.
American Brass Co., Kenosha, Wis., condenser tubes.
Sherritt & Stoer Co., Philadelphia, Pa., pneumatic hammers.
Sherritt & Stoer Co., Philadelphia, Pa., press.
Manning, Maxwell & Moore, New York City, mills.
Aluminum Co. of America, aluminum.

July 8, 1918.

American Tap & Die Co., Washington, D. C., tap and die set.
Niles-Bement-Pond, New York City, pipe machinery.
Manning, Maxwell & Moore, New York City, pipe machinery.
E. I. du Pont de Nemours & Co., Wilmington, Del., T. N. T.
Lincoln Electric Co., Washington, D. C., motor.
Swind Machinery Co., Philadelphia, Pa., drill.
International Nickel Co., Bayonne, N. J., monel metal.
Eastman Gardner & Co., Laurel, Miss., yellow pine.
Industrial Lumber Co., Elizabeth, La., yellow pine.
National Electrical Supply Co., Washington, D. C., mica.
George Wood Sons & Co., Philadelphia, Pa., red-oil-boiled drilling.
John Wanamaker, New York City, white drilling.
Universal Trading Co., New York City, green baize cloth.
Wellington Sears & Co., Boston, Mass., D-blue and lotus awning.
General Fireproofing Co., Washington, D. C., steel shelving.
Carnegie Steel Co., Washington, D. C., medium steel.
Alga-Sullivan Lumber Co., Century, Fla., yellow pine.
Union Cypress Co., Hopkins, Fla., yellow pine.
Porter Bros. Lumber Co., Palatka, Fla., yellow pine.
Davis Zukes Lumber Co., Zuke, Ga., yellow pine.
Standard Lumber Co., Live Oak, Fla., yellow pine.
Taylor County Lumber Co., Springdale, Fla., yellow pine.
Drake Lumber Co., Miami, Fla., yellow pine.

July 9, 1918.

No. 39692. Standard Metal Manufacturing Co., Newark, N. J., brass strip.
No. 39693. Durand Steel Locker Co., Chicago, Ill., steel shelving.
No. 39694. Moore Mill & Lumber Co., Bandon, Oreg., Douglas fir.
No. 39695. U. S. Steel Products Co., Washington, D. C., structural steel, etc.
No. 39696. Moore Steam Turbine Co., Philadelphia, Pa., machinery.
No. 39697. George Oldham & Son Co., Frankford, Philadelphia, Pa., rivets.
No. 39706. U. S. Electrical Tool Co., Cincinnati, Ohio, grinders.
No. 39707. International Nickel Co., New York, N. Y., monel metal.
No. 39708. A. E. Moeller, Brooklyn, N. Y., thermometers.
No. 39709. C. J. Tagliabue Manufacturing Co., Brooklyn, N. Y., thermometers.
No. 39710. Taylor Instrument Co., Washington, D. C., thermometers.
No. 39711. White Co., Cleveland, Ohio, parts.
No. 39712. Taunton-New Bedford Copper Co., Taunton, Mass., brass sheets.

July 11, 1918.

No. 39713. Packard Motor Car Co., Detroit, Mich., motor trucks.
No. 39714. Z. D. Johnson Co. (Inc.), Philadelphia, Pa., plumbing material.
No. 39715. Empire Rubber & Tire Co., Trenton, N. J., tires and tubes.
No. 39717. Ford Motor Co., Detroit, Mich., ambulance.
No. 39718. Swind Machinery Co., Philadelphia, Pa., gauge machine.
No. 39719. Vulcanite P. C. Co., Philadelphia, Pa., cement.
No. 39720. The Burgess Co., Marblehead, Mass., boxing airplanes.
No. 39722. The Burgess Co., Marblehead, Mass., boxing airplanes.
No. 39732. Atlas P. C. Co., New York City, N. Y., cement.
No. 39733. Electric Specialty Co., Stamford, Conn., dynamotors.
No. 39734. Hobart Bros., Troy, Ohio, generators.
No. 39751. Washington Steel & Ordnance Co., Washington, D. C., rotating bands.
No. 39752. The Nassau Smelting & Refining Works Co., New York City, N. Y., rotating bands.
No. 39753. American Brass Co., Torrington, Conn., rotating bands.
No. 39754. Melrose Savage Co., Boston, Mass., lamp cord.
No. 39756. International Nickel Co., Bayonne, N. J., monel metal.
No. 39757. William Cramp & Sons S. & E. Building Co., Philadelphia, Pa., services.
No. 39758. Tilghman Lumber Co., Richmond, Va., North Carolina pine.
No. 39759. Edward L. Davis Lumber Co., Louisville, Ky., ash.

Marine Corps Contracts

Contracts have been placed by the Quartermaster, United States Marine Corps, as follows:

July 5, 1918.

Charleston Iron Works, Charleston, S. C., iron rods.
Barrett Co., New York, N. Y., disinfectant.
Taylor Instrument Co., Rochester, N. Y., dough-testing thermometers.
S. B. Sexton Stove & Manufacturing Co., Baltimore, Md., dough scrapers.
E. Clinton Co. (Inc.), Philadelphia, Pa., grease brushes.
Cotton States Belting and Supply Co., Atlanta, Ga., pumps, etc.
Montague Manufacturing Co., Richmond, Va., lumber.
Penzel Muller & Pruefer, New York, N. Y., musical instruments.
Carl Fisher, New York, N. Y., musical instruments.
Cundy-Bettoney Co., Boston, Mass., musical instruments.
C. G. Conn (Ltd.), Elkhart, Ind., musical instruments.
Ludwig & Ludwig, Chicago, Ill., musical instruments.
North & Judd Manufacturing Co., New Britain, Conn., hardware.
G. G. Roberts Corporation, Whitman, Mass., hardware.
Universal Trading Co., New York, N. Y., rivets and burrs.
C. C. Galbraith & Son (Inc.), New York, N. Y., hardware.
Merit Manufacturing Co., Attleboro, Mass., triangles.
Atlantic Screw Works, Hartford, Conn., screws.
William H. Horstmann Co., Philadelphia, Pa., buckles.

July 6, 1918.

Charles M. Hatcher Manufacturing Co. (Inc.), Philadelphia, Pa., leather cleaner.
Texas Co., Philadelphia, Pa., gasoline.
Miller Saw Trimmer Co., Pittsburgh, Pa., press feeders.
American Steel & Wire Co., Washington, D. C., wire.
Keystone Type Foundry Supply House, Philadelphia, Pa., printing material.
S. B. Hopkins, New York, N. Y., electrotype work.

July 8, 1918.

Foster & Stewart Co., Brooklyn, N. Y., grommets.
Humana Co., Newark, N. J., printing press.
H. A. Frantz Co., Philadelphia, Pa., bedbug powder.
Rose Rat Exterminator Co., Cincinnati, Ohio, fly powder.
Chemical Supply Co., Cleveland, Ohio, bedbug exterminator.
Southern Utilities Co., Miami, Fla., ice.
Newman Machine Co., Greensboro, N. C., planer.
H. B. Stebbins Lumber Co., Boston, Mass., lumber.
American Type Founders Co., Philadelphia, Pa., printing material.
Southern Pine Lumber Co., Texarkana, Tex., lumber.
M. S. & D. A. Byck Co., Savannah, Ga., filing equipment.

FLOUR MILLERS PENALIZED.

Licenses Revoked for Violation of Food Administration Regulations.

The United States Food Administration authorized the following:

For violations of the United States Food Administration flour and milling rules the license of one merchant has been revoked for an unlimited period and two others have been suspended temporarily.

T. R. Liberty & Sons, 73 Prospect Street, Fredonia, N. Y., manufacturers of alimentary pastes, lost their license from July 8 until further notice for sale of wheat flour without substitutes, the flour having been purchased for manufacturing macaroni.

The Pleasantville Mill, of Pleasantville, Ohio, lost its license for one week for selling flour to retailers without securing certificates as to the supply of substitutes.

The Hulshizer Milling Co., of Newark, Ohio, lost its license for two weeks for violating milling rules. Representatives of the mill did not appear at the hearing and an order was issued effective on July 8.

The A. Erlich Bros. Grocery Co., of Savannah, Ga., has paid $1,500 to the Red Cross in lieu of other penalties for making excess profits on flour and selling no substitutes.

BEEHIVE COKE PRICES FIXED IN CERTAIN KENTUCKY OVENS

The Chief [illegible] istrator issues the following:

U. S. FUEL ADMINISTRATION.
Washington, D. C., June 29, 1918.

It appearing to the United States Fuel Administrator that various additional regulations should be put in force for the better control of the distribution of coke and of the price at which the same may be sold,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other orders of the Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulation additional to those already set forth shall be in effect beginning at 7 a. m., July 1, 1918:

The maximum price f. o. b. cars at ovens, per ton of 2,000 pounds, for blast furnace coke made in beehive ovens by the Marrowbine Mining Co., at Lookout, Pike County, Ky., shall be seven dollars and seventy-five cents ($7.75.)

H. A. GARFIELD,
United States Fuel Administrator.

INSTRUCTIONS TO RAILROADS AS TO TESTS OF SCALES AND CARS

The United States Railroad Administration has issued the following:

CIRCULAR No. 13.

The duly authorized representatives of the Bureau of Standards, Department of Commerce, with the scale-testing equipment, test weights, and testing apparatus of the Bureau of Standards, shall have access to master track scales, track and other scales, and to test cars, owned by the railroads, for the purpose of testing scales and calibrating test cars in order that the Bureau of Standards may obtain all necessary data and information upon which to reach a proper conclusion as to suitable specifications and tolerances for the various classes of scales and weighing devices when under test and when in practical operation, and as to suitable methods of testing scales and calibrating scale test cars and master track scales.

All movements of the scale-testing equipments, test weights, and testing apparatus of the Bureau of Standards, with authorized attendants, made for the purpose of performing tests or calibrations in accordance with the terms of this order, shall be made free of charge by the railroads upon the request of representatives of the Bureau on presentation of authorized credentials.

Reports of these tests and calibrations with recommendations shall be made by the Bureau of Standards to the interested railroads and regional directors, currently as the tests are made.

C. R. GRAY,
Director, Division of Operation.

STATEMENT OF COINAGE AT U. S. MINTS DURING THE YEAR ENDED JUNE 30, 1918

The Treasury Department issues the following:

Coinage Executed at the Mints of the United States During the Fiscal Year Ended June 30, 1918.

Denomination.	Pieces.	Value.
SILVER.		
Half dollars	24,105,440	$12,052,720.00
Quarter dollars	45,223,400	11,305,850.00
Dimes	116,458,800	11,645,880.00
Total silver	185,787,640	35,004,450.00
MINOR.		
Five cents (nickel)	82,723,278	4,136,163.90
One cent (bronze)	445,628,201	4,456,282.01
Total minor	528,351,479	8,592,445.91
Total coinage	714,139,119	43,596,895.91

Coinage for Philippine Islands.

		Pesos.
50 centavos (silver)	2,502,166	1,251,083.00
20 centavos (silver)	6,255,656	1,251,131.20
10 centavos (silver)	8,210,519	821,051.90
5 centavos (nickel)	3,000,000	150,000.00
1 centavo (bronze)	12,500,000	125,000.00

[No gold coined.]

PUBLICATION OF RATES UPON DECLARED OR RELEASED VALUE

The Interstate Commerce Commission issues the following:

The only purpose in publishing rates dependent upon the declared or released value of the property transported is to limit the carrier's liability in case of loss of or damage to the property. By amendment to section 20 of the act to regulate commerce, approved March 4, 1915, "any such limitation without respect to the manner or form in which it is sought to be made" was declared to be unlawful and void. It was provided, however, that under certain conditions the commission might establish and maintain rates dependent upon the value of the property as stated in writing by the shipper.

In The Cummins Amendment, 33 I. C. C., 682, decided May 7, 1915, the commission said: "Neither the bills of lading or other contracts for carriage or classifications or rate schedules of the carriers should contain any provisions which are so declared to be unlawful and void."

Effective August 9, 1916, that part of section 20 of the act which authorized the commission to establish and maintain rates based upon declared value was amended and the provision that any attempt to limit the carrier's liability should be unlawful and void was modified so it should not apply to baggage or to property other than ordinary live stock, "concerning which the carrier shall have been or shall hereafter be expressly authorized or required by order of the Interstate Commerce Commission to establish and maintain rates dependent upon the value declared in writing by the shipper or agreed upon in writing as the released value of the property."

In Express, Rates, Practices, Accounts, and Revenues, 43 I. C. C., 510, decided April 2, 1917, the commission said: "We can not, in view of the provisions of the law, authorize or sanction such rates upon ordinary live stock; neither can they lawfully be maintained upon any other character of traffic except under authorization duly granted by the commission."

This decision was followed in Live Stock Classification, 47 I. C. C., 335, and again in Williams Co. v. Hartford & New York Transportation Co., 48 I. C. C., 269, in which the commission held that the rates complained of which were dependent upon the value of the property, and which the carriers had not been authorized by order of the commission to maintain, were unlawful.

Some carriers have neglected to secure from the commission authority to maintain such rates or to cancel them from their tariffs. Unnecessary controversies arise as to the charges on property transported thereunder. It is clearly the duty of every carrier to secure from the commission authority for the maintenance of such rates or to eliminate them from its classification and rate schedules. The commission expects that each carrier will give this matter prompt and careful attention.

By the commission:

GEORGE B. MCGINTY,
Secretary.

ASSIGNED TO REGIMENT.

Coast Artillery Officers and Chaplain Ordered to Camp Eustis, Va.

Special Orders, No. 146:

240. Each of the following-named officers is assigned to the 47th Artillery (Coast Artillery Corps), and will proceed to join that regiment at Camp Eustis, Va.: Lieut. Col. Joseph S. Hardin, Coast Artillery Corps, Coast Defenses of San Francisco; Maj. John T. H. O'Rear, Coast Artillery, National Army, Coast Defenses of New Orleans; Capts. Charles G. Atkin, Coast Artillery Reserve Corps, Coast Defenses of Eastern New York; Roger B. Colton, Coast Artillery Corps, Coast Defenses of Long Island Sound; Frank I. Ingersoll, Coast Artillery Reserve Corps, Coast Defenses of San Francisco; James E. Jones, Coast Artillery Reserve Corps, Coast Defenses of Sandy Hook; John H. La Fitte, Coast Artillery Corps, Coast Defenses of Cape Fear; Robert McBride, Coast Artillery Reserve Corps, Coast Defenses of Sandy Hook; Frank S. McClintock, Coast Artillery Reserve Corps, Coast Defenses of Chesapeake Bay; John R. Metcalf, Coast Artillery Reserve Corps, Coast Defenses of the Delaware; Walter I. Sweet, Coast Artillery, National Guard, Coast Defenses of Narragansett Bay; Joseph B. Varela, Coast Artillery Reserve Corps, Coast Defenses of the Delaware; and Chaplain D. B. Miller, National Army, Coast Defenses of Long Island Sound.

Show your patriotism by contributing to the American Red Cross Fund.

MEDICAL MEN IN CONFERENCE ON CAMPAIGN TO ENLIST EVERY DOCTOR IN COUNTRY'S SERVICE

PLAN FOR STATE GROUP MEETINGS

Membership in Army Medical Reserve Corps, Naval Reserve Force, or Volunteer Medical Service Corps Will be Urged Upon All.

The Council of National Defense authorizes the following:

As the first step in a Nation-wide campaign to enroll every doctor in the United States in the Medical Reserve Corps of the Army, the Naval Reserve Force, or the Volunteer Medical Service Corps members of the committees of the Medical Section, Council of National Defense, for the States of New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia met at the Hotel Washington in Washington to-day. At this meeting the State representatives are to discuss with the representatives of the Council of National Defense details of the plan to be followed and receive instructions.

Meeting First of Series.

This meeting is the first of a series, the United States having been divided into eight groups. The work will be subdivided among the State and county representatives of the Medical Section, Council of National Defense, in each State, and every doctor in the country who has so far not done so will be asked to apply for membership in the Medical Reserve Corps of the Army, Naval Reserve Force, or the Volunteer Medical Service Corps. Eligible to the Volunteer Medical Service Corps are all those who would be eligible to the Medical Reserve Corps were it not for being over the age of 55, physical disability, community or institutional need, or dependents. Women doctors are eligible to the Volunteer Medical Service Corps.

States Included In Groups.

The States included in the various groups are as follows:

Group No. 1.—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut.

Group No. 2.—New York, Pennsylvania, New Jersey, Delaware, District of Columbia, Maryland, Virginia, West Virginia.

Group No. 3.—Michigan, Ohio, Kentucky, Indiana, Illinois, Wisconsin.

Group No. 4.—Louisiana, Tennessee, North Carolina, Georgia, South Carolina, Florida, Alabama, Mississippi.

Group No. 5.—Iowa, Minnesota, North

(Continued on page 3.)

$1,400,000,000 IN FOODSTUFFS SHIPPED BY UNITED STATES TO ALLIED NATIONS DURING LAST YEAR, MR. HOOVER SAYS

CONSTRUCTION LUMBER DEPOT ESTABLISHED FOR THE ARMY

The War Department authorizes the following statement:

To save time and money in meeting emergency calls for lumber, the Construction Division of the Army has established a construction lumber depot at Gilmerton, Va. It is estimated that a yearly saving of approximately a quarter of a million dollars will be effected through its operation.

Paid Increased Prices.

In the past, whenever the Army constructors were required to buy additional lumber, the transaction was made at yards in the immediate vicinity. The average increase in price for this material over the lumber originally purchased for the job ran from $9 to $12 per thousand feet. By purchasing in large quantities and charging only for yard maintenance, the greater part of this excess price is expected to be saved to the Government.

Working Capital of $500,000.

A stock of from twelve to fifteen million feet of lumber will be carried and it is estimated that the yearly turnover will amount to between fifty and sixty million feet. A fund of $500,000 has been set aside as necessary working capital for the yard.

The Gilmerton yard is situated on the Elizabeth River a few miles from Norfolk and has a frontage of some 4,000 feet on navigable salt water. It is operated by experienced lumbermen.

Survivors of Norwegian Bark Land in Nova Scotia

The Navy Department has received information that the survivors of the Norwegian bark *Marosa* have been landed in Nova Scotia. The *Marosa*, they reported, was sunk by a submarine about 1,200 miles east of New York. All on board were saved.

The steamship *Manx King* was reported held up by a submarine in the same general locality July 8. The crew took to the boats, and before they pulled away saw the Germans putting bombs aboard the vessel, but did not see her sink.

LETTER TO PRESIDENT

Nearly 85,000,000 Bushels of Wheat Sent Across in Response to Urgent Request of Allied Food Controllers Early in Year for 75,000,000 More Bushels.

The Food Administration, by permission of the White House, makes public the following letter written by Mr. Hoover to the President:

JULY 11, 1918.

DEAR MR. PRESIDENT: It is now possible to summarize the shipments of foodstuffs from the United States to the allied countries during the fiscal year just closed—practically the last harvest year. These amounts include all shipments to allied countries for their and our armies, the civilian population, the Belgian Relief, and Red Cross. The figures indicate the measure of effort of the American people in support of allied food supplies.

Total Value $1,400,000,000.

The total value of these food shipments, which were in the main purchased through or with the collaboration of the Food Administration, amount to, roundly, $1,400,000,000 during the fiscal year.

The shipments of meats and fats (includes meat products, dairy products, vegetable oils, etc.,) to allied destinations were as follows:

Fiscal year—	Pounds.
1916–17	2,166,500,000
1917–18	3,011,100,000
Increase	844,600,000

Our slaughterable animals at the beginning of the last fiscal year were not appreciably larger than the year before, and particularly in hogs; they were probably less. The increase in shipments is due to conservation and the extra weight of animals added by our farmers. The full effect of these efforts began to bear their best results in the last half of the fiscal year, when the exports to the allies were 2,133,100,000 pounds, as against 1,266,500,000 pounds in the same period of the year before. This compares with an average of 801,000,000 pounds of total exports for the same half years in the three-year prewar period.

In cereals and cereal products, reduced to terms of cereal bushels, our shipments to allied destinations have been—

Fiscal year—	Bushels.
1916–17	259,900,000
1917–18	340,800,000
Increase	80,900,000

Of these cereals our shipments of the prime breadstuffs in the fiscal year 1917–18 to allied destinations were, wheat 131,000,000 bushels, and of rye 13,900,000 bushels, a total of 144,900,000 bushels.

The exports to allied destinations during the fiscal year 1916–17 were, wheat 135,100,000 bushels and rye 2,300,000 bushels, a total of 137,400,000 bushels. In addition, some 10,000,000 bushels of 1917 wheat are now in port for allied destinations or en route thereto. The total shipments to allied countries from our last harvest of wheat will be, therefore, about 141,000,000 bushels, or a total of 154,900,000 bushels of prime breadstuffs. In addition to this we have shipped some 10,000,000 bushels to neutrals dependent upon us, and we have received some imports from other quarters. A large part of the other cereals exported have also gone into war bread.

Allied Request More Than Met.

It is interesting to note that since the urgent request of the allied food controllers early in the year for a further shipment of 75,000,000 more bushels from our 1917 wheat than originally planned, we shall have shipped to Europe or have en route nearly 85,000,000 bushels. At the time of this request our surplus was already more than exhausted. This accomplishment of our people in this matter stands out even more clearly if we bear in mind that we had available in the fiscal year 1916–17 from net carry over and as surplus over our normal consumption about 200,000,000 bushels of wheat which we were able to export that year without trenching on our home loaf. This last year, however, owing to the large failure of the 1917 wheat crop, we had available from net carry over and production and imports only just about our normal consumption. Therefore, our wheat shipments to allied destinations represent approximately savings from our own wheat bread.

Figures Not Adequate.

These figures, however, do not fully convey the volume of the effort and sacrifice made during the past year by the whole American people. Despite the magnificent effort of our agricultural population in planting a much increased acreage in 1917, not only was there a very large failure in wheat, but also the corn failed to mature properly, and our corn is our dominant crop. We calculate that the total nutritional production of the country for the fiscal year just closed was between 7 per cent and 9 per cent below the average of the three previous years, our nutritional surplus for export in those years being about the same amount as the shrinkage last year. Therefore the consumption and waste in food have been greatly reduced in every direction during the year.

I am sure that all the millions of our people, agricultural as well as urban, who have contributed to these results should feel a very definite satisfaction that in a year of universal food shortages in the Northern Hemisphere all of those people joined together against Germany have come through into sight of the coming harvest not only with health and strength fully maintained but with only temporary periods of hardship. The European allies have been compelled to sacrifice more than our own people, but we have not failed to load every steamer since the delays of the storm months last winter. Our contributions to this end could not have been accomplished without effort and sacrifice, and it is a matter for further satisfaction that it has been accomplished voluntarily and individually. It is difficult to distinguish between various sections of our people—the homes, public eating places, food trades, urban or agricultural populations—in assessing credit for these results, but no one will deny the dominant part of the American women.

Yours, faithfully,

HERBERT HOOVER.

18 RAILROADS ARE ADDED TO CENTRAL WEST REGION

U. S. RAILROAD ADMINISTRATION,
Washington, July 10, 1918.

SUPPLEMENT NO. 1 TO CIRCULAR NO. 34.

In addition to the railroads named in circular No. 34, the following railroads are included in the central western region:

Arizona Eastern Railroad Co.
Atchison & Eastern Bridge Co.
Atchison Union Depot & Railroad Co.
Colorado Springs & Cripple Creek District Railway.
Denver Union Terminal Railway.
Evansville & Indianapolis Railroad.
Kansas City Connecting Railroad.
Keokuk Union Depot Co.
Leavenworth Depot & Railroad Co.
Ogden Union Railway & Depot Co.
Pan Handle & Santa Fe Railway.
Peoria & Pekin Union Railway.
Pueblo Union Depot & Railroad Co.
Riverside, Rialto & Pacific Railway.
Salt Lake City Union Depot & Railroad Co.
Toledo, Peoria & Western Railway.
Wichita Union Terminal Railway.

The following railway is transferred from the southwestern region to the central western region:

Wabash Railway (lines west of the Mississippi River).

W. G. MCADOO,
Director General of Railroads.

NEWSPAPER CLIPPING SERVICES TO AID IN REVENUE COLLECTION

The Bureau of Internal Revenue authorizes the following:

By order of Commissioner of Internal Revenue Daniel C. Roper newspaper clipping services have been established in each of the internal revenue collection districts as an aid in the collection of taxes. Items relating to real estate transfers, probate court matters, estate and inheritance tax, advertisements of exhibitions and special entertainments where admission fees are charged, announcement of dates of arrival of circuses and itinerant shows, opening of theaters, advertisements of motor bus line companies, insurance companies, notices of alleged violation of the narcotic laws, new charters granted, deaths of persons probably subject to estate tax and all articles of interest to the internal revenue service are clipped and filed for reference. The results achieved have been highly satisfactory.

LIVE STOCK LOADING REPORTS TO BE ISSUED FROM CHICAGO

The United States Department of Agriculture issues the following:

The headquarters of the live-stock loading-report service of the Bureau of Markets has been transferred from Washington to Chicago. The location of Chicago with reference to the territory from which most of the live stock of the country is shipped, together with its position as a telegraph wire center, made this change desirable. The transfer will produce greater efficiency in the operation of the loading-report service, and facilitate the preparation of the telegraphic reports on the estimated receipts at Chicago. These are a part of the market-report service on live stock at that market which the bureau has been furnishing since June 1.

Character of Service.

This live-stock market-report service at Chicago consists of a series of reports sent out at regular periods during each market day. The first report, which is a 6 o'clock wire on the estimated receipts, is sent out to those cities reached by the bureau's leased wires and is largely for the benefit of the eastern trade, whose time is one hour in advance of that at Chicago. The second report, a 7 o'clock wire on revised estimated receipts, is sent to all markets and is the first report sent out by the commercial news departments of the telegraph companies.

The 8.30 and 10.30 messages complete the service furnished the telegraph companies for their commercial news departments. The 8.30 report gives the opening hog market and the revised estimated receipts, while the 10.30 report gives market conditions and prices on all classes of live stock. The press associations are furnished a report about 11.30 a. m. for the afternoon papers and a closing market report about 3 p. m. for the morning papers. The same reports which are furnished the telegraph companies are sent over the bureau's leased wires, and in addition there is a closing market wire transmitted as early in the afternoon as a closing report can be made.

New Service Inaugurated.

Prior to the taking over of this service by the Bureau of Markets the first report sent out by the telegraph companies included a market prospect which was much criticized by producers and members of the trade as being unreliable, and as being based on someone's guess rather than on authentic information. This prospect was discontinued at the suggestion of stockmen and the trade when the Bureau of Markets began to furnish the live-stock market reports. The majority of the members of the live-stock trade have expressed approval of the elimination of the prospect report, and when the public becomes accustomed to the new service and understands that the reports are prepared by unbiased Government officials from authentic information herefore unavailable, greater confidence in the live-stock market reports sent from Chicago will be established.

The philosophy of the W. S. S. is save, save, save.

REGIONAL REPRESENTATIVES OF THE WAR INDUSTRIES BOARD HOLDING A CONFERENCE HERE

Object of Organization Is to Furnish Government with Information as to New Resources and Conversion of Industries for War Work.

The War Industries Board authorizes the following:

Directors and organizers managing the regional organizations in the 20 regions into which the United States has been divided for the purpose of keeping the Government advised concerning sources of supply and industrial conditions in all parts of the Nation are in conference in Washington to-day, with Charles A. Otis, chief of the resources and conversion section, and other representatives of the War Industries Board.

The 20 regions and the regional representatives appointed are:

No.	Region.	Name.
1	Boston	Stuart W. Webb.
2	Bridgeport	B. D. Pierce, jr.
3	New York	William F. Morgan.
4	Philadelphia	Ernest T. Trigg.
5	Pittsburgh	George S. Oliver.
6	Rochester	Esten A. Fletcher.
7	Cleveland	William B. McAllister.
8	Detroit	A. H. Templeton.
9	Chicago	D. E. Felt.
10	Cincinnati	Edwin C. Gibbs.
11	Baltimore	
12	Atlanta	
13	Birmingham	T. H. Aldrich.
14	Kansas City	F. D. Crabbs.
15	St. Louis	Jackson Johnson.
16	St. Paul	
17	Milwaukee	August H. Vogel.
18	Dallas	Louis Lipsitz.
19	San Francisco	Frederick J. Koster.
20	Seattle	

Object of Organizations.

The object of these regional organizations is to furnish the Government with the necessary knowledge of national conditions in providing new resources and converting industries to war work. As the various departments of the Government develop new requirements in the war program they are presented to the business men of the country through these regional organizations, which serve as points of contact between the War Industries Board and the business men.

One of the purposes of the present conference is to establish uniform methods among the regional organizations in relation to their work with the resources and conversion section.

Instances of Conversion.

As an indication of what is possible in the conversion of industry to meet war requirements and of the changes which can be made in the product of a factory, a few radical instances serve to illustrate. For instance, a Pennsylvania factory that formerly made linoleum is now machining 4.7-inch shells. A Duluth horseshoe manufacturer is turning out trench picks for the Army and a New Jersey terra-cotta tile concern is making dummy drop bombs. A Milwaukee factory, the former output of which was rowboat motors, is making hand grenades and trench pumps. In Rhode Island a manufacturer of finger rings has returned his activities to making adapter plugs. A Detroit stove concern is producing trench bombs and anchor parts, and a New York shirt-waist manufacturer is making signal flags.

Instances of this sort might be multiplied indefinitely, and they all serve to show the possibilities in converting to war work factories whose normal business has been curtailed by war conditions.

GEN. MARCH HONORED BY KING OF ENGLAND

The following cablegram has been received at the War Department:

London, July 17.

Gen. Peyton March,
Army Headquarters,
Washington.

I am happy to have the privilege of informing you that His Majesty, the King, has been graciously pleased to confer upon you the honorary award of Knight of the Grand Cross and of the Order of St. Michel and St. George.

MILNER.

This dispatch is signed by Viscount Milner, Secretary of State for War.

Lord Reading, the British Ambassador, called at the War Department to-day and notified Gen. March of the honors conferred by the King.

ALLOTS SHIP TO CARRY COFFEE FROM BRAZIL TO NEW ORLEANS

The War Trade Board announces in a new ruling (W. T. B. R. 170) that the United States Shipping Board has allotted a vessel to carry coffee from Brazil to New Orleans, which vessel will sail from Brazil August 15 to 20; rate, $1.70 per bag. Import licenses covering shipments of coffee to be made on this vessel will be allotted by the War Trade Board among importers of record for the calendar years 1916 and 1917. Coffee importers desiring to avail themselves of space on this vessel must notify the War Trade Board, Bureau of Imports, Washington, D. C., of their requirements on or before July 22, 1918.

ENEMY-TRADING NAMES STILL ON MAILING LISTS OF MANY FIRMS

The Censorship Board, Post Office Department, calls attention to the fact that many firms have failed to clear their mailing lists of names that have been placed upon the enemy trading list, and requests that such as have neglected to make these eliminations promptly proceed to do so. Firms desiring copies of the enemy trading list may obtain them by applying to Division of Information, War Trade Board, Twentieth and C Streets NW., Washington, D. C.

NAVAL BOARD MEETS TO SELECT MANY OFFICERS FOR PROMOTION

Secretary Daniels announced July 17 that the Naval Selection Board, which is to select officers for promotion to the ranks of commander, captain, and rear admiral, is now in session in this city. The members of the board are: Admiral Henry T. Mayo, commander in chief, Atlantic Fleet, president; Vice Admiral De Witt Coffman, Rear Admiral Nathaniel R. Usher, Rear Admiral Albert G. Winterhalter, Rear Admiral Augustus F. Fechteler, Rear Admiral Thomas S. Rodgers, Rear Admiral James H. Glennon, Rear Admiral Harry S. Knapp, Rear Admiral Thomas Snowden, Commander Reuben B. Coffey, recorder.

According to the computation of the Bureau of Navigation, the following are to be seletced:

	Permanent.	Temporary.
Rear admirals	5	21
Captains	11	93
Commanders	24	219

MEDICAL MEN IN CONFERENCE

(Continued from page 1.)

Dakota, South Dakota, Nebraska, Montana, Wyoming.

Group No. 6.—Missouri, Arkansas, Kansas, Oklahoma, Texas, Colorado.

Group No. 7.—Washington, Oregon, Idaho.

Group No. 8.—Utah, Nevada, California, Arizona, New Mexico.

Committee on Classification.

By authority of Surg. Gen. Gorgas, of the Army; Surg. Gen. Braisted, of the Navy; and Surg. Gen. Blue, of the United States Public Health Service; Dr. Franklin Martin, chairman of the general medical board of the Council of National Defense, has appointed the following committee on classification of the medical profession of the United States for military and civil purposes: Col. R. B. Miller, Marine Corps, United States Army; Col. V. C. Vaughan, Marine Corps, National Army; Lieut. Col. H. D. Arnold, Marine Corps, National Army; Surg. R. C. Ramsdell, United States Navy; Surg. J. R. Phelps, United States Navy; Dr. Joseph Schoreschowsky, United States Public Health Service; Dr. Otto P. Geier, Dr. John D. McLean, and Dr. C. E. Sawyer. Ex officio: Surg. Gen. W. C. Gorgas, United States Army; Surg. Gen. W. C. Braisted, United States Navy; Surg. Gen. Rupert Blue, United States Public Health Service; Lieut. Col. F. F. Simpson, and Dr. Franklin Martin.

This committee is authorized to meet at regular intervals and to cooperate with the committee on States activities, the State and county committees, and other agencies and societies engaged in advisory or executive functions dealing with classifications and enrollment for military, industrial, and home needs.

Special Orders No. 158:

397. Maj. Andrew C. Vauclain, Ordnance Reserve Corps, is relieved from duty at the district ordance office, Rochester, N. Y., and will proceed at once to Cleveland, Ohio, and report to the inspection manager, district ordnance office, for duty.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily—	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

GREAT BRITAIN TAKES CONTROL OF SMALL-TOOL MANUFACTURE

Consul Augustus E. Ingram at Bradford reports:

An order of the minister of munitions dated May 10 directs that no person shall on or after June 1, 1918, until further notice, manufacture any small tool as hereinafter defined, or any part thereof, except under and in accordance with the terms of a license issued under the authority of the minister of munitions.

Every person engaged in the manufacture of small tools shall make such returns with regard to his business as shall from time to time be required by or under the authority of the minister of munitions. For the purposes of the order the expression "small tools" shall mean all of any of those or the following small tools and shall include the following:

Abrasive wheels, adjustable gauges, auger bits, band saws, boring heads, calipers, chasers, chucks, circular saws, dial gauges, dies and die stocks, die heads, drills, drill sleeves and sockets, emery-wheel dressers, expanding mandrels, expansion bits, files, formed and dovetail bits, gauges, hacksaw blades, hand and breast drills, hand grinders, hide hammers, lathe carriers, lathe dogs, lead hammers, machine vises, measuring tapes and rules of all description (including verniers), micrometers, milling cutters, pipe cutters, pipe vises, pipe wrenches, pliers, punches, reamers, screwing tackle (i. e., chasers, dies and stocks, taps and thread milling cutters), swage shavers, tapping attachments, taps, tap wrenches, tool holders, tube expanders and wood-boring bits.—Commerce Reports.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique,
No. 63.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 16, 1918.

Section A. In the course of yesterday's battle American troops east of Rheims cooperated with the French in repulsing the enemy's attacks. They maintained their positions at all points and captured a number of prisoners and machine guns. Yesterday morning in the Vosges the enemy attempted, after artillery preparation, to attack our lines on a front of 1,000 yards. The attack broke down under our artillery fire.

Section B.—The counterattack made by the American troops south of the Marne on July 15 was a complete success. The enemy who had crossed the river near Fossoy and had forced back a part of our line was thrown back on the river with severe losses. One battalion was practically annihilated, those who were not killed or wounded being captured by our forces. Officers commanding French troops near this point, as well as others belonging to the higher command, have expressed great satisfaction concerning the conduct of our forces and the results which they achieved.

On July 15 in the Hilsenfirst region of the Vosges the enemy attempted to attack our lines on a front of 1,000 yards. After artillery preparation, which included the use of trench mortars, they left their lines at 7 o'clock in the morning and commenced to advance through their own wire. A barrage, put down promptly by our Artillery, soon drove them back.

American Official Communique,
No. 64.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 17, 1918.

Section A. In the Marne sector our troops have entirely regained possession of the south bank of the river. Northwest of Chateau Thierry the enemy yesterday repeated his attempt of the preceding day to penetrate our lines near Vaux. His attack was completely broken up by our Infantry and Artillery fire before reaching our lines.

Yesterday, in the region of Thiaucourt, a hostile airplane was shot down by one of our aviators.

Section B. Northwest of Chateau Thierry, between the evening of July 14 and the evening of July 16, the enemy made determined but entirely unsuccessful attacks on our positions near Vaux. During the night July 14 to 15, he delivered a heavy bombardment which included the use of much gas and which, in the early morning, developed into a barrage on the Vaux area. Under cover of this a storming party attacked the village. The system of infiltration by groups was used and some of these groups passed one of our advanced outposts northeast of Vaux. Our troops delivered withering machine-gun fire on the assailants, and counterattacked on the right of the assaulting party where the penetration had taken place. At the same time our Artillery dropped a barrage in this section to cut off the enemy's retreat. The enemy fled, but many were caught by our barrage and 18 taken prisoner. The attack was a complete failure, the enemy at no time penetrating our lines.

On the evening of July 15, the attacks in this region were renewed. A box barrage, which again included many gas shells, was placed by the enemy on the Vaux region at 9.30 o'clock in the evening and several large hostile groups attempted to advance, firing heavily on our positions. This attempt also collapsed. Our infantry fire and a creeping barrage from our own batteries again broke up the assault.

FARMERS BORROWED $3,343,430 FROM U. S. LAND BANKS IN JUNE

The Farm Loan Board issues the following:

During the month of June $3,343,430 were loaned to farmers of the United States by the Federal land banks on long-time first mortgages, according to the monthly statement of the Farm Loan Board. The Federal land bank of Spokane leads in amount of loans closed, $1,262,800. The other banks closed loans in June as follows: Houston, $913,233; St. Louis, $820,777; Omaha, $804,950; New Orleans, $831,725; Louisville, $735,900; Wichita, $656,100; Columbia, $636,995; Springfield, $500,400; Berkeley, $468,200; St. Paul, $400,400; and Baltimore, $335,950.

On July 1 the total amount of mortgage loans placed since the establishment of the Federal land banks was $109,517,308, covering 48,297 loans closed, as against $101,376,318, covering 44,765 loans closed on June 1.

During June 1,196 applications were received asking for $5,127,011, being about one-fourth the number of applications received during May. During the same period 2,516 loans were approved, amounting to $6,793,527.

The grand total of loans closed is distributed by Federal land bank districts as follows:

Spokane	$17,090,555
St. Paul	16,295,000
Omaha	13,294,140
Wichita	12,292,700
Houston	9,807,741
New Orleans	7,646,540
Louisville	6,704,106
St. Louis	7,172,172
Berkeley	6,698,400
Columbia	4,746,513
Baltimore	4,140,500
Springfield	3,851,595

WORK OF CONGRESS BRIEFLY TOLD

The House Ways and Means Committee held a session yesterday afternoon to consider the war revenue bill, but no headway was made owing to the absence of data which has not yet been supplied by the Treasury Department, according to the statement of a member of the committee. The committee heard L. L. Summers, chief of the Chemical Division of the War Industries Board, on the subject of platinum. He said there was no danger of a platinum shortage for essential industries if rigid conservation is exercised. He advised against placing a prohibitive tax on platinum at present and said more of the metal could be obtained from Russia and Colombia if necessary. He asserted that recent statements of jewelers that there was a platinum shortage were having the effect of inducing producers of the metal to hold it for a much higher price. The demands for the coming year will be 55,000 or 60,000 ounces. The Government, it was stated, now has 25,000 ounces and 15,000 more are under control.

An old law passed in 1892 forbids the expenditure of Army funds for the production of food. P. S. Risdale, secretary of the National War Garden Commission, has written a letter to Chairman Dent, of the Military Committee, urging that this law be repealed because it may interfere with the war gardens at various military camps where soldiers are raising their own potatoes, corn, and other garden stuff.

SUSPENDS EIGHT-HOUR LAW.

Executive Order Concerning Work on Coast and Geodetic Survey Building.

EXECUTIVE ORDER.

In order to effect the more expeditious erection and completion of a new building for the Coast and Geodetic Survey, Department of Commerce, in which are to be located certain activities engaged on work in connection with war measures, making the completion of the building a national emergency, and by virtue of the provisions of the act of Congress approved March 4, 1917, entitled "An act making appropriations for the naval service for the fiscal year ending June 30, 1918, and for other purposes" (39 Stat., 1192), whereby, among other things, it is provided "That in case of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours' labor in any one day of persons employed upon work covered by contracts with the United States: *Provided further*, That the wages of persons employed upon such contracts shall be computed on a basic day rate of eight hours' work, with overtime rates to be paid for at not less than time and one-half for all hours' work in excess of eight hours," I do hereby suspend the provisions of law prohibiting more than eight hours of labor in any one day by persons, firms, or corporations engaged in the erection and completion of the above-mentioned building. This order will take effect from and after this date.

WOODROW WILSON.

THE WHITE HOUSE, JULY 3, 1918.

EXECUTIVE ORDER ON PRIVATE SALES OF ENEMY PROPERTY

Executive Order.

AN EXECUTIVE ORDER CONCERNING CERTAIN SALES TO BE CONDUCTED BY THE ALIEN PROPERTY CUSTODIAN PURSUANT TO THE "TRADING-WITH-THE-ENEMY ACT" AND AMENDMENTS THERETO.

By virtue of the authority vested in me by "An act to define, regulate, and punish trading with the enemy, and for other purposes," approved October 6, 1917, known as the "trading-with-the-enemy act," and the amendment to such act embodied in "An act making appropriations to supply urgent deficiencies in appropriations for the fiscal year ending June 30, 1918, and prior fiscal years on account of war expenses, and for other purposes," approved March 28, 1918, I hereby, in the public interest, make the following determination, order, rule, and regulation:

The Alien Property Custodian may sell at private sale, without public or other advertisement, any real property or any right, title, or interest therein of whatsoever kind; ground rents, leaseholds, options on real or personal property, stocks, beneficial interests in stocks, including voting trust certificates, and all other rights appurtenant to the ownership of stock, bonds, negotiable instruments, or evidences of indebtedness, seats on stock or other exchanges; in parcels, lots, or quantities having a market value at the time of sale not exceeding $10,000 for each parcel, lot, or quantity sold. Any such sale may be conducted at such place and upon such terms and conditions as to the Alien Property Custodian, or his authorized agent, may seem proper.

My reasons for the foregoing determination, order, rule, and regulation are:

(a) The properties above classified can not usually be sold to the best advantage at public sale after public or other advertisement.

(b) The sales hereby authorized may be made at the time and place of most favorable demand and upon such terms and conditions as may be necessary to secure the best market price.

(c) Unnecessary expense, delay, and inconvenience may be avoided.

WOODROW WILSON.

THE WHITE HOUSE,
July 15, 1918.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 16, 1918.

RECEIPTS.

Customs receipts	$27,367.73
Internal-revenue receipts:	
Income and excess-profits tax	1,989,721.75
Miscellaneous	2,721,247.35
Miscellaneous revenue receipts	129,894.39
Total ordinary receipts	5,351,191.22
Panama Canal receipts

Total	1,479,571,466.90

67 WOODEN SHIPS, OF 242,300 TONNAGE, TURNED OUT BY U. S.

The Emergency Fleet Corporation made public the following:

A total of 67 wood ships with an aggregate tonnage of 242,200 was added to American merchant marine [illegible], according to figures prepared by the Division of Wood Ship Construction. Twenty-two of these are of the Hough type, 28 Ferris, 16 of the Emergency Fleet Corporation's own design and 1 of the McCormick type.

District 11, embracing Oregon and part of the Columbia region, has contributed the larger part of these vessels, having turned out 28. Next comes district 8, also on the Pacific coast, including Portland and the territory north of the Columbia River. It has completed 16 wooden vessels. District 7, from Wilmington, Del., to the Virginia-North Carolina line, including the Delaware River and the Chesapeake Bay, follows with 10.

Six ships were turned out by district 2, which embraces the territory from the Massachusetts-Rhode Island State line to Cape May, N. J. From this figure the output by district drops to two in district 4, extending from the Virginia-North Carolina line south on the Atlantic coast and west along the Gulf coast to the Appalachicola River. District 9 (Great Lakes), district 5 (from Upper Mississippi River to the Mississippi River), and district 1 (from Maine to the Massachusetts-Rhode Island line) each is credited with one vessel.

The majority of the ships are 3,500 tons each. The largest was a 4,700-tonner, the *Bonham*, built by the National Shipbuilding Co. at Orange, Tex. The tonnage totals by months are as follows: December, 7,500; February, 18,500; March, 40,000; April, 60,500, and May, 115,700.

TRAFFIC IN GOLD REGULATED BY THE ITALIAN GOVERNMENT

Consul General David F. Wilber, Genoa, June 10, 1918, reports as follows:

For the duration of the war and for six months after the conclusion of peace all persons in Italy who carry on the exchange of moneys or deal in articles made of gold must keep a special register for transactions of this kind. In this register must be entered all operations, whether of purchase or of sale, in gold coin, giving the name, the nationality, and domicile of the seller or purchaser, and specifying the kind of money and the reasons for the operation. The register must also show what gold coins have been received or disbursed as payment or exchange or for any other reason, in addition to those just indicated. Goldsmiths are included among those who must keep a register of their transactions.

The three banks of issue in Italy are authorized to receive, on special interest-bearing deposit, gold coins in legal circulation in the [illegible] sterling and [illegible] gold coins. These deposits may be withdrawn in the [illegible] after the signing of the treaty of peace, from which date the deposits will cease to bear interest.—Commerce Reports.

FOREIGN-TYPE CHEESE DEALERS CONFER WITH FOOD OFFICIALS

The Food Administration authorizes the following:

Representatives of the foreign-type cheese trade, principally dealers in Swiss, brick, and limburger, met in Washington this week with members of the United States Food Administration to discuss conditions in this industry and draft any necessary regulations.

The foreign-type cheese industry is largely confined to Wisconsin, New York, Pennsylvania, and Ohio. Wisconsin, the largest producer, has an annual output of about 65,000,000 pounds. The cutting off of imports has greatly stimulated the market for foreign styles of domestic manufacture, particularly Swiss and Italian.

Those Attending Conference.

Those attending the conference in Washington were: Alex Psaki, S. Moscahlades, F. J. Baumert, L. E. Buckbee, D. C. Reynolds, Joe Salinger, John J. Reynolds, and Robert Roethlisberger, of New York; Fred Marty, of the Wisconsin Dairy and Food Commission, and S. J. Stauffacher, president Southwest Wisconsin Cheesemakers' & Dairymen's Association, both of Monroe, Wis.; J. S. Hoffman and M. Uhlmann, of Chicago; and Omar H. Cheer, of Pittsburgh, Pa.

The information and advice from the trade brought out at this conference will be used by the Food Administration in formulating such rules and regulations that may be found necessary to meet present unusual conditions.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1433 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1035, opening of July 26, 1918.—91 carriages for 36-inch portable searchlights as per specifications.

Proposal No. 1036, opening of July 26, 1918.—3,000 4 or 5 inch blade scratch awls; 3,000 8-inch wing dividers; 4,320 assorted file handles; 1,440 pounds copper rivets and burrs in assorted lengths and sizes; 720 sets tinner's rivet sets, extra cast steel for copper rivets; 720 pounds common wire brads; 720 pounds common wire brads No. 12 (2-inch); 360 soldering coppers.

Proposal No. 1037, opening of July 26, 1918.—9,240 wrecking bars with claw and gooseneck; 8,880 wrecking bars with claw and pinch point as per specifications.

Proposal No. 1038, opening of July 26, 1918.—4,920 carborundum tool grinders as per specifications; 2,880 tempered steel 8-inch long marlinspikes.

Proposal No. 1039, opening of July 30, 1918.—340 dozen screw-driver bits, 3-inch; 280 dozen ½-inch screw-driver bits; 540 dozen chisel framing handles; 300 dozen ½-pint oilers; 60 dozen revolving punches.

Proposal No. 1040, opening of July 30, 1918.—Rubber belting and clamps as per specifications.

Proposal No. 1041, opening of July 30, 1918.—360 dozen post-hole diggers; 2,880 2-inch-diameter earth augers.

Proposal No. 1042, opening of July 30, 1918.—3,360 jack planes; 4,800 No. 1 jointer saw tools; 30 dozen putty knives; 360 snips, about 15¾-inch; 360 gasoline torches.

Proposal No. 1043, opening of July 30, 1918.—Steel tackle blocks as per specifications.

A war saver is a life-saver.

Railroad Director General Advises Employees to Register Liberty Bonds

U. S. RAILROAD ADMINISTRATION,
OFFICE OF DIRECTOR GENERAL,
Washington, July 17, 1918.

CIRCULAR NO. 43.

To officers and employees of railroads under Federal control:

A large number of railroad men, by the purchase of Liberty bonds, are now holding an investment security for the first time. A large majority of the bonds so held are coupon bonds. Coupon bonds must be carefully guarded against loss or theft. They are payable to bearer. If they are lost, payment of them can not be stopped, and they can not be replaced by the Treasury Department.

Coupon bonds are suitable for investors who possess safe-deposit boxes. Registered bonds are provided to meet the needs of persons who have no safe places of deposit.

Registered bonds are issued in the name of the owner, which appears on the face. The interest is paid by United States check, drawn to the order of the owner, and sent him by mail. If a registered bond is stolen the thief can not use it except by forgery, and the payment of the bond or the interest checks may be stopped. The bond itself may be replaced on proof of loss and if proper security is given.

Registered bonds are the best suited for the great majority of railroad men. The number of coupon bonds outstanding in the hands of railroad men—many of them kept, doubtless, in places affording no real security—is such a vast aggregate amount that it causes serious concern.

This is a wholly unnecessary risk. The Director General of Railroads therefore strongly advises that you—

Register Your Liberty Bonds.

Officials of all railroads under Federal control are requested to give all information and assistance within their power to employees desiring to register their Liberty bonds.

Directions appear on the reverse side of this circular, not only for registering your Liberty bonds, but also for converting the 3½ per cent bonds and 4 per cent bonds into bonds paying 4¼ per cent interest.

W. G. McADOO,
Director General of Railroads.

DIRECTIONS FOR REGISTRATION AND CONVERSION.

Registration.

In order to register a coupon bond, the simplest way is to consult a reputable local banker; otherwise, a letter to the Secretary of the Treasury (Division of Loans and Currency), Washington, D. C., will get you "Form 1031," which will contain blank spaces for all the information which the Treasury Department needs to issue the registered bond in your name. The coupon bond must then be forwarded with this blank to the Secretary of the Treasury (Division of Loans and Currency), Washington, D. C., or to any Federal reserve bank, by express, at its declared value, or in any other way protecting the owner against possible loss.

The Treasury Department makes no charge whatsoever for registering bonds. The registered bond will be delivered to the owner by registered mail, without expense.

Conversion.

If the coupon bond to be exchanged for a registered bond is a 3½ or 4 per cent bond, it may be converted (until Nov. 9, next) into a 4¼ per cent bond at the same time that it is forwarded for registration. This may be done through the banker also. The Secretary of the Treasury (Division of Loans and Currency) will send, on request, "Form L. & C. 25." This form contains the request for conversion on the face, and, on the back, under "No 1," the request to register the bond; so that the whole transaction (both conversion and registration) may be handled on the one form. Hence, if you merely want to register, ask for "Form 1031"; if you wish both to register and to convert into bonds bearing the higher interest rate, ask for "Form L. & C. 25."

If the bonds to be converted are the first loan 3½ per cent bonds, the dates of payment of interest are such that the United States must be paid the difference between 3½ and 4½ per cent from June 15 to the date of payment. The bondholder gets this money back on December 15, because the interest payable on that date is at the rate of 4¼ per cent from June 15. The amount of the interest adjustment in this special case of the 3½ per cent bonds will be shown in a table that the Treasury Department will furnish on request. (Interest Table No. 4.) For example, on a $100 bond converted on July 15, he would have to pay 6 cents. The money may be paid by post office or express money order, payable to the order of "Treasurer of the United States, Second Conversion Account."

No payment is necessary if 3½ per cent bonds are merely to be registered without converting into 4¼ per cent bonds.

The Treasury Department issues detailed regulations covering registration and conversion of bonds, known as Circulars No. 100 and No. 114, which may be had, on request, from the Treasury Department or Federal reserve banks.

Registered Liberty bonds which have been issued in exchange for coupon bonds may be reexchanged for coupon bonds at any time. Bonds once converted into bonds of a higher interest rate can not be reconverted.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

ARMY

The following casualties are reported by the Commanding General of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	14
Died from wounds	10
Died of disease	6
Died of accident and other causes	2
Wounded severely	20
Wounded slightly	1
Missing in action	4
Total	57

Killed in Action.

SERGEANTS.

Carl C. Carter. Dan Troup, 810 Grant Avenue, Fresno, Cal.

Eudell Miller Lusher. Mrs. Gladys Mason, 2735 Gillham Road, Kansas City, Mo.

William F. McFadden. Charles McFadden, Great Bend, Kans.

William L. Travis. Miss Grace Travis, General Delivery, Hot Springs, Ark.

PRIVATES.

Leon William Brignall. Mrs. Lillie Estella Brignall, 22 Nursery Avenue, Geneva, N. Y.

Rocco Di Sciascio. Mrs. Jenne Di Sciascio, 1012 Cross Street, Philadelphia, Pa.

George Fisher. Mrs. George Fisher, care of Rogers, 2015 Jerome Avenue, New York, N. Y.

Joseph Gallegos. Ivan P. Galleges, Talpa, N. Mex.

William C. Jackson. Mrs. Flora Jackson, 514 West Second Street, Rushville, Ind.

Vedo Kubiachi. Tom Kubiachi, P. O. Box 608, Tonopah, Nev.

Samuel Elmer Lee. Mrs. Susan Margaret Lee, 2616 California Avenue, Pittsburgh, Pa.

John C. Lovell. Mrs. Susan Lovell, Norborne, Mo.

Henry R. Tyler. Mrs. Barbara Tyler, R. F. D., No. 1, Manlius, N. Y.

Oscar U. Ulgren. Herbert Ulgren, 280 Willard Street, Jamestown, N. Y.

Died from Wounds.

Corpl. James E. Fitzwilson. J. Fitzwilson, care of United States Railroad Administration, Charleston, S. C.

PRIVATES.

Frederick B. Bunt. Benjamin Bunt, Tannersville, N. Y.

Earl M. Coston. E. A. Coston, Billings, Mo.

Jesse B. Emmons. Ed. Emmons, Andalusia, Ala.

Paul J. Florine. Gustav Florine, R. F. D. No. 4, Fort Atkinson, Wis.

Charles E. Lanier. Mrs. Neppie Lanier, 215 Ferry Street, Decatur, Ala.

Joseph Macciocca. Dominick Macciocca, Pigbo, Italy.

Frank K. Snyder. Mrs. Julia Snyder, R. F. D. No. 2, Black Rock Turnpike, Fairfield, Conn.

William Upton. Mrs. Emma Upton, 3350 North Lee Street, Philadelphia, Pa.

Okey Vaughan. William King, Newford, W. Va.

Died of Disease.

Cook Scott Milford. Thomas S. Milford, Sumner, Mo.

PRIVATES.

Charles E. Lucas. Mrs. Priscilla Conover, 266 Allen Street, Trenton, N. J.

Leslie G. Morrow. D. A. Morrow, Poneka, Alberta, Canada.

William O. Watts. W. T. Watts, Elsberry, Mo.

Frank M. Wenzel. Mrs. Kate Wenzel, Little Falls, Minn.

Philip Whitfield. Mrs. Rebecca Whitfield, Salters Depot, S. C.

Died from Accident and Other Causes.

Corpl. Ralph Charles Taylor. Judson Taylor, R. F. D. No. 3, Mount Pleasant, Mich.

Pvt. Herbert Daniel Whalen. Mrs. Isabelle Corbby, 572 St. Aubin Avenue, Detroit, Mich.

Wounded Severely.

Sergt. Russell Boyd Brightbill. Mrs. Elsie Brightbill, Hecton Mills, Harrisburg, Pa.

CORPORALS.

Stacey E. Baker. Mrs. May Baker, 166 Meadow Street, Watertown, N. Y.

Richard P. Partridge. Mrs. Martha J. Buchanan, 24 Pembroke Street, Rochester, N. Y.

PRIVATES.

William Baron. Jacob Baron, Lublin, Russia.

Robert Big-Thunder. Albert Big-Thunder, Wootenburg, Wis.

James B. Chapman. Miss Ella Chapman, Taylorsville, N. C.

Selah Davis. Mrs. Bertha Davis, 66 Warren Street, Newark, N. J.

David H. Dunkle. Wash Dunkle, Spring Run, Pa.

Sam H. Gardner. Mrs. Susie Gardner, Phoenix City, Ala.

PRIVATES.

Frederick V. Gould. Mrs. Catherine Gould, 10 Willard Place, Roxbury, Mass.

John Luhaink. Miss Wanda Kacztmarkhky, 1415 Reynolds Street, Baltimore, Md.

Clarence Lyon. Jake Lyon, 418 West Ohio Street, Bluffton, Ind.

Edwin Emerson Miller. Mrs. Susan Miller, Portage, Pa.

Vern Morlan. Claude Morlan, Medicine Lodge, Kans.

Guy Norton. Mrs. Mary Norton, R. F. D. No. 1, Delhi, N. Y.

Henry H. Shook. Mrs. S. S. Shook, R. F. D. Cherokee, Iowa.

Claude D. Shultz. Mrs. Addie Shultz, Hubbard, Iowa.

Pit Sikivica. Pete Sikivica, 901½ Ninth Avenue, Johnstown, Pa.

Henry Venditti. Tony Venditti, 18 Fulton Street, New Castle, Pa.

William Zielenski. Mateluss Zielenski, Getczynic, Russia.

Wounded Slightly.

Pvt. Lawrence A. Chambers. Mrs. Arthur Chambers, 3 Engine Co., Fire Department, Bridgeport, Conn.

Missing in Action.

PRIVATES.

Albert Brook. John Brook, sr., 22 Spruce Street, Princeton, N. J.

Wojciech Cyganowaski. Andrew Jausana, 105 Joseph Campen, Detroit, Mich.

Herman Joseph Klotz. Mrs. H. Klotz, 141 De Long Avenue, Syracuse, N. Y.

Harry F. Thorpe. Mrs. Harriet B. Thorpe, 224 Hillside Avenue, Waterbury, Conn.

NOTE.—Previously reported missing, now reported in hospital: Pvt. Alexander Crosbie. Robert Crosbie, 30036 Piccadilly Street, Kalgoorlie, West Australia.

MARINE CORPS

The following casualties in the Marine Corps are reported by the Commanding General of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	4
Died of wounds received in action	1
Wounded in action (severely)	3
Total	8

Killed in Action.

Pvt. Frederick S. Bennett. Mary Bennett, mother, North Bloomfield, N. Y.

Pvt. Charles C. Hale. Samuel Hale, father, McConnelsville, Ohio.

Pvt. Frederick L. Riebold. Mary Riebold, mother, 1637 North Durhan Street, Baltimore, Md.

Sergt. Thomas A. Sturges. Josephine Sturges, mother, 744 St. Charles Street, New Orleans, La.

RED CROSS NURSES IN EVERY FRENCH HOSPITAL WHERE U. S. SOLDIERS ARE BEING TREATED

The Red Cross issues the following: To care for American [illegible] from the French sectors to French military hospitals, the American Red Cross has assigned one of its Red Cross nurses and a French and English speaking Red Cross aid to every French hospital caring for our men, according to a report just received from Paris. Before these nurses were assigned, some of our men who had been fighting in French regiments arrived at institutions where no one could speak English. A few of these soldiers, not recognizing the language, thought that they had been captured and were in the hands of the Germans. Doctors and nurses could not understand the patients, who, therefore, had difficulty in describing their symptoms and making clear their needs. Where immediate operation was necessary it often was impossible to prepare them.

Teams for Every Hospital.

Now every American on reaching a French hospital is to be received by an American Red Cross nurse, who attends to his reception and care. If the nurse can not speak French, her aid interprets for the French hospital staff. The aid also attends to correspondence for our wounded. The nurse and aid visit every American patient frequently, to give treatments, cheer him up, attend to his correspondence, or to explain his needs to the French attendants. This plan has worked so well that the service de sante, the medical department of the French Government, has requested the Red Cross to have ready such teams to place in every hospital receiving American men.

C. W. Nash Aid to Aircraft Production Director

The War Department authorizes the following statement from the Bureau of Aircraft Production:

C. W. Nash, president of the Nash Motors Co., of Kenosha, Wis., and formerly president of the General Motors Co., a well-known executive in the motor industry, yesterday was appointed by John D. Ryan, director of aircraft production, as assistant to the director in charge of engineering and production.

Mr. Nash will assume his duties immediately, having given up for the duration of the war his active connection with his own corporation.

This appointment does not change in any way the organization already effected in the Bureau of Aircraft Production except to give Mr. Ryan an additional assistant in charge of the important work of engineering and production.

Died of Wounds.

Pvt. Alfred C. Walburn. William Walburn, father, R. F. D. No. 3, Welston, Ohio.

Wounded Severely.

Corpl. Henry L. Schumacher. Louise Barkley, sister, R. F. D., Newark, Ill.

Pvt. Joseph Cole. Michael Cole, father, 398 Summer Street, Lynn, Mass.

Pvt. Harvey Snively. Laura Snively, mother, Schellburg, Pa.

WILL LIMIT VISITS TO CANADA'S REHABILITATION ACTIVITIES

The Federal Board for Vocational Education authorizes the following:

The Federal Board for Vocational Education has been notified by the Canadian War Mission at Washington that all persons desiring to visit the various activities of the Canadian department of soldiers' civil reestablishment, especially in the vocational reeducational work as relates to disabled soldiers and sailors, must be provided with credentials from the Federal Board for Vocational Education at Washington.

This step is made necessary owing to the wide interest being taken all over the United States in vocational rehabilitation work, resulting in a great number of visitors to Canada in the past two years to see and study the wonderfully fine results being attained there. The Canadian authorities have been uniformly courteous and painstaking with these visitors, giving them every opportunity to make observations at the reconstruction centers.

Number of Visitors Increasing.

The number of visitors has, however, become so great as to seriously interfere with the conduct of the work, and the department of soldiers' civil reestablishment has, in consequence, been reluctantly compelled to request, through the Canadian War Mission at Washington, that all persons desiring to go to Canada for this purpose should first obtain credentials from the Federal Board for Vocational Education at Washington.

This board will, therefore, undertake to sift out the mere curiosity seekers and aimless observers who are hampering the vital work of vocational reeducation of disabled soldiers in Canada, and will require clear evidence of paramount good reason in the proposed visits before any credentials will be issued to applicants, which credentials solely will be recognized and the courtesies of the Canadian authorities extended only in response thereto.

J. H. Kirby Is Appointed Administrator of Lumber

The Emergency Fleet Corporation issues the following:

Vice President Piez has announced the appointment of J. H. Kirby as lumber administrator, to administer all activities of the Emergency Fleet Corporation connected with the production and storage of lumber.

The new office is under the purchasing section of the supply division.

Mr. Kirby will have charge of cargo lumber-storage yards and is directed to place representatives in charge of such yards to maintain proper records, receipts, and shipments.

He will also assume control over all logging operations now under jurisdiction of the division of wood-ship construction.

The placing of lumber orders with sawmills and cancellation and transfer of them will be another part of his duties as well as control of the disposal of excess or rejected lumber owned by the corporation.

REGULATION CONCERNING COAL DIVERTED TO NEW ENGLAND

The United States Fuel Administration issues the following order:

It appearing to the United States Fuel Administrator that it is desirable from time to time to consign or to divert bituminous or anthracite coal to the New England fuel administrator for distribution by him among consumers,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said Executive orders and of the act of Congress therein referred to and approved August 10, 1917,

Resale and Distribution.

Hereby orders and directs that until further or other orders of the United States Fuel Administrator, and subject to modification hereafter at any time and from time to time,

The New England fuel administrator is hereby authorized to direct the resale and distribution of all coal requisitioned for or consigned or diverted to and received by him, under the provisions of any orders of the United States Fuel Administration, to and among such consumers and users of bituminous or anthracite coal, respectively, in the New England States as in his judgment may from time to time be in need thereof and occupied in the conduct of such industrial activities or of such public utilities as are essential to the national security and defense, for the successful prosecution of the war, and for the maintenance of the efficiency of the people in any of such New England States, or any part thereof, in performing their part in the conduct of the war.

Needs of Consumers.

In making such resale and distribution said New England fuel administrator shall first see that the needs and requirements of consumers entitled to preference in the supply of fuel under the orders of the Priorities Board are suitably taken care of. In connection with such distribution said New England fuel administrator is authorized to use and employ the services of such persons and agents as he may from time to time select, and to make or authorize to be made in the resale and distribution of such coal a charge of not exceeding 15 cents per ton for the compensation and expenses of the persons and agents so selected by him.

H. A. GARFIELD,
United States Fuel Administrator.

BRITISH GUIANA IMPORTS.

Order Issued By Governor Making Further Restrictions.

Consul G. E. Chamberlain, at Georgetown, under date of June 10, reports as

The Official Gazette of British Guiana for June 8 contains an order issued by the governor on June 6 prohibiting the importation into the colony, except under license granted with the governor's consent, of the following articles: Carriages, carts, wagons (not including spare parts), motorcycles and side cars, motor cars (not including spare parts), plows, tractors, and drays, tricycles, musical instruments, pictures, and furniture.

INTERNAL AND EXCISE TAX AS EXTENDED IN CANADA

A detailed description of the tariff and excise changes in force in Canada from May 1, 1918, is contained in Customs Memorandum No. 2199B of May 22. The increased rates of import duty have already been given in Commerce Reports of May 9, 1918, but it is now learned that the special war surtaxes adopted in 1915 do not apply to the articles the duties on which have recently been increased.

More Inclusive Than Indicated.

On the other hand, the war excise taxes are even more inclusive than was at first indicated and apply not only to articles imported or manufactured after April 30, but also, in certain cases, to articles then held in stock. Thus the excise tax of 10 per cent of the duty paid values is made to apply to automobiles and jewelry held in stock on April 30 unless sold to bona fide users. This will place dealers who imported automobiles in April in anticipation of an import prohibition on the same footing as others.

Application to Jewelry.

In the case of jewelry, however, the war excise tax will not be collected if the articles were imported or manufactured prior to October 1, 1917, nor where the total value of the stock held by one person does not exceed $1,000. Tea imported on or before April 30, 1918, and remaining unsold on that day, is also subject to a war excise tax amounting to $0.10 per pound, but retail dealers are required to pay the tax only on stock held in excess of 1,000 pounds. For tea imported after April 30, the excise tax is consolidated with the import duty and is payable at the same time. No retroactive force is given to the tax on phonographs, mechanical piano and organ players, and records therefor.

Taxes Equally Applicable.

Other excise taxes applicable equally to imported and domestic goods are those on matches and playing cards. On matches the tax is $0.01 per box of 100 matches or fraction thereof, while for playing cards the tax is $0.08 per pack of 54 cards or fraction thereof. These taxes are payable by means of adhesive stamps, and the importation or sale of matches or playing cards except in packages is prohibited. Dealers are required to see that all packages held for sale on July 1, 1918, are properly stamped. As in the case of the other excise taxes, however, no tax is imposed on articles for exportation.

Special War Excise Tax.

A special war excise tax is levied upon all cinematograph films 1⅜ inches or over in width. This tax is fixed at $0.15 per film for each day upon which the film is used.

The present act also repeals the tax of $0.10 each on berths in sleeping cars and substitutes therefor a tax of 10 per cent of the price of the berth, with a minimum charge of $0.25. The tax on parlor and Pullman car seats is increased from $0.05 to $0.10.

[The present act is in the nature of an amendment to the special war revenue act, 1915, the chief provisions of which are described in Foreign Tariff Notes No. 16, pp. 83 and 93.]—Commerce Reports.

INSTRUCTIONS ON PAYMENT OF TAX ON TRANSPORTATION

The Treasury Department issues the following concerning transportation tax, cost-plus contracts, and forms of exemption certificates:

Amounts paid for the transportation of freight or persons or for the transmission of messages, which are finally paid by the Government under cost-plus contracts, are exempt from the taxes imposed by section 500 of the act of October 3, 1917.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER
OF INTERNAL REVENUE,
Washington, D. C.

To collectors of internal revenue and others concerned:

Inquiries have been received as to the application of the exemption from tax provided for in section 502 of the act of October 3, 1917, of payments received for services rendered to the United States or to any State, Territory, or the District of Columbia, under so-called cost-plus contracts. The effect of the exemption provision is dealt with generally in regulations No. 42, articles 14–22.

Applying the principles there stated, it is expressly held:

(1) Where a contractor does work for the Government, the contract price of which is the cost plus a certain percentage, the amount received by a carrier for the transportation of property used or to be used by the contractor in the Government work falls within the exemption from the transportation tax imposed by section 500 of the act of October 3, 1917.

In any such case, as in other cases of exemption, the prescribed certificate of exemption (Form 750), specified in Regulations No. 42, article 15 (T. D. 2676), must be used and must be signed by a governmental officer or employee. A certificate signed by the contractor does not furnish the required evidence of exemption.

(2) Exemption may be claimed on amounts paid for the transportation of persons employed by a contractor working for the Government under a cost-plus contract, where the transportation charge of the employee is an item in the cost of the work and will hence be finally paid by the Government.

In such case the right to exemption from the tax on the amount paid for transportation of such employee shall be evidenced by an exemption certificate signed by a governmental officer or employee, substantially in the following form:

EXEMPTION CERTIFICATE.

_____ _____, 191__

I certify that ticket No. _____ for transportation from _____ to _____, via _____, is for use of an employee of _____ and (Name of contractor.) is to be paid for by the United States Government.

_____ _____
(Signature of governmental officer or employee.)

_____ _____
(Title.)

Place of issue _____
Name of carrier _____

(3) Exemption from the tax imposed by section 500, subdivision (e), of the act of October 3, 1917, on telephone, telegraph, and radio messages, may be claimed when the amounts paid for such messages are finally to be paid by the Government under a cost-plus contract.

Evidence of the exemption from the tax on such messages must be furnished by a certificate signed by a governmental officer or employee in the following form:

EXEMPTION CERTIFICATE.

_____ _____, 191__

I certify that this message from _____ to _____, via _____ (telephone, telegraph, or radio), relates to governmental work being performed by _____ and is to be paid (Name of contractor.) for by the United States Government.

_____ _____
(Signature of governmental officer or employee.)

_____ _____
(Title.)

Place of issue _____
Name of company _____

The foregoing rulings do not apply to amounts received by a carrier or received for a telephone, telegraph, or radio message from contractors doing work for the Government under lump-sum contracts.

DANIEL C. ROPER,
Commissioner.

Approved: July 1, 1918.
L. S. ROWE,
Acting Secretary of the Treasury.

NORWAY NOW RUSHING WORK ON FLEET OF CONCRETE SHIPS

The United States Shipping Board issues the following:

Norway is racing with America to see which country will gain the honor of building the first concrete vessel that will cross the Atlantic Ocean. America is far in the van of the shipbuilding world in regard to the number of concrete ships and their size that are being constructed at the present time. But Mr. Nick Fougner, president of the Fougner Concrete Shipbuilding Co. (Inc.), Christiania, Norway, states that he hopes to cross the Atlantic on one of the larger boats which his company is building within the next two or three months.

Fast Coming to Front.

The concrete ship is fast coming to the front in Norway. The shortage of wood and steel in that country has made it necessary for shipbuilders to turn to the concrete vessel in order to offset the losses suffered by the depredations of the U-boats, if they desire to continue both their coastwise and trans-Atlantic trade.

The *Stier*, a 1,000-ton concrete vessel, recently built by the shipyards of the Fougner Concrete Shipbuilding Co., is a pioneer of the type of concrete vessel that is now under construction in Norway. The vessel is 145 feet over all, 27 feet 6 inches beam, 15 feet 9 inches molded depth. It is equipped with an internal combustion 320-horsepower motor, and has 4 water-tight transverse bulkheads of concrete, which, with a reasonable cargo, makes the ship practically unsinkable.

Twelve Concrete Motor Ships.

At present the Fougner Co. has under contract 12 additional seagoing concrete motor ships, varying in size from 200 to 3,000 tons dead-weight, and they have built and launched about 25 floating craft of various types, including tugs, lighters, motor ships, and dry docks.

It is expected that the Norwegian builders will adopt the new protective coating which, when applied to concrete, makes the life of a concrete vessel equal in durability to that of a steel vessel. This discovery, so important in the construction of concrete vessels, has been the result of the research work of the engineers of the Emergency Fleet Corporation.

HONORED FOR HEROISM.

Gold Medal Bestowed by Secretary McAdoo Upon a Steward.

A gold medal of honor has been bestowed by the Secretary of the Treasury upon Joseph Marcio, chief commissary steward, now on the U. S. S. Carola IV, in recognition of his heroism in saving a man from drowning December 17, 1917.

While Marcio was on board the U. S. S. Smith as a ship's cook, first class, he jumped into a rough sea during a heavy northeast gale and rescued from drowning a chief quartermaster who had been washed overboard.

Marcio enlisted at Philadelphia, Pa., April 27, 1914; next of kin, father, Raffeal Marcio, Philadelphia.

Secretary Daniels has commended Harry William Ericson, seaman, second class, U. S. Naval Reserve Forces, for his heroic action in jumping overboard from the U. S. S. Cambridge on the afternoon of June 27, 1918, and rescuing from drowning one of his shipmates. Ericson enlisted at East Chester, N. Y., August 31, 1917; next of kin, Emma Ericson, Jersey City, N. J.

SUMMER SCHEDULE IN EFFECT ON THE CANADIAN RAILWAYS

Consul E. Verne Richardson, at Moncton, New Brunswick, reports:

On and after June 2, 1918, the summer time-table of the Canadian Government railways will be in force. Under this schedule there will be a through train service St. John to Cape Tormentine, No. 14 express arriving at Moncton 3.50 p. m. (daily) and running through to the cape to connect with the afternoon trip of the steamship *Prince Edward Island* (car ferry), leaving at 4.15 p. m. (except on Sundays). No. 199 Ocean Limited will arrive at Moncton daily at 1.55 p. m. and leave for Montreal at 2.15 p. m. No. 200 Ocean Limited will arrive at Moncton at 4 p. m. and leave for Halifax at 4.30 p. m. daily.

The Maritime Express.

No. 4 Maritime Express will arrive at Moncton at 8.15 a. m. and leave for Halifax at 8.35 a. m. (daily except Sundays). No. 19 express will leave for St. John at 9 a. m. No. 3 Maritime Express will arrive at Moncton at 9.25 p. m. (except Sundays) and leave for Montreal at 9.40 p. m. No. 25 express for Campbellton will leave Moncton at 10.55 a. m. No. 9 express will arrive at Moncton at 2.40 a. m. (daily except Sundays) and No. 10 from St. John at 2.30 a. m. (except Mondays). No. 13 express from Cape Tormentine will arrive at Moncton at 1.25 p. m. (except Sundays) and leave for St. John daily at 2.30 p. m.

There are no new schedules for the trains between Moncton and Edmundston via the Transcontinental.

Moncton and Point du Chene.

The train service between Moncton and Point du Chene will remain much the same as at present. The morning train will leave Moncton at 10.25 and remain at Painsec to connect with No. 18. The evening train will leave Moncton at 6.15 p. m. as usual and there will be the night train at 10 p. m. On Saturdays No. 383, leaving the Point at 1 p. m., will run through to Moncton and leave again for the Point at 2 p. m. There will be no evening train from the Point, the last being No. 385 departing at 3.30 p. m. except on Wednesdays and Saturdays, when No. 387 will leave Point du Chene at 8.25 p. m., arriving in Moncton at 9.25 p. m.—Commerce Reports.

The food YOU waste helps to bring real, actual HUNGER to Someone, Somewhere, Sometime. Be Saving!

CANADIAN CANNING TRADE UNDER GOVERNMENT LICENSE

Consul Felix S. S. Johnson, at Kingston, reports:

From June 15, 1918, the canning trade of Canada will come under Government license and the licensing regulations impose some rather drastic restrictions. The clause forbidding the wholesale dealer from contracting to deliver stocks not in hand without a special permission from the food board is also stringent.

No one is permitted to carry larger stocks of any kind of preserved milk than may be necessary to carry him over the period of scant production without permission in writing from the Canada food board. The terms of the regulations are in brief as follows:

Canners' License Required.

On and after June 15, 1918, it will be illegal for any person who has not first secured a "canners' manufacturer's license" to engage in the manufacture, for sale, of canned or preserved fruits or vegetables, meats, poultry, soups, seeds or grains or products made therefrom, jellies, jams, sauces, pickles, condensed, evaporated, dried or powdered or canned milk, or dried, evaporated, or dessicated vegetables or fruits. Persons operating a canning factory in connection with a commercial meat-packing factory are not required to obtain such a license.

On and after June 15 it will also be illegal to deal wholesale or as brokers or commission merchants in any of the products named without having first obtained from the Canada food board a "canners' wholesale license," "canners' brokers' license," or a "canners' commission merchant's license," depending upon the nature of the trading operation of the applicant.

Canned and Evaporated Fruits.

The order provided that no manufacturer of canned or evaporated fruits or vegetables, without the written consent of the Canada food board, shall at any time contract for the sale of more goods than he reasonably expects to be in a position to pack, and in no case shall the amount contracted for exceed 100 per cent of the average yearly delivery of such articles made by him during the four years preceding 1918. No wholesale dealer in canned or evaporated fruits or vegetables will be permitted to contract for sale of goods not then held by him in stock, or purchased for future delivery, except by permission of the Canada food board.—Commerce Reports.

New Section Is Created For Fleet Corporation

Director General Charles M. Schwab on Saturday announced the creation of a requirement section for the Emergency Fleet Corporation, with Mr. George M. Brill as its head.

Mr. Schwab in creating this new section said:

"It will be the purpose of this section to keep in touch with the shipyards and learn from them in a general way the amount of materials, supplies, and equipment required for extensions, so that a proper schedule may be placed before the War Industries Board for survey, and, if necessary, for allocation. I think you will appreciate that during this time, when the demand for many materials is so far in excess of the supply, it is most essential that a clearing house be provided so that the needs of different Government agencies may not conflict.

"The War Industries Board constitutes such a clearing house, and it is in my opinion a very essential instrument in the conduct of industry under present conditions."

RAILROAD CIRCULAR ON THE PUBLICATION OF CHANGES IN RATES, FARES, CHARGES, ETC.

U. S. RAILROAD ADMINISTRATION,
DIVISION OF TRAFFIC,
Washington, July 1, 1918.

CIRCULAR No. 1–A.

[Cancels Circular No. 1 of June 20, 1918.]

PUBLICATION OF CHANGES IN RATES, FARES, CHARGES, ETC.

TO TRAFFIC COMMITTEES, RAILROAD AND WATER LINES UNDER FEDERAL CONTROL, AND TARIFF PUBLISHING AGENTS:

Section 1.

(*a*) Your attention is directed to section 20 of General Order No. 28 as amended, reading as follows:

"SECTION 20.—The rates, fares, and charges to be increased under this order are those existing on May 25, 1918, including changes theretofore published but not then effective and not under suspension, except where the Interstate Commerce Commission prior to May 25, 1918, authorized or prescribed rates, fares, and charges which shall have been published after May 25, 1918, and previous to June 15, 1918, the increases herein prescribed shall apply thereto. Such authorized or prescribed rates, fares, and charges not so published shall be subsequently revised when published by applying the increases prescribed herein."

(*b*) When changes are published as authorized by section 20, the schedule containing such changes shall show as authority therefor (on title-page if all changes in the schedule are made under authority of sec. 20, otherwise in connection with such portions of the schedule as are published under authority of sec. 20), the following:

"Published for the Director General of Railroads under authority of section 20, General Order No. 28 of the Director General, United States Railroad Administration, dated May 25, 1918, and amended June 12, 1918."

And shall also show reference to any authority or order as required by the Interstate Commerce Commission and shall be made effective upon such notice of filing as may be provided in such authority or order.

Section 2.

(a) Change in rates, fares, charges, regulations, and practices may be made under the standing rules and authorizations contained in the Interstate Commerce Commission's Tariff Circular 18-A and orders (or reissues thereof) as shown below, without further authority:

Rule 10 (i) and Fifteenth Section Order No. 250.—Changes in station lists and in lists of restricted and prohibited commodities.

Rule 10 (j) and Fifteenth Section Order No. 200.—Change in dimensions and capacities of cars, etc.

Rule 56.—Reduction of joint rates or fares to equal sum of intermediate rates or fares.

Rule 77.—Establishment of commodity rates from and to intermediate points not to exceed those in effect from or to more distant points.

Special Permission No. 44814.—Establishment of new through routes and terminal deliveries.

(b) when changes are published as authorized in this section the schedule containing such changes shall show as authority therefor (on title-page if all changes in the schedule are made under authority of this section, otherwise in connection with such portions of the schedule as are published under authority of this section), the following:

"Published for the Director General of Railroads under authority of section 2 of circular No. 1-A of the director, Division of Traffic, United States Railroad Administration, dated July 1, 1918."

And shall show also reference to any rule or authority as required by the Interstate Commerce Commission and shall be made effective upon such notice of filing as may be provided in such rule or authority.

Section 3.

(*a*) Except as provided in sections 1 and 2 of this circular, no changes shall be made in any freight, passenger, or baggage rates, fares, charges, classifications, regulations, or practices of the carriers under Federal control, including those applying jointly with carriers not under Federal control, published in schedules filed with the Interstate Commerce Commission or with State commissions, except as shall have been authorized by me in an appropriate "Freight rate authority" or "Passenger fare authority."

(*b*) When changes are published under authority of such "Freight rate authority" or "Passenger fare authority" the schedule containing said changes shall show as authority therefor (on the title-page if all changes in the schedule are made under the same authority, otherwise in connection with such portions of the schedule as are made under each authority), the following:

"Published for the Director General of Railroads and filed on ——— days' notice with the Interstate Commerce Commission under [Use 'Passenger fare authority' on schedules covering passenger traffic] Freight Rate Authority No. ——— of the Director, Division of Traffic, United States Railroad Administration, dated ———, 19—."

Section 4.

(*a*) As no authority other than as required by this circular is necessary to change rates, fares, charges, classifications, regulations, or practices applying wholly on carriers under Federal control, no application should be made to the Interstate Commerce Commission or to any State commission for authority to advance or modify rates, fares, charges, classifications, regulations, or practices applying wholly on such carriers, nor for authority to publish changes therein on short notice, and any such applications made heretofore should be withdrawn. Applications covering rates, fares, charges, classifications, regulations, or practices applying jointly to carriers under Federal control and those not under such control should not be withdrawn.

(*b*) After the necessary "Freight rate authority" or "Passenger fare authority" as required in paragraph (*a*) of section 3 of this circular has been secured, applications should be made as required by law or by the rules of the Interstate Commerce Commission or State commissions for authority to advance, modify, or publish on short notice changes in rates, fares, charges, classifications, regulations, or practices applying jointly to carriers under Federal control and those not under such control, and the schedules containing such joint rates, fares, charges, etc., shall show reference to the authority granted by the commission as well as to the "Freight rate authority" or "Passenger fare authority."

Section 5.

All schedules hereafter published and filed with the Interstate Commerce Commission containing rates, fares, charges classifications, regulations, or practices of the carriers under Federal control, including those applying jointly with carriers not under Federal control, shall show clearly that they are the schedules of the United States Railroad Administration by having printed on the title-page thereof in large type the words: "United States Railroad Administration. W. G. McAdoo, Director General of Railroads."

Section 6.

Until further advised all proposed changes in rates, fares, charges, etc., as named in paragraph (*a*) of section 3 of this circular shall be referred to the proper freight or passenger traffic committee for the eastern, southern, or western territory (through or by the appropriate district freight traffic committee, if on freight traffic) and passed by it to me for "Freight rate authority" or "Passenger fare authority" where such is desired.

EDWARD CHAMBERS, *Director.*

BRITISH ARMY COUNCIL RULES REGULATING TRADE IN WOOL

Consul General Skinner, at London, reports:

The Army council has issued the following order, dated May 13, 1918, regarding the trading in wool in Great Britain:

1. No person shall sell any raw wool grown or to be grown on sheep in Great Britain or the Isle of Man during the season 1918, except unwashed daggings or clarts, otherwise than to persons authorized by or on behalf of the director of raw materials or at prices exceeding those set out in the schedule hereto annexed, or at such other prices as in any particular case may be allowed by or on behalf of the director of raw materials.

Previous Contracts Invalid.

2. No person shall make or take delivery of or payment for any wool of the description aforesaid otherwise than in accordance with the provisions of this order, whether in pursuance of any contract entered into prior to the date hereof or otherwise.

3. All persons having in their custody or control any stocks of wool of the description aforesaid are hereby required to sell such wool to any person authorized by or on behalf of the director of raw materials as may be required by him or on his behalf and to make delivery to such persons in such quantities and at such times and places as may be specified by him or on his behalf.

4. All persons having in their custody or control any stocks of wool of the description aforesaid are hereby required to furnish such particulars thereof as may be required by or on behalf of the director of raw materials.

5. No person carrying on the business of a manufacturer of woolen, worsted, or hosiery goods in any textile factory or workshop in Great Britain or the Isle of Man shall, without a permit issued by or on behalf of the director of raw materials, spin, draw, reel, or weave for the use of the grower thereof, any wool grown or to be grown on sheep in Great Britain or the Isle of Man during the season of 1918, or prior to the 1st of January, 1917.

6. No person shall, without a permit issued by or on behalf of the director of raw materials, buy, sell, or deal in daggings or clarts grown or to be grown on sheep in Great Britain or the Isle of Man during the season of 1918.

7. Notice is hereby given that it is the intention of the army council to take possession of all washed or willeyed locks produced from daggings or clarts grown or to be grown on sheep in Great Britain and the Isle of Man during the season 1918.

8. No person shall mix or wind in any fleece wool grown or to be grown on sheep in Great Britain or the Isle of Man during the season of 1918 any brokes or fallen wool, locks, daggings or other matter whatsoever, or wind or cause to be wound the said wool otherwise than in separate fleeces and tied with wool bands or glazed string, supplied by persons authorized to purchase or collect wool by or on behalf of the director of raw materials.

Regulation of Trading.

9. No person shall buy, sell, or deal in locks, brokes, daggings, or fallen or gathered wool grown on sheep in Great Britain during the season of 1917 without a permit granted by or on behalf of the director of raw materials or at prices other than those set out in the schedule annexed to the wool (offsort) order, 1917, or at such other prices as in any particular case may be allowed by or on behalf of the director of raw materials.

10. Nothing in this order shall be deemed to apply to Shetland wool.

11. For the purpose of this order—

The expression "fleece wool" shall mean the fleece removed entirely by shearing or clipping of sheep or lambs.

The expression "daggings" or "unwashed daggings" or "clarts" shall mean the wool naturally clotted with dung or earth.

The expression "locks" shall mean any wool except daggings which may have become detached from the fleece at the time of shearing or thereafter.

The expression "washed or willeyed locks" shall mean daggings, as hereinbefore defined, wherefrom the dung or earth has been extracted by washing or by other process.

The expression "brokes" shall mean short wool obtained from the edges of the fleece in clipping.

The expression "fallen wool" shall mean wool removed from the skins of sheep or lambs which have died a natural death.

The expression "gathered wool" shall mean wool left by living sheep on hedges or other places.

12. The sale of wool (United Kingdom) order, 1918, is hereby canceled.

13. This order may be cited as the sale of wool (Great Britain) order, 1918.—Commerce Reports.

R. R. ADMINISTRATION RULES ON METHODS OF BOOKKEEPING

The Railroad Administration has issued the following:

P. S. & A. CIRCULAR No. 8.

(1) Paragraph No. 1 of General Order No. 17, issued by the Director General under date of April 3, 1918, provides that—

For accounting purposes Federal control began as of January 1, 1918. Immediate steps shall be taken by each carrier subject thereto to open new and separate books of accounts, such as cash books, general and subsidiary ledgers and journals, and all supporting and subsidiary books and records incident thereto, upon which shall be recorded transactions which arise under and are incident to Federal control on and after January 1, 1918. Such books shall be designated and are hereinafter referred to as "Federal Books."

(2) Inquiries have been made by receivers and accounting officers of several carriers which were in receivership on December 31, 1917, whether the provisions of this order apply to roads in receivership.

(3) It has been decided that in order to obtain uniform results the provisions of General Order No. 17 apply with equal force to all carriers under Federal control, whether in receivership or otherwise. It is therefore necessary on the part of accounting officers of carriers in receivership to see that the provisions of the order are complied with and that new books of account are opened as of January 1, 1918, as provided therein.

(4) All assets collected and all liabilities paid subsequent to December 31, 1917, which were collectible or payable on or prior to that date, shall be accounted for to or from the receiver or the corporation, dependent upon whether the assets collected or the liabilities paid are for account of the receiver or the corporation.

(5) Separate books of account which are opened as provided in the foregoing shall be continued during the period of Federal control, notwithstanding the receivership may be terminated before the end of such control.

(6) All advices or instructions issued to receivers or accounting officers of roads in receivership which are in conflict with the foregoing are hereby canceled.

C. A. PROUTY,
Director, Division of Public Service and Accounting.

POSTAGE ON RED CROSS MAIL.

The Red Cross authorizes the following:

Attention has been called to the fact that much mail from America to Red Cross workers in France bears a 5-cent stamp. Members of families of Red Cross workers abroad and friends in this country should remember that mail for them, when addressed in care of the American Red Cross, is entitled to pass as American Expeditionary Force mail, which requires only 3 cents in postage.

COAL INSPECTORS TO COMPEL CLEAN FUEL FOR SHIP BUNKERS

The Fuel Administration issues the following:

To more effectually carry out the orders of the Fuel Administration relative to the clean preparation of coal 25 additional inspectors are being appointed. These additional inspectors will operate in the fields out of which is shipped coal for the Atlantic ports. They will be charged with the special duty of providing the highest quality of coal for the use of ships transporting men and materials through the submarine zone, for which purposes it is desirable that only the best coal be furnished. The slowing up of ships in the submarine zone by reason of poor coal is fraught with the gravest danger and the Fuel Administration will hold all shippers strictly accountable for the quality of coal shipped to tidewater for bunkering purposes.

Standard Fixed for Shippers.

The United States Fuel Administration has fixed the standard which shippers are required to observe to eliminate dirty coal from the ports and markets. It is expressly provided that "no bituminous coal shall be sold, shipped, or distributed if it contains such a quantity of rock, slate, bone, sulphur, fire clay, shale, or such other impurities that it would not have been considered merchantable prior to January 1, 1916."

It is the intention of the Fuel Administration to make use of every remedy and every agency at its disposal, to guarantee provision of the highest grade of coal for bunkering purposes. Primarily the duty of detecting dirty coal belongs to the inspectors appointed for that purpose, but a more strict surveillance of the output of the mines will be required of the district representatives, under whose jurisdiction the inspectors operate. The shipping of dirty coal, besides retarding the movement of the fleets using it, likewise involves a waste of labor, transportation, and time, all of which must be prevented.

Hold All Responsible.

The United States Fuel Administration will hold all shippers to a strict observance of the standard established in its order, and if it should transpire that the present regulations are ineffective more drastic measures will be put into effect.

PAYS $500 TO RETAIN LICENSE.

Action of New York Grain Firm Benefits Red Cross.

The United States Food Administration issues the following:

For unjustifiably rejecting a lot of buckwheat groats, and thereby causing a loss of $381.05 to the seller, Benjamin Kaufman & Sons, of New York City, after a hearing before the Federal Food Board, of New York, will pay $500 into the treasury of the Red Cross. They were permitted to do this in lieu of having their license to deal in foodstuffs revoked for two weeks.

The firm which lost through the Kaufmans' action waived its claim for the money in favor of the Red Cross.

POINTS IN SOUTHERN STATES MAY RECEIVE ILLINOIS COAL

The Fuel Administration has issued the following order:

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal in Illinois located along the Mobile & Ohio Railroad and short-line connections be permitted to make shipments to points outside of "zone C" as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called zoning system covered by his "order relative to bituminous coal zone C" of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war:

The United States Fuel Administration, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term includes every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Illinois located along the Mobile & Ohio Railroad and short-line connections in Illinois may, in addition to the territory to which they are permitted to ship under "zone C," sell, ship, and distribute such coal to dealers and consumers, for use and consumption within the following described section of the United States, viz:

All stations and points of delivery located on the Mobile & Ohio Railroad and short-line connections within the States of Tennessee and Mississippi, as far as to include Meridian, Miss., including all points of delivery within switching limits on other railway lines connecting therewith.

This order shall be effective on and after July 16, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

CIVIL SERVICE COMMISSION ANNOUNCES EXAMINATIONS

The United States Civil Service Commission announces open competitive examinations as follows:

List No. 1. Examinations of the non-assembled type, that is, those in which competitors are not assembled for scholastic tests, but are rated upon the subjects of education, training, and experience, and corroborative evidence. Applications for these examinations are received at any time: Press feeder, Government Printing Office and Hydrographic Office.

List No. 2. Examinations of the non-assembled type, for which applications must be filed by the dates specified: Curative workshop instructor, Medical Department, War Department, August 13; metal-mining engineer, assistant coal-mining engineer, assistant mining engineer, and junior mining engineer, Department of the Interior, August 13; economist and safety engineer, various services, August 20; investigator in city marketing, assistant in nematology, and assistant in agricultural technology, qualified as instrument maker, Department of Agriculture, August 20; special agent for agricultural education, special agent for home economics education, and special agent for trade or industrial education, Board for Vocational Education, August 20.

List No. 3. Examinations in which competitors will be assembled for scholastic tests: Editorial clerk, departmental service, July 24, August 21, and September 18; coder, War Department, August 7; veterinarian, lay inspector, grade 1, and laboratory aid, Department of Agriculture, August 21.

Full information and application blanks may be obtained by addressing the United States Civil Service Commission at Washington, or the civil-service district secretary at Boston, New York, Philadelphia, Atlanta, Cincinnati, Chicago, St. Paul, St. Louis, New Orleans, Seattle, or San Francisco.

Addresses of Men Cited in Communique For Special Honors

The War Department authorizes the publication of the following addresses and next of kin of members of the American Expeditionary Forces mentioned for special honors in Communique No. 58 of the general commanding:

Sergt. Joshua L. Broadhead, 103d Field Artillery, Battery A, killed in action April 20. Firth Broadhead, father, Maude Street, Providence, R. I.

Pvt. Edward L. Dion, 102d Infantry, Company C, slightly wounded April 20. Mrs. J. P. Dion, mother, 21 Francis Avenue, Hartford, Conn.

Pvt. (first class) Frank P. Gordon (files show Corpl. Frank P. Gordon), 103d Field Artillery, Battery E, killed in action April. 20. Mrs. R. P. Gordon, mother, 8 Park Grove, York, England.

First Sergt. Benjamin James, 101st Field Artillery, Battery A, slightly wounded April 21. Charles L. James, father, 52 Brown Street, Brookline, Mass.

Pvt. Willard S. Pauley, Machine Gun Battalion. No record.

Pvt. H. R. Johnson (files show Pvt. Harold R. Johnson), 102d Field Artillery, Headquarters Company, slightly wounded April 20. O. R. Johnson, father, 170 Reynolds Avenue, Providence, R. I.

Pvt. J. C. Parent (files show Pvt. Joseph C. Parent, 102d Field Artillery, Battery B. Arthur Parent, father, 117 South Main Street, Webster, Mass.

Corpl. James R. Thornley, 102d Infantry, Company C, slightly wounded April 20. Mrs. Ellen Thornley, mother, 66 Tuttle Street, Fall River, Mass.

Pvt. Jeremiah Tryon, 102d Infantry, Company C. Mrs. Harvey Coe, aunt, Saybrook, Conn.

Lieut. Col. Logan Feland, United States Marine Corps, Army Headquarters Company, 2d Division. Mrs. Logan Feland, wife, The Newport, Philadelphia, Pa.

Maj. J. S. Turrill, Marines. No record.

FUEL ADMINISTRATOR WIDENS SALE FIELD OF IOWA COAL MEN

The United States Fuel Administration has issued the following order:

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal located in the State of Iowa be permitted to make shipments to points outside of "zone A" as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called zoning system covered by his "order relative to bituminous-coal zone A" of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war:

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Iowa may, in addition to the territory to which they are permitted to ship under "zone A," sell, ship, and distribute such coal to dealers and consumers, for use and consumption within the following-described section of the United States, viz:

All stations and points of delivery in the State of South Dakota located along the Chicago & North Western Railway between Fairfax and Winner, S. Dak.

This order shall be effective on and after July 16, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

NEW MAIL AND EXPRESS SECTION.

The United States Railroad Administration issues the following:

Effective July 10, there has been created a section of express and mail in connection with the United States Railroad Administration. Mr. F. S. Holbrook, formerly vice president of Wells-Fargo Express Co., has been appointed manager under director of division of traffic. Mr. Holbrook's office will be with the division of traffic in the Interstate Commerce Commission Building. Mr. Holbrook's selection for this work follows his long experience in express and traffic matters. He will also have charge of matters concerning the handling of mails by the carriers under Federal control.

RECENT MARINE CORPS ORDERS.

June 4.

Q. M. Clerk R. J. McCreary appointed a quartermaster clerk, temporary, in Marine Corps, detached Guam to United States.

June 5.

Second Lieut. B. G. Barnwell appointed a second lieutenant (provisional) in class 5, Marine Corps Reserve Flying Corps, assigned duty with First Marine Aviation Force, Miami, Fla.

Marine Gunner Oscar C. Kline appointed a marine gunner (temporary) in Marine Corps, assigned duty at marine barracks, navy yard, Philadelphia, Pa.

The following-named officers were appointed second lieutenants (provisional) in class 5, Marine Corps Reserve Flying Corps, assigned duty with First Marine Aviation Force, Miami, Fla.:

Arthur H. Wright.
Sidney E. Clark.
William M. Bird.
Ralph Talbot.
Frederic C. Schley.

June 6.

Maj. C. B. Matthews detached Marine barracks, Paris Island, S. C., to Washington, D. C.

June 7.

Capt. J. J. FUEL ADMINISTRATOR FIXES PRICES OF UTAH BEEHIVE COKE

The United States Fuel Administration authorizes the following:

It appearing to the United States Fuel Administrator that various additional regulations should be put in force for the better control of the distribution of coke and of the prices at which the same may be sold, the United States Fuel Administrator, acting under an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that until further or other orders of said Fuel Administrator, and subject to modification by him at any time and from time to time hereafter, the following regulations additional to those already set forth shall be in effect beginning 7 a. m. July 9, 1918:

The maximum price f. o. b. cars at ovens, per ton of 2,000 pounds, for coke made in the State of Utah shall be $8.50 for smelting or furnace coke and $9.50 for 72-hour selected foundry coke.

The expression "72-hour selected foundry coke" shall cover only coke selected in accordance with the usual trade practice for foundry use, and the price named for 72-hour selected foundry coke shall in no case be charged for shipments to blast furnaces for smelting iron or other metal.

H. A. GARFIELD,
United States Fuel Administrator.

VACANCIES IN CIVIL SERVICE OPEN TO WOMEN ELIGIBLES

The Committee on Public Information issues the following:

Opportunities in Government work for women include the following, announced by the United States Civil Service Commission:

Bacteriologist: Vacancies in the Public Health Service, at $1,800 a year, will be filled from an open examination held throughout the United States on June 25, 1918. Applicants must have graduated from a college or university of recognized standing in a course including biology and bacteriology and have had at least two years' postgraduate experience in practical bacteriologic laboratory methods.

Copyist Draftsmen Needed.

Copyist draftsman: On account of the urgent needs of the service, applications for copyist draftsman will be received until further notice to fill vacancies in the Navy Department, Washington, D. C., at entrance salaries ranging from $2 to $3.44 a day. Applicants should state in their applications the class of drafting work to which they desire to be assigned, in case of appointment, such as ship, marine engine and boiler, structural steel, electrical, mechanical, ordnance, architectural, etc.

Cost Accountants.

Senior cost accountant and junior cost accountant: Vacancies in the cost accounting section of the finance division of the Ordnance Department, War Department, for duty in Washington, D. C., or in the field, will be filled from examinations for senior cost accountant, salary $2,200 to $4,200, and junior cost accountant, salary $1,200 to $2,000, ratings to be made on education and experience. Women as well as men will be eligible to these positions. Persons of military age accepting appointments will not thereby avoid the obligations of the selective-service law. Competitors will not be required to report for examination at any place.

Men and Women Biochemists.
